All five benchmarks have percentage or numerical targets which indicate the urgency and direction of change that must be achieved for community improvement. The Vision will track these benchmarks annually.

Ms. Smith thanked City Council for their financial and volunteer support noting that without the level of support, they would not have this common vision.

Ms. Smith responded to several questions from City Council regarding the benchmarks.

Mayor Sitnick thanked Ms. Smith for the update on the Vision process.

TRANSFER OF PROPERTY TO HENDERSON COUNTY - BREVARD ROAD SITE

Assistant City Manager Doug Spell said that this is consideration of executing a deed transferring property on Brevard Road to Henderson County as a part of the Water Agreement.

On November 11, 1995 the Regional Water Authority, City of Asheville, Buncombe County, and Henderson County entered into the Water Agreement. This agreement was a part of the overall provision of water service via the Mills River Water Treatment Plant.

At the January 20, 1998, City Council worksession, staff presented this item to Council for consideration. The City Council requested additional information which staff provided via a memorandum dated January 26, 1998, including copies of prior water agreements.

One condition which is a part of the aforementioned Water Agreement pertains to the City of Asheville transferring by deed property to Henderson County on Brevard Road (NC 191). The stipulation outlined in Section XXII of the Agreement indicates that Henderson County must convey the property to MSD to be used for a wastewater treatment plant site within ten (10) years or convey it to a regional water and sewer authority of which Henderson County, the Authority and Asheville are a part. If neither of these conditions are complied with within the 10 year date of the transfer of the deed to Henderson County the property automatically reverts back to the City of Asheville.

The City Attorney's office has reviewed the deed prepared by the attorney for the Regional Water Authority. The deed has been prepared to take into account the automatic reversion to the City of Asheville in the event the property is not utilized in accordance with the stipulations of the agreement.

Staff recommends that City Council authorize the Mayor to execute the deed transferring the property to Henderson County in accordance with the Water Agreement dated November 11, 1995.

Upon inquiry of Councilman Sellers, Mr. Spell said that the City purchased the Mills River site directly from the private property owners.

Mayor Sitnick, in no way felt that the City should not honor the condition in the Water Agreement which pertains to the City of Asheville transferring by deed property to Henderson County on Brevard Road, however, she did not remember that provision being explained by staff prior to signing and she was sorry that the City had agreed to that. Mr. Spell said that he would be happy to research the minutes during that time period and report back to Council.

Upon inquiry of Councilman Cloninger, Mr. Spell said that he was not aware if Henderson County has any plans to convey the property to MSD or if Henderson County has any plans to convey it to a regional water and sewer authority of which Henderson County, the Authority and Asheville are a part.

Councilwoman Field said that it was her understanding that from the very beginning of the negotiations, this was seen as an opportunity of a combination water/sewer deal.

Mayor Sitnick felt that City Council should review the Water Agreement and how it impacts the City taxpayers. She felt this would be a good worksession item.

City Manager Westbrook asked the City Attorney if there was some way to set up an automatic notification process to the City if that site is developed as a wastewater treatment plant site. City Attorney Oast said that the notification process has to occur by statute because there are certain permitting processes these facilities have to go through. That is the only thing that can be built on this property and if it's not built , it reverts back to the City.

Councilman Tomes was in favor of honoring our commitment if it is legal and binding, however, he still questioned the City's reasoning behind that portion of the agreement.

Mayor Sitnick about a rumor that a pesticide treatment plant may be located on the site of the Mills River Water Treatment Plant. Mr. Spell said that that issue was discussed at the Regional Water Authority meeting and what is being looked at is mix facilities where the individual growers would mix the chemicals - it is not actually a treatment process. This would be a mixing and handling facility.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORT ON MEMORIAL STADIUM

Mr. Irby Brinson, Parks & Recreation Director, said that the Parks and Recreation staff was asked to review the possibility of selling a portion of Memorial Stadium and report back with a recommendation to City Council.

On March 10, 1998, Asheville City Council rejected an offer from Robert Camille to purchase approximately 21 acres of property known as Memorial Stadium. City Council did take action by requesting staff to investigate the possibility of selling a five-acre tract of the 21 acres. This five acres represented the gated area of the Stadium which is currently used for recreation purposes. In addition, Council directed staff to investigate the expansion of renovations to Mountainside Park, assist in the funding of a veterans' memorial, and construct the youth sports complex at Richmond Hill. Based upon City Council's request, staff investigated the potential dollar value for selling the five-acre tract and determined that the appraised value of this tract would represent approximately $500,000 in revenue. It is estimated that the above changes in the scope originally outlined in the proposed sale of the Stadium would result in a project of over $1.5 million. In addition, since the March 10 City Council meeting, staff has not had any response from the public in regard to the availability of this property for purchase. Staff contacted Robert Camille to determine whether he would be interested in this proposal and Mr. Camille stated he was not interested. Therefore, based upon the above information, staff does not recommend selling the five acre tract portion of Memorial Stadium.

The Parks and Recreation staff recommends retaining Memorial Stadium and not pursuing the sale of this facility.

Upon inquiry of Mayor Sitnick, Mr. Brinson said that in the Master Plan there are 26 different park areas that staff will be looking at regarding improvements and Memorial Stadium is one of those site.

When Councilman Cobb asked if the City could put some ballfields on the Memorial Stadium property temporarily, Mr. Brinson said that you could build three very small fields but they can't accommodate the children over 13 who would continue on to Senior Babe Ruth. The fields would also hinder the use of outdoor volleyball and football program that currently use the property.

It was the consensus of City Council not to pursue the sale of Memorial Stadium.

UPDATE ON CHARLOTTE STREET CORRIDOR PLAN

Mr. Mike Matteson, Urban Planner, said that staff has been working for the past couple of years to prepare a plan to help guide the future development of Charlotte Street. The plan contains staff's recommendations which are based upon numerous meetings with many individuals with a stake or an interest in the street. It is staff's view that the plan's recommendations will assist in allowing Charlotte Street to develop in a manner that is beneficial to the City of Asheville, the property owners and tenants, as well as the residents of surrounding neighborhoods.

This draft will be modified to include additional comments from staff, members of the advisory committee and/or members of the community. Additionally, staff is in the process of formatting the plan (in a similar manner as previous small area plans) and incorporating numerous maps and graphics which help to illustrate the concepts and recommendations of the plan.

Staff has tentatively scheduled a community meeting to present the plan and receive input from the community. This meeting has tentatively been set for Thursday, May 28th at 7:00 p.m. at the Jewish Community Center. Following the community meeting, the plan will be presented to the Planning and Zoning Commission and then to City Council for formal review and adoption. Staff anticipates these public hearings to take place in June.

He then reviewed the following three goals of the Plan which staff hoped would benefit the property owners and the City in general:

(1) Vehicular and Pedestrian Circulation

- Improve the safety and efficiency of all modes of transportation within the Charlotte Street corridor
- Promote increased pedestrian activity as well as alternate means of transportation within the Charlotte Street corridor

(2) Land Use

- Continue the existing balanced mix of uses on Charlotte Street between commercial, residential, institutional and open space
- Encourage compatible new development that serves adjacent neighborhoods and helps to create an economically vibrant pedestrian environment

(3) Streetscape and Appearance:

- Improve the appearance of Charlotte Street and create a unique and unifying for the corridor

City Council discussed some specific items in the Plan and how the draft should be distributed.

Councilman Sellers felt this Plan will be an excellent example of a tool for the Haywood Road Corridor Plan

Mr. Jerry Bailey submitted a letter to Council dated May 18, 1998, to Mr. Mike Matteson, which states that his biggest problem with the Plan "is the emphasis placed on the findings and conclusions of the Charette process. Mike, we have continually been willing to find common ground on this process; however no commercial property owner along Charlotte Street supports this process and particularly the findings of the Charette." The letter then continues that "... our key and significant points on the Charette process that prevent our support (you will notice that we have had serious problems with the involvement of Jane Matthews in this process form the beginning)."

Mayor Sitnick thanked Mr. Matteson for his report and Mr. Bailey for bringing his concerns to the attention of City Council.

DOG PARK TASK FORCE REPORT

Mr. Irby Brinson, Director of Parks and Recreation, said that in January, 1998, the Parks and Recreation Department established a Dog Park Task Force which was formed by individuals who were interested in developing a dog park for the City of Asheville. This group has investigated various dog parks throughout the country and has developed criteria which they feel could be used for a development of a park in Asheville. Even though a location has not been determined, the Dog Park Task Force feels that it has made headway in determining a viable park for this community. The Task Force plans to present information on a prototypical park with various amenities which typically would be found in the park.

The Parks and Recreation Department and the Dog Park Task Force is asking City Council's into the feasibility of developing a dog park in Asheville.

Ms. Ann Weber, Chair of the Dog Park Task Force, reviewed the following: (A) "Dogmographics" - (1) dog families: half of all households - an important constituency; (2) dog ownership, dog care, and citizens' responsibilities; (3) local challenges to canine good citizenship; and (4) the work and mission of the Canine Coalition of Asheville/Dog Park Task Force; and (B) "Dogma" - (1) what dogs mean to us; (2) what dogs need from us; (3) what dog owners need from the City and community; and (4) off-leash dog parks: solutions and benefits offered.

She then outlined a request for an off-leash dog park in Asheville. The requirements include: (1) land: 2+ acres of park land within city limits (city-owned property); (2) community support and neighborhood cooperation: getting/keeping it!; (3) gated entry, rules, fencing and maintenance; (4) pathways, lighting, monitoring, and security; (5) central location, unimpeded access, adequate parking; (6) "honor system" participation, monitored/overseen by volunteer advisors; and (7) Canine Communication Center: a notice board and more! The rationale is (1) dog owners are a significant and deserving segment of City population; (2) responsible dog care requires space and opportunities for community; (3) location and access of dog park must be competitive with other sites; (4) committed, volunteer advisory group will oversee park activities; (5) matching funds will continually be sought for park development; and (6) as visitors learn to use the dog park well, new parks can be developed.

She reviewed "The Best Friends Bark Park" as (1) freedom with security; (2) socializing with people and dogs (3) providing needed service to a large "special interest" group of citizens; (4) removing the burden of inappropriate dog presence from fragile locations; and (5) a model of how one park can flourish - and others can be developed! She outlined the "Center for Canine Good Citizenship" (1) be visible proof of "our taxpayer dollars at work"; (2) geographic center for dogs and owners' socialization and education; (3) more efficient information distribution and dog tax collection; (4) happier, better-behaved dogs; (5) more responsible, responsive dog owners; and (6) a more humane City and community.

She then asked for Council's support in developing an off-leash dog park in Asheville.

It was the consensus of City Council to offer support to continue this process to continue working toward the development of an off-leash dog park in Asheville.

Mr. Jerry Rice suggested that the Dog Park Task Force approach the County about this because there is a lot of land in the City that the County owns and some of those lots are in places that can't be built on.

220

SUMMER YOUTH PROGRAM

Mr. Jeff Richardson, Personnel Director, said that this is the consideration of a budget amendment to provide funding for a Summer Youth Program ("SYP").

Asheville City Council has appropriated $100,000 since 1992 to fund a SYP. The program's purposes have been to employ "at-risk" City youth and to promote positive work ethics and healthy lifestyles. To qualify, applicants have had to be 14 - 19 years of age, a resident of Asheville and a student in a public or private school system. Household income has also been an indirect consideration.

1997 Summer Youth Program

- A decision to fund the program was made on April 22, 1997 via (Ordinance No. 2358) in the amount of $100,000 . Council recommended (1) designation of at least three slots from "One Youth At A Time" (OYATT), a job placement and training program. These youth were to go through the same recruitment and selection procedures as other participants; (2) incorporating applicable sections of the OYAAT training curriculum into the SYP training component and hire their instructors, if possible; and (3) evaluating the OYAAT and SYP efforts for future consideration.
- Seventy-two youth and one part-time Program Administrator/Counselor (30 hours per week @ $15.00 hourly) were hired.
- Youth were paid $4.65/hour and worked an average of 30 hours/week in various City Departments, United Way Agencies, Asheville Housing Authority and the Interdenominational Ministerial Alliance Summer Camp. Four (4) participants were also placed with OYAAT.
- Total direct cost was $101,195.

1998 Summer Youth Program

Current Issues For Consideration:

Current size of the program requires a program administrator to be hired. The City has utilized the same Program Administrator for the past five summers. He is not available for re-hire this summer.

Participating departments have expressed a desire to employ the youth 40 hours per week as opposed to 30 hours weekly.

Federal minimum wage law mandates $5.15 per hour (10% increase from last year).

OPTION A: Restructure Program. Pay youth a more competitive per hour wage ($5.50 hourly) and increase hours to 40 weekly. Eliminate the Program Administrator/ Counselor position and redesign the program to place more responsibility on the youth supervisor. Accept up to 25 of the top youth from last year's program. COST: $50,000 COST SAVING TO THE CITY: $51,195

OPTION B: Continue the program as currently designed. COST: $115,000

OPTION C: Discontinue the program and re-prioritize funding elsewhere.

Staff recommends Option A. Eliminate the Program Administrator. By decreasing the program's scope from 72 to 25, it will allow the program to be monitored internally by participating departments, along with the Personnel Department.

Mr. Richardson explained that a program administrator will be hard to find that can work for that time period with the right skills necessary.

Upon inquiry of Councilman Cloninger, Mr. Richardson explained the difference in responsibilities of the youth supervisor and the program administrator.

Upon inquiry of Councilman Cloninger, City Manager Westbrook said there are some non-profits that would be glad to take this program over but it has been staff's impression that City Council wanted a structured program and one that did not only have the youth work in summer for eight-hour days, but had additional training, like how to write a resume, how to conduct yourself during an interview, how to dress for a job, etc.

Mayor Sitnick suggested Mr. Richardson contact the Center for Creative Retirement who may have some people willing to donate their services. She also suggested contacting local colleges.

Councilman Tomes spoke very highly about the program and felt this was an excellent opportunity to help children with low self-esteem. He suggested Mr. Richardson contact Mr. Dwight Hulse at UNC-Asheville who, he felt, would be an excellent choice as program administrator.

Councilman Cobb suggested the City appropriate $100,000 for the program and ask for matching funds from the community.

After discussion on several different ideas for the program, City Council agreed upon funding the program at $100,000 with Mr. Richardson trying to find someone suitable for the program administrator with a 10% reduction in the number of kids being hired. Council also directed staff to begin looking at a philosophical change on the direction the program should take in the future and report back to Council in a memorandum form.

Mr. Jerry Rice felt (1) the age limit should be from 14-21 years; (2) the Chamber of Commerce should donate some money to the program; (3) the Blue Ridge Mental Health is a good resource for people who may want to volunteer their time in the summer; (4) retired teachers and special education teachers may be willing to work in the summer; and (5) churches should be approached to maybe adopt one child.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS FROM BOARDS AND COMMITTEES

Vice-Mayor Hay said that the Council Boards and Commissions Committee will be meeting next week to discuss several issues on different boards.

SIGN ENFORCEMENT

Mayor Sitnick stated that the City was continuing to make some progress in the elimination of illegal signs.

TROLLEY CARS

Mr. David Newman presented Council with an idea for two trolley cars to be run this summer on a trial basis as a service to the tourists who visit Asheville. He proposed that the cars would drop off and pick-up at the Grove Park Inn, several hotels, Pack Place, Biltmore Village and the Biltmore Estate. They propose to sell tickets at the Grove Park Inn and the other hotels. He felt the tourists would be served well by a different form of transportation other than City buses and taxi service. He questioned whether their stopping on City streets fall under any regulation by the City.

Councilwoman Field felt the idea was wonderful, however, she felt it might be confusing to the people where the trolleys stop when they find out they have to go to a hotel to buy a ticket. She suggested that people be allowed to purchase the trolley car tickets at other places, for instance, at Biltmore Estate, Pack Place or a shop in Biltmore Village.

Mr. Bill Kelly, from the Grove Park Inn, spoke in support of this venture and said that their trolley drivers would serve as tour guides.

Ms. Julia Cogburn, Planning & Development Director, felt this was a good idea and they would like to find a way to work out some of the legal concerns the City Attorney may have.

City Attorney Oast said that he would research the issue in terms of the City granting a franchise to the company. The franchise could contain certain terms and conditions that they must meet.

City Manager Westbrook said that he would recommend a franchise and asked Mr. Newman to put his proposal in writing. After City Council has an opportunity to review the information and recommendation by the City Attorney, the City Council can consider approval at that time.

UNIFIED DEVELOPMENT ORDINANCE ANNUAL REVIEW

It was the consensus of City Council to have the Planning staff bring to Council, at a worksession, the items they would like for Council to consider for possible amendments to the Unified Development Ordinance. The Planning & Zoning Commission members will be invited to the worksession. After the initial direction by City Council to staff, staff will be directed to prepare the appropriate ordinances for review by the Planning & Zoning Commission. After the Commission's review, City Council will hold public hearings, as appropriate, and consider adoption of the ordinance amendments.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - May 26, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE MONTHS OF MAY THROUGH NOVEMBER, 1998 AS "SHOW YOUR COLORS, AMERICA! MONTHS"

Mayor Sitnick read the proclamation proclaiming the months of May - November, 1998, as "Show Your Colors, America! Months" in the City of Asheville.

B. PROCLAMATION PROCLAIMING JUNE 4-11, 1998, AS "NURSE ASSISTANTS' WEEK' AND JUNE 4, 1998, AS "CAREER NURSE ASSISTANTS' DAY"

Councilman Cloninger read the proclamation proclaiming June 4-11, 1998, as "Nurse Assistants' Week" and June 4, 1998, as "Career Nurse Assistants' Day" in the City of Asheville and presented a proclamation to Ms. Chris Barger, Director of Nursing at Greentree. Ms. Barger briefed the Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING JUNE 12-13, AS "RELAY FOR LIFE DAYS"

Councilwoman Field read the proclamation proclaiming June 12-13, as "Relay for Life Day" in the City of Asheville and presented a proclamation to Ms. Mary Mesnard, 1998 Relay for Life Chairperson, and Ms. Shannon C. Fagan, Area Executive Director for the American Cancer Society. They briefed the Council on some activities taking place during those days.

D. PROCLAMATION PROCLAIMING MAY 29, 1998, AS "CHILD WATCH DAY"

Mayor Sitnick read the proclamation proclaiming May 29, 1998, as "Child Watch Day"" in the City of Asheville and presented a proclamation to Ms. Perry Van Dyke who briefed the Council on some activities taking place during the day.

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON JUNE 9, 1998, RELATIVE TO ADOPTION OF THE 1998-99 ANNUAL OPERATING BUDGET

B. ORDINANCE NO. 2473 - BUDGET AMENDMENT TO THE WATER MAJOR CAPITAL PROJECT ORIDNANCE (35 FUND) TO REFLECT THE TRANSFER OF REVENUE BOND RELATED PROJECTS TO THE 29 FUND, TO REIMBURSE THE 30 FUND FOR 1998-98 DISTRIBUTION SYSTEM

IMPROVEMENTS, TO FUND THE GLENDALE WATER LINE (NC DEPT. OF TRANSPORTATION PROJECT), AND TO PROVIDE FUNDING FUR FUTURE N.C. DEPT. OF TRANSPORTATION PROJECTS THROUGH FUTURE "CONTRIBUTIONS FROM OTHER FUNDS"

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund) to reflect the transfer of revenue bond related projects to the 29 Fund, to reimburse the 30 Fund for 97/98 Distribution System Improvements, to fund the Glendale Water Line (NC DOT), and to provide funding for future NC DOT projects through future "Contributions From Other Funds".

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance. This is a request to amend CPO 82-25 to reflect the following changes:

- Transfer the following expenses to the 29 Fund (Water Bond Capital Improvements Fund): the Phase II Master Plan Project ($565,779) and the South Buncombe Pump Station Phase II Project ($203,797). These bond related projects in the amount of $769,576 were funded in the 35 Fund prior to receiving $33 million in revenue bond proceeds in 1996. It is now necessary to transfer these expenses to the 29 Fund in order to provide adequate funding in the 35 Fund for other capital projects. This will result in an increase of $769,576 in equity in pooled cash in the 35 Fund.
- Reflect the reimbursement of $470,663 to the 30 Fund (Operating Budget) per the revised FY 97/98 Operating Budget. On September 16, 1997, the Authority approved the transfer of $470,663 from the 30 Fund (Operating Fund) to provide funding for the 97/98 Distribution System Improvements. As a part of the revisions to the Operating Budget that were approved in December 1997, the Authority authorized the postponement of the 97/98 Distribution System Improvements and the transfer of the $470,663 back to the operating budget.
- To fund Glendale Water Line (NC Department of Transportation Project) in the amount of $5,000. This is a replacement of a 6" waterline that was abandoned when the old bridge was torn down. This project includes a new bridge and a new 6" water line. We are expected to contribute 20% and NC DOT will contribute the other 80%.
- To authorize funding for the following future NC Dept. of Transportation Projects in the amount of $2,891,960:

◊	Biltmore Viaduct	$160,000
◊	I-40 at US 25A (Sweeten Creek)	295,504
◊	NC 151 Pisgah Hwy	121,440
◊	US 74/I-40 Interchange (Phase I)	994,179
◊	US 74 Phase II	1,088,176
◊	US 70/74 Tunnel Road & Haw Cr.	232,661

The Regional Water Authority approved a resolution amending and restating Capital Project Ordinance 82-25 on March 17, 1998.

Staff recommends adoption of the budget amendment which will reflect the transfer of revenue bond related projects to the 29 Fund, to reimburse the 30 Fund for 97/98 Distribution System Improvements, to fund the Glendale Water Line (NC DOT), and to provide funding for future NC DOT projects through future "Contributions From Other Funds".

C. RESOLUTION NO. 98-53 - RESOLUTION AUTHORIZING THE EXECUTION OF A UTILITY AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE IMPROVEMENTS OF U.S. 25A (SWEETEN CREEK ROAD), SR 3081 (ROCK HILL ROAD) AND SR 3079 (ROBERTS ROAD) NEAR ASHEVILLE

Summary: The consideration of a resolution to authorize the Mayor to sign a municipal agreement with the N. C. Dept. of Transportation ("NC DOT") for improvements of US 25A (Sweeten Creek Road), SR 3081 (Rock Hill Road) and SR 3079 (Roberts Road.)

The NC DOT's preliminary estimate was $76,000 for the sidewalk with the City's portion being 40% of estimated cost of $30,400. The City shall participate in 40% of the cost of the sidewalks. The NC DOT shall participate in 60% of the cost of the sidewalks up to a maximum of 2% of the actual construction cost. All costs which exceed the 2% cap shall be borne by the City. Construction is scheduled to begin in 1999.

The funds ($30,400) for this project has been budgeted in line item 62-430-15-488-02-4410.

A water line may need to be relocated as a result of this construction, but the design is not complete at this time. When the design is finalized then staff will request City Council and the Regional Water Authority to approve funds necessary to relocate the water line.

Staff recommends that City Council authorize the Mayor to sign the Municipal Agreement for improvements of US 25A (Sweeten Creek Road), SR 3081 (Rock Hill Road) and SR 3079 (Roberts Road).

RESOLUTION BOOK NO. 24 - PAGE 387

D. RESOLUTION NO. 98-54 - RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS TO THE US 74, SR 2775 (REED CIRCLE) AND SR 3136 (CANE CREEK ROAD) FOR THE RELOCATION AND UPGRADE OF WATER LINE THAT WILL BE IN CONFLICT WITH HIGHWAY CONSTRUCTION

Summary: The consideration of an agreement with the NC Dept. of Transportation for improvements to the US 74, SR 2775 (Reed Circle) and SR 3136 (Cane Creek Road) for the relocation and upgrade of water lines that will be in conflict with highway construction.

The NC Dept. of Transportation will design and relocate the water line during construction of street and highway improvements. The project includes the relocation of 2,997 linear feet of 6-inch water mains, 109 linear feet of 8-inch water mains, and 16,514 linear feet of 12-inch water mains with valves and other appurtenances along the US 74, SR 2775 (Reed Circle) and SR 3136 (Cane Creek Road) for construction of a highway. The preliminary estimated cost of upgrade of the water lines is $1,088,176.00. This agreement states that the Municipality (City of Asheville) will reimburse NC DOT for cost associated with the relocation of water lines in three (3) equal annual installments plus interest on the unpaid balance, with the first payment due upon completion of the project. NC DOT will submit an itemized invoice, within sixty days, to the City of Asheville for cost incurred during construction. This project has been approved as a future commitment by the Regional Water Authority of Asheville, Buncombe and Henderson. This project starts April of 1998. This agreement states that the Municipality obligates itself to service and maintain facilities along the highway within the NC DOT right of way limits in accordance with the mandate of the North Carolina General Statutes.

Staff recommends that City Council authorize the Mayor to sign the Municipal Agreement for improvements to US 74, SR 2775 (Reed Circle) and SR 3136 (Cane Creek Road).

RESOLUTION BOOK NO. 24 - PAGE 388

E. RESOLUTION NO. 98-55- RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS AT NC 151/PISGAH HIGHWAY FROM SOUTH OF SR 1117 (FOWLER MOUNTAIN ROAD) TO 0.2 MILES SOUTH OF US 19-23-74 TO RELOCATE WATER LINES THAT WILL BE IN CONFLICT WITH HIGHWAY CONSTRUCTION

Summary: The consideration of an agreement with the NC Dept. of Transportation for improvements at NC 151/Pisgah Highway from south of SR 1117 (Fowler Mountain Road) to 0.2 miles south of US 19-23-74 to relocate water lines that will be in conflict with highway construction.

The NC Dept. of Transportation will include in its construction contract provisions to relocate and adjust certain city-owned water lines located along the project area. This project includes the relocation of 715 linear feet of 8-inch water mains, and 1,820 linear feet of 6-inch water mains, valves and other appurtenances along NC 151/Pisgah Highway. The preliminary estimated cost of relocation of the water lines is $121,440.00. This agreement states that the Municipality (City of Asheville) will reimburse for cost associated with the relocation of water line and upon completion of work NC DOT will submit an itemized invoice to the City of Asheville for cost incurred during construction. This project has been approved as a future commitment by the Regional Water Authority of Asheville, Buncombe and Henderson. This project started October 27, 1997 and will be completed in June, 2000. This agreement states that the Municipality obligates itself to service and maintain facilities along the highway within the NC DOT right of way limits in accordance with the mandate of the North Carolina General Statutes.

Staff recommends that City Council authorize the Mayor to sign the Municipal Agreement for improvements on NC 151/Pisgah Highway from south of SR 1117 (Fowler Mountain Road) to 0.2 miles south of US 19-23-74, Project Number R-2116B.

RESOLUTION BOOK NO. 24 - PAGE 389

F. RESOLUTION NO. 98-56 - RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS AT US 74 FROM I-40 INTERCHANGE SOUTHWEST TO SR 2775, WHICH INCLUDES MINE HOLE GAP FOR THE RELOCATION AND UPGRADE OF A 6-INCH AND 8-INCH WATER LINE THAT WILL BE IN CONFLICT WITH HIGHWAY CONSTRUCTION

Summary: The consideration of an agreement with the NC Dept. of Transportation for improvements at US 74 from I-40 Interchange southwest to SR 2775, which includes Mine Hole Gap for the relocation and upgrade of a 6-inch and 8-inch water line that will be in conflict with highway construction.

The NC Dept. of Transportation will design and relocate the water line during construction of street and highway improvements. The project includes the relocation of 6,850 linear feet of 12-inch water mains, 11,750 linear feet of 8-inch water mains and 3,250 linear feet of 6-inch water mains valves and other appurtenances along US 74 due to widening of highway to five lanes. The preliminary estimated cost of upgrade of the water lines is $994,179.00. This agreement states that the Municipality (City of Asheville) will reimburse NC DOT for cost associated with the relocation of water lines and upon completion of work NC DOT will submit an itemized invoice to the City of Asheville for cost incurred during construction. This project has been approved as a future commitment by the Regional Water Authority of Asheville, Buncombe and Henderson. This project starts February, 1998 and will be completed in February 2001. This agreement states that the Municipality obligates itself to service and maintain facilities along the highway within the NC DOT right of way limits in accordance with the mandate of the North Carolina General Statutes.

Staff recommends that City Council authorize the Mayor to sign the Municipal Agreement for improvements of US 74 from I-40 interchange southwest to SR 2775 which includes Mine Hole Gap.

RESOLUTION BOOK NO. 24 - PAGE 390

G. RESOLUTION NO. 98-57 - RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS TO THE INTERSECTION OF US 70-74 (TUNNEL ROAD) AND SR 2863 (HAW CREEK LANE) FOR THE RELOCATION AND UPGRADE OF WATER LINE THAT WILL BE IN CONFLICT WITH HIGHWAY CONSTRUCTION

Summary: The consideration of an agreement with the NC Dept. of Transportation for improvements to the intersection of US 70-74 (Tunnel Road) and SR 2863 (Haw Creek Lane) for the relocation and upgrade of a water line that will be in conflict with highway construction.

The NC Dept. of Transportation will design and relocate the water line during construction of street and highway improvements. The project includes the relocation of 540 linear feet of 30-inch water main with valves and other appurtenances along the intersection of US 70-74 (Tunnel Road) and SR 2863 (Haw Creek Lane) for construction of a highway. The preliminary estimated cost of upgrade of the water lines is $232,660.50. This agreement states that the Municipality (City of Asheville) will reimburse NC DOT for cost associated with the relocation of water lines in three (3) equal annual installments plus interest on the unpaid balance, with the first payment due upon completion of the project. NC DOT will submit an itemized invoice to the City of Asheville for cost incurred during construction. This project has been approved as a future commitment by the Regional Water Authority of Asheville, Buncombe and Henderson. This project starts March of 1998. This agreement states that the Municipality obligates itself to service and maintain facilities along the highway within the NC DOT right of way limits in accordance with the mandate of the North Carolina General Statutes.

Staff recommends that City Council authorize the City Manager to sign the Municipal Agreement for improvements to the intersection of US 70-74 (Tunnel Road) and SR 2863 (Haw Creek Lane) interchange.

RESOLUTION BOOK NO. 24 - PAGE 391

H. RESOLUTION NO. 98-58 - RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS OF I-40 AT US 25A (SWEETEN CREEK ROAD) FOR THE RELOCATION AND UPGRADE OF WATER LINE THAT WILL BE IN CONFLICT WITH HIGHWAY CONSTRUCTION

228

Summary: The consideration of an agreement with the NC Dept. of Transportation for improvements of I-40 at US 25A (Sweeten Creel Road) for the relocation and upgrade of water lines that will be in conflict with highway construction.

The NC Dept. of Transportation will design and relocate the water line during construction of street and highway improvements. The project includes the relocation of 312 linear feet of 6-inch water mains, 970 linear feet of 8-inch water mains, 165 linear feet of 16-inch water mains and 2,964 linear feet of 24-inch water mains with valves and other appurtenances along I-40 at US 25A (Sweeten Creek Road for construction of an interchange. The preliminary estimated cost of upgrade of the water lines is $295,504.00. This agreement states that the Municipality (City of Asheville) will reimburse NC DOT for cost associated with the relocation of water lines and upon completion of work NC DOT will submit an itemized invoice to the City of Asheville for cost incurred during construction; which shall be paid within sixty (60) days of the date of invoice. This project has been approved as a future commitment by the Regional Water Authority of Asheville, Buncombe and Henderson. This project starts fall of 1998. This agreement states that the Municipality obligates itself to service and maintain facilities along the highway within the NC DOT right of way limits in accordance with the mandate of the North Carolina General Statutes.

Staff recommends that City Council authorize the Mayor to sign the Municipal Agreement for improvements of I-40 and US 25A (Sweeten Creek Road) interchange.

RESOLUTION BOOK NO. 24 - PAGE 392

I. RESOLUTION NO. 98-59 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FIFTH MODIFIED GRANT AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR PHASE III TERMINAL EXPANSION

Summary: The City is required by law to execute certain contracts and agreements for the Airport Authority. This Fifth Modified Grant Agreement is to allow the Authority to receive additional matching funds from the Dept. of Transportation ("DOT") for the Phase III Terminal Expansion.

Airport Director Jim Parker advises that the Terminal Expansion project was financed almost entirely with bond money, and that it was completed several years ago. The estimated cost of the project was $3.63 million and DOT's projected commitment under the State Aid to Airports program is approximately half of the estimate. Because of budgetary limitations, this entire amount was not available when the project was completed, and DOT has been making "installment" allocations of $300,000 or $200,000 on a yearly basis, as funds become available. In order for these allocations to continue, the Grant Agreement must be extended for another year, even though the project has been completed.

The $200,000 allocation for this year will still not complete the DOT's program commitment.

J. RESOLUTION NO. 98-60 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A GRANT AGREEMENT WITH THE FEDERAL AVIATION ADMINISTRATION FOR PHASE III OF RUNWAY 16

Summary: This grant from the Federal Aviation Administration, in the amount of $652,731 consists of a project to construct extended runway safety area, Runway 16 (Phase III).

RESOLUTION BOOK NO. 24 - PAGE 394

K. ORDINANCE NO. 2474 - ORDINANCE REDUCING THE SPEED ON LINDSEY ROAD TO 15 MILES PER HOUR AND ON CHEROKEE ROAD TO 20 MILES PER HOUR

Summary: The City 's Traffic Engineer has performed the necessary traffic analyses associated with the above mentioned locations as per the Manual on Uniform Traffic Control Devices and the North Carolina Supplement. We are seeking authorization from the City Council to change these speed limits.

Change to 15 MPH:	Change to 20 MPH:
(1) Lindsey Road (Entirety)	(1) Cherokee Road (Entirety)

These locations have been reviewed over the past 12 months as per the request of residents and motorists who utilize these roadways. Field surveys and speed studies were conducted and data reviewed based upon the 85th percentile speed, which is the speed at or below which 85 percent of the vehicles are moving. This speed is reviewed in relationship to the median speed and the pace speed range. The pace speed range is the range of speeds at which the largest concentration of motorists drive. These speeds were all reviewed to address the speeding problems in these areas.

1. Lindsey Road

   A speed study was conducted along Lindsey Road per the request of citizens in this area. The residential nature of this roadway vertical/horizontal alignment and width suggest that the speed limit needs to be 15 MPH. The Asheville Police Department concurs with our recommendation.

2. Cherokee Road

   A speed study was conducted along Cherokee Road per the request of citizens in this area. The residential nature of this roadway vertical/horizontal alignment and width suggest that the speed limit needs to be 20 MPH. The Asheville Police Department concurs with our recommendation.

ORDINANCE BOOK NO. 16 - PAGE 468

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Vice-Mayor Hay moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO COSNDIER A CONDITIONAL USE APPROVAL AND PERMIT FOR A DUPLEX AT THE CORNER OF LONDON ROAD AND SHADY OAK DRIVE

At the request of staff due to an advertising error, Councilman Tomes moved to reschedule this public hearing until June 9, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. PUBLIC HEARING RELATIVE TO THE DEMOLITION OF 22 SULPHUR SPRINGS ROAD

ORDINANCE NO. 2480 - ORDINANCE TO DEMOLISH 22 SULPHUR SPRINGS ROAD

Mayor Sitnick opened the public hearing at 5:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Terry Summey, Director of Building Safety, said that the structure located at 22 Sulpher Springs Road is a dilapidated structure. The Owners Gabriel and Livia Ferrari have not responded to the order of the Director Designee of the Building Safety Department to repair or demolish this structure. This structure was inspected by Building Safety Department staff on August 21, 1997, with the aid of a administrative search warrant. The Building Safety Inspector sent a correction order to the property taxpayer of record on August 22, 1997. There was no response. A formal hearing was then scheduled and held on December 10, 1997. The owners did not appear. Based on the evidence presented at that hearing, the Building Safety hearing officer moved to order the owners to obtain a building permit for demolition or repair of said structure within 15 days of receipt. The owners would then have an additional 60 days to commence work. As of April 20, 1998, no application for a building permit had been submitted to the permit office. Building Safety Inspectors found the following conditions, which have been documented by videotape:

- The dwelling does not have electrical service and the electrical wiring was removed.
- The dwelling has an internal and external accumulation of garbage.
- The dwelling does not have a safe source of hot water supply.
- The dwelling does not have stairways connecting the 2nd floor and 1st floor as well as the 1st floor and the basement level except a standard workman's ladder. The openings are not covered to keep persons from falling through.

A letter was sent notifying all nonprofit agencies listed in the Minimum Housing Code for their assistance in this matter. No response has been received.

N.C.G.S. 160A-443(5) authorizes the City Council to direct by ordinance the demolition of a dilapidated structure such as 22 Sulpher Springs Road subsequent to failure of the owners Gabriel and Livia Ferrari to demolish or repair as described above. N.C.G.S. 160A-443(6) authorizes placement of a lien on the property to recover the cost of a demolition so ordered by City Council.

The following is an overview of some general information regarding this property:

- Fair market value of structure is $26,400.00;
- Estimated value to rebuild the structure only is $70,928.00;
- Land value without the structure is $29,500.00; and
- Estimated cost to demolish the structure is $9,000.00.

The Director of Building Safety Department recommends adoption of the ordinance to demolish 22 Sulpher Springs Road.

Upon inquiry of Councilman Tomes if every effort has been made to meet with the owners so see why he has not been able to repair the violations, Mr. Summey said that based on written information, there have been discussions dating back to the early 1990's. In 1995 the owners had temporary electrical service and a permit to bring it up to Code. However, the permit expired and the temporary electrical service was removed. Then in 1997, the City began its attempt to inspect the house again to see if it met Code. At that point in time, the owners refused to let the City inspect the house and they had to obtain an administrative warrant to do the inspection. He personally spoke to the owners at length about the condition of the house and what needed to be done to bring it up to Code. He felt that Mr. Ferrari's beliefs are contrary to the standards the City has in their Housing Code. Mr. Summey felt Mr. Ferrari is fully aware of the things that need to be done but he has shown no interest in repairing anything.

Upon inquiry of Councilman Cobb, Mr. Summey said that the house was involved in a fire in the late 1980's. It is his understanding that the Ferraris bought the house after the fire from the previous owners and the Ferraris are occupying the house without ever obtaining approval to move into it.

Mr. Gabriel Ferrari, co-owner of 22 Sulphur Springs Road, stressed to Council that he has been "persecuted over nine years because he brought the work commanded by the heavenly father." He said when they bought the house, they did not know that a man died in the house. He has experience in fire investigation and has seen traces of arson where the man died. Because it is his duty, he has sent letters to the District Attorney advising of his findings. He said in 1997 a conspiracy began of Asheville city officials against him. He said what Mr. Summey reports is 80% not true. The said that 3/4 of the house is dedicated to the school of surviving skills which is a Buncombe County, non-profit, non-tuition religious adult school. He suggested a compromise of power in the front left wing and one portion of the house.

Mayor Sitnick asked if there was a reason the house has not been brought up to Code considering the number of occasions, number of requests and number of years where the Building Inspections Department and the Housing Code Department has informed them of the violations. She asked if Mr. Ferrari understood that the City has a consistent rule for everyone who lives in Asheville and that everyone has to abide by the same laws.

Mr. Ferrari said the last conversation he had with Larry Lowe, a retired housing inspector, he said that he could not finish repairs until the criminal investigation was through. To do otherwise would force him to get rid of the evidence at the house. He felt it was not a matter of refusing to comply to the City Code, he felt it was a criminal matter. He said he would finish the repairs if he could get the power turned back on.

When Councilman Tomes asked what the status of the investigation was, Mr. Ferrari said that the District Attorney refused to investigate. He said, however, that the State Attorney, the Director of the FBI, Janet Reno, and the International Association of Human Rights know about the persecution he has endured here in Asheville.

Upon inquiry of Councilman Sellers, Mr. Summey said that he has no knowledge of an on-going investigation. City Attorney Oast said that the only knowledge he has of that investigation is that following the fire, there was a fire inspection both as to cause and to the extent of the damage. As far as he knows, that has been concluded. The rest of the incidents Mr. Ferrari is alluding to, he is not aware of.

Councilwoman Field asked if the City orders the demolition, what rights do the owners have. City Attorney Oast said that the ordinance can be contested in the same way that other ordinances Council adopts can be contested. If Council adopts the ordinance today, it would not mean that the house would be demolished tomorrow. There would be some period of time (probably months) where, because if the owner refuses to vacate, the City would have to evict him and we would also have to solicit proposals for the demolition, etc.

Mayor Sitnick said that electrical wiring has a great deal to do with safety and she doesn't know what that would have to do with an investigation of a fire nine years ago. The dwelling has internal and external accumulate of garbage which has nothing to do with an investigation. That has to do with respect for the owner's and neighbor's property. The dwelling does not have a safe source of hot water supply. Again, bringing the house up to Code to have hot water doesn't appear to be to be part of any on-going or concluded investigation. The fact that there are no stairways connecting the second floor to the first floor or the first floor to the basement level, doesn't seem to have anything to do with a concluded or an on-going investigation. The openings that lead to those floors are not covered and could pose a safety concern to the people who live there. Her concern is that the owners are speaking about an investigation of something that occurred nine years ago - none of which has to do with the building safety inspector's desire to have the house brought up to Code.

Mr. Ferrari said the house has two stairs in the basement and then explained that he was put in jail so that the City could get into his basement to see if he had an arsenal there. It was then that he realized that the City wanted to condemn the building and place an explosive device in the basement. He said the hot water was in place but the City disconnected the gas when he was under false arrest. Regarding the accumulation of garbage, he said he was demolishing 700 feet of old wood fence around the property and was going to take it to the dump. However, the floor on his van was destroyed and the City refused to help him get rid of the old fencing. He has since rented a vehicle to remove the debris.

Councilman Cobb asked about the two vehicles in the front of his property without tags and asked if the bus in the backyard was tagged. Mr. Ferrari said that he just bought the bus and it will be tagged. He said that he will probably get rid of the van but the other vehicle might be fixed. He then stated that he would probably get rid of them both.

When Councilman Cobb asked why the Ferraris did not attend the hearing on December 10, 1997, Mr. Ferrari said that he was scared and thought they wanted to kill him.

Mayor Sitnick said that it was her understanding that if Council votes to demolish this residence today, Mr. Ferrari still has time to bring the house up to Code. City Attorney Oast said that there will be some time because of our processes between the effective date of the ordinance and when the demolition is effected. He said that Mr. Ferrari could obtain the appropriate building permits to bring the house up to Code. It is the kind of thing that happens a lot of times, when houses are found to be dilapidated as this one is. He did point out to Council that there was a hearing at which point Mr. Ferrari could have contested whether the house was dilapidated or not. There was a right of appeal from that to the Board of Adjustment and from there to Superior Court. However, Mr. Ferrari didn't take advantage of that hearing.

Ms. Livia Ferrari, co-owner of 22 Sulphur Springs Road, said that her husband is speaking the truth and there are a lot of lies in the report. She was told that the house has a sound foundation and sound structure and her husband did more than the Code required. She said three years ago her electricity was cut off illegally. They did nothing wrong. As soon as they moved, someone stole the building permit from City Hall. It is clear that someone wants the house demolished.

Mayor Sitnick asked why the Ferraris didn't come in for the hearing on December 10 so they could express the things they are expressing now. Mrs. Ferrari responded that her husband was afraid to go to the hearing. She also said that they were sick that day and called in the morning and said they couldn't come.

When Mrs. Ferrari said that her husband wants electricity in some of the house, Mayor Sitnick explained that everyone has to obey the same rules. Everyone has to have electricity throughout their house and since they are asking for electricity in only part of the house, they are asking for special treatment. Mayor Sitnick reiterated that had they gone to the hearing on December 10, they would have had the opportunity to go before the Board of Adjustment and request the variance you are requesting now.

Mrs. Ferrari said that they wanted to go, but "they wanted to kill" them.

Mr. James Boehm, adjoining property owner, said that there was all kinds of trash, rats and snakes that come onto his property from the yard at 22 Sulphur Springs Road. He said that the garbage is not gone from the property, just covered up with tarps. He has signs all over his property, several directed toward his house with his house number on it making threats to his family. He has signs threatening toward the City itself. For the past nine years, he has been living in the house in direct violation of the Code and has had nine years to correct the Code violations and he hasn't done any of it.

When Mayor Sitnick asked why it has taken nine years for the City to do anything, Mr. Summey said that he was not sure when Mr. Ferrari started living there, however, sometime after 1995 it came to his attention they were living there. The neighborhood started complaining about all the issues regarding this property and that's really what brought this to light. Normally they don't take action on someone who is living in a structure, even if it's substandard. He said they would go in and try to eliminate the things that are substandard. In this case, when they went in, the immediate thing that stood out was there was a gas water heater not vented properly. They could have been killed from the carbon monoxide so they cut the gas off. The City does try to eliminate hazards that they see. Again, they do continue to let people live in houses they should not live in. However, in this case there is no effort on the owners part to bring anything up to Code so they are to the point of where demolition is what they are seeking.

Councilman Tomes recognized that they may be a language problem and wondered if there was a reputable scholar that could be contacted to help mediate this process. He senses that when Mr. Ferrari is talking about the school, he is talking about a religious practice of his faith. He wants to be sensitive of that, but also to help him understand that we cannot, even with religious practices, have two sets of standards.

Mr. Summey felt that Mr. Ferrari understands a lot of the things required of him, but the things that need to be done need to be done by a licensed contractor to correct the work. Mr. Ferrari doesn't understand Codes. For instance, even the plumbing system is not vented property. It is just a multitude of things throughout the house that Mr. Ferrari has done but they don't meet the Code. The only really way he could bring this up to standards is for him to be able to hire a contractor to come in and do the work. There is not even a smoke detector in the house - just basic life safety things that should be there before the house is even occupied.

Again, Councilman Tomes wondered if the City could find someone to clearly help Mr. Ferrari understand the concerns here. Mr. Summey said that Mr. Ferrari's issue is more of a life style issue. He is trying to live a self-sufficient lifestyle without a lot of the things that most people have. Mr. Ferrari told him that he didn't want an electrical system per the Code because it is hazardous to his health and causes cancer.

Councilman Tomes said that if Mr. Ferrari is going to occupy the dwelling, that there are specific requirements that must be met. He explained that Mr. Ferrari can have the service terminated as long as it comes up to Code. Councilman Tomes is just trying to process cultural differences that he is sensing to make sure that we have covered all bases.

Mr. Summey said that he told Mr. Ferrari that if he brought his house up to electrical code, he could go to the circuit breaker and cut his electricity off. It would be his choice, but the house would be brought up to Code. He could still live the lifestyle he chooses to live, however, he chooses not to do that.

Councilwoman Field said that another issue is that this is an urban environment and if his house catches on fire, then that is a threat to his neighbors. He is not living out in the country where you are 1/2 acre away from the next residential use. There was to be some respect for the requirements of the rest of the people who live in this neighborhood. It sounds like he totally understands what needs to be done.

When Mayor Sitnick asked if the signs in the yard are permitted uses, Mr. Summey replied that there are violations on all the signs.

Mayor Sitnick closed the public hearing at 6:17 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2480. This motion was seconded by Councilman Cobb.

Councilman Tomes hoped that during the process of moving toward demolition, that Mr. Ferrari would be willing to comply with the request. If the house can be brought up to Code, he would like to see that pursued even if we have to put a time constraint on that to ensure that he complies and then let him make the decision after having complied whether he wants to utilize the electricity or not.

Mayor Sitnick requested that the Ferraris strongly consider bringing the house up to Code so that the City doesn't have to proceed with demolishing their home. She said they have heard from the inspectors that the house is not up to Code. She hoped that the Ferraris would work with Building Inspections to bring the house up to Code.

When Mr. Ferrari said that he needed power, Councilwoman Field said that temporary power can be obtained with a building permit.

The motion made by Councilman Sellers and seconded by Councilman Tomes carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 470

C. PUBLIC HEARING TO ZONE SECTION 9 OF BILTMORE PARK RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY

ORDINANCE NO. 2481 - ORDINANCE TO ZONE SECTION 9 OF BILTMORE PARK RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY AND RS-8 RESIDENTIL SINGLE-FAMILY HIGH DENSITY

Mayor Sitnick opened the public hearing at 6:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is consideration of an ordinance to zone Section 9 of the Biltmore Park Subdivision to RS-4 Residential Single-Family Medium Density District and RS-8 Residential Single-Family High Density District.

This is newly annexed land, and this is the first zoning for this property. The use is currently residential.

The eastern part of Section 9 consists of 29 residential lots, most of which exceed one quarter acre in size. None of the lots is one half acre or larger, thus precluding zoning of RS-2 Residential Single Family Low Density District. To zone the area RS-8 Residential Single-Family High Density District would not be in keeping with the plated character of the area.

The character of the area is more in keeping with the neighboring lots to the north and east of the area, and which are already zoned RS-4. Although some lots may be non-conforming, the setbacks shown on the recorded subdivision plats meet the requirements of the RS-4 District. Under certain circumstances, the Unified Development Ordinance could create the need for the non-conforming lots to be merged with neighboring lots to create conforming lots. This is presently being explored with the applicant.

The remainder of Section 9, 27 residential lots totaling 4.046 acres, is plated at a density greater than four units per acre, and with the exception of three lots, slightly less than eight units per acre. The plated setbacks of the three lots, which are less than one eighth acre in size, meet the requirements of the RS-8 district. Under certain circumstances, the Unified Development Ordinance could create the need for the non-conforming lots to be merged with neighboring lots to create conforming lots. This is presently being explored with the applicant.

The City Planning and Development staff recommends RS-4 and RS-8 zoning for Section 9 of the Biltmore Park Subdivision. At their meeting of May 6, 1998, the Planning and Zoning Commission recommended 5-0 to approve the proposed zoning.

Upon inquiry of Councilman Cloninger about who the owners of the lots are in case there is a possible conflict of interest, Mr. Black said that he did not know who the owners were.

Mayor Sitnick closed the public hearing at 6:25 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2481. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 482

D. PUBLIC HEARING TO ZONE SECTION 10 OF BILTMORE PARK RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY

ORDINANCE NO. 2482 - ORDINANCE TO ZONE SECTION 10 OF BILTMORE PARK RS-2 RESIDENTIAL SINGLE FAMILY LOW DENSITY

Mayor Sitnick opened the public hearing at 6:26 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to zone Section 10 of the Biltmore Park Subdivision to RS-2 Residential Single-Family Low Density District.

This is newly annexed land, and this is the first zoning for this property. The use is currently residential. Section 10 is 3.935 acres. This section has been joined to Lot 15, already in the City, and already zoned RS-2. Section 10 is also adjacent to an area already zoned RS-2.

The City Planning and Development staff recommends RS-2 zoning for Section 10 of the Biltmore Park Subdivision. At their meeting of May 6, 1998, the Planning and Zoning Commission recommended 5-0 to approve the proposed zoning.

Mayor Sitnick closed the public hearing at 6:27 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2482. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 474

E. PUBLIC HEARING TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS AT 9 EAST STARNES COVE ROAD IN A RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 2483 - ORDINANCE TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS AT 9 EAST STARNES COVE ROAD IN A RS-4 RESIDENTIAL SINGLE FAMILY MEDIUM DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 6:28 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to apply the Manufactured Home Overlay to two lots at 9 East Starnes Cove Road in a RS-4 Residential Single Family Medium Density District.

The composition of this residential neighborhood has several manufactured homes scattered throughout the surrounding area with a manufactured home park (which has the Manufactured Home Rental Community and the Manufactured Home overlay) adjoining this property to the east.

The 2010 Plan indicates the surrounding area to be low density residential which the current RS-4 zoning permits. These two lots were rezoned in September of 1995 from commercial to residential.

This property borders the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended approval of the Manufactured Home Overlay district for these two lots. At the May 6, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to approve the application of the Manufactured Home Overlay District to PIN Nos. 9628.17-01-4281 and 5047.

Ms. Michelle Watts, petitioner, spoke in support of this overlay request.

Mayor Sitnick closed the public hearing at 6:33 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hay moved for the adoption of Ordinance No. 2483. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 475

F. PUBLIC HEARING TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS ON PORTER ROAD IN A RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 2484 - ORDINANCE TO APPLY THE MANUFACTURED HOME OVERLAY TO TWO LOTS ON PORTER ROAD IN A RS-8 RESIDENTIAL SINGLE FAMILY HIGH DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 6:34 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to apply the Manufactured Home Overlay to two lots on Porter Road in a RS-8 Residential Single Family High Density District.

The composition of this residential neighborhood has several manufactured homes scattered throughout the surrounding area. The 2010 Plan indicates the surrounding area to be low density residential which the current RS-8 zoning permits.

The UDO requirements for establishing a "Manufactured Home Overlay":

- the homes should be architecturally compatible with the existing residential structures;
- manufactured homes should comprise at least 20% of the homes in this area (there are 3 existing residents of which 1 is a manufactured home);
- vacant land should be available for location of manufactured homes (there is adequate space on either of the 2 lots for additional manufactured homes);
- vacant land should be available for location of manufactured homes (there is adequate space on either of the 2 lots for additional manufactured homes); and
- the area must be a minimum of 5 acres.

This property is outside the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended approval of the Manufactured Home Overlay District for these two lots. At the May 6, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to approve the application of the Manufactured Home Overlay District to PIN Nos. 9657.11-75-0780 and 9657.12-75-5629.

Discussion surrounded the design standards which need to be met in the manufactured home overlay district specifically noting that the property cannot be turned into a trailer park.

Mr. Jess Morrison, representing his daughter and her husband, urged City Council not to allow mobile homes in the area. He was not against anyone owning a home, he just did not want trailers put on that property.

Ms. Ann Whitted, petitioner, urged City Council to allow the manufactured home overlay district.

Mr. Carroll Rogers felt that the reason why there is not much opposition from the neighbors is that the petitioner told them the manufactured homes would be located on a different location than what is really planned. He was concerned that there is a possibility of 64 mobile homes on that property.

Ms. Sam Scroggs was concerned that the area not be built up with trailers. He has no problem, however, if the design standards for a manufactured home overlay district are met.

Mayor Sitnick closed the public hearing at 6:54 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2484. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 477

G. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINITION OF ANTENNAS AND TELECOMMUNICATION TOWERS

At the request of City staff, Councilman Cloninger moved to continue this public hearing, without further advertisement, until June 23, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 98-62 - RESOLUTION AUTHORIZING THE CONVEYANCE OF 137.21 ACRES TO HENDERSON COUNTY REFERRED TO AS THE BREVARD ROAD SITE

Assistant City Manager Doug Spell said that this is consideration of executing a deed transferring property on Brevard Road to Henderson County as a part of the Water Agreement.

On November 11, 1995 the Regional Water Authority, City of Asheville, Buncombe County, and Henderson County entered into the Water Agreement. This agreement was a part of the overall provision of water service via the Mills River Water Treatment Plant.

At the January 20, 1998, City Council worksession, staff presented this item to Council for consideration. The City Council requested additional information which staff provided via a memorandum dated January 26, 1998, including copies of prior water agreements.

One condition which is a part of the aforementioned Water Agreement pertains to the City of Asheville transferring by deed property to Henderson County on Brevard Road (NC 191). The stipulation outlined in Section XXII of the Agreement indicates that Henderson County must convey the property to MSD to be used for a wastewater treatment plant site within ten (10) years or convey it to a regional water and sewer authority of which Henderson County, the Authority and Asheville are a part. If neither of these conditions are complied with within the 10 year date of the transfer of the deed to Henderson County the property automatically reverts back to the City of Asheville.

The City Attorney's office has reviewed the deed prepared by the attorney for the Regional Water Authority. The deed has been prepared to take into account the automatic reversion to the City of Asheville in the event the property is not utilized in accordance with the stipulations of the agreement.

Staff recommends that City Council authorize the Mayor to execute the deed transferring the property to Henderson County in accordance with the Water Agreement dated November 11, 1995.

Mr. Spell noted that as a result of questions raised by City Council at their worksession last week, he furnished them with a memo which hopefully addressed their concerns.

When Councilman Sellers asked how and when the City acquired the property, Mr. Spell said that the property was acquired in 1992 for $999,999. It was purchased with anticipation of an intake on the French Broad River and a water plant being constructed on the site.

Upon inquiry of Councilman Tomes, Mr. Spell said that in our area of our Mills River Water Treatment Plant there has been some discussion of procedures for pesticide mixing and some discussion of actually looking at constructing some handling facilities for pesticides. The Water Authority, as part of their budget deliberations, included some funds to research that and make a grant application.

When Councilman Tomes asked if the quality of the water will be impacted, Mr. Spell said that the particular mixing stations he is referring to are on the Mills River which is tributary to the French Broad River. At this point, the state testing has not identified any specific violation of chemical spills to the river. Obviously if those occurred, there would be concern.

Mr. Spell explained again the two parameters in the Water Agreement that speak to the property after the City of Asheville transfers it to Henderson County. They have 10 years to convey it to MSD. At the time it is conveyed to MSD, there is another 10 year period where MSD has to construct a wastewater treatment plant on the property within that subsequent 10 years. The second is that the property could be deeded to a regional water and sewer authority of which Henderson County, the Authority and Asheville are a part. If neither of these conditions are complied with within the 10 year date of the transfer of the deed to Henderson County the property automatically reverts back to the City of Asheville.

When Councilwoman Field asked what the consequences would be if the City chose not to transfer the property to Henderson County, City Attorney Oast said that it would be a violation of the Water Agreement and the consequences that entails. Also, there is the possibility of the City being sued for specific performance under the contract. Councilman Cloninger felt that not transferring the property would greatly jeopardize our ability to enter into any future regional agreements because other governing bodies might question whether we would carry through with what we promised to do.

Upon inquiry of Councilwoman Field, Mr. Spell said that if a wastewater treatment plant is built, they would have to fulfill all the requirements of the EPA and the NC Dept. of Environment and Natural Resources ("DENR").

Councilwoman Field said that it was her understanding that DENR has toughened up on their enforcement regarding spills and fines for violators.

Mayor Sitnick said that the agreement does includes language regarding the conveyance of this site to Henderson County. The reason that she did not remember this was in fact that the only indication that was found in the minutes with regard to this provision is in the specific language included in the agreement, but that there was no specific reference was made by City staff as to the subject property being deeded from the City of Asheville to Henderson County. The reason she didn't remember this is because she did not read the 20-30 page document - she relied on City staff to tell Council the most pertinent facts.

Mayor Sitnick said that the agreement was structured so that the City of Asheville would deed the property to Henderson County to assist them in trying to get sanitary sewer service in northern Henderson County either via MSD or a regional water and sewer authority. She asked if there were efforts being made at that time to form a regional water and sewer authority. Mr. Spell said that there was an actual resolution adopted to initiate a study of a regional water and sewer authority.

Mayor Sitnick questioned the fact that Buncombe County, to which City taxpayers pay taxes, has retained a consulting engineering firm to investigate the provision of sanitary sewer to northern Henderson County and southern Buncombe County. She asked if Henderson County participating in the cost of the engineering firm or is Buncombe County paying for it all. Mr. Spell said that it was his understanding that it is being paid by Buncombe County only.
The basis, according to County staff, is that any new industry or economic development that occurs in northern Henderson County would be of benefit to the residents of Buncombe County.

Mayor Sitnick felt that the City certainly needs to abide by an agreement even though her opinion of the Agreement has changed. She is looking at the regionalism of this and as the Mayor of Asheville, she's looking to see what's in it for Asheville. She said that in 10 years a lot of things happen and she wants to make sure that the provision in the agreement for this property to revert back to the City of Asheville doesn't get forgotten. She asked the City Attorney to prepare some type of document that we can present to Henderson County just as a reminder - not to interfere with the previous agreement, but just to make sure that in 10 or 20 years we don't forget that provision. In addition, she is concerned that that particular piece of property might be poorly located, too high, for sewer treatment. What occurs if that happens? With those concerns in mind, she would have no problem in directing City staff to authorize the transfer in accordance with the agreement, but would certainly ask if the City Attorney address her concerns while preparing the deed.

City Attorney Oast said that a draft deed has been prepared which incorporates the provisions in the agreement which calls for the reversion to the City of Asheville. He said that the would be happy to go back and look at the deed to make sure that they address Mayor Sitnick's concerns.

Councilwoman Field said it was very difficult to balance the need for a regional approach to infrastructure with the needs or the important considerations of the taxpayers of the City of Asheville, who also pay taxes in Buncombe County. She said that Asheville is bigger than just the boundaries of Asheville - it really is all of Western North Carolina. She felt as good neighbors we need to consider how we help. She thinks it's very positive that MSD is looking at some kind of regional approach to utility planning for the future.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-62. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 397

V. NEW BUSINESS:

A. RESOLUTION NO. 98-63 - RESOLUTION ADOPTIONG THE CITY OF ASHEVILLE-COUNTY OF BUNCOMBE MINORITY BUSINESS PLAN

Mr. Bill Schaefer, Finance Director, said that in 1993, the City contracted with Research and Evaluation Associates, Inc. for a "Minority Business Study to Support City of Asheville Minority Business Plan". The study's purpose was to determine whether there was sufficient evidence of discrimination in the award of contracts and procurement of supplies, materials and services during the past to justify continuance of the then-existing Minority Business Plan and, if so, to identify any modifications to the plan which would be required to place the plan on a legally defensible basis. The City's current Amended Minority Business Plan, dated December 6, 1994, incorporated revisions recommended by the disparity study. In July 1996 the City and County established a joint Minority Affairs Office. In November 1996, the Minority Business Commission held a retreat at the YMI Cultural Center to begin the process of developing a joint Minority Business Plan to provide policy and direction for a joint City/County minority business program. They used the City's existing 1994 plan as the baseline from which to develop the new joint plan. Subsequently, the Commission held a series of meetings with various constituencies, including representatives of minority businesses, the general public, and City and County staffs, to receive their comments and recommendations regarding the joint plan. The Draft City of Asheville - County of Buncombe Minority Business Plan was approved by the Minority Business Commission on April 23, 1998, and adopted by the County on May 12, 1998. Significant changes from the 1994 Plan are:

Inclusion of Buncombe County in all aspects of the Plan. Note: separate goals are established for the City and County (Section VII.D.3; page 17 of draft). The City goals are at the same as adopted in the 1994 Plan.

Minority Business Commission Membership: Increases membership from 9 to 13 (Section IV.A.3; page 4 of draft).

Retains: Council of Independent Business Owners, Associated General Contractors of America, Women in Construction, Asheville Area Chamber of Commerce, Asheville-Buncombe Community Relations Council, American Institute of Architects and Asheville Business Development Center.

Deletes : Black Business and Professional League and YMI Cultural Center.

Adds: Minority Business Alliance, NAACP, Eagle Market Streets Development Corporation and three certified minority business owners (one each from the four categories for which goals have been established: construction, professional services, procurement, and other services).

Staff Evaluations: Requires as part of the evaluation of all those staff members who are directly involved in the procurement and contracting process, that good faith efforts towards goal attainment be a consideration in evaluations and that City and County Managers meet semi-annually, at the request of the Commission, to discuss specific concerns (Section IV.B.3; page 6 of draft).

Certification of Minority Business Firms: Changes responsibility for certification of firms from the Minority Business Commission to the Minority Affairs Office and clarifies procedures and responsibilities for appeals of certification denial (Section VII; pages 12 through 16).

Enforcement: Strengthens enforcement options: Bids containing no documentation of good faith efforts shall be deemed non-responsive. Expands sanctions for failure to make or maintain good faith efforts to add provisions for removal of bidders from bid lists and/or debarment for a period of one year (Section VI; pages 17 - 19).

Grievance Procedure: Clarifies the procedures and responsibilities. Provides that when a grievance has been submitted, the bid process shall be held in abeyance and no award will be made until such time as the grievance is resolved or a final decision regarding the grievance is made by the City or County Manager (Section IX; page 19).

Additionally, numerous changes have been made to improve clarity, to streamline procedures and to generally enhance the plan's functionality in fulfilling its purposes of widening opportunities for participation, increasing competition, and ensuring the proper and diligent use of public funds.

Staff recommends the City Council adopt the resolution which replaces the current City of Asheville Minority Business Plan with a joint City of Asheville - County of Buncombe Minority Business Plan.

Mr. Schaefer asked for one amendment to the Plan - the General Statute reference on page 3 under verifiable goal should read "The same as defined in N.C. Gen. Stat. sec. 143-128." He said the change deleted the subsection "(c) 4".

When Councilman Tomes noted that he has received a few calls from people who feel they were not adequately or properly notified of the Plan, Mr. Schaefer stated that the Plan and process has been open to all and quite widely known throughout the minority community.

Ms. Dee Williams, owner of Dee Williams & Company, said that having the right to participate allows people to know a lot more about the Plan. She said they were the ones that noticed that there was no G.S. 143-128. She said that it was sunset on June 30, 1995. She said they cited the pertinent statute they could use along with the executive order. She said the Plan treats them like the red-headed step-child. It is not an economic development plan. It is couched in social work terms. She wants the plan to be synergistic with the City's economic development plan. This plan should have benchmarks. She said the Plan is to last 20 years at the aggregate cost of $2 million. She felt this Plan is pretty much like the old one that cost over $1 million and produced largely nothing. The program needs to be benchmarked and appraised every year and if it's not working, it should quit. Some benchmarks include (1) contribute to the expansion of economic growth and industrial capability, while providing the benefits of increasing the tax base and creating living wage jobs; (2) increase market share for those designated firms, measured in terms of a percent of gross receipts in that SIC or market; (3) move some of these firms in the areas where they have been historically underutilized or that present entrance barriers; (4) demonstrate some indication that assistance which is provided will produce, within a reasonable time period, self-sustaining M/WBE firms, capable of remaining in business without the continuous need for remedial assistance; (5) attract resources from the private, state and federal sectors; and (6) produce a reasonable cost to benefits ratio as compared to other alternatives.

Vice-Mayor Hay said that we are currently working on an economic development plan for the City and asked if that economic development plan would address economic development in the minority business community. City Manager Westbrook said that it would address the economic development in the larger sense and the Minority Business Plan would support it for the minority community.

Mr. Clarence Benton, Publisher of the Asheville Advocate newspaper, said that he talked to 20 people in the minority business community and only 4 have heard about it. He urged City Council not to rush this Plan through and make sure that everyone who wants to be involved is given the chance to participate.

Mr. Schaefer responded to several comments by Ms. Williams: (1) the citation correction was not brought to their attention by Ms. Williams, it was brought to their attention by staff; (2) the City's legal staff said there is no legal problem with leaving the reference to G.S. 143-218 in the Minority Business Plan; (3) the use of the section is for definitional purposes only and it is still valid; (4) the economic development portions are separate from minority business noting that this is a plan for remediation for those minorities that were defined as needing remediation in the disparity study; (5) the Minority Business Commission wrestled with the staffing issue long and hard as to whether the Plan should define staffing levels or define tasks to be performed by the Minority Affairs Office. It was unanimously endorsed that it should define those actions to be done, not the number of people or the funding level required to do those - those were the prerogative of staff and the governing bodies on an annual basis; (6) the City and the County are committed to funding what is necessary to carry out and implement the Plan; (7) the membership of the Commission itself, which is made up of representatives from various minority agencies, helped foster the information throughout the minority community; and (8) the Plan has not been rushed through in that it has been in working format for 18 months with public meetings, retreats and small working groups.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-63. This motion was seconded by Councilman Sellers.

Vice-Mayor Hay said this Plan structures and defines the City and the County's business relationship with the community. The City and the County are major players in this community in terms of contracts, placing bids, buying supplies, etc. That what this is designed to do. This is really a Plan to avoid discrimination and provide equal opportunity in regard to the business practice of the City and the County. Economic development for the minority community is a high priority item for the City and this should relate to that. If we try to build economic development into this Plan, then we get away from the point of the plan itself, which is to structure the way the County and the City do business. business.

Councilman Tomes was encouraged and wanted to make sure that the Plan was implemented.

Mayor Sitnick said this is a good Plan and a great improvement over the past Plan. She thanked everyone for their input. The document is only as good as the people who implement it. There is a commitment on the part of this Council to make sure that not only do we have a good working Minority Business Plan but that our overall economic development plan for this community does have benchmarks, is fair, creates an atmosphere of outreach that includes everyone in the community.

The motion made by Councilwoman Field and seconded by Councilman Sellers carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 399

B. RESOLUTION NO. 98-64 - RESOLUTION APPOINTING A MEMBER TO THE WNC REGIONAL AIR POLLUTION CONTROL BOARD

Summary: The term of Nilous Avery as a member on the WNC Regional Air Pollution Control Board expires on June 15, 1998.

After each Council member voiced their nominations, they each spoke in support of their choices.

Mayor Sitnick nominated Nelda Holder.

Councilman Tomes nominated Michael Hootstein.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, he asked for a vote to appoint Nelda Holder - Mayor Sitnick, Vice-Mayor Hay, Councilman Cloninger, Councilman Cobb, Councilwoman Field and Councilman Sellers voted in favor of Nelda Holder.

Councilman Tomes voted in favor of Michael Hootstein.

The resolution will appoint Nelda Holder to serve as a member of the WNC Regional Air Pollution Control Board to serve a six year term, term to begin on June 16, 1998, and end on June 15, 2004, or until her successor is appointed.

RESOLUTION BOOK NO. 24 - PAGE 400

C. RESOLUTION NO. 98-65 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE REGIONAL AIRPORT AUTHORITY

Summary: The terms of Otis Michael and Charles Parker, as members on the Asheville Regional Airport Authority, expire on June 30, 1998.

After each Council member voiced their nominations, they each spoke in support of their choices.

Councilman Sellers nominated Bill Moore.

Mayor Sitnick nominated Marilyn Nason.

Councilman Tomes nominated Albert Anderson.

Councilman Cobb nominated Clay Dover.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, he called the roll for each member of Council to vote for their preferred candidate.

Councilman Cloninger voted for Albert Anderson and Clay Dover.

Councilman Sellers voted for Bill Moore and Albert Anderson.

Councilwoman Field voted for Bill Moore and Albert Anderson.

Vice-Mayor Hay voted for Bill Moore and Albert Anderson.

Councilman Tomes voted for Bill Moore and Albert Anderson.

Councilman Cobb voted for Clay Dover and Albert Anderson.

Mayor Sitnick voted for Bill Moore and Marilyn Nason.

Albert Anderson received six votes; Bill Moore received five votes; Clay Dover received two votes and Marilyn Nason received one vote. The resolution will appoint Albert Anderson and Bill Moore to serve as members of the Asheville Regional Airport Authority, to serve each serve a four year term, terms to begin on July 1, 1998, and end on June 30, 2002, or until their successors are appointed.

RESOLUTION BOOK NO. 24 - PAGE 401

D. RESOLUTION NO. 98-66 - RESOLUTION REAPPOINTING MEMBERS TO THE CARRIAGE PERMIT ADVISORY BOARD

Vice-Mayor Hay said that the terms of Deanna Kraft and Linda Wiggs expire on June 25, 1998. This resolution will reappoint Dr. Kraft and Ms. Wiggs to each serve a three year term, respectively, terms to expire June 25, 2001, or until their successors have been appointed.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-66. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 402

E. RESOLUTION NO. 98-67 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS/POLICE ADVISORY COMMITTEE

Summary: There currently exists a vacancy on the Citizens/Police Advisory Committee.

After each Council member voiced their nominations, they each spoke in support of their choices.

Councilman Sellers nominated Fairfax Arnold.

Councilman Tomes nominated Betty Budd.

After City Clerk Burleson called to Council's attention that this appointment must be a person from the Central area, City Council instructed her to advise Ms. Budd of the error in interviewing for the vacancy and that City Council was very impressed with her interview and she will be first for consideration for the south vacancy on this Committee.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, he asked for a vote to appoint Fairfax Arnold - Vice-Mayor Hay, Councilman Cloninger, Councilwoman Field, and Councilman Sellers voted in favor of Fairfax Arnold.

Mayor Sitnick, Councilman Cobb, Councilman Tomes voted in favor of Betty Budd.

Fairfax Arnold received four votes and Betty Budd received three votes. Therefore, the resolution will appoint Fairfax Arnold as a member of the Citizens/Police Advisory Committee to serve the unexpired term of Mr. Joe Chandler, whose term will expire on June 30, 1999, or until her successor is appointed.

RESOLUTION BOOK NO. 24 - PAGE 403

F. RESOLUTION NO. 98-68 - RESOLUTION APPOINTING A MEMBER TO THE CIVIL SERVICE BOARD

Summary: The term of Beth Arrowood as Chairman of the Civil Service Board expired on May 21, 1998.

Vice-Mayor Hay said that the Boards & Commissions Committee asked that City Council appoint the Chair to the Civil Service Board at their next formal meeting. He said that the Chair is appointed from the existing membership and we can go forward with the appointment of the member at this meeting.

City Attorney Oast said that there will be an election for the City employee representative on May 28, 1998.

Mayor Sitnick nominated Bill Fulp.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, he asked for a vote to appoint Bill Fulp and the vote was unanimous. Therefore, the resolution will appoint Mr. William F. Fulp to serve as a member of the Civil Service Board, to serve a two year term, term to expire May 21, 2000, or until his successor is appointed.

RESOLUTION BOOK NO. 24 - PAGE 404

G. RESOLUTION NO. 98-69 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Hay said that the terms of Mr. Jimmy Sullivan, Mr. Tim Moffitt, Mr. R. Carl Mumpower and Ms. Laverne Laney expire on June 30, 1998. Mr. Steve Toomey has resigned as a member on the Civic Center Commission, leaving unexpired term until June 30, 2000.

Councilman Cloninger moved to reappoint Mr. Mumpower and Ms. Laney to each serve a three year term, terms to expire on June 30, 2001, or until their successors have been appointed. This motion was seconded by Councilman Sellers and carried unanimously.

After each Council member voiced their nominations, they each spoke in support of their choices.

Mayor Sitnick nominated Christopher Slusher and Joyce Dorr.

Councilwoman Field nominated Paul Hornyak.

Councilman Cloninger nominated Clay Dover.

Vice-Mayor Field nominated Muriel Gomez.

There was some discussion about possible conflicts of interest of Ms. Gomez and Mr. Slusher. City Attorney Oast said that conflicts of interest are determined on a case by case basis.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted for three candidates. Joyce Dorr and Paul Hornyak each received six votes; Christopher Slusher and Clay Dover each received four votes; and Muriel Gomez received one vote. Since there was a tie between Christopher Slusher and Clay Dover, Vice-Mayor Hay asked for a show of hands in favor of Christopher Slusher - 4 hands were raised. By a show of hands in favor of Clay Dover - 3 hands were raised. Therefore, the resolution will (1) appoint Christopher Slusher to the Civic Center Commission to serve the unexpired term of Mr. Toomey, term to expire June 30, 2000, or until his successor has been appointed; (2) appoint Joyce Dorr to the Civic Center Commission to serve a three year term, term to begin on July 1, 1998, and end on June 30, 2001, or until her successor has been appointed; and (3) appoint Paul Hornyak to the Civic Center Commission to serve a three year term, term to begin on July 1, 1998, and end on June 30, 2001, or until his successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 405

H. RESOLUTION NO. 98-70 - RESOLUTION REAPPOINTING MEMBERS TO THE POLICE OFFICERS AND FIREFIGHTERS DISABILITY REVIEW BOARD

Vice-Mayor Hay said that the terms of Stephanie Cooper, Michael Keleher and James Lewis, as members on the Police Officers and Firefighters Disability Review Board, expire on July 19, 1998. This resolution will reappoint Ms. Cooper, Dr. Keleher and Mr. Lewis to each serve a two year term, respectfully. All terms will expire on July 19, 2000, or until their successors have been appointed and qualified.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mayor Sitnick moved for the adoption of Resolution No. 98-70. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 406

I. RESOLUTION NO. 98-71 - RESOLUTION REAPPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Hay said that the terms of Mr. Brian Peterson, Ms. Betty Lawrence and Mr. Chris Knorr expire on July 1, 1998. This resolution will reappoint Ms. Lawrence and Mr. Knorr to each serve an additional three year term, respectively. Their terms will expire July 1, 2001, or until their successors have been appointed.

The vacancy left by Mr. Peterson will be advertised in the next quarter of upcoming vacancies.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-71. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 407

J. RESOLUTION NO. 98-72 - RESOLUTION APPOINTING MEMBERS TO THE TREE/GREENWAY COMMISSION

Summary: The terms of Scott Pierson, Dennis Wilson, Adina Goodwin and Henry Mitchell expire on August 1, 1998. This resolution will appoint Kasty Latven, Forrest MacGregor and Regina Lusk to each serve a three year term respectively. Their terms will expire on July 1, 2001, or until their successors have been duly appointed.

The vacancy left by Mr. Wilson will be advertised in the next quarter of upcoming vacancies.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-72. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE I408

VI. OTHER BUSINESS:

A. REPORT FROM BOARDS & COMMISSIONS COMMITTEE

Vice-Mayor Hay said that the Boards & Commissions Committee recommends that a resolution be prepared for the next formal meeting to read that you must be a City resident to be eligible to be on a City board or commission.

Vice-Mayor Hay said that the vacancy on the Planning & Zoning Commission will be advertised for 30 days with an appointment in mid or late July.

B. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 12, 1998, AND THE WORKSESSION HELD ON MAY 19, 1998

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on May 12, 1998, and the worksession held on May 19, 1998. This motion was seconded by Councilwoman Field and carried unanimously.

C. CLAIMS

The following claims were received by the City of Asheville during the week of May 8-14, 1998: Caton McBride (Water), Betty Underwood (Water), Richard Gilbert (Water), Sonja Long (Parks & Recreation), Beverly Black (Traffic Engineering) and Evelyn Brank (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

D. CLOSED SESSION

At 8:22 p.m. Councilwoman Field moved to go into closed session to discuss matters relating to the location or expansion of industries or other businesses within the area served by the City Council - statutory authority is G.S. 143-318.11 (a) (4). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:48 p.m., Councilman Tomes moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:48 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 2, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Approval of a Permanent Maintenance Agreement with Commonwealth Dreamland Partners for Stream Location on the Lowe's Site

Summary: The consideration of adoption of a resolution to allow the City Manager to enter into a permanent maintenance agreement, as required by the Board of Adjustment, for the relocation of a portion of Haw Creek.

On May 19, 1997 the Board of Adjustment approved a No-Rise Certification in order to allow the Developer, Commonwealth Dreamland L.L.C., to relocate a portion of Haw Creek in order to build a new Lowe's building. A contingency of the Board of Adjustment's approval was that the City of Asheville enter into a permanent maintenance agreement to assure that the relocated watercourse is maintained in accordance with the Floodplain Ordinance regulations. This agreement stipulates that the Developer shall be solely and exclusively responsible for all maintenance and upkeep relating to the relocation of Haw Creek and all appurtenances relating thereto for the duration of the Ground Lease Agreement and any extensions to the Lease. It further provides that should it become necessary for the City to provide maintenance to this portion of Haw Creek the Developer shall reimburse the City within sixty (60) days after submittal by the City of an invoice outlining the cost involved. Additionally, the maintenance agreement states that the Developer shall cause a registered North Carolina Engineer to inspect the integrity of the relocation work at least once annually and immediately correct any problems noted.

City staff recommends approval of a resolution allowing the City Manager to execute a permanent maintenance agreement with Commonwealth Dreamland, L.L.C., in order to construct the new Lowe's building.

Agreement with Kiwanis Club to Accept Donation for Lakewood Park Playground Equipment

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the Kiwanis Club of Asheville to provide funds and materials to refurbish and rebuild a playground at City-owned Lakewood Park.

The Kiwanis Club of Asheville has made the generous proposal to raise money and donate to the City, $15,000 for the purchase of new playground equipment for Lakewood Park in the Kenilworth neighborhood. In addition, the Kiwanis will solicit donations of materials needed to construct the sand and play areas of the playground. The City's involvement will include providing $10,000 to purchase materials to build the playground, dedicate the services of the Assistant Landscape Architect to design the playground and provide the Parks and Recreation Maintenance Crews to demolish the obsolete structures and build the new playground. Since the current Parks and Recreation budget allows only two playgrounds per year, this represents an opportunity to refurbish a playground that would not otherwise be renovated in the near future.

It is hoped that this will be first of many such cooperative efforts between Civic groups and the City.

The Parks and Recreation Department staff recommends City Council adopt the resolution.

Awarding Bids for Infrastructure Construction - Rankin Heights Subdivision

Summary: The consideration of a resolution awarding Hobson Construction Company the contract for construction of Rankin Heights Subdivision.

McGill Associates on behalf of the Community Development Division opened bids for the construction of Rankin Heights Subdivision on May 1, 1998. The following is the bid summary:

Precision Contracting	$229.785.00
Hahn Construction	$222,556.50
Hobson Construction	$199,743.00
Thorpe Construction	$238,535.64

The lowest bid received for the project was in the amount of $199,743.00 from Hobson Construction Company. The amount of funds available for the project is $203,000.00.

Community Development staff recommends acceptance of the low bid and awarding the contract to Hobson Construction Company.

WNC Regional Air Pollution Control Agreement

Summary: Buncombe County Manager Wanda Greene has withdrawn her request of February 16, 1998, that the City of Asheville consider withdrawing from the interlocal agreement that authorizes Western North Carolina Regional Air Pollution Control Agency.

Budget Amendment to Fund Land Acquisition for the Reid Creek/Broadway Greenway

Summary: This budget amendment transfers $118,200 from right-of-way funding in the Street & Sidewalk Fund to the Reid Creek/Broadway Greenway project in order to fund land acquisition.

Funding in the amount of $225,000 was set aside in the Street & Sidewalk Fund for acquisition of residual right-of-way from the Broadway Widening Project a number of years ago. Since this funding was not needed for the Project, a decision was made in 1996 to leave this money set aside for Broadway Greenway land acquisition. This amendment transfers funding needed in the amount of $118,200 from the Street & Sidewalk Fund to the Broadway Greenway Project in the General Capital Projects Fund to cover costs to acquire property for the Reid Creek/Broadway Greenway Project. Current funding in place for the Reid Creek/Broadway Greenway Project is $58,790 which covers the City's contract with the Trust for Public Land.

Upon inquiry of Councilman Cloninger, City Manager Westbrook updated City Council on the status of the greenway projects.

Setting Public Hearing for Voluntary Annexation of Section 11 of Biltmore Park

Summary: The consideration of a resolution setting a public hearing on June 23, 1998, to consider the Biltmore Park Section 11 annexation.

Biltmore Farms, Inc. (owner and applicant) has submitted an annexation petition for a 22.07 acre area identified as Biltmore Park annexation 11. This is the eleventh annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 8.

Setting Public Hearing for Voluntary Annexation of Section 12 of Biltmore Park

Summary: The consideration of a resolution setting a public hearing on June 23, 1998, to consider the Biltmore Park Section 12 annexation.

Biltmore Farms Inc. (owner and applicant) has submitted an annexation petition for a 11.36 acre area identified as Biltmore Park annexation 12. This is the twelfth annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 9 and Annex 7.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

HILLCREST UPDATE

Deputy Chief Ross Robinson said that after the May 5, 1998, City Council community meeting at Hillcrest regarding the opening or continued closure of the pedestrian bridge, City Council requested staff offer solutions to accessibility and social concerns in the Hillcrest area.

On May 5, 1998, City Council met with residents of the Hillcrest Community at the enrichment center regarding the opening or continued closure of the pedestrian bridge. City Council had an opportunity to view the closed pedestrian bridge and consider views of the residents who attended the meeting. Asheville Police, in conjunction with the Housing Authority have collaborated with residents and other municipal services to address both the opening and the continued closing of the pedestrian bridge. The Housing Authority has recounted the social programs and management practices which have made beneficial changes to life in Hillcrest from what they were several years ago.

Concerns of the residents:

- Fatal accidents will continue to occur if pedestrians do not have access to the pedestrian walkover.
- Parents and students are inconvenienced because the most direct route to some schools, stores and facilities is unavailable (pedestrian bridge).
- Many residents must rely on public transportation which becomes unavailable or expensive late in the day.
- Opening the bridge will give drug buyers and sellers a protected route to Hillcrest.
- Safety and health problems associated with drug dealing will return to Hillcrest; whereas these problems greatly diminished when residents asked the bridge be closed.
- Those who use the reopened bridge may become crime victims.

Concerns of residents of Roberts Street:

- A petition has been received by the Mayor's office indicating some businesses and residents on Roberts Street have requested that traffic from the pedestrian bridge be diverted from Roberts Street.
- The United Christian Church located on Roberts Street opposes any reopening of the pedestrian bridge citing previous traffic as undesirable for their congregation.

Survey of the residents:

- Approximately 58% of those surveyed by the residents council favor reopening the bridge.
- A recent survey by the Housing Authority did not identify overwhelming social concerns among Hillcrest residents. In fact, only three residents responded.

Recommendations and contingencies:

1. Reopening the bridge must be accompanied by the following:

- Environmental changes on the Roberts Street side of the walkover to discourage crime and improve sight distances; clearing of brush and additional lighting of the area. *Public Works has estimated clearing of the property to cost approximately $5,000 and would require one week to complete.*
- A *request of the Department of Transportation* should be made to install additional *lighting to deter criminal activity* in the area of the steps leading to Roberts Street.
- Repair of the fence which separates the sidewalk from I-240. *Department of Transportation engineers are ready to make these repairs should the bridge be reopened.*
- Placement of a handrail on the existing steps from the sidewalk next to I-240 down to Roberts Street. *There is no current commitment from D.O.T. to install this.*
- Relocation of the Police Office in Hillcrest to an apartment next to the pedestrian bridge to stem as much unwanted traffic as possible from the area. *This relocation will depend on availability of apartments; however, it can take place very soon.*
- Strengthening of crime prevention programs as well as Citizens on Patrol in the community. *The residents council has recently met to elect new officers and become better organized.*
- A future assessment of the impact any reopening has had on the residents of Hillcrest and their neighbors on Roberts St.

2. Continued Closure of the Pedestrian Bridge must emphasize:

- Public education regarding safe, alternate pedestrian routes . The North Carolina Department of Transportation indicates traffic volumes for the I-240 area will increase as the new corridor opens to the northern part of the county.
- Review and emphasize public transportation schedules and routes. (The Asheville Transit Authority indicates the frequency of bus departures from Hillcrest will increase as the new terminal opens; however, 6:15 PM will be the latest buses will leave from Hillcrest or depart from other locations destined for Hillcrest.)

Review of current social programs currently at work in Hillcrest

- Hillcrest Enrichment Center
- Asheville Police "ARGUS" office
- Mountain Area Prenatal Substance Abuse Program (17-A)
- Dept. of Social Services located at apt. 17-B (satellite office)
- Daycare Center (Headstart program) on-site

Deputy Chief Robinson said that Mr. Bill Smart from the Dept. of Transportation could not attend the meeting but offered to assist with the clearing of brush from the right-of-way so the City wouldn't have to bear the entire cost. He also agreed to get the Bridge Dept. to assist the City in installing the handrail for the steps that lead from the sidewalk to Roberts Street. He said he could not commit to the installation of additional lighting, however, he would submit a request, if recommended by the City Manager, to Dept. of Transportation officials in Raleigh who make those decisions.

Councilman Cobb was concerned if the walkway had to be handicapped accessible

Upon inquiry of Councilman Tomes about the educational component of whatever is decided, Deputy Chief Robinson said that the Police Department will work with the residents council noting that there is a variety of resources available to spread the word. Mr. Mike Godwin, representative of the Housing Authority, said that they also can address this through a notice to the residents and also in their monthly newsletter.

Mr. Godwin responded to a question from Mayor Sitnick relative to residents patrolling, noting that the issue was discussed, but nothing was confirmed.

When Mayor Sitnick asked if the fence on the south side had been repaired, Deputy Chief Robinson replied that it had not been, however, the Dept. of Transportation has informed them that if the City requests the bridge to be re-opened, they will fix it almost immediately.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 98-73 - RESOLUTION DIRECTING THE CITY CLERK TO PUBLISH A NOTICE OF THE CITY COUNCIL'S INTENT TO AUTHORIZE EXECUTION OF A LEASE AGREEMENT WITH ASHEVILLE PROFESSIONAL HOCKEY LTD. FOR USE OF THE ASHEVILLE CIVIC CENTER

Civic Center Director David Pisha said that this is consideration of a directing the City Clerk to publish notice of the City Council's intent to authorize execution of a lease agreement for the Asheville Civic Center.

The United Hockey League has approached The Asheville Civic Center about placing a team affiliated with their league at the facility. They have furthermore agreed to pay the facility a per game fee of $750.00 up to $1500.00 based on attendance. Additional consideration of up to $250.00 per game is further agreed if Civic Center cost exceed the prior revenue. The Civic Center retains a minimum of $150,000.00 in concession revenues before sharing additional revenues with the team. Based on attendance, the Civic Center could retain up to $250,000.00 before any sharing took place. Any revenue split with the team is after taxes and food costs have been deducted. The Civic Center receives 10% of any merchandise sales after $500,000.00. The team agrees to supply an ice floor and all related equipment necessary for the presentation of professional hockey. At the end of five (5) years, title to this equipment is transferred to the city without any cost to the city. The city, however, has the option to acquire this equipment sooner if it chooses by assuming the lease of this equipment. The Civic Center further more has the use of the ice floor for other events to include public skating. The Civic Center has the first option to purchase skates for public use, and in so doing, would retain 80% of any revenues received from this venture. Since the city will ultimately come to own the ice floor and related equipment, the city has agreed to share maintenance cost on a 50/50 basis with the team when such upkeep costs exceed $5,000.00. The Civic Center has further agreed to furnish locker room and office space to the team. Any advertising placed in the arena by the team must have prior approval from the Civic Center Director.

Upon inquiry of Councilman Cloninger, City Attorney Oast said that there are several ways the City will end up owning the ice floor.

City Manager Westbrook said that staff will have to come back to City Council with a proposal for a skating program.

After Mr. Pisha responded to several questions, City Council expressed their excitement in this venture.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution directing the City Clerk to publish a notice of Council's intent to authorize execution of the lease with Asheville Professional Hockey, Ltd. and it would not be read. She noted that the resolution authorizing execution of the lease will be on June 23, 1998.

Councilwoman Field moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilman Sellers and carried unanimously.

Councilman Field moved for the adoption of Resolution No. 98-73. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 409

REPORT ON CABLE TV FRANCHISE RENEWAL

Ordinance Regulating Cable Service Providers

The following is a summary of an ordinance to adopt regulations for cable service providers located in the City of Asheville.

The City of Asheville does not now have an ordinance regulating cable service providers. Article 8 of Chapter 160A of the North Carolina General Statutes authorizes North Carolina cities to adopt ordinances in the exercise of police power delegated to them. North Carolina law authorizes cities to grant franchises to public enterprises, including, but not limited to, cable television systems. Federal and State law further authorize cities to regulate cable service providers in other ways. This ordinance would include provisions regarding the granting of franchises to cable service providers and regulations regarding their use of the public rights-of-way.

A draft of this ordinance was previously considered by the City Council on November 25, 1997, January 20, 1998, February 3 and 24, 1998, and March 3, 1998. At its work session on March 3, 1998, the City Council instructed City staff and Rice, Williams Associates, consultant to the City on cablevision matters, to renegotiate certain terms and conditions of a franchise renewal with the current cablevision franchise holder, Brenmor Cable Partners, L.P. (d/b/a InterMedia). New terms and conditions have been negotiated which resulted in changes to this ordinance.

The City Manager and the City Attorney's Office recommend consideration of the ordinance.

Ordinance Granting a Franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia)

The following is a summary of an ordinance to grant a cable television franchise to InterMedia.

At an election held on July 28, 1967, the citizens of the City of Asheville approved, by referendum, the granting of a franchise to Thoms Broadcasting Companies, Inc., for the construction and operation of a community antenna television system in the City of Asheville. The cable television franchise granted to Thoms Broadcasting Companies, Inc., has been transferred to successive franchisees and InterMedia is the current franchise holder.

The 1967 franchise was granted for thirty five (35) years, which time period would end in the year 2002. Many technological advances have occurred and various regulatory laws have changed since 1967. As part of those technological advances, InterMedia is in the process of completing a rebuild of the cable system within its franchise areas in the City of Asheville and in Buncombe County. As a result of the rebuild of the cable system, InterMedia requested that the City of Asheville enter into renewal negotiations. Based upon technological and regulatory changes since 1967 and upon a desire to include more consumer protection provisions, the City of Asheville was also interested in negotiating a renewal of the franchise terms and conditions.

Proposed terms and conditions for a franchise renewal were incorporated into a draft franchise ordinance which was considered by the City Council on November 25, 1997. The ordinance was subsequently considered by the City Council at work sessions on January 20, 1998, and February 3, 1998. In addition, a community meeting to inform the public about the proposed franchise ordinance was held on February 10, 1998, and a public hearing was held on February 24, 1998. At the conclusion of the public hearing on February 24, 1998, the City Council determined to further consider the matter and a work session was held on March 3, 1998.

At the work session held on March 3, 1998, the City Council instructed City staff and Rice, Williams Associates, consultant to the City of Asheville for cable television matters, to renegotiate certain terms and conditions of the franchise with InterMedia. The issues which were to be renegotiated are as follows:

1. The length of the term of the franchise.
2. The amount of funding for initial equipment and on-going support for public, educational and governmental ("PEG") access channels.
3. The amount passed through to subscribers for funding of the initial equipment and on-going support for PEG channels and the institutional network.
4. The inclusion of other school and library sites on the institutional network.
5. The provision of Internet access to schools and libraries.
6. The terms of the state-of-the-art clause.
7. Consideration of the use of binding arbitration for certain situations.
8. The amount of the civil penalty.
9. Discounts for senior citizens.
10. The mechanism for subscribers to request refunds.
11. The ability for area industries to request increased capacity (550 MHz versus 750 MHz system capacity).
12. The amount of the franchise fee settlement.

Ms. Meldrum said that new terms and conditions have been negotiated and she reviewed the proposal comparison which is attached hereto as Exhibit "A", with the side letter attached hereto as Exhibit "B".

The City Manager and the City Attorney's Office recommend consideration of the ordinance granting the franchise to InterMedia.

Resolution authorizing the City Manager to execute a settlement agreement with InterMedia and TCI regarding franchise fees

The following is a summary of a resolution to authorize the City Manager to execute a settlement agreement with InterMedia and TCI regarding franchise fees.

The 1967 franchise requires that the franchise holder pay to the City of Asheville 6% of the gross monthly service charges collected annually for providing the radio and television signals over the cable system within the corporate limits of the City of Asheville. Under the 1967 franchise, that payment was deemed to be full compensation for use of the City's property rights, services rendered, supervision and inspection of equipment and facilities.

Concerns had been raised by the City of Asheville regarding whether or not the City had been paid all of the fees due under the terms of the 1967 franchise. The City of Asheville and the current franchise holder, Brenmor Cable Partners, L.P. (d/b/a InterMedia), have reviewed the language of the 1967 franchise and franchise fee payments made to the City of Asheville during the last few years. As a result of discussions by the parties regarding this issue, a settlement was proposed and considered by the City Council at previous meetings. On March 3, 1998, at a work session, the City Council instructed City staff to conduct further negotiations regarding the settlement.

Ms. Meldrum said that those further negotiations have been concluded and she then reviewed the documents attached hereto as Exhibit "C", ending with the proposed settlement of $175,000.

The City Manager and the City Attorney's Office recommend consideration of the settlement and of the resolution.

Ms. Meldrum reviewed the attached comparison chart of the 1967 franchise to the June 1998 franchise proposal. Said chart is attached hereto as Exhibit "D".

Ms. Meldrum then reviewed the cable franchise comparisons chart which is attached hereto as Exhibit "E".

Vice-Mayor Hay voiced concern that the side letter relative to Internet access was not as strong as he would have liked it. Councilman Cloninger agreed with Vice-Mayor Hay and hoped that there was some way, perhaps posting a bond, to make sure that InterMedia does provide Internet access to the schools in the City. Ms. Meldrum responded that City staff did ask that language be included in the franchise, that the language be stronger and some type of security, however, InterMedia only agreed to the language in the side letter.

Mr. Joe Haight, General Manager of InterMedia, and Mr. Bruce Stewart, General Counsel for InterMedia, responded to questions from City Council which include, but not limited to, how many minority students are in the Job Training Partnership Act program, why Gainesville, Georgia, and Nashville, Tennessee, who have 750 MHz systems are exempt from the state-of-the-art clause, why would an industry want a 750 MHz system if a 550 MHz system can accomplish the same things; and why InterMedia will not make a firm commitment to provide Internet access to the schools and libraries.

Ms. Meldrum responded to various questions from City Council relating to if there is any argument that the City is entitled to 6% franchise fee; why the City's consultants performed a three year review regarding the franchise fees; what were some of the problems associated with the Lexington, N.C., court interpretation; is there any provision for late fees in the 1967 franchise; if the City were to litigate, how much would it cost the taxpayers in legal and accounting fees; and why were the cities chosen in the cable franchise comparison chart.

Mayor Sitnick noted that the franchise fee concerns were noted long before 1994 by former City Manager Doug Bean.

Mayor Sitnick pointed out that two separate votes will be required to grant the franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia).

It was the consensus of City Council to hold a public hearing on these revised set of documents, said public hearing to be scheduled on June 9, 1998, for public hearing on June 23, 1998.

City Manager Westbrook said that City staff would like City Council to consider voting on the ordinances at the conclusion of the public hearing.

Councilwoman Field wanted to make sure that the public is fully aware that if City Council approves the renegotiated documents, that the subscribers will have a 35-cent increase per month. She was also concerned that InterMedia will not have to build cable system in annexation areas if another cable system is serving that area. She felt that the City should be able to say to Asheville residents that if they are annexed, they can be served by InterMedia if they choose.

Mr. Wally Bowen asked what portion of the proposed PEG funding will be set aside for the citizens or non-profits use and what is the cost for the hardware, software, etc. costs to activate the I-Net for use by City government. He also pointed out that the Citizens for Media Literacy received a grant of $8,000 to produce a public awareness video and conference on public access, education access and government access which they hope will be completed in August.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

REPORT ON THE BILTMORE AVENUE PROPERTIES

Mr. Ed Vess, Field Services Coordinator, said that this is consideration of disposition of certain City-owned real properties acquired under redevelopment in light of current downtown market conditions.

City Council requested appraisals of the properties located at 5, 7 1/2, 9, & 11-13 Biltmore Avenue, the parking lot on the east side of South Lexington Avenue and the property at 135 Cherry Street following a report on the current status of the properties.

Appraisals have been obtained on the properties which reflect the following values:

Address	Market Value	Leased Fee Value
5 & 7 1/2 Biltmore Avenue	$340,000	$300,000
9, 11 & 13 Biltmore Avenue	$470,000	$380,000
E/S South Lexington Ave.	$65,000	No lease
Total Downtown Properties	**$875,000**	
135 Cherry Street	$105,000	No lease
Total All Properties	**$980,000**	

The Market Value represents the estimated unencumbered fee simple value. The Leased Fee Value represents the estimated value of the City's interest in the property subject to existing leases.

The highest and best uses of the properties are all commercial with the Biltmore Avenue properties best suited for retail, the South Lexington Avenue property best suited for parking and the Cherry Street property best suited for office.

The purpose of the appraisals was to assist in making the determination whether to sell the properties or to hold them the intent being to achieve the highest return to the City. The question of whether to offer the contiguous properties as one parcel also was put to the appraiser. It is the appraiser's opinion that no advantage would be obtained by combining the contiguous parcels. Each parcel is appraised and considered separately.

The Biltmore Avenue properties are located in a prime commercial area but, they are encumbered by below market leases. The effect of the leases on the value of the properties is reflected in the difference between the market value and the leased fee value. The leased fee value was determined by using the Discounted Cash Flow (DCF) or Present Value method. The DCF method calculates the present value of the cash flow plus the capitalized resale value realized by holding the properties for ten years as an investment less any refurbishment expenses. The DCF method takes into account the existing rents and assumes a discount rate of 13%. It also assumes an expenditure of $55,350. on 5 Biltmore Avenue and $21,970. on 9 Biltmore Avenue for refurbishment. The Biltmore Avenue properties are a good investment and therefore very marketable properties. However, since the current leases expire in the year 2000, that invites the question of whether to hold the properties for two years and then sell them. In such case if a value appreciation of 8% annually, a discount rate of 13% and a capitalization rate of 11.5% is assumed the present value of the future sale price plus the discounted cash flow for 5 - 7 1/2 Biltmore Avenue for a holding period of two years would be $347,616 or a 16% increase over the current lease fee value of $300,000. For 9 - 13 Biltmore Avenue, the present value of the future sale price plus the discounted cash flow would be $443,627 or a 17% increase over the current lease fee value of $380,000. Staff recommends holding the Biltmore Avenue properties until the current leases expire and then offering them for sale at that time. In the interim rental rates for those units not under lease should be increased to market rate incrementally over the two year period.

The parking lot on South Lexington Avenue is a metered lot and is currently being managed by Parking Services. Since the appraisal indicates that parking is the highest and best use for the property, staff recommends the lot be retained for parking.

The Cherry Street property is being used by Neighborhood Housing Services. It has been a part of the Head of Montford Redevelopment Project strategy to cooperate with NHS in the improvement of the Montford community. Provision of office space to NHS at affordable rates has been in the furtherance of a public purpose. With close-out of the Head of Montford Redevelopment Project in sight, staff recommends offering 135 Cherry Street for sale. The sale will be pursuant to provisions of the General Statutes.

Approval of the resolution will authorize that: (1) 5 - 7 1/2 Biltmore Avenue (PIN 9649.18-40-2028) and 9 - 13 Biltmore Avenue (PIN 9649.18-40-1091) be held for 2 years before being offered for sale; (2) the parking lot on the east side of South Lexington Avenue (PIN 9649.18-40-1018) be retained for public use; and (3) 135 Cherry Street (PIN 9649.17-21-0243) be offered for sale.

Community Development Staff recommends adoption of the resolution.

Upon inquiry of Councilman Sellers, Mr. Vess said that any money realized would go back into the Community Development Block Grant Program.

Vice-Mayor Hay said that he would like, when this money does become available to earmark it for an affordable housing trust fund .

Upon inquiry of Councilman Cloninger, Mr. Vess said that at this point in time, he would recommend that the Biltmore Avenue properties be held for two years before being offered for sale. After that two year period of time, City Council will have another opportunity to review whether they want to sell the properties or continue to hold them.

Mr. Richard Jacobs, appraiser, explained to Council how the leased fee value was determined.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEXT COMMUNITY MEETING

It was the consensus of City Council to hold their next community meeting on June 30, 1998, at 7:00 p.m. at the Burton Street Recreation Center in West Asheville. City staff will be available to answer questions at 6:00 p.m. prior to the actual City Council community meeting.

It was Vice-Mayor Hay's hope that the next community meeting be held in the South area, maybe in the Skyland area.

BUDGET AMENDMENT RELATIVE TO LEGAL FEES FOR BILLBOARD DEFENSE

City Attorney Oast said that the budget ordinance amendment appropriates $75,000 for legal fees associated with defense of the lawsuit filed by two outdoor advertising companies challenging the City's ordinance requiring the amortization and removal of off-premise signs.

As Council has been advised, the City has retained the law firm of Horack, Talley, Pharr & Lowndes of Charlotte to provide a defense for the City in the lawsuit brought by Fairway Outdoor Advertising Co. and Outdoor Communications, Inc., challenging the City's ordinance, adopted in November of 1997, requiring the removal of off-premise signs, following a 7-year amortization period.

The City Attorney's Office solicited proposals from several firms around the State. The Horack, Talley firm is defending the City of Charlotte in its billboard litigation, and is well-qualified to defend the City of Asheville.

The defense of the billboard lawsuit is an extraordinary matter, and was not anticipated in the City's FY 1997-98 budget. Moreover, the timing of the engagement was such that the information necessary for a budget request was not available at the time budget submissions for fiscal year 1998-99 were due. We now have information that enables us to project costs, and we are requesting sufficient funding to cover those costs for the remainder of FY 1997-98 and into FY 1998-99. Accordingly, the appropriation made this year will be carried over into next year's budget.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CLOSED SESSION

At 5:47 p.m., Councilwoman Field moved to go into close session to establish or to instruct the City's staff concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a controversial or proposed contract for the acquisition of real property - G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:12 p.m., Vice-Mayor Hay moved to come out of closed session. This motion was seconded by Mayor Sitnick and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:12 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

James L. Westbrook, Jr.
City Manager
City of Asheville
Post Office Box 7148
Asheville, NC 28802

RE: InterMedia Cable Television Franchise Renewal

Dear Mr. Westbrook:

During our most recent negotiations on the Cable Television Franchise Renewal, we discussed InterMedia's policies and intentions concerning our operations and the provision of cable television service to our customers in the City of Asheville. In response to your request, this letter shall confirm InterMedia's current policies, and acknowledge our intentions and plans on the selected matters we discussed.

1) InterMedia has stated publicly that we are planning to provide Internet access to the schools in the City of Asheville. Specifically, if InterMedia determines that the provision of high-speed internet access services by cable modems is economically feasible in the City of Asheville, then at such time that InterMedia begins to provide such internet services, InterMedia intends to offer free internet access service and a free cable modem to each school within the City of Asheville for as long as InterMedia continues to provide such service.
2) During our discussions you inquired about InterMedia's policy concerning discounts to elderly housing units and nursing homes. Please be advised that InterMedia currently provides discounts to such facilities by providing a bulk rate discount to such facilities and is committed to continuing this policy. For instance, InterMedia currently provides such bulk rate discounts to the following facilities: Asheville Housing Authority facilities (specifically Aston Towers and Bartlett Arms Apartments), Asheville Manor, Hospice of Asheville, Victoria Health Care, The Oaks, Brooks Howell Home, Rivendell Woods and the Veterans Administration Hospital.
3) InterMedia is currently actively involved with the Job Training Partnership Act ("JTPA") which provides internship opportunities and other job training

opportunities for local high school minority students. InterMedia is committed to continuing equal opportunity employment programs and training programs such as the JTPA or similar programs.

4) Consistent with our discussions, InterMedia agrees to pass through $0.35 per subscriber in years one (1) through five (5), and $0.30 per subscriber in years six (6) through twelve (12), in order to recover the PEG initial equipment funding, the ongoing PEG funding and for the cost of the institutional network required in the renewal franchise. InterMedia further agrees that no interest will be assessed or other rate of return will be imposed on the total funding and that once InterMedia has been fully reimbursed for such franchise obligations, the subscriber pass through amount will no longer be collected from customers.

We thank you, the City Attorney's office, and the City Council for your time and attention to the conclusion of the franchise renewal process. We look forward to the renewal of our franchise and to providing the citizens of Asheville with superior customer service and access to advanced cable services.

Sincerely,

Bruce J. Stewart
General Counsel

Franchise Fee Issue
and
Proposed Settlement

Issue: Does the phrase "gross monthly service charges collected" in the 1967 franchise include premium services, revenues from home shopping networks and other revenue sources?

Measures to Address Issue:

- Legal research on court interpretation of phrase or similar language
    - Problem North Carolina case - Lexington, North Carolina
- Legal research on federal regulations governing amount of franchise fees
    - 1967 franchise says 6%
    - federal law set cap of 5% in 1984 (effective January 1, 1985)
- Legal research on how far back could collect fees (statute of limitations)
    - Three Years
    - Ten Years
    - Unlimited
- Review amount of franchise fee payments made
- Review records of TCI Cablevision of Asheville, Inc. to determine amount of revenues from basic and expanded basic services, premium channels (HBO, Cinemax, etc.), installation charges and rental fees and home shopping networks
- Assemble report comparing amount of franchise fee payments made to revenue sources listed above

Chronology

1967 -	Franchise approved; 6% franchise fee; basic service only
1980 -	HBO (premium service) introduced by local franchisee
1984 -	Disney (premium service) introduced by local franchisee
1985 -	Expanded basic service began
	Federal law limits franchise fees to 5%
1986 -	Pay-per-view introduced by local franchisee
1988 -	Showtime (premium service) introduced by local franchisee
1996 -	Rice, Williams conducts franchise fee review
1997 -	Franchise renewal and settlement first proposed

270

Franchise Fee Issue and Proposed Settlement

IF "gross monthly service charges collected" ("gross") includes premium services, home shopping network revenues, etc.

THEN

For Four Years *

"gross" = $29,029,377 x 6% = $1,741,762.62

Amount paid = $20,223,852 x 6% = - 1,213,431.12

Difference (6%) = $ 528,331.50

* Rice, Williams contract was for a three year review; based on timing of review, fourth year could be included and was included in report.

BUT **5% Federal limit**

For Four Years *

5% Federal Limit = $29,029,377 x 5% = $1,451,468.85

Amount paid = $20,223,852 x 6% = -1,213,431.12

Difference (5%) = $ 238,037.73

⇓

For Three Years **

= $ 178,528.29

* Rice, Williams contract was for a three year review; based on timing of review, fourth year could be included and was included in report.

** Information for three years determined in the event statute of limitations is three years.

Should Have Paid $29,029,377 x 5% = $1,451,468.85

Paid $20,223,852 x 6% = $1,213,413.12

Difference (4 years) = $ 238,037.73

Difference (3 years) = $ 178,528.29

Tuesday - June 9, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor Hay gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF SONDLEY AWARD TO PAM AND JIM TURNER

Mayor Sitnick said that the Sondley award is given by the Historic Resources Commission of Asheville & Buncombe County ("HRC") to an individual or individuals in the community who by word or deed has kindled among the citizens of Asheville and Buncombe County an appreciation for the history or historic resources of the area.

Mr. Robert Galloway, HRC Chairman, spoke briefly about the Turner's contributions to historic preservation.

Mayor Sitnick was pleased to present the 1998 Sondley Award to Pam & Jim Turner.

B. RESOLUTION NO. 98-74 - RESOLUTION OF APPRECIATION TO RETIRING EMPLOYEE DAVID R. KING

City Manager Westbrook said that David R. King has been employed by the City of Asheville for over 24 years and has requested retirement from his position as Line Maintenance Worker I in the Meter Services Division of the Water Resources Department.

Resolution No. 98-74 was adopted by acclamation.

RESOLUTION BOOK NO. 24 - PAGE 410

C. RECOGNITION OF CITY OF ASHEVILLE WINNERS IN THE EXCELLENCE IN EXCELLENCE IN PUBLIC SERVICE AWARDS PROGRAM

City Manager Westbrook said that on May 20, 1998, the City joined with Buncombe County and several local, federal and state agencies to recognize public employees at the "Excellence In Public Service Awards Program." The goal of the program is to honor outstanding employees in governmental agencies in the Asheville-Buncombe area who have performed exceptional and meritorious work during 1997 for their agencies and the community. Awards are given in 10 categories. A City employee selection committee reviewed the City nominations and selected finalists in each category to go on and compete with the other agencies. A "Blue Ribbon Committee" (comprised of area business representatives) considered all agency nominations and selected one winner for each category. In addition, one category winner was also selected as the "Public Service Employee of the Year" for the Asheville-Buncombe County area. Those winners were announced at UNC-A on May 20, 1998. Those winners from the City are as follows:

Outstanding Technician, Assistant or Aide - Lee Smith (Police)

Outstanding Heroic Act- Tonna Ramsey and Alyson Pressley (Parks & Recreation)

Outstanding Team and Public Service Employees of the Year - Fire Safety Team:

Joe Meadows, Team Leader; Joe Capel; Carl Denning; Kevin Griffin; Dan Flinn; Eric Velez; and Karen Murphy, Facilitator

CHANGES IN AGENDA

A. RESOLUTION RELATIVE TO THE DISPOSTION OF CERTAIN CITY-OWNED REAL PROPERTY

Mayor Sitnick said that she has received a request from Habitat for Humanity to continue this matter until July 28, 1998, in order to give them an opportunity to review the proposed resolution. Therefore, Councilwoman Field moved to continue this matter until Tuesday, July 28, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

Vice-Mayor Hay was not opposed to continuing this matter, however, there seems to be a misunderstanding in that City Council is not considering a resolution to immediately raise the rents on Biltmore Avenue.

B. MOTION REGARDING THE OPENING OR CONTINUED CLOSURE OF THE PEDESTRIAN WALKOVER BRIDGE AT HILLCREST APARTMENTS

Mayor Sitnick asked for a motion to advance on the agenda the Hillcrest Apartments Pedestrian walkway bridge matter. Therefore, Councilman Sellers moved to advance the Hillcrest bridge walkway matter prior to the public hearings scheduled. This motion was seconded by Councilwoman Field and carried unanimously.

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON JUNE 23, 1998, TO CONSIDER (1) ORDINANCE REGULATING CABLE SERVICE PROVIDERS; (2) ORDINANCE GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA) AND (3) RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SETTLEMENT AGREEMENT WITH INTERMEDIA AND TCI REGARDING FRANCHISE FEES

B. RESOLUTION NO. 98-75 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PERMANENT MAINTENANCE AGREEMENT WITH COMMONWEALTH DREAMLAND PARTNERS FOR STREAM LOCATION ON THE LOWE'S SITE

Summary: The consideration of adoption of a resolution to allow the City Manager to enter into a permanent maintenance agreement, as required by the Board of Adjustment, for the relocation of a portion of Haw Creek.

On May 19, 1997 the Board of Adjustment approved a No-Rise Certification in order to allow the Developer, Commonwealth Dreamland L.L.C., to relocate a portion of Haw Creek in order to build a new Lowe's building. A contingency of the Board of Adjustment's approval was that the City of Asheville enter into a permanent maintenance agreement to assure that the relocated watercourse is maintained in accordance with the Floodplain Ordinance regulations. This agreement stipulates that the Developer shall be solely and exclusively responsible for all maintenance and upkeep relating to the relocation of Haw Creek and all appurtenances relating thereto for the duration of the Ground Lease Agreement and any extensions to the Lease. It further provides that should it become necessary for the City to provide maintenance to this portion of Haw Creek the Developer shall reimburse the City within sixty (60) days after submittal by the City of an invoice outlining the cost involved. Additionally, the maintenance agreement states that the Developer shall cause a registered North Carolina Engineer to inspect the integrity of the relocation work at least once annually and immediately correct any problems noted.

City staff recommends approval of a resolution allowing the City Manager to execute a permanent maintenance agreement with Commonwealth Dreamland, L.L.C., in order to construct the new Lowe's building.

RESOLUTION BOOK NO. 24 - PAGE 411

C. RESOLUTION NO. 98-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE KIWANIS CLUB TO PROVIDE FUNDS AND MATERIALS TO REFURBISH AND REBUILD A PLAYGROUND AT CITY-OWNED LAKEWOOD PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the Kiwanis Club of Asheville to provide funds and materials to refurbish and rebuild a playground at City-owned Lakewood Park.

The Kiwanis Club of Asheville has made the generous proposal to raise money and donate to the City, $15,000 for the purchase of new playground equipment for Lakewood Park in the Kenilworth neighborhood. In addition, the Kiwanis will solicit donations of materials needed to construct the sand and play areas of the playground. The City's involvement will include providing $10,000 to purchase materials to build the playground, dedicate the services of the Assistant Landscape Architect to design the playground and provide the Parks and Recreation Maintenance Crews to demolish the obsolete structures and build the new playground. Since the current Parks and Recreation budget allows only two playgrounds per year, this represents an opportunity to refurbish a playground that would not otherwise be renovated in the near future. It is hoped that this will be first of many such cooperative efforts between Civic groups and the City.

RESOLUTION BOOK NO. 24 - PAGE 412

D. ORDINANCE NO. 2485 - BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR THE LAKEWOOD PARK PROJECT BASED ON DONATIONS MADE BY THE KIWANIS CLUB AND OTHER INTERESTED PARTIES

Summary: This budget amendment, in the amount of $15,000, will appropriate funding for the Lakewood Park project based on donations made by the Kiwanis Club and other interested parties.

The Parks and Recreation Department and the Kiwanis Club of Asheville have been working on a public/private partnership to renovate the Tot Lot at Lakewood Park. The Kiwanis Club is committed to providing $15,000 towards this project. In addition, it is anticipated that additional sources of revenue may be generated for this project in the near future.

The Parks and Recreation staff recommends appropriating funds for the renovation of Lakewood Park through City Council's approval of the budget amendment.

ORDINANCE BOOK NO. 17 - PAGE 1

E. RESOLUTION NO. 98-77 - RESOLUTION AWARDING CONTRACT TO HOBSON CONSTRUCTION COMPANY FOR CONSTRUCTION OF RANKIN HEIGHTS SUBDIVISION

Summary: The consideration of a resolution awarding Hobson Construction Company the contract for construction of Rankin Heights Subdivision.

McGill Associates on behalf of the Community Development Division opened bids for the construction of Rankin Heights Subdivision on May 1, 1998. The following is the bid summary:

Precision Contracting	$229.785.00
Hahn Construction	$222,556.50
Hobson Construction	$199,743.00
Thorpe Construction	$238,535.64

The lowest bid received for the project was in the amount of $199,743.00 from Hobson Construction Company. The amount of funds available for the project is $203,000.00.

Community Development staff recommends acceptance of the low bid and awarding the contract to Hobson Construction Company.

RESOLUTION BOOK NO. 24 - PAGE 413

F. RESOLUTION NO. 98-78 - RESOLUTION CANCELING TUESDAY, JULY 7, 1998, CITY COUNCIL WORKSESSION

RESOLUTION BOOK NO. 24 - PAGE 415

G. ORDINANCE NO. 2486 - BUDGET AMENDMENT TO TRANSFER RIGHT-OF-WAY FUNDING IN THE STREET AND SIDEWALK FUND TO THE REID CREEK/BROADWAY GREENWAY PROJECT TO FUND LAND ACQUISITION

Summary: This budget amendment transfers $118,200 from right-of-way funding in the Street & Sidewalk Fund to the Reid Creek/Broadway Greenway project in order to fund land acquisition.

Funding in the amount of $225,000 was set aside in the Street & Sidewalk Fund for acquisition of residual right-of-way from the Broadway Widening Project a number of years ago. Since this funding was not needed for the Project, a decision was made in 1996 to leave this money set aside for Broadway Greenway land acquisition. This amendment transfers funding needed in the amount of $118,200 from the Street & Sidewalk Fund to the Broadway Greenway Project in the General Capital Projects Fund to cover costs to acquire property for the Reid Creek/Broadway Greenway Project. Current funding in place for the Reid Creek/Broadway Greenway Project is $58,790 which covers the City's contract with the Trust for Public Land.

Upon inquiry of Councilman Cloninger, City Manager Westbrook updated City Council on the status of the greenway projects.

ORDINANCE BOOK NO. 17 - PAGE 3

H. RESOLUTION NO. 98-79 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON JUNE 23, 1998, ON VOLUNTARY ANNEXATION OF SECTION 11 OF BILTMORE PARK

Summary: The consideration of a resolution setting a public hearing on June 23, 1998, to consider the Biltmore Park Section 11 annexation.

Biltmore Farms, Inc. (owner and applicant) has submitted an annexation petition for a 22.07 acre area identified as Biltmore Park annexation 11. This is the eleventh annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 8.

RESOLUTION BOOK NO. 24 - PAGE 416

I. RESOLUTION NO. 98-80 - RESOLUTION FIXING DATE OF PUBLIC HEARING ON JUNE 23, 1998, ON VOLUNTARY ANNEXATION OF SECTION 12 OF BILTMORE PARK

Summary: The consideration of a resolution setting a public hearing on June 23, 1998, to consider the Biltmore Park Section 12 annexation.

Biltmore Farms Inc. (owner and applicant) has submitted an annexation petition for a 11.36 acre area identified as Biltmore Park annexation 12. This is the twelfth annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 9 and Annex 7.

RESOLUTION BOOK NO. 24 - PAGE 418

J. ORDINANCE NO. 2487 - BUDGET AMENDMENT FOR LEGAL FEES ASSOCIATED WITH DEFENSE OF THE LAWSUIT FILED BY TWO OUTDOOR ADVERTISING COMPANIES CHALLENGING THE CITY'S ORDINANCE REQUIRING THE AMORTIZATION AND REMOVAL OF OFF-PREMISE SIGNS

Summary: This budget ordinance amendment appropriates $75,000 for legal fees associated with defense of the lawsuit filed by two outdoor advertising companies challenging the City's ordinance requiring the amortization and removal of off-premise signs.

As Council has been advised, the City has retained the law firm of Horack, Talley, Pharr & Lowndes of Charlotte to provide a defense for the City in the lawsuit brought by Fairway Outdoor Advertising Co. and Outdoor Communications, Inc., challenging the City's ordinance, adopted in November of 1997, requiring the removal of off-premise signs, following a 7-year amortization period.

The City Attorney's Office solicited proposals from several firms around the State. The Horack, Talley firm is defending the City of Charlotte in its billboard litigation, and is well-qualified to defend the City of Asheville.

The defense of the billboard lawsuit is an extraordinary matter, and was not anticipated in the City's FY 1997-98 budget. Moreover, the timing of the engagement was such that the information necessary for a budget request was not available at the time budget submissions for fiscal year 1998-99 were due. We now have information that enables us to project costs, and we are requesting sufficient funding to cover those costs for the remainder of FY 1997-98 and into FY 1998-99. Accordingly, the appropriation made this year will be carried over into next year's budget.

ORDINANCE BOOK NO. 17 - PAGE 5

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and motions on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

MOTION TO CONTINUE TO KEEP THE PEDESTRIAN WALKOVER BRIDGE AT HILLCREST APARTMENTS CLOSED

Councilman Tomes felt that Council needed to think in terms of the psychological messages the City sends the Hillcrest residents which goes beyond a fence or a passageway. He said he would support the wishes of the residents of the Hillcrest community.

Councilwoman Field asked about the City's liability in complying with the Americans with Disabilities Act ("ADA") compliance in terms of providing ramped access on both sides of the bridge. City Attorney Oast said that it is his understanding that this is a N.C. Dept. of Transportation ("NC DOT") facility and it seems that any responsibility for meeting ADA requirements would fall on the NC DOT. He said the City may have some agreement with NC DOT that would require us to share in some of those costs, however, it is a NC DOT facility and he felt they had primary responsibility for it. He said that there is also the alternate access going the other way, which may be a factor in whether or not ADA compliance is actually required for this particular cross-over.

Mayor Sitnick said that regardless of whether the bridge remains closed or is re-opened, Council supports the recommendations and contingencies as follows, especially those that require requests to the NC DOT:

1. Reopening the bridge must be accompanied by the following:

- Environmental changes on the Roberts Street side of the walkover to discourage crime and improve sight distances; clearing of brush and additional lighting of the area. Public Works has estimated clearing of the property to cost approximately $5,000 and would require one week to complete.
- A request of the NC DOT should be made to install additional lighting to deter criminal activity in the area of the steps leading to Roberts street.
- Repair of the fence which separates the sidewalk from I-240. NC DOT engineers are ready to make these repairs should the bridge be reopened.
- Placement of a handrail on the existing steps from the sidewalk next to I-240 down to Roberts Street. There is no current commitment from NC DOT to install this, however, City Council will request this.
- Relocation of the Police Office in Hillcrest to an apartment next to the pedestrian bridge to stem as much unwanted traffic as possible from the area. This relocation will depend on availability of apartments.
- Strengthening of crime prevention programs as well as Citizens on Patrol in the community. The residents council has recently elected new officers and become better organized.

- A future assessment of the impact any reopening has had on the residents of Hillcrest and their neighbors on Roberts St.

2. Continued Closure of the Pedestrian Bridge must emphasize:

- Public education regarding safe, alternate pedestrian routes . The NC DOT indicate traffic volumes for the I-240 area will continue and better routes need to be found.
- Review and emphasize public transportation schedules and routes. (The Asheville Transit Authority indicates the frequency of bus departures from Hillcrest will increase as the new terminal opens; however, 6:15 p.m. will be the latest buses will leave from Hillcrest or depart from other locations destined for Hillcrest.)

Mayor Sitnick felt that the City needed to look at the transportation issue which the bridge is part of. She also asked the NC DOT, as soon as possible, to look at a new solution for that area to create a more convenient pedestrian-friendly way to get to and from Hillcrest. Also, she hoped that the City would look into locating a police officer in one of the apartments (not part of the resource center) in the near future.

Councilman Cobb felt that if the bridge were re-opened, we could be creating a lot of problem, however, 58% of the survey asked that the bridge be re-opened and he would vote in support of the majority of the residents.

Pastor Nicks, United Christian Church located at the end of Roberts Street, talked about the drug and theft problems in their community when the bridge was opened. Since its closure, there has been no violence and things has quieted down. He urged City Council not to re-open the bridge which will allow drugs back into their community. He noted that even though 58% of the Hillcrest community wanted the bridge re-opened, 42% want it kept closed and 100% of the Roberts Street community want it to remain closed.

Council man Cloninger moved that the pedestrian walkway bridge remain closed and that City Council adopt the recommendation of staff in connection with closure of the bridge. This motion was seconded by Councilman Sellers.

Councilman Cloninger felt this is a very tough issue and their are strong arguments for opening the bridge and strong arguments for keeping the bridge closed. Ultimately, he was moved by the mothers of the young children who asked Council to put their children first. They asked Council to keep the criminals and drug-pushers from coming into their community which had happened for years prior to the bridge being closed. They also asked that Council help protect the young children who might inadvertently cross the bridge and get into harms way. Therefore, he would will vote to keep the bridge closed.

Vice-Mayor Hay agreed that this is a very difficult situation. Hillcrest is an isolated community and there are very few ideas about how to improve their situation. He listened carefully to the people who have lived at Hillcrest throughout the entire period noting that there has been remarkable progress made in the living conditions there since the bridge closure. He felt that he would trust the judgment of the people because they know what it was like before the closure and they are the ones who know what it's like now. He felt they want what is best for their community and he would support the bridge remaining closed.

Councilwoman Field felt that the Hillcrest community is an isolated island which is totally inappropriate for any neighborhood. I-240 will be widened soon and a new bridge will be built across the river and a lot of things will be happening in that area. She would like to see Council look toward relocating all of the units of affordable housing at Hillcrest into scattered sites all over the City and turn that site into a commercial site or some other use that does not isolate people. She doesn't like dead-end streets and likes people to be able to walk. She doesn't think re-opening the bridge will save any lives because someone who is inebriated or in a hurry who wants to get across will run across I-240 if they want to - opening the bridge will not make a lot of difference. She was pleased that after the bridge was closed the community started turning around and we started hearing positive things coming from the community. She didn't want to make this a race issue because we are talking about what is best for everyone.

Mayor Sitnick said that Hillcrest is a ghettoized, surrounded by highway, island. We have cut off access to Hillcrest and the bus schedule makes it almost impossible for anyone who works in the evening to get home safely unless they have a car. She is comfortable with the fact that if the walkway is opened a main component of the recommendation that she will pursue would be a not-to-distant future re-evaluation of the bridge and the activity that either remains the same or changes. It is now the only way people can get across I-240 and as I-240 construction increases it becomes more of a threat with congestion, traffic tie-ups, etc. We are a pedestrian friendly community and the perfect answer is not to re-open the bridge. She would like the NC DOT to assume some responsibility and create a better route to get across I-240 until such a time that we can relocate the residents pursuant to Councilwoman Field's suggestion. She has talked about that same suggestion for years and was told that any kind of high rent office park or commercial use would not be appropriate there because that was originally a landfill and the compaction of the ground couldn't tolerate high rises. In any event, there are people living in Hillcrest that need some kind of safe route. She heard from the residents council at Hillcrest of the need for increased responsibility on the part of the parents and adults in the community for their small children in the area. This situation will require everyone's resources and everyone's commitment until a real solution is found. Opening or closing the walkway is not a solution - only a stop-gap measure to make sure that people have a way to get across I-240 and get back into Hillcrest if they don't have cars.

Councilman Tomes noted that all public housing in Asheville has been made a gated community. With the development of the riverfront property and the volume of traffic being increased in the development of the expressway, he has no other alternative than to support the majority of the Hillcrest residents to re-open the bridge.

Upon inquiry of Councilwoman Field, Police Chief Will Annarino said that the walkway that goes over to Westgate is not closed and the other walkway that goes across 19-23 is not closed either.

Councilman Cobb would support re-opening the bridge and felt that if the Police Department cannot protect the residents, then the City should try to find some other place for them to live.

Councilman Cloninger commented that regardless of the outcome, City Council will continue to review the problems at Hillcrest in a more comprehensive way to see if we can come up with an overall game plan rather than piece-meal remedies.

When Mayor Sitnick called for a vote on the motion made by Councilman Cloninger and seconded by Councilman Sellers, said motion carried on a 4-3 vote, with Vice-Mayor Hay, Councilwoman Field, and Councilmen Cloninger and Sellers voted "yes" and Mayor Sitnick and Councilmen Cobb and Tomes voted "no".

III. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE APPROVAL AND PERMIT FOR A DUPLEX AT THE CORNER OF LONDON ROAD AND SHADY OAK DRIVE

Mayor Sitnick said that next on the agenda is the application a conditional use permit for a duplex at the corner of London Road and Shady Oak Drive. This is a public hearing for Council to consider whether the requested permit should be issued. There being no preliminary matters to be considered, she opened the public hearing at 5:56 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing. She then administered the oath to anyone who anticipated speaking on this matter.

Mayor Sitnick reviewed the procedures for this hearing by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. Hearing no questions about the procedure, she asked for staff's presentation.

Mr. Bruce Black, Urban Planner, said that the Technical Review Committee ("TRC") has reviewed an application for a conditional use permit for a duplex on the corner of Shady Oak Drive and London Road (PIN 9647-12-96-1860). The applicant proposes access from Shady Oak Drive. He said that water and sewer is available. The Unified Development Ordinance specifies several conditions which must be met in order to be granted approval. All of these conditions, detailed below, other than number 6, have been met.

1) The project is located in an RS-8 District in which duplexes are allowed as a Conditional Use;
2) The proposed use is more than 300 feet from any other multifamily use other than an accessory apartment;
3) The area of the lot on which the duplex is to be located exceeds 125% of the minimum lot size for the district in which it is located (RS-8);
4) Parking is located in the rear of the building, and is screened from the neighbors by landscaping;
5) Structure has a single front entrance;
6) Structure will meet all applicable NC building codes. Please note that this will be a function of the building permit application and subsequent inspections by the Building Safety Department.

The Planning and Development staff recommends approval subject to the condition that the duplex meet all North Carolina Building Code requirements.

At their meeting of April 20, 1998, the TRC recommended unanimously to approve the proposed duplex subject to the condition that all grading and site plans must be submitted to MSD for review prior to construction or grading of any kind, and that the structure meet all applicable North Carolina Building Codes.

Upon inquiry of Mayor Sitnick, Mr. Black said that this is a unit that was moved from West Terrace Apartments and this duplex has not been cut in half. He said, however, that even though he has not visited this full-size duplex, that he has visited one of the duplexes presently in the neighborhood which was cut in half and rehabilitated and it is very small but very liable.

After looking at the duplex, Councilman Tomes felt that the old, dilapidated, run-down buildings would require extensive rehabilitation to bring them up to par to mirror the kind of structures in the Shiloh community.

Vice-Mayor Hay said it was his understanding that the primary objection has to do not so much with the placement of the duplex on this lot, but in particular this unit on this lot. He asked if the building permit process will address any concerns about design, dilapidated looks, etc. Mr. Black responded that to the best of his knowledge, there is no aspect of any City regulation that addresses aesthetics, other than the historic areas.

Councilwoman Field said that the Minimum Housing Code has aesthetic implications in that it requires that there not be any holes in the roof, screens on the windows, etc.

Mayor Sitnick noted that in a conditional use permit, there are seven findings that have to be met before City Council can issue the approval. Those conditions are: (1) That the proposed use or development of the land will not materially endanger the public health or safety; (2) That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operating of the surrounding area in its basic community functions or by providing an essential service to the community or region; (3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property; (4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located; (5) That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the city; (6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and (7) That the proposed use will not cause undue traffic congestion or create a traffic hazard.

Upon inquiry of Councilman Cobb, Mr. Black said that if they put a new duplex, triplex or quadraplex on that lot a conditional use permit will be required.

With regard to finding no. 3, Vice-Mayor Hay asked if Council could take into account the proposed use that is this particular building. In other words, can Council step beyond just the proposal that it be a duplex, but that they take a look at exactly what they propose to do with it? City Attorney Oast felt that Council could.

When Councilwoman Field asked for guidance with finding no. 2, City Attorney Oast said that on this particular item, that finding is probably not germane and not relevant to Council's consideration on this permit request because it is not in the nature of a public necessity.

Councilwoman Field asked how Council could fulfill the requirement that it has to meet all seven of the findings if one of the findings is deleted. City Attorney Oast suggested that finding no. 2 not be considered because it is not relevant. He further clarified the question by saying that finding nos. 1 and 2, in a lot of model ordinances, are usually crafted in the alternative so that if Council were to determine that the proposed use might materially endanger the public health or safety, then Council could still allow it to locate there, if Council were determine that it were also a public necessity.

Councilman Tomes was concerned about finding no. 4 as well.

The following individuals spoke against City Council issuing the conditional use permit for several reasons , some being, but not limited to, old and use substandard housing being moved in the Shiloh community, particularly on London Road; the duplex is already on Caribou Road in Shiloh and the water has already been dug in; units came from a condemned development; units are substandard housing that will have to be brought up to meet Minimum Code requirements; the unit will diminish property values; property taxes have recently been raised and if the units are allowed to be located there - property values will fall; since cosmetics cannot be considered, if the units in question are not fire hazards or endanger of falling down, the City has no choice but to approve that they meet the Minimum Housing Code; units contain non-friable asbestos; 100 signatures have been obtained from the Shiloh community protesting the units; home ownership contributes to strong and safe neighborhoods; Shiloh is a historic, intact black community; the Shiloh residents are in favor of better housing and an income of rental properties, but they want certain standards; Shiloh does not want to be a dumping ground for Asheville; large buildings are being put in their community, surrounding their homes and it impossible for the residents to upgrade their homes and keep them maintained properly; Shiloh is a proud community and they do not want trash brought into their community; the developer who brought in the units onto Brooklyn Road manipulated the elderly people in the community; Shiloh should be protected like every other community in Asheville, the majority of Shiloh is home ownership and not renters; Shiloh is being infiltrated with these substandard units; there are no provisions for waiver of finding no. 2; this is an issue of power in whether Council feels the Shiloh residents' interest is greater than that of the applicant; there is a lot of traffic on London Road already; no sidewalks for the children on London Road; the average value of one structure is $9,000 and on some streets, they are placed beside $175,000 properties; and a small area plan for the Shiloh area might be appropriate so the Shiloh community will not be as land-locked and squeezed by two highway developments as is Hillcrest.

Mr. Charles Williams, voted spokesman for the neighborhood
Ms. Frieda Nash, resident of Shiloh community
Ms. Pauline Seabrook, resident of Shiloh community
Mr. Linwood Crump, property owner on Brooklyn Road
Mr. Jesse Ray Jr.
Ms. Catherine Proctor
Mr. Ted Scales
Ms. June Lamb
Ms. Helene Green
Mr. Frederick Payne, 299 Brooklyn Road
Ms. Shirley Coxe
Mr. Robert C. Morgan

Vice-Mayor Hay asked if this was a proposal to build a duplex that was constructed in the harmony with other buildings in the community would the community have objection to that as well. Mr. Williams said that when renters come into a community, they tend to take down the value of homeowners properties.

Ms. Beth Maczka, Director of the Affordable Housing Coalition, said that an analysis was performed in the Kimberly Avenue area relative to rental housing in single-family neighborhoods and the findings were that that there was no diminishing of property values of homeowners that lived next door to the large apartment complexes. When there is small scale scattered housing is that there is no noticeable impact on a neighborhood. She shares the concern of the neighborhood in terms of the quality of housing and it fitting into the neighborhood. She hoped that City Council will consider design standards for affordable housing. She stressed there is an incredible need for affordable housing.

Mr. Emory Mitchell, developer, said that even though the houses are not attractive now, several of these units have been moved all over the City. People are rehabilitating the units with new wiring, plumbing, putting in new windows and vinyl siding. He said they will end up being attractive looking units. He felt people needed to give him a change to fix the units. One unit has been moved into the Shiloh area and the owner, Mrs. Gardenhight , has put vinyl siding on it, enlarged the front porch, brick veneered the outside and it is now on the market for $70-80,000. He stressed that they will bring the units up to Code. On this particular unit, he is the owner of the property and he will rehabilitated it and rent it. He anticipated re-doing the wiring and the plumbing, installing new windows, putting vinyl on the three exterior walls and brick veneer on the front, enclosing the porch, planting shrubs around the building and he also noted that there will be only one door accessible into the building where it will not look like a duplex unit. The duplex is currently located on Caribou Road on steel beams.

Upon inquiry of Councilman Cloninger, Mr. Emory said that he owns one unit which is rented in the Newfound area. The other units moved within the City are on Westwood Place.

When Councilman Cloninger asked if there was any dialog between the developer and the Shiloh community, Mr. Emory said that he didn't think there would be any opposition. He said that he would be willing to meet with the residents and show them what has been done with some of the other duplexes that he has bought and moved and share the proposed plans for this duplex.

When Mayor Sitnick asked Ms. Nash if she thought the neighborhood would be willing to meet with the developer to discuss his plans and see the photographs, Ms. Nash replied that she felt the neighborhood would be receptive to the meeting. Ms. Nash also noted that this needs to be done with all developers who plan to build in the area.

Mayor Sitnick hoped that when City Council reviews the Unified Development Ordinance, that stronger language be inserted that would possibly mandate developers to meet with neighborhoods before the project gets to the public hearing stage.

City Attorney Oast said that to the extent that the neighborhood and Mr. Mitchell can agree on how to address some of the aesthetic problems with the structure, those can be made part of the conditions on the permit.

When Mr. Crump stated that no notices were sent to the people in the Brooklyn Road area when those units were brought in, Mr. Black responded that this was not a zoning matter which requires notices to property owners. They required a building permit.

Councilman Sellers said that he has lived in West Asheville and has been in the apartments. He has seen what Mr. Mitchell has done with his properties and has no doubt that Mr. Mitchell will do the same if the neighborhood will give him a chance to finish the product.

When Councilwoman Field asked if Mr. Mitchell is the same developer who has put in other units in parts of the community, Mr. Mitchell replied that he is not that developer.

Mr. Williams stated that he and Mr. Mitchell have tried to contact each other but they have been emphatic that Shiloh does not want to be a dumping ground.

When Councilman Cloninger asked Mr. Williams if the community would be willing to meet with Mr. Mitchell, Mr. Williams said that meeting with a developer is always an option, however, the issue today is whether or not to issue a conditional use permit and the residents council request that it be denied. Mr. Williams further stated that they were willing to meet with Mr. Mitchell, however, Mr. Mitchell needs to make the extra effort to arrange that meeting with the residents.

Mayor Sitnick agreed that while it is unfortunate that this dialog didn't occur before now, if Council votes to grant the conditional use permit, the project will happen. Councilman Cloninger's suggestion for a meeting with the community and developer gives an opportunity for the neighbors to feel some level of comfort that the kind of development Mr. Mitchell proposes will be along the lines of the development that has already been rehabilitated and on the market. She had a major concern over the handling of the asbestos siding and if it was disposed of properly, handled properly, wetted down, etc. She also expressed concern over the alleged manipulation of the senior citizens in the area along with the concern that water lines are being installed to accommodate the unit prior to the permit being granted.

Mr. Black said that there is evidence that the concrete has been cut and the dirt has been disturbed, however, this is a single-family area and a single-family lot. If the Regional Water Authority requirements are met, there is no reason why a water line could not be run to the property.

Upon inquiry of Councilwoman Field, Mr. Mitchell said he is not the developer who cut down any trees to move a unit into the neighborhood.

When Councilwoman Field asked if the City could cite Mrs. Gardenhight for problems created by the removal of asbestos siding after the fact, City Attorney Oast said that environmental laws are typically the providence of the State of North Carolina and he would have to research the question. Mayor Sitnick noted that when she checked with the Planning Department several weeks ago on the asbestos question, she was told by Senior Planner Gerald Green that there was compliance with all the laws pertaining to asbestos.

Mayor Sitnick would like staff to look into the asbestos issue and report back to Council.

Councilman Tomes stressed that the neighborhood feels like they have had no input into this matter and he felt Council needed to be sensitive to their concerns. He urged the community to be willing to meet with the developer but acknowledged that it was unfair for Council to ask Mr. Williams if that would be a possibility since he has not had a chance to talk to the residents about it.

Mr. Crump said that Mr. Mitchell has nothing to do with the unit on Brooklyn Road. Carver Realty is the company putting the unit in on Brooklyn Road. He said they are not meeting the development standards on pouring the footings and zoning enforcement should send someone out there to investigate. Mr. Black responded that they are meeting the legal requirements under the N.C. Building Code and the zoning regulations of the City of Asheville.

There being no request from the applicant for rebuttal, Mayor Sitnick closed the public hearing at 7:17 p.m.

Councilman Tomes suggested the vote be postponed and encouraged a meeting of the Shiloh residents with Mr. Mitchell. He thought that City staff should suggest to potential developers to meet the neighborhood at the beginning of their project stage.

Mayor Sitnick said that she was prepared to vote against the permit at this time, based on finding nos. 1, 3 and 4. She would, however, support the efforts of Council to encourage some dialog at this time and would be willing to postpone the vote only if the community was convinced that property values would not be diminished. She would like to wait for the report from staff concerning the asbestos situation. As strongly as she supports the need for in-fill affordable housing or affordable housing of any kind, she also supports the integrity of existing neighborhoods.

Councilman Cobb could not understand how those units would not diminish property values in the area and felt the units were not in harmony with the existing neighborhood.

Vice-Mayor Hay said that Council struggled last year in the Unified Development Ordinance process with duplexes, quadraplexes and triplexes in residential areas and tried to find some middle ground with the conditional use permit process with specific requirements. He said they were urged at the time to consider setting some design standards as part of that because they were told that was a major concern - what things were going to look like when they come in. Unfortunately, Council did not set those design standards. He felt the issue really is that this is a structure that nobody would want in their neighborhood. If there is some way to get to the point where we can put these design issues out of the mix and deal with only the issues of whether this is a valid conditional use, then he would like to see Council do that. Perhaps this needs to be postponed to give people a chance to see that the design will be different from what they are seeing being brought in all over their neighborhood.

Mayor Sitnick said that these units came from a neighborhood that did provide affordable housing, they were on bus lines, near work, etc., but they are being moved into a neighborhood of a different level of single-family homes. She agreed with Vice-Mayor Hay that design is mostly what everyone is concerned about, whether in affordable housing or increased density.

Upon inquiry of Councilwoman Field of whether City Council is allowed to make decisions based on aesthetics, City Attorney Oast said that on conditional use permits he didn't think Council can deny a conditional use permit because it is not aesthetically pleasing, but you can impose conditions on the granting of the permit that would address such things as harmony with the neighborhood and that kind of thing.

Councilwoman Field was not read to vote because staff has not addressed these seven findings to her satisfaction. There has been no discussion of a point by point analysis. She was concerned that all of the findings must be met and yet the City Attorney says that finding no. 2 is not relevant. She is really disturbed that the City doesn't have some kind of basic guidelines that describes what undue traffic congestion is and what is a traffic hazard. Also, she did not think we should be judging Mr. Mitchell based on what some other person has done wrong.

Councilman Tomes moved postpone action on this matter until July 14, 1998, in order to have staff develop what Council has requested and have an opportunity for the neighborhood and Mr. Mitchell to meet and dialog. This motion was seconded by Councilwoman Field and carried unanimously.

Councilman Cloninger hoped that Mr. Mitchell will be as specific as possible as to what he proposes to do with the property, including photographs.

Mayor Sitnick asked for (1) a report from staff on the asbestos situation and not only on the London Road duplex, but on the other duplexes coming out of the West Asheville property; (2) a report back to Council when and if a meeting occurs with the developer and the neighborhood before July 14, noting that the neighborhood has the opportunity to call any Council member to ask questions or express comments; (3) staff to address the concerns about traffic; (4) an analysis of each point to see if all the findings have been met; (5) a response from the City Attorney on how we can waive finding no. 2; and (6) a note that when Council reviews the Unified Development Ordinance that staff find an amicable and satisfactory way to encourage developers and neighborhoods in controversial issues to have some kind of dialog.

Mr. Charles Williams agreed to be the contact person of the neighborhood.

At 7:35 p.m. Mayor Sitnick announced a short break.

B. PUBLIC HEARING TO REZONE TWO PROPERTIES LOCATED ON CHATHAM ROAD AND W.T. WEAVER BOULEVARD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY

ORDINANCE NO. 2488 - ORDINANCE TO REZONE TWO PROPERTIES LOCATED ON CHATHAM ROAD AND W.T. WEAVER BOULEVARD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY

Mayor Sitnick opened the public hearing at 7:53 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is consideration of an ordinance to rezone two properties on Chatham Road and Weaver Boulevard from RM-8 Residential Multi-Family Medium Density District to RS-8 Residential Single-Family High Density District.

This rezoning proposal is the result of a request for a zoning study of a larger area which was presented to City Council in February. After examining the zoning pattern in the area, Planning and Development Department staff recommended that the two properties (PIN Nos. 9649.06.38-1040 and 9649.06-37-1807) be rezoned from RM-8 to RS-8 for the following reasons;

- It is staff's opinion that these properties are very much a part of the larger neighborhood (which is predominantly zoned RS-8) and should therefore be zoned consistently.
- The condition of the streets which serve these properties makes them questionable for medium density development. Chatham Road is very narrow with on-street parking and Weaver Boulevard in this location has only one westbound lane.
- Medium density multi-family development would still be possible with RS-8 zoning but would need to be developed as a planned unit development which would help to assure quality, compatible design.

The property owner of PIN No. 9649.06.38-1040 (the larger of the two tracts) is opposed to the rezoning. Staff is recommending approval of the rezoning. At their May 6, 1998, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning.

Upon inquiry of Councilman Tomes about one of the owners being opposed to the rezoning, Mr. Matteson explained that City Council initially instructed staff to look at a larger tract of ten lots which included these two and for the reasons noted above staff felt the two tracts should be rezoned. Mr. Matteson noted that he did not have anything in writing as to why the owner was opposed to the rezoning and the owner was not at the Planning & Zoning Commission meeting.

Upon inquiry of Councilwoman Field, Mr. Matteson said no traffic study was performed, however, part of staff's recommendation is not necessarily the volume of traffic, but the fact that Chatham is a narrow road with on-street parking.

Mr. John Quigley, President of the Jackson Park/Woolsey Neighborhood Association, spoke in support of Council rezoning these two lots and noted that the neighborhood assumed that the entire area would be rezoned RS-8 when the Unified Development Ordinance was adopted last year. He also expressed concern about the illegal parking on Chatham Road.

Ms. Beth Maczka, Director of the Affordable Housing Coalition, expressed concern of the properties being zoned single-family. The two provisions to include affordable housing in neighborhoods that were included in the Unified Development Ordinance were the planned unit developments and the conditional use permits - neither has been used in the past year to incorporate affordable housing in any place in the community. She felt this would be a very appropriate place for multi-family housing.

Ms. Maczka said that she would not be able to stay for the budget public hearing, however, she wanted to thank Council for considering fee waivers for non-profit and for-profit developers so that they will have a greater incentive to do this type of development.

Upon inquiry of Councilwoman Field, Mr. Matteson explained how the larger tract (1.9 acres) could be divided up into single-family lots.

When Mayor Sitnick asked why has the City allowed parking on both sides of Chatham Road, Mr. Matteson said that there are some homes that don't have driveways or garages so their only parking is on the street. Mayor Sitnick felt that staff needed to look at the parking situation on Chatham Road.

Mr. Rich Walton spoke in support of the rezoning and felt that the parking problems is due to lack of enforcement.

Mr. David Whitley, 210 Edgewood Road, spoke in support of the rezoning and noted that the neighborhood is concerned about the strain of infrastructure in the area.

Mayor Sitnick closed the public hearing at 8:19 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved for the adoption of Ordinance No. 2488. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 7

C. PUBLIC HEARING TO REZONE TWO PROPERTIES LOCATED AT 23 BEAR CREEK DRIVE FROM HIGHWAY BUSINESS TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

ORDINANCE NO. 2489 - ORDINANCE TO REZONE TWO PROPERTIES LOCATED AT 23 BEAR CREEK DRIVE FROM HIGHWAY BUSINESS TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY

Mayor Sitnick opened the public hearing at 8:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone two lots at 23 Bear Creek Drive from Highway Business District to RM-8 Residential Multi-Family Medium Density District.

The Planning & Zoning Commission initiated this request as they reviewed and approved the rezoning of 16 Bear Creek Road last month. The 2010 Plan shows this area to be low density residential which the RM-8 zoning permits. Direct access to this property is along an existing residential neighborhood street that terminates into a single family structure on the property. The volume of traffic through the existing single family neighborhood is very low.

Since the rezoning of these two lots was initiated by Planning & Zoning Commission, a letter from the property owner was requested. The owner stated in his letter that he opposed the rezoning but did not attend either of the Planning & Zoning Commission meetings to voice his objections. No objections were received from the neighborhood.

This property is within the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended approval of the rezoning of PIN Nos. 9628.15-54-5464 and 5527 from HB Highway Business to RM-8 Residential Multi-Family Medium Density District. At the May 6, 1998, the Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend the rezoning of PIN Nos. 9628.15-54-5464 and 5527 from HB Highway Business to RM-8 Residential Multi-Family Medium Density District.

Mayor Sitnick closed the public hearing at 8:24 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2489. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick said that she received a phone call from Sybil Hamilton who was opposed to the rezoning.

ORDINANCE BOOK NO. 17 - PAGE 9

D. PUBLIC HEARING TO CONSIDER A MODIFICATION OF THE SUBDIVISION STANDARDS TO PERMIT A FLAG POLE WIDTH OF 15 FEET FOR A FLAG LOT AND TO PERMIT A RESIDENTIAL LOT TO HAVE A STREET FRONTAGE OF LESS THAN 25 FEET AT 63 CUMBERLAND AVENUE

Mayor Sitnick opened the public hearing at 8:25 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of a motion relative to a modification of the subdivision standards to permit the creation of a flag lot with a flagpole width of 15 feet and a street frontage of 15 feet at 63 Cumberland Avenue.

The subdivision standards require a flag lot to have a minimum flagpole width of 25 feet and a minimum street frontage of 25 feet. Rosalind Whiteley, owner of the lot located at 63 Cumberland Avenue, is requesting a modification of the subdivision standards found in Sec. 7-15-1 of the UDO to permit a flag lot with a flagpole width of 15 feet and a street frontage of 15 feet. There are two houses located on the lot, one at the front of the lot and one at the rear. These homes have been on the property approximately 75 years. The lot is fronted by Cumberland Avenue and at the rear by an undeveloped alley. The alley has been closed to the western edge of this lot, but remains open from Elizabeth Street to this lot and continues to provide access to this lot and to other lots in the area. A flagpole width of 25 feet would create a non-conforming situation in that the side yard setback for the house at the front of the lot would not comply with the requirement for the RM-8 zoning. Emergency access to the house at the rear can be provided with a 15 foot wide flagpole. Standards for granting a modification to the subdivision standards are found in Sec. 7-15-1.J.2. of the UDO.

The Planning and Zoning Commission recommended approval of the modification by a 5-0 vote.

Upon inquiry of Councilman Tomes about accessibility, Mr. Matteson said that these are two existing homes and the subdivision is simply lines on a plat. The actual conditions on the lot would not change as a result of this. The house in the rear would continue to be served by the existing drive and the existing alley.

Vice-Mayor Hay said that City Council received a letter from Mr. Jones who is concerned that the alley will become nothing more than an overflow parking lot, especially for the rear cottage. Mr. Matteson responded that this is an existing cottage and because of the lot size, once it's subdivided, it can only be used as a single-family home. The number of cars would not increase.

When Mayor Sitnick asked if there are any restrictions in the use of the alley, City Attorney Oast said that it would depend on whether the alley is a private or a public alley. Either way, thought, it may be possible to reserve it as being open for fire purposes. Mr. Matteson said that Senior Planner Gerald Green talked to the Fire Marshal and the Fire Marshal indicated that the Fire Department could use the existing driveway.

Mayor Sitnick closed the public hearing at 8:33 p.m.

Councilwoman Field moved to approve the modification of the subdivision standards to permit a flag pole width of 15 feet for a flag lot and to permit a residential lot to have a street frontage of 15 feet at 63 Cumberland Avenue. This motion was seconded by Councilman Sellers and carried unanimously.

E. PUBLIC HEARING RELATIVE TO ADOPTION OF THE 1998-99 ANNUAL OPERATING BUDGET

Mayor Sitnick opened the public hearing at 8:35 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Budget Director Ben Durant, said that City Council conducts a public hearing each year to receive public input on budget issues before the Annual Operating Budget is adopted.

The Fiscal Year 1998/99 Annual Operating Budget was presented to City Council on May 19, 1998, and a budget worksession was held on May 21, 1998. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Budget along with a notice of this Public Hearing was published on May 29 and June 5, 1998. The adoption of the Budget ordinance is scheduled on June 23, 1998, at the City Council meeting.

At the time the budget was presented, the Fiscal Year 1998/99 Annual Operating Budget was balanced with an ad valorem tax rate of $.52 per $100 of assessed value. Information recently received from the County regarding the appeals that the County estimated that the City would see due to reevaluation have been revised and basically the new net revenue neutral tax rate can be adjusted to $.51. However, several important priorities, including federal mandates for enhanced fire protection, are not included in this budget.

A copy of the Budget is available for public inspection in the City Clerk's office. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, the Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption with the only exception being the ad valorem tax rate, which cannot be changed once adopted.

Councilman Tomes asked if the $.51 tax rate would allow the City to cover the federal mandate regarding fire protection. Mr. Durant said that it would not and that one cent will cover most of that cost.

Mr. Albert Sneed, representing the Council of Independent Business Owners, said that based on information they received from the County, it appears to them that $.52 or $.51 tax rate is not revenue neutral. He explained his calculations and urged Council to have no real tax increase, which would be a $.48 tax. He said that the City of Asheville cannot afford all of the things that City Council and the citizens would like to have. One reason is that personal incomes in this community have continued to decline since 1979 when they are measured against the State. The other issue is the City doesn't have the property tax base in this community and we are running property values out of town. He urged Council to create an environment where we get incomes up and tax base in the community.

Upon inquiry of Councilman Tomes, Mr. Sneed felt it was critical that City Council gets out of micro-managing development and that there be rules that are predictable and quick. He also felt that staff does not have a pro-tax base attitude.

Fire Chief John Rukavina responded to Mr. Sneed's comment that the federal mandate regarding fire protection was only a matter of interpretation.

City Manager Westbrook responded to Mr. Sneed's calculations and noted that City staff has worked the numbers from several different formulas and continue to arrive at the same number.

Mayor Sitnick said that Council doesn't have a lot to say about declining personal incomes in the respect that there are a lot of industries, corporations and businesses that are participating in down-sizing, mergers, etc. - the kinds of things that put people out of work. The minimum wage in this Country should be considered a national shame. Maybe there are things that Council can do to be more encouraging to create a better outreach to the business community. We have made some improvements in the permitting process so that developers are made aware from day one what is expected of them. The Unified Development Ordinance is an improvement and it still needs to be tweaked but it certainly set the guidelines for developers to understand. It is important to remember that the rules and regulations protect the quality of life and we have to find ways to balance all that out so we can do good development. She hoped our economic development strategy for this community creates a mission statement that uses the word "sustainable" in it that allows people to have enough for what they need today and that leaves enough for those that follow. We have a community that is in deep fiscal distress. We have not raised taxes in eight years and when services and the level of services and the demands on municipal government by the citizens goes up. We have snow storms, unfunded mandates, and a 3% room tax that is devoted completely to tourist development which doesn't come back in and help the Asheville taxpayer pay for any of the crumbling, old infrastructure that is used by everyone. We have a City that is the infrastructure hub, not only for Western North Carolina, but for the whole State. The burden is on the double-dipped Asheville taxpayer who pays Asheville taxes and Buncombe County taxes. We have a community, because of our age and topography, limited in what it can do. We don't even have enough money in the budget this year for some new sidewalks. We have a fund balance that is below what it should be. We need to look out for the Asheville taxpayer, and personally she doesn't think that the Buncombe County leaders consider Asheville part of their venue and she doesn't think that the State delegation considers Asheville part of their District.

Councilman Cloninger said that the statements made by Mayor Sitnick are not his feelings. The City is not in severe economic distress. Asheville has for years followed a sound fiscal policy, our economic condition is good, our fiscal condition is good, our bond rating has improved, and we have otherwise received high marks for the way that the City has conducted itself fiscally. It is certainly true that we have a lot more things that we'd like to do in this community than we have the money for, but to say that we are suffering severe economic or fiscal hardship is absolutely not true.

Ms. June Lamb felt the idea of growth for the City is out-doing the intentions for quality of life. She hoped, among other things, that Council begin saving by eliminating $1.8 million in consultants which are used for master plans, eliminate $100,000 for the Chamber of Commerce, and to pay attention to the failures reported in the Vision project.

Upon inquiry of Mr. Jerry Rice, City Manager Westbrook explained the definition of revenue neutral.

Mr. Rice said that the County Manager's definition is different and felt that once the City and County come to agreement in what revenue neutral is, then they need to start cooperating with each other.

Councilwoman Field noted that the City represents 38% of the County's budget, which is fairly a large amount. So, our residents do indeed provide to the County's well-being.

City Manager Westbrook responded to questions from Councilwoman Field regarding the formula for sales tax division and whether the school tax is still included in that calculation.

Mr. Clarence Benton requested that the Asheville Advocate be included in the City's advertising budget for public notices and/or information pages. City Manager Westbrook said that this may be a policy decision opposed to a budget decision. Several years ago Council decided it would publish CityWorks in two newspapers of general circulation. He explained that Council can reallocate the same amount of funds in three newspapers, and if so, that is a policy decision. If, on the other hand, Council wants to increase the amount of funding for CityWorks by 1/3, then that is a budget issue.

Mayor Sitnick instructed staff to find out how much it would cost to advertise CityWorks in the Asheville Advocate. Councilwoman Field also asked for staff to find out of the cost per subscriber. They asked this information be furnished on the date the budget is adopted, June 23.

Upon inquiry of Councilwoman Field relative to multi-cultural activities, City Manager Westbrook said that the budget contains $64,000 for the City's contribution to the YMI Cultural Center which includes the full-time person and the program aspects of running the YMI. That $64,000 amount does not include the utility costs of approximately $2,000 a month. After discussion, Parks & Recreation Director Irby Brinson said that he would be working with the YMI Cultural Center on negotiating an agreement.

Mayor Sitnick closed the public hearing at 9:30 p.m.

Mayor Sitnick announced that adoption of the 1998-99 Annual Operating Budget will be at the June 23, 1998, City Council meeting.

F. PUBLIC HEARING TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY CHILD DAY CARE CENTERS AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS IN THE OFFICE DISTRICT

ORDINANCE NO. 2490 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY CHILD DAY CARE CENTERS AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS IN THE OFFICE DISTRICT

Mayor Sitnick opened the public hearing at 9:31 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to amend the Unified Development Ordinance to identify child day care centers as a permitted use, subject to special requirements in the Office District.

The Office District is designed to accommodate small offices (4,000 sq. ft footprint, 8,000 sq. ft gross floor area) in areas which abut residential uses or are transitioning from residential uses to office uses. These areas are typically served by narrow streets which cannot carry significant traffic. Child day care centers in this district can provide a valuable service for office employees in the district and for residents of adjacent residential areas. Given the scale of existing uses in those Office Districts currently mapped, the proximity of residential uses, and the limits of the street systems serving these districts, a need exists for standards which would limit the impacts of the child day care centers and assure that the centers are compatible with existing uses in the Office District. After discussing this matter for some time, the Planning and Zoning Commission identified the following requirements for child day care centers in the Office District:

- Maximum number of children - 50;
- Outdoor play areas must be fenced or otherwise enclosed and shall not include driveways, parking areas, etc.;

- Drop-off and pick-up areas must be located on the site so as not to obstruct traffic flow on adjacent public streets; and
- Parking shall not be located in the front yard.

These requirements are designed to assure that child day care centers in the Office District are compatible with adjacent uses in this district and surrounding districts.

The Planning and Zoning Commission recommended approval of this ordinance amendment by a 5-0 vote. The staff of the Planning and Development Department recommends approval of the ordinance amendment.

Mayor Sitnick closed the public hearing at 9:32 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2490. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 11

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-81 - RESOLUTION AMENDING THE CITY COUNCIL RULES ON BOARDS AND COMMISSIONS RELATIVE TO RESIDENCY REQUIREMENTS OF CITY APPOINTEES

Vice-Mayor Hay said the City Council Boards & Commissions Committee has requested that the policy governing City Council appointments to boards and commissions, be amended relative to residency requirements of City appointees. The rules will now read that "appointees to boards and commissions shall be residents of the City of Asheville, unless otherwise specified or provided for by law, ordinance, or Council action establishing said board or commission, or in the rules or by-laws of said board or commission, if approved by Council."

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-81. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 420

B. RESOLUTION NO. 98-82 - RESOLUTION APPOINTING A CHAIR TO THE CIVIL SERVICE BOARD

Vice-Mayor Hay said it is City Council's responsibility to appoint a Chair to the Civil Service Board.

The following are the existing Board members: Bill Fulp - City appointee; Nancy Kauffman - City appointee; Jane Mervine-Knisely - Employee appointee; Jesse Warren - Employee appointee; and Garry Moffitt - Member appointed by the other four members).

Because our City appointees recommended Mr. Moffit, Councilwoman Field moved to appoint Garry Moffitt as Chair to the Civil Service Board to serve a two year term, term to expire May 21, 2000, or when his term on the Civil Service Board expires, whichever occurs earlier. This motion was seconded by Councilman Cobb and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman moved for the adoption of Resolution No. 98-82. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 423

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 26, 1998, AND THE WORKSESSION HELD ON JUNE 2, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on May 26, 1998, and the worksession held on June 2, 1998. This motion was seconded by Councilwoman Field and carried unanimously.

B. EXOTIC CAR WASH

Councilman Sellers requested a status report at the next worksession on the exotic car wash which was recently opened.

C. BOARD OF ADJUSTMENT

Mr. Keith Thompson discussed a concern relative to a Board of Adjustment variance on Merrimon Avenue.

Councilman Cloninger said that he was increasingly concerned about the Board of Adjustment and their continued disregard of the advice of the Planning staff and the City Attorney's Office as to what the parameters of their authority are and to what constitutes a hardship. He felt Council should take a close look at the decision they reach on Merrimon Avenue. If City Council feels the Board has not acted appropriately, City Council should consider appealing immediately and also Council should take a real hard look at whether the Board of Adjustment should continue to exist under its current makeup.

Mayor Sitnick instructed staff to place on the July 21 worksession agenda a discussion concerning the Board of Adjustment.

D. CLAIMS

The following claims were received by the City of Asheville during the week of May 15-28, 1998: John Kitchen (Police), Randy Glasgow (Streets), Linda Hipps (Traffic Engineering), Arthur Pappas (Parks & Recreation), Michelle St. Arnold (Water), Frank Comito (Sanitation) and Roy Heath (Streets).

The following claims were received by the City of Asheville during the week of May 29-June 4, 1998: Christy Rutledge (Traffic Engineering), Francine Thomas (Streets), Bruce and Susan Councell (Sanitation), Teresa Wells (Streets), J. Clifton Dozier (Police), Robyn Robison (Water), Ronald Bennett (Water), Ricky C. Briggs, Donna Fitzpatrick (Traffic Engineering), Joel Murray (Sanitation) and Denise Goodson (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

E. LAWSUIT

The City received a Complaint on June 2, 1998, which is generally described as follows: Walton Lurey v. City of Asheville and Asheville Transit Authority - negligence due to motor vehicle accident involving Asheville Transit Authority.

This matter will be referred to Mr. Fred Barbour, an attorney outside of the City Attorney's Office. City Attorney Oast will be the primary person responsible in the City Attorney's Office for this file.

F. CLOSED SESSION

At 9:42 p.m., Councilwoman Field moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property - G.S. 143-318.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 10:20 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 16, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr. (arrived at 3:44 p.m.); Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Bids for Annual Asphalt Contract

Summary: Consideration of a resolution to award annual contract for asphalt materials to Asheville Division, APAC-Carolina Inc.

Pursuant N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish the City's estimated annual requirement of asphalt materials to be purchased as needed for force account re-surfacing and street repair. One (1) bid was received.

Since only one bid was received, a survey was conducted to identify other governmental agencies cost for asphalt. By comparison, the price bid to the City of Asheville appears to be consistent with other governmental agencies cost. This bid has been reviewed with Mark Combs and his concurrence received in this recommendation.

Subject to Council's approval, it is recommended the City enter into a contract with Asheville Division, APAC-Carolina, Inc., Asheville, North Carolina, for the purchase, on an "as-needed" basis only, the estimated annual requirement of 21,550 tons of assorted asphalt materials for a grand total of $581,850.00. The contract to become effective from the date of approval through June 30, 1999 with no guarantee of minimum purchase quantity.

Bids for Truck with Detachable Leaf and Dump Bodies

Summary: Consideration of a resolution to award contract to Carolina Truck Centers Inc. for the purchase of a crew cab truck with detachable leaf and dump bodies for the City of Asheville Public Works Department, Street Division.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a crew cab truck with hoist and detachable leaf and dump bodies for the Public Works Department, Street Division. The new vehicle will be a replacement for truck #323. Five (5) bids were received as follows:

Carolina Truck Center, Hickory, NC	$82,580.00
Volvo & GMC Truck, Hickory, NC	$82,629.17
Nu-Life Environmental, Easley, SC	$86,320.00
Carolina Truck & Body, Asheville, NC	$87,705.16
W. Carolina Freightliner, Asheville, NC	$88,977.00

Bids have been reviewed for technical compliance to specifications by the Public Works Department and the Fleet Management Division, and their concurrence received in the following recommendation.

Funds for this purchase are to be from the Street Division's appropriations, Account Code 20-430-15-427-00-5740.

Subject to Council's approval, it is recommended that the bid be awarded to the low bidder, Carolina Truck Centers Inc., Hickory, N. C., in the amount of $82,580.00 for the purchase of a 1999 'International' model 4700 cab and chassis with a 'Swaploader' SL-225 hoist, a 'Baker' 14 foot leaf body and a 'Heil' LH-13 dump body.

Sale of Surplus Street Sweeper

Summary: Consideration of a resolution authorizing the sale of a surplus street sweeper to the Town of Hot Springs, N. C. pursuant to N. C. Gen. Stat. sec. 160A-274.

The Town of Hot Springs is offering $6,500.00 to purchase a street sweeper that has been declared surplus and taken out of service by the Public Works Department. This offer is considered to be fair when compared to the market value and prior auction proceeds for this type of equipment.

Upon Council's approval, the City will accept the Town of Hot Springs offer in the amount of $6,500.00 for the purchase of one (1) 1987 Athey model AHL Street Sweeper.

Red Road & Patton Hill Road Water Line Project Bid Award

The consideration of adopting a resolution awarding the contract to Cooper Construction Company Inc. for the Red Road and Patton Hill Road Water Line Project.

The Engineering Department has developed construction plans for the Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project. This project consists of the construction of a six-inch water line along Red Road and Patton Hill Road to replace the existing two-inch water line. The engineer's estimate for this project is in the amount $193,193.00.

The project was advertised for one month. On Tuesday, May 26, 1998, the Engineering Department received 5 bids for the project as follows:

Cooper Construction, Hendersonville, NC	$169,174.95
Steppe Construction Co., Mill Spring, NC	$178,320.00
Hobson Construction Co., Arden, NC	$180,803.00
Buckeye Construction Co., Canton, NC	$197,855.45
Wheeler Construction Co., Weaverville, NC	$198,442.00

The construction time for this project is identified as 60 calendar days in the contract documents. The contract calls for liquidated damages in the amount of $250 per calendar day beyond this contract time.

The budgeted amount for this project is $293,000 and sufficient funds have been budgeted for the award of project.

Cooper Construction was the lowest responsible bidder in the amount of $169,174.95.

Staff recommendations that City Council adopt a resolution awarding the bid for Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project - Contract E-438 to Cooper Construction Company Inc.

Amendment of Regional Water Authority Capital Project Ordinance - 35 Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 to increase funding for the Glendale Bridge Water Line Project and to provide funding for the Carter Cove/Blackberry Lane Annexation Project.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

Funding is needed for the following projects:

- In February 1998, the Authority approved funding for the Glendale Water Line (NC DOT Project) in the amount of $5,000. This is a replacement of a 6" waterline that was abandoned when the old bridge was torn down. This project includes a new bridge and a new 6" water line. We are expected to contribute 20% and NC DOT will contribute the other 80%. Since that time, I have been informed that the project will cost more than anticipated. The original estimate did not include insulation of the water line attached to the bridge or necessary valving to isolate the line in order to make repairs. It is estimated that an additional $5,000 is needed for the project. Funding is available in the Reservoirs/Tunnel Repairs Project that is being postponed until FY 1998/1999.
- Carter Cove/Blackberry Lane is a project that was previously approved by City Council and the Authority's Policies and Priorities Committee. It is an extension of the water line on Blackberry Lane for residents who were annexed into the City. The Engineering Department is designing this project which is estimated to cost $37,700. Funding is available in the Reservoirs/Tunnel Repairs Project that is being postponed until FY 1998/1999.

Staff recommends adoption of the budget amendment amending Capital Project Ordinance 82-25 to reprogram funds in the amount of $42,700 from the Reservoirs/Tunnel Repairs to the Glendale Bridge Project and to Annexation Phase I for the Carter Cove/Blackberry Lane Annexation Extension.

Amendment of Regional Water Authority Capital Project Ordinance - 29 Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to provide additional funding for the North Fork/Bee Tree Chemical Improvements Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund. The original budget for the North Fork/Bee Tree Chemical Improvements Project was $1.5 million. This is a revenue bond project that was originally budgeted in the 35 Fund before revenue bond proceeds had been received. The expenses for this project were transferred to the 29 Fund at the end of FY 1997/1998. Following is a summary of the status of the budget for this project:

Original Contract	$1,367,000.00
C/O No. 1	-73,480.00
C/O No. 2	4,982.00
C/O No. 3	2,908.29
C/O No. 4	-5,000.00
Revised Construction Contract	1,296,410.29

CDM Engineering Contract	216,600.00
Additional Services Law Eng.	1,409.77
Advertising	213.90
Allocated 35 Fund Interest Exp.	75,856.95
Tax Refund	-1,092.25
Total Estimated Cost	**1,589,398.66**
Amount Budgeted for Project	**1,500,000.00**
Need to Increase Appropriations	**89,398.96**

Since there is insufficient funding to close out the North Fork/Bee Tree Chemical Improvements Project, it is necessary to increase appropriations at this time. This project exceeded the budget of $1.5 million for the following reasons:

- The bids for construction came in slightly higher than expected ($13,541.71 over budget)
- A portion of the interest expense charged to the 35 Fund for insufficient funds in FY 1996/1997 was allocated to this project in the amount of $75,856.95.

There is adequate funding in the Water Distribution Master Plan to offset the over-expenditure in the North Fork/Bee Tree Chemical Improvements Project. The bids for the West Asheville Reservoir Project budgeted in the Water Distribution Master Plan came in under budget; therefore staff is recommending decreasing the Water Distribution Master Plan by $89,398.96 and increasing North Fork/Bee Tree Chemical Improvements by the same amount.

This budget amendment will provide adequate funding to close this project at the end of FY 1997/1998.

Staff recommends approval of the budget amendment to reprogram funds in the amount of $89,398.96 from the Water Distribution Master Plan Downtown Project to the North Fork/Bee Tree Chemical Improvements.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

SKATEBOARD PARK

Mr. Irby Brinson, Director of Parks & Recreation, said that the Skateboard Task Force was established by the Parks and Recreation Department over a year ago to investigate the possibility of constructing and operating a skateboard park downtown.

In May of 1997, the Parks and Recreation Department conducted a community meeting to discuss skateboard issues in Asheville. Approximately 125 people attended that meeting, and as a result of that meeting, the Skateboard Task Force was implemented. The purpose of this task force was to begin work on a process that would investigate the feasibility of building a skateboard park. Over this period of time, the task force has been working on various issues and has determined two possible locations for a permanent site. In the meantime, due to problems that have occurred around the Vance Monument over the past several months, the department has been working with Police and Parking Services to determine a tentative location to help eliminate some of the problems. The top of the Civic Center Parking Deck (8th floor) has been determined as a possible temporary location for a park. Staff has been working with the Legal, Police, Parking Services, Fire, and Risk Management Departments. In addition, the task force has met with residents of downtown to solicit their feedback in the possibility of locating a temporary park on top of the deck.

The Parks and Recreation Department and the Skateboard Task Force is seeking City Council approval to proceed in developing a temporary park on top of the Civic Center Parking Deck as well as continue to explore the location of a permanent site.

With the help of Police Officer Mark Wilson, Downtown Development Manager Terry Clevenger and skateboarder Lee Pace, Mr. Brinson addressed the areas of concern with skateboarding.

Mr. Brinson then presented the task force's progress report in that the location criteria is that it be close to downtown; accessible to City-owned transportation, use of City-owned property and ability to supervise.

Mr. Gabe Smith, skateboarder, outlined a proposal for a skateboarding facility by detailing the park design of "the Warlord" which cost is approximately $70,000, while City Attorney Oast reviewed any risk management and legal concerns, noting that skateboarding is pretty low on the risk management scale. City Attorney Oast said that regardless of whether the park becomes a reality or not, the current ordinance does require some revisions and he will be bringing those revisions to Council in the future.

With the help of Steve Thompson, Parking Services Supervisor, Lee Pace, skateboarder, and Police Lt. John Kirkpatrick, Mr. Brinson outlined in detail the proposal to use the 8th floor of the Civic Center Parking Deck. Lt. Kirkpatrick reported that several locations were measured with regard to noise levels and his research revealed that the decibel noise level from 15 feet would be from 60-65 comparing that to normal conversation being a level of 60.

The Skateboard Park Rules & Regulations include no drugs or alcohol; no profanity; no vandalism, including graffiti, tagging or other means of defacing city and personal property; no camping, no loitering, keep the area clean and free of litter; keep the noise level to a minimum; no skating below the top level of the Civic Center Parking Garage at any time; all skating is limited to the designated area; skaters may access the facility using any of the three stairwells or the elevator; skaters only in the skating area; and spectators must remain in their designated seating area. Anyone violating the regulations will be banned from using the park and the parking garage. The hours of operation would be Monday-Saturday 10:00 a.m. - 8:30 p.m.; and on Sunday from 1:00 p.m. - 8:30 p.m.

Mr. Brinson said that three possible locations were arrived at for a permanent location. Those are the Rankin Street gravel parking lot behind the Civic Center, the old leaf dump on Broadway and Stephens-Lee Recreation Center. It was then determined that Stephens-Lee Recreation Center would not be the best location and based on the parking study, the Rankin Street gravel parking lot was pulled from the list as well. They are still researching the old leaf dump on Broadway as the permanent location.

Mr. Brinson said that it would cost approximately $5,000 to fence in around the area on the 8th floor.

Staff and task force members responded to many questions from Council, some being, but are not limited to: will the large number of skateboarders going to the skateboard park increase traffic in downtown; what is the cost of an average skateboard; what are the penalties for violation of the ordinance prohibiting skateboarding in the business district; has the task force looked at the property owned by NC DOT at the I-240 overpass or the concrete parking lot at the north end of Lexington; has the City explored any public/private venture; is there anything included in the Parks and Recreation Master Plan to accommodate skateboarders; what are precautions that will be made if the park attracts large crowds; will one person be adequate to maintain the park; has there been any research done regarding possible turf issues; are there any age restrictions for use of the park; does staff think that the use of the elevator during the park hours might impede the convenience of the people who park in the garage daily or rent on a monthly basis; is the park consistent to the parking study currently underway; how many months is it anticipated that the temporary park will be in operation; what would happen to the temporary park if the spaces on the 8th floor are needed; has staff addressed possible vandalism of cars parked in the parking deck; what are the security measures in place now and anticipated if the park is built; what is the cost of the temporary park; and how will restroom facilities be handled.

Ms. Marilyn Muccio, resident at Vanderbilt Apartments, expressed concern of the safety of the area, noise, if there would be extra security, and that the area is not shaded. She wondered if there were any state regulations that the City would be violating. She also felt that if the City charges a fee that some children will not be able to use the park.

Mr. Brinson responded to Ms. Muccio's concerns and particularly noted that they do not plan to charge a permit fee for use of the park. However an annual fee may be considered for the permanent park, but that is something they have not pursued yet. He said that the has no knowledge of any state regulations concerning the temporary park and regarding no shade, he noted that several activities, e.g., tennis, football, basement, are performed in the sun.

Mayor Sitnick was also concerned about the safety of the youth on the 8th floor of the garage.

Ms. Laura Maltby, resident in the Asheville Hotel, spoke in support of this temporary solution to a very real problem.

Ms. Susan Roderick, representative of Quality Forward, was excited about the proposal and stated that they would be glad to help with any fund-raising. She felt that most people would welcome the skateboard park on the leaf dump on Broadway, which could be part of the greenway system. She suggested a permanent site might be the parking lot across from Southern Bell in front of 45 Cherry Street on the NC DOT's right-of-way.

Mr. H.K. Edgerton was concerned about the City's cost for security for this park when there doesn't seem to be enough police man-hours to solve problems in the Eagle-Market Street area.

Mayor Sitnick responded to Mr. Edgerton by saying that the City is making an effort to place a community resource center in the Eagle-Market Street area. Mr. Brinson also responded that the skateboarders are raising money to buy materials and will build wooden ramps and other devices to skate over. He said that they are not asking for any additional appropriation.

Ms. Bonnie Contreras spoke in support of the park and noted that skateboarders will work on accomplishing the goals set.

It was the consensus of Council to place this item on the next formal City Council agenda.

CRUISE-IN TRACK

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department, in conjunction with the Police Department, has been working on the problem associated with cruising on Patton Avenue.

Last year, several articles appeared in the newspaper in regard to merchant concerns with problems associated with cruising on Patton Avenue especially on Friday and Saturday evenings. In an effort to be proactive in its efforts, Sandi Hosey, Special Projects Coordinator for the Parks and Recreation Department, and Officer Wade Wood of the Police Department, held the City's first cruise-in in September of 1997 at the Sam's Club parking lot.

With the help of Mr. Russ Parris, Ms. Hosey updated Council on the success of the cruise-in, the survey results of a poll taken of the cruisers, and also updated them on three cruise-ins planned for 1998. She noted that the problem they have is finding a location which the owners will let them use their facility on Patton Avenue. Several meetings have been held where business owners are invited, however, attendance by the owners is very poor.

After some discussion on trying to find a location, it was suggested that Ms. Hosey contact the West Asheville Business Association and attend a meeting to see if they can perhaps help them find a solution to the location problem for these cruse-ins.

It was the consensus of Council to lend their support in developing the cruise-ins in 1998.

RESCINDING BELE CHERE COMMISSION

Mr. Irby Brinson, Director of Parks & Recreation, said that the Parks and Recreation Department wishes to rescind Resolution No. 93-45, dated March 30, 1993, which established the Bele Chere Commission for the City of Asheville.

On March 30, 1993, the City Council established the Bele Chere Commission. This Commission was formed from Past Chairs of the Bele Chere Festival along with two appointees from City Council. Over the years, this Commission has served in an advisory capacity for the Bele Chere Board and staff. Responsibility for the Bele Chere Festival was transferred to the Parks and Recreation Department in 1995, and staff feels it is no longer necessary to have the Commission serve in an advisory function to Bele Chere since there currently exists a Parks and Recreation Advisory Board. It is staff's desire to have the Past Chairs of Bele Chere continue to serve as mentors for the Festival and to participate in various Bele Chere functions as they have in the past.

The Parks and Recreation Department recommends that City Council rescind Resolution No. 93-45 which established the Bele Chere Commission as an official City board or commission.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BUDGET AMENDMENT RE: PAVING OF McCORMICK FIELD

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a budget amendment, in the amount of $79,577, for the paving of the McCormick Field parking lot based upon prior commitment by former City Manager Doug Bean.

In 1992, former City Manager, Doug Bean, agreed that the City would pay for the paving of the McCormick Field parking lot as the City's commitment to the renovations of the minor league ballpark. Based upon review by both the City and County, payment has never been made by the City for this project. Buncombe County has now requested payment for the paving of the McCormick Field parking lot which was completed in 1992. The total cost for this project was $81,577; however, due to the contractor failing to complete various requirements of the contract, $2,000 was deducted from the original total. Therefore, the amount the City has been requested to pay is $79,577.

The Parks and Recreation Department is requesting City Council approval of the budget amendment to appropriate funds totaling $79,577 to pay for the paving of McCormick Field parking lot.

Mayor Sitnick expressed concern about the County billing the City six years later. Mr. Brinson said that by a letter dated September 16, 1992, former City Manager Doug Bean wrote to Mike Watson, who was the architect on the McCormick Field project, stating that the City would reimburse the County for the parking lot improvement change order in an amount not to exceed $81,577.

Councilwoman Field, who was a member of City Council in 1992, remembered vaguely that since the City Manager only had authority to approve projects under $35,000 that he did bring the issue to City Council's attention and Council at that time gave him authority to pay for the paving. She would review her notes to see if she could bring anymore light to this issue.

Councilman Cloninger felt that if staff is confident that the City made the commitment to pay, then the City should stand by that commitment.

Vice-Mayor Hay noted problems associated with the paving and final settlement and felt that some of that might explain the delay in receiving the bill.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

AFFORDABLE HOUSING STRATEGIES

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of adopting a resolution approving strategies proposed in the Affordable Housing Study and instructing staff to prepare a first-year action plan.

The Affordable Housing Study was commissioned in October 1997 from Housing and Community Insight, Inc. for a fee of $28,200. The scope of work was to analyze historic and current trends in Asheville's housing supply and demand, including housing for ownership, rental and special needs, and to prepare a five-year affordable housing strategy including goals for housing production, potential financial resources, and administrative structures. The report was submitted in February 1998.

The Housing and Community Development Committee has reviewed the report and heard a presentation on its contents from the principal author Richard Genz. It finds the report to be based on good factual information and sound analysis. It is clear that Asheville faces a significant shortage of housing, at all price levels, and in both ownership and rental sectors. The shortages are particularly severe for housing affordable to people with low to moderate income (below 80% of area median income), According to the Study, Asheville will need 675 additional housing units a year to meet demand over the next five years, and 455 additional units of rental assistance.

The study recommends eight broad strategies. They are (with minor amendments proposed by the Housing and Community Development Committee):

1. Develop a strong leadership role for the City to promote housing production and affordability.
2. Use local zoning and regulatory policies to support affordable housing.

3. Increase production of rental and ownership housing.
4. Promote in-fill housing, mixed-use development and adaptive re-use of existing buildings.
5. Expand housing rehabilitation
6. Encourage affordable housing development by both for-profit and non-profit developers.
7. Develop transitional housing for those with special needs.
8. Develop formal City-County collaboration on housing.

The Housing and Community Development Committee endorses these strategies and recommends their approval by Council.

Under the eight strategies, the study recommends 49 separate implementing actions. It is not feasible, nor did the study's authors intend, that all these actions should be carried out simultaneously. They can be treated as a menu from which to prioritize and select actions that are most suitable for immediate implementation. Some actions have already started through the efforts of the Chamber of Commerce's "Homes for Asheville-Buncombe" Task Force. As progress is made year by year, the study can be revisited and further implementing steps added. The process should coincide with, and eventually be subsumed within the City's consolidated planning process for housing and community development.

That City Council accept the eight broad strategies set forth in the Resolution and instruct staff to prepare an initial action plan detailing implementing actions that have the highest priority and can reasonably be put into effect within the next twelve months.

Upon inquiry of Councilman Cobb, Ms. Caplan said that a newly constructed house selling at or below $100,000 would be considered affordable.

Upon inquiry of Mayor Sitnick, Vice-Mayor Hay and Councilwoman Field explained how the City can work with the County on housing.

Discussion surrounded the need for a source of designated income to create a local housing trust fund for affordable housing.

Mr. H.K. Edgerton urged Council to include the African American community in discussions. He noted that there was not any African American representation on the HOME Consortium. Councilwoman Field said that Asheville has two appointments, one of which is her and the other is the Director of Affordable Housing Beth Maczka. If Council chooses, they can remove either herself or Beth and appoint an African American representative, since Asheville has no control over the other appointments on the Consortium.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ORDINANCE NO. 2491 - ORDINANCE TO ALLOW A FRANCHSE AGREEMENT WITH ASHEVILLE TROLLEY COMPANY

City Attorney Bob Oast said that this is the consideration of a request from the Asheville Trolley Works, LLC, for a franchise to operate trolleys on the city streets, stopping at various points along said streets to board and discharge passengers.

The applicant, a Limited Liability Company by the name of Asheville Trolley Works, LLC, (ATW), wishes to operate rubber tired trolleys on the Asheville city streets. The owner is the Grove Park Inn and SouthCities Capital Corporation. The company plans to serve the Grove Park Inn and the Biltmore Mansion, and various points in-between. The operation is geared towards tourists and is desired by merchants and hotels that expect to benefit from the existence of such a service.

The ATW service will operate primarily during the tourist season, and will probably not operate at all during the winter months. Although in the current plan the trolleys will run primarily during daylight hours, it is conceivable that they will also be used to transport hotel guests or other tourists during evening hours for restaurant tours, or to other special events.

He reviewed various items in the franchise, noting that current plans are for the trolley to service the Grove Park Inn, The Biltmore House, and the Radisson Hotel from within the properties of these businesses. It is also planned that the trolley will stop near the Haywood Park Hotel, Pack Square, and in Biltmore Village. Although these are the only planned stops on public streets, it is conceivable that other stops may be desirable in the future. The precise location of the trolley stops must be approved by the Planning Director. Trolley stops shall be so located and signs shall be so designated as to minimize the possibility of confusion with the bus stoops of the Asheville Transit Authority ("ATA").

The hours of operation shall be limited to between 7:00 a.m. and 8:00 p.m. Sunday through Thursday, and between 7:00 a.m. and Midnight Friday and Saturday. For City-recognized holidays and days on which City-approved festivals occur in the Central Business District, the operating hours may be extended to Midnight, regardless of the day of the week.

The ATW may operate up to three trolley vehicles pursuant to the franchise. The trolley service shall be so operated and the routes so designed that each stop is serviced not less frequently than once per hour during the hours of operation.

The term of the franchise shall be for one year beginning on June 24, 1998, and ending on June 23, 1999. There is an insurance and indemnity clause in the franchise agreement.

Mr. Oast then reviewed the trolley equipment and condition of vehicle standards and the revocation and termination clause.

Because of the sense from Council in trying to support the operation, the fee for operation of this franchise shall be $1.00 per day for each day of the term of the franchise. The fares charged by the ATW for trolley service shall be prominently displayed on the exterior of each trolley vehicle.

The trolley will not replace the ATA service in these areas, nor is it likely to significantly affect ATA ridership, as the market it aims to capture (tourists, hotel guests, etc.) do not currently ride the ATA service. Officials of ATA have been advised of the trolley proposal and have expressed no objection, though the ATA Board has not formally considered the matter.

The franchise ordinance requires that City staff give approval to all routes and stopping places on the basis of public health, safety and welfare. The agreement allows the operation of this business subject to the possibility of further regulation should such become necessary in the future. This is not an exclusive franchise.

Franchise ordinances require two affirmative votes of the City Council. Council's next formal meeting is June 23, and there is not another regular meeting until July 14. It is recommended that Council waive its rules and vote on the proposed ordinance at this worksession, in order to permit final consideration and a second vote on June 23.

When Mayor Sitnick requested that no signs be placed on the outside of the trolleys, Mr. Newman said that they have not come up with an advertising scheme as of yet, however, they will scheme their advertising in that way if Council wishes.

Upon inquiry of Councilman Tomes on whether the drivers will be local, Mr. Newman said that they envision the drivers of the trolleys to be knowledgeable about Asheville in that the trolleys will be like a tour bus.

Mr. Newman responded to a concern from Councilman Tomes if someone locally would like to ride the trolley. He said that even though they will gear all marketing to sell tickets in hotels, however, if someone wants to ride the trolley, they would accept the $3 from that person.

Mayor Sitnick felt that Council should be cautious in this franchise agreement and that it should be reviewed in either three or six months. She questioned whether the $1 day for the franchise (regardless of whether one or three trolleys were operating) was adequate or should we consider receiving a percentage. She felt there should not be any advertising signs on the outside of the vehicle.

It was the consensus of Council not to include a provision in the franchise agreement to require ATW to provide ridership figures. Mr. Newman stated that ATW will keep track of ridership and provide those figures to Council when the franchise is up for renewal.

Councilwoman Field moved to waive the rules and take formal action at this meeting. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilman Tomes moved to adopt Ordinance No. 2491 on its first reading. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick said that the required second vote on this ordinance will take place at Council's next formal meeting.

EXOTIC CAR WASH

Pursuant to a request of Councilman Sellers, City Council was presented with the following update on the status of any violations found concerning the operation of a car wash at 97-99 New Leicester Highway.

As Council is aware, the operators of XCapades Adult Night Club have for weeks now been advertising the opening of an exotic car wash. The first day of operation of the car wash was Saturday, June 6, 1998. Staff from the Police, Planning and Development and Building Safety Departments were all present on Saturday to determine whether or not any violations of local or state regulations/laws were taking place. Following is the status from each department:

- Police - At present the police have determined no violation exists over which they have jurisdiction. They will continue to monitor the situation to ensure no future violations occur.
- Building Safety - The plumbing inspectors who have visited the site have identified the need for no permits at this time. They did require a vacuum breaker on the outside water faucet last week which was provided. They are currently treating the waste water the same as stormwater for parking lots with no special code requirements. The electrical inspector is also watching for any electrical issues. They will continue to evaluate the situation and may place additional requirements on the car wash if it becomes a continuing operation.

308

- Planning and Development - Based on the advertisements placed by XCapades in local publications, the Department sent the owners and operators of XCapades a notice of violation last week stating that the operation of a car wash at 97-99 New Leicester Highway would be in violation of our ordinance for failure to receive a permit to operate such an establishment. (At present we have been unable to successfully deliver notification to the business owner – only to the operator). The notice further stated that should the car wash be a form of adult entertainment, additional regulations would apply. A department employee inspected the site on June 6th and determined that the car wash did not constitute adult entertainment.

We understand that the operators plan to continue operating the car wash on Saturdays. If that is true, the operators would be in violation of the city's ordinance requiring a permit for the establishment of a new use. If Saturday's car wash is not a continuing venture, then we do not feel that the city would need to pursue any action at this time. We will continue to monitor the situation to evaluate whether or not a permit is necessary. For any day the operation takes place without a permit we can subject them to a fine of $100.00. Should the operation continue for several weeks without obtaining a permit we may want to consider other legal options which would include injunctive relief. Obviously, we may want to reconsider our approach should the operation become an adult establishment. The operators have thirty days to appeal the notice sent to them. We have heard nothing from the operators.

Staff of all departments involved will continue to monitor the situation at XCapades. We will keep Council informed if the situation changes.

Upon inquiry of Councilman Sellers, Planning & Development Director Julia Cogburn said that she would see if there is any kind of sign violation with temporary banners at that location.

REPORTS FROM BOARDS & COMMISSIONS

Outside Agency Committee

Councilman Cloninger stated that each Council member received a copy of the Outside Agency Committee's recommendations and that they will be reported on in detail as part of the adoption of the budget at next week's formal Council meeting.

Discussion surrounded the amount allocated in the budget for the YMI Cultural Center. Because the budget has not been adopted at this time, City Council felt it would be appropriate for the City Manager to advise the YMI Cultural Center Board of Directors that they anticipate funding the YMI Cultural Center $64,000 for a staff person and programming, however, the utilities are not included in that amount.

OTHER BUSINESS

Mayor Sitnick commended the Asheville Police Department for their handling of a situation in West Asheville on June 15, 1998.

Mayor Sitnick asked for, and received, City Council's support of a letter City Manager Westbrook has sent to the Housing Authority requesting that the Housing Authority set up a focus group involving the Hillcrest Residents Association, Housing Authority, Asheville Police Department, Roberts Street neighborhood, Asheville Transit Authority, and the N.C. Dept. of Transportation to continue to discuss the problems and information that was brought forward as part of the entire Hillcrest pedestrian bridge issue. Councilwoman Field asked that the N.C. Dept. of Transportation be contacted immediately to repair the fence.

CLOSED SESSION

At 5:45 p.m., Councilman Tomes moved to go into closed session for the following reasons: (1) to discuss matters relating to the location or expansion of industries or other businesses in the area served by the Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations - G.S. 143-318.11 (a) (4); (2) to consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee - G.S. 143-318.11 (a) (6); and (3) to establish, or to instruct the public body's staff or negotiating agents concerning the position to be taken by or on behalf of the public body in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange, or lease - G.S. 1434-318.11 (a) (5) (i). This motion was seconded by Councilman Sellers and carried unanimously.

At 6:12 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:12 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - June 23, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding (left meeting at 7:20 p.m.); Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SATURDAY, JUNE 27, 1998, AS "RIDE FOR KIDS" DAY

Mayor Sitnick read the proclamation proclaiming Saturday, June 27, 1998, as "Ride for Kids" Day in the City of Asheville and presented a proclamation to Mr. Michael Traynor, President of Pediatric Brian Tumor Foundation, and Mr. Allen Hughes, leader of Asheville Task Force for the Foundation, who briefed the Council on the day's activities.

B. PROCLAMATION PROCLAIMING THE MONTH OF JULY, 1998, AS "NATIONAL RECREATION AND PARKS MONTH"

Mayor Sitnick read the proclamation proclaiming the month of July, 1998, as "National Recreation and Parks Month" in the City of Asheville and presented a proclamation to Parks & Recreation Director Irby Brinson who briefed the Council on some activities that would be taking place during the month.

II. CONSENT:

A. RESOLUTION NO. 98-83 - RESOLUTION AWARDING BID TO APAC-CAROLINA INC., ASHEVILLE DIVISION, FOR ANNUAL CONTRACT FOR ASPHALT MATERIALS

Summary: Consideration of a resolution to award annual contract for asphalt materials to Asheville Division, APAC-Carolina Inc.

Pursuant N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish the City's estimated annual requirement of asphalt materials to be purchased as needed for force account re-surfacing and street repair. One (1) bid was received.

Since only one bid was received, a survey was conducted to identify other governmental agencies cost for asphalt. By comparison, the price bid to the City of Asheville appears to be consistent with other governmental agencies cost. This bid has been reviewed with Mark Combs and his concurrence received in this recommendation.

Subject to Council's approval, it is recommended the City enter into a contract with Asheville Division, APAC-Carolina, Inc., Asheville, North Carolina, for the purchase, on an "as-needed" basis only, the estimated annual requirement of 21,550 tons of assorted asphalt materials for a grand total of $581,850.00. The contract to become effective from the date of approval through June 30, 1999 with no guarantee of minimum purchase quantity.

RESOLUTION BOOK NO. 24 - PAGE 424

B. RESOLUTION NO. 98-84 - RESOLUTION AWARDING BID TO CAROLINA TRUCK CENTER FOR TRUCK WITH DETACHABLE LEAF AND DUMP BODIES

Summary: Consideration of a resolution to award contract to Carolina Truck Centers Inc. for the purchase of a crew cab truck with detachable leaf and dump bodies for the City of Asheville Public Works Department, Street Division.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a crew cab truck with hoist and detachable leaf and dump bodies for the Public Works Department, Street Division. The new vehicle will be a replacement for truck #323. Five (5) bids were received as follows:

Carolina Truck Center, Hickory, NC	$82,580.00
Volvo & GMC Truck, Hickory, NC	$82,629.17
Nu-Life Environmental, Easley, SC	$86,320.00
Carolina Truck & Body, Asheville, NC	$87,705.16
W. Carolina Freightliner, Asheville, NC	$88,977.00

Bids have been reviewed for technical compliance to specifications by the Public Works Department and the Fleet Management Division, and their concurrence received in the following recommendation.

Funds for this purchase are to be from the Street Division's appropriations, Account Code 20-430-15-427-00-5740.

Subject to Council's approval, it is recommended that the bid be awarded to the low bidder, Carolina Truck Centers Inc., Hickory, N. C., in the amount of $82,580.00 for the purchase of a 1999 'International' model 4700 cab and chassis with a 'Swaploader' SL-225 hoist, a 'Baker' 14 foot leaf body and a 'Heil' LH-13 dump body.

RESOLUTION BOOK NO. 24 - PAGE 426

C. RESOLUTION NO. 98-85 - RESOLUTION DISSOLVING THE BELE CHERE COMMISSION AND DELEGATING ITS RESPONSIBILITIES TO THE RECREATION BOARD

Summary: The Parks and Recreation Department wishes to rescind Resolution No. 93-45, dated March 30, 1993, which established the Bele Chere Commission for the City of Asheville.

On March 30, 1993, the City Council established the Bele Chere Commission. This Commission was formed from Past Chairs of the Bele Chere Festival along with two appointees from City Council. Over the years, this Commission has served in an advisory capacity for the Bele Chere Board and staff. Responsibility for the Bele Chere Festival was transferred to the Parks and Recreation Department in 1995, and staff feels it is no longer necessary to have the Commission serve in an advisory function to Bele Chere since there currently exists a Parks and

Recreation Advisory Board. It is staff's desire to have the Past Chairs of Bele Chere continue to serve as mentors for the Festival and to participate in various Bele Chere functions as they have in the past.

The Parks and Recreation Department recommends that City Council rescind Resolution No. 93-45 which established the Bele Chere Commission as an official City board or commission.

RESOLUTION BOOK NO. 24 - PAGE 428

D. RESOLUTION NO. 98-86 - RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD THE BID OF THE RED ROAD AND PATTON HILL ROAD WATER LINE PROJECT (PIPELINE REPLACEMENT PROGRAM 1998-98 PHASE I) TO COOPER CONSTRUCTION COMPANY INC.

Summary: The consideration of adopting a resolution awarding the contract to Cooper Construction Company Inc. for the Red Road and Patton Hill Road Water Line Project.

The Engineering Department has developed construction plans for the Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project. This project consists of the construction of a six-inch water line along Red Road and Patton Hill Road to replace the existing two-inch water line. The engineer's estimate for this project is in the amount $193,193.00.

The project was advertised for one month. On Tuesday, May 26, 1998, the Engineering Department received 5 bids for the project as follows:

Cooper Construction, Hendersonville, NC	$169,174.95
Steppe Construction Co., Mill Spring, NC	$178,320.00
Hobson Construction Co., Arden, NC	$180,803.00
Buckeye Construction Co., Canton, NC	$197,855.45
Wheeler Construction Co., Weaverville, NC	$198,442.00

The construction time for this project is identified as 60 calendar days in the contract documents. The contract calls for liquidated damages in the amount of $250 per calendar day beyond this contract time.

The budgeted amount for this project is $293,000 and sufficient funds have been budgeted for the award of project.

Cooper Construction was the lowest responsible bidder in the amount of $169,174.95.

Staff recommendations that City Council adopt a resolution awarding the bid for Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project - Contract E-438 to Cooper Construction Company Inc.

RESOLUTION BOOK NO. 24 - PAGE 430

E. RESOLUTION NO. 98-87 - RESOLUTION AUTHORIZING THE SALE OF A SURPLUS STREET SWEEPER TO THE TOWN OF HOT SPRINGS, NC

Summary: Consideration of a resolution authorizing the sale of a surplus street sweeper to the Town of Hot Springs, N. C. pursuant to N. C. Gen. Stat. sec. 160A-274.

The Town of Hot Springs is offering $6,500.00 to purchase a street sweeper that has been declared surplus and taken out of service by the Public Works Department. This offer is considered to be fair when compared to the market value and prior auction proceeds for this type of equipment.

Upon Council's approval, the City will accept the Town of Hot Springs offer in the amount of $6,500.00 for the purchase of one (1) 1987 Athey model AHL Street Sweeper.

RESOLUTION BOOK NO. 24 - PAGE 437

F. ORDINANCE NO. 2492 - BUDGET AMENDMENT TO THE WATER BOND CAPITAL IMPROVEMENTS FUND (29 FUND) TO PROVIDE ADDITIONAL FUNDING FOR THE NORTH FORK/BEE TREE CHEMICAL IMPROVEMENTS PROJECT

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 92-17 (29 Fund - Water Bond Capital Improvements Fund) to provide additional funding for the North Fork/Bee Tree Chemical Improvements Project.

By Resolution 92-17 dated May 19, 1992, the Authority authorized and budgeted for various capital projects to be funded by City Water Bond proceeds in the 29 Fund. The original budget for the North Fork/Bee Tree Chemical Improvements Project was $1.5 million. This is a revenue bond project that was originally budgeted in the 35 Fund before revenue bond proceeds had been received. The expenses for this project were transferred to the 29 Fund at the end of FY 1997/1998. Following is a summary of the status of the budget for this project:

Original Contract	$1,367,000.00
C/O No. 1	-73,480.00
C/O No. 2	4,982.00
C/O No. 3	2,908.29
C/O No. 4	-5,000.00
Revised Construction Contract	1,296,410.29
CDM Engineering Contract	216,600.00
Additional Services Law Eng.	1,409.77
Advertising	213.90
Allocated 35 Fund Interest Exp.	75,856.95
Tax Refund	-1,092.25
Total Estimated Cost	**1,589,398.66**
Amount Budgeted for Project	**1,500,000.00**
Need to Increase Appropriations	**89,398.96**

Since there is insufficient funding to close out the North Fork/Bee Tree Chemical Improvements Project, it is necessary to increase appropriations at this time. This project exceeded the budget of $1.5 million for the following reasons:

- The bids for construction came in slightly higher than expected ($13,541.71 over budget)
- A portion of the interest expense charged to the 35 Fund for insufficient funds in FY 1996/1997 was allocated to this project in the amount of $75,856.95.

There is adequate funding in the Water Distribution Master Plan to offset the over-expenditure in the North Fork/Bee Tree Chemical Improvements Project. The bids for the West Asheville Reservoir Project budgeted in the Water Distribution Master Plan came in under budget; therefore staff is recommending decreasing the Water Distribution Master Plan by $89,398.96 and increasing North Fork/Bee Tree Chemical Improvements by the same amount.

This budget amendment will provide adequate funding to close this project at the end of FY 1997/1998.

Staff recommends approval of the budget amendment to reprogram funds in the amount of $89,398.96 from the Water Distribution Master Plan Downtown Project to the North Fork/Bee Tree Chemical Improvements.

ORDINANCE BOOK NO. 17 - PAGE 19

G. ORDINANCE NO. 2493 - BUDGET AMENDMENT TO THE WATER MAJOR CAPITAL PROJECT ORDINANCE (35 FUND) TO INCREASE FUNDING FOR THE GLENDALE BRIDGE WATER LINE PROJECT AND TO PROVIDE FUNDING FOR THE CARTER COVE/BLACKBERRY LANE ANNEXATION PROJECT

Summary: The consideration of adopting a resolution awarding the contract to Cooper Construction Company Inc. for the Red Road and Patton Hill Road Water Line Project.

The Engineering Department has developed construction plans for the Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project. This project consists of the construction of a six-inch water line along Red Road and Patton Hill Road to replace the existing two-inch water line. The engineer's estimate for this project is in the amount $193,193.00.

The project was advertised for one month. On Tuesday, May 26, 1998, the Engineering Department received 5 bids for the project as follows:

Cooper Construction, Hendersonville, NC	$169,174.95
Steppe Construction Co., Mill Spring, NC	$178,320.00
Hobson Construction Co., Arden, NC	$180,803.00
Buckeye Construction Co., Canton, NC	$197,855.45
Wheeler Construction Co., Weaverville, NC	$198,442.00

The construction time for this project is identified as 60 calendar days in the contract documents. The contract calls for liquidated damages in the amount of $250 per calendar day beyond this contract time.

The budgeted amount for this project is $293,000 and sufficient funds have been budgeted for the award of project.

Cooper Construction was the lowest responsible bidder in the amount of $169,174.95.

Staff recommendations that City Council adopt a resolution awarding the bid for Pipeline Replacement Program 97-98 Phase I - Red Road and Patton Hill Road Water Line Project - Contract E-438 to Cooper Construction Company Inc.

ORDINANCE BOOK NO. 17 - PAGE 21

H. MOTION SETTING A PUBLIC HEARING ON JULY 14, 1998, TO REZONE EIGHT LOTS OFF SWEETEN CREEK ROAD FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

I. MOTION SETTING A PUBLIC HEARING ON JULY 14, 1998, TO CONSIDER A MODIFICATION FROM THE SUBDIVISION STANDARDS REGARDING A FLAG LOT FOR PROPERTY ON OLD HAW CREEK ROAD

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and motions on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Cloninger and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO ANNEXING A CONTIGUOUS AREA KNOWN AS SECTION 11 OF BILTMORE PARK

ORDINANCE NO. 2494 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE, N.C., BY EXTENDING A CONTIGUOUS AREA KNOWN AS SECTION 11 OF BILTMORE PARK

Mayor Sitnick opened the public hearing at 5:19 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that Biltmore Farms, Inc. (owner and applicant) has submitted an annexation petition for a 22.07 acre area identified as Biltmore Park annexation 11. This is the eleventh annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 8. The effective date of the ordinance is December 23, 1998.

Mayor Sitnick closed the public hearing at 5:24 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2494. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 23

B. PUBLIC HEARING RELATIVE TO ANNEXING A CONTIGUOUS AREA KNOWN AS SECTION 12 OF BILTMORE PARK

ORDINANCE NO. 2495 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE, N.C., BY EXTENDING A CONTIGUOUS AREA KNOWN AS SECTION 12 OF BILTMORE PARK

Mayor Sitnick opened the public hearing at 5:24 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that Biltmore Farms Inc. (owner and applicant) has submitted an annexation petition for a 11.36 acre area identified as Biltmore Park annexation 12. This is the twelfth annexation petitioned by Biltmore Farms Inc. for property located west of Overlook Road. This area is contiguous to the existing corporate limits, specifically to Biltmore Park, Annex 9 and Annex 7. The effective date of the public hearing is December 23, 1998.

Upon inquiry of Ms. Hazel Fobes, City Manager Westbrook explained that this annexation is a voluntary annexation of raw land.

Mr. Ralph Bishop asked for a certified copy that he has been denied his constitutional right as set forth in the first amendment to the Constitution of the United States to seek redress at the last City Council meeting he attended.

City Attorney Oast said that if Mr. Bishop feels like he has been denied his constitutional rights, he may seek redress in a court of law. If he would like a certified copy of the minutes where he believes that to have occurred, the City Clerk will be happy to provide those to him at the appropriate cost.

Mayor Sitnick closed the public hearing at 5:32 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2495. This motion was seconded by Councilman Cobb and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 25

C. PUBLIC HEARINGS RELATIVE TO CABLE TELEVISION FRANCHISE RENEWAL

Mayor Sitnick explained that while there is a connection between the following three items, City Council will address each item separately. The ordinance regulating cable service providers is a generic, general ordinance that the City would have to have for any cable company and for any franchise agreement. We do not currently have an ordinance regarding this in place. The next ordinance is granting a franchise specifically to Brenmor Cable Partners, d/b/a InterMedia. This ordinance requires two votes at two separate meetings. The last item is a resolution authorizing the City Manager to execute a settlement agreement of franchise fees. All three items will be heard separately and voted on separately.

Vice-Mayor Hay stated that the settlement of franchise fees is a different issue than the franchise renewal. Many people think that they are inter-dependent and it's important to note that they are not necessarily inter-dependent. They have been negotiated at the same time and there is some cross-over, however, Council will vote separately on them and it is possible that one Council member might want to vote for the franchise renewal and against the settlement agreement.

Councilman Cloninger again noted that the ordinance regulating cable service providers does not have any impact on negotiations with InterMedia as to the franchise fees or the settlement. However, if a franchise is approved with InterMedia, they would be subject to that ordinance.

PUBLIC HEARING RELATIVE TO AN ORDINANCE REGULATING CABLE SERVICE PROVIDERS

ORDINANCE NO. 2496 - ORDINANCE REGULATING CABLE SERVICE PROVIDERS

Mayor Sitnick opened the public hearing at 5:35 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Assistant City Attorney Patsy Meldrum said that this ordinance would adopt regulations for cable service providers located in the City of Asheville. The ordinance would include provisions regarding the granting of franchises to cable service providers and regulations regarding their use of the public rights-of-way.

Mr. Ralph Bishop asked for the ordinance to be read. Mayor Sitnick said that the issue has been discussed for over two years, the ordinance is 48 pages long and has been available at worksessions and formal meetings in which he has attended. In addition, the ordinance is available at this meeting and she would be happy to furnish him a copy.

Mayor Sitnick closed the public hearing at 5:45.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2496. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 27

PUBLIC HEARING RELATIVE TO GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA)

ORDINANCE GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA)

Mayor Sitnick opened the public hearing at 5:45 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Assistant City Attorney Patsy Meldrum said that this ordinance grants a cable television franchise to InterMedia.

At the work session held on March 3, 1998, the City Council instructed City staff and Rice, Williams Associates, consultant to the City of Asheville for cable television matters, to renegotiate certain terms and conditions of the franchise with InterMedia. The issues which were to be renegotiated are as follows:

1. The length of the term of the franchise.
2. The amount of funding for initial equipment and on-going support for public, educational and governmental ("PEG") access channels.
3. The amount passed through to subscribers for funding of the initial equipment and on-going support for PEG channels and the institutional network.
4. The inclusion of other school and library sites on the institutional network.
5. The provision of Internet access to schools and libraries.
6. The terms of the state-of-the-art clause.
7. Consideration of the use of binding arbitration for certain situations.
8. The amount of the civil penalty.
9. Discounts for senior citizens.
10. The mechanism for subscribers to request refunds.
11. The ability for area industries to request increased capacity (550 MHz versus 750 MHz system capacity).
12. The amount of the franchise fee settlement.

New terms and conditions have been negotiated.

She clarified a couple of misconceptions about some of the details. The $340,000 funding for the initial equipment for PEG will be paid in three years and the on-going support begins in the fifth year for eight years.

She explained that the state-of-the-art clause presented in the January proposal has been broadened and then reviewed in detail the changes in the paragraph which reads "an average of at least three (3) other communities in North Carolina which have a cable system franchise with the same or a comparable term (within three years, more or less), up to 5,000 subscribers more or less than the existing number in Asheville, a similar number of cable plant miles, and similar or less stringent local laws, rules and regulations concerning the operating of a cable system."

Vice-Mayor Hay asked about the elimination of Nashville, Tennessee, and Gainesville, Georgia, from the group of comparison cities. Ms. Meldrum said that in Nashville and Gainesville they now have 750 MHz systems. If the other systems which meet the other criteria have those, they would be required to rebuild to a 750 MHz system during this franchise term. The City would not be restricted from requiring that. We would not be relegated to a 550 MHz system during the 12 year term.

Along those lines, Councilman Cloninger noted that one of the reasons why it was proposed to take out Nashville and Gainesville that have a 750 MHz system is that those systems were install four or more years ago and that the 550 MHz systems installed today have the same capabilities with the digital application that those 750 MHz systems had four or more years ago. It was also his understanding that the community would be able to have all the services they need with a 550 MHz system. There may be some unique situations in which a particular industry may require a 750 MHz system, but under the terms of this agreement, that unique industry could get that 750 MHz, but they would have to pay for it, rather than the people of Asheville.

Upon inquiry of Mayor Sitnick, InterMedia General Manager Joe Haight said that at present they are engineering at 750 MHz through about 55% of the plant in Asheville. The plant in Asheville is about 825 miles total. They are 96% finished with the rebuild at to 550 MHz.

When Councilman Tomes asked about what the 750 MHz would do for business, Mr. Haight said that the 200 MHz would be reserved for data which would be a commercial application, not a residential application. They will still be able to provide the residential application in the 550 MHz system. They can covert what is already 550 MHz to 750 MHz in the future in order to keep up with whatever the demand requires. He said that the fiber backbone is capable of 1,000 MHz signal and they do have plenty of spare that would cover any commercial application within the City.

When Mayor Sitnick hoped that this rebuild would never be required again, Mr. Haight said that he would be hesitant to say that, considering the changes he has seen over the last 25 years in this business.

Ms. Meldrum stated that a new sentence has been added since the January proposal in the system rebuild section. The sentence reads as follows: "In the event that businesses and industries located in Asheville seek additional capacity for their data communications needs, then whenever such capacity is available on the cable system, franchisee agrees to enter into negotiations for data transmission leases with such interested companies with the terms to be agreed upon by the applicable parties."

She cleared up some confusion about the Institutional Network sites. She said information was presented to the public that there are no recreation or community centers included in the list of sites for the Institutional Network. The confusion results from these sites being identified as fire stations. The City of Asheville has four facilities where there is a fire station, a community center and a branch library - West Asheville on Haywood Road, North Asheville on Larchmont, Murphy-Oakley on Fairview Road and East Asheville on Tunnel Road. In that the West Asheville branch library had moved to an adjacent building, and that site was added. There are some community centers and recreational facilities and all the branch libraries and the main library are included in the Institutional Network.

Another question arose about the use of the Institutional Network and the fact that it was relegated in the ordinance granting the franchise for educational and governmental use. The reason for that is the requirement of the federal statute. It is limited to governmental and educational use and the federal law does not include business use on the Institutional Network.

Ms. Meldrum said that that this is a non-exclusive grant, meaning the City could grant a similar franchise to other cable companies and we do grant non-exclusive use of the rights-of-way for other utilities as well.

Mr. Haight said that after further negotiation, InterMedia is willing to incorporate language into the franchise which does provide, if they are in the Internet business, a modem to each school and library in the service area. They hope that will be satisfactory to Council. The language to be inserted reads "In the event that franchisee elects to provide high-speed Internet access services by cable modems in the City, then at such time that franchisee begins to provide such Internet services to its subscribers on a commercial basis, franchisee shall provide free Internet access service and a free cable modem to each school and public library located within the franchise area and which are passed by the activated feeder cable for as long as franchisee decides, in its sole discretion, to continue to provide such Internet services to its subscribers in the franchise area. Such Internet access services and modems shall be provided when Internet service to franchisee's subscribers becomes available in the cable system node in which the school or public library is located and within thirty (30) days of a written request from the school or public library for such services and modem."

Ms. Meldrum said that with the addition of the above in the franchise, the June 1, 1998, side letter has been revised and presented Council with the revised side letter dated June 23, 1998, from InterMedia setting forth certain other matters related to the franchise. She noted that the revised side letter also includes some clarification language about the pass through.

Councilman Cloninger appreciated InterMedia agreeing to include that language in the franchise document. This is a big step which will pay big dividends for the children in the schools.

Upon inquiry of Councilman Cobb, Ms. Meldrum said that the funds for the initial PEG equipment is for the first three years and then starting again in the fifth year. There will be no funds in the fourth year from the franchise agreement.

When Councilman Cobb asked about the pass through to subscribers, Ms. Meldrum explained that there will be a difference of $168,116 which is a PEG grant by InterMedia to the City. After InterMedia has been fully reimbursed their $970,200, the subscriber pass through amount will no longer be collected from their customers.

Upon inquiry of Mr. Ralph Bishop, Ms. Meldrum explained that there is a provision in the franchise for abandonment of the cable plant and a bond securing the removal of the cable plant. The City can either force removal or could remove it, take the funds from the bonds or take over the remaining plant.

Mr. Peter Reiser asked that the City request an all day classical music channel. Ms. Meldrum replied that federal law does not allow a city through a franchise to regulate the types of programming that must be required on cable television system.

Mr. Bill Wald felt that the City should consider the settlement agreement prior to granting the franchise to InterMedia because the negotiating power will be reduced.

A representative of the Western North Carolina American Civil Liberties Union said that they have a large concern about the public access channel. They asked that a public access channel will be funded and nurtured. They hoped that all the monies would not go to the government channel and nothing to the public access channel. He felt that the City needed to be careful in what InterMedia would provide as an "in-kind" payment. He personally felt that the agreement can be negotiated more strongly in favor of the City.

Upon inquiry of Mr. Jerry Rice, Ms. Meldrum said that the City is getting a fiber optic system which is now 96% in use.

Mr. Rusty Maynard expressed concern about the four access channels and the City's option to allow the franchisee to use such unused capacity for other programming services to subscribers and then it cannot revert back to no use by the franchisee unless there is 90 days notice given by the City. He felt that was unclear as to how much use is present and whether or not there is a priority system in effect so that the franchisee cannot just have free use to put its programming ahead of any remaining public access programming. His point was that public access programming may at times be insufficient or weak, but that should not mean that it should become a lower priority. He felt that there should still be a review process on whatever the franchisee wishes to put in the unused space because you should have a common theme of quality and goals on that channel. He questioned if there was a clear blanket of liability coverage that extends from the insurance policy of the franchisee to this activity that is taking place on the public access channel.

While Ms. Meldrum responded to some of Mr. Maynard's questions, City Manager Westbrook said that if City Council approves the franchise, then staff will come back with a recommended plan of action for implementing the PEG channels and it would be the Council's choice on how they would want to govern those channels. He said that the City would need a staff person to help regulate the new franchise as well.

Mr. Richard Mathews asked Council to take their time and use their patience in these times of rapidly moving technology. Council is now in a position to act in the long term interests of the citizens and not the short term constraints of the City's balance sheet. He urged Council to make sure that whatever system they agree to gives the City the greatest range of flexibility and upgradability. He hoped the City will not be constrained to a technology that goes out of date in a short period of time. He also suggested that Council take advantage of the educated citizenry in Asheville who want to participate in this process and asked Council to consider forming a commission that draws on their expertise to make sure that information is made available to improve the quality of citizenship in this community. He said that since the City has a poor record of enforcement of existing ordinances, the franchise should be framed in a way that automatically will lead to compliance with the goals of our community.

Councilman Tomes firmly believed that no one can envision what will happen in five years from now given the degree of technology that is going on today.

Ms. Meldrum responded to questions from Council relative to how the state of the art clause will be triggered.

Mayor Sitnick said that since the mid-80's there have been questions about the franchise fees, etc. and when the City gets a staff person on board to regulate this franchise, that person will keep a constant watch on franchise issues and will have the ability to be notified when things are changing so that we don't fall behind anymore and don't have to worry about back-tracking where these issues are concerned. Ms. Meldrum noted that our newly adopted cable service providers ordinance can require an annual performance evaluation at the option of City Council. Mayor Sitnick said that it was her personal hope that the City does schedule performance evaluation sessions open to the public annually.

Mr. Wally Bowen, representative of the Citizens for Media Literacy, passed out to Council a statement, which is attached hereto as Exhibit "A", and reviewed some of the points contained in that statement.

Mr. Rusty Sivils feels that it is inappropriate for television to be turned over to a corporation to be managed. He wanted the City to seriously consider operating the cable system as a public utility as other cities have done. He felt it was critical to the public welfare that we have a good well-funded staffed public access system that is truly accessible to everyone.

Mr. Scott Barber felt that several answers received so far have been along the lines of if we run into a problem, we will negotiate that at the time. He was concerned at we are currently at one of those windows of opportunity when the City has a little bit of negotiating room and a little bit of power with which to negotiate a stronger agreement. This is the only opportunity until the next franchise to really tell the cable company what the City wants. He urged City Council not to make an expeditious decision and noted that a lot of citizens would like to sit down and look at how we can create an agreement that would be satisfactory to the cable subscribers and to those who feel strongly that a well funded public access channel would be beneficial to this community in ways we can't quite imagine yet.

Mr. Wald questioned whether Asheville really needed three public access channels.

Mayor Sitnick closed the public hearing at 7:18 p.m.

Mayor Sitnick felt that the citizen input into this issue has been nothing short of amazing. Since February 1994 when she first asked that the franchise fee issue be looked into, the former Councils and this present Council have recognized that this is an issue of deep concern. This very long, drawn out, complex issue has been on the table for several years. She said that there has been an inference that City Council had already decided certain things regarding the cable franchise and the franchise fee settlement. She assured the public that no decisions have been made prior to this meeting.

Councilman Cobb said that Asheville has been living with this agreement for 31 years and one option is to continue with the same agreement for another four years. However, Asheville is losing a lot of money a year if we continue on with the present franchise. He felt that most of the discussion surrounded the PEG channels which we have not formerly had. He felt that since technology is changing so quickly, this franchise agreement could be obsolete in five years, but Council must move on with what they know today. His biggest concern is the pass through to the subscribers.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of the ordinance granting a franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) for the operation and maintenance of a cable system. This motion was seconded by Councilman Cloninger.

At 7:20 p.m., Vice-Mayor Hay announced a recess because Mayor Sitnick developed a nose-bleed.

At 7:40 p.m. the meeting resumed with Vice-Mayor Hay announcing that Mayor Sitnick has a nose-bleed and in caution, she has been transported to the hospital. He said that Mayor Sitnick did request that City Council postpone taking action on the cable issues until she can be present at the meeting. The next formal meeting would be July 14, 1998, however, Ms. Meldrum will be out of town during that time.

Councilwoman Field suggested that the June 30, 1998, Burton Street community meeting be rescheduled and City Council deal with the cable issues at that time. Councilman Cloninger stated that he would not be in town on June 30 and he would like to have an opportunity to vote on this issue.

City Attorney Oast said that if Council is going to continue their action on this matter, he would recommend Council continue their action until the July 28, 1998, meeting.

Because of Mayor Sitnick's request, Councilman Cobb moved to withdraw his motion to adopt the ordinance granting a franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) for the operation and maintenance of a cable system. Councilman Cloninger withdrew his second.

Councilman Sellers moved to continue the discussion of granting the franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) until July 28, 1998. Councilman Tomes said that he will have a conflict with the July 28, 1998, date. Said motion died for a lack of a second.

Councilman Cobb moved to continue the discussion of granting the franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) until July 14, 1998. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilman Sellers moved to continue the public hearing regarding a settlement agreement with InterMedia and TCI regarding franchise fees until July 14, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

Mr. Haight said that he was deeply disappointed that Council did not get to vote tonight although he certainly understood why. He asked if the Mayor does return to the meeting, could the cable issues be brought back up for action. Vice-Mayor Hay said that City Council has decided not to consider the issues again tonight and the people in the room were told it would not be considered again until July 14. Mr. Haight said that he was absolutely committed to be out of town on July 14 and it will be extremely difficult for him to drive many hours to get back, but he would if he needed to. He hoped Council would consider that, if the Mayor did return to the meeting, that this process be continued.

Councilwoman Field noted that City Council has had the public hearing on the ordinance granting the franchise and felt that if the Mayor did return, then Council may want to proceed with that particular issue. The public hearing on the settlement agreement regarding franchise fees issue could remain rescheduled on July 14, 1998.

Vice-Mayor Hay said that if the Mayor returns, then City Council could discuss this again.

D. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINITION OF ANTENNAS AND TELECOMMUNICATION TOWERS

At the request of City staff, Councilman Cloninger moved to continue this public hearing, without further advertisement, until August 11, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

IV. UNFINISHED BUSINESS:

A. ORDINANCE NO. 2491 - ORDINANCE GRANTING A FRANCHISE TO OPERATE A TROLLEY WITHIN THE CITY OF ASHEVILLE

City Attorney Oast said that there is one modification in the agreement which was described on June 16, 1998, and that recommendation is by our Risk Manager. We have included a requirement for automobile liability insurance, in addition to the commercial general liability insurance that they are already required to get.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for second and final reading of Ordinance No. 2491, with the modification as described by the City Attorney. This motion was seconded by Councilman Tomes and carried unanimously.

V. NEW BUSINESS:

A. MOTION AUTHORIZING CITY STAFF TO PROCEED IN DEVELOPING A TEMPORARY SKATEBOARD PARK ON TOP OF THE CIVIC CENTER PARKING DECK AS WELL AS CONTINUE TO EXPLORE THE LOCATION OF A PERMANENT SITE

Mr. Irby Brinson, Director of Parks & Recreation, said that the Skateboard Task Force was established by the Parks and Recreation Department over a year ago to investigate the possibility of constructing and operating a skateboard park downtown. He briefly explained why the top of the Civic Center Parking Deck (8th floor) has been determined as a possible temporary location for a temporary skateboard park.

The Parks and Recreation Department and the Skateboard Task Force is seeking City Council approval to proceed in developing a temporary park on top of the Civic Center Parking Deck as well as continue to explore the location of a permanent site.

Upon inquiry of Councilman Cobb, Mr. Brinson said that the area under the I-240 bridge is rather small and there are quite a few people who park there. He also noted that it is the N.C. Dept. of Transportation right-of-way as well. He will, however, continue to explore that area as a possible permanent site.

When Councilman Tomes asked about the property on Cherry Street as a possible permanent site, Mr. Brinson said that he did look into that and it is N.C. Dept. of Transportation property. Ms. Susan Roderick, with Quality Forward, has offered to set up a meeting with Gordon Myers to explore that possibility.

Councilman Tomes moved to authorize City staff to proceed in developing a temporary park on top of the Civic Center Parking Deck as well as continue to explore the location of a permanent site. This motion was seconded by Councilman Sellers.

Councilman Cloninger felt that it was worth trying this on an experimental basis and then reevaluate it at the end of the year.

When Ms. Marilyn Muccio, resident who lives near the Civic Center Parking Garage, asked about how emergencies would be handled in the parking deck, Mr. Brinson said that they have talked to the emergency medical people and it would be handled as any other accident in the parking garage, they would use the elevator.

Mr. Wesley Sharp, who works with the Salvation Army Boys and Girls Club, spoke in support of this program.

Councilwoman Field felt the temporary park is a wonderful opportunity for the young people to come together and do something positive. She would be willing to meet with the appropriate people to try to find a permanent location in downtown.

City Attorney Oast said that he did not presume to speak for the Mayor, however, in a meeting with her earlier in the day, she did express a desire that the performance of this temporary skateboard park be reviewed after a period of about three months.

Councilman Cobb felt sure that the skateboarders will be well aware that the City is watching them and hoped that the City would be able to move these type parks into other areas in the City and develop other programs for our youth.

The motion made by Councilman Tomes and seconded by Councilman Sellers and carried unanimously.

At 7:54 p.m., Councilwoman Field moved to excuse Mayor Sitnick from the meeting. This motion was seconded by Councilman Tomes and carried unanimously.

At 7:54 p.m., Vice-Mayor Hay announced a 15-minute break.

B. RESOLUTION NO. 98-88 - RESOLUTION APPROVING STRATEGIES TO PROMOTE AFFORDABLE HOUSING

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of adopting a resolution approving strategies proposed in the Affordable Housing Study and instructing staff to prepare a first-year action plan. She reviewed the eight broad strategies. They are (with minor amendments proposed by the Housing and Community Development Committee):

1. Develop a strong leadership role for the City to promote housing production and affordability.
2. Use local zoning and regulatory policies to support affordable housing.
3. Increase production of rental and ownership housing
4. Promote in-fill housing, mixed-use development and adaptive re-use of existing buildings.
5. Expand housing rehabilitation
6. Encourage affordable housing development by both for-profit and non-profit developers.
7. Develop transitional housing for those with special needs.
8. Develop formal City-County collaboration on housing.

The Housing and Community Development Committee endorses these strategies and recommends their approval by Council.

City staff recommends that City Council accept the eight broad strategies set forth in the Resolution and instruct staff to prepare an initial action plan detailing implementing actions that have the highest priority and can reasonably be put into effect within the next twelve months.

Ms. Caplan suggested Council amend strategy no. 7 to read "Develop transitional and permanent housing for those with special needs." The suggestion was recommended by the Blue Ridge Center and staff supports the change because there is a clear need.

Councilman Tomes offered a footnote as it relates to strategy no. 6. He said that when the City deals with the overall concern of affordable housing, he would like the riverfront development group be allowed to make a presentation at a worksession and that the City make an effort to include them in this process.

When Councilman Cobb asked about a source of funding, Ms. Caplan said that one strategy that will be looked at is the development of a Housing Trust Fund.

Vice-Mayor Hay spoke in support of the affordable housing strategies and felt it was a major step in the City moving forward with affordable housing.

326

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-88 with strategy no. 7 be amended to read "develop transitional and permanent housing for those with special needs." This motion was seconded by Councilman Sellers and carried unanimously.

Mr. Jim Barrett, resident on Cumberland Avenue, thanked Council for addressing the huge problem of affordable housing in Asheville.

Mr. Jerry Rice felt that the job market does not allow some people to afford more than a trailer and Council should review the Unified Development Ordinance and not put so many restrictions on what people can put on their land.

Vice-Mayor Hay felt that as tough policy decisions are made, for instance in zoning, we now have a strategy and a plan that gives Council a point of reference.

The motion made by Councilwoman Field and seconded by Councilman Sellers carried unanimously.

Vice-Mayor Hay made a personal challenge to the other City Council members to work on the strategy to develop formal City-County collaboration on housing. He felt that City Council can be working on that themselves above and beyond what staff can do.

RESOLUTION BOOK NO. 24 - PAGE 438

C. ORDINANCE NO. 2497 - BUDGET AMENDMENT FOR THE PAVING OF MCCORMICK FIELD PARKING LOT

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a budget amendment, in the amount of $79,577, for the paving of the McCormick Field parking lot based upon prior commitment by former City Manager Doug Bean.

In 1992, former City Manager, Doug Bean, agreed that the City would pay for the paving of the McCormick Field parking lot as the City's commitment to the renovations of the minor league ballpark. Based upon review by both the City and County, payment has never been made by the City for this project. Buncombe County has now requested payment for the paving of the McCormick Field parking lot which was completed in 1992. The total cost for this project was $81,577; however, due to the contractor failing to complete various requirements of the contract, $2,000 was deducted from the original total. Therefore, the amount the City has been requested to pay is $79,577.

The Parks and Recreation Department is requesting City Council approval of the budget amendment to appropriate funds totaling $79,577 to pay for the paving of McCormick Field parking lot.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2497. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 75

D. RESOLUTION NO. 98-89 - RESOLUTION ENDORSING APPOINTMENT OF MARSHALL LOGAN TO THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE

Vice-Mayor Hay said that the term of Phillip E. Crouch, as a member on the Housing Authority Board of Directors, expired on June 11, 1998. This resolution will endorse the appointment by Mayor Sitnick of Mr. Marshall Logan to serve a five year term, term to expire June 11, 2003, or until his successor has been appointed.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-89. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 23 - PAGE 439

E. ORDINANCE NO. 2498 - ADOPTION OF THE 1998-99 ANNUAL OPERATING BUDGET

Vice-Mayor Hay said that the public hearing on the budget was held on June 9, 1998.

City Manager Jim Westbrook said that this report presents the Fiscal Year 1998/99 Annual Operating Budget for the Mayor and Council's consideration before adoption.

The Fiscal 1998/99 Annual Operating Budget was presented to City Council on May 21, 1998. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the budget along with a notice of the public hearing was published on May 29 and June 5, 1998. The City Council conducted a public hearing on the budget at the June 9, 1998 Council meeting.

The Fiscal Year 1998/99 Annual Operating Budget is balanced with a revised net revenue-neutral tax rate of $.51 per $100 of assessed valuation. All essential City services are maintained.

The budget as presented to City Council includes a recommended General Fund appropriation of $56,428,543. Key items for Council's review are summarized and discussed below:

- Fees for the recycling program have been revised and are included in this budget in accordance with the Fees and Charges Committee recommendations which will raise the per household recycling fee from $.75 per month to $1.54 per month.
- Outside Agency funding has been revised in accordance with the Outside Agency Committee recommendations to allow most agencies that currently receive City funding to receive the same appropriation for Fiscal Year 1998/99 as originally appropriated in Fiscal Year 1997/98.
- Additional funding for part-time staff in the City Development Office is provided.

The Fiscal Year 1998/99 budget currently does not include funding for certain mandated or desired programs discussed at Council's retreat. These programs cannot be funded unless new or enhanced revenue sources are identified or reductions to existing services are made.

328

The following is a list of unfunded mandates and desired programs:

1. Federal mandate for expanded fire protection - $462,359
2. Funding for a Storm Water Regulations Study - $125,000
3. Downtown Development Plan - $50,000
4. Traffic calming initiatives - $50,000
5. River Development Plan - $50,000
6. Study to update the 2010 plan - $50,000

The total cost for the aforementioned programs is $787,359. One cent on the tax rate will generate an additional $434,000 in revenue. Council may consider setting the tax rate above the net revenue-neutral rate of $.51 to fund some or all of the aforementioned programs.

During budget worksessions and the public hearing, the Mayor and Council requested the following additional information regarding the Fiscal Year 1998/99 budget.

Proposed YMI Funding Detail:

Recreation Center Director	$35,329
Part-time Recreation Center Assistant	10,426
Fringe Benefit Costs	11,160
Travel & Training	1,200
Rental Expense for Sound Equipment	1,000
Copying & Duplicating	500
Postage	200
Departmental Supplies	1,885
Professional Services	2,000
Licenses & Taxes	100
Car Allowance	200
Total	$64,000

Advertising cost and circulation figures for *Asheville Citizen-Times, Mountain XPress, and Asheville Advocate* newspapers are as follows:

News Paper	Distribution	Circulation	Advertising Rates (for ¼ of a page)	Unit Cost
Citizen-Times	Daily	35,000	$789.08/weekly	$.02
Mountain Xpress	Wednesday	17,428	$138.32/weekly	$.008
Asheville Advocate	Friday	5,000	$ 56.00/weekly	$.01

A previous staff report dated June 5, 1998, and memorandum dated May 29, 1998, contain other requested information.

Revised Fees and Charges Committee recommendations:

The Fees and Charges Committee initially recommended a 50% reduction in building safety and engineering fees for new residential construction that qualifies as affordable housing. It was recommended that fees would also be waived for any new houses built in the following

CDBG redevelopment target areas: Home Ownership Zone (West End/Clingman Area) and Montford Avenue/Hill Street Area.

Councilwoman Field reported that the Housing and Community Development Committee has proposed an alternative recommendation that would waive 50% of building inspection and engineering fees for new single family homes constructed within the City of Asheville that meet NC State Building Codes and sell at a price below $100,000. The Housing and Community Development Committee further recommends 50% fee waivers for multi-family homes funded by CDBG, HOME grants funds or multi-family homes that are eligible for such funding.

City Manager Westbrook said that MSD has approved a similar proposal and staff is working with the Water Authority.

Vice-Mayor Hay said that the Housing & Community Development Committee really wanted to do as much for multi-family as we could, but administratively it was just much more difficult to know what an affordable rental unit was going to be, especially on an on-going basis. We wanted to ensure that we were truly encouraging affordable rental housing. He hoped that the day will come soon when we can find a way to bring this to other multi-family projects as well.

Upon inquiry of Councilman Cloninger about the river development plan, Planning & Development Director Julia Cogburn said that this was the City's portion, discussed with RiverLink, of a public/private partnership to actually do a concentrated plan for the core area of the River District. At the present time the City does not have any other sources for funding. RiverLink does have their portion which is $75,000.

Councilman Cloninger reviewed the outside agency funding as follows:

Agency	97-98 Approved	98-99 Request	98-99 Recommended
A-B Community Relations Council	$63,000	$66,500	$63,000
Arts Alliance	30,000	35,000	30,000
A-B CrimeStoppers*	21,667	0	0
A-B Vision Inc.	15,000	20,000	15,000
Asheville Area Chamber of Commerce	100,000	100,000	100,000
Asheville Area Rescue Squad Inc.	12,000	15,000	6,000
Asheville Sister Cities Inc.	2,000	2,000	2,000
Buncombe County Drug Commission	30,000	45,000	30,000
Life on Life's Terms Inc.	0	27,000	0
One Youth at a Time Inc.	9,333	18,000	10,000
RiverLink Inc.	18,000	75,000	18,000
Smith-McDowell House Museum	0	15,000	0
Vanderbilt Apartments Inc.	0	75,000	0
YMI Cultural Center**	0	36,000	0
Totals	$301,000	$529,500	$274,000

* A-B CrimeStoppers will be funded through the City's operating budget in the same amount as the current year.

** Funding in the amount of $64,000 is included in the Parks & Recreation budget for the YMI Cultural Center.

Councilman Tomes and Councilwoman Field recommended that in addition to the $64,000 budgeted for the YMI Cultural Center that the City budget up to $2,000 a month for the YMI Cultural Center utilities, with the YMI submitting the bills monthly for the City of Asheville to pay.

City Manager Westbrook said that if Council decides to increase the budget for the YMI, then he recommend the $24,000 be included in the Parks & Recreation budget, and not in the outside agency fundings.

Councilman Cloninger felt the YMI is doing a good job, but felt that since we are already budgeting $64,000 to them, they should be asked to pay for their utility bills.

Councilman Tomes moved to amend the budget to include an additional $24,000, to be distributed up to $2,000 a month, to the Parks & Recreation budget for the YMI Cultural Center's utility bills. This motion was seconded by Councilwoman Field and carried on a 5-1 vote with Councilman Cloninger voting "no".

Mr. Gene Ellison thanked Council for their support and spoke in support of the budget City Council is proposing for the YMI Cultural Center.

Mr. Jerry Rice asked what effect will the Buncombe County Commissioners 3-2 denial of the Water Authority's budget earlier today have on the adoption of the City's budget (since the Water Authority's budget is adopted as part of the City's budget). City Manager Westbrook said that he was unaware of the County's vote and encouraged City Council to adopt the budget as presented. If there are some future negotiations that would change the budget, then Council can amend that portion of the budget.

Mr. Clarence Benton asked Council to include the Asheville Advocate in part of their advertising budget. City Manager Westbrook explained that the proposed budget has a sum of money in it for which we provide for CityWorks in the Asheville Citizen-Times and the Mountain Xpress. City Manager Westbrook said that Council can readjust the total for three newspapers or increase the budget to include the Asheville Advocate in their advertising.

Upon inquiry of Councilman Cloninger, Mr. Benton said that his newspaper comes out twice a month.

Councilwoman Field wondered if this was really a budget issue. She felt Council should just approve an amount of money for advertising CityWorks and then go back and look at how it might be split up. She said that the Asheville Advocate certainly reaches perhaps an audience that is different from the Mountain Xpress or the Citizen-Times, but the cost per subscribers if probably five times higher than the Citizens-Times and even more than that for the Mountain Xpress.

Councilwoman Field also said that another concern was that everything that comes out in CityWorks is very time oriented and it needs to get to people at a particular date and needs to come out on a regular basis. Her experience with the Asheville Advocate is that it is not a regular newspaper. Mr. Benson responded that most of the time is does comes out on a regular basis, but being a small business it has struggles and sometimes it takes money that he doesn't have - last year being the worst but he is taking steps to correct that.

City Manager Westbrook said that the money is in the budget for advertising and staff will continue to split it up as they have been directed to in the past, unless Council directs staff to do otherwise.

Upon inquiry of Councilman Cobb, City Attorney Oast said that the City has certain legal requirements within which to follow for their legal advertising. He said the Asheville Citizen-Times qualifies and that is where the City does it's legal advertising.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Cloninger moved, in light of the fact that services will suffer if we were to meet our federal mandate without adjusting taxes accordingly, that Council reduce the tax rate to $.52 per $100 of assessed valuation. This motion was seconded by Councilman Cobb.

Councilman Tomes was concerned that since no one can dictate unfunded mandates, would Council be better off with reducing the tax rate to $.53 per $100 of assessed valuation. He was not in favor of raising taxes, but somehow the community must understand that the City has no control over federal mandates and Council has to address the issues. He was especially concerned with the stormwater regulations mandate. City Manager Westbrook said that cities ordinarily know at least one fiscal year ahead of the mandate and the City is aware that the stormwater mandate becomes effective in 1999.

Councilman Cobb felt that federal mandates are something that City Council can't control but reducing the tax rate to $.53 might jeopardize the parks and recreation bond.

Vice-Mayor Hay said that raising taxes is something that City Council has not planned to do and it has been their clear message to staff, and they have responded appropriately, to find other sources of revenue and make the City work on what the City's present tax rate is and concentrate on growth from the tax base. He doesn't want to lose site of the fact that they have otherwise been very successful in doing what people want them to do, is to keep taxes where they have been all along and to focus on building the City's revenues in other ways.

City Manager Westbrook said that if the Council is not able to fund all of the items talked about at the retreat, staff will continue to work on them. Staff will try to be innovative, but may have to come back and recommend using contingency or fund balance and ask for Council to look at those programs on an individual basis in the context of that particular problem. He said as Councilman Tomes points out, stormwater is important and the $125,000 is for the study to tell us what we need to do to be in compliance with the new regulations when they come out in 1999.

Councilwoman Field said that in her seven years on Council she has never voted to raise taxes, however, this is a federal mandate she doesn't see how we can get out of. She felt that when the City didn't raise taxes and the County did raise taxes, it changed the relationship between the City and the County's proportion of sales tax revenues and other revenues that are proportional. She felt we needed to be more creative, more innovative, work smarter and harder in this community and particularly in the City. We do an excellent job of providing services and we want to continue to do that. We don't want to cut back any more than we have.

The motion made by Councilman Cloninger and seconded by Councilman Cobb carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 77

F. RESOLUTION NO. 98-90 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH ASHEVILLE PROFESSIONAL HOCKEY, LTD., FOR INTERMITTENT USE OF A PORTION OF THE ASHEVILLE CIVIC CENTER

Mr. David Pisha, Civic Center Director, said that this is the consideration of a resolution authorizing the City Manager to execute a lease agreement for the Asheville Civic Center.

The United Hockey League has approached The Asheville Civic Center about placing a team affiliated with their league at the facility. They have furthermore agreed to pay the facility a per game fee of $750.00 up to $1500.00 based on attendance. Additional consideration of up to $250.00 per game is further agreed if Civic Center cost exceed the prior revenue. The Civic Center retains a minimum of $150,000.00 in concession revenues before sharing additional revenues with the team. Based on attendance, The Civic Center could retain up to $250,000.00 before any sharing took place. Any revenue split with the team is after taxes and food costs have been deducted. The Civic Center receives 10% of any merchandise sales after $500,000.00. The team agrees to supply an ice floor and all related equipment necessary for the presentation of professional hockey. At the end of five (5) years, title to this equipment is transferred to the city without any cost to the city. The city, however, has the option to acquire this equipment sooner if it chooses by assuming the lease of this equipment. The Civic Center further more has the use of the ice floor for other events to include public skating. The Civic Center has the first option to purchase skates for public use, and in so doing, would retain 80% of any revenues received from this venture. Since the city will ultimately come to own the ice floor and related equipment, the city has agreed to share maintenance cost on a 50/50 basis with the team when such upkeep costs exceed $5,000.00. The Civic Center has further agreed to furnish locker room and office space to the team. Any advertising placed in the arena by the team must have prior approval from the Civic Center Director.

The Civic Center staff recommends City Council adopt the resolution.

City Attorney Oast said that in the franchise that was originally proposed, he had inserted the requirement that the team provide mortgage insurance on the ice so that if they walked away for any reason, the payment on the floor would continue to be made. The City's Risk Manager said that kind of insurance product does not exist. He still feels that the proposed agreement is risk free to the City in that we won't get stuck with an ice floor and the payment on it, unless we want to. What it does mean is that we won't get a windfall if the hockey team walks away from it. We will still have the floor at the end of five years and if, at any time in those five years the hockey team walks out, the only way we get the ice floor is if we buy it. Whereas originally, they would have posted a bond that would have paid off the floor.

Upon inquiry of Councilman Cloninger, City Attorney Oast explained how the lease is structured for the floor and any lease agreement will be reviewed and approved by him.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cobb moved for the adoption of Resolution No. 98-90. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 440

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 9, 1998, AND THE WORKSESSION HELD ON JUNE 16, 1998

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on June 9, 1998, and the worksession held on June 16, 1998. This motion was seconded by Councilwoman Field and carried unanimously.

B. COMMENTS BY JERRY RICE

Upon inquiry of Mr. Jerry Rice, Councilwoman Field said that since Council has adopted the budget and the tax rate, if something changed, the Council can amend the budget but not change the tax rate.

C. BOARD OF ADJUSTMENT

Mr. Keith Thompson asked that the Board of Adjustment that is scheduled for June 24, 1995, be held in a larger room than the 1st Floor Conference Room in that a large crowd is expected for the meeting regarding variances on Merrimon Avenue.

D. COMMENTS BY JOE HAIGHT

Mr. Joe Haight, General Manager of InterMedia, appealed to Council to reconsider the ordinance granting the franchise to Brenmor Cable Partners L.P. (d/b/a InterMedia). The public hearing was held and a motion was made and seconded. If Council would reconsider this, it would put in place several things that have to happen in the very near future concerning the whole issue of franchise and going forward in business plans having to do with at home and other things. There has been a lot of planning and effort on their part leading up to tonight. He understands the situation with the Mayor and her request that the issues be postponed. He said that she will have the opportunity to vote on the second reading.

It was the consensus of Council to postpone both cable issues because City Council assured the Mayor they would honor her request that she be allowed to vote on the issues.

E. CLAIMS

The following claims were received by the City of Asheville during the week of June 5-11, 1998: Robert L. Stepp (Streets), Sandra Lively (Water), Robin Smith (Parks & Recreation) and Pat Pendorf (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Vice-Mayor Hay adjourned the meeting at 9:42 p.m.

Comments on Proposed Cable Franchise Contract (June 23, 1998)

On behalf of Citizens for Media Literacy, I would like to thank the Mayor and City Council for this opportunity to comment on the proposed cable TV contract. I especially want to thank you for your patience and endurance in a process that is, for all of us, extremely complex and challenging -- and fraught with misunderstandings. Despite our misunderstandings, we're all here for the same purpose -- to ensure that Asheville reaps the greatest community and economic development benefits possible from this critically important contract.

Your patience and endurance is paying off. We have seen the length of the franchise reduced from 17 to 12 years. That's movement in the right direction, but in this age of rapid high-tech innovation -- and with our critical need to create and attract more high-paying jobs -- we need to get the franchise term down to 7 or 8 years to lessen our risk of being by-passed by the Information Highway economic boom.

We have also seen movement on the delinquent franchise fee settlement. By instructing staff to re-open negotiations last March, you all nudged Intermedia into putting an additional $25,000 on the table to settle its franchise fee debt. Again, that's money in the bank and movement in the right direction. Council and staff deserve credit for this progress. But with potentially more than $1 million in unpaid franchise fees at stake (based on a conservative estimate extrapolated from the consultant's 4-year analysis), it's clear that we have a long way to go to ensure that our community is fairly compensated for the many, many years of underpayment.

On other occasions, we have noted how important this franchise is for our community in ways that go far beyond simply delivering video channels to homes in our community. One of those ways is public access programming. We still do not know how much funding for the PEG access channels will actually be devoted to the public access channel, where local citizens and nonprofit groups can produce their own programming with the assisted of trained professionals using state-of-the-art equipment.

Usually, any available funding goes to the government and education channels first, with the public channel a distance third priority. That's why we're pushing so hard to obtain the largest possible settlement of the unpaid franchise fees, so that we can ensure that all three channels are adequately funded.

Too many franchise agreements have public access in the contract, but not enough funding to make public access a reality. This would be a tragedy of historic proportions, because I can't imagine a community more ready for public access than Asheville. At this moment in our history, Asheville has all the ingredients -- except funding -- for a first-rate public access operation. We have a wealth of talented and articulate local citizens -- artists and craftspeople, poets and entrepreneurs, young people and retirees, health educators and early childhood specialists, gardeners and nursery experts, auto mechanics and computers fanatics, as well as nonprofit agencies of all stripes -- all with important and interesting stories to tell.

In addition, we have a growing community of local film and video professionals who are already making important contributions to the local economy, but could always use more work in between major film and video productions. And we have media arts students in the city schools who need internships and other career development opportunities. But the handful of internships now available at WLOS are woefully inadequate for the number of available students.

In short, we have loads of local talent, and, in addition, we have empty studio spaces designed for video production at both Pack Place and at Asheville-Buncombe Community College. We have all the ingredients except adequate funding.

I would like to make one final observation about the benefits of public access, and I'm speaking now as a concerned parent of an 11-year old son. For the first time in human history -- the stories that shape the dreams and aspirations of our children are no longer told by parents and grandparents, ministers and teachers, and other community role models.

Instead, the stories that shape our children's view of reality are told by a handful of media conglomerates with something to sell rather than something to tell. We see this everyday. The authority figures our children look up to are sports heroes and Hollywood celebrities.

However, one of the greatest benefits of a well-funded public access operation is that our children get to see real people -- people they know -- doing real things. They get to see local role models and local heroes. . .

1. **Pass-through Costs to Subscribers**: This contract would have the City agree to a minimum of $1,088,316 in "pass-through" charges on subscriber bills. Here's the breakdown:

Support for PEG access channels: $340,000 over first three years, and a minimum of $50,000 a year for years 5 through 12 ($350,000). (There apparently is no funding for year 4.) All of this access-channel funding will be "passed through" to subscribers. **Total Cost to Subscribers: $790,000**

I-NET Construction Costs: The contract places construction costs at $398,316. This cost is only for bringing the fiber optic lines to City buildings. In addition, the City must pay for all hardware, software and related electronics -- and trained staff -- to make the I-NET operable. These costs have not been calculated. Intermedia may "pass-through" all construction costs to subscribers' bills. **Total Cost to Subscribers: $398,316**

Moreover, this contract is simply misleading in repeatedly stating that Intermedia "will provide" funding for PEG channels or for the I-NET, when in fact all this money "will be provided" by the citizens of Asheville who subscribe to cable TV.

Total Costs to Subscribers for PEG and I-NET: $1,088,316

2. **Delinquent Fees Settlement** -- Intermedia is offering to settle its delinquent fees liability of more than $1 million for a mere $175,000 over two years. This is only an increase of $25,000 over its offer of $150,000 last fall.

Intermedia argues that it shouldn't be responsible for debts incurred by prior franchise-holders, yet it ignores the business reality that when you purchase the assets of another company, you also purchase its liabilities.

City staff have stated that if the City were to take Intermedia to court, it's possible that the City could owe Intermedia money. This is a powerful and chilling possibility.

The reasoning is this: Intermedia and its predecessors have paid 6 percent of "gross revenue" as defined by the 1967 agreement. The 1967 agreement does not include premium channels, pay-per-view, home-shopping, advertising revenues, etc. In short, the local cable operators have paid 6 percent of a limited definition of "gross revenue."

In 1985, federal law capped cable franchise fees at 5 percent. But that law also implemented a broader definition of gross revenue. The argument assumes that the 6 percent (of limited gross revenue) is a sum possibly larger than the total local cable companies would have paid under the 1985 regulations (5 percent based on broader definition of gross revenue).

But to give any credence or validity to this possibility, one would have to assume that the cable companies missed an opportunity in 1985 to reduce their franchise fee payments. These companies are simply too sophisticated to miss such an opportunity. Clearly, local cable operators continued to pay the 6 percent based on the 1967 contract because it was cheaper to do so.

At any time, the cable operator could have invoked the 1985 federal regulation because, in the determination of franchise fees, federal law trumps local laws. Therefore, the argument that "the City could owe Intermedia money" if this dispute went to court is simply a scare-tactic and should be dismissed as such until someone brings forth detailed calculations to prove otherwise.

Intermedia needs to settle this debt in order to have clear title to its franchise. The company especially needs to settle before 1999. That's when stricter federal regulations governing franchise renewals kick-in.

What Intermedia fears most is a federal rule that would allow the city to hold the cable company in "non-compliance" for underpayment of franchise fees. This is a mighty big stick for the city. Holding Intermedia in non-compliance opens the door for the city to deny Intermedia a franchise renewal.

Denying the franchise renewal could be a major financial loss for Intermedia, which has made a substantial investment to upgrade Asheville's antiquated cable system.

Three years ago, Intermedia requested "early renewal" negotiations in order to avoid the stricter federal regulations. In this lax regulatory environment, Intermedia had hoped to quietly massage a deal through the city council. With little regulatory enforcement at its disposal, city staff had to negotiate on a playing field clearly tilted in Intermedia's favor.

All that changes in 1999. Each day that brings 1999 closer raises the stakes for Intermedia. Clearly, Intermedia knows that its debt is real. Last fall, the company offered $150,000 to settle its delinquency. It has now raised the offer to $175,000. Still, this is only a tiny fraction of the money owed our community.

Neither the city nor Intermedia wants this matter to end up in court. But until we toughen our stance, Intermedia will continue to low-ball its debt. At the June 2 work session, the city attorney raised the possibility of seeking an attorney specializing in cable litigation to take the case on contingency, thereby keeping the city's legal costs down. Bringing in such a legal specialist to review the case would be a reasonable and prudent step at this time.

Getting a second opinion would take some time, but some folks argue we don't have time. The sooner we get a new franchise agreement -- with tougher franchise fee language -- the sooner we begin collecting more revenue. The longer we wait, the more money we lose.

This argument, however, ignores the fact that Intermedia's debt continues to grow while negotiations continue. Any payments deferred while waiting for Intermedia to settle can still be recovered in a tougher-negotiated settlement. Indeed, the fact that Intermedia increased its original offer from $150,000 to $175,000 indicates that a waiting game is working.

Clearly, time is running out for Intermedia. The city should not fold an increasingly strong hand by settling with Intermedia prematurely, and by granting a franchise renewal this summer. Time is on our side.

3. **State of the Art Clause** -- This contract from the git-go has destroyed the meaning and intent of "state-of-the-art." We are deeply concerned with Intermedia's success in establishing and maintaining a "state-of-the-art" clause that ignores the reality of true state-of-the-art nationwide.

If you listen carefully to Intermedia's verbal gymnastics on this issue, they state that "digital compression" allows them to do with 550 Mhz the "same" that can be done with 750 Mhz. This is true.

But they refer only to digital compression "of video channels." Intermedia can indeed meet their video-channel expansion targets within 550 Mhz using digital compression.

But bandwidth is bandwidth. And that extra 200 Mhz of bandwidth deployed in 750 Mhz systems opens the door to a broad array of high-tech services for local business, industry and the public sector. Given the speed of telecom innovation, it's impossible to predict how this additional bandwidth will be used for local community and economic development in coming years.

4. **Internet Access for Schools, Libraries and Community Centers** -- The proposed new contract makes no mention of Internet access for schools and libraries, or for any City recreation/community center for after-school enrichment programs. No contract should be approved which omits this vital service to schools and libraries, which could save tens of thousands of taxpayer dollars in coming years. The City should also push to include Internet access for community centers.

5. **Ownership of the I-NET** -- Though cable subscribers will be charged $398,316 for construction of the institutional network -- and City taxpayers will foot the (still unspecified) bill for equipping, staffing, and activating the I-NET -- ownership of the I-NET will be retained by Intermedia.

While Intermedia is responsible for "maintenance" of its portion of the I-NET, the city is responsible for maintaining the equipment to activate the I-NET. Intermedia clearly gets the better end of this deal because little maintenance is required of "fiber in the ground." Indeed, Intermedia gets the best of both worlds -- they own the fiber that subscribers have paid for, and they're responsible only for that part of the I-NET which requires little or no maintenance.

Moreover, the City is prohibited from leasing or sharing any excess I-NET capacity, thereby excluding any uses of the I-NET for initiatives such as high-tech business incubation, video-conferencing for local nonprofits, etc. Indeed, has a comprehensive I-NET needs-assessment been conducted?

No mention is made of linking any City recreation center or community center to the I-NET. For example, could the Î-NET be used to help overcome the isolation of city housing facilties such as Hillcrest? Or could the I-NET serve as a small-business incubator for start-up firms capable of of creating high-paying jobs? Virtually no attention has been paid to the I-NET's community and economic development potential, or to its potential burden on taxpayers, or on city staff who may lack the expertise to operate and maintain it.

6. **No Performance Penalties** -- Intermedia promises to complete its rebuild by December, 1998. However, there appears to be no performance penalties to enforce this deadline. Most "rebuild" clauses in cable franchise agreements carry a $1,000-a-day fine to enforce the rebuild deadline.

7. **Late Fees and Senior Citizen Discounts** -- As with other utilities, Intermedia should be limited to charging a late fee of 1 percent of the outstanding balance. Instead, under the terms of this proposed contract, Intermedia is free to continue charging a $5 late fee plus steep reconnect fees.

Discounts for senior citizens, which have been negotiated in other communities, are not mentioned in this proposed contract.

SUMMARY: Intermedia has offered a contract that, in many ways, is worse than the original. The more restrictive "State of the Art" clause, the pass-through of $1,088,316 to subscribers, the ownership of the I-NET, no mention of Internet access for schools and libraries, and the absence of any real performance penalties -- plus the extremely low settlement offer on deliquent franchise fees -- all these flaws combine to make a cable contract that should be roundly rejected.

Tuesday - June 30, 1998
Burton Street Recreation Center
134 Burton Street

7:00 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr. and Councilman M. Charles Cloninger

The following topics were raised by residents and addressed by City Council and City staff: removal of gate on Collins Street near Hall Fletcher School; lack of minority representation in the Asheville Police Department and need for retention and promotion of African American officers; Burton Street Recreation Center ("Center") needs air conditioning; the Center needs to be renovated; the Center's grounds need to be landscaped and work performed on the ballfield area ; the Center needs additional parking; there is a need for more fire hydrants in the Burton Street area; there is a need for mailbox in the Burton Street area; residents want more police patrol and presence in the area to help deter the selling and buying of drugs and other illegal and immoral activity that takes place; the Center needs to be painted on the inside; request for police officers to be stationed at the Center to help deter the selling of drugs at night at the Center; need for a stop sign at the intersection of Ivy and Boyd Street; water leak on Buffalo Street; request to legalize drugs to reduce crime; need for fire alarm boxes in the area; possibility of a police officer living in the community; suggestion for a citizens on patrol program being started in the area; request for personnel to be available in the West Asheville Resource Center; need for speed breaker on Burton Street; request for a permanent Director at the Center; suggestion that Police officers use cameras to catch criminal activity; need for more jobs for the youth; why the street paving stopped right before 87 & 89 Argyle Lane; request to see if the operation of a garage on Argyle Lane complies with the zoning designation; request to see why cars are being stored on Argyle Lane in conjunction with the garage located on that street; need to stop the commercial encroachment into the residential neighborhood at the head of Burton Street; request that the City Council contact legislators to abolish the Civil Service law which will help in the hiring of minorities in the Police Department; and the need for a cohesive plan to include African Americans in all aspects of economic development.

Mayor Sitnick adjourned the meeting at 9:00 p.m.

Tuesday - July 14, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF ASHEVILLE FIREFIGHERS

Mayor Sitnick recognized Mr. Kevin Ponder and Mr. Paul Monroe, Asheville Firefighters, who just returned from helping battle the raging fires in Florida. Mr. Ponder and Mr. Monroe shared their experiences and presented Mayor Sitnick with a state flag which flew on their fire truck during their stay in Florida.

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON JULY 28, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ADD ENCLOSED BREEZEWAYS TO THE DEFINITION OF "BUILDING"

Vice-Mayor Hay moved to set a public hearing on July 28, 1998, to amend the Unified Development Ordinance to add enclosed breezeways to the definition of "building." This motion was seconded by Councilman Sellers and carried unanimously.

B. RESOLUTION NO. 98-91 - RESOLUTION PROVIDING FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1998 BELE CHERE FESTIVAL

Summary: The Bele Chere Strategic Plan which was presented to City Council at the annual retreat in 1997 established a Bele Chere Alcohol Task Force to address the alcohol issues surrounding the Bele Chere Festival. This Task Force continues to meet and address issues related to alcohol possession and consumption.

In May, 1996, Asheville City Council approved an ordinance prohibiting consumption and/or possession of open containers of malt beverages and unfortified wine on public streets and other property owned or occupied by the City of Asheville. In order to allow for the control of the sale and consumption of alcohol at Bele Chere, it is necessary for City Council to approve the resolution. Over the past several months, the Bele Chere Alcohol Task Force has been meeting to address concerns from downtown merchants, festival participants and Bele Chere Board members concerning alcohol at Bele Chere. The Task Force is made up of representatives from downtown merchants, City Council, Parks and Recreation staff, Legal Division, Asheville Police Department, the Alcohol Law Enforcement Board and Bele Chere Board. The resolution contains recommended actions by the task force, Bele Chere Board and various City Departments. This Task Force feels that the cooperative arrangement between all parties has been successful in trying to address the major issues relating to alcohol possession and consumption based upon past history of the festival.

The Parks and Recreation Advisory Board, Bele Chere Board, Bele Chere Alcohol Task Force, and the Parks and Recreation staff recommend approval of the resolution to allow alcohol during the Bele Chere Festival.

Upon inquiry of Councilman Sellers, Mr. Butch Kisiah said that the City is still following the Bele Chere Strategic Plan in that in 1999 the City will have no alcohol booths at Bele Chere.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-91. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 441

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING EIGHT LOTS OFF SWEETEN CREEK ROAD FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 2499 - ORDINANCE TO REZONE EIGHT LOTS OFF SWEETEN CREEK ROAD FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT

Mayor Sitnick opened the public hearing at 5:16 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to rezone eight lots (1.9 acres) off Sweeten Creek Road from RS-4 Residential Single Family Medium Density to RM-8 Residential Multi-Family Medium Density.

Owners and applicants Timothy Vorst, Philip G. Cheney III, Willie and Barbara Eddins, Doris Luther, Myrtle Ammons, and Roger Chipman have requested a portion of PIN No. 9654-10-26-9946, and all of PIN Nos. 9654-10-36-1567, 9654-10-36-0862, 9654-10-36-1703, 9654-10-36-1634, 9654-10-36-2520 and 9654-10-36-1485 be rezoned from RS-4 Residential Single Family Medium Density to RM-8 Residential Multi-Family Medium Density.

The area proposed for rezoning is already functioning in a multi-family capacity, and fronts on Sweeten Creek Road . The traffic count in this area is above 11,000 cars per day, suggesting that this property is more suitable for multi-family use that for single family use. The property across Sweeten Creek Road, although not in the city, is also multi-family in use, and there are commercial districts directly to the north of this area, starting at Birch Court, (Zone is CB-I), and directly south across Royal Pines Drive (zone is CS (Limestone Township).

The proposed zoning will not intrude into the existing neighborhood as access to the property proposed for rezoning is from Sweeten Creek Road, and would not be allowed from Cherry Street in the existing neighborhood. The proposed zoning will not front on Cherry Street in the existing neighborhood.

The Planning and Development staff recommends approval of the rezoning request. Planning staff has received one letter of protest from an adjoining property owner. The Planning and Zoning Commission at it's meeting of June 3, 1998, recommended by a vote of five to zero that the petitioned rezoning be approved.

When Councilman Tomes questioned the proposed split zoning of one of the lots, Mr. Black said that generally split zoning is not something that Planning staff would recommend, however, in this case there are very clear old lot lines to follow.

Mayor Sitnick closed the public hearing at 5:26 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2499. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 86

B. PUBLIC HEARING TO CONSIDER A MODIFICATION FROM THE SUBDIVISION STANDARDS REGARDING A FLAG LOT FOR PROPERTY ON OLD HAW CREEK ROAD

Mayor Sitnick opened the public hearing at 5:27 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of setting a modification to the subdivision regulations which addresses flag pole lot length for property located on Old Haw Creek Road.

The Planning and Development Department received a request from owner Sophia Brooks to approve a modification to the required maximum length of a flag pole lot. The request is to increase the maximum length of the flag pole for this particular subdivision from 250 feet to 440 feet. This increase will allow the owner to sell approximately 1.25 acres of her 3.91 acres of land and meet all other subdivision requirements.

The staff presented the subdivision modification request to the Planning and Zoning Commission at their meeting on June 3, 1998. After review, the Commission voted to recommend approval of the flag pole lot length modification for this particular subdivision.

Upon inquiry of Councilman Cloninger, Mr. Ownbey explained the definition of a flag pole lot.

Mayor Sitnick closed the public hearing at 5:32 p.m.

Councilman Tomes moved to approve the modification from the subdivision standards to increase the maximum length of the flag pole length for the subdivision on Old Haw Creek Road from 250 feet to 440 feet. This motion was seconded by Councilman Cobb and carried unanimously.

UNFINISHED BUSINESS

Upon inquiry of Mayor Sitnick, it was the desire of Council to consider the ordinance granting the franchise prior to consideration of the settlement of the franchise fees. Mayor Sitnick noted that she personally would like to consider the settlement of the franchise fees issue first.

Councilman Cloninger moved to change the agenda and consider the ordinance granting the franchise at this time. This motion was seconded by Councilman Tomes and carried on a 6-1 vote, with Mayor Sitnick voting "no".

ORDINANCE NO. 2500 - ORDINANCE GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA)

City Attorney Oast said that the public hearing on this matter was held on June 23, 1998, and stated that new terms and conditions have been negotiated and they were reviewed in detail during the June 2, 1998, worksession and clarified at the public hearing held on June 23, 1998, by Assistant City Attorney Meldrum. He recapped that after the June 23, 1998, public hearing a motion was made and seconded to adopt the franchise agreement. Mayor Sitnick then had a medical emergency and had to leave the meeting and asked that the issue be withdrawn from consideration at that time. He reminded Council that granting a franchise does require two votes and if Council does vote to award a franchise today, the second reading will take place on July 28, 1998. He stated that the term of the franchise ordinance specifies that the franchise will begin on July 1, 1998, however, that will be adjusted in the final version of the ordinance to July 28, 1998, if adopted.

Upon inquiry of Councilwoman Field, City Attorney Oast and InterMedia General Manager Joe Haight explained the impact of InterMedia being recently purchased by AT&T and how that would affect the City of Asheville.

City Attorney Oast and Mr. Haight responded to several questions and comments from Council, some being but are not limited to: why InterMedia requested to be relieved from the obligation to overbuild in certain areas and what would happen to Charter Cable and Marcus Cable if they don't want to enter into a franchise agreement to provide services within the City; billing should be simplified; what would InterMedia have to do to go into the telephone business; free Internet access service and free cable modem to each school and public library in the franchise area; and the agreement being a non-exclusive franchise.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of the ordinance granting a franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) for the operation and maintenance of a cable system with the amendment to Section 12.E as follows: "In the event that franchisee elects to provide high-speed Internet access services by cable modems in the City, then at such time that franchisee begins to provide such Internet services to its subscribers on a commercial basis, franchisee shall provide free Internet access service and a free cable modem to each school and public library located within the franchise area and which are passed by the activated feeder cable for as long as franchisee decides, in its sole discretion, to continue to provide such Internet services to its subscribers in the franchise area. Such Internet access services and modems shall be provided when Internet service to franchisee's subscribers becomes available in the cable system node in which the school or public library is located and within thirty (30) days of a written request from the school or public library for such services and modem." This motion was seconded by Councilman Cloninger.

Councilman Tomes was concerned over the length of the franchise and felt it should be shorter.

Vice-Mayor Hay said that a lot of what Council has heard has to do with public access channels and how were they going to be administered and the amount of money earmarked for those channels rather than do they exist. The benefit to the City if they enter into the agreement now is that we get public access now. He understands that we need to take the franchise fee settlement into account while Council evaluates this ordinance but this ordinance should stand on its merits. He too is concerned about the pass through expenses and the 750 MHz system vs. the 550 MHz system but felt that the City needed to balance the benefits of the items they are not satisfied with and balance of items they are satisfied with. He is satisfied with the state-of-the-art clause in that it is the best the City can do to protect ourselves against the unanticipated developments over the next 12 years. He would like the agreement be a 5 or 3 year agreement but feels this agreement is the best that can be negotiated. Regarding the AT&T/TCI merger, what we are hearing is that there will be increased serves over the cable lines and the new agreement does take into account any revenues that are collected over those lines. He felt that the time is now to go ahead and move into a new agreement. He realized that the agreement is not perfect, but hoped that it is the best the City can do.

Councilwoman Field was concerned about the pass through and the people who may not be able to afford the additional amount of money. She would like to see the amount lowered, however, she has not heard any comments from the public concerned about the pass through. She was hoping for, and was waiting for, the people who are involved in public access to get together and come to Council with a plan regarding public access and what they need, what they will do and what they would like the City to do. She has not seen that. She said that since they have not been given that type of information, it is hard for her to negotiate for more funds for public access when she doesn't know what they need. She asked the people who want public access to tell the City what they need so that the City can figure out how to do it.

Councilman Sellers said that his big concern is the term of the agreement and he would like to see the shortest term possible.

Councilman Cloninger said that this agreement is much better that the 1967 agreement currently in effect and better than the proposal brought to Council in November of 1997. The term has been shortened; the definition of gross revenues will result in more revenues to the City; the state-of-the-art clause has been broadened; there will be free Internet access to all the schools in the City; the I-net sites have been expanded so that all libraries, high schools and the Board of Education offices will be included in the network; there will be more upfront funding for our peg channels and more on-going financial support for those channels; and there will be the opportunity for those industries that may want the 750 MHz system to receive that, however, they will pay for having that additional capacity rather than having the other Asheville subscribers pay for it who actually do not need it. The proposal floating around in the City that the City should consider owning their own cable system is not a practical idea because we don't have the expertise and don't have the money to run our own system. He said that Morganton, N.C., is one of about 75 cities across the Country that own their own system but in most of those cases, those cities also own their own their own electric system. There are some provisions in this agreement that he wished were stronger, however, there are other provisions that we made out better than we hoped. In business negotiations, neither side gets everything, but all in all, the agreement is best the City can do.

Mayor Sitnick stated that even though there are improvements to the November 1997 proposed agreement that Vice-Mayor Hay and Councilman Cloninger requested action be delayed for further consideration, she outlined several items she was still not comfortable with: no reductions for senior citizens; the refund by request provision; that the City's consultant said at the beginning that 750 MHz is what the City should be getting and she is concerned on whether the 550 MHz system is adequate given the technological advances; the City pays for the I-net system and yet TCI will continue to own it; there should be more balance with the pass through fees; the term of the contract is still too long in that it limits our bargaining power, if the community does not embrace public access television then the City has a 12 year contract that binds us to the using of public access that will cost the subscribers money, and the federal government changes its mind quickly regarding the competitiveness of the cable industry; customers should have basic and expanded without payment for any additional equipment; and all schools and libraries should have the potential of use of this technology. She felt that the City, in part, was derelict in its duties (maybe because of a poorly written 1967 franchise) to determine whether the were being paid on time and whether there should have been penalties levied for payments that were not in compliance. But, because the cable company did not pay us on time it cost the City money to audit and investigate about fees. She was very grateful to former City Manager Doug Bean who questioned whether the City was being dealt with fairly by the cable company. She desired to postpone this renewal in order to see what the federal government would change, maybe form an advisory board with some of the experts in this community to work with the City, and not move so quickly on a 12 year contract that may bind us beyond what we want to be bound by.

Mayor Sitnick thanked all the citizens who participated in this process and stated that she was proud of the Asheville community and their desire to participate in government. She also thanked City staff, Mr. Haight and his staff and City Council for their long hours of deliberation.

The motion made by Councilman Cobb and seconded by Councilman Cloninger carried on a 5-2 vote, with Mayor Sitnick and Councilman Tomes voting "no".

City Attorney Oast said that the second and final reading of the ordinance would be held on July 28, 1998.

ORDINANCE BOOK NO. 17 - PAGE 88

III. PUBLIC HEARINGS CONTINUED

C. PUBLIC HEARING RELATIVE TO AUTHORIZING THE CITY MANAGER TO EXECUTE A SETTLEMENT AGREEMENT WITH INTERMEDIA AND TCI REGARDING FRANCHISE FEES

Mayor Sitnick opened the public hearing at 6:21 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that this resolution will authorize the City Manager to execute a settlement agreement with InterMedia and TCI regarding franchise fees.

The 1967 franchise requires that the franchise holder pay to the City of Asheville 6% of the gross monthly service charges collected annually for providing the radio and television signals over the cable system within the corporate limits of the City of Asheville. Under the 1967 franchise, that payment was deemed to be full compensation for use of the City's property rights, services rendered, supervision and inspection of equipment and facilities.

Concerns had been raised by the City of Asheville regarding whether or not the City had been paid all of the fees due under the terms of the 1967 franchise. The City of Asheville and the current franchise holder, Brenmor Cable Partners, L.P. (d/b/a InterMedia), have reviewed the language of the 1967 franchise and franchise fee payments made to the City of Asheville during the last few years. As a result of discussions by the parties regarding this issue, a settlement was proposed and considered by the City Council at previous meetings. On March 3, 1998, at a worksession, the City Council instructed City staff to conduct further negotiations regarding the settlement. Those further negotiations have been concluded and a draft of the proposed new settlement agreement was presented to City Council at their worksession on Tuesday, June 2, 1998.

City Attorney Oast said that the negotiations were reviewed in detail during the June 2, 1998, worksession by Assistant City Attorney Meldrum. He then briefly reviewed the documents attached hereto as Exhibit "A", resulting with the proposed settlement of $175,000.

When Mayor Sitnick asked why the cable company continued to pay 6% when Congress said they only had to pay 5%, City Attorney Oast said that the franchise said that they were to pay 6% and the cable company was treating it as a contract. He speculated that they wanted to honor what they considered to be a contract knowing that the City was relying on the revenues and if that provision were to change, it could result in some other ramifications throughout the franchise ordinance.

Mr. Haight said that before 1984, 3% was the maximum amount that you could charge and you could add 2% more but that 2% had to go 100% to regulation of cable. In 1983 this system changed hands for the first time from Thoms to Daniels & Associates. At that time, John Jerose told him that there was a lot of discussion about whether to go ahead and change the percentages to 5% at that time or leave it at 6% because the revenue that would be derived at 6% far exceeded what would be derived at 5% including all sources of revenue. It was determined jointly by City Council, staff and the attorneys of Daniels & Associates, Thoms and the City that they would continue at 6% based on the collection of basic and expanded basic. The expanded basic was included because WGN, WTBS and WOR were broadcast channels at that time. When Daniels & Associates transferred to United Artists the same conversation took place and they went through the same discussions of whether 6% was more beneficial to the City than 5%. It was determined at that time also that 6% would bring in more revenue for the City than going to the 5% of gross. He pointed out that at that time, HBO and Cinemax were the only two premium channels that they offered and there was not a lot of revenue involved. In the 1990's premium service became more prevalent throughout the whole cable system and the revenue stream increased. He believed that until just recently the revenue derived from the 5% fee of gross would equal the 6% that has been given to the City all of these years.

Upon inquiry Mayor Sitnick, City Attorney Oast explained how the statute of limitations provision is not clear in North Carolina law and how he felt that issue is one that both sides would have a lot of trouble with winning.

City Attorney Oast pointed out and explained the major issues in this matter: (1) how much is a percentage we are entitled to collect from their revenue - the cable company contends it's 5%, the City contends it's 6%; (2) what is contained in the definition of revenues - the cable company contend it's only basic or expanded basic, the City contends it's everything including their premium and pay per view channels; and (3) what is the statute of limitations - the cable company contends it's three years, the City contends that it's indefinite which is back to about 1984.

City Attorney Oast said that if the vote is to authorize the settlement, he recommended that the motion be phrased in such a way to delay the effectiveness of your action pending the second reading of the ordinance granting the franchise.

Upon inquiry of Councilwoman Field, City Attorney Oast explained that if the City went into court, the City could expect that a counterclaim would be filed on the basis of overpayment of fees and the City could stand to lose money or have to pay the cable company.

When Mayor Sitnick said that the City was prepared to go to court to defend its position on the release of public records, why wouldn't the City be willing to go into court to collect revenues for the City that are due. She suggested the City hire a lawyer on a contingency basis.

City Attorney Oast responded that on the basis of the issues and explanations he has given Council, the complexity of the law involved and also the uncertainty of the law, he didn't think that any law firms that would be willing to take this on a contingency fee basis and he suspected the fees would be rather high. He felt that in any event, if the City decides to pursue this in court, the City would be looking at paying legal fees whether or not they win. Contingency fees are sometimes done in collection actions, but that is usually where the law is more clear than it is here.

Mayor Sitnick said that since the article appeared in the paper where the headline stated something like the City Council had decided not to pursue the ultimate franchise fee settlement, half of the letters, phone calls and e-mails she has received, people have criticized and condemned this Council for giving up so easily and not pursuing the people's money, etc. She stated that this Council's discussion today is the first discussion and it will be the first vote Council has have taken on this. We have had numerous presentations in worksessions, at public hearings, and at public seminars, but this Council has never voted prior to this meeting on whether it would or wouldn't pursue more or less of a franchise fee settlement.

When Councilman Cloninger asked what the City's chances were to recover $500,000 or more by going to court, City Attorney Oast said that the chances of the City prevailing on all of the issues, so we could recover that amount, is pretty remote.

Councilman Cloninger responded to Mayor Sitnick's earlier comment about the City's willingness to go to court to not release documents. He said that that the City had a better case in trying to keep from releasing those documents than we do on this cable issue, and we lost the document case.

Upon inquiry of Councilman Cloninger about how long it would take to litigate this matter, City Attorney Oast said that if the matter were to be filed in state court, which it probably would be given the favorable result in the Lexington, N.C., case, his estimate is 4-4/12 years until it is finally resolved.

When Councilman Cloninger asked, assuming the City would hire an attorney on an hourly basis, what could roughly be our attorney's fees over the next 4-5 years, City Attorney Oast said it was hard to estimate and unless we got a fairly quick settlement it could be substantially more than $175,000, depending on how far it goes. The point to be made is that when you get into a fight like this, you're just not taking on TCI but the entire cable industry because these issues are very important to them.

City Attorney Oast said that if City Council decides not to enter into this settlement agreement, then he would request that Council amend the vote on the granting of the franchise ordinance to include language that reserves the City's right to pursue this legal action. Assuming that Council adopts the franchise ordinance, this would not affect what we are able to get under that ordinance.

Councilman Cobb said that the 1967 franchise reads that "The Grantee shall pay to the City an annual sum of money computed upon the gross monthly service charge received by the Grantee for providing the radio and television signals over the system within the limits of the City of Asheville as follows: 6% of the gross monthly service charges collected." He felt the City should not settle for anything less than what the cable company owes us.

Mr. Bill Wald explained that the franchise fee is not InterMedia's money, it's the pass through of the subscribers money.

Mr. Haight thanked Council for working with them for the past two years on what they feel is a fair and reasonable settlement for all concerned. InterMedia is saying that as part of the entire package, they are willing to pay $175,000 to settle the issue once and for all - for TCI as well as for InterMedia. Quite frankly, by law, they have the right to go back and collect that $175,000. Instead, they have chosen to negotiate with Council with what they determine to be a fair settlement.

Councilwoman Field asked what would happen if the court awarded the City $528,000. Mr. Haight said that InterMedia would have the right to go back and collect it as an additional pass through to the subscribers.

Mr. Haight noted that the legal departments of four large companies and the legal staff of the City of Asheville have argued about this since at least 1983 and it has never been absolutely clear. He said the audit completed by the City consultant Rice, Williams is not agreed to by InterMedia by any means. However, he is only interested in putting this issue behind us and in going forward with the City of Asheville.

Mayor Sitnick referred to a letter dated February 8, 1994, from TCI Southeast Inc. that enclosed a franchise fee payment in the amount of $161,361.74 from July 1, 1993 - December 31, 1993. She could not understand how the City received a check for a six month period for $161,361 and we are now saying that for the last three years they only owe the City $175,000. She noted that the cable company has agreed to pay the City $25,000 more than in the original franchise fee settlement of $150,000 in November 1997.

Discussion then surrounded the math calculations on the $175,000.

Mr. Wally Bowen, representative of the Citizens for Media Literacy, said that in December 17, 1995, he and other members of the Citizens for Media Literacy and offered their assistance, help and input into this process and for the next two years they were ignored. He thanked this Council for opening up the process where they are able to participate. Using the formula of the City's consultant, he showed Council a spreadsheet of how his organization arrived at the cable company owing the community over one million dollars over a ten year period.

Councilman Cloninger said that he has a fax from the City's consultant Jean Rice and he asked her about that million dollar figure. She wrote that "a million dollars is too high for a conservative estimate of past due fees. Assuming the 5% franchise fee cap established by federal law, a ten year limitation and the results of the audit, a $600,000 estimate would be appropriate but not conservative."

Mayor Sitnick said that the cable company agreed to pay 6% on their services, but they didn't include all their services and that's why former City Manager Bean questioned whether the gross revenues that were being determined by the cable company were actually the full picture. In 1994 she and Chris Peterson questioned the City Manager at that time about this very issue. The fact of the matter is that the City has some responsibility here too. The document didn't provide for the authority for the City to levy a penalty for a late payment, but it did allow us to revoke the agreement within a certain period of time - and the City never did that. The City had some culpability also.

Upon inquiry of Councilman Cobb, City Attorney Oast said that one question to be resolved in litigation is whether our contract and their continuing to honor the 6% binds them to that figure until the contract expires or until we renew it.

Mr. Bowen questioned why a cable company that is the business to maximize its profits would voluntarily pay more money than the federal law required. His assumption is that they looked at the federal law and they looked at the contract and they realized that the contract allowed them to continue underpaying and they did that. He felt that it behooves the City Council to try to get a second opinion about this. He hoped that a fair franchise fee settlement for this community would help fund first rate, top quality public access. One concern they have about the franchise renewal is that all the PEG money is earmarked for equipment and there is no money to actually staff and operate it. They know of no public access operation that is all volunteer. If the City has a weak case, why give up the franchise renewal, which is good leverage, before the settlement is enacted. The franchise renewal is powerful leverage in order to maximize the money owed this community. He said that through a grant they have received from the Community Foundation of Western North Carolina to promote public access in this community, they are bringing in one of the top cable attorneys in the country this Thursday to talk about franchise enforcement and public access. He noted that in 1985 the City Council was concerned enough about the status of this franchise that it established a Commission chaired by Lou Bissette. They made some startling findings. One finding is that the 1967 franchise agreement was passed on July 26, 1967, by referendum, however, on July 4, 1967, the state legislature passed a law that forbid any municipality from granting a franchise longer than, he thought, 25 years. The Commission concluded that the 1967 agreement was illegal and suggested that the City Council abrogate the agreement at that point and renegotiate. The attorney they are bringing in has suggested that this agreement may have been illegal from the beginning and that may give us some additional leverage in litigation. Their attorney also questioned why, since the franchise renewal is with InterMedia, let TCI in on the settlement agreement since they are two different companies. There seems to be a lot of unanswered questions and he hoped that City Council will seek other professional opinions on this.

Mayor Sitnick closed the public hearing at 7:34 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cloninger moved to authorize the City Manager to execute a settlement agreement with InterMedia and TCI regarding franchise fees. This motion was seconded by Councilman Sellers and failed on a 2-5 vote with Councilmen Cloninger and Sellers voting "yes" and Mayor Sitnick, Vice-Mayor Hay, Councilwoman Field and Councilmen Cobb and Tomes voting "no".

At the request of City Attorney Oast, in order to preserve our right under the new franchise to pursue this settlement, Councilman Cobb moved to reconsider his motion to adopt the ordinance granting a franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) for the operation and maintenance of a cable system with the amendment to Section 12.E. This motion to reconsider was seconded by Councilman Cloninger and carried unanimously.

Councilman Cobb moved to adopt the ordinance granting a franchise to Brenmor Cable Partners, L.P. (d/b/a InterMedia) for the operation and maintenance of a cable system with the amendment to Section 12.E outlined above and an amendment to Paragraph 2 to preserve our right to pursue legal action to collect any unpaid franchise fees on the 1967 ordinance as outlined by City Attorney Oast. This motion to reconsider was seconded by Councilman Cloninger and carried on a 5-2 vote, with Mayor Sitnick and Councilman Tomes voting "no".

At 7:55 p.m., Mayor Sitnick announced a short break.

IV. UNFINISHED BUSINESS:

A. CONSIDERATION OF A CONDITIONAL USE APPROVAL AND PERMIT FOR A DUPLEX AT THE CORNER OF LONDON ROAD AND SHADY OAK DRIVE

Mayor Sitnick said that the public hearing on this matter was held on June 9, 1998.

Mr. Bruce Black, Urban Planner, said that the Technical Review Committee has reviewed an application from owner Emory Mitchell for a conditional use permit for a duplex on the corner of Shady Oak Drive and London Road (PIN No. 9647-12-96-1860). The Unified Development Ordinance ("UDO") specifies several conditions which must be met in order to be granted approval. All of these conditions, detailed below, other than number six, have been met. Condition number six, as a requirement of the UDO, would have to be complied with and it is recommended that compliance with number six below be one of the conditions attached to the permit if the project is approved.

1) The project is located in a District (RS-8) in which Duplexes are allowed as a Conditional Use;
2) The proposed use is more than 300 feet from any other multi-family use other than an accessory apartment;
3) The area of the lot on which the Duplex is to be located exceeds 125% of the minimum lot size for the district in which it is located (RS-8);
4) Parking is located in the rear of the building, and is screened from the neighbors by landscaping;
5) Structure has a single front entrance;
6) Structure will meet all applicable NC building codes. Please note that this will be a function of the building permit application and subsequent inspections by the Building Safety Department.

The proposed duplex is currently sheathed in asbestos shingles. These shingles fall into a Category II rating, and are not considered to pose a threat to health safety or welfare unless they are reduced to the point of dust. A permit from the Regional Air Pollution Control Agency is required prior to removal of all shingles. Work involving asbestos shingles may be required to be done by a certified asbestos contractor.

The UDO also contains seven criteria which are to be considered by the Council in the Conditional Use process. In order to approve the proposed project, the Council must find from the evidence and testimony received at the public hearing, or otherwise appearing in the record of this case that these criteria have been satisfied. Those criteria and staff's findings are set forth below:

1.That the proposed use or development of the land will not materially endanger the public health safety and welfare.

> There is no intrinsic diminution of the public health safety and welfare in the use of this property as a duplex.
>
> The lot is .32 acres in size, and is allowed two single family units under the current zoning, if all other development requirements of the city, Water Authority, and MSD could be met, and if the property were subdivided. Because of a sewer easement through the middle of the property, it is not likely that two single family homes could in fact be placed on the property, even though current zoning density would allow such.
>
> There appears to be no diminution in the public health, safety, and welfare in the presence of the asbestos shingles if proper precautions are taken in working with them, and a contractor certified to work with said shingles is used in that connection.

2. That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in it's basic community functions or by providing an essential service to the community or region.

> The proposed use will provide needed additional housing to the City. This duplex is currently slated by the developer to be rental housing.

3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.

> This is in a large part dependent upon the quality of the development on the site. If the developer is able to build in keeping with the other units in the area, there may be no diminution in value in the area. However, it is not professionally ascertainable by staff, and may require the input of a professional appraiser.
>
> There are currently two other duplexes in the area, and one home that is known to be owned by an absentee landlord. Thus the precedent for rental homes in the area exists at this time.

4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located.

> The proposed unit meets all setback and performance standards of the district in which it is located (RS-8).
>
> The proposed structure measures 24 by 60 for a total of 1440 square feet. The height of the unit is 17 feet 3 inches. There are two other duplex structures of the same size in the immediate area and there is one single family home in the area which is thirty six square feet smaller. The largest structures in the area are the two duplexes of 1440 square feet in each structure. The smallest structures

in the area are two homes of 896 square feet each. The proposed project is similar in bulk, scale, height, coverage, density to other existing structures in the area.

This area has a multiplicity of exterior finishes ranging from vinyl siding to brick and wood. The six other units in the study area, including the other duplexes, area are finished in vinyl clad siding. If the duplex is built in keeping with the exterior appearance and materials of other structures of it's size in the area, it should then not be out of character with the area's appearance.

5. That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the city.

The 2010 plan is the only official plan pertaining to this area. The 2010 plan calls for low density residential uses in the area. The area is zoned RS-8 as it reflects the approximate density of the area

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.

The use is located in a residential area currently served by the City of Asheville Police Department, Fire Department and Sanitation Division. Water supply is adequate for the area. There is currently no bus transportation in the area, thus the additional units will not impact transportation facilities.

7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The lot is located on the Corner of London Road and Shady Oak Drive, and is accessed from Shady Oak Drive. The access from the lot to the rest of the city could be from either road. Shady Oak Drive runs through the immediate neighborhood and is a residential street varying from eighteen to twenty feet in width. London Road runs along the edges of the immediate neighborhood and acts as a through street bearing both local traffic and through traffic running from Sweeten Creek Road to Hendersonville Highway via West Chapel Road. London Road averages pavement width of twenty feet.

There is currently no traffic count available for London Road. However, by observation, the road appears to flow smoothly with no delay due to traffic volume. Local information suggests problems with excessive speed on this road, as well as a curve which is designed so sharply that people frequently cross into the oncoming lane when they round the curve.

There are no traffic counts available for Shady Oak Drive. From observation, Shady Oak appears to be a residential street bearing traffic generated from residential uses along the road. The road appears to be lightly used.

Trip Generation Tables from the Institute of Transportation Engineers suggests a trip generation rate of approximately 9.57 Trips per unit per day. This trip generation rate is for single family detached units, and is generally higher than for multiple units. However, the Trip Generation rates for units similar to the proposed unit are unreliable due to the small number of samples used to derive the numbers. It is felt that the use of single family statistics is sufficiently conservative to exceed the trip generation rates for multiple units. Using the single family detached rates, and doubling them to account for two units on the lot, the total trip generation is estimated at 19.14 trips from this property per day on average. This will vary, with larger numbers occurring on Saturdays and lower numbers occurring on other days.

This number of trips is not seen to be sufficient to impact the traffic flow on either London Road, or Shady Oak Drive, nor impact the operation of the intersection of London Road or Shady Oak Drive.

The Planning and Development staff recommends that if the Council wishes to approve this duplex, that the following conditions be imposed:

1. That the Duplex meet all North Carolina Building Code requirements;
2. That all required permits to remove shingles or any other hazardous materials be obtained from the Regional Air Pollution Agency or other appropriate agencies prior to the issuance of a zoning permit;
3. That a contractor certified to remove asbestos materials as might be found in or on the proposed structure be retained to do all work involving the these materials in or on the proposed duplex;
4. That the driveway and parking areas be paved;
5. That the bushes planted around the property lines be as shown on the approved site plan and that said bushes be planted in number and type sufficient to create an effective year round screen from the neighbors;
6. That the exterior of the duplex be finished in a manner consistent with similar units from West Terrace Apartments and placed by the applicant at the corner of Ezell and Westwood Roads. Said finish should include, but is not limited to, similar roofing materials, similar window types and materials, shutters, a permanent masonry block foundation, wooden porches and decks, rain gutters with down spouts, utility vents located on the rear roof of the house, utility connections on side or rear of structure; and
7. That there be only one entrance to the structure on the front of the structure. Said entrance may be a foyer off of which other entrances not visible from the street are located.

At their meeting of April 20, 1998, the Technical Review Committee recommended unanimously to approve the proposed Duplex subject to the conditions that all grading and site plans must be submitted to MSD for review prior to construction or grading of any kind, and that the structure meet all applicable North Carolina Building Codes. These conditions should also be added to the list of conditions by the Council.

There has been a good deal of neighborhood reaction to this proposal. The reaction did not come to the attention of the Planning Division until May 26th. The concern appears to center on the value of the homes in the area being negatively affected by the placement of this particular duplex on the property. The building itself is being moved from the West Terrace Apartments site. The residents were given the applicants name and telephone number through a representative named K. Proctor.

The residents were given the applicants name and telephone number through a representative named K. Proctor. The applicant has been given the name and telephone number of Ms. Proctor and the name and telephone number of a member of the Shiloh Residents Association (Mr. Charles Williams). As of June 9, the date of the first review of this project by Council, neither party had been able to contact the other.

However, Mr. Williams and Mr. Mitchell (applicant) did talk on June 9 after the City Council meeting. They agreed to meet. This meeting took place on June 12. There was no reconciliation of differences between the parties at this meeting.

The Planning Department has attempted to contact members of the Shiloh Community Association with an offer of mediation between the parties involved. A message was left, and no response has been received. Continued attempts to contact Mr. Williams have failed. The Planning Department will continue to attempt to bring about a further meeting with the parties concerned until the date of the hearing on this Conditional Use application.

A table of selected neighborhood lot characteristics was reviewed that showed pictures of the houses in the area, the size of each structure surveyed, the area of the lot the structure is located on, the percentage of the lot that is occupied by the structure(s) on that lot, the date the structures were built, and the 1988 assessed value of the lot and structure. This data has then been tabulated by discrete category, and compared to the similar statistic that is an attribute of the proposed duplex. This is done to aid in establishing a context for the proposed duplex in the neighborhood.

He then reviewed the following report from Senior Planner Gerald Green which explains the potential dangers of asbestos found in the shingles that are presently on the proposed Duplex:

Asbestos shingles were a commonly used building material during the period 1940 to 1960, with some use of this material continuing into the early 1970's. The shingles are still found as siding on many buildings in Asheville. Asbestos shingles have an asbestos content of 20% or more, with the asbestos bound in cement. The technical name for asbestos shingle siding is transite. Undisturbed, transite is very stable and does not pose a problem to the environment or to humans. Rubbing, painting, rain, and other normal activity does not hurt transite or result in exposure to asbestos.

Recognition that asbestos can pose an environmental and health hazard led to the regulation of all asbestos containing materials. The Environmental Protection Agency has classified asbestos containing materials into 3 categories, with the classification related to the danger posed by the particular material. The categories, and materials in each category, are:

- Regulated Asbestos Containing Material (RACM)
    - Pipe insulation and plaster
    - Can be crumbled with hand
    - Most dangerous type

- Category I Non-friable
    - Roofing material, floor tile (linoleum)
    - Danger posed by improper removal

- Category II Non-friable
    - Transite siding shingles
    - Not regulated federally
    - Removal is regulated locally
    - Can be made friable - then regulated federally

No problem is created by asbestos shingles as long as they are not disturbed. Transite causes concerns when it becomes friable, that is, broken into small enough pieces to create dust. To be considered significantly friable for purposes of regulation, all shingles on a building must be broken. Each shingle must be broken several times in order for it to be considered friable by the local regulatory agency (Regional Air Pollution Control Agency). If the shingles are broken and made friable, the concern is for those workers/persons in the immediate vicinity. No danger would be posed to neighbors and others not in the immediate vicinity. Asbestos has a high dilution factor, meaning that it is quickly diluted by air, water, or other material. Once broken and made friable, the asbestos in transite poses no problem once the dust is settled.

A permit must be obtained from the Regional Air Pollution Control Agency prior to the removal of asbestos shingles. Transite must be removed in whole shingles, kept wet, wrapped in 6 mil poly, and taken to the landfill for disposal. Permits are not generally required for removal of a few shingles; the concern is with removal of all shingles on a structure.

Steve Heiselman, Inspector in the WNC Regional Air Pollution Control Agency, was asked if the situation with the structures on Brooklyn Road posed any sort of danger or problem. Mr. Heiselman stated that in his opinion the structures posed no problem.

Mr. Black corrected an earlier statement by saying that the units at Ezelle Avenue and Westwood were placed by Mr. Tom Ross, not the applicant Mr. Emory.

Mr. Black then passed out the following letter dated July 8, 1998, to City Council signed by Mr. Emory Mitchell: "Request for a duplex or multi family unit to be place on this lot. This letter is concerning the set-up of the duplex apartment. The intent of work to be done on the apartment building is as follows: replace siding, windows and brick veneer front. Build front & rear decks. The apartments that have been set up on 15 Ezelle Ave., West Asheville by Tom Ross is an example of the intent of work to be done on the apartment building for London Road.

Upon inquiry of Councilman Tomes, Mr. Black said that because there are no building plans and no building permit has been applied for, it is not possible for staff to determine if the structure meets all applicable North Carolina Building Codes. However, at the time of application, he would have to show that he is meeting those plans and certainly during the construction phases he would have to meet the North Carolina Building Code prior to the issuance of any certificate of occupancy.

Upon inquiry of Councilman Tomes, Mr. Black explained that two duplexes in the immediate vicinity are both finished in a vinyl-clad siding and they both look similar to the one on Ezelle Avenue. If the applicant would do the same job on this duplex as was done on Ezelle Avenue, it would fit in with the existing neighborhood.

Upon of Councilwoman Field, Mr. Black said that there are no other duplexes within 300 feet of the applicant's property measured along Shady Oak Drive or London Road.

Upon inquiry of Councilman Cobb about the asbestos, Mr. Terry Summey, Director of Building Safety, said that as long as they are not removing more than 160 feet of it, a permit is not needed. However, if they do remove it, the appropriate permits will need to be obtained and removed per the Air Pollution Standards. He thought the intentions of the applicant is that they will be covering the asbestos.

Councilman Sellers moved to re-open the public hearing at 8:40 p.m. This motion was seconded by Councilwoman Field and carried unanimously.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter. City Attorney Oast said that if someone was sworn in at the public hearing on June 9, 1998, they need not take the oath again.

Upon inquiry of Mr. Charles Williams, resident of Shiloh and spokesman for the neighborhood, Mr. Summey explained what is required under the N.C. State Building Code.

When Mr. Williams and requested a copy of the staff report Mr. Black prepared for Council, said report was copied and handed out. Mr. Black stated that he prepares the information for Council delivery on Friday afternoons and it is available in the Clerk's office at that time.

Mr. Williams then reiterated his statements on June 9, 1998, and requested on behalf of the Shiloh Residents Association that the conditional use permit be denied. He stated that their committee did meet with Mr. Mitchell and Mr. Mitchell, who is not an Asheville resident, said that this project would be good for the community and not to worry about it. They felt that this type of language reeks of colonialism and paternalism and this attitude is inappropriate in the 1990's. Despite this attitude, the meeting was cordial, however, no consensus was met and they referred the issue back to City Council. Again, they requested that the conditional use permit be denied.

When Councilman Cloninger asked if the community would object if Mr. Mitchell renovated the duplex to the same quality as reflected in the photographs of the duplex on Ezelle Avenue, Mr. Mitchell said that they have seen the pictures over a month ago and in their discussions with the Mitchells, they could come to no consensus of what would be agreeable to both parties.

When questioned further by Councilwoman Field, Mr. Williams explained that the only reason why this issue is before City Council is because it is a duplex and requires a conditional use permit. The community does not want a rental unit duplex coming into their community, specifically this particular unit. He said, however, that the issue is property taxes have been raised and they are trying to maintain some property values.

Mr. Lucy Hunter passed out to City Council pictures of properties that have been brought into the Shiloh community recently and explained a little history about some of the properties. She urged Council to deny the conditional use permit and asked for a moratorium on the relocation of any additional units in their community.

When Vice-Mayor asked if Ms. Hunter would object if Mr. Mitchell renovated the duplex to the same quality as reflected in the photographs of the duplex on Ezelle Avenue, she said that they would not accept it as a duplex because they believe in single-family ownership. However, she did acknowledge that if it looked like the photograph and was a single family home, she would not have a problem with it.

Ms. Pauline Seabrook, resident of the Shiloh area, stated that they want single family development in their area and not to bring in substandard housing that will demolish their community which they have worked long and hard to make a decent community.

Ms. Katherine Proctor, resident of the Shiloh community, commented on the role of staff in this case. She said the community has fought and struggled to preserve their property and urged Council to deny the conditional use permit.

Planning & Development Director Julia Cogburn responded to Ms. Proctor in that the issues have been addressed and in terms of a recommendation, staff did not recommend approval or disapproval of this particular project. What staff did recommend is that if City Council wished to approve the duplex with all the information that staff had given them, that the following conditions were those that staff would recommend to Council in approving the project.

358

There was some discussion on the role of staff and City Council in this issue. Since one issue seemed to evolve around the information in the staff report, Mayor Sitnick asked that the next time this kind of situation arises that at the beginning of the meeting copies of the staff report be made available.

Ms. Frieda Nash urged City Council not to change the Shiloh community from single family homes to multi-family homes and not from home ownership to rental. She pleaded to Council not to use Shiloh anymore as a dumping ground.

Mayor Sitnick closed the public hearing at 9:17 p.m.

City Attorney Oast said that on June 9, 1998, Councilwoman Field raised a question about Finding No. 2 which reads "that the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region." Councilwoman Field's question, as he understood it, means does Council have to find that it's a public necessity. His response is that Council does not have to do that if they find that it reasonably enhances a significant public interest such as the public health or general welfare.

Upon inquiry of Mayor Sitnick of how to proceed, City Attorney Oast said that Council can discuss the issue and take a vote and then based on the evidence that has been presented and Council's comments preceding their vote, staff will put together an Order that contains findings and conclusions. Staff will bring that back to Council for approval of the findings and the conclusions.

Councilman Tomes expressed several concerns, in particular the damaged mailbox and the insensitivity of developers.

Councilman Cobb said that the Unified Development Ordinance designates this property as RS-8 Residential Single Family and did not feel comfortable in changing the home ownership in the area to rental.

Mayor Sitnick stated the following items in particular that bothered her in this conditional use permit: (1) Regarding Finding No. 1, she felt that the asbestos siding units are a danger from being moved around and cut in half; and (2) Regarding Finding No. 3, we may be able to ascertain by an appraiser that the surrounding property won't be diminished in value, however, after looking at the pictures and visiting the area, she has a real problem on relying on the developer who for convenience sake, significantly and severely damaged a tree on someone's private property to move a unit.

Councilman Cobb moved to deny the conditional use permit for a duplex at the corner of London Road and Shady Oak Drive. This motion was seconded by Councilman Tomes.

Vice-Mayor Hay said that part of the Unified Development Ordinance process was Council's decision that they really did want to provide housing opportunities all over town and so under certain conditions under the conditional use process, duplexes, quadraplexes and triplexes could go into RS-8. He said that he entered this process with the mind-set that this was one of those instances. However, after the last meeting, he spoke to Mr. Mitchell and told him that he had an open mind on this but he was going to have to sell him on this project (by showing him plans and pictures) because he did not want to vote on putting junk into this neighborhood. All he received was the letter presented today.

Councilwoman Field said that she believes in mixed use. She believed that the more we can mix single family with multi-family is the way an urban environment should be. It provides for walkable communities and provides for a mixture of economic levels and provides for a lot of diversity. She strongly supports affordable housing in this community. In many cases, duplexes are owned by someone who is elderly and who needs the money in order to be able to live themselves. Duplexes are totally appropriate and in character in a single-family neighborhood. However, she didn't think Mr. Mitchell did a very good job in convincing Council of what he is going to do.

The motion made by Councilman Cobb to deny the conditional use permit for a duplex at the corner of London Road and Shady Oak Drive and seconded by Councilman Tomes carried on a 5-2 vote, with Mayor Sitnick, Vice-Mayor Hay, Councilwoman Field and Councilmen Cobb and Tomes voting "yes" and Councilmen Cloninger and Sellers voting "no".

V. NEW BUSINESS:

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 23, 1998, AND THE COMMUNITY MEETING HELD ON JUNE 30, 1998

Councilman Cloninger moved for the adoption of the minutes of the regular meeting held on June 23, 1998, and the community meeting held on June 30, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

B. INTERVIEWS FOR PLANNING & ZONING COMMISSION VACANCY

City Council instructed the City Clerk to arrange for the following persons to be interviewed for a vacancy on the Planning & Zoning Commission: Priscilla Bass, Robert Euler, Linda Giltz, Lionel Williams, Susan Andrew, Barber Melton, Jerry Bailey, Chris Goodwin, Richard Reiss and Arthur Anderson.

C. LEGISLATION

City Attorney Oast said that Senate Bill 452, which gives the City more latitude to regulate sexually oriented businesses, was signed into law last week.

It was the consensus of City Council to direct the City Attorney to prepare a report to Council on appropriate options available to Council.

Mayor Sitnick also asked the City Attorney to look into how the City would go about banning drive-through bars at ABC Stores.

D. CITY COUNCIL MID-YEAR RETREAT

It was the consensus of City Council to bring this issue to the next worksession for further discussion and direction to the City Manager.

E. LITTER ROUNDTABLE

Mayor Sitnick said that the first Mayor's roundtable will focus on the problem of litter on Thursday, August 20, 1998, at 7:00 p.m. in the Public Works Facility. The roundtable will focus on solutions and it's going to be based on education, awareness, prevention and clean-up. They are targeting invitees as well as inviting the general public. She will prepare a memo for Council to see the outline proposed.

F. CLAIMS

The following claims were received by the City of Asheville during the week of June 12-25, 1998: Susan West (Traffic Engineering), Lisa Bollinger (Parks & Recreation), Namurah Blakely (Fire), David Parr (Water), Mary Bradford (Sanitation), Kyle Austin (Water) and Eli Herman (Water).

The following claims were received during the week of June 26-July 9, 1998: Darlene Worley (Parks & Recreation), Hazel Thomas (Traffic Engineering), Teresa Fisher (Sanitation), Mary P. Sellers (Police), Kathleen Burke (Police), Tommy Hall (Sanitation) and Vicky Taylor (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:52 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

EXHIBIT "A"

Franchise Fee Issue
and
Proposed Settlement

Issue: **Does the phrase "gross monthly service charges collected" in the 1967 franchise include premium services, revenues from home shopping networks and other revenue sources?**

Measures to Address Issue:

- Legal research on court interpretation of phrase or similar language
  - Problem North Carolina case - Lexington, North Carolina
- Legal research on federal regulations governing amount of franchise fees
  - 1967 franchise says 6%
  - federal law set cap of 5% in 1984 (effective January 1, 1985)
- Legal research on how far back could collect fees (statute of limitations)
  - Three Years
  - Ten Years
  - Unlimited
- Review amount of franchise fee payments made
- Review records of TCI Cablevision of Asheville, Inc. to determine amount of revenues from basic and expanded basic services, premium channels (HBO, Cinemax, etc.), installation charges and rental fees and home shopping networks
- Assemble report comparing amount of franchise fee payments made to revenue sources listed above

Chronology

1967 - Franchise approved; 6% franchise fee; basic service only

1980 - HBO (premium service) introduced by local franchisee

1984 - Disney (premium service) introduced by local franchisee

1985 - Expanded basic service began

Federal law limits franchise fees to 5%

1986 - Pay-per-view introduced by local franchisee

1988 - Showtime (premium service) introduced by local franchisee

1996 - Rice, Williams conducts franchise fee review

1997 - Franchise renewal and settlement first proposed

EXHIBIT "A"
page 2

Franchise Fee Issue
and
Proposed Settlement

IF "gross monthly service charges collected" ("gross") includes premium services, home shopping network revenues, etc.

THEN

For Four Years *

"gross" = $29,029,377 x 6% = $1,741,762.62

Amount paid = $20,223,852 x 6% = - 1,213,431.12

Difference (6%) = $ 528,331.50

* Rice, Williams contract was for a three year review; based on timing of review, fourth year could be included and was included in report.

BUT 5% Federal limit

For Four Years *

5% Federal Limit = $29,029,377 x 5% = $1,451,468.85

Amount paid = $20,223,852 x 6% = -1,213,431.12

Difference (5%) = $ 238,037.73

⇓

For Three Years **

= $ 178,528.29

* Rice, Williams contract was for a three year review; based on timing of review, fourth year could be included and was included in report.

** Information for three years determined in the event statute of limitations is three years.

Should Have Paid $29,029,377 x 5% = $1,451,468.85

Paid $20,223,852 x 6% = $1,213,413.12

Difference (4 years) = $ 238,037.73

Difference (3 years) = $ 178,528.29

Tuesday - July 21, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Sitnick introduced the Honorable Johnny Fender, Mayor of the City of San Angelo, Texas, who is visiting the Asheville area. Mayor Fender spoke briefly about the similarities of his City to Asheville.

CONSENT:

Grant Application for Five New Police Officers

Summary: On January 22, 1998, the Police Department submitted a grant application to the US Department of Justice, Office of Community Oriented Policing Services. This application requests federal assistance to the City to hire five new police officers. These new officers will be assigned to the South Market/Eagle Street and contiguous areas to provide an increased level of law enforcement and public services.

The application requested three years federal funding in the amount of $323,925. The granting agency requires a local matching contribution of $107,975 for a total project cost of $431,900 for the three year term. The first year's match is $19,075, second year is $41,840; and, third year is $47,060.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept a grant from the US Department of Department of Justice, Office of Community Oriented Policing Services, to fund five new police officer positions; and (2) a budget amendment to appropriate funds to the project.

Grant Application for Computer Equipment and Two Positions for Police Department

Summary: On June 11, 1998, the Police Department submitted a grant application to the US Department of Justice, Office of Community Oriented Policing Services. The application requests federal assistance to the City for the purchase of 106 in-car laptop computers for the police fleet, and funding for two new Police Service Technician (PST) positions. The computers will enable officers to have field based access to all systems currently residing on the Criminal Justice Information System, (CJIS). Field based CJIS access will increase officer efficiency through reducing officer "in the office" administrative time, and, thereby, allowing more time for community policing activities.

The PST positions are non-sworn positions. Once filled, the PSTs will provide various public, police services that do not require police certification, such as, traffic control, minor crime investigation, escorts, and security patrols. With the PSTs providing these services, police officers will have more time to commit to law enforcement operations. Costs for staffing PST positions are less that costs for staffing police officer positions.

The application requests federal funding in the amount of $744,640. The granting agency requires a local matching contribution of $245,814, for a total project cost of $990,454. A request for waiver of the local match was sent along with the application. This is a one year grant. However, pending future Congressional appropriation, second and third year funding for the PST positions may be available.

The City will receive notification regarding grant award before September 30. If there is an award, the matter will be presented to City Council at that time for approval and funding consideration.

Grant Application for Computers and Radar Equipment for Police Department

Summary: The Asheville Police Department requests approval for the City to submit a grant application to the N.C. Governor's Highway Safety Program. The application requests assistance to the City to purchase equipment to support the department's traffic safety program; specifically five in-car computers and five speed detection devices.

The application requests federal funding in the amount of $37,500. The granting agency requires a local match in the amount of $12,500, for a total project cost of $50,000. Second and third year funding may be available.

Mayor Sitnick asked to be kept up to date relative to the Criminal Justice Information System.

Grant Application for Master Street Tree Plan

Summary: The consideration of a resolution to apply for grant funds from the NC Dept. of Environment and Natural Resources to develop the first phase of the Master Street Tree Plan.

Funds are available through the State of North Carolina, Department of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program, to improve urban forest resources.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City rights-of-way located within the City limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase I of the process will specifically identify the location, size, condition, and site conditions of trees located in the central district of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $10,000 in grant funds which requires a 100% match. Matching funds are currently available in the Park Maintenance and Public Facilities budget. In-kind match will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends adoption of the resolution authorizing the City Manager to enter into this agreement if the City receives the grant award.

Grant Application for Greenway Trailhead and Ramp Segment on Broadway Greenway

Summary: The consideration of a resolution to apply for grant funds through the N.C. Dept. of Environment & Natural Resources to construct a greenway trailhead and ramp segment on the Broadway Greenway.

Funds are available through the State of North Carolina, Department of Environment and Natural Resources in the National Recreational Trails Fund Program (NRTFP) to provide trails for public use in North Carolina.

The Broadway Greenway represents the next section in the City of Asheville's urban trail corridor linking the University of North Carolina to the Downtown business district. Phase I of the corridor was completed in 1997 with the first section of the Weaver Blvd. Greenway. The next section of Weaver Blvd. will be completed in 1998/1999. The City has been working for some time to develop the Broadway Greenway along Reed Creek on the west side of Broadway. Eventually this corridor will link downtown neighborhoods to the Weaver Blvd./Glenn's Creek Greenway.

The focus of this grant will be the segment of greenway between Chestnut Street and Magnolia Street. The greenway begins at Chestnut Street where a large, five points intersection is located. The grade change from Chestnut Street to Reed Creek is very steep. A ramp will be needed to provide wheelchair and bicycle accessibility to the greenway. Since it is a large, busy area, the entrance will need a strong visual statement will need to be made to show where the greenway begins. The entrance will include signage, map, and benches. The funds from this grant will be set aside to assist with the construction of the trailhead and ramp, and to build a segment of the trail between Chestnut Street and Magnolia Street.

The Parks and Recreation Department is requesting $30,000 in grant funds which requires a 20% match. Matching funds are currently available in the Capital Improvement Project budget designated for Broadway Greenway, in the Park Maintenance and Public Facilities Division. In-kind match will include labor, equipment, and project management.

The Parks and Recreation Department recommends the adoption of the resolution authorizing the City Manager to apply for and enter into this agreement if the City receives the grant award.

Grant Application for Historical Markers at Riverside Cemetery

Summary: The consideration of a resolution to apply for funding through the Community Foundation of Western North Carolina for historical grave markers and an exhibit area at Riverside Cemetery.

Funds are available through the Community Foundation of Western North Carolina to provide educational and preservation opportunities.

Riverside Cemetery is designated as a National Historic Site, and a local historic site within the Montford Historic District. It is also designated as a Buncombe County Treasure Tree Preserve. Besides burial services, Riverside offers variety of activities such as tours, genealogy studies, tree, flower and animal identification, and grave marker rubbings.

Historical grave markers and the exhibit area will be part of the Riverside Cemetery Tour Program, and will offer visitors a greater opportunity to identify historic grave sites and utilize both guided and self guided tours. Over 2,000 visitors a year will experience a unique educational and cultural history lesson about many of Asheville's most prominent citizens, and their contributions to our community.

The Parks and Recreation Department is requesting $4,000 in grant funds. Supplemental funds are currently available in the Riverside Cemetery budget, and through private contributions. In-kind support will include labor and project management.

The Parks and Recreation Department recommends adoption of the resolution authorizing the City Manager to apply for and enter into this agreement if the City receives the grant award.

Withdrawal of Dedication for Miller Avenue

Summary: The consideration of a resolution finding the right-of-way known as Miller Avenue not part of an adopted street plan.

The right-of-way known as Miller Avenue as shown in Plat Book 32, Page 32, is not part of an adopted street plan in accordance with General Statute 136-66.2. Peggy M. Bridgeman has requested that City Council adopt a resolution stating such.

According to North Carolina General Statute 136-96, a right-of-way not utilized within 15 years of dedication can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Peggy Bridgeman sole heir of Joel R. Miller and owner of PIN Nos. 9755.17-01-1345, 1236, 1138, 1120, 1023, 3353, 3255, 3156, 3049 and 3041 has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating the right-of-way to be abandoned is or is not part of a proposed street plan. The unused right-of-way is not part of any such plan and is not a City maintained right-of-way; therefore, the City has determined that all necessary requirements of the statute will have been met by adopting the resolution, thus allowing Peggy Bridgeman to withdraw this specific right-of-way.

The Public Works Department staff finds that the right of way known as Miller Avenue from the intersection with Summit Avenue and Maude Avenue, in their entirety, as shown on Plat Book 32, Page 32 is not part of an adopted street plan and recommends the adoption of this resolution.

Setting a Public Hearing to Close an Unnamed Alleyway between Miller and Pond Avenues

Summary: The consideration of a resolution setting a public hearing to permanently close an unnamed alleyway between Miller and Pond Avenues.

A petition has been received from First Citizens Bank & Trust Company requesting that an unnamed alleyway between Miller Avenue and Pond Avenue be permanently closed to public use.

The petition received includes the affidavit of First Citizens Bank and Trust Company, owner of parcels 9654.05-09-7679,7851,8772, and 8970. First Citizens Bank and Trust Company owns all of the property with frontage on the unopened alleyway between Miller Avenue and Pond Avenue that has been petitioned to be closed.

Amendment to Comprehensive Parking Study to Include Transportation Corridor Analysis for Biltmore Village Area

Summary: The consideration of a resolution amending the contract for the Asheville Comprehensive Parking Study to include a Transportation Corridor Analysis for the Biltmore Village area.

The original contract cost for the Comprehensive Parking Study is $92,400.00 (Downtown, Biltmore Village and West Asheville areas). Due to the need for a Transportation Corridor Analysis for the Biltmore Village area, staff recommends that an amendment be issued to increase the contract by $34,833.19. This will revise the contract to $127,233.19. The funds to be used for the above amendment will be encumbered from account code 110-2501-418-3010.

The consultant will review and summarize the existing traffic and thoroughfare plans, conduct transportation analysis and develop recommendations and prepare a transportation plan which will compliment and extend the existing Biltmore Village Development Plan and the Asheville Thoroughfare Plan for this area..

School Crossing Guard Contract

Summary: The Asheville Police Department, through the use of a private contractor, provides school crossing guards at 22 sites in the City of Asheville. This service is during early morning hours and early afternoon hours, Monday through Friday.

Funds allocated in the line item 110-3503-421-3010C46201, Professional Services, in the amount of $75,800.00. The only bid received was from DAP Security in the amount of $74,527.20, for each academic year of 1998/99 and 1999/2000.

Acquisition of a Utility Billing System

Summary: The consideration of a resolution authorizing the acquisition of a utility billing system.

On November 25, 1997, the City entered into a Software License and Services Agreement with H.T.E., Inc. to acquire a computer hardware/software system to meet most of the City's central computer automation requirements and to ensure Year 2000 compliance/compatibility. That acquisition was financed through a master lease with Ontario Leasing which the City uses to acquire virtually all our computers and related equipment. The hardware has been installed and "live" operation of many of the software applications modules began on July 1, 1998. Implementation of the remaining application modules will continue through the remainder of 1998. The original Software License and Services Agreement included an option to acquire H.T.E.'s utility billing software at a later date at a guaranteed price.

The resolution authorizes the City Manager to execute a Supplement to H.T.E., Inc. Software License and Services Agreement which exercises the City's option to acquire the utility billing system. The resolution also authorizes the City Manager to add the utility billing system to the City's master lease agreement with Ontario Leasing.

The total cost of the utility billing system and associated training and technical support is $156,000.00. This cost will be spread over five years by the master lease. Funding for the first year of the lease has been appropriated in the FY 98-99 budget.

Staff recommends City Council adopt a resolution which authorizes the acquisition of a utility billing system.

368

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

IDENTIFICATION OF UNIFIED DEVELOPMENT ORDINANCE ANNUAL REVIEW ISSUES

Mr. Gerald Green, Senior Planner, said that as directed by Council at the time of adoption of the Unified Development Ordinance ("UDO"), an annual review is scheduled to discuss how the UDO is working, to review revisions already adopted, and to identify and discuss possible additional revisions.

At the time of adoption of the UDO, City Council directed staff to conduct an annual review of the UDO. The purpose of the review is to assess the effectiveness of the UDO, with particular attention to its level of success in directing growth and development to the advantage of the developer, the citizens, and the City as a whole. Among the items to be discussed during the review are how the various review processes established by the UDO are working, revisions already made to the UDO, and possible additional revisions.

In preparation for the annual review staff has compiled a list of the adopted revisions to the UDO and prepared a list of possible revisions for consideration as part of the review. The list of possible revisions reflects input from staff, Council members, and the public. This information is being provided for Council's review and consideration. At the appropriate time, Council may identify revisions which it wishes staff to incorporate into the UDO. This will require review and recommendation by the Planning and Zoning Commission and adoption by City Council. As part of the review and approval of any possible revisions to the UDO, both City Council and the Planning and Zoning Commission must hold public hearings.

He reviewed the Level I review process as follows:

- Residential Projects 3 - 7 units
- Commercial, Office and Institutional projects up to 35,000 square feet
- Industrial projects up to 100,000 square feet
- Staff level review, no formal meeting
- 10 working days turnaround
- 42 projects reviewed June to December 1997
- 75 projects reviewed January to July 1998
- Core Review Team meets every 6 to 8 weeks to assess process
- Problems assessed immediately
- No major concerns identified by community
- Staff reorganization assigned one staff person to Level I review

Level II Review:

- Residential Projects 8-50 units
- Commercial, Office and Institutional projects 35,000 to 100,000 square feet
- Industrial Projects from 100,000 square feet up to a site of 15 acres
- Review by staff
- Approval by Technical Review Committee ("TRC")
- Public notified of TRC meeting
- TRC meeting 2 weeks after submittal deadline
- 5 projects reviewed June to December 1997
- 5 projects reviewed January to July 1998
- No major problems identified with review process
- Concerns and problems addressed by TRC

Level III Review:

- Residential projects over 50 units
- Commercial, Office and Institutional projects over 100,000 square feet
- Industrial projects over 15 acres
- Review by staff
- Recommendation by TRC
- Public hearing held by City Council
- Decision regarding approval made by City Council
- Treated as conditional use
- Approximately 4-6 weeks from submittal to decision
- One Level III project submitted since UDO adoption
- No major concerns or problems identified with review process

He then reviewed the minor subdivision review process:

- Subdivisions requiring no new streets, utilities, easements and/or rights-of-way
- Review and approval by staff
- Typical review time 3-4 hours
- 25 subdivisions reviewed June to December 1997
- 30 subdivisions reviewed January to July 1998
- No problems or concerns identified
- Review staff has refined review process

Major Subdivision review:

- Subdivisions requiring new streets, utilities, easements and/or rights-of-way
- Review and recommendation of preliminary plat by TRC
- Approval of preliminary plat by Planning & Zoning Commission ("Commission")
- Neighboring property owners notified of hearing held by Commission
- Approximately 4 week review period for preliminary plat approval
- Final plat reviewed and approved by staff
- Typical review time for final plat is 2-3 days
- 5 major subdivisions reviewed June to December 1997
- 6 major subdivisions reviewed January to July 1998

This information is provided for Council's review and discussion at this time; it has not been reviewed by any other body and there is no recommendation.

Suggested Review Items:

The following possible revisions to the UDO have been identified by various boards, commissions, members of the public, and/or staff. Staff recommends further review and consideration of the following identified revisions:

Revise Office District - Revise the current Office District standards to reduce the permitted building size (currently 4,000 square feet footprint and 8,000 sq ft gross floor area) and create a new "medium range" Office District II to bridge the gap between the revised Office District and the Office/Business District, which permits buildings up to 30,000 sq ft gross floor area.

Create a Mixed Use Planned Unit Development District - The UDO includes a Planned Unit Development (PUD) overlay district designed to permit and encourage flexibility in site design for developments. Density bonuses are provided as an incentive in the residential developments to encourage the provision of affordable housing and protection of sensitive areas. Up to 10% of the land area may be developed for community businesses or offices serving the development and immediately surrounding areas. Requests have been presented for the development of a Mixed Use Planned Unit Development District which would permit developments containing a range of uses from mixed density residential to office to commercial designed in a unified manner. Design flexibility would be a key component of this district, with incentives provided to encourage the attainment of community goals (walkability, provision for alternative modes of transportation, etc.).

Create an Open Space/Park Zoning District - Develop a zoning district designed to accommodate public parks and open spaces. The proposed zoning district will permit the development of parks and related public facilities and serve to protect these resources. The Open Space/Park District will be applied to publicly owned properties; privately owned properties will not be assigned this designation.

Landscape Ordinance Revisions - Minor revisions to the Landscape and Buffering Ordinance are proposed. The following revisions have been identified by the Tree and Greenway Commission: (1) Require all parking spaces within a parking lot to be located within 30' of a tree instead of 60' as required in the current ordinance; (2) Require that trees and shrubs be planted within 8' of a vehicular use area, instead of 20', to count as parking lot landscaping; (3) Establish a time limit within which parking lot landscaping intended to buffer the lot from the street must meet the required 3' height and within which berms and grade changes must be covered with vegetation; (4) Establish a requirement for enhanced buffers where development abuts the interstate; and (5) Review the requirements for maintaining existing trees during the development process.

The following minor revision has also been identified: Establish a requirement for enhanced buffers where development abuts the interstate.

One other request has been brought to the staff's attention - that we review the requirements for maintaining existing trees during the development process. Under the current ordinance, credits for new trees are given for existing trees, with the number of credits related to the size of the tree (the larger the tree, the more credits) as an incentive to preserve existing trees. Cutting of trees on private property cannot be restricted, other than in local historic districts, without special enabling legislation.

Standards for Churches - Citizens have submitted a request that churches be limited to one sanctuary building and one classroom building per parcel of property in residential districts.

Underground Utilities - The UDO requires that utilities in new subdivisions be placed underground, but does not address the location of utilities in other developments. Staff has received comments stating that utilities in all developments should be required to be placed underground. It is argued that underground utilities would not only be more appealing aesthetically, but would not be subject to damage due to wind, snow, or accident. The initial cost of installing utilities underground is higher than installing overhead lines.

Broaden Permitted Uses in Community Business II District - The Community Business district, designed to provide areas for businesses serving several residential neighborhoods, should be sensitive to a significant pedestrian population while providing for adequate and safe vehicular access. A wide range of office, business, and service uses are permitted in the district including service stations and motor vehicle repair. A request from Realtors asks that the addition of mini-storage facilities and automobile dealerships to the list of permitted uses in this district be examined.

Identify Additional Neighborhood Business Zones - The Neighborhood Business District provides areas which are accessible to pedestrians for low intensity businesses which meet the daily convenience and personal service needs of the residential neighborhoods in which they are located. A group of Realtors has asked that additional areas which are appropriate for neighborhood commercial opportunities be identified for the application of this zoning district.

Advertising on buses and taxis

Extraterritorial jurisdiction research

Investigation of design guidelines in areas not designated as local historic districts

Make meetings/dialogue between developer and neighborhoods mandatory

Staff recommends that the following possible revisions not be considered at this time for various reasons, including the amount of research involved, impact on staff, etc. :

Landscape Ordinance Revisions - (1) Add improved standards for maintenance of landscaping planted to comply with landscape ordinance, including the requirement for a permit to remove, prune, thin, or otherwise alter vegetation planted to meet requirements of the landscape ordinance; and (2) Require all developments not in compliance with landscape requirements to comply with current landscape requirements, regardless of when the development was completed.

Environmental Impact Statement Requirement - Require all developments above a certain size to provide an environmental impact statement which would identify the impacts of the proposed development upon the environment and steps to mitigate the impacts. Currently, all developments are reviewed to assure availability of water and sewer services, those above a certain threshold must prepare erosion control and stormwater management plans, and a traffic impact analysis is required for developments generating more than 100 trips during the peak hour.

Zoning of Merrimon Avenue - Merrimon Avenue is currently divided primarily into three (3) business zoning districts, with small sections of residential and institutional zoning also present. The business districts are related to the type and scale of businesses presently found on different sections of the street, the capacity of the street to accommodate additional traffic, the scale of the neighborhoods near the street, and the type of development identified as desirable and appropriate for the street. While not permitting all types of development at all locations, the different business districts permit a wide variety of uses along Merrimon. Some members of the community have requested that the zoning of Merrimon Avenue be reviewed to assure that it is appropriate and capable of meeting the development needs of the area. The persons requesting this review are particularly concerned about the restrictions on building size and the prohibition on drive-through facilities in the Community Business I zoning district.

Grading Without An Approved Development Plan - Review the current standards for grading without an approved development plan (speculative grading). Currently, grading without an approved development plan is prohibited in all residential districts and in the River District. Grading without an approved development plan is permitted in all other zoning districts, provided that a landscape plan showing buffer plantings, street trees, and a permanent vegetative cover is submitted and approved prior to the issuance of the grading permit. A time period is identified within which the site must be landscaped as shown on the approved landscape plan.

372

Zoning of Emma Road - Louisiana Road Area - A group of Realtors has requested that this area, currently zoned CB II and Office/Business be zoned for light industrial uses. Staff has concerns regarding the ability of the roads in this area to accommodate the heavy truck traffic which could be generated by industrial uses.

Revisions to the UDO approved in the past year

The following revisions to the UDO have been adopted by the City Council since its adoption May 27, 1998:

- Limitation on new off premises signs and clarification of requirements for existing outdoor advertising signs;
- Revisions to Hillside Area Development standards to better define grading as the term is used in the standards;
- Revision to clarify the definition of Assisted Living Facility;
- Adoption of River District Design Guidelines;
- Adoption of UDO minor revisions (various revisions clarifying definitions, procedures, and standards);
- Revision changing the threshold for requiring a Traffic Impact Analysis;
- Providing authority to Board of Adjustment to grant variances permitting up to 10% reduction in lot size and dimension;
- Clarification of restrictions on locating parking areas with regard to backing onto private roads or drives;
- Revised definition of family care homes
- Identification of adult uses as conditional uses;
- Revised definition of schools;
- Identification of day care centers as permitted use, subject to special requirements, in the Office District and establishment of standards for this use; and
- Identification of accessory structures as permitted use, subject to special requirements, in all residential districts and establishment of standards for this use.

The following revisions have been recommended by the Planning and Zoning Commission but not yet acted on by City Council:

- Revised definition of antenna;
- Identification of accessory structures as a permitted use, subject to special requirements, in all residential districts and establishment of standards for this use;
- Clarification of requirements for grading in the buffer area; and
- Revised definition of building (include breezeways).

Mr. Green responded to various questions from Council throughout his presentation.

Discussion surrounded whether there should be a public hearing to find out what revisions to the UDO the general public would like to see. It was determined that this annual review process was for Council to receive feedback from staff on how the UDO was working internally and what kind of feedback from the public they were receiving.

Mr. Mac Swicegood, President of the Council of Independent Business Owners ("CIBO"), read a letter, which points are as follows: (1) The most inadequate portion of the UDO is its purported claim to be favorable to affordable housing. The Council of Independent Business Owners strongly urges the City Council to take up this issue immediately in an effort to streamline the processes and to identify and approve areas for affordable housing development;

(2) The thresholds for development are still too low; (3) Height of building restrictions especially in the areas like the river district need to be eliminated; (4) Traffic studies on N.C. Dept. of Transportation ("NC DOT") highways should be eliminated if the NC DOT approves a project; (5) Traffic studies on City streets should be eliminated except where the City Engineer deems that a study is warranted - in that case, CIBO strongly urges the City to conduct its own study in-house at no charge to the landowner; (6) the standards and specifications manual should be reviewed to incorporate more user-friendly rules - CIBO suggests a workshop with City officials, Council members and developers to look at the effects of the manual on development; (7) Study the TRC and instruct them to act in a timely and efficient manner - decisions should be made within a 30-45 day period; (8) Grading should be allowed in all districts within the City if an approved landscaping plan is presented; (9) Current rules regarding attempts to address topographical problems of development in and around Asheville are unworkable; (10) Problems with provision in some districts that disallows parking in the front of businesses; and (11) Drive-through windows should be allowed in all commercial districts where lot and building size requirements can be met. He stated that the following two broader issues need to considered: (1) "the City's permitting process - 'one stop permit shopping' needs to be given more consideration to ensure that rules and groundwork are laid out up front for a development, instead of receiving surprises in the middle of the process; and (2) Council should consider waiving permit fees for a project is not acted upon within 30 days."

Mr. John Van Dyke, Chairperson of the Board of Realtors Legislative Committee, requested that Article 7-1-2 (Purpose) be amended to read as follows: "These regulations have been adopted ... in order to ... protect and conserve the heritage of the City of Asheville while recognizing and safeguarding individual private property rights"

Mr. Brian Peterson, President of the Coalition of Asheville Neighborhoods, asked (1) that City Council review the Level II process to see if those are the kind of projects City Council should look at or staff should look at - suggestion might be to lower the threshold or allow for more public input; (2) the UDO be amended to allow public input at the Technical Review Committee meeting; (3) the UDO be amended to require developers or Planning staff to meet with the neighborhood when there is a proposal; (4) that Council look at design review standards; and (5) to consider the problems with the Board of Adjustment and see if there is any kind of reform Council can take under that.

It was the consensus of Council to review this information and at the August 4, 1998, worksession at which time they will instruct staff which items they would like to pursue as possible revisions to the UDO.

REQUEST FROM BOARD OF ADJUSTMENT WITH RESPECT TO SIGNS AT INTERSTATE INTERSECTIONS

Ms. Julia Cogburn, Director of Planning & Development, said that the Board of Adjustment wishes to address Council with respect to signs at interstate interchanges.

At a meeting several months ago of the Board of Adjustment of the City of Asheville, the Board asked staff to bring a particular issue to City Council. The Board indicated at that time that it was concerned with the number of requests it is receiving for a certain type of variance. The particular variance request comes from businesses located in close proximity to interstate interchanges in the City of Asheville. The requests are typically for bigger and taller signs. The suggested hardship is the need to be visible from the interstate for the motoring public.

374

Staff has advised the Board on this issue and they feel that these types of issues are best dealt with as variances on a case by case basis. It's very difficult to draft an ordinance that would apply across the board given all the different interchanges in the City of Asheville. The Board wishes to address Council. Their interest is in whether or not Council would consider some sort of direction -- perhaps through ordinance revision -- to allow taller and larger signs near the interchanges. The Board is particularly concerned with the interchange near Exit 44, the Enka-Candler Exit.

She reviewed a listing of the number of and disposition for the variance requests received of this type going back to 1980.

Even though there was no formal vote by the Board of Adjustment and no overall consensus on this, generally the Board the board ruled that they did not want to hear any of these issues come forward to them until this was brought to Council.

Discussion surrounded the process for getting signs placed on the large blue signs interstate signs regulated by the State.

Mr. David Young, member of the Board of Adjustment, spoke in favor of an ordinance revision that would set the height and size of a sign.

Mr. Dennis Hodgson, member of the Board of Adjustment, spoke against any across-the-board ordinance revision and felt that all cases should be decided on a case-by-case basis.

Several ideas were discussed, however, it was noted that we need to have some flexibility in the community given the terrain in Asheville. And, an important duty of the Board of Adjustment is to do a case by case analysis of each variance requested.

A representative from Popeye Chicken and Biscuits spoke in support of each variance request being dealt with on a case by case basis given the topography in the area.

It was the consensus of Council for the Board of Adjustment to continue their review of variances on a case by case basis.

PRITCHARD PARK DESIGN SERVICES CONTRACT

Mr. Alan Glines , Assistant to Landscape Architect, said that the Parks and Recreation Department was directed to select design services of an interdisciplinary firm to provide a complete scope of planning, design and construction drawings to redesign Pritchard Park. The Pritchard Park Task Force and staff have selected Genesis Group, Inc. through the request for proposal process.

Over the past several years with the discussion and eventual construction of the new transit center on Aston Street in downtown Asheville, interest in redesigning Pritchard Park has been rekindled. In August 1997, staff from the Parks and Recreation Department created a Task Force composed of citizens representing different interests in downtown. The Pritchard Park Task Force solicited citizen input in November 1997 during a public meeting before sending out a Request for Proposal for professional design services. After narrowing the field and interviewing four firms, Genesis Group, Inc. was selected as the most qualified firm and recommended the City enter into a contractual agreement for the requested design services. The following individuals were involved in the process of selecting the top ranked design consultants: Susan Roderick (Quality Forward), Adina Goodwin (Tree/Greenway Commission), John Rogers (Rogers Associates), Councilwoman Barbara Field, Al Kopf and Alan Glines (Parks and Recreation Department), Danie Johnson (Danie A. Johnson, AIA Architect), Alex Gourlay, (Chairman of the Pritchard Park Task Force), Lou Millin (Realtor), Jonathan Brown (City Seeds non-profit organization) and James Cheeks (former Traffic Engineer).

This resolution is to authorize Genesis Group, Inc. to begin a single contract, two part process to redesign Pritchard Park. The first part of the contract will provide public input opportunities via a public workshop and meetings for individuals and groups with specific interests to meet with the design consultants. Interim designs and a final park design solution will be presented to the public for input and eventually to City Council for approval The second part of the contract will provide drawing plans, specifications for materials, and construction documents for this final park design. After the contract is signed, Genesis Group Inc. has proposed a five month design process. The construction is expected to be completed by private contractors in July of 1999, prior to the Bele Chere festival . Funds set aside to construct the new park plan consist of a total of $200,000.

The fees for the execution of the contract include:

Services for public process, final design and construction drawings	$31,410
Reimbursable expenses (Not-to-Exceed)	$ 7,170
Sub-Consultants fees	$25,646
Total Fees for Services	$64,226

The Parks and Recreation Department recommends that authorization be given to the City Manager to enter into this contract with Genesis Group, Inc. for the redesign of Pritchard Park.

Upon inquiry of Councilman Cobb, Councilwoman Field briefly explained the background of why Pritchard Park is being redesigned.

Mayor Sitnick requested that since Adina Goodwin's term on the Tree/Greenway Commission is about to expire, she requested that another member of the Tree/Greenway Commission be involved in this process as a voting member.

When Mayor Sitnick noted that she was contacted by a local group that was disappointed they were not chosen for this contract, Councilwoman Field explained the procedure noting that the Task Force tried two different times to find someone local, however, for one reason or another they were not chosen.

Mayor Sitnick asked that we try to save the old trees that are in the current park, that the park area resemble the present area as much as possible, and staff begin looking at small spaces in the downtown area to develop a mini-park.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ZEALANDIA BRIDGE

Asheville-Buncombe Historic Resources Commission Chairman Paul Bidwell, referring to the Zealandia Bridge Stabilization report dated July 16, 1998, by the Commission, gave a brief history of the Zealandia Bridge. He urged Council to repair, stabilize and preserve the remaining fabric of this historic bridge.

At 5:25 p.m., Councilman Cloninger left the meeting for a prior commitment.

Mr. Jody Kuhne, Engineering Geologist with the N.C. Dept. of Transportation and Historic Resources Commission member, reviewed the stabilization report regarding his inspection of the bridge by outlining the current conditions and short and long term recommendations. He felt we should spend a small amount of money to get the structure cleaned up and then evaluate it realistically.

Mr. Bill Wescott, Structural Engineer, reviewed the stabilization report regarding his engineering opinion and recommended the City spend $8-10,000 to stabilize the bridge and then secure the necessary funds to preserve it. The $8-10,000 for Phase I remedial work bid was received by Dean Thorpe, President of Thorpe Construction, who did the Cherokee Wall Restoration Project for the City. His investigations over the last six months show no material from the bridge falling on the road but the hill raveling that is holding up the sides of it.

Public Works Director Mark Combs passed out a chronology of events concerning this bridge dating back to May of 1997. He noted that in June 1997 when Historic Resources Director Maggie O'Connor asked if they could photograph the bridge before any demolition occurs, until February of 1998, when the imminent demolition was advertised, no concerns were raised. And since May 22, 1998, he has not had any response from the Historic Resources Commission until their report was prepared for City Council on July 16, 1998. His concerns are (1) whether the Fire Department can get up there; and (2) there is a public potential safety hazard for people who drive under the bridge.

Mr. Jerry Carter, Professional Engineer with Vaughn & Melton, reviewed his inspection report of the Zealandia Bridge, noting that on May 14 they were contacted by the Street Superintendent to look at the bridge because of concerns of erosion around the bridge and debris falling from it. They were asked what was the most economical solution for the City and the health and safety of the public. Their recommendation to the City was it was more economically to tear it down. They also that due to the age of the structure and possible historic value, the bridge couple possibly be repaired, but not until a more extensive engineering analysis was performed by a group of professionals. The structure, in its entirety, would have to be exposed to allow for testing of all mortar joints, foundations, soil analysis, etc. Geotechnical investigations would have to be performed on the foundation material. The deck would have to be cleared of all trees, vines, etc. in order to allow testing to determine the actual composition and condition of the superstructure. All masonry would have to be repaired and/or replaced. It is their opinion that the structure would have to be torn down and rebuilt even after a more extensive analysis is performed.

Upon inquiry of Vice-Mayor Hay on the cost, Mr. Combs said that to tear the structure down would be approximately $5,000 using in-house forces. Mr. Carter said that in their method to shore up the bridge, the $8-10,000 figure might be reliable.

Mr. Robert Griffin, Architect, read the following letter from the Preservation North Carolina dated July 16, 1998, from Executive Director J. Myrick Howard to Mayor Sitnick: "I am writing to you about the historic Henry's Bridge that the City of Asheville intends to demolish. The bridge, designed by R.S. Smith, was constructed in 1907 as the original entrance to the Zealandia estate. Zealandia is listed on the National Register study list. The bridge is an important example of a stone, self-supporting, arched bridge. Preservation North Carolina supports the Preservation Society of Asheville and Buncombe County and the Historic Resources Commission in their efforts to prevent the demolition of the bridge, and instead to stabilize and eventually rehabilitate it. We encourage the City not to demolish the bridge, but to use the funds reserved for demolition to stabilize this important Asheville landmark. Our Foundation has a revolving fund for endangering historic properties North Carolina. Perhaps there may be a way that a portion of these funds and the balance of your demolition funds could be used to rehabilitate the bridge. Thank you for your consideration." He said that he would personally be happy to help in fundraising from private sources given the opportunity to stabilize the bridge.

Mr. Harry Weiss, Director of the Preservation Society, also spoke in support of repairing and stabilizing the structure and suggested that the bridge might be used as a greenway link to a possible Beaucatcher Reservoir Park. He suggested a logical source of funding might be ISTEA federal funds because they are for enhancements for transportation related projects, which includes greenways and it has specific uses for historic preservation.

Upon inquiry of Councilwoman Field, Mr. Dean Thorpe said that the $8-10,000 figure is just to clean the bridge up enough to find what needs to be done to stabilize it.

Mayor Sitnick asked Mr. Griffin to find out from Preservation North Carolina what their funds might provide.

Mr. Griffin said that if the City will spend $5,000 (from the demolition figure), and there is a bid for $10,000, he would personally underwrite $5,000 of it if the City will pick up the other half. City Manager Westbrook said that the City was going to use $5,000 of in-kind services of salaries and vehicles that we already have. The City does not have a project that is marked for that bridge for $5,000.

Upon inquiry of Councilman Tomes, Fire Chief John Rukavina said that if the road were to be closed, he would want it closed as short a time period as possible.

It was noted that all of City Council were concerned about liability and public safety. Therefore, it was the consensus of Council to instruct the City Manager to let Public Works determine whether the road needed to be closed on a temporary basis and then have the Public Works staff come back to Council at the August 4, 1998, worksession with information about hiring an engineer to tell us what needs to be done on a temporary basis to make the bridge safe and also an estimate for permanent repair of the bridge.

BRIEFING ON COMMUNITY ORIENTED GOVERNMENT

Ms. Robin Westbrook , Public and Community Information Coordinator, said that Community Oriented Government was established two years ago in Asheville to allow for better access, information, and coordination of city services to residents of this community.

In July 1996, Public and Community Information was developed, in part, to provide coordination for Community Oriented Government activities organized by departments throughout the City. The purpose of these activities is to increase awareness, coordination, and access to services provided by these departments.

The scope of activities provided through Community Oriented Government has increased in number and complexity since it's inception. The programs range from partnering with outside agencies to provide compost bins at reduced rates to citizens to communicating via fax machine with 453 citizens, companies, etc. on a monthly basis to provide news about the Building Safety Department. Many departments have developed unique, specialized programming to meet the needs of our diverse population. She outlined the many departmental accomplishments of departments.

One very successful aspect of Community Oriented Government is the way in which our departments now work together in a comprehensive manner with neighborhoods to address concerns specific to that neighborhood. A successful program that has been initiated as part of

Community Oriented Government is the Neighborhood Matching Grant Program. This program was started to assist neighborhood associations in Asheville with funding for improvements in their communities. It allows qualified neighborhood associations to apply for grants of up to $2000 to help fund a project that addresses a neighborhood need and improves the quality of life in that neighborhood. Last year, five Neighborhood Matching Grants were awarded totaling $9,500. In 1998, seven grants were awarded totaling $11,300. The purpose of this report is to provide City Council with an update on all of the accomplishments that have occurred as a result of Community Oriented Government, including an update of the Neighborhood Matching Grant Program, and an overview of goals that we plan to achieve in the future.

SCHEDULING DATES FOR ROUNDTABLES

Mayor Sitnick asked members of Council to submit ideas for roundtables in the future. She explained the idea of roundtables is to create partnerships and community groups to take on certain projects. The main point of roundtables will be for the public to work on some solutions.

It was the consensus of City Council to hold two roundtables and then evaluate their outcome. The first Mayor's roundtable is on litter on Thursday, August 20, 1998, at 7:00 p.m. in the Public Works Facility. It was the consensus that the second roundtable will be held on Thursday, November 19, 1998, with the topic to be determined at a later date.

Discussion surrounded the need for a public hearing on the I-26 corridor. It was the consensus of Council to invite the N.C. Dept. of Transportation to a worksession to update Council on the status of the I-26 project and then possibly hold a public hearing.

DISCUSSION OF CITY COUNCIL MID-YEAR RETREAT

It was the consensus of City Council to hold a mid-year retreat and that a paragraph summary of the Water Agreement, Airport Agreement, Transit Agreement and the Sewer Agreement be reviewed in order to begin the process to make sure that the agreements are in the best interest of the citizens of Asheville. City Council also decided to discuss the status of the ten City Council goals at the mid-year retreat.

Possible dates for the retreat include August 21, August 28, September 11, September 18 and September 25, 1998. The suggested retreat location is the Kellogg Facility near Hendersonville, North Carolina.

City Manager Westbrook said that he would send out a memorandum to all Council with a list of the possible dates and then announce the date most convenient for the majority of Council.

DISCUSSION OF SEXUALLY ORIENTED BUSINESS REGULATION

City Attorney Oast said that this is the consideration of a temporary moratorium on sexually oriented businesses in the City of Asheville.

On April 14, 1998, Council adopted an ordinance amending the UDO to temporarily converting adult establishments from use by right, subject to special requirements, to conditional uses. This is done in order to help preserve the status quo while Senate Bill 452 was being considered in the North Carolina General Assembly. You may recall that SB 452 was designed to return a measure of control over adult businesses to local governments. This bill has now been passed by both houses of the General Assembly and was sent to the Governor for signing on July 9.

Our temporary ordinance has a self-executing expiration date of 30 days after SB 452 becomes law. This means that the ordinance will expire in early August, and adult establishments will revert to uses by right, subject to special requirements. Accordingly, Council should consider taking some action soon.

One of the features of the new law is that it permits the enactment of a temporary moratorium of reasonable duration in order to preserve the status quo while appropriate studies are conducted and the scope of potential regulations is deliberated.

Under the prior law, the primary means of regulating adult establishments, including the adoption of moratoria, was through the zoning ordinance. Any zoning ordinance or amendment requires consideration of the proposed ordinance by the Planning Commission, notice and a public hearing. Recent North Carolina case law suggests that adult establishments may be regulated under the general police power, and the new law codified this. Accordingly, in order to enact a moratorium under the new statute, neither consideration by the Planning and Zoning Commission nor a public hearing are statutorily-required procedures.

The types of regulations that the new law permits a city to consider include: (a) clothing restrictions; (b) registration and disclosure requirements for owners and employees; (c) limits on hours of operation; (d) exterior advertising; and (e) age restrictions; among others.

With those things in mind, it appears that a moratorium may provide the City with the necessary "breathing space" to do the appropriate studies and draft some proposed regulations. Six months is probably a reasonable time to complete this work, and extensions are possible. Although a public hearing is not required, it may be advisable to schedule one in order to avoid due process-based challenges as much as possible.

Adoption of a general moratorium on sexually-oriented businesses or adult establishments located within the jurisdiction, and direct staff to report to Council before the end of the year with proposed new regulations. It is also recommended that a public hearing be held in connection with the adoption of such a moratorium.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS FROM BOARDS & COMMITTEES

Vice-Mayor Hay reported on the Airport Authority meeting and requested Council's consideration of appointing LaVerne Laney to the Future of the Civic Center Task Force.

Mayor Sitnick congratulated Vice-Mayor Hay and Civic Center David Pisha for the work they did at the Civic Center to receive national recognition in the magazine "Performance".

Councilwoman Field reported on the Metropolitan Sewerage District Board meeting.

Mayor Sitnick report on the WNC Regional Air Pollution Control Board meeting. It was the consensus of Council for the Mayor to write, on behalf of City Council, a letter to the Chair of the Board and the head of the agency expressing disappointment and chagrin over the process of choosing the Chair, the choice of the Chair, and the fact that Asheville was eliminated from the field because of whatever personal problems they were having.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:45 p.m.

Magdalen Burleson
CITY CLERK

Reni Sitnick
MAYOR

Tuesday - July 28, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman O.T. Tomes (participated in meeting by speaker phone from 6:07 p.m. - 6:40 p.m.)

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SATURDAY, AUGUST 8, 1998, AS "VOLUNTEER AWARENESS DAY"

Mayor Sitnick read the proclamation proclaiming Saturday, August 8, 1998, as "Volunteer Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Cindy McMahon, Volunteer Center Coordinator of the United Way, who briefed the Council on some of the activities taking place during the day.

II. CONSENT:

A. RESOLUTION NO. 98-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH GENESIS GROUP INC. FOR THE RE-DESIGN OF PRITCHARD PARK

Summary: The Parks and Recreation Department was directed to select design services of an interdisciplinary firm to provide a complete scope of planning, design and construction drawings to redesign Pritchard Park. The Pritchard Park Task Force and staff have selected Genesis Group, Inc. through the request for proposal process.

Over the past several years with the discussion and eventual construction of the new transit center on Aston Street in downtown Asheville, interest in redesigning Pritchard Park has been rekindled. In August 1997, staff from the Parks and Recreation Department created a Task Force composed of citizens representing different interests in downtown. The Pritchard Park Task Force solicited citizen input in November 1997 during a public meeting before sending out a Request for Proposal for professional design services. After narrowing the field and interviewing four firms, Genesis Group, Inc. was selected as the most qualified firm and recommended the City enter into a contractual agreement for the requested design services. The following individuals were involved in the process of selecting the top ranked design consultants: Susan Roderick (Quality Forward), Adina Goodwin (Tree Commission), John Rogers (Rogers Associates), Councilwoman Barbara Field, Al Kopf and Alan Glines (Parks and Recreation Department), Danie Johnson (Danie A. Johnson, AIA Architect), Alex Gourlay, (Chairman of the Pritchard Park Task Force), Lou Millin (Realtor), Jonathan Brown (City Seeds non-profit organization) and James Cheeks (former Traffic Engineer).

This resolution is to authorize Genesis Group, Inc. to begin a single contract, two part process to redesign Pritchard Park. The first part of the contract will provide public input opportunities via a public workshop and meetings for individuals and groups with specific interests to meet with the design consultants. Interim designs and a final park design solution will be presented to the public for input and eventually to City Council for approval The second part of the contract will provide drawing plans, specifications for materials, and construction documents for this final park design. After the contract is signed, Genesis Group Inc. has proposed a five month design process. The construction is expected to be completed by private contractors in July of 1999, prior to the Bele Chere festival . Funds set aside to construct the new park plan consist of a total of $200,000.

The fees for the execution of the contract include:

Services for public process, final design and construction drawings	$31,410
Reimbursable expenses (Not-to-Exceed)	$ 7,170
Sub-Consultants fees	$25,646
Total Fees for Services	$64,226

The Parks and Recreation Department recommends that authorization be given to the City Manager to enter into this contract with Genesis Group, Inc. for the redesign of Pritchard Park.

RESOLUTION BOOK NO. 24 - PAGE 445

B. RESOLUTION NO. 98-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT AN APPLICATION TO THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR FIVE COMPUTERS AND FIVE SPEED DETECTION DEVICES

Summary: The consideration of a resolution to authorize the City Manager to file a grant application with the N.C. Governor's Highway Safety Program for five computers and five speed detection devices.

The Asheville Police Department requests approval for the City to submit a grant application to the N.C. Governor's Highway Safety Program. The application requests assistance to the City to purchase equipment to support the department's traffic safety program; specifically five in-car computers and five speed detection devices.

The application requests federal funding in the amount of $37,500. The granting agency requires a local match in the amount of $12,500, for a total project cost of $50,000. Second and third year funding may be available.

RESOLUTION BOOK NO. 24 - PAGE 446

C. RESOLUTION NO. 98-94- RESOLUTION FINDING THE RIGHT-OF-WAY KNOWN AS MILLER AVENUE NOT PART OF AN ADOPTED STREET PLAN

Summary: The consideration of a resolution finding the right-of-way known as Miller Avenue not part of an adopted street plan.

The right-of-way known as Miller Avenue as shown in Plat Book 32, Page 32, is not part of an adopted street plan in accordance with General Statute 136-66.2. Peggy M. Bridgeman has requested that City Council adopt a resolution stating such.

According to North Carolina General Statute 136-96, a right-of-way not utilized within 15 years of dedication can be abandoned through a recording of a Declaration of Withdrawal.

To proceed with this process, Peggy Bridgeman sole heir of Joel R. Miller and owner of PIN Nos. 9755.17-01-1345, 1236, 1138, 1120, 1023, 3353, 3255, 3156, 3049 and 3041 has requested that the City of Asheville verify if the specific rights-of-way are or are not part of the City's adopted street plan. The statute requires that the City adopt a resolution stating the right-of-way to be abandoned is or is not part of a proposed street plan. The unused right-of-way is not part of any such plan and is not a City maintained right-of-way; therefore, the City has determined that all necessary requirements of the statute will have been met by adopting the resolution, thus allowing Peggy Bridgeman to withdraw this specific right-of-way.

The Public Works Department staff finds that the right of way known as Miller Avenue from the intersection with Summit Avenue and Maude Avenue, in their entirety, as shown on Plat Book 32, Page 32 is not part of an adopted street plan and recommends the adoption of this resolution.

RESOLUTION BOOK NO. 24 - PAGE 447

D. RESOLUTION NO. 98-95 - RESOLUTION SETTING A PUBLIC HEARING ON AUGUST 25, 1998, TO CLOSE AN UNNAMED ALLEY BETWEEN MILLER AND POND AVENUES

Summary: The consideration of a resolution setting a public hearing to permanently close an unnamed alleyway between Miller and Pond Avenues.

A petition has been received from First Citizens Bank & Trust Company requesting that an unnamed alleyway between Miller Avenue and Pond Avenue be permanently closed to public use.

The petition received includes the affidavit of First Citizens Bank and Trust Company, owner of parcels 9654.05-09-7679,7851,8772, and 8970. First Citizens Bank and Trust Company owns all of the property with frontage on the unopened alleyway between Miller Avenue and Pond Avenue that has been petitioned to be closed.

RESOLUTION BOOK NO. 24 - PAGE 448

E. MOTION SETTING A PUBLIC HEARING ON AUGUST 11, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CLARIFY THE REQUIREMENTS FOR GRADING ALONG PROPERTY LINES

F. MOTION SETTING A PUBLIC HEARING ON AUGUST 11, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY ACCESSORY STRUCTURES AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS IN ALL RESIDENSTIAL DISTRICTS, AND TO ESTABLISH STANDARDS FOR ACCESSORY STRUCTURES

G. MOTION SETTING A PUBLIC HEARING ON AUGUST 11, 1998, TO REZONE EIGHT LOTS ON MACE AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT

H. RESOLUTION NO. 98-96- RESOLUTION AMENDING THE CONTRACT FOR THE ASHEVILLE COMPREHENSIVE PARKING STUDY TO INCLUDE A TRANSPORTATION CORRIDOR ANALYSIS FOR THE BILTMORE VILLAGE AREA

Summary: The consideration of a resolution amending the contract for the Asheville Comprehensive Parking Study to include a Transportation Corridor Analysis for the Biltmore Village area.

The original contract cost for the Comprehensive Parking Study is $92,400.00 (Downtown, Biltmore Village and West Asheville areas). Due to the need for a Transportation Corridor Analysis for the Biltmore Village area, staff recommends that an amendment be issued to increase the contract by $34,833.19. This will revise the contract to $127,233.19. The funds to be used for the above amendment will be encumbered from account code 110-2501-418-3010.

The consultant will review and summarize the existing traffic and thoroughfare plans, conduct transportation analysis and develop recommendations and prepare a transportation plan which will compliment and extend the existing Biltmore Village Development Plan and the Asheville Thoroughfare Plan for this area..

RESOLUTION BOOK NO. 24 - PAGE 449

I. RESOLUTION NO. 98-97- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH DAP SECURITY FOR SCHOOL CROSSING GUARDS

Summary: The Asheville Police Department, through the use of a private contractor, provides school crossing guards at 22 sites in the City of Asheville. This service is during early morning hours and early afternoon hours, Monday through Friday.

Funds allocated in the line item 110-3503-421-3010C46201, Professional Services, in the amount of $75,800.00. The only bid received was from DAP Security in the amount of $74,527.20, for each academic year of 1998/99 and 1999/2000.

RESOLUTION BOOK NO. 24 - PAGE 450

J. RESOLUTION NO. 98-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT & NATURAL RESOURCES TO DEVELOP THE FIRST PHASE OF THE MASTER STREET TREE PLAN

Summary: The consideration of a resolution to apply for grant funds from the NC Dept. of Environment and Natural Resources to develop the first phase of the Master Street Tree Plan.

Funds are available through the State of North Carolina, Department of Environment and Natural Resources, Division of Forest Resources in the Urban and Community Forestry Grants Program, to improve urban forest resources.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City rights-of-way located within the City limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase I of the process will specifically identify the location, size, condition, and site conditions of trees located in the central district of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

The Parks and Recreation Department is requesting $10,000 in grant funds which requires a 100% match. Matching funds are currently available in the Park Maintenance and Public Facilities budget. In-kind match will include supplies, transportation, volunteer hours, and project management.

The Parks and Recreation Department recommends adoption of the resolution authorizing the City Manager to enter into this agreement if the City receives the grant award.

RESOLUTION BOOK NO. 24 - PAGE 451

K. RESOLUTION NO. 98-99- RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT & NATURAL RESOURCES TO CONSTRUCT A GREENWAY TRAILHEAD AND RAMP SEGMENT ON THE BROADWAY GREENWAY

Summary: The consideration of a resolution to apply for grant funds through the N.C. Dept. of Environment & Natural Resources to construct a greenway trailhead and ramp segment on the Broadway Greenway.

Funds are available through the State of North Carolina, Department of Environment and Natural Resources in the National Recreational Trails Fund Program (NRTFP) to provide trails for public use in North Carolina.

The Broadway Greenway represents the next section in the City of Asheville's urban trail corridor linking the University of North Carolina to the Downtown business district. Phase I of the corridor was completed in 1997 with the first section of the Weaver Blvd. Greenway. The next section of Weaver Blvd. will be completed in 1998/1999. The City has been working for some time to develop the Broadway Greenway along Reed Creek on the west side of Broadway. Eventually this corridor will link downtown neighborhoods to the Weaver Blvd./Glenn's Creek Greenway.

The focus of this grant will be the segment of greenway between Chestnut Street and Magnolia Street. The greenway begins at Chestnut Street where a large, five points intersection is located. The grade change from Chestnut Street to Reed Creek is very steep. A ramp will be needed to provide wheelchair and bicycle accessibility to the greenway. Since it is a large, busy area, the entrance will need a strong visual statement will need to be made to show where the greenway begins. The entrance will include signage, map, and benches. The funds from this grant will be set aside to assist with the construction of the trailhead and ramp, and to build a segment of the trail between Chestnut Street and Magnolia Street.

The Parks and Recreation Department is requesting $30,000 in grant funds which requires a 20% match. Matching funds are currently available in the Capital Improvement Project budget designated for Broadway Greenway, in the Park Maintenance and Public Facilities Division. In-kind match will include labor, equipment, and project management.

The Parks and Recreation Department recommends the adoption of the resolution authorizing the City Manager to apply for and enter into this agreement if the City receives the grant award.

RESOLUTION BOOK NO. 24 - PAGE 452

L. RESOLUTION NO. 98-100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE COMMUNITY FOUNDATION OF WESTERN NORTH CAROLINA TO FOR HISTORICAL GRAVE MARKERS AND AN EXHIBIT AREA AT RIVERSIDE CEMETERY

Summary: The consideration of a resolution to apply for funding through the Community Foundation of Western North Carolina for historical grave markers and an exhibit area at Riverside Cemetery.

Funds are available through the Community Foundation of Western North Carolina to provide educational and preservation opportunities.

Riverside Cemetery is designated as a National Historic Site, and a local historic site within the Montford Historic District. It is also designated as a Buncombe County Treasure Tree Preserve. Besides burial services, Riverside offers variety of activities such as tours, genealogy studies, tree, flower and animal identification, and grave marker rubbings.

Historical grave markers and the exhibit area will be part of the Riverside Cemetery Tour Program, and will offer visitors a greater opportunity to identify historic grave sites and utilize both guided and self guided tours. Over 2,000 visitors a year will experience a unique educational and cultural history lesson about many of Asheville's most prominent citizens, and their contributions to our community.

The Parks and Recreation Department is requesting $4,000 in grant funds. Supplemental funds are currently available in the Riverside Cemetery budget, and through private contributions. In-kind support will include labor and project management.

The Parks and Recreation Department recommends adoption of the resolution authorizing the City Manager to apply for and enter into this agreement if the City receives the grant award.

RESOLUTION BOOK NO. 24 - PAGE 453

M. RESOLUTION NO. 98-101 - RESOLUTION APPROVING THE ACQUISITION OF A UTILITY BILLING SYSTEM

Summary: The consideration of a resolution authorizing the acquisition of a utility billing system.

On November 25, 1997, the City entered into a Software License and Services Agreement with H.T.E., Inc. to acquire a computer hardware/software system to meet most of the City's central computer automation requirements and to ensure Year 2000 compliance/compatibility. That acquisition was financed through a master lease with Ontario Leasing which the City uses to acquire virtually all our computers and related equipment. The hardware has been installed and "live" operation of many of the software applications modules began on July 1, 1998. Implementation of the remaining application modules will continue through the remainder of 1998. The original Software License and Services Agreement included an option to acquire H.T.E.'s utility billing software at a later date at a guaranteed price.

The resolution authorizes the City Manager to execute a Supplement to H.T.E., Inc. Software License and Services Agreement which exercises the City's option to acquire the utility billing system. The resolution also authorizes the City Manager to add the utility billing system to the City's master lease agreement with Ontario Leasing.

The total cost of the utility billing system and associated training and technical support is $156,000.00. This cost will be spread over five years by the master lease. Funding for the first year of the lease has been appropriated in the FY 98-99 budget.

Staff recommends City Council adopt the resolution which authorizes the acquisition of a utility billing system.

RESOLUTION BOOK NO. 24 - PAGE 454

N. RESOLUTION NO. 98-102 - RESOLUTION SETTING A PUBLIC HEARING ON AUGUST 11, 1998, TO CONSIDER AN ORDINANCE ESTABLISHING A MORATORIUM ON ADULT ESTABLISHMENTS

Summary: On April 14, 1998, Council adopted an ordinance amending the UDO to temporarily converting adult establishments from use by right, subject to special requirements, to conditional uses. This is done in order to help preserve the status quo while Senate Bill 452 was being considered in the North Carolina General Assembly. You may recall that SB 452 was designed to return a measure of control over adult businesses to local governments. This bill has now been passed by both houses of the General Assembly and was sent to the Governor for signing on July 9.

Our temporary ordinance has a self-executing expiration date of 30 days after SB 452 becomes law. This means that the ordinance will expire in early August, and adult establishments will revert to uses by right, subject to special requirements. Accordingly, Council should consider taking some action soon.

One of the features of the new law is that it permits the enactment of a temporary moratorium of reasonable duration in order to preserve the status quo while appropriate studies are conducted and the scope of potential regulations is deliberated.

Under the prior law, the primary means of regulating adult establishments, including the adoption of moratoria, was through the zoning ordinance. Any zoning ordinance or amendment requires consideration of the proposed ordinance by the Planning Commission, notice and a public hearing. Recent North Carolina case law suggests that adult establishments may be regulated under the general police power, and the new law codified this. Accordingly, in order to enact a moratorium under the new statute, neither consideration by the Planning and Zoning Commission nor a public hearing are statutorily-required procedures.

The types of regulations that the new law permits a city to consider include: (a) clothing restrictions; (b) registration and disclosure requirements for owners and employees; (c) limits on hours of operation; (d) exterior advertising; and (e) age restrictions; among others.

With those things in mind, it appears that a moratorium may provide the City with the necessary "breathing space" to do the appropriate studies and draft some proposed regulations. Six months is probably a reasonable time to complete this work, and extensions are possible. Although a public hearing is not required, it may be advisable to schedule one in order to avoid due process-based challenges as much as possible.

Adoption of a general moratorium on sexually-oriented businesses or adult establishments located within the jurisdiction, and direct staff to report to Council before the end of the year with proposed new regulations. It is also recommended that a public hearing be held in connection with the adoption of such a moratorium.

RESOLUTION BOOK NO. 24 - PAGE 455

O. RESOLUTION NO. 98-103 - RESOLUITON AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT FROM THE U.S. DEPT. OF JUSTICE, OFFICE OF COMMUNITY ORIENTED POLICING SERVICES, FOR THE HIRING OF FIVE NEW POLICE OFFICERS

Summary: On January 22, 1998, the Police Department submitted a grant application to the US Department of Justice, Office of Community Oriented Policing Services. This application requested federal assistance to the City to hire five new police officers. These new officers will be assigned to the South Market/Eagle Street and contiguous areas to provide highly concentrated law enforcement and public services. The application has been approved and the grant award document has been received.

The award provides three years federal funding in the amount of $323,925. The granting agency requires a local matching contribution of $107,975, for a total project cost of $431,900 for the three year term. The first year's match is $19,075; second year is $41,840; and, third year is $47,060.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept a grant from the US Department of Department of Justice, Office of Community Oriented Policing Services, to fund five new police officer positions; and (2) a budget amendment to appropriate funds to the project.

RESOLUTION BOOK NO. 24 - PAGE 456

Q. MOTION APPOINT LAVERNE LANEY TO THE FUTURE OF THE CIVIC CENTER TASK FORCE

R. MOTION SETTING A PUBLIC HEARING ON AUGUST 11, 1998, TO REZONE 15 LOTS ON BURTON STREET FROM COMMERCIAL BUSINESS II TO HIGHWAY BUSINESS

S. RESOLUTION NO. 98-104 - RESOLUTION NAMING THE NEW BUS TRANSIT FACILITY ON COXE AVENUE AS THE "ASHEVILLE TRANSIT CENTER"

Summary: The City of Asheville and the Asheville Transit Authority have completed construction of a new transfer facility for their bus passengers and along with the North Carolina Department of Transportation and the Federal Transit Administration dedicated the new facility with a ribbon-cutting ceremony on July 23, 1998.

A sign has been erected with the name of the facility as the "Asheville Transit Center" where regular transit service began on July 24, 1998, the 20th anniversary of Bele Chere. Staff has drafted a resolution for Council consideration to officially name the facility "Asheville Transit Center."

The Asheville Transit Authority and the City Planning staff recommend that the City Council adopt a resolution in order to officially name the new transfer station as the "Asheville Transit Center".

RESOLUTION BOOK NO. 24 - PAGE 457

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ADD ENCLOSED BREEZEWAYS TO THE DEFINITION OF "BUILDING"

ORDINANCE NO. 2502 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO ADD ENCLOSED BREEZEWAYS TO THE DEFINITION OF "BUILDING"

Mayor Sitnick opened the public hearing at 5:04 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that the current definition of Building does not allow for two buildings to be connected by an enclosed corridor and, for purposes of Structure Size Standards in the UDO, to be treated as separate buildings.

In order to clarify this to the user of the Unified Development Ordinance, it is proposed that the definition be edited as follows (*new language in italics*):

> BUILDING means any structure having a roof supported by columns or by walls, and intended for shelter, housing of enclosure of persons, animals, property or business activity, The connection of two buildings by means of an open porch, breezeway, passageway, carport or other such open structure with or without a roof shall not be deemed to make them one building.
>
> *The connection of two buildings by an enclosed corridor connector where the buildings connected are not less than fifty feet apart at all points, and the connecting corridor is not less than fifty feet in length nor more than fifteen feet in inside width, one story in height, and the outside walls of which contain not less than thirty percent glazing, shall not be deemed to make them one building provided the corridor has no other use than as a passage from one building to the next.*

The edited definition extends the same size calculation provisions for structures connected by an open corridor, breezeway etc. to structures connected by enclosed corridors meeting the provisions of the definition. These provisions are meant to preserve the bulk and massing of the particular zoning districts wherein the size of buildings is limited in the UDO, while still allowing some latitude in design, especially for those uses where two separate structures would be appropriate for the given site, but because of the nature of the intended end users, it is undesirable to allow them to be exposed to the elements in making necessary trips from one structure to the other.

Planning and Development staff recommend approval of the amendment as outlined herein.

At their meeting of July 1, 1998, the Planning and Zoning Commission voted unanimously to recommend this amendment to the Asheville City Council.

Upon inquiry from Vice-Mayor Hay, Mr. Black explained how the ordinance would be enforced.

Mayor Sitnick closed the public hearing at 5:15 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read..

Councilwoman Field moved for the adoption of Ordinance No. 2502. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 124

At 5:15 p.m., Mayor Sitnick announced that Council would take a short break in order to contact Councilman Tomes so he could participate by speaker phone on this issue. Unfortunately due to technical difficulties, Councilman Tomes could not be patched into the meeting.

B. PUBLIC HEARING RELATIVE TO REZONING 216 SHELBURNE ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY TO INSTITUTIONAL

Mayor Sitnick said that on July 27, 1998, the City Clerk received a letter from David R. Payne, attorney representing Trinity Baptist Church, which reads as follows: "Please be advised this is a formal request to continue this matter for two weeks. The church initially continued this matter as a result of a recommendation from the planning and zoning department."

Mr. Payne said that due to a matter that has required him to be out of state, he has not had an opportunity to discuss some issues he would like to with his client and also since there is a valid protest petition, he would like for all Council members to be present to hear his case.

Councilman Sellers moved to continue this public hearing, without further advertisement, until August 25, 1998. This motion was seconded by Councilman Cobb.

Ms. Ann Anderson, 147 Shelburne Road, said that the neighborhood could not afford an attorney and wondered if they needed one to settle this matter. She did not feel that this matter should be postponed since the neighborhood had only days within which to get a protest petition submitted. She said they have waited six months for this issue and would like Council to settle this matter today.

Mayor Sitnick said that the neighborhood does not need to hire an attorney and noted that the last time the matter was continued was to explore whether or not there could be a conditional use permit issued rather than a rezoning. That issue has now been settled and the only issue before Council is the rezoning.

Ms. Jessie Corpening, resident on Shelburne Road, urged City Council to hear this matter and vote today since the neighborhood has been waiting for six months.

Mayor Sitnick said that City Council is sensitive to the amount of time which has elapsed, but felt that they also need to honor the request of the attorney.

The motion made by Councilman Sellers and seconded by Councilman Cobb carried unanimously.

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 98-105 - RESOLUTION RELATIVE TO THE DISPOSTION OF CERTAIN CITY-OWNED REAL PROPERTY

Ms. Charlotte Caplan, Community Development Director, said that this is consideration of disposition of certain City-owned real properties acquired under redevelopment in light of current downtown market conditions.

City Council requested appraisals of the properties located at 5, 7 1/2, 9, & 11-13 Biltmore Avenue, the parking lot on the east side of South Lexington Avenue and the property at 135 Cherry Street following a report on the current status of the properties.

Appraisals have been obtained on the properties which reflect the following values:

Address	Market Value	Leased Fee Value
5 & 7 1/2 Biltmore Avenue	$340,000	$300,000
9, 11 & 13 Biltmore Avenue	$470,000	$380,000
E/S South Lexington Ave.	$65,000	No lease
Total Downtown Properties	**$875,000**	
135 Cherry Street	$105,000	No lease
Total All Properties	**$980,000**	

The Market Value represents the estimated unencumbered fee simple value. The Leased Fee Value represents the estimated value of the City's interest in the property subject to existing leases.

The highest and best uses of the properties are all commercial with the Biltmore Avenue properties best suited for retail, the South Lexington Avenue property best suited for parking and the Cherry Street property best suited for office.

The purpose of the appraisals was to assist in making the determination whether to sell the properties or to hold them the intent being to achieve the highest return to the City. The question of whether to offer the contiguous properties as one parcel also was put to the appraiser. It is the appraiser's opinion that no advantage would be obtained by combining the contiguous parcels. Each parcel is appraised and considered separately.

The Biltmore Avenue properties are located in a prime commercial area but, they are encumbered by below market leases. The effect of the leases on the value of the properties is reflected in the difference between the market value and the leased fee value. The leased fee value was determined by using the Discounted Cash Flow (DCF) or Present Value method. The DCF method calculates the present value of the cash flow plus the capitalized resale value realized by holding the properties for ten years as an investment less any refurbishment expenses. The DCF method takes into account the existing rents and assumes a discount rate of 13%. It also assumes an expenditure of $55,350. on 5 Biltmore Avenue and $21,970. on 9 Biltmore Avenue for refurbishment. The Biltmore Avenue properties are a good investment and therefore very marketable properties. However, since the current leases expire in the year 2000, that invites the question of whether to hold the properties for two years and then sell them. In such case if a value appreciation of 8% annually, a discount rate of 13% and a capitalization rate of 11.5% is assumed the present value of the future sale price plus the discounted cash flow for 5 - 7 1/2 Biltmore Avenue for a holding period of two years would be $347,616 or a 16% increase over the current lease fee value of $300,000. For 9 - 13 Biltmore Avenue, the present value of the future sale price plus the discounted cash flow would be $443,627 or a 17% increase over the current lease fee value of $380,000. Staff recommends holding the Biltmore Avenue properties until the current leases expire and then offering them for sale at that time. In the interim rental rates for those units not under lease should be increased to market rate incrementally over the two year period.

The parking lot on South Lexington Avenue is a metered lot and is currently being managed by Parking Services. Since the appraisal indicates that parking is the highest and best use for the property, staff recommends the lot be retained for parking.

The Cherry Street property is being used by Neighborhood Housing Services. It has been a part of the Head of Montford Redevelopment Project strategy to cooperate with NHS in the improvement of the Montford community. Provision of office space to NHS at affordable rates has been in the furtherance of a public purpose. With close-out of the Head of Montford Redevelopment Project in sight, staff recommends offering 135 Cherry Street for sale. The sale will be pursuant to provisions of the General Statutes.

Community Development staff recommends that: (1) 5 - 7 1/2 Biltmore Avenue (PIN 9649.18-40-2028) and 9 - 13 Biltmore Avenue (PIN 9649.18-40-1091) be held for 2 years before being offered for sale; (2) the parking lot on the east side of South Lexington Avenue (PIN 9649.18-40-1018) be retained for public use; and (3) 135 Cherry Street (PIN 9649.17-21-0243) be offered for sale.

Upon inquiry of Councilman Cloninger, Ms. Caplan said that it is the staff's responsibility to work with the present tenants to increase the rents incrementally over the two year period. Ms. Caplan said that staff is aware of Habitat's concern in that their rent has been low for the past eight years and now that their lease has expired, naturally they are concerned about whether their business can sustain a higher rate. She said that staff will be negotiating that rent with them and the rent will not suddenly increase to the maximum market rent. The state of the building will be taken into consideration and it is not in staff's interest to dispossess them and try to find another tenant for just two years.

When Ms. Caplan said that if an agreement on the rents could not be reached, staff would be prepared to come back to Council. Councilwoman Field felt that it would be a difficult precedent to set in that everyone who doesn't agree with negotiations of staff would come to City Council. Council has have never looked at rental properties, however, they have given some policy decisions.

Councilman Cloninger responded that the City is looking at the possibility of selling the property in two years and we are talking about a non-profit organization.

Vice-Mayor Hay asked that during the course of negotiations regarding the rent with Habitat, in particular, that staff report back to the Housing & Community Development Committee.

After a brief discussion, it was the consensus of Council that at the end of the two year period, City Council would consider selling the Biltmore Avenue properties. As a result, the resolution would be amended to read: (1) 5 - 7 1/2 Biltmore Avenue (PIN 9649.18-40-2028) and 9 - 13 Biltmore Avenue (PIN 9649.18-40-1091) not be offered for sale for a period of two years; (2) the parking lot on the east side of South Lexington Avenue (PIN 9649.18-40-1018) be retained for public use; and (3) 135 Cherry Street (PIN 9649.17-21-0243) be offered for sale.

Vice-Mayor noted that the proceeds from the sale of 135 Cherry Street will go back to program income for the Community Development Block Grant program.

When Mayor Sitnick asked if Neighborhood Housing Services has expressed an interest in purchasing 135 Cherry Street, Ms. Caplan said that she believed they are looking at that possibility.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-105, as amended. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 458

B. RESOLUTION NO. 98-106 - RESOLUTION APPROVING ORDER ON CONDITIONAL USE PERMIT

City Attorney Oast said that is consideration of a resolution approving an Order containing Findings and Conclusions relative to the conditional use permit application for the proposed duplex on London Road in Shiloh. The proposed Order is based on information presented at the public hearing in this matter held on June 23 and continued to July 14, and should be self-explanatory.

He said the basis for the denial is that the proposed conditional use would tend to injure adjacent or abutting property values and would also not be in keeping with the character of the neighborhood as to appearance or quality of construction. He said those seemed to be the two factors that Council centered most on and those are the two he has indicated as the basis for denial. He felt that all the other criteria for a conditional use permit had been satisfied, but it only takes one reason to deny the conditional use permit.

In order to give effect to Council's vote to deny the permit, it will be necessary to make determinations relative to the conditional use standards. The Order is a proposal only, and can be modified to suit Council's particular desires. Once the findings and conclusions are finalized, adoption of the resolution is recommended.

City Attorney Oast said that a copy of the resolution and order was furnished to neighborhood representatives.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-106. This motion was seconded by Councilman Cobb and carried on a 4-2 vote, with Councilmen Cloninger and Sellers voting no.

RESOLUTION BOOK NO. 24 - PAGE 459

C. SECOND READING OF ORDINANCE NO. 2500 - AN ORDINANCE GRANTING A FRANCHISE TO BRENMOR CABLE PARTNERS, L.P. (D/B/A INTERMEDIA)

RESOLUTION NO. 98-107 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SETTLEMENT AGREEMENT WITH BRENMOR CABLE PARTNERS, L.P. (d/b/a INTERMEDIA) AND TCI COMMUNICATIONS INC., REGARDING FRANCHISE FEES

Mayor Sitnick said that the public hearing on this matter was held on June 23, 1998, and the first reading was held on July 14, 1998.

Ms. Patsy Meldrum, Assistant City Attorney, said that on July 14, 1998, the City Council adopted on first reading the ordinance granting a cable television franchise to InterMedia. The City Council has previously been furnished with a copy of the ordinance with a drafting date of 6/2/98. The adoption on first reading included new language for Section 2 of the ordinance and a new Section 12.E.

The new Section 2 preserved the right the City has with respect to the possible non-payment or underpayment of franchise fees or franchise taxes under the 1967 cable television franchise. The new Section 12.E. included the language regarding Internet access to schools and public libraries.

The City Manager and the City Attorney's Office recommend consideration of the second reading of the ordinance granting the franchise to InterMedia.

At this time, 6:07 p.m., Councilman Tomes participated in the meeting via speaker phone.

Councilwoman Field said that she and Vice-Mayor Hay have met with the Attorney Joe Van Eaton (attorney brought in by Citizens of Media Literacy) and Paul Congo. Mr. Van Eaton said that he felt like basically the City had a good franchise agreement. Several questions arose which she has researched as follows:

(1) What is the impact of AT&T's takeover of TCI and will the City have the opportunity to approve the transfer and what are the implications? Answer: In talking to staff, the relationship with AT&T to TCI is so many steps back from our contract with Brenmor that more than likely we will not have the opportunity to approve the AT&T's takeover of TCI.

(2) The 1967 franchise requires free drops plus inside wiring for City Hall, Police and Fire Departments and schools. Was inside wiring ever installed, if not, the operator could be held in non-compliance. Answer: Our consultants, Rice, Williams, did a compliance survey, and found that they were in compliance with everything except the franchise fee.

(3) Internet access for schools and libraries. InterMedia could provide Internet access in some neighborhoods but not others. Amendment to franchise agreement obligates them to provide free Internet access only to those schools and libraries in sectors where the Internet is activated. Answer: In talking to staff, in the regulatory agreement in Section 34, it does not allow them to discriminate and only provide a service in one neighborhood and not the other. If we requested them to provide the service, they must provide it within the City limits equally.

(4) Proposed franchise does not specify a PEG access origination site or InterMedia's obligation to link to a PEG access origination site established by the City. This means that PEG access could only originate from InterMedia's premises. Answer: The origination sites are listed in Exhibit "A" and it does say that these origination sites and specifically that a PEG origination site will be provided for. There was some concern that it did not say "provide and activate" and I have checked with InterMedia and they are willing to add the words "and activate" so that all of the origination sites will be provided and activated.

(5) Only four fibers for I-net. Most I-nets are being built with 12 fibers, thereby enabling three pathways for voice, video and data - each requiring four fibers - two incoming and two outgoing. This allows simultaneous usage of I-net at maximum speeds for voice, video and data. If voice, video and data must share pathways, the performance is degraded. Answer: Councilwoman Field read what Rice, Williams has said: "I-net designs vary across the country with most franchising authorities not receiving I-nets in renewals. The designs vary based on local needs, topography of the city and cable plants and costs. Some I-nets provided by cable companies are designed with a backbone of 6-12 fibers. On these designs, all users share the same 6-12 fibers. The I-net in Asheville has a much more fiber-rich architecture with 4 fibers designed from the City Hall to each location. The backbone fibers varies by location but starts with 82 fibers and in many locations has 32 or more. Of the 21 sites, all sites are served by a backbone of at least 12 fibers, except for two sites with a backbone of 8 and two sites with a backbone of 6. If the sites on the distribution part of the I-net link from the backbone fiber to telephone junction box in the building should require access to more than four fibers, additional fibers can be connected to the larger backbone. This type of design is used in new I-nets and offers substantial capacity. The overall number of fibers in the backbone and distribution parts of the I-net and the redundancy built in the design is affected by real future needs and how much a community is willing to pay. Voice, video and date are often placed on the same fiber and the performance is not degraded."

(6) There is no I-net design specified. Purely designed I-net could lack redundancy if the site goes down it could bring down the entire network. Answer: From the description, there is indeed a design for the I-net.

(7) I-net opt out clause. If the N.C. Public Utilities Commissions or the FCC ever requires cable companies to register as common carriers for I-net service, InterMedia can opt out of the I-net requirement. The City will be faced with options of shutting down the I-net or contracting with InterMedia to apply for the common carrier fee. Answer: Assistant City Attorney

396

Patsy Meldrum explained that in Section 15B there is language that if the City's use of the institutional network results in any unreasonable interference with the cable system or requires receipt of additional licenses or authorizations from any entity or governmental agency, including, without limitation, public service commission approval, then what happens is the cable company gives the City written notice. They give us notice and then the City has the opportunity to seek that license or that authorization. The City is the one with the option, not the cable company. If the City fails to do it, then the cable company can still do it themselves if they want. She also checked to see what the experience has been with utilities commissions in states requiring this. Rice, Williams informed us that there is a number of institutional networks that have been operating in North Carolina for a number of years and that so far the N.C. Utilities Commission has made no move to have requirements like this for institutional networks. Rice, Williams also serves other governmental authorities in a number of states and they are not aware of any other utility commission in the United States which has required this. If indeed a license if required in the future, the City is the one with the option, not the cable company. Councilwoman Field said that in order to clarify that, the cable company is willing to add language that they would make reasonable efforts to assist the City with securing the licenses or authorizations required.

(8) Cable companies will try to get away with $5 automatic late fees, but a case was just lost against the City of Baltimore on this issue. Their $5 late fee violates the state usury law. Answer: The cable company has a set way of dealing with late fees. Councilwoman Field's concern was that since the cable company bills in advance, at the end of 30 days you are not really late. The cable company has a policy (which they are willing to give us a copy of) that they don't even begin to issue the late fees until 45 days after the bill is late and then the first thing is they call you to tell you it's late. If you don't respond to that, then they send you a letter telling you are late. If you don't respond to that, they send a truck around and they put a door hanger on your door stating that they are about to cut off your cable. It takes about 90 days before they actually get to a point where they actually cut off your cable. She personally felt that if it costs $10 to write a business letter, she did not feel that $5 on an automatic late fee is that significant. Assistant City Attorney Meldrum said that she spoke with an attorney in the Consumer Protection Division of the N.C. Attorney General's Office who is of the same opinion that the state usury laws in North Carolina are limited to loans or extensions of credit and would not apply to cable bills. There is some language in there relating to the utilities commission and what the interest rate telephone companies can charge to customers when they refund payment, but not for cable companies and what their maximum rate is.

(9) There are other cities in the country that have TCI and InterMedia who have had some safety violations. Answer: Rice, Williams and their engineers did a full inspection of their physical plant and they found a few minor violations (some drop sites were built many years ago and the Electrical Code has changed). As a result of that, the City requested and the cable company has agreed to add language that upon completion of the rebuild the cable company will furnish the City with a report on the audit of the drop sites.

Mayor Sitnick said that with regard to the refund request requirement and the fact that subscribers pay in advance for the service, if you for some reason don't call for a refund, then in effect, the cable company is being paid for a service that has not been provided.

Councilwoman Field said that if she agreed with the franchise agreement then the issue for her became the franchise fee. Therefore, she received more information on the franchise fee and developed Exhibit "A" (unaudited), which is attached hereto, and reviewed it with the Council. The bottom lines are as follows:

(1) If we go back 7-1/2 years at 6% on everything (except home shopping, advertising and bad debts on basic only) there would be a fee owed to the City of $944,341.

397

(2) If we go back 7-1/2 years at 6% on everything (except home shopping, advertising, bad debts on basic and installation/other - because the Court may rule that the description in our franchise reads that the City will get fees paid on all recurring expenses) there would be a fee owed to the City of $650,303.

(3) If we go back 7-1/2 years at 5% on everything (except home shopping, advertising and bad debts on basic only) there would be a fee owed to the City of $382,647.

(4) If we go back 7-1/2 years at 5% on everything (except home shopping, advertising, bad debts on basic and installation/other - because the Court may rule that the description in our franchise reads that the City will get fees paid on all recurring expenses) there would be a fee owed to the City of $137,616.

(5) If we go back 3 years at 6% on everything (except home shopping, advertising and bad debts on basic only) there would be a fee owed to the City of $236,656.

(6) If we go back 3 years at 5% on everything (except home shopping, advertising and bad debts on basic only) there would be a fee owed to the City of $103,379.

Councilman Field said that Mr. Van Eaton recommended that the City not to go court but if we did, we might win in State Court, but we would lose in Federal Court. To go to court we would have to spend at least $100,000 on lawyer's fees. She therefore, came to the conclusion that the cable company has agreed to pay $175,000 and the savings of $100,000 to go to court, plus the fact that it will take approximately four years to go through the court system, she wasn't sure what changes the City would have to get 6%. The federal law says that you cannot get more than up to 5% of their total revenues.

Upon inquiry of Councilman Tomes relative to the AT&T takeover, Ms. Meldrum said that the City does have in their regulatory ordinance some provisions about approval of transfers and what it depends upon is whether or not the ownership or a certain percentage of the control is affected. But, likely the type of merger that has been discussed, if it occurs, because AT&T has attempted to merge with other cable companies before and is has not happened, then the information that we have is that it is so far removed from the ownership or control of our own cable system that it would not trigger our transfer approval requirements. Based on the information we have, that type of merger of those two systems would not trigger our transfer approval clause.

Ms. Meldrum explained in detail the design of the institutional network.

At this time, 6:40 p.m., Councilwoman Field moved to excuse Councilman Tomes. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick noted that it was clear that the cable company was out of compliance with their fee payments and noted that the City did not charge them a late penalty fee.

Because Councilwoman Field feels that the franchise agreement is a good agreement and with the additional information she has received and reviewed at length, she moved to add the consideration of authorizing the City Manager to execute a settlement agreement with Brenmor Cable Partners, L.P. (d/b/a InterMedia) and TCI Communications Inc. regarding franchise fees to the agenda. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilwoman Field said that she talked with representatives of InterMedia and they are unwilling to raise the settlement agreement more than their offer of $175,000. The cable company thinks they can win as does Mr. Van Eaton.

Mayor Sitnick then read the following letter dated July 23, 1998, from Adelaide Worth Daniels Foundation: "I am writing to indicate my willingness to fund a technical assessment of

398

existing infrastructure and current and future community networking needs, so that the City Council, the City Manager, and the City's legal staff can have all the information they need to assure that the contract they negotiate for cable television service is the best one possible for our community. Through my efforts with the Community Resource Network, I am working on a major project that I hope will greatly improve services to children and families, and maximize the effectiveness of the many agencies and organizations that serve them. A key component of our effort is improving people's access to information. As you likely know, quite a bit of public and private investment is going into building a strong communications network across western North Carolina. The Institutional Network and Public, Educational & Governmental cable television access channels can complement the many initiatives under way and be key elements in helping us achieve our goals. Recent consultations with attorney Joseph van Eaton and public access executive Paul Congo have shown that there are many nuances to the relationship between a cable television provider and the community it serves. It would be a shame to have our community prematurely locked into a long-term agreement that could prevent us from reaching our full potential. I think our community would be well served if City Council delayed acting on the contract currently before them, and give us an opportunity to have an independent expert conduct an in-depth evaluation. We need clarify on numerous matters - our existing facilities and infrastructure, our needs for additional enhancements, the method by which the public is given access, and many others. Through the Community Resource Network I am prepared to contract with and pay for the appropriate expert to conduct an assessment to help us achieve this clarity. I realize that time is of the essence. I believe we can accomplish such an evaluation within 90 days. Please consult with the other City Council members and urge them to delay their action so that we can get all of the information we need." The letter was signed by Adelaide. She said that the Adelaide Worth Daniels Foundation is willing to pledge up to $25,000 to hire such a consultant to evaluate all of the questions and help us continue our evaluation.

Vice-Mayor Hay said that he voted against the franchise fee settlement on July 14, 1998, not because he thought the settlement was a bad one in light of all the different considerations, necessarily, but because he thought that the community believes that the City is giving the money away and that the City has not showed the community that this settlement is a good idea. He still felt that way. He said that our community advisors, including Joe Van Eaton, said that the franchise renewal is our major negotiating tool for increasing the amount of money the cable company is willing to pay in the franchise fee settlement. However, the message sent to the cable company today was that the franchise renewal issue is in jeopardy if they do not increase the franchise fee settlement proposal. The result was that the cable company did not offer any more.

Councilwoman Field also reviewed with Council Exhibit "B" attached hereto, which is a bare bones budget for public access. She tried to look at some possibilities of how we can get public access started with the money that we had in the present franchise agreement. TCI has committed to $340,000 over three years for equipment and maintenance and we can either take that in money or in-kind. She said that the cable company would be willing to spread the $400,000 over 9 years (instead of 8) which comes to about $45,000 a year. That $45,000 a year could be committed to public access and the public access community could raise the difference in money. She felt it would take at least a year to develop the public access portion with the public access community and the City. She was concerned about being put in a position where the City of Asheville pays for the entire infrastructure for public access and the I-net for the whole community and then a whole group of people take it over and use it. If the hospitals, schools or universities want to use our I-net then they need to bring some money to the table. Right now we have an I-net that will work for the City of Asheville.

399

Mayor Sitnick agreed that we need to learn by our mistakes in the past regarding water and sewer and the fact that the Asheville taxpayer has indeed given a lot away and has subsidized the use of water and sewer by other entities. She would assume that whatever we do with the I-net there would be a fee for service and hook-up.

Councilman Cobb said that even though he made the motion to adopt the franchise on the first reading, he was agreeable to postponing taking action on it for 90 days to give the consultant hired by the Adelaide Worth Daniels Foundation time to review the language, making sure the franchise is clear, precise and understandable. He felt that (1) Asheville should have a state of the art system now with a 750 MHz system; (2) the cable company should pay the City 6% of all the money they bring in; (3) the cable company should not be charging a $5 late penalty fee; (4) the pass through to subscribers should be lower; and (5) there should be senior citizen discounts.

Mayor Sitnick said that with the hundreds of letters, phone calls and e-mails she has received on this issue, not one has been in support of this cable contract or in settling for the fee settlement offered to the City. She fully supported the Foundation's offer to explore whether or not what we are doing now will serve us in the next millennium, given the technological advances that are occurring. She would not be intimidated by the cable company telling us they will not negotiate further. Personally she had faith in Ms. Meldrum being able to re-negotiate for the City and not having to spend the money on an outside attorney. Her concerns were: (1) that the cable company was willing to pay more than Congress required of them because they didn't want the City to look into whether or not their assessment of gross revenues was accurate; (2) PEG channels may not be defined enough and wasn't sure if there is enough money up-front for PEG channels; (3) working with a company that says they will give it something free and then charge you; (4) there should be no $5 late fee especially because it hits the low income people; (5) there is no consideration for senior citizen rates: (6) not satisfied with the refund by request provision; (7) she doesn't like being billed in advance; (8) customers should have basic and expanded without paying for additional equipment; (9) problems with a company that causes the City to investigate and audit the fee settlement issues which cost the citizens and the rate payers money; (10) 12-year contract is too long given the way the telecommunication industry and the laws are changing too quickly; (11) the City is paying for the I-net and another company owns it; and (12) unhappy with the fee settlement; . She would like to see this renewal postponed for at least a minimum of 90 days and suggested Council postponed it January 1999. This would allow the consultant to work with our staff and, if nothing else, reassure us that this is the best we can do.

Councilman Cloninger felt strongly that City Council should approve both the franchise agreement and the fee settlement agreement for the reasons stated two weeks ago. He said that this agreement has been analyzed many, many different ways and he has not heard how this latest evaluation will be any different from what has already taken place. To postpone another 90 days will cost the City money because of the new definition of gross revenues.

Upon inquiry of Councilman Cloninger, Ms. Meldrum said that the City is losing about $30-40,000 revenue per year based on the change in definition.

Vice-Mayor Hay said that because the settlement agreement was voted down, he would support engaging outside counsel and filing suit.

Councilwoman Field felt that the cable company must be extremely confident of their position and the City may end up with very little or no money at all. She felt that if the City takes the $175,000, part of that can go to the PEG channels to get started. If given a chance, she would change her vote to approve the settlement agreement.

400

Vice-Mayor Hay said that he talked to the expert the Foundation has offered to pay for and felt that the Foundation's offer is very generous and their expert is probably very capable, however, he didn't hear back from her any ideas that we would be in any different place in 90 days than we are right now. He would not be interested in postponing this action for that reason.

Councilwoman Field had the same experience as Vice-Mayor Hay did when she spoke with their expert.

Vice-Mayor Hay said that there is a role to be played in terms of engaging what the City is going to do with our cable franchise and the rest of the community.

Mayor Sitnick understood that the offer was centered around the capabilities of I-net, that structure and the community resource network and how best we could plug into that.

Councilwoman Field moved to approve the second reading of Ordinance No. 2500, with the following amendments: (1) Amend Section 6 to read "... and a new term of seven (7) years and eleven (11) months, for a total of twelve (12) years, commencing on August 1, 1998, and ending on July 31, 2010,..."; (2) Amend Section 14 (c) to read "... in a minimum amount of $45,000 per year or $.20 per Subscriber per month, whichever is greater, for years 4 through 12 of this Franchise...."; (3) Amend Section 14 (f) to read "Upon completion of the rebuild, the Franchisee agrees to provide and activate public, educational and/or governmental access origination points..."; and (4) Add a new sentence to Section 15 (b) prior to the sentence beginning "In the event..." to read "...The Franchisee shall use reasonable efforts to assist the City with securing the licenses or authorizations required." This motion was seconded by Councilman Cloninger.

Mayor Sitnick said that the 1967 agreement was voted on by the people and according to what she has been able to determine, the people would not be voting on this.

City Attorney Oast said that he has copies of the resolution and settlement agreement for Council's consideration.

The motion made by Councilwoman Field to adopt Ordinance No. 2500 with the amendments and seconded by Councilman Cloninger carried on a 4-2 vote with Mayor Sitnick and Councilman Cobb voting "no".

Councilwoman Field moved to adopt Resolution No. 97-107, authorize the City Manager to execute a settlement agreement in the amount of $175,000 with Brenmor Cable Partners, L.P. (d/b/a InterMedia) and TCI Communications Inc. regarding franchise fees. This motion was seconded by Councilman Cloninger.

Councilwoman Field said that this $175,000 for the settlement agreement would not be passed through to the subscribers.

Upon inquiry of Councilwoman Field about whether can the franchise fee be passed through the customers, Ms. Meldrum responded that it can. However, the $175,000 settlement amount will not be passed through to the subscribers if the matter is not litigated. If, however, the matter does goes to Court, it is her understanding that they would pass it through and they would use the FCC Order as a basis for that. Ms. Meldrum further stated that she reviewed the FCC Order and the City would argue that it should be distinguished on the facts But, FCC Orders have tended to favor the cable companies in those type of situations. If we win in Federal Court, they would probably try to get authority through the FCC to do that pass through.

The FCC would probably say that because they had not collected the fee, then why should they not be allowed to pass through the fee once they had to pay it. There is some language in there which would tend to support the cable company's view that they could pass it through.

Vice-Mayor Hay said that based on Ms. Meldrum's explaining the FCC Order, he would be in favor of changing his vote on the franchise fee settlement agreement.

The motion made by Councilwoman Field and seconded by Councilman Cloninger to authorize the City Manager to execute the settlement agreement was passed on a 4-2 vote, with Mayor Sitnick and Councilman Cobb voting "no".

ORDINANCE BOOK NO. 17 - PAGE 88

RESOLUTION BOOK NO. 24 - PAGE 464

At 7:48 p.m., Mayor Sitnick announced a short break.

V. NEW BUSINESS:

A. RESOLUTION NO. 98-108 - RESOLUTION ACCEPTING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO ABANDON A SMALL SECTION OF WATER LINE ACROSS THE PROPERTY OF THE SWANNANOA BAPTIST CHURCH

Mr. Tom Frederick, Water Resources Director, said that the Swannanoa Baptist Church has requested that the Water Authority abandon approximately a 325-foot section of existing 6-inch waterline on the Church's property in the former South Avenue in Swannanoa in order to accommodate the planned expansion of their building.

In 1990 the Authority installed a 6-inch waterline in South Avenue, in NCDOT right-of-way known as South Avenue, adjacent to the Swannanoa Baptist Church. In 1993 the Church petitioned NCDOT to abandon the section of South Avenue that runs through their property so that they could expand their building into the street right-of-way. NCDOT granted this request but failed to contact the City regarding the continued maintenance of the waterline. The planned Church expansion is over the existing waterline and the Church asked the Authority to abandon the 6-inch water through their property. Water Resources staff determined that the waterline could be abandoned without adversely affecting other customers and with marginal affect on fire flow in the area.

The Water Resources staff recommended to the Water Authority that the City of Asheville waterline on Church property be abandoned subject to the Church compensating the City for the depreciated value of the line and the Water Resources Department's cost of plugging the line as required to abandon it. This total cost was determined to be $5,465. The basis of the staff recommendation was to avoid setting a precedent of abandoning assets without compensation for its current asset value, and to allow reinvestment in the water system where there are needs. The Authority voted in favor of abandoning the waterline if the Church paid only the cost of abandonment, or $2,048, subject to the approval of City Council. The City of Asheville is the owner of the waterline.

Water Resources staff recommended to the Regional Water Authority and recommends to City Council adoption of a resolution to abandon an approximate 325-foot section of existing 6-inch waterline on the Swannanoa Baptist Church property, subject to the Church paying

402

$5,465. The Regional Water Authority recommended adoption of the resolution, however, they recommended the Church pay only $2,048.

There was some discussion on the amount the Church should pay for the section being abandoned.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-108, subject to the Church paying $5,465. This motion was seconded by Councilman Cobb and carried on a 5-1 vote, with Vice-Mayor Hay voting "no".

RESOLUTION BOOK NO. 24 - PAGE 465

B. RESOLUTION NO. 98-109 - RESOLUTION APPOINTING A MEMBER TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Hay said that Jim Torpey has resigned as a member of the Planning & Zoning Commission, thus leaving an unexpired term until August 14, 1999. City Council went through the interview process on July 21, 1998.

There was some discussion about applicants who currently serving on one board but would like to serve on a different one. It was determined that Council proceed as they have in the past and advise the applicant that if they are chosen to serve on the other board, that they would have to resign their position on the current board.

Mayor Sitnick nominated Susan Andrew.

Councilwoman Field nominated Lionel Williams.

Councilman Sellers nominated Jerry Bailey.

Susan Andrew received two votes, Lionel Williams received three votes, and Jerry Bailey received one vote. Another vote was taken with the results being Susan Andrew receiving two votes and Lionel Williams receiving four votes. The resolution will appoint Lionel Williams to serve the unexpired term of Mr. Torpey, term to expire August 14, 1999, or until his successors has been appointed.

RESOLUTION BOOK NO. 23 - PAGE 466

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 14, 1998, AND THE WORKSESSION HELD ON JULY 21, 1998

Councilwoman Field moved for the adoption of the minutes of the regular meeting held on July 14, 1998, and the worksession held on July 21, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. I-26 CORRIDOR; WNC AIR POLLUTION CONTROL BOARD; HEALTH ADVENTURE; AFFORDABLE HOUSING

Mayor Sitnick said that she has talked with Gordon Myers about the N.C. Dept. of Transportation making a presentation to City Council. Mr. Myers said that in about 2-3 weeks, they would be prepared to make that presentation.

Mayor Sitnick entered the following letter dated July 23, 1998, to Doug Clark, Chairman of the WNC Regional Air Pollution Control Board from her into the minutes: "This is to inform you of our great disappointment and displeasure with the way the Board's election of the new Chairperson and Vice Chair was handled by former Chair Tom Rhodarmer. We want to take this opportunity to express the dismay that the Asheville City Council members and I had when you did not see fit to allow an Asheville appointee to assume the Chairmanship, as was agreed to a year ago by the Board. We find it unprofessional and immature to deny the right of Asheville to assume the Chairmanship because some members of the Board have a personal gripe against a fellow member. This is a very disturbing turn of events and the City of Asheville and its citizens have been done a great disservice. In addition, conducting an election by secret ballot only serves to further erode the Boards credibility and effectiveness. By way of this letter, the Mayor and members of City Council hereby request that you reconvene and revote, and allow the City of Asheville its due turn in the role of Chair. We feel both of our appointees are capable and competent to serve in that role."

At the request of Mayor Sitnick, it was the consensus of City Council that the she write a letter to our legislators on behalf of City Council to support funding for the Health Adventure.

Councilwoman Field asked that the City find out more about the Ford Foundation, along with Fannie Mae and the Self-Help Credit Union, having $200 Million they are putting together for affordable housing home ownership.

C. COMMENTS BY KEITH THOMPSON

Mr. Keith Thompson thanked Council and staff for their efforts in making sure that the decision for the Board of Adjustment was a clear one regarding the variance request on Merrimon Avenue. He said they had a petition with slightly under 800 signatures supporting the Unified Development Ordinance's protection of the provisions under Community Business I particularly regarding no drive-throughs in the CB I district and provisions that would limit adverse impact on safety on roads like Merrimon Avenue.

D. CLAIMS

The following claims were received by the City of Asheville during the week of July 10-16, 1998: Alice Peed (Streets), Ron Greene (Water), Rebecca P. Spencer (Water) and Rachel Miller (Water).

The following claims were received during the week of July 17-23, 1998: Linda Mitchell (Sanitation), Vicky M. Young (Police), John Young (Sanitation) and Julie Sibila (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

To be covered using City-Owned property, staff and resources.

Recuring Costs:	
Staff	$70,000
Supplies	10,000
Postage	1,000
Sub-Total	**$81,000**

To be covered by $45,000 per year from TCI and the rest from private fund raising and donations.

Tuesday - August 4, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Budget Amendment re: Controlled Substance Excise Tax

Summary: The consideration of a budget amendment, in the amount of $30,000, to appropriate Controlled Substance Excise Tax receipts to enhance law enforcement activities in Fiscal Year 1998/99.

The Asheville Police Department receives a share of the proceeds from the State Controlled Substance Excise Tax. To date, approximately $40,000 has been received. These funds cannot be used to fund Police Department general operations and must be appropriated to enhance law enforcement activities. The Police Department has identified specific uses for approximately $30,000 of these funds, at this time. One use will be the preparation of an A.P.D. Recruitment Video. This action will establish a special appropriation within the Police Department Administration budget in the amount of $30,000. Use of the funds will be monitored to ensure compliance with State requirements.

City staff recommends City Council adopt the budget amendment, in the amount of $30,000, to appropriate Controlled Substance Excise Tax receipts to enhance law enforcement activities in Fiscal year 1998/99.

Amendment to Capital Project Ordinance - 35 Fund

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 to provide funding for the Rocky Ridge Project.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

The Rocky Ridge Road Project is an upgrade from an 8 inch line to a 24 inch line. This upgrade was recommended in the 1995 Water Distribution Master Plan prepared by Camp, Dresser and McKee. Our contribution toward this upgrade is $10,000. This project will improve domestic water service and fire protection to multiple facilities in the area including the Holiday Inn Express.

This project has been previously approved by the Water Authority; and this is a request to provide the funding for the project. There are available funds in the Reservoir/Tunnel Repairs. This project is being postponed and will be funded as part of the FY 98/99 Water Distribution System Improvements.

Staff recommends adoption of the budget amendment amending Capital Project Ordinance 82-25 to reprogram funds in the amount of $10,000 from the Reservoir/Tunnel Repairs to the Rocky Ridge Project.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

IDENTIFICATION OF UDO ANNUAL REVIEW ISSUES

Mr. Gerald Green, Senior Planner, said that on July 21, 1998, he reviewed in detail the list of possible revisions for consideration as part of the annual Unified Development Ordinance ("UDO") review. The list of possible revisions reflects input from staff, Council members, and the public. Council may identify revisions which it wishes staff to incorporate into the UDO. This will require review and recommendation by the Planning and Zoning Commission and adoption by City Council. As part of the review and approval of any possible revisions to the UDO, both City Council and the Planning and Zoning Commission must hold public hearings.

He reviewed briefly the possible revisions to the UDO have been identified by various boards, commissions, members of the public, and/or staff. Staff recommends further review and consideration of the following identified revisions:

Revise Office District - Revise the current Office District standards to reduce the permitted building size (currently 4,000 square feet footprint and 8,000 sq ft gross floor area) and create a new "medium range" Office District II to bridge the gap between the revised Office District and the Office/Business District, which permits buildings up to 30,000 sq ft gross floor area.

Create a Mixed Use Planned Unit Development District - The UDO includes a Planned Unit Development (PUD) overlay district designed to permit and encourage flexibility in site design for developments. Density bonuses are provided as an incentive in the residential developments to encourage the provision of affordable housing and protection of sensitive areas. Up to 10% of the land area may be developed for community businesses or offices serving the development and immediately surrounding areas. Requests have been presented for the development of a Mixed Use Planned Unit Development District which would permit developments containing a range of uses from mixed density residential to office to commercial designed in a unified manner. Design flexibility would be a key component of this district, with incentives provided to encourage the attainment of community goals (walkability, provision for alternative modes of transportation, etc.).

Create an Open Space/Park Zoning District - Develop a zoning district designed to accommodate public parks and open spaces. The proposed zoning district will permit the development of parks and related public facilities and serve to protect these resources. The Open Space/Park District will be applied to publicly owned properties; privately owned properties will not be assigned this designation.

Landscape Ordinance Revisions - Minor revisions to the Landscape and Buffering Ordinance are proposed. The following revisions have been identified by the Tree and Greenway Commission: (1) Require all parking spaces within a parking lot to be located within 30' of a tree instead of 60' as required in the current ordinance; (2) Require that trees and shrubs be planted within 8' of a vehicular use area, instead of 20', to count as parking lot landscaping; (3) Establish a time limit within which parking lot landscaping intended to buffer the lot from the street must meet the required 3' height and within which berms and grade changes must be covered with vegetation; (4) Establish a requirement for enhanced buffers where development abuts the interstate; and (5) Review the requirements for maintaining existing trees during the development process.

410

The following minor revision has also been identified: Establish a requirement for enhanced buffers where development abuts the interstate.

One other request has been brought to the staff's attention - that we review the requirements for maintaining existing trees during the development process. Under the current ordinance, credits for new trees are given for existing trees, with the number of credits related to the size of the tree (the larger the tree, the more credits) as an incentive to preserve existing trees. Cutting of trees on private property cannot be restricted, other than in local historic districts, without special enabling legislation.

Standards for Churches - Citizens have submitted a request that churches be limited to one sanctuary building and one classroom building per parcel of property in residential districts.

Underground Utilities - The UDO requires that utilities in new subdivisions be placed underground, but does not address the location of utilities in other developments. Staff has received comments stating that utilities in all developments should be required to be placed underground. It is argued that underground utilities would not only be more appealing aesthetically, but would not be subject to damage due to wind, snow, or accident. The initial cost of installing utilities underground is higher than installing overhead lines.

Broaden Permitted Uses in Community Business II District - The Community Business district, designed to provide areas for businesses serving several residential neighborhoods, should be sensitive to a significant pedestrian population while providing for adequate and safe vehicular access. A wide range of office, business, and service uses are permitted in the district including service stations and motor vehicle repair. A request from Realtors asks that the addition of mini-storage facilities and automobile dealerships to the list of permitted uses in this district be examined.

Identify Additional Neighborhood Business Zones - The Neighborhood Business District provides areas which are accessible to pedestrians for low intensity businesses which meet the daily convenience and personal service needs of the residential neighborhoods in which they are located. A group of Realtors has asked that additional areas which are appropriate for neighborhood commercial opportunities be identified for the application of this zoning district.

Advertising on buses and taxis - The city's sign regulations do not currently address advertising on buses and taxis. The use of these vehicles for advertising purposes is becoming more prevalent. The request is to research ways in which standards may be imposed upon this type of advertising.

Extraterritorial jurisdiction research - The City of Asheville is authorized to exercise planning jurisdiction up to one mile outside the city limits without the approval of the County Commission. With the approval of the County Commission, this jurisdiction may extend up to three miles beyond the city limits. The request is to research the pros and cons of exercising extraterritorial jurisdiction, staff resources required to exercise this jurisdiction, and representation of this area on the Planning and Zoning Commission.

Investigation of design guidelines in areas not designated as local historic districts - Design guidelines are enforced in the city's 3 local historic districts and for local historic properties. Enabling legislation is not in place to regulate design in areas not designated as local historic districts or properties. Design is a key issue with many development projects.

The request is to evaluate the pros and cons of design guidelines and to research ways to implement design guidelines in other areas.

Make meetings/dialogue between developer and neighborhoods mandatory - Meetings with adjacent property owners and neighborhoods prior to the submittal of plans and applications for a development project are strongly recommended by the UDO. Some citizens have requested that these meetings be made mandatory.

Mr. Green then reviewed the additional items which were identified on July 21 by the Council of Independent Business Owners, the Board of Realtors and the Coalition of Asheville Neighborhoods.

Additionally, Mr. Green reviewed the following items that have been identified for consideration as possible revisions to the UDO since the initial discussion by Council of this issue on July 21.

Revisit the River District and draft changes to protect adjacent neighborhoods - The River District is mapped along the French Broad and the Swannanoa Rivers as they flow through the city. In an effort to promote economic development of this area, an almost unlimited range of uses are permitted in the River District. Three neighborhood associations have requested that the River District be revised to incorporate changes that will afford adjacent residential areas more protection.

Require construction of sidewalks and/or dedication of easements for all new developments - The UDO currently requires the construction of sidewalks for all new non-residential developments, for non-residential expansions and changes in use, for single family residential development of more than 20 homes or lots, and for multi-family residential developments of more than 10 units. In addition to these cases, sidewalks are also required if the development is within ½ mile of a pedestrian generating facility or connects to an existing sidewalk.

Remove restaurants from the list of permitted uses in the Office and the Office/ Business Districts - Small scale office uses (maximum 8,000 sq ft) are permitted in the Office District. The Office/Business District permits a range of medium scale office uses (maximum 30,000 sq ft) and some low intensity business uses. Restaurants are a permitted use, subject to special requirements, in both districts. The restrictions are that neither drive-through facilities nor outdoor speaker systems are permitted. Citizens have requested that restaurants be prohibited in each of these districts due to their hours of operation and the noise generated.

Require impact studies which address the impact proposed development will have on infrastructure (streets, water system, sewer system, schools, etc.) - The UDO currently requires the preparation of a traffic impact analysis for projects generating more than 100 trips per hour during the peak hour. All projects are reviewed to assure that water and sewer service are available, although no extensive review of the impact of the proposed development on the overall system is conducted. School systems are notified of proposed projects, but no impact analysis is conducted. The requested revision would require developers of projects above a certain threshold to identify the impact of the proposed development on these systems.

Develop an intermediate Community Business District - A Community Business I and a Community Business II district are included in the UDO. The Community Business I district permits buildings with a maximum footprint of 6,000 sq ft and a gross floor area of 12,000 sq ft; the Community Business II district permits buildings with a maximum gross floor area of

45,000 sq ft. There is a large gap between these two districts, with an apparent need for a intermediate Community Business district.

The process for proceeding with giving staff direction was then discussed.

Mayor Sitnick said that if the item making meetings/dialog between the developer and neighborhoods mandatory does not get on the final list, she would propose making meetings/dialog between the staff and the neighborhoods mandatory with meetings/dialog between the developer and neighborhoods strongly encouraged.

It was the consensus of Council to develop a complete list of the items City Council wanted staff to research for possible amendment to the UDO. A public input session would then be held at a formal meeting in September (after the list is printed in CityWorks) for comments and additional suggestions by the public. A vote could then be taken at that formal meeting on the items City Council wanted staff to research and begin the UDO amendment process.

It was the consensus of Council to advertise the following list:

- Revise Office District
- Create a Mixed Use Planned Unit Development District
- Create an Open Space/Park Zoning District
- Landscape Ordinance Revisions
- Standards for Churches
- Underground Utilities
- Broaden Permitted Uses in Community Business II District
- Identify Additional Neighborhood Business Zones
- Advertising on Buses and Taxis
- Revisit the River District and Draft Changes to Protect Adjacent Neighborhoods
- Require Construction of Sidewalks and/or Dedication of Easements for all new Developments
- Develop an Intermediate Community Business District

Mayor Sitnick asked that as a side item, staff present additional information on impact studies with pros and negatives.

Mayor Sitnick asked that a separate list be compiled of the items which did not receive consensus.

ZEALANDIA BRIDGE

Ms. Suzanne Molloy, Assistant Director of Public Works, reported that the Public Works Department and the Asheville-Buncombe Historic Resources Commission ("HRC") are working together on a scope of services with Vaughn & Melton Engineers ("V&M") in conjunction with soil and material engineers. They will prepare bid specifications and documents for the City to send out to the public for the short-term stabilization of the bridge. The previous report prepared by HRC and V&M mentioned some ideals for short-term stabilization, however, they would prefer to have a document signed and sealed by a professional engineer. The cost to do that is $4,400 which also includes them overseeing the work done out there once the bids come back in. Right now, the Public Works Department can cover the $4,400 in their budget and when the bids come back in for this work they may or may not need to come to Council for an allocation of funds. Again, the first step is to work with HRC Director Maggie O'Connor and Jody Kuhne, who is the technical engineer with the N.C. Dept. of Transportation, on the final scope of services. Hopefully V&M can start that work next Monday. The next step will be to send the scope of services out for bid and then back to City Council . The final step is to look at the bridge once it has been cleaned off and stabilized to see what needs to be done. At this time we cannot tell what it will cost to repair the bridge totally because it really does need to be cleaned off..

Mayor Sitnick reminded Council that the City does have a $5,000 pledge from the public.

Upon inquiry of Vice-Mayor Hay about how long it would take to stabilize the bridge, Ms. Molloy said that the scope of services will take about 2-3 weeks and depending on how they advertise, she imagined in the next 6-8 weeks they could be out there doing some work to temporary stabilize the bridge. Council will hear back in the fall what can be done about permanently repairing the bridge.

OUTSIDE AGENCY PROCESS BRIEFING

Ms. Cindy Miller, Finance Operations Manager, briefed City Council on the Outside Agency Grant process.

Below is a discussion of the current outside agency process and several staff concerns and recommendations.

Current Process

The Outside Agency Grant process for each fiscal year begins in the January prior to each fiscal year with the mailing of grant applications. Applications are mailed to each agency which requested funds for the current fiscal year and to any other agency requesting an application. The agencies have approximately four weeks to complete and submit the application to the Budget Office.

The Budget staff reviews each application and compiles the applications for the City Council Outside Agency Committee. The Committee first meets in March and receives a notebook of applications and also a preliminary estimate of the total amount of funding that might be available for outside agencies. In a series of three to four meetings, the Committee discusses each agency in-depth and determines which, if any, agencies from which the Committee would like to have a presentation. For the 1998/99 fiscal year, no agencies were requested to make a presentation to the Committee. The Committee determines its funding recommendations and presents such recommendations to the full City Council for inclusion in the annual budget ordinance.

After the budget has been adopted, City budget staff develop a contract between the City and each agency which includes sections on the Scope of Services to be provided, the payment arrangements and the reporting requirements. The contracts are reviewed by City legal staff and executed by the agency and the City Manager. Agencies are then paid according to the contract once reporting requirements are met. Typically, agencies submit quarterly reports and receive payment shortly thereafter.

Concerns

1. The City Council Fiscal Policy states in Item B. 8. that "It is the City's policy not to fund requests from outside organizations which provide social services or services which are County-wide in scope." At the present time, the City is funding agencies which provide County-wide services and services even beyond the borders of Buncombe County. Only one agency funded for 1998/99 operates entirely within the City of Asheville. Also, some might suggest that the City is funding agencies which provide social services. It is the opinion of staff that the Fiscal Policy statement be more specifically defined in the areas

of "social services" and "services which are County-wide in scope". Further, it is recommended that the policy statement be reviewed and revised as necessary to more accurately reflect City Council philosophy and provide more useful guidance to the Council.

2. Although agencies are required to complete an in-depth application, many agencies submit outcomes and goals which are not measurable or whose measures are not meaningful. It is staff's opinion that many agencies are not trained and/or staffed to develop and provide meaningful measures. Regardless, it is the recommendation of staff that the Council require meaningful measures of all agencies.

3. Agencies which are currently funded are funded in future years almost "automatically" without regard to the intended uses of City funds. The concern here is that the City's focus and interests may have changed and that the opportunity to influence the agency's direction is missed. For example, the City's funds for the Chamber of Commerce have been used to further tourism in the area for many years. The City might wish to have the Chamber re-direct the City portion of its funding to economic development and require measures in those areas. It is the recommendation of staff that the Council review the direction of agencies annually to ensure that the City's interests are being addressed.

4. Occasionally, an agency is funded by Council during the fiscal year. This agency then becomes an "incumbent" agency and receives funding as discussed in Item #3. Staff has a concern that the funding of an agency during the fiscal year encourages new agencies to circumvent the funding process, whereas the agency might not have been funded had it been required to compete for outside agency dollars.

5. As part of the normal payment process, each agency submits written reports quarterly. These reports are intended to address the agency's progress toward the Scope of Services outlined in the contract with the City. Currently, staff notes only that the reports are received. There is no process in place to review and compare the reports with the Scope of Services and to determine if satisfactory progress toward the Scope of Services is being made. It is staff's recommendation that a meaningful review process be developed and that each agency's progress be monitored during the fiscal year.

Staff recommends the City Council review its Outside Agency process and improve the process as the Council deems appropriate.

After discussion, it was the consensus of City Council to have the Outside Agency Committee review the concerns outlined and report back to City Council with suggested changes in the review process, if appropriate.

REPORTS FROM BOARDS & COMMISSIONS

Vice-Mayor Hay reported that the City Council Boards & Commissions Committee has made recommendations for the River District Design Review Committee, which recommendations will be presented at Council's formal meeting on August 25, 1998.

Vice-Mayor Hay reported that the Minority Business Commission has requested that City Council consider confirming new members to the Commission at the City Council meeting on August 11, 1998.

RETREAT

City Manager Jim Westbrook said that the mid-year City Council retreat will be held at the Kellogg Center, a UNC-A facility located outside of Hendersonville, N.C. from 1-6:00 p.m. As instructed, the agenda will consist of a review by staff of the ten goals adopted by Council at their annual council/staff retreat in January of 1998. Additionally, staff will provide summaries of the agreements with the Regional Water Authority, Metropolitan Sewerage District, the Asheville Transit Authority and the Asheville Airport Authority.

BOARD/COMMISSION VACANCIES

City Council instructed City Clerk Burleson to prepare the proper paperwork to reappoint Margie Liverman and Francis Black to the Americans with Disabilities Act Compliance Committee.

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Asheville Downtown Commission: Brenda Sconyers, Steven Harrington, Forrest MacGregor, Monroe Moore, Alan Levy and Laura Anderson:

It was the consensus of City Council to appoint Councilman Cloninger to serve a three year term on the Asheville Film Board. Mayor Sitnick said that anyone not appointed will remain in the resource list which will be provided to AdvantageWest because the skills and technical expertise of all candidates are enormous. After Mayor Sitnick outlined the skills she would prefer to see in candidates, City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Film Board: Gayle Wurthner, Lee Nesbitt, Thomas L. Tucker, Steven Heller, Ashely Siegel, Peter Loewer, Sarah Blankenship, Lee Huebner, Kathleen Bobak, Eric Scheffer, Barbara Pasternack, John Cram, David Quinn, William Olsen, Pamela Turner, Bill Norwood, Jerry Birdwell, Rob Dame, Katherine Talbot and Curtis Gaston. Mayor Sitnick said that after six months, she hoped City Council would be willing to possibly expand the Board.

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Asheville-Buncombe Historic Resources Commission: John Best, Karen Tessier, Allen Roderick, and Chris Slusher.

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Metropolitan Sewerage District Board: Brady Blackburn, Luke Carpenter, Dee Williams and Ben Slosman.

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Tourism Development Authority: Barbara McEwan and Chris Moutos.

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Tree/Greenway Commission: Gerry Hardesty, Leonard Pardue and G. Leigh Wilkerson.

It was the consensus of City Council to appoint either Councilman Sellers or Councilman Tomes (both have expressed an interest) to serve on the Regional Water Authority:

City Council instructed City Clerk Burleson to arrange for interviews for the following candidates for vacancies on the Citizens/Police Advisory Committee: Jimmy Hungerford, Josefine Matty.

ANNOUNCEMENT

Mayor Sitnick noted that County Commissioner David Gantt has invited City Council to help cook hamburgers and hot dogs at the Governor's Western Residence on Saturday, August 8, 1998, at 10:30 p.m.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:45 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 11, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING AUGUST 21-23, 1998, AS "GOOMBAY FESTIVAL DAYS" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming August 21-23, 1998, as "Goombay Festival Days" in the City of Asheville. She presented the proclamation to Mr. Gene Ellison and Ms. Oralene Simmons who thanked Council for their support and briefed them on some activities taking place during those days.

II. CONSENT:

At the request of Councilman Cobb, Item C. was pulled from the Consent Agenda for discussion.

A. ORDINANCE NO. 2503 - BUDGET AMENDMENT TO APPROPRIATE CONTROLLED SUBSTANCE EXCISE TAX RECEIPTS TO ENHANCE LAW ENFORCEMENT ACTIVITIES

Summary: The consideration of a budget amendment, in the amount of $30,000, to appropriate Controlled Substance Excise Tax receipts to enhance law enforcement activities in Fiscal Year 1998/99.

The Asheville Police Department receives a share of the proceeds from the State Controlled Substance Excise Tax. To date, approximately $40,000 has been received. These funds cannot be used to fund Police Department general operations and must be appropriated to enhance law enforcement activities. The Police Department has identified specific uses for approximately $30,000 of these funds, at this time. One use will be the preparation of an A.P.D. Recruitment Video. This action will establish a special appropriation within the Police Department Administration budget in the amount of $30,000. Use of the funds will be monitored to ensure compliance with State requirements.

City staff recommends City Council adopt the budget amendment, in the amount of $30,000, to appropriate Controlled Substance Excise Tax receipts to enhance law enforcement activities in Fiscal year 1998/99.

ORDINANCE BOOK NO. 17 - PAGE 125

B. ORDINANCE NO. 2504 - BUDGET AMENDMENT TO AMEND MAJOR CAPITAL PROJECT ORDINANCE 82-25 (35 FUND) TO PROVIDE FUNDING FOR THE ROCKY RIDGE PROJECT

Summary: The consideration of a budget amendment to amend Capital Project Ordinance 82-25 to provide funding for the Rocky Ridge Project.

By Resolution 82-25 dated October 5, 1982, the Authority authorized and budgeted for various capital projects to be funded by Investment Earnings, Contributions From Other Funds, and Appropriated Fund Balance.

The Rocky Ridge Road Project is an upgrade from an 8 inch line to a 24 inch line. This upgrade was recommended in the 1995 Water Distribution Master Plan prepared by Camp, Dresser and McKee. Our contribution toward this upgrade is $10,000. This project will improve domestic water service and fire protection to multiple facilities in the area including the Holiday Inn Express.

This project has been previously approved by the Water Authority; and this is a request to provide the funding for the project. There are available funds in the Reservoir/Tunnel Repairs. This project is being postponed and will be funded as part of the FY 98/99 Water Distribution System Improvements.

Staff recommends adoption of the budget amendment amending Capital Project Ordinance 82-25 to reprogram funds in the amount of $10,000 from the Reservoir/Tunnel Repairs to the Rocky Ridge Project.

ORDINANCE BOOK NO. 17 - PAGE 127

C. RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1998 GOOMBAY FESTIVAL

This item was removed from the Consent Agenda for further discussion.

D. MOTION SETTING A PUBLIC HEARING ON AUGUST 25, 1998, TO CONSIDER A REVISION TO THE APPROVED LANDSCAPE PLAN FOR THE ADDITIONS TO THE BROOKS-HOWELL DEVELOPMENT

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolution and ordinances on the consent agenda and they will not be read.

Councilman Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

RESOLUTION NO. 98-110 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 1998 GOOMBAY FESTIVAL

Summary: The consideration of a resolution to allow alcoholic beverages at the 1998 Goombay Festival within the area known as City/County Plaza, S. Market Street, Eagle Street, Spruce Street, Wilson Alley, and Beaumont Street.

N.C. Gen. Stat. sec. 18B-300(c) authorizes the City by ordinance to regulate or prohibit the consumption and/or possession of open containers of malt beverages and unfortified wine on public streets and on property owned, occupied or controlled by the City. The City Council of the City of Asheville has adopted an ordinance pursuant to that statutory authority. That ordinance, Section 11-11 in the Code of Ordinances, provides that the City Council may adopt a resolution making other provisions at special event or community festival. The 1998 Goombay Festival Board, YMI Cultural Center and the Parks and Recreation Department recommend that possession and consumption of malt beverages and/or unfortified wine be allowed at the 1998 Goombay Festival.

The Parks and Recreation Department recommends that City Council adopt the resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the 1998 Goombay

When Councilman Cobb expressed concern about selling alcohol on the street, Mr. Butch Kisiah, Superintendent of Recreation, explained how the City is phasing out the sale of alcohol at the Bele Chere festival. He said that there are no plans to phase alcohol at the Goombay Festival but noted that there is only one beer booth that operates during the Goombay Festival.

Mr. H.K. Edgerton felt that the community should direct the money they spend for beer to donations to the YMI Cultural Center so they don't have to sell beer at the Festival.

Vice-Mayor Hay said that the Bele Chere Strategic Plan addresses the sale of alcohol on the street but not the consumption of alcohol on the street. He felt those are matters that might need to be addressed in planning next year's festival.

Mayor Sitnick felt that all festivals should be treated the same and the matter will be discussed in the future.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-110. This motion was seconded by Councilman Cloninger and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 467

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINTION OF ANTENNAS AND TELECOMMUNICATION TOWERS

Senior Planner Gerald Green said that the City's consultant will present a draft telecommunication facilities ordinance at the September 1, 1998, worksession. Therefore, in order to not waste the Council's time now in considering only this proposed amendment, staff recommends City Council continue the discussion on this matter to the September 1, 1998, worksession, with the public hearing being continued until October 27, 1998. After City Council reviews the consultant's recommendations on September 1, the matter will be forwarded to the Planning & Zoning Commission for their recommendation at their October meeting. After the Commission's review, the issue will be re-advertised prior to the October 27, 1998, City Council meeting.

Councilman Cloninger moved to continue this discussion to September 1, 1998, with the public hearing being continued until October 27, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CLARIFY THE REQUIREMENTS FOR GRADING ALONG PROPERTY LINES

ORDINANCE NO. 2505 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CLARIFY THE REQUIREMENTS FOR GRADING ALONG PROPERTY LINES

Mayor Sitnick opened the public hearing at 5:23 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Senior Planner Gerald Green said that this is the consideration of an ordinance amending the Unified Development Ordinance ("UDO") to clarify the requirements for grading along property lines.

Currently the UDO requires the written approval of the adjacent property owner when any land disturbing activity occurs within ten (10) feet of the property line. Permission of the adjacent property owner is required for the disturbance of 100 square feet for a small storage building and for the grading of a 20 acre parcel. The current requirement is not closely related to the impact of the land disturbing activity, in that small land disturbing activities, even when located next to property line, typically have little impact on adjacent properties. In addition, the current requirement often places a burden on the applicant for small land disturbing activities. The proposed wording amendment revises the standards to require the acknowledgment of the adjacent property owner (proof of notice would be the return receipt from the acknowledgment letter) and the permission of the Planning & Development Director when grading occurs within ten (10) feet of the property line only for those land disturbing activities which require a formal erosion and sedimentation control plan (more than 10,000 square feet disturbed). The revised standard would tie the requirement for written acknowledgment by the adjacent property owner more closely to the impact of the land disturbing activity

The Planning and Zoning Commission recommended approval of this ordinance amendment by a 6-0 vote. The staff of the Planning and Development Department recommends approval of the ordinance amendment.

Upon inquiry of Councilman Tomes, Mr. Green said that the only way the property of the adjacent property owner could be disturbed is with their permission and their property being included in the erosion control plan and the development plan for that property.

When Vice-Mayor Hay asked what would happen if the adjacent property owner objected, Mr. Green said that not only could they voice their objections to staff who would to take extra steps to assure them their would be no impact on their property, but the Planning & Development Director must give permission as well. City Attorney Oast also said that the notice might also permit someone to appeal to the Board of Adjustment.

Upon inquiry of Mayor Sitnick, Mr. Green said that the buffer requirements are actually more stringent if the grading occurs within that area.

Mr. Green explained to Councilman Cobb how the land disturbed is calculated.

Mayor Sitnick closed the public hearing at 5:34 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2505. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 129

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY ACCESSORY STRUCTURES AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS IN ALL RESIDENTIAL DISTRICTS, AND TO ESTABLISH STANDARDS FOR ACCESSORY STRUCTURES

ORDINANCE NO. 2506 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO IDENTIFY ACCESSORY STRUCTURES AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS IN ALL RESIDENTIAL DISTRICTS, AND TO ESTABLISH STANDARDS FOR ACCESSORY STRUCTURES

Mayor Sitnick opened the public hearing at 5:34 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Senior Planner Gerald Green said that this is consideration of an ordinance to amend the Unified Development Ordinance ("UDO") to identify accessory structures as a permitted use, subject to special requirements in all residential districts, and to establish standards for accessory structures.

Accessory structures are an important and often necessary component of residential development. These structures serve as garages, storage space, workshops, and other uses related to residential development. When developed appropriately and sensitively, accessory structures can be an asset to residential development. However, when developed inappropriately, accessory structures can have detrimental impacts upon adjacent residential uses. In an effort to prevent inappropriate development of accessory structures, the proposed wording amendment identifies accessory structures as permitted uses, subject to special requirements. Standards for accessory structures identified in the draft wording amendment are designed to limit the impacts that accessory structures could have on adjacent residential uses. The standards include:

- Limit on the maximum size of accessory structures
  - 600 square feet for single accessory structure
  - 100 square feet for all accessory structures
- Limit on the number of accessory structures;
  - structure on lots of more than 3 acres or bona fide not subject to size limits
  - accessory apartments not included in size limit calculation

- Limit on the height of accessory structures;
    - 20' height limit
    - Increase to 40' permitted with increased setback
- Location requirements for structures;
    - side or rear yard for non-corner lots, not in front of principal structure:
    - lots of more than 3 acres may be in front of principal structure but not in front yard
    - for corner lots, setback must be equivalent to front yard setback of adjacent lots
- Buffering requirements for accessory structures exceeding a certain size.
    - accessory structures of more than 600 square feet must be buffered from adjacent residential uses
    - no buffering required for accessory structures on bona fide farm and more than 24 feet from property line
    - accessory structures which provide common facilities for residential developments not subject to size standards or location standards.

The draft wording amendment would permit accessory structures while imposing standards to assure that the structures do not adversely impact adjacent residential uses.

The Planning and Zoning Commission recommended approval of this ordinance amendment by a 6-0 vote. The staff of the Planning and Development Department recommends approval of the ordinance amendment.

When Councilwoman Field asked if the height was measured from the eve line or the very highest point on the roof, Mr. Green said that it is from the floor level of the primary access for emergency services to the ceiling of the top floor - basically to the eve line.

Upon inquiry of Councilman Tomes about the infringement of property owner rights, Mr. Green said that staff tried to develop standards that would balance the property rights of the individual with the rights of the community as a whole and establish standards which would allow for reasonable accessory structures in all residential districts.

Mayor Sitnick closed the public hearing at 5:47 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2506. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 130

D. PUBLIC HEARING RELATIVE TO REZONING 8 LOTS OFF MACE AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT

ORDINANCE NO. 2507 - ORDINANCE TO REZONE 8 LOTS OFF MACE AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE DISTRICT

Mayor Sitnick opened the public hearing at 5:48 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Urban Planner Carl Ownbey said that this is the consideration of an ordinance to rezone eight lots on Mace Avenue from RS-8 Residential Single Family High Density District to Office District.

The petitioner requested that six lots (PIN Nos. 9628.12-97-6289, 7330, 7364, 8337, 9327, and 9453) on Mace Avenue be rezoned from RS-8 to Office. A review by the Technical Review Committee at their April 20 meeting indicated that the existing street was narrow, dead end, and in need of repair. The Planning staff indicated that there was limited access to the lots to provide adequate off-street parking and there was a noticeable terrain separation between this residential area and the commercial uses along Patton Avenue.

The Planning & Zoning Commission could not come to a consensus on the rezoning request at their May 6, 1998, meeting but recommended that the petitioner review with the Planning staff the possibility of rezoning to RM-8 and come back to their next meeting. After further review by the petitioner, Planning staff, Engineering Department, and Public Works Department, a consensus was reached that the inefficiencies in the street could be corrected and that office uses would have less impact on the street than multi-family development. The petitioner obtained a petition from the property owners along Bellair Avenue (neighborhood directly behind) stating their preference for the Office zoning.

The petitioner decided to stay with his original request of Office and had a zoning petition to add the 2 lots (PIN Nos. 9638.09-07-0414 and 0463) at the end of the street.

Prior to the adoption of the Unified Development Ordinance, this area was zoned commercial. The 2010 plan outlines this area as commercial. This property is within the city limits of Asheville.

The Planning staff reviewed the rezoning request again and based on the same reasons recommended denial of the rezoning of the eight lots from RS-8 Residential Single Family High Density to Office. At the July 1, 1998, Planning & Zoning Commission meeting, the Commissioners still had a tie vote on the rezoning request, therefore, the request was forwarded to Council for their review.

Mayor Sitnick expressed concern regarding the turn-around for emergency vehicles on this narrow road which is a dead-end.

Ms. Mary Joe Butron, owner of one of the lots on Mace Avenue, spoke in support of rezoning the property to Office. They were disappointed that the Unified Development Ordinance ("UDO") rezoned their property to residential and they felt it would be a compromise to rezone their property which was Commercial Highway (prior to the adoption of the UDO) to Office.

Mr. George Love, petitioner, also spoke in support of rezoning the property to Office. He said that he would like to expand his accounting business and cannot do that unless the property is rezoned.

In response to Mayor Sitnick's concern about the turn-around for emergency vehicles, Ms. Butron said that she has owned her property for 12 years and has experienced no problem with the emergency vehicles turning around. She also noted that if the property is rezoned to office with parking lots, there would be plenty of places for the vehicles to turn around.

Mayor Sitnick closed the public hearing at 6:26 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved to adopt Ordinance No. 2507 which would rezone eight lots off Mace Avenue from RS-8 Residential Single Family High Density District to Office District. This motion was seconded by Councilman Tomes.

Councilman Cloninger spoke in support of the rezoning to Office because the Office designation would be a good transition district.

Councilman Tomes expressed concern over the residents not knowing that their property was being rezoned under the Unified Development Ordinance.

Vice-Mayor Hay agreed with Mayor Sitnick about the emergency vehicle issue, however, even if the property were not rezoned, that issue will still not be resolved.

Councilwoman Field felt that if the property were rezoned to Office, there will be parking areas for the vehicles to turn around and that should solve the problem with emergency vehicles. She suggested the City look into making improvements to upgrade that street.

Councilman Cobb felt that the street is undersized and is not suitable for office development. He felt that the area should remain residential.

The motion made by Councilman Seller and seconded by Councilman Tomes carried on a 5-2 vote, with Mayor Sitnick and Councilman Cobb voting no.

ORDINANCE BOOK NO. 17 - PAGE 134

E. PUBLIC HEARING RELATIVE TO AN ORDINANCE ESTABLISHING A TEMPORARY MORATORIUM ON SEXUALLY-ORIENTED BUSINESSES IN THE CITY OF ASHEVILLE

ORDINANCE NO. 2508 - ORDINANCE ESTABLISHING A TEMPORARY MORATORIUM ON SEXUALLY-ORIENTED BUSINESSES IN THE CITY OF ASHEVILLE

Mayor Sitnick opened the public hearing at 6:37 p.m.
6:37 public hearing opened

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that this is consideration of an ordinance adopting a temporary moratorium on the establishment or enlargement of sexually oriented businesses in the City of Asheville.

The Asheville City Council has for some time been interested in additional regulation of sexually-oriented businesses. The N.C. General Assembly recently enacted legislation that allows for cities to consider and undertake several specific types of controls, such as clothing restrictions, hours of operation, etc.

The new law also authorizes the adoption by ordinance of a moratorium on the establishment or expansion of these businesses, while the City considers the type of regulations that may be appropriate.

In land use situations, moratoriums of six or so months have been upheld; although a moratorium may be longer or shorter, the only limitation in the law is that it be "of reasonable duration."

Conversations with the Planning & Development Department have indicated that six months should be an adequate time to study the issue, with an additional one to three months to move any proposed regulation through the consideration process.

Adoption of the ordinance establishing a moratorium is recommended. Council should decide on a reasonable duration for the moratorium, a minimum of six months is recommended.

Vice-Mayor Hay said that he would be in favor of a nine month moratorium so that it would not have to be brought back to Council for an extension.

Ms. Sylvia Hitchcock, speaking on behalf of a large group of concerned citizens, appealed to Council to seriously consider choosing not to allow topless establishments to operate in Asheville. She encouraged City Council to set a standard for Asheville to reflect family values.

Mr. Morrison felt that the citizens of Asheville should be allowed to have the option of attending a topless establishment or not.

Mr. David Ericson said that human sexuality has been around since the beginning if time and if we allow sexuality to be open instead of hiding, perhaps we would have less rape and molestation.

Mayor Sitnick closed the public hearing at 6:51 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2508 with the duration of the moratorium being nine months. This motion was seconded by Vice-Mayor and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 136

F. PUBLIC HEARING RELATIVE TO REZONING 15 LOTS ON BURTON STREET FROM COMMUNITY BUSINESS II TO HIGHWAY BUSINESS

Mayor Sitnick said that the City Clerk received the following letter from Mr. Spiro Aliferis on August 11, 1998 (earlier in the day): "I would like to request that the hearing for the rezoning of Burton St. be postponed to the next meeting available because I am also scheduled to meet on the Charlotte Street Corridor meeting today. Thank you very much for your consideration."

426

Councilman Cloninger was opposed to postponing this hearing since there is a large crowd here for this issue and Mr. Aliferis is also present.

Mayor Sitnick announced a short break at 6:50 p.m.

Mayor Sitnick opened the public hearing at 7:10 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Urban Planner Carl Ownbey said that this is the consideration of a an ordinance rezoning 15 lots on Burton Street from Community Business II to Highway Business.

The subject properties are approximately 5 acres. Staff recommends that lot 9638.10-45-7038 also be considered with this request to maintain consistent zoning pattern among the lots. The fifteen lots (PIN Nos. 9638.10-45-6187, 6027, 6285, 6365, 6477, 7033, 7356, 7038 and PIN Nos. 9638.14-44-5676, 6599, 6669, 6803, 6808, 7709, and 7928 are located on Burton Street just north of Haywood Road. The fifteen lots contain residential structures, commercial structures, and vacant lots. The 2010 Plan recommends this area be low density residential with some commercial on the southern fringe. The subject properties are surrounded on the north and west by residential, on the east by I-240, and on the south by commercial. Some of the existing commercial structures on the east side of Burton Street have been constructed after the area was rezoned in 1996 from R3 Residential to Commercial Service. The Unified Development Ordinance reclassified this area from Commercial Service to Community Business II and made most of the existing uses non-conforming. The petitioners have requested a rezoning that will allow them the opportunity to expand their commercial development.

The Technical Review Committee ("TRC") reviewed this request and commented that this was a narrow residential street with a sidewalk on one side. The street is not adequate to handle the large trucks associated with the permitted uses in the Highway Business District. The intersection of Burton Street and Haywood Road does not meet the minimum standards associated with turning movements of large vehicles. The on-street parking would need to be eliminated. Additional fire hydrants would be required. The need to contain any further commercial development into this neighborhood is important. The N.C. Dept. of Transportation has indicated that with the widening of I-240, most of these lots will be lost to right-of-way and construction.

The Planning staff reviewed the rezoning request and recommended denial based on the comments from the TRC. At the July 1, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend denial of the rezoning of the fifteen lots.

The petitioners have appealed the Planning & Zoning Commission's denial to City Council.

The following residents spoke against rezoning the property to Highway Business for several reasons, some being, but not limited to: the present traffic on Burton Street is already dangerous; streets in the Burton Street area are small; that particular area on Burton Street is already an eye-sore; Mr. Aliferis has not complied with the requirements in other rezonings; there may be significant changes as a result of the Haywood Road Corridor small area plan; and the community has worked hard to make improvements and this rezoning would not be in keeping with those improvements:

Ms. Gloria Johnson, President of the Burton Street Community
Mr. H.K. Edgerton, President of the Asheville Branch of the NAACP
Ms. Martha Ligon, resident of Burton Street
Ms. Pauline Young, speaking on behalf of the Burton Street community
Mr. Brian Peterson, West Asheville resident
Ms. Zannie Davidson, life-long resident of Burton Street area

Mayor Sitnick closed the public hearing at 7:20 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved to deny the rezoning of 15 lots on Burton Street from Community Business II to Highway Business. This motion was seconded by Councilman Cobb and carried on a 6-1 vote, with Councilman Sellers voting "no".

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-111 - RESOLUTION CONFIRMING APPOINTMENTS TO THE MINORITY BUSINESS COMMISSION

Vice-Mayor Edward Hay said that on May 26, 1998, City Council adopted Resolution No. 98-63 adopting a City-County Minority Business Plan.

The composition of the Minority Business Commission consists of 13 members from various groups. The Buncombe County Commissioners approved the following list of members along with their terms on August 4, 1998:

Laura Thompson	American Institute of Architects (3 years)	8/1/2001
Wendell Howard	Associated General Contractors of America (3 years)	8/1/2001
Eugene Presley	Council of Independent Business Owners (3 years)	8/1/2001
Carol Hensley	Asheville Area Chamber of Commerce (3 years)	8/1/2001
Jill Arrington	Eagle/Market Streets Development Corp. (3 years)	8/1/2001
Lynn Staton	National Assn. of Women in Construction (3 years)	8/1/2001
Katherine DeBrow	DeBrow Construction Company (3 years)	8/1/2001
Vacant	Minority Business Alliance (3 years)	8/1/2001
Claudia Thomas	CAT Network Systems (2 years)	8/1/2000
Bonnie Habel	A-B Community Relations Council (2 years)	8/1/2000
Christy Credle	NAACP (2 years)	8/1/2000
Ronnie Blythe	Asheville Business Development Center (2 years)	8/1/2000
Vickie Gaddy	Tarheel Helping Hand (2 years)	8/1/2000

City staff recommends City Council adopt a resolution confirming the appointments to the Minority Business Commission.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-111. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 470

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 28, 1998, AND THE WORKSESSION HELD ON AUGUST 4, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on July 28, 1998, and the worksession held on August 4, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. MAYOR'S ROUNDTABLE; I-26 CORRIDOR BRIEFING

Mayor Sitnick invited everyone to the Mayor's roundtable on litter to be held on Thursday, August 20, 1998, at 7:00 p.m. in the William F. Wolcott Jr. Building (Public Works Facility) at 161 South Charlotte Street.

Mayor Sitnick said that the N.C. Dept. of Transportation will brief City Council on the I-26 Corridor on Tuesday, September 1, 1998, at 3:00 p.m. in the First Floor North Conference Room during City Council's worksession.

C. COPY FEE POLICY

Mr. Brian Peterson, Chairman of the Coalition of Asheville Neighborhoods, passed out to City Council information relative to public records and the provisions for copies of public records. He asked that City Council review their copy fee policy that allows the first ten copies free and then 10 cents per page. After researching the per cost per page allowed by the state statutes, he said that the City should be charging 2.6 cents per page and asked City Council amend their policy to reflect that charge.

City Attorney Oast said the City's copy fee policy is set up in such a way that the overwhelming majority of requests are fulfilled free. He said there is a provision in the policy that provides for the City to negotiate a fair fee for the kind of service (City Council agenda material weekly) Mr. Peterson is requesting and he would be happy to talk with him about that.

City Manager Westbrook said that City staff is looking for the budget work papers on this item just to find out the basis of the 10 cent per page charge was. However, since they have not found the information and based on the assumption that those papers cannot be located, he will have this matter researched and come up with a cost per page. He did state that the City Attorney feels the policy gives him sufficient flexibility to make some administrative changes and after a figure is arrived at, he would revisit the policy in total (not only the amount per page) and contact Mr. Peterson.

D. REQUEST FOR NON-ENFORCEMENT OF LAWS CRIMINALIZING CANNABIS USERS

Mr. Dan Waterman, representing a group of individuals, passed out some information to City Council and said they were concerned and distressed over the policies and laws of our government has adopted toward the cannabis hemp plant and its users. They are compelled to act at this time, because of laws prohibiting cannabis regularly deny them of their medicines of choice, their religious sacraments and their right to pursue private activities which cause no inherent harm to others. They have witnessed friends and family being arrested and subjected to prosecution and imprisonment solely because they chose to use one of nature's most beneficial plants. He read the following resolution "As citizens of Asheville, we declare our belief and understanding that the current prohibitive sanctions against our relationship with certain flora in our region and the United States defy the principles of freedom, liberty, and natural order. Furthermore, many of these plants provide various and substantial benefits in the form of medicines, agricultural and industrial products, and personal sacraments. The archetype of these plants is Cannabis hemp. We beseech the City Council of Asheville, North Carolina, to use their fiscal and administrative authority and their positions as civic leaders to create of Asheville a 'Community of Compassion.' We request that the City Council direct the Asheville Police Department and all law enforcement officers under their fiscal and administrative authority to cease expending valuable resources, time and money on the citing, arrest and imprisonment of citizens for the personal cultivation, possession, and use of Cannabis in all its various forms. We request that the enforcement of laws hindering the above stated personal uses of Cannabis be placed on a non-priority status. Abraham Lincoln said 'A prohibition law strikes a blow at the very principles upon which our government was founded.' Thomas Jefferson said, 'I have sworn upon the alter of God eternal hostility against every form of tyranny over the mind of man.' We, citizens of Asheville, concur."

Upon inquiry of Councilman Cobb, Mr. Waterman said that he would consider an adult anyone of voting age.

Councilman Cloninger felt that City Council did not have the authority to take the action to adopt the resolution and felt this was not the proper forum to make this request. However, if City Council did have that authority, he would be against this resolution because he felt we should enforce our drug laws.

City Attorney Oast said that it is a state law that our police are required to enforce and they don't have the discretion to not enforce the law. He would not advise this Council to take the step of directing our police to not enforce the drug laws or to give it a lower priority.

When Mayor Sitnick responded that City Council has an obligation to listen to our citizens, Councilman Cloninger felt Council should discuss their "other business" policy because City Council could spend hours and hours listening to people when City Council has no authority to do anything about their requests.

Approximately a dozen residents spoke in support of and gave reasons for adoption of the resolution proposal for non-enforcement of laws criminalizing cannabis users. Some felt government targets marijuana users unnecessarily and fills our jails with non-violent offenders, making it necessary to release others.

Mr. Steve Rasmussen presented Council with a copy of an article from the San Francisco Chronicle noting that State Attorney General Dan Lungren would leave it up to Oakland police to handle the city's new policy that allows medical marijuana users to store 1-1/2 pounds of the drug at home.

A citizen of Asheville presented each Council members with a video entitled "The Hemp Solution" and hoped City Council would view it with an open mind.

Mayor Sitnick said that Council appreciated all the comments and they have been taken seriously. The comments by the City Attorney are as valid as is the comments received by those who spoke. She asked that the residents understand the position City Council is in at this point. Mayor Sitnick said City Council would read this material and thanked them for their comments.

E. CLAIMS

The following claims were received by the City of Asheville during the week of: July 24-30, 1998: John Foster (Police), Wanda Huntsman (Streets), Judy Hyer (Sanitation) and Susan Blackmon (Water).

The following claims were received during the week of July 31 - August 6, 1998: Margaret Wythe (Police), Rebecca Petree (Water), Gabriel Holquin (Streets), Tammy Waddell (Water), Julie Ann McDowell (Sanitation), Carol Hartness (Traffic Engineering), Nancy Kern (Traffic Engineering), Richard Kingston (Water), Laura J. Murray (Streets) and David Neilsen (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

F. CLOSED SESSION

At 8:20 p.m., Vice-Mayor Hay moved to go into closed session for the following reasons: (1) to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property - statutory authority is G.S. 143-318.11 (a) (5); and (2) to consult with an attorney employed or retained by the City Council in order to preserve the attorney-client privilege between the attorney and the Council. The parties in the lawsuit about which Council expects to receive advice are the State of North Carolina, City of Asheville, and Elijah U. Jones, d/b/a Jones Convenience Store - statutory authority is G.S. 143.318.11 (a) (3). This motion was seconded by Councilwoman Field and carried unanimously.

At 8:55 p.m., Councilman Tomes moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 18, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

PROCLAMATION PROCLAIMING THE WEEK OF AUGUST 17-23, 1998, AS "KIDS CAFÉ' WEEK" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming the week of August 17-23, 1998, as "Kids Café' Week" and presented the proclamation to Revs. Terry and Ann Threadwell who briefed Council on the program and discussed ways to move this effort forward.

CONSENT:

Agreement with Neighborhood Housing Services

Summary: The consideration of a resolution to amend the sale contract with Neighborhood Housing Services of Asheville, Inc. for Disposal Parcels 6B & 6C of the Head of Montford Redevelopment Project.

On May 7, 1997, the City entered into a sale contract with Neighborhood Housing Services of Asheville, Inc. (NHS) for Disposal Parcels 6B & 6C of the Head of Montford Redevelopment Project for the amount of $248,900.00. The sale contract called for conveyance of both parcels upon payment of the purchase price in cash. Due to the difficulties encountered in securing financing for the project, NHS has requested an amendment to the sale contract which would allow them to take title in two stages with one parcel being conveyed at each stage. Disposal Parcel 6B would be conveyed no later than October 1, 1998, for the amount of $179,500.00 and Disposal Parcel 6C would be conveyed no later that October 1, 1999, for the amount of $69,400.00. In addition NHS has requested financing by the City of part of the purchase price for Disposal Parcel 6B. The amount to be financed would be $85,000.000 to be repaid over 240 months at 6.5% interest. The first payment would be due one year after closing with no interest due for the first 12 months after closing.

The question arose as to whether financing part of the purchase price would be allowed under N. C. Gen. Stat. sec. 159-30 pertaining to the Investment of Idle Cash. It is the opinion of Community Development staff, subject to confirmation by the City Attorney, that N. C. Gen. Stat. sec.159-30 does not pertain to this circumstance because the transaction does not constitute an investment of idle cash. Although cash and land are both assets they are not the same thing and are not treated the same under state law. The Sale and Disposition of property is covered by several other statutes. The Institute of Government's handbook *Local Government Property Transactions* by David Lawrence, 1987, states: "The several statutory procedures for disposing of property assume that the local government will establish various terms of sale, but procedures do not specify the kinds of terms contemplated or permitted. As with many matters, the specific terms associated with any sale will be a matter of discretion. Terms of sale commonly established by North Carolina local governments include: ..**Whether payment will**

be by cash or on some other basis. Only if terms of sale might be thought to restrict the number of buyers unreasonably or be thought to pursue goals extraneous to the property transactions involved, are they likely to be found an abuse of discretion."

It is the opinion of Community Development Staff that the proposed amendment will enable NHS to complete the purchase and redevelop the property in accordance with the Redevelopment Plan. Approval of the resolution will authorize the Mayor to execute the Amendment to the Sale Contract with Neighborhood Housing Services of Asheville, Inc.

Community Development staff recommends adoption of the resolution.

Budget Amendment re: Bridge Program

Summary: The consideration of a budget amendment to the Bridge Program to provide necessary additional funding to complete the Glendale Avenue Bridge Project.

The Glendale Avenue Bridge Project is nearing completion. An additional appropriation of $58,500 is necessary to cover actual construction costs. The N. C. Dept. of Transportation will still be covering 80% of the additional costs as per the Municipal Agreement.

The increased cost will be funded with $49,500 in additional state grant revenue and a $9,000 contribution from the Water Resources Department to cover their portion of the cost of this project.

The Public Works staff recommends adoption of the budget amendment to provide necessary additional funding to complete the Glendale Avenue Bridge Project.

Purchase of Mobile Computers and Related Equipment and Software for Police Department

Summary: The consideration of a resolution to approve the purchase of 30 each in-car mobile computers, modems and software links from the Public Safety & Justice Mobile Data Network Contracts established by the N. C. Division of Purchase and Contracts, Raleigh, N. C.

The N. C. Dept. of Administration, Division of Purchase and Contracts has established contract No. 701953 with IBM Corporation for computers and contract No. 603569 with Motorola, Incorporated for modems and software links. These contracts were established to provide State Contract pricing to all governmental agencies throughout N. C.

Funds for the purchase of this equipment will come from the U. S. Department of Justice Local Law Enforcement Block Grant Program, Account No. 116-3501-421-7004 Project GP9705 and GP9802. Police Chief Will Annarino and Larry Bopp, Information Services Director, concur with the purchase of this equipment.

Council adopt a resolution which authorizes computer equipment, software and related equipment to be purchased from the N. C. State Contract vendors as follows:

IBM Corporation, Fayetteville, N. C. - Contract No. 701953
    30 ea. IBM Ruggedized Laptop Computers, Model XC-6250 with vehicle docking cradle, touch screen/pen adder and (3) external diskette drives
    COST $160,671.00

Motorola Incorporated, Charlotte, N. C. - Contract No. 603569
30 ea. Motorola Modem Packages, Model No. VRM600 and (30) ea.
Wave Soft Link 100 software
COST $80,970.00

TOTAL COST $241,641.00

Use of Powell Bill Funds

Summary: Each year the State provides street aid allocations to incorporated cities and towns "for the purpose of maintaining, repairing, constructing or widening of any street or public throughfare including bridges, drainage, curb and gutter..." (N.C.G.S. 136-41.3).

The Statutes require that a sum be allocated to the qualifying municipalities equal to the amount produced during the fiscal year by 1-3/4 cents on each taxed gallon of motor fuel. Of the total amount to be allocated, 75% is proportioned among the municipalities on the basis of relative population and 25% on City-maintained street mileage.

The tax was first implemented in 1951 at one-half cent per gallon, and remained at that rate until 1971. From 1972 through 1981 the rate was one-cent per gallon, from 1982 to 1986 it was increased to 1-3/8 cents per gallon.

The City of Asheville participates in this program, and in the last reimbursement year (FY 1996-97) the total allocation was $2,206,397.96, which was allocated as follows:

Per Capita	$1,625,845.45 (68,339 population,$28.78 per capita)
Per Mile	$ 581,352.48 (344.34 eligible miles (16' min. width), $1688.31/mile)

(Note: Allocation rates Statewide (1995) were $22.70 per capita, $1,597.74 per road mile.)

Powell Bill Funds do not cover the total expenditures of the City of Asheville for maintenance activities. Disbursements are based upon the following detailed accounting:

Activity	Powell Bill Reimbursement	Total Expenditures
Right-of-way	$ 159,390.15	287,590.18
Engineering	non-reported	0

	$2,206,397.96	$3,924,435.51

The difference in actual work and reimbursement are allocated from the General Fund. Examples of specific projects and departmental initiatives for which Powell Bill funds are used include the Elizabeth Street culvert replacement ($73,875), Biltmore Avenue sidewalks

($75,291), Caribou Road re-surfacing ($54,384), Hilliard Avenue re-surfacing and sidewalks ($99,919), Deaverview Road re-surfacing ($22,665), Country Club Road re-surfacing ($33,521), and Michigan-Montana Avenue drain collapse ($15,l202).

Public Works staff is presenting this item for informational purposes only and Council action is not required.

Authority of Purchasing Director

Summary: The consideration of a resolution authorizing the City's Purchasing Director to purchase apparatus, supplies, materials or equipment with trade-ins.

The 1997 General Assembly enacted Sessions Law 1997-174 entitled "An Act to Update and Revise the Laws Affecting Local Government Contracting". Prior to the passage of that Act, North Carolina local governments were required to treat as separate procurement actions the disposal of surplus personal property and the purchase of new property - thus, for instance, precluding the trade-in of "old" police vehicles which are being replaced in a single contract to purchase the "new" vehicles. Among other things, that Act now allows local governments to include in specifications for the purchase of apparatus, supplies, materials or equipment an opportunity for bidders to purchase as trade-in specified personal property owned by the local government.

The resolution expands the authority which is presently delegated to the City's Purchasing Director to develop specifications, advertise, secure bids, award contracts, etc. in order to permit the Purchasing Director to include trade-ins in future procurements of apparatus, supplies, materials or equipment.

City Council adopt a resolution which authorizes the City's Purchasing Director to purchase apparatus, supplies, materials or equipment with trade-ins.

Hawthorne of Asheville Homeowners Association Street Improvements

Summary: The consideration of an agreement with the Hawthorne of Asheville Homeowners Association for improvements to the streets in Hawthorne Village Subdivision in the City of Asheville and acceptance of the streets for maintenance by the City.

Hawthorne of Asheville Homeowners Association requests that the City of Asheville Public Works Department make improvements to the infrastructure in Hawthorne Village. The Association agrees to pay the estimated costs for materials and equipment rental of any non-City owned equipment with the City providing the labor and City-owned equipment for the performance of this work. The materials and equipment cost is estimated at $99,960.00. This process has been used prior to this request, most recently in the Hills of Beaverdam.

The Association requests that the City take responsibility for ownership and maintenance of the roads as a result of this upgrade of the streets as a part of this project in Hawthorne Village. . All of the right-of-way needed for the City to accept the streets is common property belonging to the Association. The Association agrees to provide the right-of-way and to pay for a plat to be prepared and recorded to delineate this right-of-way. The streets included in this project are Elderberry Lane, Morning Glory Drive, Greenbriar Court, Windflower Way, Windflower Court, Foxglove Court, Trillium Court, Lakespur Court and Hedgerose Court.

The construction plans were prepared by the Engineering Department.

Staff recommends the adoption of the resolution authorizing the City Manager to execute and agreement with the Hawthorne of Asheville Homeowners Association for street improvements.

Change Glendale Drive to Hickman Drive

Summary: The consideration of a resolution to accept the new street name "Hickman Drive" and changing a duplicate street name from Glendale Drive to Hickman Drive.

John B. Hickman, owner of all lots located off of Sweeten Creek Drive, has petitioned the City of Asheville to adopt the street name change from Glendale Drive to Hickman Drive. Hickman Drive is located at Sweeten Creek Road and ends at the property line of W.P. Hickman Co.

Staff recommends adoption of the resolution.

Councilman Cloninger said that his firm does work for Mr. Hickman and his company and asked that this item not be placed on the next formal meetings Consent Agenda in case there is a conflict of interest.

Street Name Approval - Monty Street in Willow Lake Mobile Home Park

Summary: The consideration of a resolution to accept the new proposed street name "Monty Street".

Happy Hill Inc., agent Jerry Bowers, for all lots in Willow Lake Mobile Home Park, has petitioned the City of Asheville to accept the street name Monty Street. Monty Street is located in Willow Lake Mobile Home Park extending from Sand Hill Road in an easterly direction to a dead end. Staff recommends adoption of the resolution.

Street Name Approval - Rosemont Court

Summary: The consideration of a resolution to accept the new proposed street name "Rosemont Court".

Thomas Yurchenco, owner of all lots in Rosemont Subdivision, has petitioned the City of Asheville to accept the street name Rosemont Court. Rosemont Court would extend from Liberty Street to a dead end. Staff recommends adoption of the resolution.

Street Name Approval - Mill Stone Drive

Summary: The consideration of a resolution to accept the new proposed street name "Mill Stone Drive".

Timothy Swann, owner of all lots in Mill Stone Subdivision, has petitioned the City of Asheville to accept the street name Mill Stone Drive . Mill Stone Drive is located at the corner of Round Top Road in a southeast direction and ends in a cul-de-sac. Staff recommends adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

436

UPDATE ON HOUSING AUTHORITY ACTIVITIES

Ms. Annette Coleman, Chairman of the Housing Authority, updated City Council on the Housing Authority Board activity for the past year.

SISTER CITIES PROGRAM

Mr. Russ Martin said that the Sister City relationships provide an opportunity for pairs of cities around the world to further their international understanding. The Sister Cities Program unites communities with the goal of exchanging ideas and promoting cross-cultural awareness. He encouraged City Council for greater participation with the Sister Cities Program as it offers activities encompassing youth and education, technical and professional, cultural and economic and social relationships. He said that Asheville became affiliated with the Sister City Program in 1988 and we now maintain active relationships with four cities.

Each formal Sister City was described by a Sister City representative. The Sister Cities are: Vladikavkaz, Russia; Saumur, France; Karakol, Kyrgyzstan; and San Cristobal de Las Casas, Mexico.

Councilwoman Sitnick, who is the City Council liaison to the Sister City Program, said that Sister City members who visit our Sister Cities pay their own way. She noted the City only contributes $2,000 annually to the Sister Cities Program.

URBAN TRAIL - APPALACHIAN DANCE SCULPTURE AT CIVIC CENTER

Ms. Hojun Welker, Urban Trail Coordinator, said that this is the consideration of an agreement with Gary Alsum and the National Sculptor's Guild to create and install five bronze figures of Appalachian Dancers and Musicians in front of the Asheville Civic Center.

The Asheville Urban Trail was begun in 1991 by the City of Asheville as part of its ongoing program to improve the quality of life within the City through the display of public art. It is a "museum without walls" that illustrates and highlights the city's rich heritage through 30 interpretive "stations." The Trail was designed by volunteers and built entirely with donations from individuals, groups and organizations. By the end of the summer, 25 stations will be underway. The Urban Trail Committee continues to actively raise additional funds for each station.

Last year the Janirve Foundation donated $5,000 to the City to assist in the selection of an artist to complete five bronze figures of Appalachian Dancers and Musicians. Mr. Gary Alsum, included as a party to this agreement, and the National Sculptor's Guild was selected from over 50 artists who submitted portfolios. Mr. Alsum has considerable experience in completing works of similar complexity and character for public installations. Announcement of the selection and a preview of the models took place at this years Mountain Folk Festival over the July 4th weekend. It is anticipated that installation of the figures will be ready for dedication before July 1, 1999, before the Mountain Folk Festival event.

The Urban Trail budget approved by City Council included $160,000 for this station. The project includes bronze representations of two musicians, a fiddler and banjo player, a dancing young couple and a small child.

The Public Works Department staff recommends adoption of the resolution authorizing the Mayor to execute a contract for $160,000 with Gary Alsum and the National Sculptor's Guild for the creation and installation of five bronze figures of Appalachian Dancers and Musicians in front of the Asheville Civic Center.

Discussion surrounded the location of the figures due to the upcoming renovations at the Civic Center. Vice-Mayor Hay noted that since they will be installed next summer, the City should have a much better idea of where the figures will be located.

Mayor Sitnick noted that public art was one of Council's top 20 goals and felt this addition to the downtown was a perfect example of a positive enhancement.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

HAYWOOD ROAD CORRIDOR STUDY COMMITTEE

Mr. Carl Ownbey, Urban Planner, said that this is consideration of forming an advisory committee to work with staff from the Planning and Development Department on the Haywood Road Corridor Study (small area plan).

The Staff from the Planning and Development Department has met several times to compile information and define the process to develop a plan for the Haywood Road Corridor. Staff has drafted a time schedule and compiled a list the information required. Staff recommends that this project have an advisory committee to provide input during the process. This committee should be comprised of interested individuals who have an interest in this area. This committee will be available to advise the Planning staff on several aspects with regards to the development of this plan. The committee should have liaisons from several key boards, representatives from the business community and the neighborhoods, and resource staff from city, county and state departments.

The suggested make-up of the Committee is as follows: Council Co-Liaisons - Tommy Sellers and Earl Cobb; Planning & Zoning Commission liaison - Jan Davis; Historic Resources Commission liaison - pending; and the Preservation Society liaison - Harry Weiss.

Four representatives from neighborhoods and four representatives from businesses. Out of the eight representatives, there will be the following: one representative from banks; one representative from churches; one representative from schools; one representative from the Spanish community and two members at large. The total advisory committee will be around 10-12 members.

Resource staff (city, county, state) - Lauren Malinoff (Div. Community Assistance); Ken Putman (NCDOT); Cathy Ball (Engineer); Suzanne Molloy (Public Works); Wayne Hamilton (Fire Marshal); Bob Vickery (Building Safety); Peter Gentling (Tree and Greenway Commission); Sharon Allen (Code Enforcement); and others as needed.

As one of the members at large, Anne Valentine, landscape architect, prepared a streetscape plan for Haywood Road in 1997 and has expressed an interest in being on the committee.

Councilman Cloninger stressed the need for representation from the small business owners on Haywood Road.

It was the consensus of Council to endorse the composition of the advisory committee to assist the Planning staff in the development of the Haywood Road Corridor Plan with staff recruiting the members.

MALVERN HILLS WALKING TRAIL

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution authorizing the Public Works Department and the Parks and Recreation Department to proceed with the development of a walking trail at Malvern Hills Park.

In an effort to address a community need in the Malvern Hills area, the staff of the Parks and Recreation Department and the Public Works Department have met to work cooperatively in the development of a walking trail at Malvern Hills Park. This walking trail will be constructed using combined resources from both departments with the funding for materials coming from the Public Works budget. The largest trail loop will be approximately ½ mile long and will meander throughout the park area. It is anticipated that the actual construction for the trail could begin as early as December, 1998, with the paving of the trail occurring in early spring of 1999. In addition, the parking located below the tennis courts will be paved and marked as well. This project represents a cooperative effort between two departments to maximize resources to their full potential and to provide a level of service as efficiently as possible to the citizens. It will not be necessary for funds to be reallocated to this project since materials can be charged directly to the Public Works budget. It is estimated that the total cost of this project will total $40,000.

The Public Works Department and the Parks and Recreation Department request City Council approval to proceed with the development of a walking trail in the Malvern Hills Park.

Councilman Cobb was very pleased with the development of this walking trail.

At the request of Councilman Cobb, Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the September 8, 1998, formal City Council agenda.

REPORTS FROM BOARDS AND COMMITTEES

Vice-Mayor Hay briefed Council on the Future of the Civic Center Task Force and the report received from the consultant regarding an upgraded and expanded conference component of the Civic Center. After the Task Force completes their review, they will bring the matter to City Council for their recommendation. At the next meeting, the Task Force will discuss soliciting input from the public on this document.

Councilwoman Field reported on the Downtown Commission's plan for training in-house staff to complete the planning process for a comprehensive downtown plan.

TIME LIMITS ON OTHER BUSINESS

Councilman Cloninger proposed that when a group of people come to a City Council meeting to speak during "Other Business" on a single issue, they be given two options. One, they could designate one person to speak on their behalf for ten minutes. Two, they could designate three people to speak for three minutes each. Council would not have to debate whether the particular issue the people want to speak about is related to City business - Council would simply give them those options and listen to what they have to say. This would give Council enough a flavor of what the group wants to communicate to Council that they can decide whether they want to take any action, such as referring the matter to staff, placing the matter on a worksession agenda, etc. He said that he is in no way seeking to limit the participation of speakers who come to speak on issues which are actually on the agenda, such as public hearings on rezonings, ordinance amendments, etc. His proposal pertains solely to matters raised during "other business" which are not on the agenda.

Councilman Sellers supported Councilman Cloninger's proposal.

Councilman Tomes supported the spirit of the policy and suggested one person be allowed to speak for ten minutes and then 5 people speak for 3 minutes each, on a single topic. This way he felt there would be a broader base of participation.

In response to Councilman Cobb's question if this applies to formal meetings as well as worksessions, City Attorney Oast read Sec. 9 from the City Charter which reads "All meetings of the Council shall be open to the public and the council, by rules, must provide for giving citizens reasonable opportunity to be heard at its meetings in regard to matters thereunder consideration."

Mayor Sitnick read from the City Council Rules of Procedure No. 7 (c) "At each 'regular' and each 'worksession' of the Council, at the conclusion of regularly scheduled business, any group or person wishing to address the Council on any matter may do so, subject to the time limits set forth hereinafter." She wondered if the City Council Rule No. 7 or if the City Charter should be amended so they would both be consistent.

Mayor Sitnick also noted that she receives several calls from different organizations asking for letters of support or letters of opposition from the Mayor's Office to bills or pieces of legislation that are coming up before the state legislature, house or senate in Washington. She imagined Council would need to decide how to handle those requests that come to Council through the Mayor's Office as well.

Councilman Cloninger said that he did not want to limit the topics at formal meetings and worksessions, only the number of speakers and the amount of time on a single topic. He said his proposal would require no change in the City Charter.

Vice-Mayor Hay supported the proposal noting that Council can always waive the rules.

City Attorney Oast said that Councilman Cloninger's would only require a change in the City Council's Rules of Procedure and he would be glad to draft some language and present it to Council at their September 1, 1998, worksession for further discussion.

Councilwoman Field felt it was appropriate to have rules for speaking under the "Other Business" section of the agenda.

Mayor Sitnick said that she received some advice from former Mayor Ken Michalove that if there is a personal grievance with a Council member, you talk to them about it and communicate one on one. She would appreciate in the future if members of Council have a problem with the way she is conducting a meeting or the subject matter of that meeting, that the Council member speak to her about it. She has an open door and open mind. She would appreciate if things were discussed professionally together rather than air it in the local news media.

Mayor Sitnick said that she believed that City Council has an obligation to listen to our citizens and one of the most beautiful parts of the democratic republic that we live is that people have an opportunity to address their government.

It was suggested that a handout be available at the meetings or in the City Clerk's Office outlining the rules for public comment.

It was the consensus of Council to instruct the City Attorney to prepare an amendment to City Council's Rules of Procedure incorporating Councilman Cloninger's proposal and that it be brought back to City Council for their consideration.

Mr. Morrison thanked Council, in particular Mayor Sitnick, for the way the City Council meeting was conducted on August 11, 1998, relative to the request brought to City Council for the non-enforcement of laws criminalizing cannabis users.

At 5:26 p.m., Mayor Sitnick announced a short break.

CLOSED SESSION

At 5:34, Councilwoman Field moved to go into closed session to establish or instruct the City's staff or negotiating agents concerning the price and other material terms for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N. C. Gen. Stat. sec. 143-318.11 (a) (5). This motion was seconded by Councilman Cobb and carried unanimously.

At 5:58 p.m., Councilman Tomes moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:58 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - August 25, 1998 - 5:00 p.m.

Regular Meeting

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Councilman Earl Cobb

INVOCATION

Vice-Mayor Hay gave the invocation.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

City Manager Westbrook requested Council's consideration of a budget appropriation relating to the agreement with the Hawthorne of Asheville Homeowners Association for street improvements as described in Item I under the Consent Agenda.

A. RESOLUTION NO. 98-112 - RESOLUTION TO AMEND THE SALE CONTRACT WITH NEIGHBORHOOD HOUSING SERVICES OF ASHEVILLE INC. FOR DISPOSAL PARCELS 6B & 6C OF THE HEAD OF MONTFORD REDEVELOPMENT PROJECT

Summary: The consideration of a resolution to amend the sale contract with Neighborhood Housing Services of Asheville, Inc. for Disposal Parcels 6B & 6C of the Head of Montford Redevelopment Project.

On May 7, 1997, the City entered into a sale contract with Neighborhood Housing Services of Asheville, Inc. (NHS) for Disposal Parcels 6B & 6C of the Head of Montford Redevelopment Project for the amount of $248,900.00. The sale contract called for conveyance of both parcels upon payment of the purchase price in cash. Due to the difficulties encountered in securing financing for the project, NHS has requested an amendment to the sale contract which would allow them to take title in two stages with one parcel being conveyed at each stage. Disposal Parcel 6B would be conveyed no later than October 1, 1998, for the amount of $179,500.00 and Disposal Parcel 6C would be conveyed no later that October 1, 1999, for the amount of $69,400.00. In addition NHS has requested financing by the City of part of the purchase price for Disposal Parcel 6B. The amount to be financed would be $85,000.000 to be repaid over 240 months at 6.5% interest. The first payment would be due one year after closing with no interest due for the first 12 months after closing.

The question arose as to whether financing part of the purchase price would be allowed under N. C. Gen. Stat. sec. 159-30 pertaining to the Investment of Idle Cash. It is the opinion of Community Development staff, subject to confirmation by the City Attorney, that N. C. Gen. Stat. sec.159-30 does not pertain to this circumstance because the transaction does not constitute an investment of idle cash. Although cash and land are both assets they are not the same thing and are not treated the same under state law. The Sale and Disposition of property is covered by several other statutes. The Institute of Government's handbook *Local*

Government Property Transactions by David Lawrence, 1987, states: "The several statutory procedures for disposing of property assume that the local government will establish various terms of sale, but procedures do not specify the kinds of terms contemplated or permitted. As with many matters, the specific terms associated with any sale will be a matter of discretion. Terms of sale commonly established by North Carolina local governments include: ..**Whether payment will be by cash or on some other basis.** Only if terms of sale might be thought to restrict the number of buyers unreasonably or be thought to pursue goals extraneous to the property transactions involved, are they likely to be found an abuse of discretion."

It is the opinion of Community Development Staff that the proposed amendment will enable NHS to complete the purchase and redevelop the property in accordance with the Redevelopment Plan. Approval of the resolution will authorize the Mayor to execute the Amendment to the Sale Contract with Neighborhood Housing Services of Asheville, Inc.

Ms. Tamara Dozier Jones, representing Shirley and Clifton Dozier, asked that Item A. be taken off the Consent Agenda for further discussion. She read a letter dated August 24, 1998, which letter reads in part: "Prior to the bid from Neighborhood Housing Services, we had expressed interest in this lot and were told by Mr. Vess that we could not purchase this lot unless we had plans approved and finances in place to carryout such a plan. Was this required from Neighborhood Housing Services and, if so, why haven't they developed this lot and why are they now wanting to change the sale? ... If the City is to sell only a portion of this lot, it will require that the front portion be subdivided from the one acre. If the acting Planning Director signs his approval of such a plat, will this not be a conflict of interest, since he also serves on the Board of Directors of Neighborhood Housing Services? Also those who recommend such approval via the Montford Advisory Committee's recommendation, such as Dora Dawkins, who also serves as Chairman of the Neighborhood Housing Services shouldn't this be considered a conflict of interest. Also, your Building Safety Division is still harassing us with threats of demolishing our house at 52 Short Street and placing a lean on our property ... We appeal to you to correct all of the illegal wrongs and to end the harassment that we have suffered since the original illegal down zoning in 1984."

Mr. Vess said that there is no subdivision of the property involved because there are two separate parcels. Neighborhood Housing Services ("NHS") is asking to close on one parcel this year and one parcel next year. Regarding the plans for the property and finances, he said they did require that a plan be submitted at the time NHS submitted a bid and NHS showed a financial statement which was reviewed and approved. He said that the process for submitting a bid requires a submittal of a preliminary plan for the property and the submission of financial capability in the form of a financial statement. He said that is required of all developers on redevelopment property. He said that the Doziers were given the same opportunity as was given to NHS to bid on the property, nothing that the property was advertised for upset bids when NHS submitted a bid.

Upon inquiry of Councilwoman Field relative to the conflict of interest question regarding Assistant City Manager Spell, City Attorney Oast said that based on what he has heard today, he did not think that represents a conflict of interest such that Council could not vote on this amendment and he didn't think it represents a conflict for Mr. Spell either.

Ms. Shirley Dozier said that they expressed interest in the property before NHS put their bid in. They were told by Mr. Vess said that they had to have a plan and the money to buy it and the money to develop it. She felt that NHS is just now coming up with a plan and is asking the City to finance it. Had they known that the City was going to finance NHS, they would have expected the City to finance them as well.

Councilwoman Field pointed out that the Doziers are not registered as a 501 C 3 non-profit corporation.

RESOLUTION BOOK NO. 24 - PAGE 471

B. ORDINANCE NO. 2509 - BUDGET AMENDMENT TO PROVIDE NECESSARY ADDITIONAL FUNDING TO COMPLETE THE GLENDALE AVENUE BRIDGE PROJECT

Summary: The consideration of a budget amendment to the Bridge Program to provide necessary additional funding to complete the Glendale Avenue Bridge Project.

The Glendale Avenue Bridge Project is nearing completion. An additional appropriation of $58,500 is necessary to cover actual construction costs. The N. C. Dept. of Transportation will still be covering 80% of the additional costs as per the Municipal Agreement.

The increased cost will be funded with $49,500 in additional state grant revenue and a $9,000 contribution from the Water Resources Department to cover their portion of the cost of this project.

The Public Works staff recommends adoption of the budget amendment to provide necessary additional funding to complete the Glendale Avenue Bridge Project.

ORDINANCE BOOK NO. 17 - PAGE 138

C. RESOLUTION NO. 98-113 - RESOLUTION TO ACCEPT THE STREET NAME "MONTY STREET" LOCATED IN WILLOW LAKE MOBILE HOME PARK EXTENDING FROM SAND HILL ROAD

Summary: The consideration of a resolution to accept the new proposed street name "Monty Street".

Happy Hill Inc., agent Jerry Bowers, for all lots in Willow Lake Mobile Home Park, has petitioned the City of Asheville to accept the street name Monty Street. Monty Street is located in Willow Lake Mobile Home Park extending from Sand Hill Road in an easterly direction to a dead end. Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 472

D. RESOLUTION NO. 98-114- RESOLUTION TO ACCEPT THE STREET NAME "ROSEMONT COURT" LOCATED AT LIBERTY STREET TO A DEAD END

Summary: The consideration of a resolution to accept the new proposed street name "Rosemont Court".

Thomas Yurchenco, owner of all lots in Rosemont Subdivision, has petitioned the City of Asheville to accept the street name Rosemont Court. Rosemont Court would extend from Liberty Street to a dead end. Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 473

E. RESOLUTION NO. 98-115 - RESOLUTION TO ACCEPT THE STREET NAME "MILL STONE DRIVE" LOCATED AT THE CORNER OF ROUND TOP ROAD IN A SOUTHEAST DIRECTION AND ENDS IN A CUL-DE-SAC

Summary: The consideration of a resolution to accept the new proposed street name "Mill Stone Drive".

Timothy Swann, owner of all lots in Mill Stone Subdivision, has petitioned the City of Asheville to accept the street name Mill Stone Drive . Mill Stone Drive is located at the corner of Round Top Road in a southeast direction and ends in a cul-de-sac. Staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 24 - PAGE 474

F. RESOLUTION NO. 98-116 - RESOLUTION AUTHORIZING THE PURCHASE OF 30 MOBILE COMPUTERS, SOFTWARE AND RELATED EQUIPMENT FOR THE POLICE DEPARTMENT

Summary: The consideration of a resolution to approve the purchase of 30 each in-car mobile computers, modems and software links from the Public Safety & Justice Mobile Data Network Contracts established by the N. C. Division of Purchase and Contracts, Raleigh, N. C.

The N. C. Dept. of Administration, Division of Purchase and Contracts has established contract No. 701953 with IBM Corporation for computers and contract No. 603569 with Motorola, Incorporated for modems and software links. These contracts were established to provide State Contract pricing to all governmental agencies throughout N. C.

Funds for the purchase of this equipment will come from the U. S. Department of Justice Local Law Enforcement Block Grant Program, Account No. 116-3501-421-7004 Project GP9705 and GP9802. Police Chief Will Annarino and Larry Bopp, Information Services Director, concur with the purchase of this equipment.

Council adopt a resolution which authorizes computer equipment, software and related equipment to be purchased from the N. C. State Contract vendors as follows:

IBM Corporation, Fayetteville, N. C. - Contract No. 701953
    30 ea. IBM Ruggedized Laptop Computers, Model XC-6250 with vehicle docking cradle, touch screen/pen adder and (3) external diskette drives
    COST $160,671.00

Motorola Incorporated, Charlotte, N. C. - Contract No. 603569
    30 ea. Motorola Modem Packages, Model No. VRM600 and (30) ea. Wave Soft Link 100 software
    COST $80,970.00

TOTAL COST $241,641.00

RESOLUTION BOOK NO. 24 - PAGE 475

G. RESOLUTION NO. 98-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT FOR THE APPALACHIAN DANCE SCULPTURE AT THE CIVIC CENTER

Summary: The consideration of an agreement with Gary Alsum and the National Sculptor's Guild to create and install five bronze figures of Appalachian Dancers and Musicians in front of the Asheville Civic Center.

The Asheville Urban Trail was begun in 1991 by the City of Asheville as part of its ongoing program to improve the quality of life within the City through the display of public art. It is a "museum without walls" that illustrates and highlights the city's rich heritage through 30 interpretive "stations." The Trail was designed by volunteers and built entirely with donations from individuals, groups and organizations. By the end of the summer, 25 stations will be underway. The Urban Trail Committee continues to actively raise additional funds for each station.

Last year the Janirve Foundation donated $5,000 to the City to assist in the selection of an artist to complete five bronze figures of Appalachian Dancers and Musicians. Mr. Gary Alsum, included as a party to this agreement, and the National Sculptor's Guild was selected from over 50 artists who submitted portfolios. Mr. Alsum has considerable experience in completing works of similar complexity and character for public installations. Announcement of the selection and a preview of the models took place at this years Mountain Folk Festival over the July 4th weekend. It is anticipated that installation of the figures will be ready for dedication at next year's Mountain Folk Festival event.

The Urban Trail budget approved by City Council included $160,000 for this station. The project includes bronze representations of two musicians, a fiddler and banjo player, a dancing young couple and a small child.

The Public Works Department staff recommends adoption of the resolution authorizing the Mayor to execute a contract for $160,000 with Gary Alsum and the National Sculptor's Guild for the creation and installation of five bronze figures of Appalachian Dancers and Musicians in front of the Asheville Civic Center.

RESOLUTION BOOK NO. 24 - PAGE 476

H. RESOLUTION NO. 98-118 - RESOLUTION DELEGATING AUTHORITY TO THE PURCHASING DIRECTOR TO PURCHASE APPARATUS, SUPPLIES, MATERIALS OR EQUIPMENT WITH TRADE-INS PURSUANT TO CHAPTER 143 OF THE N.C. GENERAL STATUTES

Summary: The consideration of a resolution authorizing the City's Purchasing Director to purchase apparatus, supplies, materials or equipment with trade-ins.

The 1997 General Assembly enacted Sessions Law 1997-174 entitled "An Act to Update and Revise the Laws Affecting Local Government Contracting". Prior to the passage of that Act, North Carolina local governments were required to treat as separate procurement actions the disposal of surplus personal property and the purchase of new property - thus, for instance, precluding the trade-in of "old" police vehicles which are being replaced in a single contract to purchase the "new" vehicles. Among other things, that Act now allows local governments to include in specifications for the purchase of apparatus, supplies, materials or equipment an opportunity for bidders to purchase as trade-in specified personal property owned by the local government.

The resolution expands the authority which is presently delegated to the City's Purchasing Director to develop specifications, advertise, secure bids, award contracts, etc. in order to permit the Purchasing Director to include trade-ins in future procurements of apparatus, supplies, materials or equipment.

City Council adopt a resolution which authorizes the City's Purchasing Director to purchase apparatus, supplies, materials or equipment with trade-ins.

RESOLUTION BOOK NO. 24 - PAGE 477

I. RESOLUTION NO. 98-119 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT WITH HAWTHORNE OF ASHEVILLE HOMEOWNERS ASSOCIATION FOR STREET IMPROVEMENTS

Summary: The consideration of an agreement with the Hawthorne of Asheville Homeowners Association for improvements to the streets in Hawthorne Village Subdivision in the City of Asheville and acceptance of the streets for maintenance by the City.

Hawthorne of Asheville Homeowners Association requests that the City of Asheville Public Works Department make improvements to the infrastructure in Hawthorne Village. The Association agrees to pay the estimated costs for materials and equipment rental of any non-City owned equipment with the City providing the labor and City-owned equipment for the performance of this work. The materials and equipment cost is estimated at $99,960.00. This process has been used prior to this request, most recently in the Hills of Beaverdam.

The Association requests that the City take responsibility for ownership and maintenance of the roads as a result of this upgrade of the streets as a part of this project in Hawthorne Village. . All of the right-of-way needed for the City to accept the streets is common property belonging to the Association. The Association agrees to provide the right-of-way and to pay for a plat to be prepared and recorded to delineate this right-of-way. The streets included in this project are Elderberry Lane, Morning Glory Drive, Greenbriar Court, Windflower Way, Windflower Court, Foxglove Court, Trillium Court, Lakespur Court and Hedgerose Court.

The construction plans were prepared by the Engineering Department.

Staff recommends the adoption of the resolution authorizing the City Manager to execute and agreement with the Hawthorne of Asheville Homeowners Association for street improvements.

J. MOTION ENDORSING THE ASHEVILLE URBAN AREA METROPOLITAN PLANNING ORGANIZATION AGREEMENT TO BECOME A TRANSPORTATION PARTNER WITH THE CENTER FOR LIVABLE COMMUNITIES

K. MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 8, 1998, TO REZONE A PORTION OF PROPERTY ON TOLULA LANE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE BUSINESS

L. ORDINANCE NO. 2510- BUDGET AMENDMENT RELATIVE TO IMPROVEMENTS TO THE STREETS IN HAWTHORNE VILLAGE SUBDIVISION

Summary: See Item "I" above.

ORDINANCE BOOK NO. 17 - PAGE 140

Councilwoman Field moved to adopt the entire Consent Agenda. This motion was seconded by Councilman Sellers.

Mayor Sitnick said that it has been Council's habit that if someone requests an item be withdrawn from the Consent Agenda to be discussed individually that a vote is taken on that item separately.

The motion made by Councilwoman Field and seconded by Councilman Sellers to adopt the entire Consent Agenda passed on a 5-1 vote with Mayor Sitnick voting "no." Mayor Sitnick noted that she would have voted to adopt Item A separately.

City Attorney Oast said that City Council's rules specify that the Consent Agenda shall only be adopted by unanimous vote of those Council members present at the meeting.

When Mayor Sitnick asked the City Attorney if Council had to vote on an item separately if it is pulled from the Consent Agenda by a member of the public, he said that it has been Council's habit to do that; however, Council does not have to. He did state though when a Council member asks for it to be removed from the Consent Agenda for discussion, then Council has to vote on the matter separately.

Therefore, Councilwoman Field moved to reconsider. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and ordinances on the Consent Agenda and they will not be read.

Councilwoman Field moved for the adoption of the entire Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING 216 SHELBURNE ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY TO INSTITUTIONAL

Mayor Sitnick said that Councilman Cobb was on vacation on the coast of North Carolina, and at his request, intended for him to participate in this public hearing via speaker phone. Unfortunately due to the weather, he was ordered to evacuate and we are now unable to have him participate in this meeting.

Mayor Sitnick said that last week she and Councilman Cobb met with the City Attorney and some members of the Planning Department about possibly coming up with a concept to address the specific needs of Trinity Baptist Church. Interim Planning & Development Director S. Douglas Spell has prepared a memorandum which outlines a concept proposal for a conditional use permit for the Church. She said this proposal would allow for a more consensus oriented solution to the request by the Church for an Institutional zoning that would allow the Church to use its property, that would protect the neighborhood with some conditions that this Council felt could be placed on the development, and would allow protection in the future should the Church have to move to a different campus. She asked City Council if they were interested in considering this concept.

Councilman Sellers felt that if City Council considered a conditional use permit, it would be more conducive to a win-win situation for the neighborhood and the Church and not leaving any doors open for the future if the Church moved for any reason.

Mayor Sitnick said that the conditional use permit concept (1) would provide City Council an opportunity to review each request, (2) would allow appropriate conditions to be attached to each project, (3) allow the merits of each project to be weighed on a case by case basis, and (4) allow City Council to review the site plans during the consideration of the request.

When Councilman Cloninger asked if this proposal would apply to this Church alone, City Attorney Oast said that it would not apply to only this Church or any particular church or any particular piece of property. He explained that the difference between this and the conditional use zoning concept is that this mechanism already exists within the Code - City Council already has some conditional uses. The expanded ministry that some churches are moving toward would be the subject of the conditional use permit. Right now, churches, in the traditional sense, are a sanctuary and a rectory and they are permitted as uses by right subject to special requirements in any residential zone. This concept is for anything beyond that and it would require a conditional use permit. We have not had much opportunity to develop this, however it is an idea we have discussed.

City Attorney Oast said that Councilman Cobb indicated a strong desire to participate in this particular vote and since he was unable to participate, he requested this matter be continued for at least two weeks, preferably four weeks, as a courtesy to him. City Attorney Oast noted that there is a valid protest petition filed with respect to this matter which would mean that 3/4 of the City Council, or six out of the seven members, would have to vote in favor of the rezoning in order for it to pass.

Mayor Sitnick also stated that when the public hearing was last scheduled, there was some concern on the part of the petitioner that there was a member missing, and he probably took that into consideration to be sensitive to the discussion.

Councilman Tomes stressed that churches are moving to a holistic concept and ministry that deals with the total person, not just a Sunday and Wednesday process. If Council is going to be fair, they need to look at, from a holistic point of view, the merging role of religious institutions as we move toward the new millennium. He would like to see a partnership between neighborhood and churches where we can have a win-win situation. However, if we look at it in a narrow focus, we will continue to come back and be haunted with our understanding on what church is about in today's world.

Mayor Sitnick opened the public hearing at 5:35 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger said that Council is faced with three options: (1) vote to postpone at the request of Councilman Cobb; (2) have a full public hearing and vote on the matter; or (3) Trinity Baptist Church can withdraw their petition, in which case if we amend the ordinance and come up with a conditional use permit, the Church can then re-file their petition and their petition would be subject to the amended ordinance.

City Attorney Oast pointed out that City Council can take whatever action it decides to today and if that action were to deny the rezoning or continue it - anything but allow it - that would not stop the process for pursuing the conditional use designation. In fact, those two processes could go on at the same time. He did note, however, that the Church would have to apply for a conditional use permit.

City Attorney Oast said that the consideration of the continuance is really (1) to accommodate the wishes of Councilman Cobb and (2) to consider the possibility of allowing staff to develop the conditional use language and coming back to Council with that designation. He said that it would take approximately two months to adopt the ordinance changes necessary to implement the conditional use permit process.

Other than adhering to Councilman Cobb's request, Councilman Cloninger pointed out that there would be no point in continuing the public hearing in order for City Council to consider a conditional use amendment to the ordinance because the rezoning petition cannot be subject to any amended ordinance passed in the future. The only way their petition could be subject to the amended ordinance would be for the Church to withdraw their petition at this point and re-institute it after the ordinance has been amended.

When Mayor Sitnick asked what would happen with the protest petition if the Church were to withdraw their rezoning petition, City Attorney Oast said that the protest petition would have to be re-filed again.

Mayor Sitnick relayed to Council that Councilman Cobb feels strongly that the Church should be allowed to continue functioning as it wishes and that the neighborhood deserved as much protection as possible. She said he was very clear in expressing his support for the conditional use process.

Mr. Carl Ownbey, Urban Planner, said that the conditional use would be a revision to the Unified Development Ordinance ("UDO") which would outline the requirements for a conditional use permit. It would then be reviewed by the Technical Review Committee and then forwarded onto City Council for their consideration. This would be on a case by case basis and for churches as indicated. He was told that the ordinance revision process would take approximately six months, not two, because of the other Unified Development Ordinance revisions Council has requested. However, the process time could be shortened depending on the priorities of Council.

Councilman Tomes suggested that, during the process of developing this revision, if Council would be amenable to having some people from the faith community to sit down as an ex officio person to give some input. Speaking as a clergyman, unless you understand the language and the intent of the faith community, some inappropriate constraints can be put in place.

As confirmed by Mr. Ownbey, Councilwoman Field said that the project under construction at that site now would continue whether or not the rezoning was approved or withdrawn. If City Council took six months for the conditional use process amendment, it would not mean that the contractor would have to stop. Trinity Baptist Church has met all the requirements for development of their project and they are under construction.

At this time Mayor Sitnick asked for comments from the opposing attorneys relative to the issue of continuing the public hearing.

Mr. David Payne, attorney representing Trinity Baptist Church, said that his clients have waited a long time and they have a lot of plans to make. He felt the furtherance of this issue does not lend itself to the best interest of his client. Therefore, he would object to continuing the public hearing.

Mr. Frank Goldsmith, attorney representing a group of residents of the Shelburne Road area, said that his clients have also waited a long time for resolution of this matter. He said that all of the parties who are most affected by this issue would like to see it put to rest. Therefore, they would like to see the issue resolved tonight and would object to continuing the public hearing.

Mayor Sitnick said that it is the Council's habit that when we have a request from a Council member, that we consider it seriously and that is why we have had this discussion. We have, however, tried unsuccessfully several different way to involve Councilman Cobb in the discussion.

Vice-Mayor Hay felt this was a unique situation in that we have a Council member who planned to participate in this hearing and because of no fault of his own, he is unable to do that. Vice-Mayor Hay said that, personally, he would be disappointed if Council did not continue the public hearing. He said that he would be interested in seeing the conditional use permit language. He agreed with Councilman Tomes that the UDO does not take into account the kind of church ministries that we are dealing with now and can expect to deal with in the future. Regardless of what City Council does with the Trinity Baptist Church rezoning issue, this is an opportunity for City Council to take a step forward so we can deal directly with issues as they arise, with respect to churches. He would like to apply that thinking to this issue as well. He feels that City Council is not trying to stand in the way of what Trinity Baptist is doing, but they are having trouble reconciling that proposal with the way the UDO is written and this gives us a chance to do amend the UDO. If we postponed it pursuant to Councilman Cobb's request, it would also give City Council a chance to deal with the conditional use permit concept.

Mayor Sitnick said that the conditional use permit concept would give City Council some discretion on a case by case basis.

When Mayor Sitnick asked if Council votes against continuing the public hearing and the public hearing proceeds on the Church's rezoning request, can the Council place conditions on the outcome of the vote without this conditional use permit concept being a part of the UDO. City Attorney Oast replied no.

Councilman Cloninger followed up by saying that the only way the Church's rezoning petition could be subject to the conditional use permit, would be if they withdraw their petition and re-file after the UDO is amended with the conditional use permit language.

City Attorney Oast said that the Church would have to apply for a conditional use permit. He said that if City Council were to conduct the public hearing tonight and the requested rezoning did not pass, there would be nothing to prevent the staff from pursuing the conditional use permit concept or to prevent Trinity Baptist Church from taking advantage of that in the future, if it were made part of the ordinance.

Upon inquiry of Councilman Cloninger, City Attorney Oast said that City Council cannot subject the Church to the conditional use permit process, unless they applied for it.

Vice-Mayor Hay said that the Church now has two options in that they can continue with the rezoning application to Institutional and they also have this new conditional use permit concept.

When Councilman Cloninger asked if Council voted the rezoning petition down, would the Church have to wait a year to re-file or could they file for a conditional use permit within the year. City Attorney Oast said that there would be nothing to prevent them from filing for a conditional use permit immediately after Council adopts the amended language in the UDO. He also said that Council could consider the rezoning upon a 3/4's vote.

Councilwoman Field said that several times City Council has been unsuccessful in trying to get the neighborhood and the developers to meet and come to a compromise. She felt like the conditional use process would put City Council in the position of coming up with some compromises.

Mr. Payne said that in order to properly counsel his client in relation to possible change in position, he needs to know certain things, for instance, is Council going to place a high priority on the conditional use permit concept . He noted that in January of this year, his client wrote to the City Attorney and requested a study be done in relation to conditional use. And now, there is an additional six month possible time limit for adoption of the amended UDO. He also said that in April he sent Council a letter outlining their position in relation to consequential and incidental damages as a result of a pulled permit. He felt Councilman Tomes suggestion for clergy participation in the process was excellent.

When Mayor Sitnick questioned the conditional use issue which came up six months ago, City Attorney Oast said that the request was for staff to study and present to Council the concept of conditional use zoning, which does not currently exist in the UDO. Conditional use permits are entirely a different thing and that mechanism does exist in the UDO.

Mayor Sitnick asked if the church withdrew their rezoning petition and Council amended the UDO within 60 days, could City Council waive the one year limit or any additional permit fees that would be required for the Church to reapply? City Attorney Oast said that the one year limitation would not apply because they are not asking for rezoning and the conditional use permit is a different thing entirely. As far as the waiver of fees, he thought Council could take some action in that respect, but at this time he did not know what action that would be.

Mayor Sitnick said that City Council is committed to finding the best solution for all. Some issues of the conditional use permit concept would be (1) identification of the uses permitted, including both principal and ancillary uses; (2) buffering requirements to protect adjacent residential uses; (3) traffic impact on adjacent streets, particularly residential streets; (4) protection of adjacent and surrounding residential neighborhoods; and (5) restricting uses on the church site to church related uses.

Councilman Tomes said that since there are models in ministry, and if we are creative enough to look at those models, then we can compliment the efforts of staff in coming up with language where we would not have to worry about that issue in the future.

Mayor Sitnick agreed in that City Council wants to find something creative for our community that addresses the concerns and the needs of all parties involved. She felt that creative solutions are the way of government. She noted that City Council, when considering a zoning request, cannot vote on the request according to the use that is proposed. They must vote on the request according to whether it is appropriate and meets the infrastructure requirements that are within Council's purview to consider.

Mr. Goldsmith explained why he felt the issue of the conditional use permit is irrelevant as it pertains to the needs of a continuance.

Vice-Mayor Hay said that Councilman Cobb might think that if there was a conditional use permit option available, it would make a difference to him in how he would vote on the request to rezone to Institutional.

Vice-Mayor Hay moved to continue the public hearing until September 22, 1998, as requested by Councilman Cobb. This motion was seconded by Councilwoman Field.

Discussion surrounded whether one month would be sufficient time for staff to develop the language; present it to the Planning & Zoning Commission for their review, public hearing and action; and then back to City Council for their public hearing and action. Or, is the one month just for staff to develop the conditional use concept for City Council's review prior to sending it to the Planning & Zoning Commission for their appropriate actions.

Vice-Mayor Hay felt that within one month, the Church will know what the conditional use permit language will be and that might affect what they do with their application. Also at that time they can see what kind of time frame City Council is looking at for adoption and that the amendment basically had Council's stamp of approval. He understood that the on-going projects are underway and what we are talking about are projects that may or may not be on the drawing board at this point.

Councilman Cloninger said that he would vote against the motion to continue the public hearing because the people deserve an answer tonight. However, if the motion passes to continue, City Council should commit to voting on the issue when it comes back before them.

When Mr. Goldsmith asked when the draft of the conditional use permit language would be available, City Attorney Oast said that the proposed draft will be made available to the interested parties as soon as possible.

Mayor Sitnick said that because she wants to create a win-win solution and out of respect for Councilman Cobb, she would support the motion to continue but will be happy to listen to the public comments should the motion fail.

Mayor Sitnick confirmed that the public hearing on September 22, 1998, would only be on the rezoning request, not on the conditional use permit language.

The motion made by Vice-Mayor Hay and seconded by Councilwoman Field to continue the public hearing for one month failed on a 3-3 vote with Mayor Sitnick, Vice-Mayor Hay and Councilwoman Field voting "yes" and Councilmen Cloninger, Sellers and Tomes voting "no".

Mr. Carl Ownbey said that this is consideration of rezoning three lots (20 acres) on Shelburne Road from RM-6 Residential Multi-Family Low Density to Institutional. The property of Trinity Baptist Church (PIN Nos. 9628-20-81-5544, 7717, and 8232) contains structures that support a church, family life center, and Bible College. The property is at the intersection of Shelburne Road and Sand Hill Road and surrounded on all sides by low density residential. The composition of the surrounding area is an established residential neighborhood with two other neighborhood churches. These three churches exist as a conditional use in a residential neighborhood.

The 2010 Plan indicates the surrounding area to be low density residential which the current zoning permits. The UDO definition of church is "a place where religious worship is conducted and shall not include day care, educational, recreational, and other facilities which are incidental to the place of worship."

The Institutional District is a district established to reserve land for the development of major facilities, major medical facilities and other complementary and supporting uses such as health related developments, office developments, and public services which would not be compatible with the existing residential character of the surrounding area.

The Technical Review Committee states that this area has major water and sewer transmission lines along the south property line. This property is within the city limits of Asheville.

The Planning staff reviewed the rezoning request and recommended denial from RM-6 Multi-Family Residential to Institutional. However, at their January 7, 1998, Planning & Zoning Commission meeting, the Commissioners voted 4-3 to approve the rezoning request from RM-6 Multi-Family Residential to Institutional.

A protest petition was filed on January 22, 1998, and after investigation, the petition was found to be valid.

Upon inquiry of Councilwoman Field if this would constitute an illegal spot zoning, City Attorney Oast said that only a court can determine whether it is a spot zoning or not. He said the factors that a court would consider is the use to which the property is already devoted, the size of the tract and it's relation to other types of institutional uses that may be in the area.

When Councilwoman Field asked what the zoning was prior to adoption of the UDO, Mr. Ownbey said it was split zoned with R-3 and R-2 residential districts.

In response to Councilwoman Field, Mr. Ownbey said that the proposed plan showed a ballfield; however, that was taken off of any consideration and the Sunday School nursery on the site is not considered day care.

Upon inquiry of Councilman Sellers, Mr. Ownbey said that the Planning Department has gone back at least 15 years and it has always been zoned residential.

Mr. Payne spoke in support of rezoning the property to institutional. He said his client has been at this site for 28 years as an institution. His clients attended the UDO meetings as advertised but they were never informed that their rights in relation to the institutional use of their property would be in question or would be taken away. Even though Mr. Ownbey stated that the Church's location has always been in a residential zoning, having known this Church his whole life, he has no recollection of any enforcement agency coming to the Church and saying they are not in compliance. Now they are being told they are an existing non-conforming use. He said in the early 1990's his clients submitted a development plan, permits were applied for and work was commenced. He said that without the institutional zoning, the Church will be severely limited in growth.

Mr. Frank Goldsmith stated that this is not a case about hostility to religion, not a case about hostility to the Church's right to conduct it's mission as it sees fit, and not a case about this proposed use. He cited several institutional uses that could be placed on the property and imposed in the neighborhood if rezoned. He was concerned that if the Church needed to expand further in the future and they sell the property, City Council would be powerless to prevent any other institutional use from establishing itself right in the middle of this neighborhood. He said Council would be setting a dangerous precedent if you allow this rezoning on this particular Church property. There are many religious institutions in this City and they may desire to expand their ministry. How could Council deny their requests if this is granted, and allow multiple institutions to spring up in residential districts. He said that there could be no possible prejudice to the Church's interests if their petition to rezone this property as institutional were denied. As previously discussed, Council is interested in moving forward with some alternate plan that would allow them legitimately to consider the specific proposed use that the Church intends to make of its property. He urged City Council not to rezone the property to institutional in that the down-side to the neighbors is severe, whereas, the down-side to the Church is not as severe as they have an alternate remedy. He felt there is very little question that the Courts would find this property an unlawful spot zoning if rezoned to institutional. He handed out Council a memorandum dated August 25, 1998, in which one point he covers is the potential spot zoning issue. He said that if the problem in the UDO is the definition of "church", then there is a better way to address that problem than to rezone this piece of property to institutional. He said the people believe they have a right to continue to live in, as promised in the 2010 Plan, a low density residential neighborhood. He felt this is an overkill approach to a very sensitive issue to impose in this neighborhood an institutional district.

Mr. John Cort, architect for Trinity Baptist Church, handed out a booklet with contained excerpts from the 2010 Plan and UDO. He spoke about land use. He said that they presented the entire case and linked it to the law and the Planning & Zoning Commission recommended this rezoning to City Council. That is the only way the Church's problem can be addressed under the existing law. He said it was not unusual at all to see an institutional zoning in a residential district, i.e., UNC-Asheville. He said spot zoning is not an issue. Regarding infrastructure, the Church is located on an existing minor thoroughfare, on a public transit route, and the Church is located on the major water and sewerage plan maps. He pointed out that on the existing land use map of the 2010 Plan, the Church's property is recognized as an institutional use. He urged Council to zone the property institutional.

Rev. Jerry Young, Associate Pastor of Trinity Baptist Church, noted that the Church's development process has been on-going for the past five years and work commenced in 1994 and 1995. Now, according to the UDO, all their planned uses are non-conforming. He noted a letter dated August 13, 1998, from the City's Development Code Enforcement Administrator which states that they have "received complaints of the Church's property being used for outside catering, dinners, model train exhibits and other special events not related to church activities as defined" in the UDO. The Church as a long history of holistic ministry and they have been caring for the needs of the Asheville community for 28 years. They can only continue to do that if the rezoning to institutional is allowed. If the rezoning is denied, many of the present ministries of the Church will be shut down. He said the Planning Department will close their Bible College and their family life center because the uses are non-conforming. He urged Council to support rezoning the Church's property to institutional.

Mr. Ownbey said that the Planning Director instructed him, as a result of complaints received, to check all of the activities going on with the Church. He called Rev. Young and asked him to explain those activities to him. He then talked with Ms. Allen, Code Enforcement Administrator, and the City Attorney to discuss the issues in order to determine if there were any violations. The only one they could not make a determination on whether it was in violation of the UDO, was the catering activities. Ms. Allen sent a letter to Mr. Young asking for clarity. He said at no time did they threaten to shut the Church down.

Rev. Ralph Sexton, Pastor of Trinity Baptist Church, felt this was a first amendment issue - the right of a church to be a church. He reiterated that the infrastructure in the area exceeds the requirements. He said that their project cannot continue because they don't know if they have a future. Rev. Sexton stressed that the Church cares about their neighborhood.

Mayor Sitnick again stressed that City Council must consider all of the potential uses permitted under the Institutional district, not what the Church has plans for.

Upon inquiry of Vice-Mayor Hay, Mr. Ownbey said that the projects that have been approved and are underway now will not be stopped.

Mr. Payne said that the Church had submitted all of their documentation in relation to their full plan and it was their position that they had done so prior to the implementation of the UDO. Subsequently that permit was pulled and they were stopped. He gave his clients two options: (1) file a lawsuit and try to fight for what you already think you have; or (2) attempt to comply under the UDO. He said that since he was losing $1,000 a day interest on his bonds alone waiting for something to be done, he counseled his clients to attempt to comply with the UDO. He requested that their full plan be grandfathered in. Since the Church does not have an option at this time, he requested Council rezone the property to institutional.

The following people spoke in favor of rezoning the Church's property for various reasons: some needed ministries (like to the young people), will not conform to the UDO; Trinity Teen Church is a vital ministry that reaches out to our community; and a bigger facility is necessary to accommodate the additional people coming into the community:

Rev. Jerry Dykes, Pastor of the North Asheville Baptist Church
Mr. Matthew Templeton, 26 year member of Trinity Baptist Church
Ms. Bonnie Contreras, downtown and West Asheville business owner
Rev. Tim Brady, Youth Pastor at Trinity Baptist Church
Mr. Shawn Manning
Ms. Beverly Parrish
Rev. Wendell Runion, President and Director of International Baptist Outreach Missions
Ms. Pat Atkinson, 203 Shelburne Road

The following people, who mentioned several times they are not anti-church, spoke against rezoning the Church's property for various reasons: if the property is rezoned to institutional, anything allowed under that zoning can be placed on that land and Council has no authority to regulate it; the Church might outgrow this piece of property and when they move, the property will be left zoned institutional; the neighborhood does not want a Thomas Wolfe Auditorium size building on that property; traffic is already heavy; if Council rezones this property for the Church to expand, the other two Churches on Shelburne Road might also want to expand eating up residential property in the area; barrels and cones are needed so often for traffic control they are not put away; there are no more mature trees in the area; with the exception of the Sextons, these people do not live on Shelburne Road - they only come to visit and they are trying, as visitors, to dictate what zoning can be done on the neighborhood's streets; this has been a residential community for over 40 years and it should remain residential; the noise level would be significant; residents already have trouble getting in and out of their driveways due to the traffic; the new proposed building would block the view Mt. Pisgah; the neighborhood did not oppose the Church when they requested variances; this is a community of over 30 families; lights from the parking lot shine into the homes; and the City will be losing at least 66-70 residential homes due to the I-240 widening:

Ms. Ann Anderson, 147 Shelburne Road
A resident on Sand Hill Road
Ms. Lou McCarthy, 243 Shelburne Road
Mr. Norman Anderson, 147 Shelburne Road
Ms. Jesse Corpening, 152 Shelburne
Ms. Jean Jennings, 251 Shelburne Road
Mr. J.D. Jennings, 251 Shelburne Road
Ms. Norma Price, 26 Zephyr Road (passed out a letter dated August 25, 1998)

Reverend Young said that the Church's position had been adequately made. He said they would not waste Council's time in bringing their supporters forward to speak on the Church's behalf to rezone it's property institutional.

Mayor Sitnick closed the public hearing at 8:08 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved to rezone 216 Shelburne Road from RM-6 Residential Multi-Family Low Density District to Institutional. This motion was seconded by Councilman Tomes.

Councilman Sellers said that he does understand the long term effects if the Church moved for any reason. However, they have existed at that location for 28 years and have been good neighbors. He respected the Planning & Zoning Commission's recommendation and agreed with the information from the 2010 Plan Mr. Cort presented. He did feel that the infrastructure was in place for this rezoning.

Councilman Tomes said that religious institutions, churches, must be viewed and understood in the context of a seven day a week ministry. Given the governmental cutbacks and social programs cut out that have been proposed, traditionally religious and secular charities will not be able to take up the slack. The Christian church traditionally has always played an important role promoting positive values in our communities. He was disturbed when we try to make strategic option appear to be in conflict when in fact they can be made to blend with a reasonable sense of balance. Therefore he suggested that neighborhoods and faith communities partner in community building. He read a clipping from a community that had met this balance.

City Attorney Oast reminded City Council that there is a valid protest petition filed with respect to this matter. This would require all six Council members present to vote in favor of the motion to approve the rezoning.

Mr. Payne objected to the voting requirements, in that they do require a unanimous vote of the Council. He said that unduly burdens his client. He made a formal objection to the requirement in the UDO which requires a simple majority and in this sense a majority vote.

City Attorney Oast pointed out that what is in the UDO is an almost word for word reproduction of what State law provides.

Councilman Cloninger very much respected the good work the Church is seeking to accomplish. He would also like to find a way to have a blended approach to this matter. He could not, however, vote in favor of changing the zoning to institution because, as was brought out earlier, in reviewing this rezoning proposal, Council has to consider all the potential uses of the property and not just the use that the Church wants to make of it. The institutional zoning would allow a variety of commercial uses that, in the future if the Church were to decide to relocate, would not be suitable for that neighborhood. However, he does look forward to working on a revision to the UDO that allows for a conditional use process with respect to churches. He was hopeful that Council would pass a conditional use amendment that will allow Council to arrive at a blended approach so that we can allow the Church to go forward with its work in a manner that is acceptable to them as well as to the neighborhood in that area. He did note that all of the current projects of the Church will be able to go forward while we are looking at revising the UDO.

Upon inquiry of Rev. Sexton, Councilman Cloninger said on behalf of City Council, that it is not the intention of the City to shut down any of the Church's ministries. Mayor Sitnick said that City Council will look into their concern of being shut down and will make sure that communications in the future are clear, precise and understood.

Councilwoman Field said that she believes strongly in the separation of church and state. She asked the City Attorney, with a slip of paper at the meeting, to help her understand what separation of church and state means in relationship to zoning. Because it was too long and complicated, he could not give her a brief answer. Therefore, she would have to put that issue aside. She supports mixed-use and not isolating neighborhoods into little ghettos. If the City is going to have walkable communities and our churches are going to provide day care and recreational facilities for our children, then there are serious problems with the UDO. She felt the community needed neighborhood churches, neighborhood commercial, walkable communities, and multi-family mixed with single-family. Therefore, she would vote for the institutional zoning even though it is probably not the most appropriate zoning for the area. She voted to delay this so we could get a better definition of churches and possibly come up with some kind of win-win situation. She said she would vote on what she felt was best for land use.

Vice-Mayor Hay said that if the law is not right, it's up to City Council to change that law. He hoped that Council would move forward purposely and quickly on the whole issue of a conditional use amendment. He believes in the mission of Trinity Baptist Church and it is the kind of thing we want going on in this City. However, he feels bound to follow the law which says that he can't take into account the proposed use of this property. He explained that he comes from a family of church builders and he understands about mission and about calling. Good things are going on in your church when a church grows. He said he would have to vote against the rezoning but wanted to say how sincere he was in wanting to change the law so that Trinity's mission can take place in the way we believe that it should.

Mayor Sitnick was very committed to being creative in this matter in trying to find a way to accommodate the needs of all of the constituents she cares about. She has not received one letter, in the stacks of mail received on this issue, from anybody who opposes what Trinity Baptist Church does and what it does for this community. The concerns revolved around traffic and buffering. Their main concern was as Trinity grew and outgrew it's current campus and had to move, that one of the other uses permitted in the industrial zone could invade that neighborhood and cause worse traffic. Her concern was making sure that the projects the Church is undergoing now are able to continue, and we have been assured that that is the case. She is committed to coming up with a creative approach for all churches to be able to grow sensitively and appropriately within the communities they are located in. With great pain in her heart, she would vote against the institutional. She requested staff immediately draft language to address the minimal conditions that she would like to see placed on the church as it continues its projects that are already underway, that will allow it to continue building the buildings it has for the future, and that will protect the neighborhood a little bit more. She requested updates from staff as that language is being drafted to make sure that the entire Council agrees and to make sure that we don't impede what the Church is already doing. She hoped that the Church will come back to Council for a conditional use permit for the Church to grow and outreach and serve the community.

The motion made by Councilman Sellers and seconded by Councilman Tomes died on a 3-3 vote, with Councilwoman Field and Councilmen Sellers and Tomes voting "yes" and Mayor Sitnick, Vice-Mayor Hay and Councilman Cloninger voting "no".

At 8:32 p.m., Mayor Sitnick announced a short break.

B. PUBLIC HEARING RELATIVE TO CLOSING AN UNNAMED ALLEY BETWEEN MILLER AND POND AVENUES

RESOLUTION NO. 98-120 - RESOLUTION TO PERMANENTLY CLOSE AN UNNAMED ALLEY BETWEEN MILLER AND POND AVENUES

Mayor Sitnick opened the public hearing at 8:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Public Works Director, said that a petition has been received from First Citizens Bank & Trust Company requesting that an unnamed alleyway between Miller Avenue and Pond Avenue be permanently closed to public use.

The petition received includes the affidavit of First Citizens Bank and Trust Company, owner of parcels 9654.05-09-7679,7851,8772, and 8970. First Citizens Bank and Trust Company owns all of the property with frontage on the unopened alleyway between Miller Avenue and Pond Avenue that has been petitioned to be closed.

The Public Works Department staff recommends adoption of the resolution to permanently close the unnamed alleyway between Miller Avenue and Pond Avenue be adopted.

Mayor Sitnick closed the public hearing at 9:00 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-120. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 480

C. PUBLIC HEARING RELATIVE TO AN APPROVED LANDSCAPE PLAN FOR THE ADDITIONS TO THE BROOKS-HOWELL DEVELOPMENT

Mayor Sitnick opened the public hearing at 9:01 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of a motion to revise the approved landscape plan for the additions to the Brooks-Howell development.

In August of 1997, City Council approved a group development consisting of 11 residential units at the Brooks-Howell Home on Hillside Street. Additionally, a variance to allow an alternate landscape buffer plan was approved by City Council in September, 1997. This alternate buffer plan was designed to meet the intent of the buffering requirement while being more sensitive to the adjoining property.

The original buffer plan was approved by City Council as part of a group development plan. Two large existing trees, which were part of the proposed buffer plan, were later removed by Brooks-Howell Home following the recommendation of a tree pathologist. Because the removal of these trees was contrary to the approved plan, a revised buffer plan is required.

The new proposal is to add a number of evergreens and two large hardwood trees in the location of the removed trees. He understood that the architect and the Brooks-Howell representatives have worked out this amended plan with the affected property owner, not only to the amended plan itself, but also with regard to the selection of tree species.

At their August 5, 1998, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the amended landscape buffer plan with the condition that the final selection of tree species be selected prior to the City Council meeting at which this item will be presented.

Mayor Sitnick closed the public hearing at 9:02 p.m.

Councilman Sellers moved to adopt the approved landscape plan for the additions to the Brooks-Howell development. This motion was seconded by Councilman Tomes and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-121 - RESOLUTION TO ACCEPT THE STREET NAME "HICKMAN DRIVE" AND CHANGE A DUPLICATE STREET NAME FROM GLENDALE DRIVE TO HICKMAN DRIVE

Councilman Cloninger said that his firm represents Mr. Hickman, therefore, Vice-Mayor Hay moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Tomes and carried unanimously.

Summary: This is the consideration of a resolution to accept the new street name "Hickman Drive" and changing a duplicate street name from Glendale Drive to Hickman Drive.

John B. Hickman, owner of all lots located off of Sweeten Creek Drive, has petitioned the City of Asheville to adopt the street name change from Glendale Drive to Hickman Drive. Hickman Drive is located at Sweeten Creek Road and ends at the property line of W.P. Hickman Co. Staff recommends adoption of the resolution.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-121. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 481

B. RESOLUTION NO. 98-122 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AGREEMENTS FOR EXCESS LIABILITY COVERAGE FOR THE CITY'S SELF-FUNDED PROGRAM FOR LIABILITY

Mr. John Miall, Risk Manager, said that this is the consideration of a resolution to authorize the City Manager to execute agreements for excess liability coverage for the City's self-funded program for liability, which program covers general, auto, law enforcement, public officials, and dams liability.

Upon self-funding its liability program in 1993, the City stopped purchasing insurance, and began a program for partial self-funding protected by excess only coverage. This type of program is structured to limit the City's exposure to catastrophic losses.

The last year the City was fully insured in 1992 its lowest bid premium costs were approximately $1,300,000 annually. Since that time through negotiated renewals the costs for the excess only program were $380,000 for the current year.

By allowing the two incumbent agents who qualified through an agency/brokerage process in 1993 to seek renewal proposals from interested markets, the City has received renewal proposals this year of approximately $255,000. These rates are guaranteed for three years, and will not increase annually more than $3,000 per year.

He said that they have just renewed the worker's compensation excess program for the coming year at a $30,000 reduction in premium. They are looking in the neighborhood of $210,000 less in premiums in the coming year.

Staff recommends the City Manager be authorized to execute the required agreements to secure the excess coverage's for the City's self-funded excess liability program.

Upon inquiry of Councilwoman Field, Mr. Miall explained that under the agreement between the Asheville Claims Corporation, the City's commitment is to keep its dollars at 1993 levels. Any savings that accrue to that will build up in the Risk Management Fund. The agreement was for a 10 year program and we are now half-way through. At the end of that time, he expected that the City will purchase little or no insurance of any kind.

Upon inquiry of Vice-Mayor Hay, Mr. Miall said that the City Hall building is insured at a replacement cost plus artistic value.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-122. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 482

C. RESOLUTION NO. 98-123 - RESOLUTION REAPPOINTING MEMBERS TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE

Vice-Mayor Hay said that the terms of Margie Liverman and Francis Black expired on August 22, 1998. This resolution will reappoint Mr. Black to serve an additional three year term. His term will expire on August 22, 2001, or until his successor has been appointed.

Vice-Mayor Hay said that Ms. Liverman was not interested in being reappointed and the vacancy left by her will be advertised at the next quarterly appointment process.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-123. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 483

D. RESOLUTION NO. 98-124 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE DOWNTOWN COMMISSION

Vice-Mayor Hay said that Beth Lazer and Victor Trantham have resigned their positions on the Asheville Downtown Commission, leaving two unexpired terms. One expired term is until December 31, 1999, and the other unexpired term is until December 31, 2000.

On August 11, 1998, City Council interviewed Monroe Moore, Steve Harrington, Brenda Sconyers. Alan Levy was interested in the position, however, he was unavailable to interview at the times available.

Councilwoman Sitnick nominated Brenda Sconyers and Alan Levy.

Vice-Mayor Hay nominated Steve Harrington.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted two candidates: Brenda Sconyers received four votes; Alan Levy received six votes and Steve Harrington received two votes. Therefore, the resolution will (1) appoint Alan Levy to fill the unexpired term of Beth Lazer, term to expire December 31, 2000, or until his successor has been appointed; and (2) appoint Brenda Sconyers to fill the unexpired term of Victor Trantham, term to expire December 31, 1999, or until her successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 484

E. RESOLUTION NO. 98-125 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Hay said that the term of Brian Peterson expired on July 1, 1998, and Mr. Peterson was not interested in serving another term. The term of office is three years, with term expiring on July 1, 2001.

On August 11, 1998, City Council interviewed John Best, Allen Roderick and Chris Slusher.

Councilwoman Field nominated Chris Slusher and John Best.

Mayor Sitnick nominated Allen Roderick.

Vice-Mayor Hay said that he talked to Mr. Slusher about resigning from his current appointment on the Civic Center Commission if appointed to the Historic Resources Commission. Mr. Slusher stated that he would like to remain on the Civic Center Commission.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted. John Best received no votes, Allen

Roderick received five votes and Chris Slusher received one vote. Therefore, the resolution will appoint Allen Roderick to serve a three year term, term to expire July 1, 2001, or until their successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 485

F. RESOLUTION NO. 98-126 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD OF DIRECTORS

Vice-Mayor Hay said that Mr. Larry Casper has resigned as a member of the Metropolitan Sewerage District Board of Directors, leaving an unexpired term until January 19, 1999.

On August 11, 1998, City Council interviewed Ben Slosman, Luke Carpenter, Dee Williams and Brady Blackburn.

Councilman Sellers nominated Brady Blackburn.

Mayor Sitnick nominated Ben Slosman.

Councilman Tomes nominated Dee Williams.

Vice-Mayor Hay reminded Council that Mr. Slosman recommended City Council appoint Mr. Blackburn and that he serve in an advisory capacity.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted. Brady Blackburn received five vote, Ben Slosman received no votes and Dee Williams received one vote. Therefore, the resolution will appoint Brady Blackburn to serve Mr. Casper's unexpired term until January 19, 1999, and then a full three year term, term to expire January 19, 2002, or until his successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 486

G. RESOLUTION NO. 98-127 - RESOLUTION APPOINTING A MEMBER TO THE TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Hay said that the term of Loyd Kirk expires on August 30, 1998, and Mr. Kirk was not eligible to serve another term. This position must be filled by an owner or operator of a hotel, motel or other taxable tourist accommodation with 100 or fewer rental units. The term of office is three years, with term expiring on August 30, 2001.

On August 11, 1998, City Council interviewed Barbara McEwan and Chris Moutos.

Mayor Sitnick nominated Barbara McEwan.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Barbara McEwan was unanimously appointed to serve a three year term, term to expire August 30, 2001, or until her successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 487

H. RESOLUTION NO. 98-128 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE TREE/GREENWAY COMMISSION

Vice-Mayor Hay said that the term of Dennis Wilson expired on August 1, 1998, and Mr. Wilson was not eligible to serve another term. This position is for a three year term, with term expiring on July 1, 2001.

On August 11, 1998, City Council interviewed G. Leigh Wilkerson and Gerry Hardesty.

Councilwoman Field nominated Gerry Hardesty.

Vice-Mayor Hay nominated G. Leigh Wilkerson.

Vice-Mayor Hay noted that Mr. Hardesty said that he was more interested in serving specifically on a Greenway Commission.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Gerry Hardesty received no votes and G. Leigh Wilkerson received six votes. Therefore, the resolution will appoint G. Wilkerson to serve a three year term, term to expire July 1, 2001, or until her successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 488

I. RESOLUTION NO. 98-129 - RESOLUTION REAPPOINTING A MEMBER TO THE REGIONAL WATER AUTHORITY OF ASHEVILLE, BUNCOMBE AND HENDERSON

Vice-Mayor Hay said that the term of Kevin Green expires on September 30, 1998. This position is for a three year term, with term expiring on September 30, 2001.

Vice-Mayor Hay noted that at the beginning of the quarterly appointment process Mr. Green was not interested in being reappointed; however, he has since changed his mind and would now like to be reappointed to the Regional Water Authority.

Mayor Sitnick nominated Kevin Green.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Kevin Green was unanimously reappointed to serve a three year term, term to expire September 30, 2001, or until his successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 489

J. RESOLUTION NO. 98-130 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS/POLICE ADVISORY COMMITTEE

Vice-Mayor Hay said that Dick Rice has resigned his position on the Citizens/Police Advisory Committee, leaving an unexpired term until June 30, 1999. The position must be filled by a west Asheville representative.

On August 11, 1998, City Council interviewed Jimmy Hungerford and Josefine Matty.

Councilman Cloninger nominated Jimmy Hungerford.

Councilman Sellers nominated Josefine Matty.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted. Jimmy Hungerford received five votes and Josefine Matty received one vote. Therefore, the resolution will appoint Jimmy Hungerford to fill the unexpired term of Mr. Rice, term to expire June 30, 1999, or until his successor has been appointed.

RESOLUTION BOOK NO. 24 - PAGE 490

K. RESOLUTION NO. 98-131 - RESOLUTION APPOINTING MEMBERS TO THE RIVER DISTRICT DESIGN REVIEW COMMITTEE

Vice-Mayor Hay said that City Council adopted Ordinance No. 2437 amending the Unified Development Ordinance regarding river district design review. In said ordinance, a River District Design Review Committee was established. The City Council Boards and Commissions Committee recommend the following:

Gail McCarthy and Laura Webb - Two members of the RiverLink Board of Directors;
E. Benson Slosman and Hunt Mallett - Two owners of property located within the River District;
Kimberly Hodges - One of two design professionals including, but not limited to, architects, engineers, or qualified artists; and
Edward Metz - One member selected at the Council's discretion.

All members shall serve a three year term, said terms to begin September 1, 1998.

Vice-Mayor Hay said that the vacant position of a design professional will be included in the next quarterly appointment process.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Mayor Sitnick moved for the adoption of Resolution No. 98-131. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 491

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 11, 1998, AND THE WORKSESSION HELD ON AUGUST 18, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on August 11, 1998, and the worksession held on August 18, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. RIVER MASTER PLAN

Councilman Cloninger said that during the budget process, one of the items which had to be deleted was $50,000 for the River Master Plan. He asked if Council would consider looking to bring that back into the budget as a result of some insurance savings, and also with some funds from the cable agreement. He said that there is some other money potentially available for the

465

development of a master plan that will be contingent upon the City's $50,000. He asked this matter be placed on a worksession agenda in the near future and inviting the relevant parties to the meeting.

After a short discussion on the five unfunded requests, it was the consensus of City Council to bring these matters back to Council at their September 15, 1998, worksession for further consideration.

C. PUBLIC HEARING AMENDING THE UNIFIED DEVELOPMENT ORDINANCE AS IT RELATES TO THE DEFINITION OF ANTENNAS AND TELECOMMUNICATION TOWERS

City Attorney clarified the motion made on August 14, 1998, relative to the public hearing on the amendment to the Unified Development Ordinance. The City Council continued their discussion on this matter to the September 1, 1998, worksession, with the public hearing being continued until October 27, 1998.

D. AMENDMENT TO THE UDO RE: CONDITIONAL USE PERMIT; CITY COUNCIL PROCEDURAL CHANGE

Mayor Sitnick reiterated that City Council needs to act hastily on the conditional use permit for churches.

Mayor Sitnick asked that the two draft procedural changes be placed on the September 1, 1998, worksession agenda. One draft change is from Councilman Cloninger and one is from Mayor Sitnick.

E. REQUEST FOR NON-ENFORCEMENT OF LAWS CRIMINALIZING CANNABIS USERS

Mayor Sitnick explained the reason why she will ask for a motion to suspend the rules and limit the debate on this issue for one speaker for 10 minutes or two speakers for 5 minutes is because City Council has no authority to rule on this matter.

Councilman Sellers moved to suspend the rules and limit the debate for this issue only to one speaker for 10 minutes or two speakers for 5 minutes. This motion was seconded by Councilman Tomes and carried on a 4-2 vote, with Mayor Sitnick and Councilwoman Field voting "no".

Mr. Steve Rasmussen, spokesman for the people labeled 'People for Cannabis', said that there is in fact no such organization or formal group, Instead, they are a wide cross-section of individual citizens and voters and members of various organizations. He said that earlier there were scores and scores of people who wanted to address Council. But, because they were understandably moved outside and some were harassed by the police, not many chose to remain. They asked to direct the police force, which in America is to remain under the control of the citizenry and it's elected representatives, to stand back in whatever way possible, minimize Asheville's involvement in the persecution of this herb called hemp,. Cannabis, marijuana. Many other cities have passed legal ordinances, i.e., Breckenridge, Colorado, San Francisco, California. Although they are committed to the intent of the ordinance, they are flexible about the means and it's particular wording is not carved in stone. They want to work with Council on this and are willing to meet them half-way. Doctors have unofficially prescribed marijuana to them when they found that this natural herb was the only effective medicinal treatment for their life-threatening illnesses. Their patients are routinely arrested and harassed and their property and medicine seized. There are huge potential economic and environmental benefits of a re-legalized hemp industry.

Mayor Sitnick said that it is her discretion to limit speakers tonight to three minutes each.

When Mr. Rasmussen asked if the Mayor would add this item to an upcoming agenda, Mayor Sitnick replied that she would not. She again stated that City Council has no authority to rule on this request.

Mr. Rasmussen said that there are many ways which City Council does have authority to action on their request. They could simply issue a declaration of support.

Mayor Sitnick said that it is the consensus of this City Council to not ask our police force to not uphold the law or to discriminate in their drug enforcement procedures.

Mr. Dan Waterman was distressed to see the actions being taken at a particular group of citizens. He said they are not looking for easy agreement but assurance that Council would be willing to work with them, even if the resolution is rejected.

Mayor Sitnick asked why they are not going to the body of government that can address their request. Mr. Waterman said that something can be done at this level of government if just Council would just want to. He noted that every city has obsolete laws they don't enforce.

Mr. Waterman said that he paid his State marijuana tax and to enact a tax and then enact a criminal penalty is double jeopardy.

Mr. Dave Mittler questioned why their group was being filmed outside the City Hall Building. He said that City Council has a chance to set precedence and they are closing their minds to it. They deserve to be worked with and not rejected. He said they are patient and they are willing to wait until they are heard and Council is willing to work with them.

Ms. Dixie Dearman was expressed at what she considered to be excessively punitive reaction to our resolution.

F. CLAIMS

The following claims were received by the City of Asheville during the week of August 7-13, 1998: Tilden White (Police), BellSouth (Water), Frederick L. Harper (Water) and Suzanna Biro (Water).

The following claims were received during the week of August 14-20, 1998: Dulcie McKenzie (Civic Center) and Lisa Ramsey (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

G. LAWSUITS

The City of Asheville received an Amended Complaint on August 12, 1998, which is generally described as follows: Tera A. Taylor, et al., v. Tim Ray Goodridge, et al. The nature of the proceeding is for the purpose of adding parties as co-defendants. The complaint seeks compensatory and punitive damages for the death of David Thomas Lushbaugh.

467

The City received an Amended Complaint on August 25, 1998, which is generally described as follows: Betty Underwood v. City of Asheville. The nature of the proceedings is negligence due to a dislocated water meter lid.

Both of these matters will be handled by an outside attorney.

VII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:52 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 1, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT AGENDA:

Contract for Infrastructure Improvements for Twin Springs Subdivision

Summary: The consideration of a resolution authorizing the City Manager to accept the lowest responsible bid of Tennoca Construction Company for the infrastructure construction of Twin Springs Subdivision.

Mattern & Craig Consulting Engineers, on behalf of the Community Development Division, opened bids for the infrastructure construction of Twin Springs subdivision on August 12, 1998. Infrastructure construction will include, but not be limited to, water, sanitary sewer, storm drainage lines including appurtenances, street, sidewalk, curb and gutter, and minor landscaping. The lowest bid received for the project was in the amount of $498,537.00 from Precision Contracting, Inc. However, Precision Contracting, Inc. is properly licensed in North Carolina to do construction work to a limit of $500,000.00. Precision's total work would not be allowed to exceed its licensing capabilities, which could effect performance on the contract should change orders be required. The amount of funds available for the project is $544,512.00.

Community Development staff recommends rejecting the low bid from Precision Contracting, Inc. in accordance with N. C. General Statute Section 143-129 and awarding the contract to the next lowest responsible bidder, Tennoca Construction Company. Tennoca's bid was in the amount of $511,153.50. Tennoca Construction Company, Inc. has an unlimited license in North Carolina. The City Attorney's office has concurred with the engineer's recommendation against accepting the bid from Precision Contracting, Inc. due to the bid amount compared to the limit of their contractor's license. Approval of the resolution will award the contract to Tennoca Construction Company for the infrastructure construction of Twin Springs subdivision.

The Community Development staff recommends adoption of the resolution authorizing the City Manager to accept the lowest responsible bid of Tennoca Construction Company for the infrastructure construction of Twin Springs Subdivision.

Asheville Metropolitan Planning Organization Public Involvement Process

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract for assistance in developing a public involvement process specific to transportation related planning efforts.

As the Lead Planning Agency (LPA), the City of Asheville plays an integral part in how the Asheville Urban Area Metropolitan Planning Organization (MPO) functions. Since the administrative functions of the MPO are conducted from the Planning and Development Department, it is essential that requests for professional services go through City Council for approval. The Federal Highway Administration (FHWA) and the N. C. Dept. of Transportation (NC DOT) will reimburse the City of Asheville 80% of the cost of the contract.

The public involvement process are the result of over two years of effort on the part of the Citizen's Transportation Advisory Committee (C-TAC) to place a higher emphasis on how we solicit and gather input from the public. It is the desire of the C-TAC that with such a process in place, the recommendations made to the NC DOT, the FHWA and other agencies will be more reflective of the needs, wants and desires of the public in our area.

The contract is to assist in development of the process and train local citizens, staff and public officials in the process. Should we desire to solicit help from consultants to actually conduct the process, then we would prepare a contract specific to that endeavor.

The staff from the Planning and Development Department recommends adoption of the resolution authorizing the City Manager to enter into a contract with Parsons, Brinckerhoff, Quade & Douglas Inc. to provide for planning assistance to the MPO for the development and implementation of a public involvement program.

Set Public Hearing to Close Wilson Alley located between Hendersonville Road and Summit Street

Summary: The consideration of a resolution to set a public hearing to permanently close Wilson Alley between Summit Street and Hendersonville Road.

A petition has been received from Janet L. Young and Paul M. Young requesting that an Wilson Alley between Summit Street and Hendersonville Road (U.S. Route 25) be permanently closed to public use.

The petition received includes the affidavit of Janet L. Young and Paul M. Young, owners of parcels 9647-07-77-2987 and 4803. Janet L. and Paul M. Young own all of the property with frontage on the unopened alleyway between Summit Street and Hendersonville Road that has been petitioned to be closed.

Wilson Alley is a paper street and has never been used as a alleyway. There are no plans to utilize this alleyway. All utility companies will be contacted, the resolution of intent to close Wilson Alley will be advertised in a local paper, and the location will be posted with the resolution of intent to close.

The Public Works Department staff recommends adoption of the resolution of intent to permanently close Wilson Alley from Hendersonville Road to Summit Street.

After School Program Grant

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N. C. Dept. of Health and Human Services to provide food service in the After School Program.

The Parks and Recreation After School Program provides supervised licensed child care, recreation, enrichment activities, and food service to children ages 5 to 12 during after school hours, teacher work days, and holidays at six program sites. Sites are located at Claxton, Dickson, Hall Fletcher, Jones, and Vance Elementary Schools; and Reid Community Center. Sites are licensed by the State of North Carolina with a child/staff ratio of 1 to 25. Snacks are provided in the afternoon, and breakfast and lunch is provided on holidays and teacher work days. Activities include arts and crafts, games, sports, science, music, homework time, and special events. Fees are based on the number of children from each family and frequency of attendance. Parks and Recreation will contract with Asheville City Schools for food service at a rate of $0.95 per breakfast, $1.75 per lunch and $0.65 per snack. The grant will reimburse Parks and Recreation approximately one third of the cost of providing food service in the After School Program. The number of meals will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville to apply for the grant funds through the Child and Adult Care Food Program.

Spivey Mountain Reservoir Project

Summary: The consideration of a resolution approving the Regional Water Authority's recommendation to award a contract to Taylor and Murphy Construction Company for the Spivey Mountain One Million Gallon Reservoir.

Sealed bids were received for the Regional Water Authority's Spivey Mountain Reservoir. This is the last phase of the Master Plan Phase II Project that will alleviate periodic water pressure problems in the extreme western section of our water distribution system, provide more reliable water service in the Leicester section of our water system and allow for future growth and development in both these areas. Contracts have already been awarded to Cooper Construction Company and Haynes Electric Construction Company for the pumping station and waterline installation components of this project.

Four bids were received with Taylor and Murphy Construction Company of Asheville, North Carolina submitting the low base bid and alternate bid of $ 577,340 and $ 532,340 respectively. All the bids received are listed below in the order of their bid:

COMPANY	BASE BID	ALTERNATE BID
Taylor & Murphy Construction Co., Asheville, NC	$ 577,340	$ 532,340
Hobson Construction Co., Arden, NC	$ 634,000	$ 582,500
Cooper Construction Co., Hendersonville, NC	$ 640,000	$ 596,000
Wheeler Construction Co., Weaverville, NC	$ 750,000	$ 750,000

The Regional Water Authority approved award of this contract to Taylor and Murphy Construction Company on August 18, 1998, subject to the approval by the Office of Minority Affairs. City staff recommends City Council's concurrence with the Authority's action.

Sale of Alcoholic Beverages at Great Smokies Craft Brewers Invitational

Summary: The consideration of a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the Great Smokies Craft Brewers Invitational at the Martin Luther King Jr. Park on September 19, 1998.

The Great Smokies Craft Brewers Invitational is a unique celebration of the art of brewing beer in the spirit of Oktoberfest with a smokey mountain twist. The Asheville Downtown Association in conjunction with Barley's Tap Room, the Radisson Hotel, Asheville Parks and Recreation and other local businesses have developed this festival to highlight the quality beers of the region. Over 30 brewers have been invited to present their high quality beers in a festival atmosphere at the Martin Luther King, Jr. Park on September 19, 1998. Local entertainment and food will be available from 1:00 p.m. - 6:00 p.m.. Proceeds from the event will benefit the Asheville Urban Trail project. The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during this event on City property.

The Asheville Parks and Recreation Department recommends adoption of the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

I-26 CORRIDOR BRIEFING

Mr. Gordon Myers, N.C. Board of Transportation member, along with other N.C. Dept. of Transportation ("NC DOT") representatives, updated City Council on the process NC DOT has been through the past seven years on the I-26 Corridor Project. NC DOT will be holding public hearings in November and January or February of next year on the specific routes of the proposed connector. He said the use of federal funds in this project necessitated a very distinct process that NC DOT went through with regard to choosing of the corridor. The decision on the corridor was not made by NC DOT but a group of citizens in the Asheville area in cooperation with the Transportation Advisory Committee. He said NC DOT was reacting to what has been recommended by the Committee and approved by the City Council.

Mr. Blake Norwood, NC DOT Planning Branch, passed out a timeline of the project and highlighted some specific points while reviewing the history of the project. He said the Asheville Connector Advisory Committee ("ACAC") recommended on a 6-3 vote to the Transportation Advisory Committee Alternative "A" (which is a widening of I-240 with a short connector by the Smoky Park over the river and tying into US 19-23). The three dissenting members were not opposed to the selection of "A" as the corridor of choice but expressed opposition to segments of the proposed project and voted against the motion. The summary of the rationale upon which recommendation was made was Alternative "A" (1) is the shortest, least disruptive route to residences; (2) is the least expensive in regard to right-of-way and construction costs; (3) will have the least adverse impact on environmental concerns; (4) is the only route that is a true, direct "connector" to I-26 and US 19-23; and (5) will do more to ease the traffic congestion on Smoky Park Bridge. He pointed out that if they were to go back and look at all alternatives again, they are looking at another five years added onto the life of this project. He felt NC DOT has moved forward cooperatively with the City of Asheville and the Asheville area with the desired alternative. He then explained the decision to make the Corridor eight lanes instead of six. He said that in 1996 NC DOT was talking about six lanes, however, the traffic volume that they were projecting was right on the line between six and eight lanes. The traffic projection analysis was re-done for a new design year and that analysis clearly shows over a six lane capacity on I-240.

Mr. Tom Kindig, NC DOT Planning and Environmental Branch, said they are working on the environmental assessment. He explained that as part of the environmental process they will be looking at noise impact, the air quality impacts of the project, and trying to reducing impacts on the relocations of residences and businesses affected by the project. All of the studies are on-going and hopefully they will follow-up with some of that information with a public workshop later this year. He said there will be a public hearing on the design based on the design plans. He said that construction on the first phase is scheduled to go to contract in the year 2002. He then pointed out some impacts related to six lanes versus eight lanes. He said there are several situations that do not meet the standards for an interstate highway and those will be corrected. There is a total of approximately 68 relocations through the section of the existing I-240. If we were to narrow back to six lanes, essentially we will only be reducing the right-of-way impacts on each side by about 12 feet. Some preliminary studies for a six lane facility show there would still be at least 58 relocations necessary.

Representatives from the NC DOT answered various questions and comments from Council, some of those being: will there be any provisions for noise walls or retaining walls; at what stage in the process will design decisions be made and will the community have input into those design standards; has any thought been put into air quality; are other cities subject to interstates going right through their towns; what information does the State use to assess the population growth and traffic projections; can there be a direct access from the interstate to the river; since there is a Housing Authority project that will be reamed with interstates, can we work with the Housing Authority to relocate those units of housing within scattered sits within the community, and then work with NC DOT to take that land and use it for some commercial use or something more appropriate for interstate activity; and what different routes the three alternative consist of.

Councilman Cobb stated his disappointment in the Alternative "A" route and felt that Alternative "K" route around the City was the best choice.

Mayor Sitnick felt that NC DOT should re-think the alternatives for the routes. Alternative "A" will transect a community that is already divided from the City by a river and an existing interstate.

Councilwoman Field hoped for an opportunity for creativity into the detailing of the bridge or structures. Mr. Norwood said that the City would probably be asked to participate in some of the cost but felt the idea was a good one.

Mr. Blake said that now is the time for the City to transmit to the NC DOT the City's desires, particularly with regard to the detailing on the bridges and the Housing Authority project. He did reiterate again that the City would need to be willing to participate financially.

Mayor Sitnick thanked Mr. Myers for the Wildflower Program on our interstates. She asked that if more roads are built, that the NC DOT look into the possibility of purchasing machinery necessary to vacuum the highways before they are mowed, thus helping to eliminate the litter on our interstates.

Vice-Mayor Hay felt that it would be interesting and beneficial to hear from the original Asheville Connector Advisory Committee. It was the consensus of Council to instruct the City Manager to schedule a worksession with ACAC representatives.

DISCUSSION OF TELECOMMUNICATION FACILITIES ORDINANCE

Councilman Cloninger introduced Mr. Paul Rosa, who is the consultant that City Council hired earlier this year to help improve our telecommunications ordinance. Mr. Rosa has been working on the past several months with staff with several goals in mind: (1) protest the aesthetic quality of the City; (2) assure serve to all areas of the City; (3) promote stealth technology; (4) reduce the permitted height of telecommunications towers; (5) promote location of antennas on existing structures; (6) promote co-location of antennas; and (7) permit telecommunication facilities in more locations but in ways that do not make them unduly conspicuous or intrusive.

Mr. Rosa said that he has found out that the communities that have successful aesthetic outcomes regarding wireless issues is when there is (1) leadership; (2) clear vision of what is the aesthetic outcome they desire and the technical and wireless service levels they want in the community and (3) the political will to move in the direction of that vision. He then gave Council an overview of the features of the draft ordinance and how it achieves the goals set by City Council.

Upon inquiry of Councilwoman Field about the possibility of the City offering sites so we could have more control over them and also as a possible revenue source, Councilman Cloninger said that there is a public property provision in the ordinance.

Mr. Rosa answered various questions from Council as they related to wireless telecommunications facilities.

It was the consensus of Council to send the draft ordinance to the Planning & Zoning Commission for their review, which will include a public hearing to gather input. The Commission will then make a recommendation to City Council based upon its review. This item has been scheduled to come back before City Council in the form of a public hearing on October 27, 1998.

RESOLUTION NO. 98-132 - RESOLUTION AMENDING THE RULE OF PROCEDURE FOR THE ASHEVILLE CITY COUNCIL WITH RESPECT TO THE TIME LIMITATIONS FOR PUBLIC ADDRESS TO CITY COUNCIL

At Councilman Cloninger's request, City Attorney Oast drafted a resolution adopting amendments to Rule 7 of Council's Rules of Procedure regarding public address to the Council. Council's current rules for speaker time limits are the same for any item coming before Council, whether it is a scheduled public hearing, or a matter not appearing on the agenda. This was brought into focus during the discussion at the August 11 meeting regarding enforcement of marijuana laws, which came up under "Other Business."

The idea discussed at the August 18 worksession was to limit the time spent at meetings on issues coming before Council from members of the public, which do not otherwise appear on the agenda. The proposal was to limit to three the number of speakers on any one issue, and to limit those speakers to three minutes each. Alternatively, a spokesperson for a group would be allowed up to 10 minutes, but individuals would not be allowed to speak on the same issue.

The proposed amendments to Rule 7 do two things:

(1) Differentiate between (a) items of business that are on the agenda for Council consideration or action, and (b) unscheduled items coming before Council from the public.

(2) Establish different rules for each situation.

For items appearing on the published agenda, which are matters of Council business, the rules remain as 10 minutes for a group spokesperson and 3 minutes for an individual, with an unlimited number of speakers. He proposed amending paragraph (b) of Rule 7 to include a reference to new proposed paragraph (c) to make it clear that the usual time limits apply to items on the published agenda.

For items that do not appear on the published agenda, but are brought to Council by members of the public at the meeting, the proposed limits are no more than three speakers at no more than three minutes each or a spokesperson who is limited to no more than ten minutes.

Rule 7 (d), which provides that the Mayor may allow additional comments or additional time, as "appropriate for the orderly conduct of business," would continue to apply to all public address situations, as would Rule 9 d(b) which provides for the Mayor to insist that speakers be courteous and to consider and rule on Council members' objections made on this basis. This is generally consistent with the State law, G.S. 160A-67 and 160A-69, and the City Charter, Sec. 10, which establish the Mayor as the presiding officer of the Council.

Proper Use of "Other Business.": Another issue that Council may wish to discuss in connection with these proposed changes is whether "Other Business" is the appropriate place to receive general public comment. Typically, under regular parliamentary procedure, "Other Business" is the opportunity for members of the deliberative body (in this case the City Council), to bring up and discuss matters of interest or potential interest to the deliberative body.

474

Examples would be the scheduling of roundtables and special worksessions, and requests for staff assistance or information on a matter of City business. Other Business is thus (conceptually, at least) distinct from matters brought to Council by members of the public.

Since Council's rules provide in Rule 8 for a place on the agenda for "Informal discussion and public comment," it appears that Council's original intent in the Rules was consistent with the concept of distinguishing between "Other Council Business" and other matters of interest to members of the public, but not necessarily Council business. In drafting the proposed amendments, he has observed this distinction and suggest that the "Informal discussion and public comment" section be included on the published agenda (some councils call this "public information"). Public comment is currently, asked for at the close of each meeting, so this addition to the agenda will conform to Council's current practice.

Technical Amendment to Rule 8: As a technical amendment, he has proposed adding "Consent Agenda" to the Order of Business established in Rule 8. This is consistent with Council's current practice.

It is recommended that Council differentiate in its Rules between matters of Council business or City business appearing on the published agenda, and matters brought before Council outside of the published agenda. The mechanism for doing this already exists, but Council needs to adjust its current practice. If Council wishes to impose different time limits for agenda items and non-agenda items, adoption of the proposed changes, or some variation of them, is recommended.

He said Mayor Sitnick submitted an alternative proposal which same time limitations and number of speakers would apply but only to matters that are not City Council business or that City Council can do nothing about. Mayor Sitnick said that she offered it as an alternative proposal to Councilman Cloninger's, but it is not the kind of change in the Rules of Procedure that she would like to see personally.

Councilman Cobb stated that City Council is not trying to limit people from coming to the meetings to speak, just trying to keep the meetings orderly. He felt that ten minutes is ample time for the person to state their case and for City Council to determine if the matter should be referred to a worksession, formal meeting, to City staff for further review, or if it is a matter which City Council has no control over.

City Attorney Oast said that regardless of which proposal, if any, is adopted, City Council can waive their rules and allow someone to speak for a longer time.

Vice-Mayor Hay did not see this proposal as a limitation on the public's access to City Council at all. If the expectation is a ten minute presentation, then the meeting can be more organized.

Councilman Cloninger felt his proposal actually encourages more people to participate in City Council under Other Business because they know they will not have to wait all night long to have an opportunity to speak.

Mayor Sitnick believed it is the people's right to address their government no matter what. She absolutely felt City Council should have time limits but in a democratic republic it is the responsibility of the government to listen to the public. Her concern is who do you pick, how many do you pick, who do you eliminate and how do you make that judgment. She didn't think that is what government is about.

Councilwoman Field felt that limiting an issue to ten minutes is certainly not inappropriate. She's willing to listen to anyone for any length of time, however, City Council meetings can go for several hours and it's not humanly possible to make reasonable decisions and have intelligent thoughts when the meetings are so long. She could support the ten minute per issue proposal noting that people can come back as many times as they wish. She pointed out that City Councilmembers can be reached by phone or invited to meetings where the public can talk to them for any length of time.

Mayor Sitnick said that if a group of citizens come to speak to City Council, there might be occasions to serve all of us better to listen to them, hear them out and then take the appropriate action and be done with it. She felt if we can't have totally open government with the time limits, then she would want the proposal before us for one ten minute speaker or three/three minute speakers to only apply to issues that City Council can't do anything about and not to citizens that come before Council with issues that do pertain to City business.

Councilman Tomes hoped Council would be willing to suspend the rules and to be sensitive to that. He did not want to put up any barriers to people who want to address City Council.

Mayor Sitnick said she believed in totally open government with time limits and she believed we should hear from anybody and as many people in public comment period who want to speak to City Council.

Councilman Cloninger moved to suspend the rules and take formal action on this matter. This motion was seconded by Councilman Sellers and carried on a 6-1 vote, with Mayor Sitnick voting "no". Mayor Sitnick explained her negative vote in that she did not feel City Council should take official action at a worksession.

Councilman Cloninger moved to adopt Resolution No. 98-132 which amends Rule 7 of the "Rules of Procedure for City Council" as follows:

1. By redesignating paragraphs "(c)" and "(d)" as paragraphs "(d)" and "(c)", respectively, and placing those paragraphs in alphabetical order.

2. By amending new paragraph (d) to read as follows:

    (d) At each "regular" meeting and each "worksession" of the Council, under the "Informal discussion and public comment" section of the agenda, any group or person wishing to address the Council on any matter not previously considered during the meeting may do so. For matters coming before Council pursuant to this paragraph, the following limitations apply:

        (i) No more than three persons (one at a time) may address the Council on any one issue, and no person may take longer than three minutes to complete a presentation.

        (ii) In lieu of the limitation set forth in (i) above, a group may elect to designate a spokesperson who may take no longer than 10 minutes to complete a presentation on any one issue.

As used herein, "presentation" means all forms of address, including speaking, use of audio or video materials, and distribution of literature. For presentations that cannot be completed within the limitations of this paragraph, written comments or other information may be delivered to the Council through the City Clerk.

3. By amending the first clause of paragraph (b) to read "Subject to the time limitations set forth in paragraph (c) below, ..."

- Amend Rule 8 of the "Rules of Procedure for City Council" as follows:

  By adding "Consent Agenda" to the order of business set forth in Rule 8. It should appear between "Proclamations" and "Public Hearings."

This motion was seconded by Councilman Sellers.

After each Councilmember reiterated their feelings on the issue, said motion carried on a 5-2 vote with Mayor Sitnick and Councilman Tomes voting "no".

Mayor Sitnick said that on August 12 she sent a memorandum to City Council asking for suggestions on how City Council can shorten the length of the City Council meetings, both the formal and the worksession. She followed up with a memorandum on August 19 in which she proposed several ideas to shorten the meetings. She has not heard to date from any Councilmember and asked the City Manager to place this item on the City Council's mid-year retreat agenda for a brief discussion.

RESOLUTION BOOK NO. 24 AT PAGE 492

COMMUNITY MEETING

After discussion, it was the consensus of the City Council to schedule the Tuesday, September 29, 1998, community meeting in the South area. Because the MED Week banquet is scheduled on the same evening, the community meeting may be held earlier than the normal 7:00 p.m. meeting time.

Mayor Sitnick said that she would submit a revised list of suggested roundtable items to City Council on Friday and they can add to the list. She asked that they be prepared to suggest a topic for the next Mayor's roundtable which will be Thursday, November 19, 1998.

It was the consensus of City Council to postpone and/or possibly cancel the City Council worksession scheduled for Tuesday, October 20, 1998, until Wednesday, October 21, 1998, at 3:00 p.m., in the 1st Floor North Conference Room, due to the N.C. League of Municipalities meeting held in Charlotte, N.C.

REPORTS FROM BOARDS & COMMISSIONS

Upon inquiry of Vice-Mayor Hay, it was the consensus of City Council to place on the September 8, 1998, consent agenda a resolution confirming the appointment of Bonnie Love as the representative of the Minority Business Alliance to the Minority Business Commission.

Vice-Mayor Hay reported that there will be a series of public input sessions on the consultant's report regarding the future of the Civic Center.

On behalf of Councilman Cloninger and herself, Mayor Sitnick asked City Council consider expanding the Film Board membership from six members (and the City Council representative) to eleven members (and the City Council representative) to allow the Board more people to chose from when tasks are assigned.

Mayor Sitnick asked that any Council member who may be late to pre-arranged board and commission interviews advise the City Clerk at least ½ hour before the first interview.

CLOSED SESSION

At 5:58 p.m., Councilman Cloninger moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract for the acquisition of real property - pursuant to G.S. 143-318.11 (a) (5). This motion was seconded by Councilwoman Field and carried unanimously.

At 6:10 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:10 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Edward C. Hay Jr.

INVOCATION

Councilman Sellers gave the invocation

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE MONTH OF SEPTEMBER, 1998, AS "LEAVE A LEGACY MONTH" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming the month of September, 1998, as "Leave a Legacy Month" in the City of Asheville. She presented it to Ms. Lee Mulligan, Mr. Ross Drown and Mr. Andy Strauss who briefed the Council on some activities that would be taking place during the month.

B. PRESENTATION OF CERTIFICATE OF APPRECIATION TO CITY OF ASHEVILLE FOR FIREFIGHTING ASSISTANCE IN FLORIDA

Mr. Charles Curtis, representing North Carolina Insurance Commissioner Jim Long, presented to City Council a Certificate of Appreciation for the assistance of Asheville firefighters in Florida this past July. The primary responding firefighters were Kevin Ponder and Paul Monroe; their "backups" were Darren Gillespie and Herb Roberson.

Mayor Sitnick thanked Mr. Curtis for the Certificate and also commended our firefighters for their work.

II. CONSENT:

At the request of City Manager Westbrook, Item E. was removed from the Consent Agenda.

A. RESOLUTION NO. 98-133 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A CONTRACT WITH TENNOCA CONSTRUCTION COMPANY FOR INFRASTRUCTURE CONSTRUCTION OF TWIN SPRINGS SUBDIVISION

Summary: The consideration of a resolution authorizing the City Manager to accept the lowest responsible bid of Tennoca Construction Company for the infrastructure construction of Twin Springs Subdivision.

Mattern & Craig Consulting Engineers, on behalf of the Community Development Division, opened bids for the infrastructure construction of Twin Springs subdivision on August 12, 1998. Infrastructure construction will include, but not be limited to, water, sanitary sewer, storm drainage lines including appurtenances, street, sidewalk, curb and gutter, and minor

2

landscaping. The lowest bid received for the project was in the amount of $498,537.00 from Precision Contracting, Inc. However, Precision Contracting, Inc. is properly licensed in North Carolina to do construction work to a limit of $500,000.00. Precision's total work would not be allowed to exceed its licensing capabilities, which could effect performance on the contract should change orders be required. The amount of funds available for the project is $544,512.00

Community Development staff recommends rejecting the low bid from Precision Contracting, Inc. in accordance with N. C. General Statute Section 143-129 and awarding the contract to the next lowest responsible bidder, Tennoca Construction Company. Tennoca's bid was in the amount of $511,153.50. Tennoca Construction Company, Inc. has an unlimited license in North Carolina. The City Attorney's office has concurred with the engineer's recommendation against accepting the bid from Precision Contracting, Inc. due to the bid amount compared to the limit of their contractor's license. Approval of the resolution will award the contract to Tennoca Construction Company for the infrastructure construction of Twin Springs subdivision.

The Community Development staff recommends adoption of the resolution authorizing the City Manager to accept the lowest responsible bid of Tennoca Construction Company for the infrastructure construction of Twin Springs Subdivision.

RESOLUTION BOOK NO. 25 - PAGE 1

B. RESOLUTION NO. 98-134 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH PARSONS, BRINCKERHOFF, QUADE & DOUGLAS INC. TO PROVIDE FOR PLANNING ASSISTANCE TO THE METROPOLITAN PLANNING ORGANIZATION FOR THE DEVELOPMENT AND IMPLEMENTATION OF A PUBLIC INVOLVEMENT PROCESS

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract for assistance in developing a public involvement process specific to transportation related planning efforts.

As the Lead Planning Agency (LPA), the City of Asheville plays an integral part in how the Asheville Urban Area Metropolitan Planning Organization (MPO) functions. Since the administrative functions of the MPO are conducted from the Planning and Development Department, it is essential that requests for professional services go through City Council for approval. The Federal Highway Administration (FHWA) and the N. C. Dept. of Transportation (NC DOT) will reimburse the City of Asheville 80% of the cost of the contract.

The public involvement process are the result of over two years of effort on the part of the Citizen's Transportation Advisory Committee (C-TAC) to place a higher emphasis on how we solicit and gather input from the public. It is the desire of the C-TAC that with such a process in place, the recommendations made to the NC DOT, the FHWA and other agencies will be more reflective of the needs, wants and desires of the public in our area.

The contract is to assist in development of the process and train local citizens, staff and public officials in the process. Should we desire to solicit help from consultants to actually conduct the process, then we would prepare a contract specific to that endeavor.

The staff from the Planning and Development Department recommends adoption of the resolution authorizing the City Manager to enter into a contract with Parsons, Brinckerhoff, Quade & Douglas Inc. to provide for planning assistance to the MPO for the development and implementation of a public involvement program.

RESOLUTION BOOK NO. 25 - PAGE 2

C. **RESOLUTION NO. 98-135 - RESOLUTION SETTING A PUBLIC HEARING FOR OCTOBER 13, 1998, TO CLOSE WILSON ALLEY LOCATED BETWEEN HENDERSONVILLE ROAD AND SUMMIT STREET**

RESOLUTION BOOK NO. 25 - PAGE 3

D. **RESOLUTION NO. 98-136 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF HEALTH & HUMAN RESOURCES TO FUND THE AFTER SCHOOL FOOD SERVICE PROGRAM**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N. C. Dept. of Health and Human Services to provide food service in the After School Program.

The Parks and Recreation After School Program provides supervised licensed child care, recreation, enrichment activities, and food service to children ages 5 to 12 during after school hours, teacher work days, and holidays at six program sites. Sites are located at Claxton, Dickson, Hall Fletcher, Jones, and Vance Elementary Schools; and Reid Community Center. Sites are licensed by the State of North Carolina with a child/staff ratio of 1 to 25. Snacks are provided in the afternoon, and breakfast and lunch is provided on holidays and teacher work days. Activities include arts and crafts, games, sports, science, music, homework time, and special events. Fees are based on the number of children from each family and frequency of attendance. Parks and Recreation will contract with Asheville City Schools for food service at a rate of $0.95 per breakfast, $1.75 per lunch and $0.65 per snack. The grant will reimburse Parks and Recreation approximately one third of the cost of providing food service in the After School Program. The number of meals will vary based on the total meals actually served each month.

The Parks and Recreation Department recommends the City of Asheville to apply for the grant funds through the Child and Adult Care Food Program.

RESOLUTION BOOK NO. 25 - PAGE 4

E. **RESOLUTION ADOPTING THE RECOMMENDATIONS OF THE REGIONAL WATER AUTHORITY TO AWARD THE BID FOR THE SPIVEY MOUNTAIN RESERVOIR PROJECT TO TAYLOR & MURPHY CONSTRUCTION COMPANY**

This item was removed from the Consent Agenda.

F. **RESOLUTION NO. 98-137 - RESOLUTION ALLOWING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE GREAT SMOKIES CRAFT BREWERS INVITATIONAL ON SEPTEMBER 19, 1998**

Summary: The consideration of a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the Great Smokies Craft Brewers Invitational at the Martin Luther King Jr. Park on September 19, 1998.

The Great Smokies Craft Brewers Invitational is a unique celebration of the art of brewing beer in the spirit of Oktoberfest with a smokey mountain twist. The Asheville Downtown Association in conjunction with Barley's Tap Room, the Radisson Hotel, Asheville Parks and Recreation and other local businesses have developed this festival to highlight the quality beers of the region. Over 30 brewers have been invited to present their high quality beers in a festival atmosphere at the Martin Luther King, Jr. Park on September 19, 1998. Local entertainment and food will be available from 1:00 p.m. - 6:00 p.m.. Proceeds from the event will benefit the Asheville Urban Trail project. The Asheville Downtown Association has requested permission to allow possession and consumption of beer and wine during this event on City property

The Asheville Parks and Recreation Department recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 5

G. **RESOLUTION NO. 98-138 - RESOLUTION CONFIRMING THE APPOINTMENT OF BONNIE N. LOVE AS THE MINORITY BUSINESS ALLIANCE REPRESENTATIVE ON THE MINORITY BUSINESS COMMISSION**

RESOLUTION BOOK NO. 25 - PAGE 7

H. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 22, 1998, TO REZONE 196 DEAVER STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO COMMUNITY BUSINESS II**

I. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 22, 1998, TO REZONE FOUR LOTS ON LOUISIANA AVENUE FROM COMMUNITY BUSINESS I TO HIGHWAY BUSINESS**

J. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 22, 1998, TO REZONE 1720 AND 1724 OLD HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY TO OFFICE**

K. **MOTION SETTING A PUBLIC HEARING ON SEPTEMBER 22, 1998, TO CONSIDER A MODIFICATION TO THE SUBDIVISION STANDARDS FOR A NON-RESIDENTIAL SUBDIVISION IN ORDER TO PERMIT MORE THAN FIVE LOTS TO BE ACCESSED BY A PRIVATE DRIVE FOR CENTREPARK BUSINESS PARK (FORMERLY PARK TERRACE EAST) LOCATED ON PINEY MOUNTAIN ROAD**

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions on the Consent Agenda and they will not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING A PORTION OF TOLULA LANE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE BUSINESS

Mayor Sitnick said that on August 28, 1998, she received a letter from Mr. Philip G Carson, attorney representing Victoria Investment Company, in which he advised her that he will be out of town on September 8, 1998, and asked that the public hearing be continued until September 22, 1998

Councilman Cloninger moved to continue the public hearing until September 22, 1998, without further advertisement. This motion was seconded by Councilwoman Field

Mr. Gary Schwartz and Mr. George Young each felt that the continuance should not be granted

Mayor Sitnick said that since this is the first time the petitioner has requested the public hearing be continued and since a statement was inserted on the notice sent to the property owners that a continuance was requested, she would support the request to continue.

The motion made by Councilman Cloninger and seconded by Councilman Sellers carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-139 - RESOLUTION AUTHORIZING THE PUBLIC WORKS DEPARTMENT AND THE PARKS & RECREATION DEPARTMENT TO PROCEED WITH THE DEVELOPMENT OF A WALKING TRAIL AT MALVERN HILLS PARK

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution authorizing the Public Works Department and the Parks and Recreation Department to proceed with the development of a walking trail at Malvern Hills Park.

In an effort to address a community need in the Malvern Hills area, the staff of the Parks and Recreation Department and the Public Works Department have met to work cooperatively in the development of a walking trail at Malvern Hills Park. This walking trail will be constructed using combined resources from both departments with the funding for materials coming from the Public Works budget. The largest trail loop will be approximately ½ mile long and will meander throughout the park area. It is anticipated that the actual construction for the trail could begin as early as December, 1998, with the paving of the trail occurring in early spring of 1999. In addition, the parking located below the tennis courts will be paved and marked as well. This project represents a cooperative effort between two departments to maximize resources to their full potential and to provide a level of service as efficiently as possible to the citizens. It will not be necessary for funds to be reallocated to this project since materials can be charged directly to the Public Works budget. It is estimated that the total cost of this project will total $40,000

The Public Works Department and the Parks and Recreation Department request City Council approval to proceed with the development of a walking trail in the Malvern Hills Park

Councilman Cobb said that he has been working on getting a walking trail at Malvern Hills Park for several years and was especially pleased to see that this will be developed.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cobb moved for the adoption of Resolution No. 98-139. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 8

B. RESOLUTION AUTHORIZING THE CITY MANAGER TO AWARD A BID FOR THE CIVIC CENTER SOUND EQUIPMENT

At the request of the City Manager, this item was removed from Council's consideration.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 28, 1998, AND THE WORKSESSION HELD ON SEPTEMBER 1, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on August 28, 1998, and the worksession held on September 1, 1998. This motion was seconded by Councilwoman Field and carried unanimously

B. CLAIMS

The following claims were received by the City of Asheville during the week of August 21-27, 1998: Charles O. Pine (Parks & Recreation) and Leslie Auger (Water).

The following claims were received during the week of August 28-September 3, 1998: Charles Stevens (Water), Lee Frank Peak (Water), Bertha N. Jones (Water), M.W. Curtis (Water) and Roger Garrett (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

C. LAWSUITS

The following lawsuit was received by the City of Asheville on August 25, 1998: Richard R. Gilbert v. City of Asheville. The nature of the proceeding is negligence due to a defective water meter box near 3 Howland Road.

The following lawsuit was received by the City of Asheville on August 27, 1998: Jennifer Jacobs v. City of Asheville. The nature of the proceeding is appeal to Superior Court from Civil Service Board decision upholding disciplinary dismissal.

Both of these lawsuits will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Mickey Mahafee invited City Council to attend a discussion that is held every Sunday at Trinity Episcopal Church on Church Street. The Church serves a meal at 3:00 p.m.

every Sunday and then at 4:00 p.m. there is a roundtable discussion with the homeless to discuss some of the problems they are experiencing. Mr Mahafee also asked how he could become more involved in the fight against litter. Mayor Sitnick responded that various departments and agencies are working on combating litter and she would be happy to talk with him about participating.

Ms. Jean Moore, District Administrator for the Guardian Ad Litem Program in the 20th Judicial District which encompasses all of Buncombe County, stated that it was brought to her attention that Mr. Dan Waterman, a speaker at a previous meeting who advocated the relaxation of marijuana laws, said that he was a guardian ad litem. After investigation through as far back as their records go, she has learned that at no time in the State of North Carolina, or in the surrounding areas, has Mr. Waterman been a volunteer for the program She said that they work very hard to maintain their credibility in the community and in the Court system

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5: 28 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 15, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Pipeline Replacement Program Change Order

Summary: The consideration of a resolution authorizing the City Manager to execute a change order with Wheeler Construction Company (for work performed by contractor requested by the Engineering Department) for the project known as Pipeline Replacement Program Phase II - Contract A, South Asheville/South Buncombe Water Line.

The Regional Water Authority of Asheville, Buncombe and Henderson approved $1,078,389.11 for the construction of these improvements. This project is known as Pipeline Replacement Program Phase II Contract A South Asheville/South Buncombe Water Line.

The final adjusting change order for this project is in the amount of $102,582.95. This additional cost represents the additional qualities of bituminous pavement and other miscellaneous appurtenances that were necessary to comply with requirements and request by the Public Works Department and Water Maintenance Division of the Water Resources Department. Approximately 18% of the additional cost of bituminous pavement has been reimbursed by the Public Works Department as per agreement.

Staff recommends that City Council accept this change order to increase the total contract price for the Pipeline Replacement Program Phase II Contract A South Asheville/South Buncombe in the amount of $102,582.95 and the City Manager to execute all necessary documents for this contract.

Public Auction October 17, 1998

Summary: The consideration of a resolution authorizing the Purchasing Director to dispose of City-owned personal property by public auction.

The resolution authorizes the City's Purchasing Division to hold a public auction to dispose of motor vehicles, transit buses, off-road equipment, and other miscellaneous property declared as surplus by various City departments. The auction to be held Saturday, October 17, 1998 at 10:00 a.m. in the Public Works Complex, 161 S. Charlotte Street.

Sale of Alcoholic Beverages at 1998 Greek Festival

Summary: The consideration of a resolution allowing the possession and consumption of malt beverages and/or unfortified wine at the Asheville Greek Festival at the City-County Plaza on October 2-4, 1998.

The Asheville Greek Festival is a unique celebration of Greek heritage and traditions. The Festival this year will be held at City-County Plaza on October 2-4, 1998. Local entertainment, food, and vendor displays will be available daily.

Voting Delegates for the 1998 Annual N.C. League of Municipalities Meeting

Summary: Motion designating Councilwoman Barbara Field as the voting delegate and Mayor Sitnick as the alternate voting delegate for the 1998 Annual League of Municipalities Business Meeting on October 19, 1998.

Mayor Sitnick asked that the record show that City Council has received this information and instructed the City Manager to place these items on the next formal City Council agenda.

UPDATE ON SCHOOL BOARD ACTIVITIES

Ms. Susan Fisher, Chairman of the Asheville School Board, and Dr. Karen Campbell, Superintendent, updated City Council on the School Board's accomplishments for the past year and outlined their goals. The mission of the Asheville City Schools is to provide quality education in which we respect students' individual and cultural differences, develop their talents in partnership with family and community, and ensure that they possess the life skills necessary for personal success and civic responsibility. The following four goals were discussed along with objectives to meet the goals: (1) increase student achievement in Asheville City schools; (2) provide orderly, safe, clean, drug-free schools; (3) recruit, develop and retain a highly skilled work force; and (4) forge strong partnerships through effective communication.

Council Members asked various questions and because some were of a statistical nature, they were asked to put the questions in writing and detailed responses would be sent accordingly.

DISCUSSION OF UNFUNDED BUDGET ITEMS

Pursuant to City Council's request, City Manager Westbrook presented the unfunded requests in the current budget. He noted that revenues were not sufficient to support these requests during the budget process.

During the budget meetings with City Council for the Fiscal Year 1998-1999 budget, staff listed a number of programs that were not able to be funded because requests for funding exceeded the City's financial ability. Listed below are the five programs that were not included in the budget, along with a brief description of each.

1. River District Development Plan - Cost: $50,000

   The river core area of the City (that area along the French Broad River from Lyman Street north to the Norfolk and Southern trestle) is currently not a significant economic asset of the City. The potential exists to create a significant economic and cultural asset to the community of that area, and the City as a whole. To begin the process, we need to develop a plan. Staff suggests we partner with the RiverLink organization, which has been able to raise approximately $100,000 ($11,000 of the $100,000 is from the City). The City would need to budget an additional $50,000 for a total contribution of $61,000 ($11,000 is already committed). RiverLink would commit $89,000 toward the study, for a total budget of approximately $150,000. This is the current estimate of what the study would cost, to be provided by an outside, independent consultant. Once funding is committed by the City, staff would develop an agreement between the City and RiverLink outlining responsibilities, expectations and a plan that would insure comprehensive participation by all existing interested groups and individuals. Staff has identified this as our number one priority.

10

2. Update of the Growth Plan (2010 Plan) - Cost: $50,000

   The current growth plan was adopted by the City of Asheville in 1987. With over ten years having passed since its adoption, changes in the needs of the community and new development patterns, there is a compelling need to update the plan. The update of the plan would encompass work by staff in many areas, and the use of a consultant to advise staff and Council and to design a public participation process. The growth plan is now recommended for funding during the Fiscal Year 1999-2000 budget process. There is a lot of background information which staff is currently gathering from various other cities and service providers in the area. Additionally, if the update had been funded this year with the current work load and focus on UDO amendments, the Haywood Road Corridor Small Area Plan, the Broadway Small Area Plan, and the Swannanoa River Small Area Plan, he was not sure that we would have had the staff capacity to work on the plan.

3. Downtown Development Plan - Cost: $50,000

   The Downtown Commission's top priority is to develop a downtown plan for Asheville's next stage of development. A master planning committee was established to guide the process from the Commission's standpoint. After researching costs of downtown plans created for other cities, staff recommended $50,000 for the project, with any costs above $50,000 being raised in the private sector. Staff recommends this study be added to the Fiscal Year 1999-2000 budget based on available funding.

4. Stormwater Regulation Study - Cost: $125,000

   On December 15, 1997, a proposed rule was signed which would require all cities with a population less than 100,000 and more than 5,000 to develop an Illicit Discharge Program. This program is proposed to consist of approximately six different requirements. The rule is scheduled to be effective on March 1, 1999. All cities will be expected to be in compliance by June 1, 2002. The $125,000 was requested to have a consultant prepare this Illicit Discharge Program for the City. In short, the consultant would provide the mapping necessary for the program, draft necessary ordinances, develop public awareness programs, etc. He recommended funding for this program in the Fiscal Year 1999-2000 budget since the effective date appears to be March 1, 1999.

5. Traffic Calming Initiatives - Cost: $50,000

   This funding was requested to begin implementing some traffic calming devices in neighborhoods. The devices could include building round-abouts, concrete islands to narrow the travel lanes, etc. The traffic calming policy has been put on hold awaiting the new Traffic Engineer's review and comment. We anticipate hiring a Traffic Engineer by January 1, 1999. Since any projects we might want to start would begin during the second half of the fiscal year, rather than placing funds in the budget at this time, he recommended that staff request a special appropriation on a project-by-project basis as needed.

At the time the budget was adopted the City had not yet settled the franchise negotiations with InterMedia. Since that time the negotiations have been completed, and as a result the City will receive unprogrammed revenue as a result of the new franchise agreement and resolution of a dispute between the City and InterMedia concerning past cable television payments. The amount we expect to receive during Fiscal Year 1998-1999 is approximately $70,000. That amount is available for appropriation.

He said that should Council want to fund one of the five above programs, staff recommended funding the River District Development Program at a cost of $50,000.

Mayor Sitnick reported that she has received a number of phone calls from the community expressing a curiosity about the fact that they remember that the 175,000 franchise fee settlement was going to be dedicated to public, educational and governmental access channels.

City Manager Westbrook explained that this is not a diversion of the PEG money.

Ms. Karen Cragnolin, Executive Director of RiverLink, and Mr. Doug Wilson, Chairman of the Board of RiverLink, spoke in support of the City funding the River District Development Plan. Mr. Wilson also presented Council with a letter from Mr. Jerry V. Sternberg which letter supported a land use study and projection for the River District.

Mayor Sitnick said that she has asked the N.C. Dept. of Transportation to undertake a project at the River to re-do all roads, to create sidewalks, tree lawns, curbs and gutters and pave the streets in order to inspire some economic development in that area.

Councilman Cloninger strongly supported the City's funding of the River District Development Plan because (1) the timing is right because there is a cross-section of owners along the river and others interested in the river who otherwise have different philosophies all wanting to see this development plan go forward, and (2) there is tremendous untapped economic development potential on the river and it's time that we start tapping into that potential.

It was the consensus of Council to authorize the City Manager to place a budget amendment to fund the River District Development Program at the cost $50,000 on the next formal City Council agenda.

PARKING STUDY REVIEW

Ms. Cathy Ball, City Engineer, introduced Mr. Lee Bourque from Carl Walker, Inc., and Mr. Rick Day, from Dan Wilburn Associates, Inc., who presented the recommendations from the Comprehensive Parking Study of the Downtown, Biltmore Village, and West Asheville areas.

On August 19, 1997, the City of Asheville entered into an agreement with Carl Walker, Inc. to prepare a Comprehensive Parking Study for the Downtown, Biltmore Village, and West Asheville areas.

The purpose of the study was to: (1) Quantify current parking demand and supply by type; (2) Project future parking demand for 1, 5, 10 and 20 year intervals; (3) Offer options for servicing demand within the areas under study; (4) Interview various property owners; (5) Give options for reorganizing the existing surface lots; (6) Conduct statistically valid surveys through observation and documentation of travel modes, attitudes and preferences toward parking; (7) Review the existing parking enforcement program; and (8) Review the current administration of parking services enforcement, collections, signs and publicity.

Mr. Bourque reviewed the Downtown study area recommendations which included: (1) develop 550 additional spaces in facility in grove arcade; (2) develop 60 to 80 additional parking spaces near the city-county plaza; (3) consider City-County lots along new shuttle route to relieve additional near term needs; (4) increase rates for on-street meters; and (5) educate business regarding meter parking abuse. Mr. Day then reviewed the traffic and transportation issues related to the Downtown study area.

Mr. Bourque then reviewed the Biltmore Village study area recommendations which included: (1) develop new 100 and 40 spaces surface parking lots; (2) encourage employee use of off-street lots; (3) consider advanced on-street meter system; and (4) identify location of

12

prospective railroad station and secure space for required 45 plus parking spaces for potential intermodal train station/garage/welcome center. Mr. Day then reviewed the traffic and transportation issues related to the Biltmore Village study area.

Mr. Bourque then reviewed the West Asheville study area recommendations which included: (1) mark on-street spaces to expand identified on-street parking from 24 to 212 spaces; (2) encourage employee use of rear parking; and (3) develop and provide standard parking sign design templates for area business. Mr. Day then reviewed the traffic and transportation issues related to the West Asheville study area.

Throughout the presentation, Council members asked and the consultants responded to various questions, comments and suggestions as they related to each of the study areas.

Ms. Ball said that staff recommends that Council set a public hearing in approximately 45 days (October 27, 1998) to allow input from citizens, residents, etc. regarding the recommendations of the Parking Study.

Mayor Sitnick asked that the record show that City Council has received this information and instructed the City Manager to place this item on the next formal City Council agenda.

BRIEFING ON THE YOUTH COUNCIL

Mr. Irby Brinson, Director of Parks & Recreation, said that in 1984, as part of the Water Agreement, the Asheville-Buncombe Youth Council was transferred to Buncombe County Recreation Services.

In an effort to inform City Council of the present status of the Asheville-Buncombe Youth Council, Ms. Chris Webb, Coordinator of the Youth Council and employed by Buncombe County Recreation Services, updated City Council on current activities and initiatives by the Youth Council.

On behalf of City Council, Mayor Sitnick thanked Ms. Webb for her work and the work of the Youth Council.

DISCUSSSION OF AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE RELATIVE TO CONDITIONAL USE PERMIT LANGUAGE

Mr. Gerald Green, Senior Planner, said that at the City Council meeting on August 25, 1998, City Council directed staff to begin a review of possible revisions to the Unified Development Ordinance ("UDO") to permit churches to include related uses, such as day care, educational and recreational facilities, in residential areas while protecting residential neighborhoods from adverse impacts.

He said that churches are permitted, subject to special requirements, in residential neighborhoods. Churches are defined in the UDO as the place where religious worship is conducted; related facilities such as day care, school and recreational facilities, are not included in the definition. These facilities are reviewed separately and subject to development standards which are the same regardless of who develops them. Some churches would like to include those facilities on their properties which are located in residential districts.

Residential neighborhoods are concerned about the adverse impacts of large churches and related facilities upon the neighborhoods in which they are located. They would like to have development standards designed to minimize these adverse impacts.

Council has directed Planning and Development Department staff, with assistance from the City Attorney's Office, to review the standards for churches and develop recommendations for amendments to the standards which would allow larger churches with those other facilities as conditional uses in residential areas.

Mr. Green then reviewed the following background regarding churches as conditional uses:

THE ISSUE - Some churches would like to include related uses, such as day care, school and recreational facilities, on properties located in residential districts. Residential neighborhoods are concerned that large churches, with these related facilities, can have adverse impacts on residential neighborhoods.

BACKGROUND - Churches are defined in the UDO as "a place where religious worship is conducted. The term church does not include day care, educational, recreational, and other facilities which are incidental to the place of worship." Churches meeting this definition are permitted in all residential zoning districts provided they meet certain standards. These standards are:

- Minimum lot size - 1 acre. Churches constructed prior to August, 1977 are not subject to this requirement.
- Minimum setbacks
    - Front - same as for other permitted uses in the respective district
    - Side and rear - 30 feet
    - Minimum setback for parking and other activities - no parking in front setback; no parking or other activity shall be located less than 30 feet from any property line. Provided, however, the Planning and Development Director may allow parking or other activity within 15 feet of a property line upon finding that adequate buffering exists or is proposed, that surrounding properties will not be adversely affected, and existing trees over 4 inches within the reduced buffer must be retained.
- Impervious surface shall not exceed 75% of the total lot area;
- Offices associated with the church will occupy no more than 25% of the total floor area of buildings on the lot;
- Public address systems shall not be permitted except within buildings;
- Access onto church property from local streets shall be limited to a total of 2 driveway access points onto all surrounding local streets; and
- When repositories for ashes are located on the church site, the church shall issue a statement which would guarantee maintenance of the repository in perpetuity.

Under the provisions of the UDO, day care, school, recreational, and other facilities are treated the same whether they are developed by a church or any other developer. This is based upon the belief that these facilities have the same impact on a residential area (traffic, noise, lights, etc.) regardless of who develops them. These other facilities are treated as follows:

- Day care facilities are permitted in all residential districts, with small day care homes (up to 8 children) permitted in all residential districts and child care centers (up to 79 children) permitted only in the RM-16 district.
- Schools are permitted in all residential districts provided they meet a minimum lot size requirement (2 acres) and setback requirements, and parking and recreation areas are not located in required setbacks.
- Certain recreational uses (golf courses, tennis courts, swimming pools, playgrounds, and clubhouses with indoor recreational facilities) are permitted in all residential districts provided they are operated on a membership basis.

14

- Colleges, convention centers, and other large, institutional-like uses are permitted only in the more intense zoning districts where their impacts on neighboring uses can be mitigated.

PROPOSED ACTION - The following actions would offer churches more flexibility, while protecting residential neighborhoods from the adverse impacts associated with large development:

- Continue to use the current definition of church as stated in the UDO;
- Identify churches of less than a certain size (Wilmington sets the threshold at less than 200 seats) as permitted uses, subject to special requirements in all residential districts. The requirements for churches of this size should remain the same as currently established by the UDO, with the additional requirement that primary access not be provided by a local (residential) street.
- Identify all other churches as conditional uses in residential districts with the following conditions related to size and access:
    - Churches of a medium size (Wilmington defines these as having less than 1,000 seats) must locate on a lot with access from a collector street or a major or minor thoroughfare;
    - Large churches (Wilmington defines these as having more than 1,000 seats) must locate on lots with access from a major thoroughfare.
- Continue to treat daycare, school, recreational, and related facilities separately from churches, but review the standards to assure that the needs of the community are being met. The review should include:
    - Consideration of permitting day care centers, with a limit on the number of children, in all residential districts if certain standards governing lot size, access, and buffering are met;
    - Consideration of permitting small colleges as well as schools in all residential districts if certain standards regarding lot size, access, and buffering are met; and
    - Consideration of expanding the types of recreational facilities permitted in residential districts.
- When churches of any size which include day care, school, recreational, and/or related facilities in their development plans are proposed in residential zoning districts, treat them as conditional uses to assure that they meet all standards and do not adversely impact the area in which they are to be located.

Councilman Tomes hoped that with the inclusion of the religious community in drafting the proposed amendment, some of his concerns would be addressed, specifically relating to how churches need to administer to the total person.

Councilman Cobb felt that the definition of church should be re-defined in the UDO. He stressed that the Asheville community wants their churches and government should not try to tell a church what ministries it can and cannot perform. Churches' ministries need to meet the needs of the community. He did feel that other ordinances relating to such things as noise, buffering, parking, traffic, etc. should be enforced.

It was the consensus of City Council for staff to meet with the religious community, residential neighborhoods, and other interested parties in order to draft an ordinance amendment to assure that all concerns are addressed. After an ordinance has been drafted, the draft ordinance will be presented to the Planning & Zoning Commission. The Planning & Zoning Commission must hold a public hearing to receive public input and following the public hearing they will provide a recommendation to City Council regarding the proposed amendment.

Following the recommendation of the Planning & Zoning Commission, City Council must also hold a public hearing to solicit public input prior to consideration of the amendment.

WATER CRISIS

Water Resource Director Tom Frederick updated City Council on the two water supply reservoirs. The Regional Water Authority has a policy of instituting restrictions when the water levels in the two reservoirs are a combined 60 feet below the spillways. The total distance has dropped to 32 feet. He said that voluntary restrictions on water use might be necessary and if the dry weather continues, mandatory restrictions will be instituted.

MEDIA RELATIONS

Ms. Margot Christensen, Public Affairs Director from the N.C. League of Municipalities, covered briefly (1) the relationship between the news business and Council's role as elected officials; (2) some things that Council may find helpful that other people have found helpful when they work with reporters and (3) some decisions you may be looking at as governing board members concerning the news media.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - September 22, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

INTRODUCTION OF GUESTS

Mayor Sitnick welcomed Ms. Nancy Wilson and Ms. Debbie Brown and their 6th grade students from Carolina Day School.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING THE WEEK OF SEPTEMBER 26-OCTOBER 3, 1998, AS "MINORITY ENTERPRISE DEVELOPMENT WEEK"

Mayor Sitnick read the proclamation proclaiming the week of September 26 - October 3, 1998, as "Minority Business Development Week" in the City of Asheville. She presented the proclamation to Mr. Ronnie Blythe and Elena Williams, who briefed City Council on some activities taking place during the week.

B. PROCLAMATION PROCLAIMING OCTOBER, 1998, AS "ASHEVILLE SISTER CITIES MONTH"

Councilwoman Field read the proclamation proclaiming the month of October, 1998, as "Asheville Sister Cities Month" in the City of Asheville. She presented the proclamation to Mr. George Yates, President of Asheville Sister Cities, Inc., who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING OCTOBER, 1998, AS "NATIONAL BREAST CANCER AWARENESS MONTH" AND OCTOBER 16, 1998, AS "NATIONAL MAMMOGRAPHY DAY"

Mayor Sitnick read the proclamation proclaiming the month of October, 1998, as "National Breast Cancer Awareness Month" and October 16, 1998, as "National Mammography Day" in the City of Asheville.

D. PROCLAMATION PROCLAIMING OCTOBER 5, 1998, AS "THE BOYS CHOIR OF HARLEM DAY"

Mayor Sitnick read the proclamation proclaiming October 5, 1998, as "The Boys Choir of Harlem Day" in the City of Asheville. She presented the proclamation to Ms. Connie DeLand, President of the Asheville Community Concert Association Inc., who briefed City Council on some activities taking place during that day.

E. PROCLAMATION PROCLAIMING THE WEEK OF OCTOBER 4-10, 1998, AS "MENTAL ILLNESS AWARENESS WEEK"

Vice-Mayor Hat read the proclamation proclaiming the week of October 4-10, 1998, as "Mental Illness Awareness Week" in the City of Asheville. He presented the proclamation to Mrs. Jack T. Benning, Past President and Board Member of the NAMI Western Carolina Inc., and Mr. Dan Lane, President of the NAMI Western Carolina Inc., who briefed City Council on some activities taking place during the week.

II. CONSENT:

At the request of City Manager Westbrook, he asked that Exhibit A under Item D. be amended to delete from the auction list the 1977 American LaFrance Pumper CE175656 - Fixed Asset Number 13872.

A. RESOLUTION NO. 98-140 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH WHEELER CONSTRUCTION COMPANY FOR THE PROJECT KNOWN AS PIPELINE REPLACEMENT PROGRAM PHASE II - CONTRACT A, SOUTH ASHEVILLE/SOUTH BUNCOMBE WATER LINE

Summary: The consideration of a resolution authorizing the City Manager to execute a change order with Wheeler Construction Company (for work performed by contractor requested by the Engineering Department) for the project known as Pipeline Replacement Program Phase II - Contract A, South Asheville/South Buncombe Water Line.

The Regional Water Authority of Asheville, Buncombe and Henderson approved $1,078,389.11 for the construction of these improvements. This project is known as Pipeline Replacement Program Phase II Contract A South Asheville/South Buncombe Water Line.

The final adjusting change order for this project is in the amount of $102,582.95. This additional cost represents the additional qualities of bituminous pavement and other miscellaneous appurtenances that were necessary to comply with requirements and request by the Public Works Department and Water Maintenance Division of the Water Resources Department. Approximately 18% of the additional cost of bituminous pavement has been reimbursed by the Public Works Department as per agreement.

Staff recommends that City Council accept this change order to increase the total contract price for the Pipeline Replacement Program Phase II Contract A South Asheville/South Buncombe in the amount of $102,582.95 and the City Manager to execute all necessary documents for this contract.

B. MOTION SETTING A PUBLIC HEARING ON OCTOBER 27, 1998, RELATIVE TO A COMPREHENSIVE PARKING STUDY FOR DOWNTOWN, BILTMORE VILLAGE AND WEST ASHEVILLE AREAS

C. ORDINANCE NO. 2511 - BUDGET AMENDMENT APPROPRIATING $50,000 FOR RIVER DISTRICT DEVELOPMENT PLAN

Summary: The consideration of a budget amendment, in the amount of $50,000, to fund the River District Development Plan.

18

City staff recommends that the City of Asheville partner with RiverLink to develop the river core area of the City along the French Broad River from Lyman Street North to the Norfolk and Southern Trestle. To begin the process, a development plan/study should be undertaken. RiverLink has been able to raise approximately $100,000 ($11,000 of the $100,000 is from the City). The City would need to budget an additional $50,000 for a total City contribution of $61,000. RiverLink would commit $89,000, for a total budget of approximately $150,000.

Staff recommends funding the additional $50,000 contribution by appropriating $50,000 in additional revenue from the cable franchise fee settlement agreement. This additional revenue is available due to a recent settlement with InterMedia regarding a dispute over the amount of franchise fees which should have been paid under the 1967 cable franchise agreement.

Staff recommends City Council appropriate an additional $50,000 in expenditures and revenues for the River District Development Plan to be funded from the cable franchise fee settlement.

H. **RESOLUTION NO. 98-143 - RESOLUTION MODIFYING SCHEDULED CITY COUNCIL MEETING TO ANNOUNCE A COMMUNITY MEETING ON TUESDAY, SEPTEMBER 29, 1998, FROM 3:30 P.M. TO 5:30 P.M. AT THE SKYLAND VOLUNTEER FIRE DEPARTMENT LOCATED AT 9 MILLER ROAD, ASHEVILLE, N.C.**

RESOLUTION BOOK NO. 25 - PAGE 13

I. **MOTION DESIGNATING COUNCILWOMAN BARBARA FIELD AS THE VOTING DELEGATE AND MAYOR SITNICK AS THE ALTERNATE VOTING DELEGATE FOR THE 1998 ANNUAL LEAGUE OF MUNICIPALITIES BUSINESS MEETING ON OCTOBER 19, 1998**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinance on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda, with Item D being amended per the City Manager's request. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC INPUT SESSION TO IDENTIFY UNIFIED DEVELOPMENT ORDINANCE ANNUAL REVIEW ISSUES

Mayor Sitnick opened the public hearing at 5:34 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said on July 21, 1998, the Asheville City Council identified a number of items which were brought to their attention by the public, the Planning and Zoning Commission, and staff. City Council set a date to receive public comment on those identified items and instructed City staff and the Planning & Zoning Commission to study the feasibility of each item and come back to City Council with recommendations.

City Attorney Oast stated that after staff researches the issue and prepares a draft ordinance amendment, if appropriate, then the Planning & Zoning Commission will hold a public hearing and send their recommendation onto the City Council for their public hearing and action.

Mr. Green noted that this information is provided for Council's review and consideration during the public input session and that it has not been reviewed by any other body and there is no recommendation. He then gave a brief description of each of the items identified for consideration follows:

- **Revise Office District**
  - Reduce size of buildings permitted in the Office District (currently 4000 sq ft footprint and 8000 sq ft total building size) and create a new Office II District which would permit a building size between that permitted in the Office District and that permitted in the Office/Business District (30,000 sq ft).

- **Create a Mixed Use Planned Unit Development District**
    - Create a Mixed Use Planned Unit Development District which would permit developments containing a range of uses from mixed density residential to office to commercial designed in a unified manner.
    - Design flexibility would be a key component of this district, with incentives provided to encourage the attainment of community goals (walkability, provision for alternative modes of transportation, etc.).

- **Create an Open Space/Park Zoning District**
    - Develop a zoning district designed to accommodate public parks and open spaces.
    - The proposed zoning district will permit the development of parks and related public facilities and serve to protect these resources.
    - The Open Space/Park District will be applied to publicly owned properties; privately owned properties will not be assigned this designation.

- **Landscape Ordinance Revisions**
    - Require all parking spaces within a parking lot to be located within 30' of a tree instead of 60' as required in the current ordinance.
    - Require that trees and shrubs be planted within 8' of a vehicular use area, instead of 20', to count as parking lot landscaping.
    - Establish a time limit within which parking lot landscaping intended to buffer the lot from the street must meet the required 3' height and within which berms and grade changes must be covered with vegetation.
    - Establish a requirement for enhanced buffers where development abuts the interstate.
    - Review the requirements for maintaining existing trees during the development process

- **Standards for Churches**
    - Limit churches to one sanctuary building and one other building per parcel of property in residential districts.

Staff recommended this be incorporated into the research they are doing on churches in residential areas. Regarding the small committee which will be looking at that, Councilman Cobb has agreed to serve on that committee, as well as Rev. Jerry Young, Trinity Baptist Church, and the minister of Malvern Hills Presbyterian Church. He will be looking for one more member of the religious organizations to be on that committee, as well as three members of the neighborhood to represent residential areas of the City and one person on the Planning & Zoning Commission. He said they hope to start meeting in the first half of October and move on this quickly so the Church and the rest of the community can move on with the decision regarding Trinity Baptist Church and other churches located in residential areas. He did note again that after the Committee makes the recommendation, it must go to the Planning & Zoning Commission for their review and recommendation and then to City Council for their review and action. He said that if the Committee finishes it's work at the end of October, the issue will not be before the Planning & Zoning Commission until their December meeting.

- **Underground Utilities**
    - Require utilities in all developments to be placed underground.

- **Broaden Permitted Uses in Community Business II District**
  - Consider the addition of mini-storage facilities and automobile dealerships to the list of permitted uses in this district.

- **Identify Additional Neighborhood Business Zones**
  - Additional areas which are appropriate for neighborhood commercial opportunities should be identified for the application of this zoning district.

- **Advertising on buses and taxis**
  - Research ways in which standards may be established for advertising on buses and taxis.

- **Revisit the River District and draft changes to protect adjacent neighborhoods**
  - Revise the River District to incorporate changes that will afford adjacent residential areas more protection. Included in this review will be an examination of the uses permitted in the River District.

Mr. Green said that a representative of the property owners along the River contacted him and asked that we not consider any revisions to the River District until the RiverLink Master Plan for the River Core area was completed, so that we can incorporate any recommendations of that planning effort into the revisions to the River District.

- **Require construction of sidewalks and/or dedication of easements for all new developments**
  - Investigate the feasibility of requiring the construction of sidewalks or the dedication of sidewalk easements for all new development, both residential and non-residential.

- **Develop an intermediate Community Business district.**
  - Develop an intermediate Community Business District to bridge the gap between the Community Business I District (6000 sq ft footprint, 12,000 sq ft gross floor area) and the Community Business II District (45,000 sq ft gross floor area).

He said that staff has identified some priorities based on comments from the public and Council and will discuss some of these items at the October Planning & Zoning Commission meeting. The high priority items for staff are: (1) issue dealing with churches in residential districts, (2) the creation of an Office II zone; (3) the creation of a Mixed Use Planned Unit Development District; and (4) the creation of an intermediate Community Business District. He said that closely following that is the creation of an Open Space/Park Zoning District. The other items will depend on the amount of research needed and the amount of time it takes for the Planning & Zoning Commission to review the working papers, the background information, etc.

Vice-Mayor Hay said that one reason to revisit the River District was the concern of the people who live along the Swannanoa River about the River District and how it affects their neighborhoods. He didn't think the RiverLink Master Plan would extend that far up the river. Mr. Green said that staff is working on a corridor plan for the Swannanoa River between Biltmore Village and Tunnel Road, but even that will not extend that far up. He felt that this portion of the item should remain on the list for consideration. Mr. Green said that he would place that in the second tier of priorities.

Councilman Cobb felt that the definition of church should be changed as it was prior to adoption of the Unified Development Ordinance ("UDO") and Council needs to let staff and the Planning & Zoning Commission know what City Council wants the definition of church to be. Mr. Green said that with that pre-UDO definition, the interpretation was made by the Planning Director that that definition did not include day care, schools, etc. They were subject to the standards established under the old ordinance for day care, schools, recreation facilities, etc. The issue that we have to approach this time is to assure that churches can operate those facilities but that we are not upsetting that balance and creating a preferential treatment for them that we do not give other developers of those facilities.

Mr. Green said that the Committee (religious community, neighborhood representatives, etc.) will look at everything from the definition of church to the standards for churches in residential districts.

Upon inquiry of Councilman Cloninger, Mr. Green said that just because staff is looking at these items identified above, does not mean staff would draft an ordinance amendment, or the Planning & Zoning Commission would recommend approval, or City Council would adopt the ordinance. It is just a review of the request that has been presented from the community.

Upon inquiry of Councilwoman Field, Mr. Green clarified what research would be done with regard to reducing the size of buildings permitted in the Office District.

Councilman Sellers asked how long the small committee would take to study the standards relative to churches since City Council has asked that this item be looked at quickly in order to accommodate Trinity Baptist Church and the community. Mr. Green said that he would advise the committee that this is a very high priority, however, he could not predict when, or if, some type of compromise could be reached. He said that all the issues addressing churches would be studied at one time.

It was agreed to by City Council that the study relative to churches should receive the highest priority and put on the fastest track for reviews and recommendations and then be brought back to City Council. Mr. Green said that he already has on the October Planning & Zoning Commission agenda a discussion of this so it may be possible that they will be able to give direction to the small committee that will be studying this issue. The Planning & Zoning Commission may then be able to act on something as quickly as their November meeting.

In response to Councilman Tomes, Mr. Green said that the Committee will look at all uses that are developed and operated by a church.

Vice-Mayor Hay said he would like to see the committee set as a goal to have a recommendation to the Planning & Zoning Commission at their November meeting.

Mr. Dave Payne, attorney representing Trinity Baptist Church, said that since they are attempting to provide information to assist the committee, etc., in relation to making decisions and recommendations, he said that his law firm, as well as Gibbs & Craze in Florida and Ohio, are more than willing to provide any of the requisite legal memorandums in relation to possible establishment, clause violations, etc. He said that they will attempt to get that information early next week so the City will have a good legal framework from where the Church is coming from. They are also concerned about the definition of church. Also, in order to assist the Planning & Zoning Commission and pursuant to a request by the City Attorney, last week he provided City Council with a letter wherein they made three suggestions in relation to a potential amendment to the definition. He encouraged the Planning & Zoning Commission to look at these potential definitions because they establish public policy in the State of North Carolina. (1) "A private,

23

non-profit, tax-exempt institution, devoted solely to religious purposes." That definition was in place prior to adoption of the Unified Development Ordinance; (2) This definition, which excerpts a portion a N.C. Gen. Stat. sec. 105-278.3 (d) (1), is as follows: 'Church' means a place where religious worship is conducted. Although worship is the most common religious purpose, the term encompasses other activities that demonstrate and further the beliefs and objectives of a given church or religious body." He stated that the second sentence of this definition is established public policy in the State of North Carolina; and (3) "Church is a structure or group of structures whose primary use is the furtherance of a religious purpose. A religious purpose is one that pertains to practicing, teaching, and setting forth a religion. Although worship is the most common religious purpose, the term encompasses other activities that demonstrate and further the beliefs and objectives of a given church or religious body." He again said that this definition is verbatim from the State Statutes. He said that there will possibly be a further request in relation to a possible amendment, and that will have to be brought up by one of the Council members at another time. He strongly encouraged the Planning & Zoning Commission to look at these definitions, as well as the memorandums which they plan to submit in an effort to expedite this process.

Rev. Wendell Runion, Director and President of International Baptist Outreach Missions, said that the Christian community is very concerned that the City would be discussing the definition of a church. Churches have been a positive effect on our community, not a detriment. The definition of a church is the biggest problem, and they should be given the liberty to operate as they have for the past 200+ years.

Ms. Lou McCarthy, resident on Shelburne Road, felt like the City spent seven years on the Unified Development Ordinance and everyone should have to abide by them. We must have laws and abide by them.

Ms. Laurel Eide, representing her neighborhood, responded to Councilwoman Field's inquiry about office zoning. She suggested an amendment to the Unified Development Ordinance to make restaurants in the Office Business districts comply with the daylight hours of 7:00 a.m. to 7:00 p.m. With this change, the neighbors would not hear loud noises, music, loud cars and possibly intoxicated people.

Mr. Mickie McHaffee encouraged the people of the Christian community to work with City Council.

President of the Cloisters Homeowners Association urged City Council to proceed with revisiting the River District as it relates to the concerns of the people who live along the Swannanoa River.

Mr. Larry Holt, Realtor with Tessier Associates and Vice-Chairman of the Legislative Committee of the local Board of Realtors, passed out to Council an article entitled "Home From Nowhere" written by James Howard Kunstler and published in The Atlantic Monthly. He summarized the article by reading the following portion "Post-War urban and suburban development in the United States can be summed up as follows: almost everywhere laws have prohibited the building of the kinds of places in which human beings have traditionally felt good and can afford to live. We know enough now to begin designing our way our of this situation and some architects and planners are trying to do so." He also recommended the City review the City Plan prepared by John Nolan in the 1920's which point he makes is that we need to develop a sustainable City. The Board of Realtors stands ready to work with the City in working through some of the difficulties they have with the Unified Development Ordinance.

Upon inquiry of Ms. Carol Collins, member of the Community Council for Biblical Values, City Attorney Oast said that there will be at least two more opportunities for the public to comment on any proposed amendment to the Unified Development Ordinance relative to churches. One will be a public hearing before the Planning & Zoning Commission and the other will be a public hearing before City Council.

Ms. Collins encouraged the City make an effort to communicate with the religious community and the various churches making them aware of these meetings. She specifically asked that the Community Council for Biblical Values be given information on the meetings.

Upon inquiry of Mayor Sitnick relative to the number of comments from the community relative to the definition of church when the Unified Development Ordinance was being drafted, Mr. Green said that he did not recall a lot of comments during the public hearings. He said that a lot of the standards for churches grew out of the year or more that the Merrimon Avenue Baptist Church spent in mediation with representatives of the surrounding neighborhood. They were the ones that essentially drafted the definition and the standards for churches in residential areas. Those standards were first placed in the old Zoning Ordinance through an amendment to that ordinance. Then, they were placed verbatim in the Unified Development Ordinance. Again, since the church definition was not a "hot topic", the only meeting he recalled was where there were representatives from the neighborhood around the Merrimon Avenue Baptist Church to make sure that those standards remained in the Unified Development Ordinance.

Rev. Jerry Young, Trinity Baptist Church, felt that there weren't many comments about the standards for churches was because churches were not notified. He said the changes were made without notice to the churches. He said he worked with the Planning & Zoning Commission in 1993-1995 and with City Council on their project on Shelburne Road and they were never notified that there was any indication that the standards for churches would be changed. He questioned Planning & Zoning when the advertisements were done and when the churches were notified and they could not tell them. He said most of what was done regarding the Unified Development Ordinance was done without notice. He said the only thing that was done was a public advertisement. He said there was no notice given to property owners. He urged City Council to restore their rights as a church.

Mayor Sitnick said that she recalled the Unified Development Ordinance meetings were uniformly advertised. She said that maybe some press releases can be done that clearly state everybody is impacted in the community by the Unified Development Ordinance and we encourage everyone to attend the public hearings.

Rev. Randy Young, Pastor of Parkway Baptist Church, stated the following three primary concerns: (1) the present definition of church is a First Amendment violation because of the limitations placed upon them; (2) regarding a conditional use permit, it is not City government's place to tell the Church whether they can receive a permit or not receive a permit; and (3) limit of one sanctuary and one other building per parcel.

Councilman Sellers suggested Pastor Randy Young be considered as the third member for the religious organization to be on the small committee looking at the churches in residential areas. Mr. Green said that he would be happy to consider Rev. Young along with others who have been identified.

Ms. Barber Melton, Vice-President of the Haw Creek Community Association and Vice-President of the Coalition of Asheville Neighborhoods, said that the church seems to be concerned with their limitations on growth, but their growth is an infringement on the neighborhoods. Churches need to be treated like any other business that outgrows their parcel - they go to where a parcel is located where they are not taxing the infrastructure and not infringing on safety with traffic. They will support Council on a conditional use and they will try to help come to a peaceful solution. This does not only affect Trinity Baptist, it affects every neighborhood in the City and County as well.

Mr. Gene Covan, speaking on behalf of a local church, said that churches do a lot of good for a community but the laws will eventually start shutting churches down.

Ms. Ann Anderson felt that if the church doesn't have to obey the laws, then why should anyone obey the laws. Churches should set the example. She felt that churches should take a long hard look at how it's leading it's people to question laws that are trying to be fair to all people.

Mayor Sitnick closed the public hearing at 6:50 p.m.

Councilman Cobb said that it's a sad day when neighborhoods and churches don't get along. He said that everyone has rights and that the City should not be infringing on what the churches rights are. He said that Trinity Baptist Church, as far as he knows, has been a good neighbor for a lot of years. He hoped this can be resolved where everybody's right is protected.

Mayor Sitnick said that City Council and staff will welcome any comments as this process enfolds.

B. PUBLIC HEARING TO REZONE A PORTION OF PROPERTY ON TOLULA LANE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE BUSINESS

Mayor Sitnick opened the public hearing at 6:55 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger asked the City Attorney if there would be a conflict of interest for him since one of his partners in the law firm of which he is a partner in is married to a doctor who is also an owner in Victoria Investment Company. City Attorney Oast said that based on the information provided, he did not think were would be a conflict of interest. It does not appear to concern his own financial interest.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance rezoning a portion of property located on Tolula Lane from RS-8 Residential Single-Family High Density to Office Business District.

Victoria Investment Company is requesting a rezoning of a portion of a property on Tolula Lane from RS-8 Residential Single-Family High Density to Office Business.

The property totals approximately 2.3 acres, approximately 2 acres of which is requested to be rezoned. They have left out of their request a five foot strip along Tolula Lane and a ten foot strip along Choctaw Street. Both of those strips would remain zoned RS-8. The property is currently vacant and owned by the City of Asheville. Victoria Investment Company has an option to purchase the property. The topography of the site varies from sloping (from Tolula Lane) to nearly level. There is a stream which runs along the eastern boundary of the property, separating it from the commercial properties along McDowell Street.

26

The RS-8 zoning district is a high density single-family residential district which permits residential development at a density not to exceed eight units per acre. The Office Business zoning district is intended for medium scale office uses and a limited range of business uses.

The Planning and Development staff is recommending denial of the rezoning request for the following reasons:

- Staff feels that introducing a commercial use or uses to the property would have a negative affect on the neighborhood, particularly the properties on the west side of Tolula Lane;
- The property and the existing trees which straddle the stream currently act as an effective buffer between the residential uses on Tolula Lane and the commercial uses on McDowell Street; and
- This is publicly owned property that has potential for future use as housing and/or public open space.

At their August 5, 1998, meeting, the Planning & Zoning Commission voted 5-1 to recommend denial of the rezoning request.

The petitioners have appealed the Planning & Zoning Commission's denial to City Council.

Councilman Tomes said that several years ago there were several black businesses and homes in that area. The City was moving through the urban renewal process and displaced all of the African Americans. Now the area has been taken over by commercial businesses and offices. He felt the City should stop infringing and uprooting African Americans and displaying them and then complaining because it becomes another slum area.

When Councilman Sellers asked if the City could put restrictions on the publicly owned property before it is sold, City Attorney Oast said that it is the City's property and one way that any property owner has to control the use of the property is to put deed restrictions on it, which we can do before it is purchased by Victoria Investments. The contract that we have with them right now does not contain that provision and if Council were to direct him to do that, the contract would have to be re-negotiated. Even so, they would still need the rezoning they are requesting and Council cannot condition their rezoning on that, but they can provide for limitations on the use of the property through private deed restrictions.

Upon inquiry of Mayor Sitnick about if the City could do a conditional use permit for the property to be used only for parking, City Attorney Oast said that many cities have conditional uses available for non-residential off-street parking in residential zones. He doesn't believe the City has that, but it is certainly possible to amend our ordinance to include that type of language. If Council is considering that, he recommended that Council do it with more in consideration than just this particular parcel because that would affect future uses.

Mr. Phil Carson, attorney representing Victoria Investment Company, said that in May Council approved an option to purchase this property. His client has consulted with several of the neighbors and recognizes that the neighbors do have very real concerns. Because the neighbors said they did not want any traffic coming off Choctaw, they purposely left a way that there could be no access from Choctaw. They also left a five foot barrier between Tolula Lane and the property so that there could never be any access from this property to Tolula Lane if you granted the rezoning request. Victoria Investment Company is a good neighbor to the St. John's Church of God where they share parking with the Church. They are now in negotiations with them to continue that good relationship. Victoria Investment Company does not want the property for anything but parking and Council has the ability to restrict the property for that reason. Council also has the ability to restrict the property in other ways that are reasonable, i.e. saving the trees. Their architect has prepared a plan to save those trees. He urged Council to rezone the property so the medical center can have a place for their staff and doctors and patients to park. They are willing to work with the City and the neighborhood.

Vice-Mayor Hay asked if when the deed comes back to the City, would his client be willing to grant back to the City an easement for greenway development through that property. Mr. Carson said that as long as it's reasonable, they would be glad to do that.

Councilman Cloninger asked if Council is looking to rezone the property, would the procedure be that we would rezone it contingent upon certain deed restrictions plus an amendment to the option agreement currently in effect between Victoria Investment Co. and the City. City Attorney Oast said that if that is the course Council wants to pursue, then he would recommend Council continue the rezoning for a month to allow staff to develop the changes to the contract. He reminded Council that they can't consider specific uses for any rezoning and if they do allow the presentation by the architect, he suggested Council limit their consideration of that as to whether they want to direct staff to re-draft the contract.

Mr. Robert Camille, architect representing the doctors at the Mountain Neurological Center and Victoria Investments, passed out a drawing of the proposed parking lot. He said that before they ever approached the City about purchase of this property, they tried to contact every house along Tolula Lane and spoke to four out of six people. They asked if they would have any objection to the proposed parking lot and if so, what their concerns were. He felt they have made a good faith effort to work with the neighbors in terms of what they would like to see. He said the parking on the drawing is strictly diagrammatic. He said surface does not have to be asphalt, the parking can be more free flowing and the trees can be interspersed into the parking lot. He said they would be willing to put those into the contract. He said they are trying not to impact the trees along the Nasty Branch Creek. They do plan to put a foot bridge across the creek which would benefit not only the doctors, but also the church next door. He said they would like to continue to work with the neighborhood and develop this plan in any way they think is acceptable.

Upon inquiry of Mayor Sitnick, Mr. Camille said that they are asking for approximately 42 additional spaces. He said that the Church is getting ready to tear down their existing church and build a new church. Their new church doesn't have enough parking to satisfy their zoning requirements and this parking would be important to them as well.

The following persons spoke against the rezoning for several reasons, some being, but are not limited to: the parking lot will ultimately destroy the community by taking away family oriented neighborhoods; a five foot buffer will not be enough space between the parking lot and the neighborhood (1) to control noise from the heating and cooling units, (2) to abate the heat from the asphalt parking lot, and (3) to buffer the excessive noise from the traffic on McDowell Street because the trees will be removed; the views will not be green for nature but concrete office buildings; all property on Asheland Avenue has been rezoned to allow offices and businesses and they do not want commercial and business to encroach into the neighborhood; the Victoria Investment Company has not yet replaced the trees taken down to build the present parking lot; there is a clear showing by the neighborhood that they do not want a parking lot on the property, even with restrictions; the neighborhood is well-kept; a parking lot will represent a foot in the door for more encroachment into the neighborhood; the quality of the neighborhood will not change for the better; Victoria Investments removed about 150 feet of mature trees that acted as an excellent buffer from McDowell Street; a parking lot will mean run-off of oil into the

28

creek; there doesn't seem to be a need for additional parking now because there are a lot of vacant spaces in the present parking lots; the trees won't protect the neighborhood from the pollution; housing should be placed on the property; the neighborhood was not aware that a protest petition could be filed and staff should make an effort to inform people of their options; all the housing on Asheland Avenue is gone and the neighborhood does not want that to happen on Tolula Lane; and the African American neighborhood is well-established and the heritage should continue:

Ms. Shirley Young, East Riverside Urban Renewal Committee
Ms. Blanche Glenn, resident on Blanton Street
Mr. Gary Schwartz, property owner on Tolula Lane
Ms. Cynthia Steele, 317 Old Asheland Avenue
Mr. Brian Peterson, President of the Coalition of Asheville Neighborhoods
Ms. Clara Jeter, resident on Tolula Lane
Ms. Bishop, area property owner

Mr. John Silver, a partner in Victoria Investment Corporation, said that he felt they have done a good job with addressing some of the concerns the residents expressed, i.e., there is no access to Choctaw and they have kept a fairly significant buffer. He said they have put forth a significant effort financially and time-wise to preserve the original Sun Oil building and they will continue to keep this parking area as acceptable to the neighbors as they can.

At 7:32 p.m., Mayor Sitnick announced a short break.

Mayor Sitnick closed the public hearing at 8:03 p.m.

Councilwoman Field said that when looking for a connection between downtown and the river, she felt this property would be a good place for a greenway to be. She felt there should be creative ways to make this work. She sees this as an opportunity to use some paving tiles that grass can grow through, or the parking lot might be a playground for the children when the lot is vacant. She felt this was a zoning issue and not a racial issue. She asked that this matter be postponed until she has had an opportunity to visit the property.

Vice-Mayor Hay said that if Council decides to postpone the matter, he would like to see City staff put together an amendment to the option agreement that takes into account the concerns that Council wants addressed, so when it comes back for a vote, Council will have that option in front of them at the same time.

Upon inquiry of Councilman Cobb about the property being possibly used for a mini-park, City Attorney Oast said that when Council approved the option to sell the property that that question was put to the Parks & Recreation Department staff and they identified no need for it. Vice-Mayor Hay also noted that when Council checked about possible housing on the property, they were told that it had a very slim possibility of being used for housing.

Mayor Sitnick said that she had no problem with Council's request for a continuance in order to view the property, but just because the property exists doesn't mean it has to be built on and doesn't mean it has to be developed. As the property currently exists, it does seem like a good buffer between what is becoming a major thoroughfare and this neighborhood. She also pointed out that when the new McDowell Street bridge is completed, there is going to be an effort on the part of the N.C. Dept. of Transportation to re-route as much traffic off of Biltmore Avenue at the south end to McDowell Street and to make it a major connector to the downtown. That will significantly increase traffic on McDowell Street. When she visited the property she noticed that not only did the six residences on Tolula Lane have a chance of being heavily impacted by whatever happens on this piece of property, but the houses that share backyards with the houses on Tolula Lane will be severely impacted as well. She said that she would vote to deny the rezoning request for all the reasons she outlined, in addition to the Planning staff and the Planning & Zoning Commission's recommendation of denial.

Councilman Tomes said that he pastors in that area and is not trying to make this a racial issue, however, he has historical data and fact to back up his concerns. He felt that the property could be developed into a neighborhood park for neighborhood children. He will not support rezoning the property.

Councilman Field moved to continue this matter until October 13, 1998, without further advertisement, and that an amendment to the option agreement that takes into account the concerns that Council wants addressed be presented to Council at the same time. This motion was seconded by Councilman Cloninger.

City Attorney Oast said that he will have the amended option before Council on October 13, however, because this is an upset bid process, there may be an additional advertising time after that.

Councilman Cloninger hoped that the potential amended option would be a result of meetings which take place between the neighborhood and the architect. He did stress that City Council is not prepared to approve an amended option with deed restrictions, but just that Council just wants to look at it as a potential option.

City Attorney Oast said that any vote that Council takes now or in the future would be to rezone and not to rezone for a particular use, however, you can deed restrict it. He said that he would draft the deed restriction to run with the land.

The motion made by Councilwoman Field and seconded by Councilman Cloninger carried on a 6-1 vote, with Mayor Sitnick voting "no".

C. PUBLIC HEARING TO REZONE 196 DEAVER STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO COMMUNITY BUSINESS II

Mayor Sitnick opened the public hearing at 8:15 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of a request to rezone 196 Deaver Street from RM-8 Residential Multi-Family Medium Density District to Community Business II.

A petition has been received to rezone 196 Deaver Street (PIN No. 9638.15-74-0519) from RM-8 Residential Multi-Family Medium Density District to Community Business II.

The Technical Review Committee (TRC) reviewed this request and commented that direct access to this lot was from a 10 foot wide residential street with no right-of-way for widening. The street is not adequate to handle the traffic flow that may be generated from the permitted uses in the Community Business II District. The intersection of Deaver Street and Howard Street has sight distance limitations. Water service is inadequate and sanitary sewer service is not available for Deaver Street. The lot size is 0.25 acre.

30

The lot is currently being used for commercial parking from the business that fronts on Haywood Road. A mixture of commercial and residential structures exists in the surrounding area.

The Planning staff reviewed the rezoning request and recommended denial based on the comments from the TRC. At their August 5, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend denial of the rezoning of 196 Deaver Street from RM-8 Residential Multi-Family Medium Density District to Community Business II.

The petitioners appealed the Planning & Zoning Commission to City Council.

Mayor Sitnick closed the public hearing at 8:18 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved to deny rezoning 196 Deaver Street from RM-8 Residential Multi-Family Medium Density District to Community Business II. This motion was seconded by Councilman Tomes and carried unanimously.

D. PUBLIC HEARING TO REZONE FOUR LOTS ON LOUISIANA AVENUE FROM COMMUNITY BUSINESS I TO HIGHWAY BUSINESS

ORDINANCE NO. 2512 - ORDINANCE TO REZONE FOUR LOTS ON LOUISIANA AVENUE FROM COMMUNITY BUSINESS I TO HIGHWAY BUSINESS

Mayor Sitnick opened the public hearing at 8:19 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone four lots on Louisiana Avenue from Community Business I to Highway Business.

The owner/applicant Emmett Ramsey has requested four lots (PIN Nos. 9638.05-18-9647, 9794, 9933 and 9638.05-28-0885) on Louisiana Avenue be rezoned from Community Business I to Highway Business.

The Technical Review Committee reviewed the request for rezoning to Commercial Business II (which was the initial rezoning request) and commented that direct access to these lots would be from Louisiana Avenue and the street is currently inadequate to handle the traffic flow that exists. It should be noted that uses in the Highway Business District would be more intense and comments from Technical Review Committee on the previous request would be relevant to this request. To increase the volume of traffic that would be generated from the permitted uses in either Community Business II or the Highway Business District would require the developer to make improvements to the infrastructure (street). Since Louisiana Avenue is a state street, the N.C. Dept. of Transportation was contacted and the Transportation Improvement Plan indicates that Louisiana Avenue is just under a feasibility study and there is no target date for doing any widening. The property was zoned Commercial Highway prior to the adoption of the Unified Development Ordinance.

The petitioner indicates that if his lots were rezoned to Highway Business, it would permit him to construct a warehouse for storage of equipment for repair and servicing of manufactured homes and decrease his truck deliveries from 1 - 2 trucks per day to 1 - 2 trucks per month (or about 220 truck deliveries per year).

The Planning staff reviewed the rezoning request and recommended denial based on the comments from the Technical Review Committee. At the August 5, 1998, Planning & Zoning Commission meeting, the Commissioners voted to table any action until their September meeting and have staff review the Highway Business District with the petitioner. Staff met with the petitioners on site on September 1, 1998, and reviewed the uses allowed for he various zoning classifications. At the September 2, 1998, Planning & Zoning Commission meeting, the Commissioners voted 4 to 2 to recommend approval of the rezoning to Highway Business.

Mr. Emmett Ramsey, petitioner, spoke in support of the rezoning so he can expand his business and build a warehouse. He stressed that when the warehouse is built, the number of trucks that travel on Louisiana Avenue coming and going from his business would be decreased.

Councilman Tomes asked if the warehouse were built, would it have to conform to the neighborhood. Mr. Ownbey responded that Mr. Ramsey would have to submit a site plan for a Level I review by the Planning & Development Department, which would include a review for buffering, parking, etc. Due to the topography, you would not be able to see the warehouse from the street.

Mr. Brian Peterson, resident in West Asheville, urged City Council to contact the N.C. Dept. of Transportation and urge them to start making improvements to Louisiana Avenue as well as Hazel Mill Road and Emma, because of more and more development in the area.

Mayor Sitnick closed the public hearing at 8:37 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Sellers moved for the adoption of Ordinance No. 2512. This motion was seconded by Councilman Tomes.

Mayor Sitnick said that whether or not City Council rezones this property, the City Council should make a request to the N.C. Dept. of Transportation that they look at improvements to Louisiana Avenue as soon as possible.

City Attorney Oast reminded Council that if the property is rezoned, it is being rezoned to allow all uses available in the Highway Business District.

The motion made by Councilman Sellers and seconded by Councilman Tomes carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 144

E. PUBLIC HEARING TO REZONE 1720 AND 1724 OLD HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE DISTRICT

ORDINANCE NO. 2513 - ORDINANCE TO REZONE 1720 AND 1724 OLD HAYWOOD ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE DISTRICT

Mayor Sitnick opened the public hearing at 8:37 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone 1720 and 1724 Old Haywood Road from RM-8 Residential Multi-Family Medium Density District to Office District.

The owners/applicants Phyllis Patton/Betty Boyte, William Godfrey and William Taylor have requested 1720 and 1724 Old Haywood Road (PIN Nos. 9628.17-22-0183 and 2095) be rezoned from RM-8 Residential Multi-Family Medium Density District to Office District.

During the Planning staff review, discussions indicated that this area has begun its transition from the rural residential area to non-residential uses. With the development of the Lowe's superstore directly adjacent to these lots, the Office District would provide a transitional zoning pattern between the new commercial development and the established residential area.

The Planning staff reviewed the rezoning request and recommended approval. At the September 2, 1998, Planning & Zoning Commission meeting, the Commissioners voted 5-1 to recommend approval of the rezoning request.

Mayor Sitnick closed the public hearing at 8:42 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2513. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 146

F. PUBLIC HEARING TO CONSIDER A MODIFICATION OF THE SUBDIVISION STANDARDS FOR A NON-RESIDENTIAL SUBDIVISION IN ORDER TO PERMIT MORE THAN FIVE LOTS TO BE ACCESSED BY A PRIVATE DRIVE FOR CENTREPARK BUSINESS PARK LOCATED ON PINEY MOUNTAIN ROAD

Councilwoman Field asked if she had a conflict of interest because one of the owners, Mr. Johnson, occupies the same building as her employer. City Attorney Oast said that he felt there was no conflict of interest.

Councilman Cloninger asked to be excused from voting due to a conflict of interest because the firm of which he is a partner in is doing the real estate work for Centrepark Business Park. Therefore, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

Mayor Sitnick opened the public hearing at 8:44 p.m.

33

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of a modification of the subdivision standards for a non-residential subdivision in order to permit more than five lots to be accessed by a private drive for Centrepark Business Park located on Piney Mountain Road.

The applicant/owner Danie Johnson/R.L. Coleman have requested a modification of the subdivision standards in order to provide additional lots for the development of the business park. The project was reviewed by the Technical Review Committee at their meeting on August 17, 1998. The petitioner outlined the 1994 group development known as Park Terrace East which indicated twelve separate buildings within the business park. After review, the Technical Review Committee recommended approval of the subdivision modification for a maximum of twelve lots.

The Planning staff reviewed the request and after review by the Technical Review Committee, recommends that the modification to the subdivision requirements be approved for a maximum of 12 lots. At the September 2, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend the subdivision modification for a maximum of 12 lots.

Mr. Danie Johnson, architect and representative of the owners of the property, spoke in support of the modification request.

Mayor Sitnick complimented the developer, builder and architect for working with the neighborhood before any problems existed.

Mayor Sitnick closed the public hearing at 8:50 p.m.

Councilman Cobb moved to approve a modification of the subdivision standards to permit for a maximum of 12 lots to be accessed by a private drive for Centrepark Business Park. This motion was seconded by Councilman Tomes and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2514 - ORDINANCE AMENDING THE MEMBERSHIP OF THE ASHEVILLE FILM BOARD

RESOLUTION NO. 98-144 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE FILM BOARD

Mayor Sitnick said that on April 28, 1998, City Council adopted Ordinance No. 2465 establishing an Asheville Film Board. Councilman Cloninger was appointed as the member of City Council to the Board to serve a three year term.

On August 25, 1998, City Council interviewed Sarah Blankenship, Eric Scheffer, David Quinn, Lee Huebner, Peter Loewer, Curtis Gaston, Barbara Pasternack, Lee Nesbitt, Pam Turner, William Olsen and Gayle Wurthner.

On September 8, 1998, City Council interviewed Kathleen Bobak, John Cram, Rob Dame, Ashely Siegel, Jerry Birdwell, Bill Norwood and Katherine Talbot.

Mayor Sitnick said that the idea to establish an Asheville Film Board was (1) to have local board members to work hand-in-hand and in cooperation with the Western North Carolina Film Commission and the N. C. State Film Commission. It has also been formed in order for the City of Asheville to create a board of people in our community to act as liaison to film crews that come to Asheville, either to film movies, television shows or commercials, and to act as ambassadors on behalf of the City to that industry. We hope (1) with time we will be able to do more marketing of the City of Asheville for the film industry; (2) to be able to do more of a aggressive job of recruiting films to the City of Asheville, again, working with the regional and state film commissions; (3) at some point to get a private developer to build and establish a film studio here, a post-production facility, so that as film crews come to Asheville to do their outdoor and indoor shots they can also consider wrapping their films here instead of taking their crews back to California or New York and wrapping them there; (4) at some point, to be to create a resource guide that specifically establishes the entities within the City that are here to work hand-in-hand with the film industry whether it's catering facilities, limousine facilities, seamstresses, costume makers, make-up artists, etc. There is that opportunity, again, to work with the regional commission to develop that resource guide; (5), in the future, to maybe lure a television series here, like Northern Exposure; and (6) to be able to also work with the local schools, the high schools and colleges in the region, to establish some training and some workshops for screen writers and scrip writers and actors and technicians. The movie industry has become very high tech, so we hope that becomes a part of our efforts. There are other things as time goes on, but those are the basic reasons for the City Council to establish an Asheville Film Board. She thanked the Council for their support of it.

She said that there were over 53 applicants for this Board and City Council interviewed 18 people for the Film Board. Council was quite amazed at the talent and the pool of people that exist in Asheville, who are currently working full-time in the film industry and who have relocated to Asheville mainly because they fell in love with Asheville. In an effort to help form this Board, she and Councilman Cloninger met and reviewed the applicants and the interview process. They have created a slate that they would like to recommend City Council. Their slate consists of: Kathleen Bobak, Ashely Siegel, Jerry Birdwell, Bill Norwood, Eric Scheffer, David Quinn, Peter Loewer, Curtis Gaston, Barbara Pasternack, Lee Nesbitt, Pam Turner, and Gayle Wurthner.

City Attorney Oast said that if there was an even number of the Board, City Council should designate that a quorum would be, in this case, seven or eight - either 50% of the Board or 50%-plus one.

After a short discussion, it was the consensus to add Katherine Talbot to the slate. It was also the consensus to add Mr. Steven Heller (who was unable to come in for an interview) to the slate as well.

Councilman Cloninger moved to expand the membership of the Asheville Film Board from seven members up to fifteen members. This motion was seconded by Councilman Sellers and carried unanimously.

It was the consensus of Council to leave the quorum at a simple majority, which would be eight on a fifteen member board. City Attorney Oast said that when the Board adopts their own rules or by-laws, they should state that on votes a simple majority would prevail.

City Attorney Oast also said that the terms of office in the ordinance are staggered, and City Council will need to determine who will be given three year terms and who will be given two year terms.

Councilman Cloninger moved to appoint seven members shall be appointed to serve a two year term and eight members shall be appointed to serve a three year term, to be decided by the Board at its first meeting and to advise the City Clerk when the terms are assigned. This motion was seconded by Councilman Tomes and carried unanimously.

Councilman Tomes moved to approve the slate recommended by Mayor Sitnick and Councilman Cloninger. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 24 - PAGE 14

ORDINANCE BOOK NO. 17 - PAGE 148

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 8, 1998, AND THE WORKSESSION HELD ON SEPTEMBER 15, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on September 8, 1998, and the worksession held on September 15, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of September 4-10, 1998: Delbert Tochterman (Traffic Engineering), Robert P. Anderson (Streets), Bernice Hammonds (Water), William Campbell (Water), Melba Wilson (Sanitation) and Linda Mitchell (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. DEFINITION OF CHURCH IN THE UNIFIED DEVELOPMENT ORDINANCE

Rev. Jerry Young, Trinity Baptist Church, asked if one of the members of City Council would sponsor one of the three definitions of church, referred to in the letter Mr. Payne sent to the City Attorney, as an amendment to the Unified Development Ordinance ("UDO") thus expediting the process of resolving the issue concerning churches.

City Attorney Oast said any amendment to the UDO has to be reviewed by the Planning & Zoning Commission first. City Council cannot act on it independently. He also said that a member of Council may direct staff to introduce amendments to the UDO.

Councilman Cloninger felt the small committee, which will be looking at the entire subject of churches in residential areas, should look at all three definitions in addition to any other definitions.

36

Councilman Sellers asked if there was some way the definition of church issue can be addressed separately from the churches in residential areas issue.

In response to Councilman Sellers' request, Rev. Young said that they understand what they are presently doing, they have full authority to do and they intend to continue their grading and develop the site. However, until the issue is settled, they are not sure if they want to spend $3 Million for another building if they can't other buildings on the site. If the definition of church is left to the small committee to decide, debate, and come back, and have another hearing on, then it just strings them out further and increases the anxiety in their congregation. He said that Rev. Sexton pleaded with Council to not put Trinity Baptist Church in the place that they would have to seek legal action to solve the problem. He urged City Council to adopt one of the three definitions presented earlier by their attorney.

Councilman Cloninger didn't understand how a definition change would change the situation of Trinity Baptist Church since their rezoning request was denied. Rev. Young replied that if Council changes the definition of what a church it, it lifts the restrictions against day care, educational facilities and recreational facilities.

City Attorney Oast said that it is not required that City Council initiate text amendments, the Church can do that itself. They have to go to the Planning Department and fill out the appropriate form. However, he said that he cannot guarantee that it will come before City Council any quicker than it would otherwise.

Councilman Sellers said that if the definition were changed, he understands that Trinity would relax the lawsuit process. He said that since they are talking about spending $3 Million today, but their overall 5-10-20 year plan is a $16 Million plan. They don't want to put $3 Million in not knowing if they can go with the $16 Million plan. He thinks that if they can feel comfortable with the definition, they would feel better to go on with their project.

City Attorney Oast said he received the proposed definitions on Thursday or Friday and they have not had an opportunity to go through them to see whether they would accomplish what the Church wants to or not. The issue all along has been what non-worship type of activities the ordinance permits on church property if its in a residential neighborhood. He thinks what the church wants is a broader definition than currently exists in the Code.

Councilwoman Field said that day care is allowed in residential districts limited in size, recreational areas are allowed in residential areas and schools are allowed in residential communities by either conditional uses or uses by right subject to special requirements. She then asked the City Attorney if he had any opinion on whether any of the definitions submitted by Mr. Payne are part of the statutes. City Attorney Oast said that doesn't doubt that any of them are part of the statute, however, they are part of the tax statutes which have different consequences, than zoning ordinances.

Upon inquiry of Councilman Tomes about expediting the process with the definitions presented by Mr. Payne and the forthcoming legal memorandums, City Attorney Oast said that he would want to do his own research on this issue, however, any information he receives will be helpful.

When Councilman Tomes asked what some options would be to expedite the process, City Attorney Oast said that it is possible for City Council or Trinity Baptist Church to initiate a zoning ordinance text amendment that would put it on a separate tract from the UDO amendments Council directed Senior Planner Gerald Green to begin working on earlier, and it may be a faster tract.

37

Rev. Young requested that City Council initiate the text amendment because he felt the Planning & Zoning Commission would respond quicker to City Council than to the Church.

Councilman Cloninger said that he could not knowledgeably recommend one definition over another at this meeting.

Councilman Cobb wanted City Council to define church and send it to the Planning & Zoning Commission.

Councilwoman Field agreed that one of the serious problems is the definition of church and Councilman Tomes indicated that the activities and the ministries of church are changing. She wanted to move forward as quick as possible to get this resolved. Therefore, she moved to direct the staff to come back to City Council at a worksession with a recommendation on the best way to move this forward as quickly as possible. This motion was seconded by Councilman Tomes.

Mayor Sitnick said that since the next meeting of Council is a community meeting and since City Council wants to do this as quickly as possible, she suggested the City Attorney to create some language and that he fax it to the members of Council. City Council can then get back to the City Attorney with their thoughts and opinions on that language. Then, the City Attorney can have the language prepared and at least seen by Council prior to the meeting in two weeks, which may occur around the same time the small committee will be meeting.

Rev. Young said that they are spending thousands of dollars to have this matter researched and the definitions presented by Mr. Payne are the definitions for churches that have existed. He questioned what is unique to Asheville that they cannot agree on one of the three definitions.

Councilman Cloninger reminded Council that if any amendments are made to the UDO that the amendment will pertain to all churches, not just one. He felt that it would be quicker if Council tells the small committee to look at all three definitions along with anything that staff may recommend.

Councilwoman Field said that after talking with Planning staff, they feel that their definition of church is what they want it to be. They have checked with other definitions in other development ordinances in the state and they feel like their definition is fine. Their concern is that if you allow churches to be defined as having activities such as day care or recreation that are done by the for-profit sector, that the non-profit sector will have an advantage over the for-profit sector. She personally believed that churches do more than that, but if it is sent to the staff, it would come back to City Council basically the way that it is now. She suggested that the City Attorney look at it and not staff and not a committee.

Councilman Tomes said that if you look at church as a business entity in the context that we understand secular businesses, we will never come to a definition of a church. You cannot look at the church in the context as we look at secular business. He stressed that we are dealing with spiritual concerns here that may include business skills and management, but it is not a business in the sense as we understand business in the American culture.

Mayor Sitnick said that she understands the biggest concern is expediency as it addresses the language that the Church would like to see addressed. This will take a specific amount of time and it's not going to take any more time than necessary because this Council and staff has been working very hard to create some kind of way for Trinity and other churches to do their business while taking care of our neighborhoods as well. Our purpose is not to delay this or to keep Trinity waiting or paying attorney fees. We would hope that the Church would allow City

Council the little bit of time they need to come up with the proper group to work this out. Council can't do this tonight and if a member of Council wants to sponsor the request that Rev. Young is making, she will ask Council to do that now. Otherwise, let's ask the City Attorney to come back to Council with some kind of language and let the small committee come up with some kind of language. Then Council can review them both and come up with some language that is good for everybody. She did not think it could happen any sooner than two or three weeks anyway - no matter how it's done.

Rev. Young said that he was not concerned with two or three weeks, but he was concerned with three months to a year later, noting that this is what the Church asked for back in January.

Councilwoman Field said right now Trinity Baptist believes they are operating illegally because what they do is not as defined in the UDO. However, they are grandfathered in.

When Rev. Young suggested that the City tell their code enforcement offices that the Church is grandfathered, City Manager Westbrook responded that the letter received from the City to Trinity Baptist Church was responding to complaints from neighbors. One of the zoning enforcement officers called the Church and asked if they were doing some of the activities the neighbors alleged. The Church responded that they were. The letter from the City to the Church asked that they clarify exactly what they were doing because that was not allowed in the current zoning classification.

Councilwoman Field clarified her motion to direct the City Attorney to come back to City Council with a recommendation on the best way to move this forward as quickly as possible, whether he recommends that we do all the church issues at one time, that City Council should define church and send it to the Planning and Zoning Commission, or that the small committee should deal with these issues.

Vice-Mayor Hay and Councilman Cloninger said that they would vote against the motion because they believe that the small committee process will be just as expeditious and will give Council better results than being on two different tracts at the same time.

Councilman Cobb said that in the 2010 Plan, the church is defined as a private non-profit, tax-exempt institution devoted solely to religious purposes.

The motion made by Councilwoman Field and seconded by Councilman Tomes carried on a 5-2 vote with Vice-Mayor Hay and Councilman Cloninger voting "no".

B. REQUEST FOR NON-ENFORCEMENT OF LAWS CRIMINALIZING CANNABIS USERS

Mr. Dan Waterman, speaking on behalf of a group of concern citizens, addressed the issue of violation of their constitutional rights at the August 25, 1998, City Council meeting. He offered Council the option of placing their issue on the next open City Council's agenda.

When Mayor Sitnick asked what they wanted placed on the agenda, he responded that they wanted their resolution they presented to City Council on August 11. Mayor Sitnick said that she is not willing to place that matter on the agenda and when she asked other members of Council if they were willing to place it on an agenda, she heard no response.

Mr. Waterman said that their constitutional rights were violated on August 25, 1998, when they gathered at the Vance Monument in preparation to attend the City Council meeting. There were a large group of Asheville police officers there, one of which was filming them. They

39

marched from the Monument to the City Hall Building. Because of the large group of people at the meeting on a separate issue before Council, the Fire Marshal stated that some people would have to leave the floor. Realizing that they were going to be recognized at the end of the meeting, they volunteered to move downstairs. While in front on the City-County Plaza, they were filmed by an undercover officer who later followed the group into the Council Chamber and filmed them there. He said that he went up to the officer and obstructed the view of his camera and the officer threatened him with arrest for obstructing and impeding an investigation. When he inquired who was being investigated, the officer remained mute. Since that time, they have inquired at the Police Department if there was an investigation going on and the Police Department claims there was no investigation. The Police Department said that officer was there to ensure their safety. He noted that the other group of people at the Council meeting that night were not being filmed.

Mr. Waterman said that this is the third time they have appeared before Council and asked for a response from Council. Even if Council does not agree with them, they certainly deserve to hear Council's voices and they have not heard them. They are tired of trying to elicit those voices from them. Because City Council has failed to respond to them, they have had to enlist legal help and hire legal counsel. City Council has the resolution, the information they have previously furnished to Council on cannabis, as well as their concerns. They have not received one indication that City Council is concerned with their concerns - not that Council is in agreement with their concerns, but just that Council is concerned with their concerns. They are giving City Council an opportunity, again, to respond to their resolution and concerns. If City Council cannot pass their resolution, then they asked that City Council come up with an alternative way in which the Council can work with them and expand the dialog that they have opened up as far as their concerns. If City Council fails to respond to them, their next step will be to advise their legal counsel to draft a list of demands which will be sent to City Council. If Council fails to respond to their demands promptly and properly, it will cause them to take the other legal options that they have at their disposal. He said that any average citizen, especially with the topic as controversial as theirs, who shows up to give voice to their concerns and finds that they are put under the unfair and unbalanced scrutiny of the Asheville Police Department and filmed, might be deterred from exercising their right to free speech, their right of assembly, and their right to redress grievances. He did note that he was a former guardian ad litem but he was not willing to divulge where because apparently someone has been investigating him.

Mayor Sitnick said that a number of weeks ago, Mr. Waterman called and said they wanted to come in and speak with her because they wanted to introduce this resolution to Council. She explained why it took three weeks to get an appointment with her, noting that she is booked well into 1999. She also requested the City Manager block out an hour of his time as well to meet with them as well. She said Mr. Waterman, along with three or four other people, met in her office and talked about this resolution for an hour. Their voice was heard. Mr. Waterman's second statement was that City Council failed to respond - that we didn't have to agree with the group or adopt the resolution, but at least you wanted Council to respond. She said that the City Manager and her were very clear with them that day and they did respond to them. They were told that they did not chose to put this item on the City Council agenda for several reasons and she was very clear about those reasons. This City Council and this City did not have the authority to do what they were asking, nor would they ask the City's law enforcement officers to discriminate in the enforcement of the law. In Mr. Waterman's statement on why the City couldn't come up with suggestions, she noted that not only did they come up with several suggestions at the meeting in her office on that day, but at the first meeting when the group came to City Council, they came up with some suggestions. She has talked to a number of people who were there that night and who spoke, and have given them suggestions as well. As a matter of fact, several of them have come to her and said they didn't know why people were continuing to pursue this in front of City Council. She said that she believes so strongly in democracy that even though she didn't want to put it on City Council's agenda, she suggested that if Mr. Waterman could approach each Council member and if he could get a majority of them to agree with him, she would place it on the agenda.

Upon inquiry of Mr. Waterman on if City Council used this procedure in the past, Mayor Sitnick could not recall a specific instance, but did remember there were a couple of times when City Council didn't want to hear something unless there was a majority of Council who were interested. In fact, there have been Mayor's over the years who wouldn't put anything on the agenda unless there was a majority of Council interested in dealing with the issue.

Mr. Mickie McHaffee said that as a result of this issue being brought up, the downtown street people are taking the brunt from the Asheville Police Department.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:58 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

9 Miller Road

3:30 p.m. - Community Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Council M. Charles Cloninger

The following topics were raised by residents and addressed by City Council and City staff: opposition to annexation in the south; numerous curb cuts on Hendersonville Road; request for sidewalks on Hendersonville Road as well as pedestrian friendly areas; speed limit on Hendersonville Road is too high; grading by Fugazy Travel is getting worse; lighted sign at 1700 Hendersonville Road is out of compliance; noise from cleaning K-Mart Shopping Center parking lot at night and noise from bar near K-Mart is disturbing homes in the Crowfields development; sanitation workers leave garbage cans in the streets; dead animals need to be picked up near the Parkway entrance on Hendersonville Road; request to help City combat litter; I-26 Corridor should be built out of town; and noise from CP&L plant is very disturbing to those who live near the plant.

Mayor Sitnick adjourned the meeting at 5:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

42

Tuesday - October 6, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger (arrived at meeting at 3:30 p.m.); Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Blanket Easement to Carolina Power & Light Company for Rankin Heights Subdivision

Summary: The consideration of a resolution authorizing the Mayor to convey to Carolina Power and Light Company (CP&L) a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Rankin Heights Subdivision.

Rankin Heights Subdivision is located at the intersection of Stewart Street and Kentucky Drive and consists of seventeen residential lots being developed for single family home ownership.

In order to install underground electric service to all seventeen homes to be constructed in the subdivision, CP&L has requested a blanket easement. The proposed blanket easement will enable the facilities to be placed in "mutually suitable locations." The actual locations will be determined between the owner and CP&L at the time service facilities are installed.

Approval of the resolution will authorize conveyance of the easement to CP&L for the installation and maintenance of electric service facilities.

Community Development staff recommends adoption of the resolution authorizing the Mayor to convey to CP&L a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Rankin Heights Subdivision.

VA Fire Protection Agreement

Summary: The consideration of a resolution renewing Oteen VA Medical Center's fire protection contract with the City of Asheville for a term of up to three years.

For more than fifteen years, the City of Asheville has furnished fire protection services under contract to the Oteen VA Medical Center. The present contract for such services will expire in October. VA Medical Center staff have requested renewal at the same terms presently in place—a payment of $30,000 per year for Asheville Fire Department fire response, fire prevention activities and fire safety education for VA staff.

Oteen VA Medical Center has petitioned City Council in previous years for annexation, so that full City services would be available to the VA Medical Center at no cost to the Center. The present contract—and the proposed contract—provide for termination of the contract if annexation of the Oteen VA Medical Center were to occur.

43

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a new fire protection contract with the Oteen VA Medical Center.

Budget Amendment relative to Senior Center Appropriations

Summary: The consideration of a budget amendment, in the amount of $13,514, to establish a budget for funds received from the North Carolina General Assembly for improvements at Harvest House and the Senior Opportunity Center.

The Senior Center Appropriation is designed to provide funds to senior centers throughout North Carolina for a variety of services including capital improvement, supplies, equipment, and staff. The funds will be used at the Harvest House to remodel the reception area and office, and to renovate two outdoor shuffle boards and shelters. Senior Opportunity Center will purchase a new ceramic kiln and commercial kitchen equipment to update the existing kitchen.

The Parks and Recreation Department staff recommends City Council accept the legislative appropriation for improvements at Harvest House and the Senior Opportunity Center.

Budget Amendment relative to Master Street Tree Plan, Phase I

Summary: The consideration of a budget amendment in the amount of $9,873 to establish a budget for funds received from the N.C. Dept. of Environment and Natural Resources for the development of a Master Street Tree Plan, Phase I.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City rights-of-way located within the City limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase I of the process will specifically identify the location, size, condition, and site conditions of trees located in the central area of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

If funding is available, future phases of the Master Street Tree Plan will identify the location, size, condition, and site conditions for street trees in the north, west, south, and east areas of Asheville.

The Parks and Recreation Department staff recommends City Council accept the grant funds for the development of the Master Street Tree Plan, Phase I.

Budget Amendment relative to Establishing a Project Budget for Heating, Ventilation & Air Conditioning System at Shiloh Community Center

Summary: The consideration of a budget amendment, in the amount of $30,000, to establish a project budget for replacement and/or improvement to the Heating, Ventilation and Air Conditioning (HVAC) system at the Shiloh Community Center.

In a prior budget year, City Council appropriated $30,000 to the City's Capital Reserve Fund for Parks & Recreation to undertake various HVAC replacement and improvement projects. Thirty thousand dollars was then transferred from the Capital Reserve Fund to the City's General Capital Projects Fund to provide funding for HVAC projects. To officially appropriate the cash received from the Capital Reserve Fund, and to properly establish an

HVAC project budget, a budget ordinance amendment authorizing a $30,000 increase in budgeted revenues and expenditures in the General Capital Projects Fund needs to be approved by City Council. This is not a request for additional funding since funds were initially authorized and budgeted in the City's Capital Reserve Fund.

The Parks and Recreation Department requests City Council amend the City's General Capital Projects Fund by appropriating revenues and expenditures in the amount of $30,000 for HVAC replacement and improvements at the Shiloh Community Center.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ECONOMIC DEVELOPMENT THROUGH HISTORIC PRESERVATION

Ms. Pam Nickless, Professor of Economics at UNC-Asheville and member of the Historic Resources Commission, explained that the historic preservation movement is well known for its efforts to preserve old buildings and historic neighborhoods, but there is more to the preservation movement than preserving the historical and architectural resources of our community. Less understood is the impact of historic preservation on economic development. While the foes of preservation often paint us as anti-development or anti-growth, the economic impact of preserving historic neighborhoods and buildings is often overlooked. A 1997 study commissioned by Preservation North Carolina found that the economic impact of preservation is both positive and substantial. In summary of those study results, she briefed Council on some of the benefits of preserving our built environment to North Carolina, Asheville, and Buncombe County.

Impact on Tax-Base

Perhaps the simplest and easiest way to assess the impact of preservation is to take a good look at the increase in property values in the historic districts. Residential properties in Montford show significant increases in appraisal values after renovation. In addition, as renovation and increases in property values occur, new construction takes place on once vacant lots further increasing the tax base. Of particular interest is the commercial development taking place in Biltmore Village. Development here was clearly influenced by the creation of a historic district. Property values on Boston Way increased by incredible 248% from 1990-98 while the lowest increase (Brook St.) was a respectable 49%. Even a casual drive through the area will reveal a vibrant commercial district in sharp contrast to even fifteen years ago.

Studies consistently show that not only does designation as an historic district increase property values, it consistently encourages reinvestment.

Job Creation

By any measure, historic preservation "excels as a creator of jobs and as a generator of local economic growth." According to Rypkema's study of the impact of preservation in NC, "a million dollars spent in rehabilitating an older building creates 41.4 jobs--22 in the construction industry and 19 elsewhere in the economy." That's 5.5 more jobs than the same amount spent on new construction. Too often people think rehabilitation projects add more jobs to the economy because they are more expensive but this is not so--rehabilitation adds more jobs because it is more labor-intensive, not because it costs more! (Often rehabbing an old building is cheaper than tearing down and re-building.) The additional jobs are created because rehabilitation relies on local craftspeople and suppliers. With new construction, there is more off-site assembling that uses fewer workers and much of this off-site work is done out-of-town or even out-of -state. The benefits also go beyond the construction trades to local architects, engineers and designers.

Historic preservation also creates more household income for North Carolina residents than dollars spent on new construction. When local craftspeople or architects or engineers are employed, the dollars they earn are spent in the community generating more income for the people from whom they buy their groceries, cars and shoes. (Economists call this the multiplier effect--every dollar spent generates more dollars in income and the effect is multiplied through the economy.) Because rehabilitation creates more jobs locally, the impact of a million spent on rehab will create more household income than a million spent on new construction.

For Asheville, the creation of jobs in tourism is also of great importance. Historic preservation attracts tourists. To put it bluntly, we sell our historic community to tourists. Two studies prepared for the Asheville Area Chamber of Commerce in 1996 and 1997 point to the importance of historic sites for visitors to Asheville and Buncombe County. To quote from the study by Arthur Anderson "The primary purposes for travel to Asheville are for crafts, history, architecture, nature, fall foliage, the Biltmore Estate..." In 1996, according to D.K. Shifflet and Associates, 39% on the visitors to Asheville listed visiting historic sites as a reason for their visit. This was the reason most given and it is increasing in importance. Over and over both studies argue that Asheville's strengths include her built environment. Specifically both studies cite the revitalization of downtown, Biltmore Village, the Grove Park Inn and, of course, the Biltmore Estate as reasons people come and return. These are all historic preservation projects! In addition in the winter season when tourism declines, the visitors still attracted to Asheville are primarily here to visit historic sites. These visitors also spend more money since they tend to be college-educated couples. Preserving our historic community is absolutely necessary if we are to continue to attract tourism.

Another important reason folks come to Asheville and Buncombe County is crafts. The HandMade in America project has garnered nation-wide attention. While the craft industry is not strictly speaking historic preservation, the preservation of traditional crafts and historic buildings and communities often go hand in hand. HandMade in America not only includes historic sites and lodging in their The Craft Heritage Trails of Western North Carolina, they are also working on a pilot program with four historic mountain towns that will use a preservation-based downtown revitalization strategy.

The topic of job creation would be incomplete without a mention of the film industry. North Carolina leads the nation in film industry growth and several films have been shot in Asheville. "The film industry comes here for films that need period towns and buildings." Our historic buildings and neighborhoods are an important, money-making asset.

Tax Credits and Economic Revitalization

Of great importance to the economic revitalization of historic buildings has been the use of the Federal Historic Rehabilitation Investment Tax Credits available for income-producing historic buildings since 1976. In North Carolina, there have been 732 private-sector projects undertaken from 1976-1996. They have totaled nearly $325 million in private investment. If the same amount had been spent on new construction there would have been 1800 fewer jobs and $26 million less in household income for North Carolina citizens.

In Asheville and Buncombe County, 105 projects have been completed for a total of $45 million. These projects include the rehabilitation of the Manor Inn and Cottages, the Drhumor Building, the Jackson Building and many others. One key to our recent downtown renaissance has been the ability to use these tax-credits for downtown rehabilitation. Every dollar spent on revitalization creates jobs and generates incomes for our residents--and attracts more tourists!

We can expect even more development in our historic districts in the future. In 1997, the State created new tax credits for historic rehabilitation for owner-occupied housing. This should increase the rehabilitation of privately owned eligible housing in years to come.

Better Use of Infrastructure

As everyone knows growth is expensive, it requires an expansion of basic services such as water, sewage, utilities and fire and police protection. When we rehabilitate our historic neighborhoods we experience economic growth without the corresponding increase in expensive services. Because the historic neighborhoods already have infrastructure in place it is much cheaper to provide new residents with basic services. Although services in historic neighborhoods may need upgrading, it is certainly less expensive and less damaging to the environment than expanding services to new areas.

Allowing older neighborhoods to deteriorate while providing expensive new public infrastructure for suburbs is simply not fiscally responsible.

Quality of Life

Although quality of life is last on our list, it is certainly not last in its impact on economic development. Attractive well maintained historic neighborhoods make our city a better and more comfortable place to live and attract the kind of people with a sense of history and place that make good neighbors. The revitalization of downtown has not only provided tourists with entertainment, shops and restaurants but made the quality of life in Asheville-Buncombe County better for all residents. Concerns about the sense of community and the quality of our built environment are not the concerns of a cultural elite but should be considered our main asset. As the Anderson Report put it, "Don't change the face of Asheville."

City Council thanked Ms. Nickless for her efforts and the efforts of the entire Asheville-Buncombe Historic Resources Commission as well as the efforts of the Preservation of Asheville-Buncombe County.

HOUSING ACTION PLAN

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a Housing Action Plan which recommends specific actions to be taken by the City and its partner agencies in 1998/99 to increase the production of affordable housing in Asheville and Buncombe County.

In October 1997, the City commissioned a study of the affordable housing market in Asheville from Housing and Community Insight, Inc. The study was completed in February 1998 and in June Council approved the Study's eight broad strategies and instructed staff to develop an action plan based on its detailed recommendations.

The Housing Action Plan was developed by staff of the Planning and Development Department. Input was invited from 37 organizations concerned with housing issues, including non-profit agencies, banks, realtors and developers. The first draft of the plan was reviewed by the Housing and Community Development Committee on September 15, and discussed at a public meeting on September 24 attended by about 25 persons. It was generally well-received, and some suggestions for amendments were made, most of which have been incorporated into this final version.

The Plan sets out a response to each of the study's recommendations, concentrating on those actions that can be implemented by June 30, 1999. Short narratives explain the reasons for the actions being proposed, but to understand the Plan fully it should be read in conjunction with the original Affordable Housing Market Study, which contains a wealth of data and analysis not repeated in the Plan.

At the end of the Plan is a table summarizing all the actions proposed. This takes the place of an Executive Summary.

Staff recommends that City Council approve the Housing Action Plan.

Ms. Caplan then reviewed the eight broad strategies and briefly reviewed some actions that can be implemented within the first year, i.e., June 30, 1999. She noted that in many cases, implementing action is already underway, or even completed (e.g., fee waivers for affordable new construction).

Councilwoman Field commended Ms. Caplan for her work and the work of the many groups involved in developing this Plan. She said that the Housing & Community Development Committee recommends City Council adopt the Housing Action Plan and let staff begin implementing the actions.

Councilman Tomes expressed concerned about how the City will address the action of researching under-representation of African-American home buyers in the market.

Ms. Caplan responded to various questions from Council regarding affordable housing.

Mayor Sitnick asked if Ms. Caplan could put together a list to be given to private developers which contains information about tax credits, programs and federal agencies they can apply for to help when they are interested in building affordable housing.

Mayor Sitnick suggested City Council start writing to our state and federal representatives about re-prioritizing some parts of the state and federal budgets in order to target more monies to help cities, like Asheville, that seem to attract people in need.

Mayor Sitnick said that whatever formal City-County collaboration on housing takes place, to make sure that the City is recognized as part of Buncombe County.

Councilwoman Field said that a letter needs to be written to our state representatives urging them to fully fund the Housing Trust Fund.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PARKS & RECREATION MASTER PLAN & GREENWAYS MASTER PLAN

Mr. Irby Brinson, Director of Parks and Recreation, said that staff was given direction by City Council to examine the draft of the Parks and Recreation Master Plan and to bring back recommendations for prioritization of needs for the next five to seven years.

On May 12, 1998, staff presented to City Council the Comprehensive Master Plan for Parks and Recreation. During that meeting, City Council directed staff to carry out the following objectives and to report back to City Council at a later date their recommendations. These directives included the informal agreement to the concept of the Master Plan, making sure the Parks and Recreation Master Plan is coordinated with the Greenway Master Plan, properly prioritizing needs for the next five to seven years, instructing staff to move toward a bond referendum, and reporting back to City Council their recommendations. In an effort to achieve the above objectives, staff expanded the Parks and Recreation Master Plan Steering Committee to include a greater diversity of representation on the Committee. This Steering Committee is made up of over 75 members of the community and has been working since June to develop the recommendations which are presented in this report. The process has been inclusive and based upon input from a broader range of community interest.

Ms. Susan Roderick, Chair of the Steering Committee, spoke in support of the Master Plan and spoke about how the plan will be an asset for the neighborhoods as well as for the economy.

Mr. Brian Peterson, Assistant Chair of the Steering Committee, also spoke in support of the Master Plan and outlined the process which took place to come to a consensus on all of the items. He stated that there is a high level of support for greenways and passive parks in Asheville and said that the Steering Committee strongly endorsed the process.

Mr. Brinson then summarized the Plan by saying that the Steering Committee is recommending the following elements to be included in an $18 million bond referendum.

New Facility Development	$6.4 million
- Richmond Hill Community Park	
- Lake Craig Community Park	
- White Fawn Park	
- French Broad River Park	
- Aquatics Facility at Asheville High	
- Construction of Tot-Lots	
Renovations and upgrades to existing facilities	$6.6 million
- Burton Street Center and Park	
- Ray Kisiah Park	
- Roger Farmer Park	
- Memorial Stadium & Mountainside	
- Shiloh Center and Park	
- Montford Center and Complex	
- Reid Center and Park	
- Senior Center Renovations	
- Valley Springs Park	
- Murphy-Oakley Park	
- Montford Park	
- Malvern Hills Park	
- Charlie Bullman Park	
- West Asheville Park	
- Vance School Park	
- Livingston Street Park	
- Weaver Park	
Greenway Development	$3.0 million
Land Acquisition	$2.0 million

Mr. Brinson said that there are several collaborative efforts underway, for example, the Kiwanis Club, the Kenilworth and Montford neighborhoods, Quality Forward, RiverLink, the school system, UNC-A, etc. He hoped that there will continue to be a general fund contribution, noting that grants will continue to be actively pursued as well as sponsorships and donations, and fees and charges will continue to be collected.

He said that order to meet the objective for coordinating the Parks and Recreation Master Plan with the Greenway Master Plan, Greenways Inc. and Trust for Public Land will be presenting the final draft of the Greenways Master Plan in conjunction with this presentation. The Parks and Recreation Master Plan Steering Committee recommends including the Greenway Master Plan as an addendum to the Parks and Recreation Master Plan.

The Parks and Recreation Master Plan Steering Committee, the Greenway Steering Committee, and staff from both Parks and Recreation Department and Planning and Development Department recommend City Council's adoption of the Parks and Recreation Master Plan and the Greenway Master Plan.

Mr. Will Abberger, representative of the Trust for Public Land, outlined the process which took place during the planning process for the Greenways Master Plan which began in October of 1997. A site evaluation of the City of Asheville and potential greenway corridors was undertaken first, along with the creation of the Citizen's Advisory Committee (CAC), which included over 30 individuals representing a broad range of interests. The formation of a vision, goals and objectives took place next, crafted by comments received from the CAC and participants of two community workshops. Preliminary recommendations for greenways in Asheville were then developed and presented to members of the City Council Greenways Subcommittee, CAC and participants in two community workshops for review. Recommendations were revised and presented once again for review by the general public, by the CAC and by the City Council Greenways Subcommittee before final recommendations were made.

Mr. Abberger outlined the benefits of greenways to a community (environmental, economic, recreational, etc.) and reviewed the 14 proposed corridors as follows: Hominy Creek, Brevard Road, French Broad River, Haywood Avenue, Swannanoa River, Haw Creek, Beaverdam Creek, Kimberly Avenue, Town Mountain Road, Sweeten Creek, Emma Road Stream, Nasty Branch, Biltmore Avenue and Reed Creek/Broadway. He said that the Plan sets priorities among the proposed corridors, and provides guidance regarding the design, construction, maintenance and operation of greenways. He reviewed the funding sources and noted that implementation should be a public/private partnership. He recommended a Greenways Advisory Committee be appointed to oversee the Plan.

Upon inquiry of Councilman Cloninger, Mr. Abberger said that a bond referendum could possibly be held in the spring or fall of 1999.

Councilman Field wanted to make sure that the Pedestrian/Bikeways Master Plan which will be coming to City Council soon, needs to be incorporated into the Greenway Master Plan. Mr. Abberger said that they have been working with the Public Works Department to coordinate the two plans.

City Council members expressed their appreciation to the community, staff and everyone associated with developing these plans. Councilman Cloninger felt the best way for City Council to acknowledge the work is not to just adopt the Master Plan, but to instruct staff to begin working with the public to set up a bond referendum.

Mayor Sitnick suggested some green spots in downtown Asheville which might contain some grass, flowers or benches, similar to the spot next to the Rankin Street Parking Garage. She felt that green spots may be a good way to work collaboratively with downtown businesses.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda for a public hearing on adoption of the Master Plan along with the appropriate information regarding authorizing the retention of bond counsel.

REQUEST FOR ZONING STUDY - WOODSIDE HILLS SUBDIVISION

Mr. Carl Ownbey, Urban Planner, said that the Planning and Development Department has received a petition for a zoning study which includes 6 properties in the Woodside Hills Subdivision.

City staff has been directed to conduct a zoning study of 6 properties in the Woodside Hills Subdivision. The 6 properties total approximately 21.4 acres. The petition received by City Council included signatures of individuals who own five of the six properties. These five properties total approximately 18.7 acres or 87% of the total acreage of the requested study.

Section 7-7-2 of the Unified Development Ordinance states that "a zoning study of a defined area may be requested upon submittal to the Planning and Development Department of a petition signed by 51% of the property owners in the defined area for which the zoning study is requested who own at least 51% of the property (acreage) in the defined area for which the zoning study is requested". The petition does meet the above referenced criteria.

Council is asked to determine whether a zoning study should be initiated for this defined area (or a portion thereof). The concern of residents in the Woodside Hills Subdivision stemmed from the proposed development of a duplex on the property designated as PIN No. 9617.05-07-4718. Both this parcel, as well as the majority of PIN No. 9617.09-17-5215, are zoned RM-6. This zoning district allows a duplex as a permitted use. The areas adjacent to Woodside Hills Subdivision are zoned RS-4. This zoning district allows duplexes as a conditional use. The property owner has applied for a building permit for the duplex, noting that the wastewater allocation, the water allocation, and letters relative to the building of a culvert have been received and approved for this property.

City Council may direct staff to initiate the zoning study, elect not to initiate the zoning study, or reduce the size of the area to be included in the zoning study and initiate a zoning study of the reduced area.

Upon inquiry of Councilman Cloninger, Mr. Ownbey stated that the petitioners are aware that this rezoning study will not stop the duplex from being built on the property. He also noted that staff has not come across anything to indicate that the property was incorrectly zoned.

When Mayor Sitnick asked how much staff time it would take to initiate the study, Mr. Ownbey said that the entire process would take approximately 3-4 months, noting that it will require staff review, then Planning & Zoning Commission review and recommendation, and then to City Council for their public hearing and recommendation. Mayor Sitnick voiced concern with re-directing staff to work on a zoning study when staff has just been given direction on several items relative to the Unified Development Ordinance annual review.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

PURCHASE OF EQUIPMENT RELATIVE TO PUBLIC SKATING

Mr. David Pisha, Civic Center Director, said that this is the consideration of a budget amendment, in the amount of $35,000, to establish a public skating program at the Civic Center.

Public skating offers a new recreational opportunity for the citizens of Asheville and Buncombe County. It provides the Civic Center with the potential to develop a significant new event category. The public skating program is expected in future years to be self-funding through internally generated funds. Funds are requested, however, in the initial year to establish the event. Monies will be used to purchase skates, rubber matting, and a skate sharpener. It is expected that revenues will be sufficient in the first year to recoup the $35,000 small capital fund expenditure. Based on sixty (60) skating sessions, the average attendance necessary to recoup the city's investment in the first year, would be a 150 participants per session. Ninety sessions would require only 100 participants per session. Once the initial investment was recouped, skating would produce very high profit margins for this activity.

The Civic Center requests that City Council amend the city's small capital projects fund by appropriating $35,000 for this activity.

Upon inquiry of Councilman Sellers, Mr. Pisha said that public skating may be open in December, 1998.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CITY COUNCIL MEETING SCHEDULE DURING HOLIDAYS & ELECTION DAY

It was the consensus of City Council to (1) cancel the October 20, 1998, worksession, as well as the worksession tentatively set on October 21, 1998, due to the N. C. League of Municipalities Annual Meeting being held in Charlotte, N.C.; (2) reschedule the November 3, 1998, worksession until November 4, 1998, beginning at 3:00 p.m. in the First Floor North Conference Room of the City Hall Building, due to November 3 being election day; (3) change the December 15, 1998, worksession to be a formal meeting beginning at 5:00 p.m., in the Council Chamber of the City Hall Building, due to the upcoming holidays; and (4) cancel the December 22 and 29, 1998, City Council meetings due to the holidays.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

NEXT TOPIC FOR MAYOR'S ROUNDTABLE ON NOVEMBER 19, 1998

After a brief discussion of possible topics, it was the consensus of City Council that the next topic for the Mayor's Roundtable on November 19, 1998, would be "The Block."

REPORTS FROM BOARDS & COMMISSIONS

Vice-Mayor Hay reported on the status of the Future of the Civic Center Task Force and the recommendations received by the consultant.

Vice-Mayor Hay reported on the upcoming board and commission vacancies, noting the October 28, 1998, deadline for receiving applications for this quarter.

It was the consensus of City Council to appoint Sarah Blankenship to the Asheville Film Board since Steven Heller was unable to accept the appointment due to time restraints.

52

ADJOURNMENT & CLOSED SESSION

At 5:28 p.m., Vice-Mayor Hay moved to adjourn the meeting and meet in Room 209 of the City Hall Building to go into closed session for the following reasons: (1) To consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuits about which the Council expects to receive advice are: (a) State of North Carolina, City of Asheville, and Elijah Jones d/b/a Jones Convenience Store; (b) Morris Communications, Inc. d/b/a Fairway Outdoor Advertising Co.; Outdoor Communications, Inc.; Maple Cove, Inc.; and City of Asheville - G.S. 143-318.11(a)(3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City of Asheville, including agreement on a tentative list of economic development incentives that may be offered by the City in negotiations - G.S. 143-318.11(a)(4); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease - G.S. 143-318.11(a)(5). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:04 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Tomes and carried unanimously.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 13, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER, 1998, AS "SUBSTANCE ABUSE AWARENESS MONTH"

Vice-Mayor Hay read the proclamation proclaiming the month of October, 1998, as "Substance Abuse Awareness Month" in the City of Asheville.

B. PROCLAMATION PROCLAIMING THE WEEK OF OCTOBER 18-24, 1998, AS "YWCA WEEK WITHOUT VIOLENCE"

Councilman Tomes read the proclamation proclaiming the week of October 18-24, 1998, as "YWCA Week Without Violence" in the City of Asheville. He presented the proclamation to Ms. Debbie Vingle, Women's Services Director of the YWCA.

C. PROCLAMATION PROCLAIMING MONDAY OCTOBER 26, 1998, AS "MASSAGE THERAPY AWARENESS DAY"

Councilwoman Field read the proclamation proclaiming Monday, October 26, 1998, as "Massage Therapy Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Stephanie Keach, Director of the Asheville School of Massage.

D. PROCLAMATION PROCLAIMING OCTOBER, 1998, AS "ARTS & HUMANITIES MONTH"

Councilman Cloninger read the proclamation proclaiming the month of October, 1998, as "Arts & Humanities Month" in the City of Asheville. He presented the proclamation to Ms. Pam Myers who briefed City Council on some activities taking place during the month.

RIVERLINK DONATION OF PROPERTY ALONG THE FRENCH BROAD RIVER

Councilman Tomes moved to add to the agenda the consideration of a resolution authorizing acceptance of donation of real property for park and recreation purposes and a resolution authorizing the Mayor to execute a Conservation Easement to the State of North Carolina. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION NO. 98-145 - RESOLUTION AUTHORIZING ACCEPTANCE OF DONATION OF REAL PROPERTY FOR PARK AND RECREATION PURPOSES

RESOLUTION NO. 98-146 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONSERVATION EASEMENT WITH THE STATE OF NORTH CAROLINA

Ms. Karen Cragnolin, Executive Director of RiverLink, said that RiverLink has long had a partnership with the City in the development of the urban riverfront greenway. The next phase of the greenway is through the partnership with RiverLink, the City of Asheville and the State which will add another half of mile of trails, boating and fishing facilities, and the very first outdoor classroom on the French Broad River over wetlands. During the last several years RiverLink has developed a very close relationship with Mr. Roger Gregg, owner of the Asheville Motor Speedway, as well as other property owners along Amboy Road. This past year, for personal reasons, Mr. Gregg has decided to sell this property. She mentioned several significant contributions the Gregg family has made in the past to the entire community. This summer, RiverLink entered into an option agreement with Mr. Gregg and the Asheville Speedway to acquire the property for $1.1 million. They devised a confidentiality agreement and both parties agreed that the option agreement would not be recorded. The agreement was that both parties would be confidential regarding all the details of this except when they approached donors. She was pleased to report that, on behalf of the RiverLink Board of Directors, their donors and members, they have raised the money to make this gift possible to the City of Asheville. The donors include the Clean Water Management Trust Fund for $250,000, the Janirve Foundation, the Stanback Family Foundation and two anonymous donors. She said there are two conditions on the gift. The first condition, imposed by the Clean Water Management Trust Fund, was for a 100 foot ritarian buffer on the area closest to the river. The Janirve Foundation's conditions include (1) the property never again be used as a motor speedway facility or any similar use; and (2) that the property be held in perpetuity for the citizens and visitors to our area. In recognition of the fact of what the Gregg family has done for this community and how they have worked with RiverLink to sell and donate a portion of it to RiverLink, they will be calling this the John Gregg Greenway, in honor of Roger Gregg's father and grand-father, both of whom have the same name. RiverLink will continue to work with the City to develop a master plan for the speedway property so that it has it's highest and best use as a greenway and recreation facility for the community. They are selling one foot sections of greenway for $45 per linear foot and all money will be put into a restricted account to be used to develop the greenway.

Mr. Irby Brinson, Director of Parks & Recreation, said that this was an exciting time for the City of Asheville and noted that this donation is a fitting contribution to the objectives of the Parks & Recreation Master Plan and the Greenways Master Plan. He said this is a tremendous opportunity for the City and thanked Mr. Gregg and RiverLink for their commitment to this community in enhancing not only recreation services, but to help in the development of the French Broad Driver.

On behalf of City Council, Mayor Sitnick thanked Ms. Karen Cragnolin, the RiverLink Board of Directors, Mr. Roger Gregg, the Janirve Foundation, the Clean Water Management Trust Fund, Mr. Joe Ferikes, City staff, and all those who made this gift possible.

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Councilman Field moved to adopt Resolution No. 98-145 to authorize acceptance of real property for park and recreation purposes. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 15

Councilman Cloninger moved to adopt Resolution No. 98-146 to authorize the Mayor to execute a conservation easement with the State of North Carolina. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 17

II. CONSENT:

A. RESOLUTION NO. 98-147 - RESOLUTION MODIFYING THE CITY COUNCIL MEETING SCHEDULE

Summary: This resolution will (1) cancel the October 20, 1998, City Council worksession; (2) reschedule the November 3 worksession until November 4, 1998, beginning at 3:00 p.m. in the First Floor North Conference Room in the City Hall Buildings; (3) change the December 15, 1998, worksession to be a formal meeting beginning at 5:00 p.m. in the Council Chamber located on the Second Floor in the City Hall Building; and (4) cancel the December 22 and December 29, 1998, City Council meetings.

RESOLUTION BOOK NO. 25 - PAGE 18

B. RESOLUTION NO. 98-148 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY TO CAROLINA POWER & LIGHT COMPANY A BLANKET EASEMENT FOR THE INSTALLATION AND MAINTENANCE OF ELECTRIC FACILITIES NECESSARY TO PROVIDE SERVICE TO THE RANKIN HEIGHTS SUBDIVISION

Summary: The consideration of a resolution authorizing the Mayor to convey to Carolina Power and Light Company (CP&L) a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Rankin Heights Subdivision.

Rankin Heights Subdivision is located at the intersection of Stewart Street and Kentucky Drive and consists of seventeen residential lots being developed for single family home ownership.

In order to install underground electric service to all seventeen homes to be constructed in the subdivision, CP&L has requested a blanket easement. The proposed blanket easement will enable the facilities to be placed in "mutually suitable locations." The actual locations will be determined between the owner and CP&L at the time service facilities are installed.

Approval of the resolution will authorize conveyance of the easement to CP&L for the installation and maintenance of electric service facilities.

Community Development staff recommends adoption of the resolution authorizing the Mayor to convey to CP&L a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Rankin Heights Subdivision.

RESOLUTION BOOK NO. 25 - PAGE 19

C. **RESOLUTION NO. 98-149 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW THE OTEEN VA MEDICAL CENTER'S FIRE PROTECTION AGREEMENT FOR A TERM OF UP TO THREE YEARS**

Summary: The consideration of a resolution renewing Oteen VA Medical Center's fire protection contract with the City of Asheville for a term of up to three years.

For more than fifteen years, the City of Asheville has furnished fire protection services under contract to the Oteen VA Medical Center. The present contract for such services will expire in October. VA Medical Center staff have requested renewal at the same terms presently in place—a payment of $30,000 per year for Asheville Fire Department fire response, fire prevention activities and fire safety education for VA staff.

Oteen VA Medical Center has petitioned City Council in previous years for annexation, so that full City services would be available to the VA Medical Center at no cost to the Center. The present contract—and the proposed contract—provide for termination of the contract if annexation of the Oteen VA Medical Center were to occur.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a new fire protection contract with the Oteen VA Medical Center.

E. **MOTION SETTING A PUBLIC HEARING ON OCTOBER 25, 1998, TO CONSIDER A CONDITIONAL USE APPLICATION TO LOCATE A TELECOMMUNICATION TOWER AT 754 MERRIMON AVENUE**

F. **MOTION SETTING A PUBLIC HEARING ON NOVEMBER 10, 1998, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE REGARDING SHORT TERM RENTAL IN RESIDENTIAL DISTRICTS (VACATION RENTALS)**

G. **MOTION SETTING A PUBLIC HEARING ON NOVEMBER 10, 1998, TO REZONE 910 SWANNANOA RIVER ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT**

H. **MOTION SETTING A PUBLIC HEARING ON NOVEMBER 10, 1998, TO REZONE 980 HENDERSONVILLE ROAD FROM HIGHWAY BUSINESS DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE BUSINESS AND 45 SEMINOLE ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE BUSINESS DISTRICT**

I. **ORDINANCE NO. 2515 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FOR FUNDS RECEIVED FROM THE N.C. GENERAL ASSEMBLY FOR IMPROVEMENTS AT HARVEST HOUSE AND THE SENIOR OPPORTUNITY CENTER**

Summary: The consideration of a budget amendment, in the amount of $13,514, to establish a budget for funds received from the North Carolina General Assembly for improvements at Harvest House and the Senior Opportunity Center.

The Senior Center Appropriation is designed to provide funds to senior centers throughout North Carolina for a variety of services including capital improvement, supplies, equipment, and staff. The funds will be used at the Harvest House to remodel the reception area and office, and to renovate two outdoor shuffle boards and shelters. Senior Opportunity Center will purchase a new ceramic kiln and commercial kitchen equipment to update the existing kitchen.

The Parks and Recreation Department staff recommends City Council accept the legislative appropriation for improvements at Harvest House and the Senior Opportunity Center.

ORDINANCE BOOK NO. 17 - PAGE 149

J. ORDINANCE NO. 2516 - BUDGET AMENDMENT TO ESTABLISH A BUDGET FOR FUNDS RECEIVED FROM THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES TO DEVELOP THE MASTER STREET TREE PLAN, PHASE I

Summary: The consideration of a budget amendment in the amount of $9,873 to establish a budget for funds received from the N.C. Dept. of Environment and Natural Resources for the development of a Master Street Tree Plan, Phase I.

The Parks and Recreation Department is responsible for developing a Master Street Tree Plan (MSTP) for street trees on City rights-of-way located within the City limits of Asheville. The existing inventory is almost fifteen years old and no longer accurately reflects the trees of the City. Phase I of the process will specifically identify the location, size, condition, and site conditions of trees located in the central area of Asheville. The MSTP will help serve as a critical link in developing a long term management plan for Asheville's urban trees, provide information for future tree planting and forestry planning, and provide educational and volunteer opportunities for community organizations.

If funding is available, future phases of the Master Street Tree Plan will identify the location, size, condition, and site conditions for street trees in the north, west, south, and east areas of Asheville.

The Parks and Recreation Department staff recommends City Council accept the grant funds for the development of the Master Street Tree Plan, Phase I.

ORDINANCE BOOK NO. 17 - PAGE 151

K. ORDINANCE NO. 2517 - BUDGET AMENDMENT TO ESTABLISH A PROJECT BUDGET FOR REPLACEMENT AND/OR IMPROVEMENTS TO THE HEATING, VENTILATION AND AIR CONDITIONING SYSTEM AT THE SHILOH COMMUNITY CENTER

Summary: The consideration of a budget amendment, in the amount of $30,000, to establish a project budget for replacement and/or improvement to the Heating, Ventilation and Air Conditioning (HVAC) system at the Shiloh Community Center.

In a prior budget year, City Council appropriated $30,000 to the City's Capital Reserve Fund for Parks & Recreation to undertake various HVAC replacement and improvement projects. Thirty thousand dollars was then transferred from the Capital Reserve Fund to the City's General Capital Projects Fund to provide funding for HVAC projects. To officially appropriate the cash received from the Capital Reserve Fund, and to properly establish an HVAC project budget, a budget ordinance amendment authorizing a $30,000 increase in budgeted revenues and expenditures in the General Capital Projects Fund needs to be approved by City Council. This is not a request for additional funding since funds were initially authorized and budgeted in the City's Capital Reserve Fund.

The Parks and Recreation Department requests City Council amend the City's General Capital Projects Fund by appropriating revenues and expenditures in the amount of $30,000 for HVAC replacement and improvements at the Shiloh Community Center.

ORDINANCE BOOK NO. 17 - PAGE 153

L. ORDINANCE NO. 2518 - BUDGET AMENDMENT TO ESTABLISH A PUBLIC SKATING PROGRAM

Summary: The consideration of a budget amendment, in the amount of $35,000, to establish a public skating program at the Civic Center.

Public skating offers a new recreational opportunity for the citizens of Asheville and Buncombe County. It provides the Civic Center with the potential to develop a significant new event category. The public skating program is expected in future years to be self-funding through internally generated funds. Funds are requested, however, in the initial year to establish the event. Monies will be used to purchase skates, rubber matting, and a skate sharpener. It is expected that revenues will be sufficient in the first year to recoup the $35,000 small capital fund expenditure. Based on sixty (60) skating sessions, the average attendance necessary to recoup the city's investment in the first year, would be a 150 participants per session. Ninety sessions would require only 100 participants per session. Once the initial investment was recouped, skating would produce very high profit margins for this activity.

The Civic Center requests that City Council amend the city's small capital projects fund by appropriating $35,000 for this activity.

ORDINANCE BOOK NO. 17 - PAGE 155

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CLOSE WILSON ALLEY LOCATED BETWEEN HENDERSONVILLE ROAD AND SUMMIT STREET

At the request of City staff, Councilman Tomes moved to continue the public hearing until October 27, 1998, without further advertisement. This motion was seconded by Councilwoman Field and carried unanimously.

B. PUBLIC HEARING RELATIVE TO REZONING THREE LOTS ON BURTON STREET AT BUFFALO STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS

ORDINANCE NO. 2519 - ORDINANCE TO REZONE THREE LOTS ON BURTON STREET AT BUFFALO STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS

Mayor Sitnick opened the public hearing at 5:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone three lots on Burton Street at Buffalo Street from RM-8 Residential Multi-Family Medium Density District to Neighborhood Business.

The owners/applicants Roy and Pauline Young and Ross and Laurie Peterson have requested three lots (PIN Nos. 9638.10-46-6298, 6393, and 6397) on Burton Street at Buffalo Street be rezoned from RM-8 Residential Multi-Family Medium Density District to Neighborhood Business.

The Neighborhood Business District is established to indicate areas for low density commercial uses that are compatible with and accessible to pedestrians from the surrounding neighborhood. This area of Burton Street, in conjunction with the existing community center, complies with the definition of the Neighborhood Business District. However, due to the small size of the 3 lots (approximately 0.75 acre for the three lots together), the City Attorney's Office has pointed out hat there is a question as to whether or not this request could be determined to be "illegal spot zoning". There is no known published case in North Carolina which directly matches the facts in this request in order to answer the question.

The Planning staff reviewed the rezoning request and recommended approval. At the September 2, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend approval of the rezoning request.

Ms. Gloria Johnson, President of the Burton Street Community, spoke in support of the rezoning. She said that the proposed community store will benefit the community

City Attorney Oast reminded the Council that when they consider the rezoning request, they must consider all the uses available in the Neighborhood Business District.

Mayor Sitnick closed the public hearing at 5:38 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cobb moved for the adoption of Ordinance No. 2519. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 157

C. PUBLIC HEARING RELATIVE TO REZONING 418 and 422 McDOWELL STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO INSTITUTIONAL

ORDINANCE NO. 2520 - ORDINANCE TO REZONE 418 and 422 McDOWELL STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO INSTITUTIONAL

Mayor Sitnick opened the public hearing at 5:40 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to rezone 418 and 422 McDowell Street from RS-8 Residential Single-Family High Density District to Institutional.

Joe C. Swicegood is requesting a rezoning of 418 and 422 McDowell Street from RS-8 Residential Single-Family High Density District to Institutional.

The two properties total approximately 0.47 acres and are located across from Asheville High School at the corner of McDowell Street and Grindstaff Place. Surrounding zoning consists of Institutional to the west, RM-16 to the north and RS-8 to the south and east. The two properties have historically been used for commercial purposes and were zoned Office Institutional prior to the adoption of the Unified Development Ordinance.

At their September 2, 1998, meeting, the Planning and Zoning Commission voted 5-1 to recommend approval of the rezoning. The Planning and Development staff also is recommending approval of the rezoning. Mr. Matteson briefed Council on the phone calls he received concerning this rezoning request.

Mayor Sitnick closed the public hearing at 5:42 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2520. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 159

D. PUBLIC HEARING RELATIVE TO ADOPTING THE PARKS & RECREATION MASTER PLAN, THE GREENWAYS MASTER PLAN AND DIRECTING THE ENGAGEMENT OF BOND COUNSEL

RESOLUTION NO. 98-151 - RESOLUTION ADOPTING THE PARKS & RECREATION MASTER PLAN, THE GREENWAY MASTER PLAN AND DIRECTING THE ENGAGEMENT OF BOND COUNSEL

Mayor Sitnick opened the public hearing at 5:44 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Irby Brinson, Director of Parks & Recreation, said that staff was given direction by City Council to examine the draft of the Parks and Recreation Master Plan and to bring back recommendations for prioritization of needs for the next five to seven years.

On May 12, 1998, staff presented to City Council the Comprehensive Master Plan for Parks and Recreation. During that meeting, City Council directed staff to carry out the following objectives and to report back to City Council at a later date their recommendations. These directives included the informal agreement to the concept of the Master Plan, making sure the Parks and Recreation Master Plan is coordinated with the Greenway Master Plan, properly prioritizing needs for the next five to seven years, instructing staff to move toward a bond referendum, and reporting back to City Council their recommendations. In an effort to achieve the above objectives, staff expanded the Parks and Recreation Master Plan Steering Committee to include a greater diversity of representation on the Committee. This Steering Committee is made up of over 75 members of the community and has been working since June to develop the recommendations which are presented in this report. The process has been inclusive and based upon input from a broader range of community interest. He summarized by saying that the Steering Committee is recommending the following elements to be included in an $18 million bond referendum.

New Facility Development	$6.4 million
Renovations and upgrades to existing facilities	$6.6 million
Greenway Development	$3.0 million
Land Acquisition	$2.0 million

The Parks and Recreation Master Plan Steering Committee recommends including the Greenway Master Plan as an addendum to the Parks and Recreation Master Plan.

Representatives from the Trust for Public Land briefed Council on the process implemented to arrive at the Greenways Master Plan noting that the plan is the community's plan.

Ms. Cindy Miller, Finance Operations Manager, said that the City will need to retain bond counsel for the preparation of documentation for the bond referendum and sale. Parker, Poe, Adams & Bernstein, L.L.P., has ably represented the City during past financings and has consented to assist the City with this bond issue. Their fee will be based on actual hours worked, plus expenses incurred on behalf of the City for photocopies, long distance phone, travel, etc. City staff recommends City Council retain Parker, Poe, Adams & Bernstein, L.L.P., as bond counsel.

City Manager Westbrook said that action required today would be to complete the public hearing, adopt the Parks & Recreation Master Plan, adopt the Greenways Master Plan, direct staff to employ bond counsel, and direct City staff to plan for a May bond election. From that point on, City staff will work with the Local Government Commission and the bond attorney to bring back to the Council on an intermittent basis all the legal procedures.

Mr. H. K. Edgerton, President of the Asheville Branch of the NAACP, hoped that the money is utilized for the things it is targeted for, however, he has some concerns about infrastructure, economic development, and business development.

Ms. Geraldine Melendez, President of the West End/Clingman Avenue Neighborhood Organization, voiced concern over the closing of Merritt Street and expansion of the maintenance facility on the corner of Hilliard and Clingman Avenue. She stated they did not want any infringement into their neighborhood of the expanded maintenance facility.

Mr. Brinson said that at this point staff has determined that they will not expand the maintenance facility but will make some improvements to the exterior that will hopefully address a lot of the concerns of the community and try to buffer the community from their particular needs.

Ms. Laura Copeland, representative of the Asheville Area Chamber of Commerce, spoke in support of the Master Plans.

Mr. Brian Peterson, representing the Coalition of Asheville Neighborhoods, Vice-Chair of the Parks & Recreation Master Plan Steering Committee and member of the Greenways Citizen Advisory Committee, spoke in support of the Master Plans and briefly reviewed with Council the process that was undertaken by the Steering Committee. He did, however, have one concern about the timing of when a special election would be held. If it is held in May of 1999, the City would have to be responsible for the estimated $15-20,000 to conduct a special election. However, the City would not have to incur this cost if it was held during the regular City elections in the fall of 1999.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities and resident on Cumberland Avenue, spoke in support of the Parks & Recreation Master Plan and hoped City Council would move ahead with adoption. He then spoke about the importance of the connection between homes and parks and the importance of considering them together in their design and their funding. He said that if there are any vacant or abandoned properties around the proposed parks and greenways, that the planning and funding be done for the parks and neighborhoods together as an overall quality of life package. Again, he asked that these issues be considered together in coming weeks as compatible and supportive of each other.

On behalf of City Council, Mayor Sitnick thanked all the members of the community who worked on the Parks & Recreation Master Plan Steering Committee and the Citizens Advisory Committee on the Greenway Master Plan and the City Council Greenways Subcommittee. Greenways forces.

Mayor Sitnick closed the public hearing at 6:07 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-151 adopting the Parks & Recreation Master Plan, adopting the Greenways Master Plan, authorizing the engagement of Parker, Poe, Adams & Bernstein, L.L.P., as bond counsel, and directing staff to work toward a May bond referendum election, if feasible in their judgment. This motion was seconded by Councilman Sellers.

Councilwoman Field wanted to make sure that the community understands that the bond referendum will go before the public and it will be the public who will vote it up or down on whether or not the City moves forward with this. If they vote for it, there will be a tax increase. She wanted to make it very clear that general obligation bonds are backed up by the City's taxing ability and that the public is going to be who says they are willing to pay a little bit more money on their property taxes in order to pay for this wonderful opportunity for the City of Asheville. It will take the whole community to make this happen.

Mayor Sitnick said that she hoped that as an extension of the adoption of these two Plans and the go-ahead from the public on the bond referendum that when the Unified Development Ordinance is reviewed that the City also consider the designation of a parks district, along with all the other districts. That way, the City won't zone our parks according to the land use around them but that we actually zone them to make sure they are retained as parks. She said that parks, recreation, greenways, and green spaces are all part of economic development.

Councilwoman Field said that one piece that hasn't come up as quickly as the Parks & Recreation Master Plan and the Greenways Master Plan is the Pedestrian Thoroughfare Plan. She said that will need to be rolled into this as the City moves into the future.

The motion made by Councilman Cloninger and seconded by Councilman Sellers was unanimously adopted.

RESOLUTION BOOK NO. 25 - PAGE 22

IV. UNFINISHED BUSINESS:

A. ORDINANCE TO REZONE A PORTION OF PROPERTY ON TOLULA LANE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO OFFICE BUSINESS

Mayor Sitnick said that the public hearing on this matter was held on September 22, 1998, and continued until this date in order to give City Council time to visit the property in question.

Mr. Mike Matteson, Urban Planner, reviewed the rezoning request by said that this is the consideration of an ordinance rezoning a portion of property located on Tolula Lane from RS-8 Residential Single-Family High Density to Office Business District.

City Attorney Oast said that pursuant to discussions at Council's meeting of September 22, Victoria Investment Company, ("VIC") the doctors group that operates Mountain Neurological Center on McDowell Street), has submitted a proposed amendment to the option it currently holds for the purchase of the City's property, adjacent to Mountain Neurological Center ("MNC"). This amendment enables the following conditions to be added to the City's deed to VIC, if the transaction is consummated:

1. The property may be used for no commercial purpose other than parking, and access via Tolula Lane is prohibited.
2. All trees bigger than 6 inch diameter along the eastern side of the property (adjacent to MNC) will remain. Removal of some trees may be permitted as necessary to provide vehicular access to the parking lot. If a variance is obtained, even this will be unnecessary.
3. The City may reserve part of the property for a greenway, to be located in consultation with VIC's architect.
4. VIC will provide a landscaped buffer along the western line of the property, (adjacent to Tolula Lane) sufficient to screen the parking lot from view.

These proposed amendments are intended to limit the use of the property to parking associated with MNC, and to minimize the impact on the use, visually and functionally, on the adjacent residential properties. Because these proposed amendments do not impair the City's position with respect to the transaction (with the right to reserve a greenway, the City's position is actually improved) and because there is no change in the consideration for the property, no additional approvals by Council are necessary in order for the amendments to be valid, or for the Mayor to execute the amendment.

City Attorney Oast reminded Council that in consideration of any rezoning request, Council must be cognizant that the property may be used for any purpose permitted by the zoning classification. Legal restrictions on the use of property, however, are matters of public record, and may be taken into account to the same extent that the physical, geological or topographical features of a site may be considered.

Mr. George Young, Tolula Lane community member, said that regardless of how beautifully they make the property into a parking lot, it is still a parking lot in a low density residential neighborhood. He implored City Council to take into consideration the sensitive feeling of the neighborhood and not allow this encroachment into their residential neighborhood.

Mr. Phil Carson, attorney for VIC, said that the option agreement was amended as directed by City Council in order to try to meet as many requests and considerations by the neighborhood as possible. He stressed that MNC wants to be a good neighbor. He said that a parking lot is absolutely the lowest use of this property that can be made. He noted that when this property was first offered for sale, that City departments said they had no use for the property. He urged City Council to rezone the property.

Upon inquiry of Councilman Sellers, Mr. Carson said that the VIC now has a reciprocal agreement with St. John's Church to allow the MNC to park at the Church during the day and then the Church uses MCN's parking lot during Sundays and evenings. Since the Church plans to tear the Church down and build a new Church, the parking may be less than what is currently there now.

Upon inquiry of Councilman Cobb about the feasibility of building a parking lot on the property they currently own, Mr. Carson said that in some ways a deck would be more intrusive on the neighborhood than a well-landscaped parking lot.

Upon inquiry of Mayor Sitnick about the meeting between the neighborhood and Mr. Camille and Dr. Durham, he said that according to Dr. Durham the meeting was very cordial and a lot of discussion took place, however, the neighbors agreed that they did not want a parking lot there.

Mr. H. K. Edgerton said that to rezone this property would be the traditional African American neighborhood encroachment. He asked City Council to table this matter until they find out more on what the residents want.

Mayor Sitnick responded that it would be unfair to table this matter again since City Council held a public hearing on this issue on September 22, 1998, and tabled it until this date. She felt that City Council was well informed on the stance the neighborhood was taking.

Mr. Robert Camille, Camille-Alberice Architects, responded to Councilman Cobb's question as it related to building a parking deck on the property currently owned by VIC. He took issue that they are doing this to an African American neighborhood. He said it is happening everywhere in Asheville and is part of a City being healthy and growing. He did hope that Council would rezone this property because he hoped to be able to use this parking lot as an example of how a nice parking lot should be done and we can hold future development up to this standard.

There was some discussion about the number of parking spaces needed versus the number of spaces at the current location and at the Church.

Councilman Tomes agreed with the neighborhood in that the rezoning will infringe on this African American residential neighborhood.

Councilman Sellers moved to rezone a portion of property located on Tolula Lane from RS-8 Residential Single-Family High Density to Office Business District. This motion was seconded by Councilwoman Field.

City Attorney reminded Council that if the property is rezoned, all possible uses in the Office Business District will be allowed. However, Council may take into consideration, as you could any natural or topographic feature of the lot, what is or will be matter of public record, and that is the restrictions that the City will sell this subject to.

Mayor Sitnick said that while she appreciated the needs of the physicians and the fact that they were willing to go an extra mile to accommodate the neighborhood and to allow the City to impose restrictions, however, the lowest impact use of this property is to leave it natural. She said as the McDowell Street bridge nears completion, much of the traffic from Biltmore will be re-routed onto McDowell and there is no buffer like a tree buffer. She felt that 42 parking spaces in the parking lot will not allow for an adequate number of trees and she would recommend that at some point in the near future, in anticipation of the increased traffic and auto noise and omissions that will occur on McDowell Street, that as the City retains ownership of that property, that we actually plant some additional trees.

The motion made by Councilman Sellers and seconded by Councilwoman Field failed on a 3-4 vote, with Vice-Mayor Hay, Councilwoman Field and Councilman Sellers voting "yes," and Mayor Sitnick and Councilmen Cloninger, Cobb and Tomes voting "no."

V. NEW BUSINESS:

A. RESOLUTION NO. 98-152 - RESOLUTION IN SUPPORT OF THE PROPOSED STATE BOND ISSUES FOR WATER, SEWER AND NATURAL GAS

City Manager Westbrook said that in just a few weeks voters will go to the polls for the November 3 election. On the ballot are two very important bond referenda. One authorizes $800 million in loans and grants for clean water bonds, and one provides $200 million in loans and grants to extend natural gas to underserved areas in the state. The clean water bonds will provide much needed funding assistance for communities all across the state, including the citizens of Asheville. A recent study revealed that more than $11 billion in water and sewer capital needs exist across the state over the next 20 years. The Regional Water Authority has millions of dollars in capital needs over the next decade, a portion of which could be eligible for receipt of the clean water bond money. The bond funds can be used by local governments to build new water and sewer treatment facilities, expand capacity to new businesses and homes, and upgrade deteriorating facilities.

He recommended that the Council support the clean water and natural gas bonds, and adopt the resolution titled "Resolution in Support of the Proposed State Bond Issues for Water, Sewer and Natural Gas" which calls on the citizens of Asheville to vote in favor of the bond issues at the polls on November 3, 1998.

City Manager Westbrook responded to questions from Councilman Tomes.

Upon inquiry of Mayor Sitnick, City Manager Westbrook said that this doesn't include any stormwater money.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-152. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 23

At 6:50 p.m., Mayor Sitnick announced a short break.

B. RESOLUTION NO. 98-153 - RESOLUTION TO APPROVE THE HOUSING ACTION PLAN

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a Housing Action Plan which recommends specific actions to be taken by the City and its partner agencies in 1998/99 to increase the production of affordable housing in Asheville and Buncombe County. She then briefly reviewed the Plan which sets out a response to each of the study's recommendations, concentrating on those actions that can be implemented by June 30, 1999.

Councilwoman Field, Chair of the Housing & Community Development Committee, spoke in support of the Plan and its implementation. She said that she supported using mediation to resolved land use debates. She then explained how a residential land use efficiency analysis would be helpful and asked that it be included in next year's budgeted. She also spoke in support of a Housing Trust Fund.

Councilman Tomes expressed concern over developers who build affordable homes but then sell them for higher prices making them not affordable. He felt it should be declared unethical and even immoral.

Mayor Sitnick spoke in support of the Housing Action Plan and stressed that the Plan cannot be implemented with no funding. She said that the City is going to work with the County and private developers to find a funding mechanism that is fair and that even-handedly spreads out the burden of cost for affordable housing. She said Ms. Caplan has information that provides vast information to private developers of all of the funding potential available to them from the federal, state and local level. In addition, she has asked the City Manager to look at ways the City can find properties before they are condemned that can be given to either urban homesteaders or to members of the housing coalition for repair and redevelopment.

Vice-Mayor Hay said that the objective to institute formal, on-going collaboration with the County, should be direction to staff to work with the County. He would like the County to follow our lead and take on affordable housing as an issue as their own. He understands that the County has no staff, no plan and no funding, however, we are one large community, especially when it comes to issues like housing. He hoped that this challenge will result in something community-wide.

Councilman Cobb felt that the City needs to address not only the need for housing, but the job market which restricts some people from owning their own homes or even renting.

Mayor Sitnick said that she would draft a letter to our state and federal representatives asking for them to re-prioritize our tax dollars and send some money back to the communities to meet their needs.

Mr. H.K. Edgerton, President of the Local Branch of the NAACP, urged City Council to seek evidence as to why there is under-representation of African Americans in the home buyer market. To do so will either substantiate or dispense with allegations of wrong-doings as outlined by Marvin Vierra in the Analysis of Impediments to Fair Housing dated November 12, 1997. He said that many of the impediments appear to be unconstitutional and in violation of several Civil Rights Acts.

Mr. David Lee, President of the Mortgage Lenders Association of Western North Carolina, presented City Council with a resolution adopted by his Association which supports the concept of a Housing Bond, or Quality of Life Bond to increase and improve the housing stock in Asheville and Buncombe County.

There was a brief discussion about the percentage of approved applications by lending institutions for affordable housing.

Mr. Brian Peterson, representing the Coalition of Asheville Neighborhoods, spoke in support of the Housing Action Plan and said the Coalition felt it was a good start. He said that they do have two concerns, however, both focus on preserving and improving the existing housing stock. They would like to see some stronger language about enforcing the Minimum Housing Code on all rental units, and to include some very stiff fines for those who are violating that Code. Their second concern is to protect residential neighborhoods from commercial intrusions. He said that if there is a shortage of commercial space in downtown Asheville or some of the outer lying areas, that maybe we should re-look at the Unified Development Ordinance to allow a greater commercial density or possibly provide some incentive for commercial developers to include residential units.

Ms. Laura Copeland, representing the Chamber of Commerce, thanked City Council for their leadership in this Plan. The Homes for Asheville-Buncombe Task Force would like to accept the offer to begin planning to address the funding issue and bring a plan back to Council. She hoped that City Council would look to the Task Force for support of any letter sent to the federal and state representatives to look at issues that affect priorities, especially unfunded mandates.

Vice-Mayor Hay said that the Homes for Asheville-Buncombe Task Force is a new entity and yet has emerged as a very important component in our whole community based housing initiative and we are relying heavily on them to provide the kind of input that we need.

Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities and Co-Chair of the Homes for Asheville-Buncombe Task Force, felt that this was the best Plan Asheville has had in many years. It has been mentioned that without significant new funding, whether by a local housing trust fund, bond, private revenues or other revenue sources, we cannot move ahead significantly on this plan. A number of local groups have passed resolutions supporting a housing trust fund, a dedicated revenue source for homes for working families, elderly and disabled residents of our community, or a bond. Two important elements of these requests are that it should include private funds and that it be designed with a pay-back feature. He asked for City Council's commitment in support and their leadership first to approve the plan and then to work with them in the coming weeks to determine the best sources or combination of new resources to bring to bear in this critical effort.

Mr. Larry Thompson, Director of the Blue Ridge Center, felt that this is the first time the needs of the special population have been recognized in a Plan. He said there is a real need for housing for the special population and urged City Council to support the Plan which will focus on these needs.

Ms. Geraldine Melendez, President of the West End/Clingman Avenue Neighborhood Organization and Office Manager at the Affordable Housing Coalition, gave examples of phone calls she receives daily by people who are forced out into the street. She spoke in support of the Housing Action Plan.

Ms. Caplan responded to questions from Mr. Darryl Hart regarding what is considered the range for affordable housing and who is it affordable to.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-153. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 24

AT 7:55 P.M., MAYOR SITNICK MADE THE FOLLOWING ANNOUNCEMENT - THE MEDIA HAS REQUESTED THAT THE MAYOR AND CITY COUNCIL MEMBERS MAKE AVAILABLE TO REPORTERS CITY-RELATED CORRESPONDENCE RECEIVED BY THEM. CORRESPONDENCE IS DEFINED BY STATE LAW AS LETTERS RECEIVED BY LOCAL ELECTED OFFICIALS AND THIS INCLUDES MAIL RECEIVED BY THE MAYOR AND CITY COUNCIL. MAYOR SITNICK SAID THAT SHE AND CITY COUNCIL MEMBERS FEEL THAT THEY HAVE A RESPONSIBILITY TO THE CITIZENS OF ASHEVILLE TO LET THEM KNOW THAT THE MEDIA WILL BE READING THEIR MAIL SENT TO THEM

B. MOTION RELATIVE TO A ZONING STUDY FOR WOODSIDE HILLS SUBDIVISION

Mr. Carl Ownbey, Urban Planner, said that the Planning and Development Department has received a petition for a zoning study which includes six properties in the Woodside Hills Subdivision.

City staff has been directed to conduct a zoning study of six properties in the Woodside Hills Subdivision. The six properties total approximately 21.4 acres. The petition received by City Council included signatures of individuals who own five of the six properties. These five properties total approximately 18.7 acres or 87% of the total acreage of the requested study.

Section 7-7-2 of the Unified Development Ordinance states that "a zoning study of a defined area may be requested upon submittal to the Planning and Development Department of a petition signed by 51% of the property owners in the defined area for which the zoning study is requested who own at least 51% of the property (acreage) in the defined area for which the zoning study is requested". The petition does meet the above referenced criteria.

Council is asked to determine whether a zoning study should be initiated for this defined area (or a portion thereof). The concern of residents in the Woodside Hills Subdivision stemmed from the proposed development of a duplex on the property designated as PIN No. 9617.05-07-4718. Both this parcel, as well as the majority of PIN No. 9617.09-17-5215, are zoned RM-6. This zoning district allows a duplex as a permitted use. The areas adjacent to Woodside Hills

Subdivision are zoned RS-4. This zoning district allows duplexes as a conditional use. At this time, the property owner has applied for a building permit for the duplex, noting that the wastewater allocation, the water allocation, and letters relative to the building of a culvert have been received and approved for this property.

City Council may direct staff to initiate the zoning study, elect not to initiate the zoning study, or reduce the size of the area to be included in the zoning study and initiate a zoning study of the reduced area.

When Councilman Cloninger asked why the request is to rezone six properties when only five of the property owners signed the petition, Mr. Ownbey said that the sixth property owner did not sign the petition because he is the one who is developing the duplex and has not indicated any desire to have his property rezoned to single-family.

Upon inquiry of Vice-Mayor Hay, Mr. Ownbey said that if the property were rezoned from RM-6 to RS-4, duplexes would be allowed as a permitted use versus duplexes being allowed as a conditional use. Mr. Ownbey also said that it would also decrease the density.

Mayor Sitnick confirmed that the duplex can be built under the RM-6 zoning designation.

When Councilman Cobb asked approximately how long a study of this area would take, Mr. Ownbey said that it would take approximately 4-5 months.

Councilman Cobb felt that as a common courtesy, City Council should initiate the study since they are City residents, owners of the property and the surrounding property is zoned RS-4.

Mr. Paul Sweeney, President of the Woodside Hills Recreation Association, reinforced their concern about not wanting any of the forest removed which currently serves as a buffer for the noise from the I-40 traffic which runs along the ridge overlooking the housing development. They also have some concern about the density of population that a larger development might bring to this area since it is completely isolated from the outside world, with the only access through this residential area. When Mr. Heyward bought the approximately 12 acres, he bought them with the express purpose of maintaining that buffer area between the park and I-40. It was with distress to some of the property owners that some of that buffer might be eliminated. He urged City Council to initiate the zoning study.

Mr. Earl Shelton expressed his concern over the increased traffic in the area if any additional in the housing in the area is built.

Mr. Ken Hamlin, property owner in the area, stated also that any development will increase the traffic in the area.

Upon inquiry of Councilwoman Field, Mr. Ownbey explained why the Planning staff zoned the area RM-6 during the recent Unified Development Ordinance adoption.

When Vice-Mayor Hay asked about the procedure involved for the zoning study, Mr. Ownbey said that Planning staff would take the zoning study to the Planning and Zoning Commission, get their recommendation and then it would come back to City Council. But in the meantime the construction plans that are on the table now for a single duplex, could go forward.

City Manager Westbrook pointed out that if Council instructs the Planning staff to initiate this zoning study, they need to remember that the Planning staff already has direction to do a number of other things, including some other small area plans, the Unified Development

Ordinance annual review issues, the church designation, signs, etc. He felt that City Council would need to re-prioritize those issues for staff to let them know what Council's priorities are, in addition to the length of time a zoning study would take.

Councilman Cobb moved to direct the Planning staff to initiate the zoning study as soon as possible, however, not to put it ahead of any of the other issues City Council has instructed the Planning staff to work on. This motion was seconded by Councilman Sellers.

Councilman Cloninger was concerned that the request includes property owned by someone who doesn't want to be rezoned. His broader concern was that if City Council moves forward with this study, noting that City staff has said they are not aware of any reason why it should be rezoned, it may well set a precedent that Council is going to become inundated with relatively small areas requesting rezoning changes. He said Council has just went through the Unified Development Ordinance process in which staff looked at all the areas and he felt it was a little early that we start looking at individual small areas throughout the City.

Councilwoman Field said that the RM-6 designation was really designed to provide a little bit of flexibility in terms of mixing uses to encourage duplex, quadraplexes and triplexes and to encourage affordable housing.

The motion made by Councilman Cobb and seconded by Council Tomes failed on a 3-4 vote, with Councilmen Cobb, Sellers and Tomes voting "yes," and Mayor Sitnick, Vice-Mayor Hay, Councilwoman Field and Councilman Cloninger voting "no".

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 22, 1998; THE COMMUNITY MEETING HELD ON SEPTEMBER 29, 1998; AND THE WORKSESSION HELD ON OCTOBER 6, 1998

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on September 22, 1998; the community meeting held on September 29, 1998; and the worksession held on October 6, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

B. CANCELLATION OF MAYOR'S ROUNDTABLE ON NOVEMBER 19, 1998

Councilman Tomes moved to cancel the Mayor's Roundtable on "The Block" currently scheduled for November 19, 1998, due to the fact that this topic will take more staff time to adequately prepare for the Roundtable discussion and also due to the upcoming holidays. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick noted that when the next Roundtable is scheduled, the topic will not necessarily be "The Block" and when the date it scheduled, she will once again ask Council members for suggested topics.

C. CLAIMS

The following claims were received by the City of Asheville during September 11-October 1, 1998: Trecia Tucker (Water), Wendy Rathburn (Water), Holly Grotzinger (Water), Martin Beckman (Sanitation), Tracey Boles (Water), Harold Bradley (Water), Louise K. Dodson (Streets), Clayton Lewis (Water), Givens Estate (Water) and Rebecca Metcalf (Streets).

The following claims were received during the week of October 2-8, 1998: Mae Tucker (Streets), Scott Goodman (Water), Asheville Transit (Sanitation), David Langrall (Sanitation) and Rickey Capps (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

D. LAWSUIT

The City has received a Notice of Appeal on September 3, 1998, which is generally described as follows: Elijah Ulysses Jones v. City; Nature of Proceeding: Appeal to District Court from Towing Appeals Committee decision that certain vehicles should be removed from property located at 52 South Market Street.

This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. COMMENTS RELATIVE TO CITY COUNCIL SALARY

Mr. David Gould felt that the Mayor and City Council members were grossly underpaid for the amount of work and time they devote to their position on City Council and their salaries should be increased.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:35 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - October 27, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

ANNOUNCEMENT

Mayor Sitnick announced that at each regular meeting she will ask City Council members and City staff if there is an item they would like to add to the agenda.

Councilwoman Field moved to add the Asheville Motor Speedway topic to the agenda under Other Business. This motion was seconded by Councilman Sellers and carried unanimously.

At the request of City Attorney Oast, Councilwoman Field moved to add an amendment to the franchise for Asheville Trolley Works to the agenda under New Business. This motion was seconded by Councilman Tomes and carried unanimously.

I. PROCLAMATIONS:

II. CONSENT:

A. RESOLUTION NO. 98-154 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A TWO YEAR LEASE WITH DEVERGE SYSTEMS FOR PROPERTY AT 7-1/2 BILTMORE AVENUE

Summary: The consideration of a resolution authorizing a two year lease of property at 7-1/2 Biltmore Avenue to the current tenant, DeVerger Systems.

City Council previously authorized holding the subject property for a period of two years (until August, 2000) before considering its sale. In the interim, the property is being leased. The current tenant, DeVerger Systems, has been paying $205.00 per month. The proposed lease calls for incremental increases beginning October 1, 1998, as follows:

10/1/98 - 2/28/99	**3/1/99 - 8/31/99**	**9/1/99 - 2/29/00**	**3/1/00 - 8/31/00**
$300.00 per mo.	$400.00 per mo.	$500.00 per mo.	$625.00 per mo.

The property comprises 600 sq. ft. in a 10' x 60' space. The heating and air conditioning systems are old and in need of replacement. The rental amounts are believed to be reasonable considering the condition of the space, the lease terms and the cost of tenant turnover.

The Lessee is responsible for paying utilities and maintenance of the interior including cleaning, glass breakage, electrical, heating, plumbing and air conditioning equipment. The Lessor is responsible for the exterior walls and roof along with the parking area.

Community Development staff recommends City Council adopt the resolution authorizing a two-year lease of property at 7-1/2 Biltmore Avenue to DeVerger Systems.

RESOLUTION BOOK NO. 25 - PAGE 25

B. RESOLUTION NO. 98-155 - RESOLUTION APPROVING CERTAIN CONSTRUCTION IMPROVEMENTS AND MODIFICATIONS FOR A STRUCTURE LOCATED WITHIN THE PRIMARY FIRE DISTRICT

Summary: The consideration of a resolution requesting City Council approval of construction improvements and modifications of the Wick and Greene Jewelry Building located at 115 Patton Ave.

North Carolina law (N.C.G. S. 160A-436) requires approval of both local inspection authorities and the local governing body when construction modifications are made to a Type VI (wood frame) building in a municipality's "primary fire district".

Wick and Green Jewelers, 115 Patton Ave., has requested this approval for work it is proposing on the exterior of it's building. Building Safety and Fire Department officials have determined that this work will, in fact, improve the fire safety characteristics of the building, and have approved the proposed work, subject to City Council and North Carolina Commissioner of Insurance approval, as provided in N.C.G.S 160-436.

The Director of Building Safety and the Fire Chief recommend City Council approval of Wick and Greene's proposal to repair their existing building.

RESOLUTION BOOK NO. 25 - PAGE 26

C. MOTION SETTING A PUBLIC HEARING ON NOVEMBER 10, 1998, TO REZONE 1451 SWEETEN CREEK ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CLOSE WILSON ALLEY LOCATED BETWEEN HENDERSONVILLE ROAD AND SUMMIT STREET

RESOLUTION NO. 98-156 - RESOLUTION TO CLOSE WILSON ALLEY LOCATED BETWEEN HENDERSONVILLE ROAD AND SUMMIT STREET

Mayor Sitnick said that this public hearing was rescheduled from October 13, 1998, She then opened the public hearing at 5:10 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Councilman Cloninger said that his law firm represents Mr. and Mrs. Young on an ongoing basis and asked to be excused from voting. Therefore, Councilman Sellers moved to excuse Councilman Cloninger from voting on this matter due to a conflict of interest. This motion was seconded by Councilman Cobb and carried unanimously.

Ms. Suzanne Molloy, Assistant Director of Public Works, said that this is the consideration of a resolution to permanently close Wilson Alley between Summit Street and Hendersonville Road.

A petition has been received from Janet L. Young and Paul M. Young requesting that an Wilson Alley between Summit Street and Hendersonville Road (U.S. Route 25) be permanently closed to public use.

The petition received includes the affidavit of Janet L. Young and Paul M. Young, owners of parcels 9647-07-77-2987 and 4803. Janet L. and Paul M. Young own all of the property with frontage on the unopened alleyway between Summit Street and Hendersonville Road that has been petitioned to be closed.

Wilson Alley is a paper street and has never been used as a alleyway. There are no plans to utilize this alleyway. All utility companies will be contacted, the resolution of intent to close Wilson Alley will be advertised in a local paper, and the location was posted with the resolution of intent to close.

The Public Works Department staff recommends adoption of the resolution to permanently close Wilson Alley from Hendersonville Road to Summit Street.

Mayor Sitnick closed the public hearing at 5:12 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-156. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 27

B. PUBLIC HEARING RELATIVE TO A COMPREHENSIVE PARKING STUDY FOR DOWNTOWN, BILTMORE VILLAGE AND WEST ASHEVILLE AREAS

Mayor Sitnick opened the public hearing at 5:14 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Cathy Ball, City Engineer, said that on September 15, 1998, representatives from Walker Parking Consultants and Day Wilburn Associates, Inc., presented recommendations from the Comprehensive Parking Study of the Downtown, Biltmore Village, and West Asheville areas. Following that worksession, Council agreed to allow formal input on the recommendations by holding a public hearing.

Since the September 15, 1998, meeting, staff has met with several organizations to discuss the recommendations of the study. Some recommendations included increasing on-street parking meter rates from 25-cents an hour to 50-cents an hour, optimizing signal lights downtown, building a parking garage in the Battery Park area, adding three surface lots at the Biltmore Village area, adding stripping on Haywood Road to delineate parking spaces, adding signs on private parking lots, as well as making improvements to several of the garages. Staff has met with the Asheville Downtown Association, Merchant Action Coalition, Haywood Road Small Area Planning Group, and Downtown Parking Task Force. In addition, staff has received phone calls from the Biltmore Village Merchants Association, Eagle Market Street Development and a few individuals. Most of the input staff has received has been favorable with the major criticism being that the study did not offer enough recommendations.

Following the public hearing staff will prepare specific recommendations for implementation of the Parking Study, along with costs and a schedule to bring before Council for approval on December 15, 1998.

Staff recommends City Council (1) hold their public hearing to allow input from the public on the recommendations of the Parking Study for the Downtown, Biltmore Village, and West Asheville areas; and (2) review and approve these recommendations at the December 15, 1998, meeting.

Mr. Lee Bourque and Mr. Rick Day, consultants, responded to various questions and comments from Council, some being, would there be a need for a parking garage in the Battery Park area if there are improvements at the Civic Center; are pedestrian crosswalks and bike routes included in the study; need for coordination with the Pedestrian Thoroughfare Plan; the need to work signalization synchronization in the three study areas of the City; can a better method be devised to get people into the parking decks quicker at events so traffic is not at a stand-still; the advantages of a color-coded signage system; suggestion for a one color parking logo sign for all parking areas; rates in the parking garages; how the parking on Haywood Road is recommended; if the Grove Arcade is not developed, is it still recommended that we need more parking in that area; and the feasibility of a mixed use parking deck.

Mayor Sitnick said that the following are important items to keep in mind as we move forward to adopt the Plan: (1) the trucks and buses on the downtown streets; (2) the opportunity to provide enough parking for downtown employers and employees; and (3) parking spaces on the perimeter of downtown, with perhaps some shuttle services. Since all-day occupancy was one part of the problem, wanted to look into the future as we build to make sure that we not only provide for the shoppers, but also provide as much space as possible for the people who work downtown.

Mayor Sitnick suggested that the City contact the N.C. Dept. of Transportation to see if the old McDowell Street Bridge can be saved and made into a pedestrian bridge to connect McDowell Street to Biltmore Village. It could be landscaped with built in planters, and possibly kiosks. City Manager Westbrook said that he has already discussed this with the N.C. Dept. of Transportation and would bring the Mayor up-to-date.

Mr. Carl Ownbey, Urban Planner, said that the Haywood Road Corridor Study is in process and some of the recommendations that have come out of the parking study are also some of the ideas that the community has been looking at.

Mr. Joe Eckert, representative of the Merchants Action Coalition, said that they have submitted their responses to the parking study and briefly reviewed the following recommendations: (1) one hour of free parking Monday through Friday and three hours of free parking on Saturdays in all city-owned parking structures; (2) consideration of a shuttle service for downtown business district; (3) comprehensive advertising campaign for the public and the merchants of downtown in developing the parking theory - one issue being the customers and the clients and the employers and employees; (4) two full-time parking enforcement personnel to help manage and control the parking; (5) any changes in metered parking to be considered among the business merchants in downtown; (6) there should be two classes of loading zones - one for commercial and one for a general purpose loading zone for customers; (7) construction of a proposed parking structure in the area of the Grove Arcade; and (8) number of merchants on Haywood Street and Battery Park support higher parking rates while members in other areas are satisfied with the present rates - therefore, parking meter rates in different downtown areas should be flexible. He said that the Coalition believes that their recommendations will not require any additional funding from sources other than the increase in parking meter revenues. He said the downtown merchants are very committed to this process and would support the City in this endeavor.

When Mayor Sitnick asked Mr. Eckert his thoughts on setting time restrictions on large tractor-trailer trucks for deliveries in the downtown area, Mr. Eckert responded that he did not think regulating them is realistic or practical.

When Vice-Mayor Hay questioned if having different rates in different parts of the City for on-street parking would be feasible, Mr. Bourque felt that it can work but depends on the merchants themselves.

Mayor Sitnick said that as we move further into the parking study, possibly there can be more coordination with the N.C. Dept. of Transportation on their signage on the highways into downtown Asheville.

City Manager Westbrook said that the parking garage will be the largest single expenditure coming out of the parking study and one that has already been talked about as a need in the Grove Arcade and Civic Center area. Staff hopes that the revenues from the entire parking system will be enough to generate the debt service to pay the bonds that we need to build such a structure. However, if that is not the case, then we will need to look at another revenue source to do that. City Attorney Oast noted that part of our agreement with the Grove Arcade has them contributing financially to a deck if it gets built in a certain area.

Upon inquiry of Councilman Sellers, City Manager Westbrook said that the preliminary guidance to the staff has been that when they start the design of the deck that the first floor will have street shops. He said that adds to the cost upfront but you can generate some revenue from it, however, there are some restrictions in the bond issue. It is also staff's intent to design the deck to make it appealing to that particular part of town.

Mayor Sitnick was not opposed to considering approaching the County and the State, both of whom have many offices downtown, to help us with some of the parking needs of the downtown area.

Mr. Bourque encouraged City Council to think long-term because if the City does proceed with the garage design, knowing in advance the potential future purpose of that garage can provide the designer an opportunity to make provisions for those revisions.

Mayor Sitnick closed the public hearing at 5:47 p.m.

It was the consensus of City Council to consider adopting the Comprehensive Parking Study for Downtown, Biltmore Village and West Asheville areas on December 15, 1998.

C. PUBLIC HEARING RELATIVE TO A CONDITIONAL USE APPLICATION TO LOCATE A TELECOMMUNICATIONS TOWER AT 754 MERRIMON AVENUE

Due to an error in notice of the public hearing (a "Z" sign was not posted at the site), Councilman Cloninger moved to continue this public hearing until November 10, 1998, without further legal advertisement. This motion was seconded by Councilman Cobb and carried unanimously.

D. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A WIRELESS TELECOMMUNICATION FACILITIES ORDINANCE

Senior Planner Gerald Green said that this is the consideration of a motion to reschedule the public hearing relative to wireless telecommunications facilities ordinance to November 24, 1998.

The Planning and Zoning Commission received an overview of the draft Telecommunications Facilities ordinance from Paul Rosa at their October 7, 1998, meeting. The Commission members asked questions regarding the draft ordinance and received input from one representative of a telecommunications provider. The Commission requested staff schedule an opportunity for providers of telecommunications services to comment on the ordinance in a setting which would be conducive to discussion. The Commission continued this matter until the telecommunication services providers have had the opportunity to comment on the draft ordinance. A meeting to obtain the input of the providers is scheduled for October 28, 1998, at 3:00 p.m. This item has been placed on the Planning and Zoning Commission agenda for their November 4, 1998 meeting.

Based upon the action of the Planning and Zoning Commission, City staff recommends that City Council continue the scheduled public hearing on this matter until their November 24, 1998, meeting.

Therefore, Councilman Sellers moved to continue the public hearing until November 24, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. ORDINANCE NO. 2521 - AMENDMENT TO ORDINANCE GRANTING A FRANCHISE TO OPERATE A TROLLEY WITHIN THE CITY OF ASHEVILLE

City Attorney Oast said that in June of 1998, City Council authorized the granting of a trolley franchise to Asheville Trolley Works. It appears now that that operation will be taken over by the Grove Park Inn Resort Inc. Therefore, he reviewed the following amendments to the franchise: (1) To change the name of the group franchised from "Asheville Trolley Works, LLC" to "Grove Park Inn Resort, Inc., a Delaware Corporation, doing business as The Asheville Trolley Works"; (2) Add a stop at the Grove Arcade (staff will not designate the exact location of the stop until the first shops at the Arcade are ready to open); (3) Change the term of the Franchise to start on the date of final approval of these amendments; and (4) Change the address for notification to Asheville Trolley Works from Mr. David Newman, General Delivery, Asheville,

78

North Carolina, to Mr. Bill Kelly, Grove Park Inn, 290 Macon Avenue, Asheville, North Carolina, 28804. He said that this franchise amendment will require two votes on two separate dates. He asked that if Council approves the amendment on first reading at this meeting, that the second reading be held next week at Council's worksession scheduled for November 4, 1998.

Upon inquiry of Vice-Mayor Hay on the name which will show on the trolley, noting that "Asheville Trolley Works" was more appealing than possibly the "Grove Park Inn Trolley", Urban Planner Bruce Black noted that there is nothing in the franchise (other than the name can't be confused with the regular Transit Authority buses) that would limit the Grove Park Inn from choosing any name they want. Vice-Mayor Hay was concerned that residents might think they have to be guests at the Grove Park Inn to ride the trolley.

City Attorney Oast said that even though there was nothing in the franchise about the name, City Council can certainly make the name of the trolley a condition of the franchise.

Councilman Cobb moved to adopt Ordinance No. 2521 on its first reading, subject to the Grove Park Inn using the name "Asheville Trolley Works", or another name tied to the City of Asheville, on the vehicles.

Councilman Cloninger opposed the option because he felt the City Council should not be telling businesses what names they should use on the vehicles that they either own or lease. He said that the Grove Park Inn will be incurring a substantial expense in running the operation of the trolleys and Council is saying that they can't even identify on the vehicles that they are the ones providing the service.

Since the ordinance would have to be voted on again at the November 4 meeting, after a brief discussion it was the consensus of City Council to instruct staff to contact the Grove Park Inn and invite a representative to the November 4 worksession in order to negotiate with them the insignia that will appear on the outside of the vehicles.

Councilman Cobb amended his motion to adopt Ordinance No. 2521 on its first reading, subject to further discussion on the insignia that will appear on the outside of the vehicles. This motion was seconded by Councilman Sellers and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 13, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on October 13, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. CLOSED SESSION

Because Representative Martin Nesbitt has requested he be allowed to speak to City Council on the issue of the future of the Asheville Motor Speedway and his plane will arrive in Asheville shortly after 7:00 p.m., Mayor Sitnick suggested City Council proceed with their closed session business, recess the meeting and then reconvene the meeting once Representative Nesbitt arrives.

Councilman Tomes said that he will be driving to Durham, North Carolina, after the Council meeting and since there will be no official action taken by City Council, he asked to be excused after coming out of closed session.

At 6:10 p.m., Councilwoman Field moved to go into closed session for the following reasons: (1) to prevent the disclosure of information that is privileged or confidential pursuant to the law of this State or of the United States, or is not considered a public record within the meaning of Chapter 132 of the General Statutes. That law that renders the information to be discussed privileged or confidential is G.S. 143-318.10 (e) - statutory authorization is G.S. 143-318.11 (a) (1); and (2) to consult with an attorney retained or employed by the City Council in order to preserve the attorney-client privilege between the City and its attorney. The parties in the lawsuit about which the Council expects to receive advice are: Fairway Outdoor Advertising Inc., Outdoor Communications Inc., Maple Cove Inc. and the City of Asheville - statutory authorization is G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Tomes and carried unanimously.

At 7:05 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cobb and carried unanimously.

At 7:12 p.m., Councilwoman Field moved to excuse Councilman Tomes from the meeting. This motion was seconded by Councilman Sellers and carried unanimously.

C. FUTURE OF THE ASHEVILLE MOTOR SPEEDWAY

At 7:14 p.m., Mayor Sitnick recessed the meeting to await Representative Nesbitt's arrival.

At 7:25 p.m., Mayor Sitnick called the meeting back to order.

Representative Martin Nesbitt, attorney representing a number of people, appreciated City Council allowing him to time to speak at this meeting. Following a meeting last week of approximately 90 people, an executive committee (called "Speedway 99") was appointed to work on this problem and to try to bring some resolution. The committee members consist of: Sharon Tolley (car owner and business owner of medical emergency ambulance), Kermit Tolley (car owner, business owner of medical emergency ambulance and Asheville property owner), Martin Nesbitt (car owner, driver and bank manager for Wachovia), Michael Fryar (Fryar Performance Inc.), Ron Crane (car owner, business owner and owner of riverfront property), Dean Jones (Owner of Prime Time Design Graphics/Souvenirs), Keith Cochran (5 years marketing - Public Relations Director of AMS and Owner of Check Flag Publications), Almeria Waldrop (former concession stand manager, customer relations manager for First Union), Danny Jones (Owner of Dans Discount Tobacco Stories), and Ken Jarvis (Advertising Manager for Ingles Market). The committee has set up three working groups: history, media and fans; economic impact; and petitions and charities. As time progresses, the committee will be giving City Council petitions from the community asking that racing be restored at the Asheville Speedway. They will provide economic data on what the racetrack means to this area and will be requesting possible historic designation for all or part of the Speedway. There also may be a concept growing to create a Hall of Fame for the Asheville Speedway. The Speedway has produced some of NASCAR's greatest drivers and recently they have designated Jack Ingram (from Asheville) as one of the top 50 drivers of all time. He said the Speedway is no small venture - it has generated substantial income to the owners over the years, it brings in approximately 3-4,000 fans a week during the summer, approximately 100 race cars, five people in each crew for each race car, vendors that sell to that race track (approximately $10,000 each), sponsors, and many marketing people. There is a tremendous infrastructure built around race cars and the building of race cars. After you pass the people who are directly involved, you get to a much larger racing audience. Some people do it and spend money at it, but a lot of people do it and depend on it for their living. He explained how racing is a family and how shocked everyone was when they didn't even get to say good-bye to the racetrack. He stressed that racing is a cultural economic benefit to this community. If you close it for any amount of time, everyone loses - the fans

80

leave, the drivers leave, you can't get management and concessionaires back, and NASCAR sanction won't come back. He had high hopes for another racetrack in this community. They propose to work with City Council to figure out a way to operate the speedway until another racetrack can be built. He knows of three groups who are willing to build a speedway here. He asked for City Council to work with the people who worked to help the City acquire the property and see if they can convince them to allow racing for another year. The racing community offered their help to find people that Council would be comfortable with to operate that facility. They also asked Council to make sure that no plans are made concerning that facility until they have had a chance to explore the possibility of a Hall of Fame or a historical designation for that area. He said this whole situation is about something that has happened and now what can be done to repair our community and to keep something that is extremely good about Asheville and its people in place until we can overcome this and go onto the next step. He said they stand ready, willing and able to help City Council in anyway they can and they hope City Council will help them.

Upon inquiry of Councilwoman Field, City Attorney Oast said that deed restrictions come from two instruments. One is the deed from RiverLink which contains a restriction that says the property can only be used for residential purposes and the other is a conservation easement with the State of North Carolina which is an even stricter restriction in a corridor that is 100 feet wide right next to the river.

When Councilwoman Field asked the City Attorney if it was possible to allow racing for one more year, he replied that it would be difficult, but not impossible. He said it would require everyone up the chain of title and the State of North Carolina to agree to this.

Councilwoman Field said that personally she would like to see City Council at least look into the possibilities of whether we can or can't so that we don't leave the racing community out on a limb.

When Councilman Cloninger asked what the next steps would be, Representative Martin suggested that the first step would be for the City to go back through the chain of title and get the responses. He was very optimistic that people will agree under the right circumstances. After the responses have been obtained, then the City can come back to the racing community and tell them what the conditions are so that they know where to start looking in terms of managing the racetrack.

Councilman Cloninger agreed that the City should work on the legal aspects and the racing community should work on a proposal on the management of the racetrack.

Upon inquiry of Councilman Cobb, Representative Nesbitt said that if the City needed any help with anyone in the chain of title, they would be willing to talk to them.

Councilwoman Field said that she felt the City Manager feels that since all the negotiations were made outside of the City, just brought to the City as a complete package, that it may be better that RiverLink or whoever did the negotiations, go back to the people in the chain of title, especially since there was one anonymous donor. Representative Nesbitt said that the City now owns the racetrack and that is the reason this group is before Council, however, he felt that RiverLink is probably already doing something some of that. He felt that getting control of the land for the future was what the deal was all about, not getting rid of the Speedway.

Upon inquiry of Vice-Mayor Hay on how the restrictions would be enforced, City Attorney said that it would require some action on their part to enforce the restrictions. He believed that was not only true of the deeds but also of the easement. He said the possibility might be some type of waiver of the right to enforce that part of the restrictive covenant.

Mayor Sitnick was concerned that the people didn't have a chance to say good-bye to the racetrack. Personally, she hoped that the City can find a way to allow the Speedway to operate for another year so that (1) people can use their engines, mufflers, etc., and (2) so that there is time for another bigger, better and safer speedway to be built. She was not aware of the things going on in the racing community, other than the issue of the noise ordinance, the mufflers, and the money that individuals spent on their cars. If she had this to do all over again, she would have done it differently. In her mind, the City was accepting a gift from a private property owner who wanted to honor his family at a time when this Council had just adopted a Comprehensive Parks & Recreation and Greenways Master Plan, noting that more park land was needed. She felt she should apologize for not being more sensitive to not only the widespread economic impact of the racetrack, but for the fact that she was not aware of the impact on the individuals involved. She was not saying that she wouldn't have accepted the gift, but she would have done it differently. On the other hand, they were asked by the private property owner to keep it confidential, in the short amount of time Council knew about it, and they honored that. At this point, it is her responsibility to do whatever she can to help the racing community find another way to race their cars, to work with this chain of title in the deed, and to see if we can keep the track open for another year so that we don't lose the NASCAR sanction. The only negative aspect she heard about the racetrack was the noise and she felt that everyone involved with the raceway did everything they could to abate that problem. She would like to work with the Executive Committee and with RiverLink to find a way to do what the Committee has asked Council to do.

Representative Nesbitt said that, to some degree, they will need to know what, if any, restrictions are going to be put on the operation of the racetrack before they can put together a proposal to present to City Council in order to get a promoter to operate the racetrack.

City Attorney Oast said the first step which needs to happen is whether the parties are willing to let the racetrack continue to operate under any conditions, and then find out what those conditions are.

Since Councilman Sellers has shown so much leadership on this issue, it was the consensus of City Council to appoint him to serve as liaison between the racing community and the City in coming up with a proposal to make to the City.

Councilman Cobb said that nothing would please him more than to see the racetrack operate another year and make a nice transition to a different location.

It was the consensus of Council to add the future of the speedway on the November 10, 1998, agenda so that City Council can be brought up-to-date on the progress being made.

When Councilwoman Field asked if another racetrack could be built in a year because in one year she didn't want to be in the same position, Representative Nesbitt said that hopefully it was possible because the people that are capable of building one are out there. He said they would do everything they can as a racing community to move this along. He did note, however, that their request was that they want City Council to bridge the gap between now and when a new racetrack can be built. Mr. Scott Jarvis said that he was assured by one of the principals in one of the groups interested in building a racetrack, that if they have the opportunity, they can have the project up in one year.

Vice-Mayor Hay said that one concern is that people were told that there would be another year of racing and they relied on that by investing their money. By allowing racing for one more year, they wouldn't be in that position because they will have a much clearer idea of what is going to happen to the racetrack.

The following individuals made several comments relative to supporting the continued racing at the Asheville Motor Speedway:

Ms. Kathy Young, race fan
Mr. Fred English, Haw Creek resident
Ms. Leslie King, race fan from Candler
Mr. Jack Ingram, race car driver
Mr. Bruce McTaggart
Mr. Todd Heckman, race fan from Candler

It was the consensus of City Council to instruct the City Attorney to start pursuing how the racetrack can continue for another year legally by contacting RiverLink and the individuals in the chain of title. Then, the Committee will work with Councilman Sellers to bring back a proposal to City Council regarding management of the racetrack.

Mayor Sitnick thanked everyone for their comments. She said that City Council wants to open the dialog and wants to work with the racing community. She thanked Representative Nesbitt for his interest, concern and time on behalf of the racing community and the City of Asheville. She knows there are a lot of hard feelings, however, the City had no bad intentions.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Wednesday - November 4, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Bid Award re: Bulldozer for Public Works

Summary: The consideration of a resolution to award the bid for the purchase of a bulldozer to Van Lott Inc. in the amount of $127,502.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a bulldozer for the Public Works Department, Street Division. Three (3) bids were received as shown as follows:

Van Lott Inc., Asheville, NC	$127,502
NC Equipment Co., Asheville, NC	$133,815
Carolina Tractor & Equipment, Asheville, NC	$140,919

Bids have been reviewed for technical compliance to specifications by the Public Works Department and the Fleet Management Division, and their concurrence received in the following recommendation.

Funds for this purchase are provided for in the budget.

City staff recommends City Council adopt the resolution which awards the bid to the lowest responsible bidder, Van Lott, Inc., Asheville, N. C., in the amount of $127,502 for the purchase of a 1998 'Deere' model 750C bulldozer.

Financing Information re: Bulldozer for Public Works

Summary: The consideration of resolutions authorizing: (1) the installment financing of a bulldozer and (2) the reimbursement of the City from proceeds of the financing in the event the bulldozer is delivered prior to execution of the installment financing contract.

The Finance Department sought proposals from 30 firms to finance the purchase of a bulldozer for the Public Works Department. The amount to be financed is $127,502, equaling the amount of the lowest bid, over a period of five years. Both fixed-rate and variable-rate proposals were solicited. Proposals were received from 11 firms, "no bid" responses were received from 3 and no response was received from the remaining 16 . The best proposal, 3.74% interest plus $250.00 closing cost, was submitted by Wachovia Leasing Corporation.

The first proposed resolution authorizes the installment purchase contract between the City and Wachovia Leasing Corporation; designates that the obligations will be "qualified tax-exempt obligations" (meaning that the City does not anticipate that we will issue more than $10,000,000 of tax-exempt debt during calendar year 1998 and are therefore "bank qualified") and authorizes the City Manager to execute any and all documents necessary for the financing.

The second proposed resolution allows reimbursement to the City from proceeds of the financing if it becomes necessary for the City to take delivery and pay for the bulldozer prior to execution of the financing contract. (We presently anticipate that the financing will be in place prior to delivery of the bulldozer.)

Staff recommends City Council adopt both resolutions.

Budget Amendment relative to Future Park Development

Summary: The consideration of a budget amendment, in the amount of $20,000, to appropriate funding from the sale of property to the Opportunity Corporation of Madison-Buncombe Counties to construct a new office building for their staff.

City Council approved the sale of approximately 1.3 acres of property behind the Reid Community Center to the Opportunity Corporation of Madison-Buncombe Counties. In exchange for this property, the Opportunity Corporation agreed to pay $20,000 to the City of Asheville for the City Parks and Recreation to use in funding needed parks in this particular area. The action required by City Council in regard to this staff report is to set up an appropriation to accept the money from this sale into the appropriate account.

The Parks and Recreation Department requests City Council approval of the attached budget amendment to appropriate $20,000 into an account for future park development.

Blanket Easement to Carolina Power & Light Company for Twin Springs Subdivision

Summary: The consideration of a resolution authorizing the Mayor to convey to Carolina Power and Light Company (CP&L) a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Twin Springs Subdivision.

Twin Springs Subdivision is located on Broadview Drive in Oakley. The City is scheduled to subdivide this property into 34 residential lots. The city will construct the infrastructure improvements and Habitat for Humanity will construct the housing units.

In order to install underground electric service to all 34 homes to be constructed in the subdivision, CP&L has requested a blanket easement. The proposed blanket easement will enable the facilities to be placed in "mutually suitable locations." The actual locations will be determined between the owner and CP&L at the time service facilities are installed.

Approval of the resolution will authorize conveyance of the easement to CP&L for the installation and maintenance of electric service facilities.

Community Development staff recommends adoption of the resolution.

Budget Amendment to Amend the Water Capital Project Ordinance (29 Fund)

Summary: The consideration of a budget amendment to provide funding for engineering services for the design of the Brevard Road/Sand Hill Bridge Projects and to reprogram funds for a change order to the Camp Dresser & McKee contract for engineering services for the Mills River Water Treatment Facilities.

The Brevard Road/Sand Hill Bridge Projects are high priority Water Distribution Master Plan projects that will greatly improve water service in the West Asheville/West Buncombe service area. Design of the Sand Hill Bridge Project is complete; however, design of the Brevard Road Project is needed and has been estimated not to exceed $50,000. Adequate funding for these engineering services is available in the Distribution Master Plan Improvements due to the Biltmore Avenue Water Line Project coming in under budget. It is also expected that there will be enough contingency remaining from the Mills River Project to fund the construction of these projects. The Mills River Project is expected to be substantially complete in the Spring of 1999; and if there is adequate contingency remaining, staff will request approval to fund construction of the Brevard/Sand Hill Bridge Projects at that time.

There is currently adequate funding in the Mills River Project Contingency to fund a change order to the Camp Dresser & McKee contract for engineering services related the Mills River Project. This increase in fees is due to an extension of the scheduled completion date of the Mills River Water Treatment Plant. The projected final completion date has been extended by the contractors from January 6, 1999, to approximately July 1, 1999, and could result in increased engineering fees of up to $199,800. This includes assistance provided by Camp Dresser & McKee in preparing the funding application for the pesticide mixing stations on the Mills River Watershed.

Staff recommends adoption of the budget amendment to reprogram funds in the amount of $50,000 from the Water Distribution Master Plan Downtown Project (Biltmore Avenue) to the Brevard Road/Sand Hill Road Bridge Project and to reprogram funds in the amount of $199,800 from Mills River Contingency to Mills River Engineering Services.

Budget Amendment to Amend the Water Capital Project Ordinance (35 Fund)

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to reflect the first payment to the N.C. Dept. of Transportation ("NC DOT") for the relocation of water lines on US 70/74 Tunnel Road/Haw Creek, the pesticide mixing stations, and the first project of the Fiscal Year 1998-99 Distribution System Improvements.

Funds in the amount of $597,920 were approved to be transferred from the Operating Budget (30 Fund) to the Water Major Capital Improvements Fund (35 Fund) to fund capital improvements projects.

The following are three projects that the Regional Water Authority has previously committed to fund with Fiscal Year 1998-99 Contribution to Capital:

- Payment #1 of the US 70/74 Tunnel Road/Haw Creek NC DOT project in the amount of $89,962;
- Relocation of the pesticide mixing stations on the Mills River Watershed in the amount of $33,000; and
- The Affordable Housing 50% fee waiver in the amount of $87,000.

A Quality Improvement Task Team called the Critical Needs Assessment Team has been formed to identify and prioritize critical water distribution system needs. The team has identified three projects thus far to be prioritized along with other projects. These projects are as follows:

- Lee Street/Prospect Street Water Main Replacement ($33,000) which is needed in order to provide adequate service to existing and future customers;
- Monroe Street Water Main Replacement ($25,000) which is needed in order to provide adequate service to existing and future customers; and
- Mine Hole Gap and Young's Cove Reservoir Improvements Project ($40,000) which includes resurfacing these water distribution system reservoirs in order to protect water quality.

An update of the Critical Needs Assessment Team and a list of other potential projects will be presented in November.

On October 20, 1998, the Regional Water Authority adopted a resolution to fund water line replacements in Prospect Street and Monroe Street. Other priorities will be recommended after completion of the Task Team's work. Since the Authority has committed to funding the pesticide mixing stations and the first payment to the NC DOT for the relocation of water lines on US 70/74 Tunnel Road/Haw Creek, it is recommended that this budget amendment reflect appropriations for these projects as well.

Staff recommends adoption of the budget amendment which will reflect the addition of a portion of Contribution From Other Funds - Fiscal Year 1998-99 in the amount of $180,962, to fund the following projects in the 35 Fund: Relocation of Pesticide Mixing Stations ($33,000), Lee Street/Prospect Street Water Main Replacement ($33,000), Monroe Street Water Main Replacement ($25,000), and the first payment of the NC DOT US 70/74 Tunnel Road/Haw Creek water line relocation project ($89,962).

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

I-26 ASHEVILLE CONNECTOR ADVISORY COMMITTEE REPORT

At the request of City Council, Mrs. Norma Price, former Chair of the Asheville Connector Advisory Committee ("ACAC"), reviewed with City Council the work of the ACAC as it related to the I-26 Connector Corridor. She reviewed specific items throughout the April 1995 Phase I Environmental Analysis of the Asheville Urban Area Corridor Preservation Pilot Project. She reviewed the list of committee members which represented 30 organizations consisting of a cross section of business, environmental and neighborhood. She also reviewed the process that occurred to reach the September 9, 1993, vote to recommend to the Transportation Advisory Committee that the ACAC voted in favor of Alternative "A" by a vote of 6-3. Alternative "A" consisted of that portion of the new construction from I-240 to US 19-23 (between the Hilton and Westgate Shopping Center), the widening of I-240 to six lanes (from I-40 to Smokey Park Bridge), the widening of Smokey Park Bridge from 8 lanes to 12 lanes, and considerable alterations to Patton Avenue (from Louisiana Avenue to the Bridge). Furthermore, the ACAC requested the opportunity to review any design plans as they became available. A summary of the rationale upon which the recommendation was made is (1) Alternative "A" is the shortest, least disruptive route to residences; (2) Alternative "A" is the least expensive in regard to right-of-way and construction costs; (3) Alternative "A" will have the least adverse impact on environmental concerns; (4) Alternative "A" is the only route that is a true, direct "connector" to I-26 and US 19-23; and (5) Alternative "A" will do more to ease the traffic congestion on the Smokey Park Bridge.

She said the ACAC was unanimous in the following: (1) the selected alternative must address aesthetics and safety (drive confusion, weaving, etc.); (2) access to the river and riverfront businesses should remain an important consideration; and (3) the access to existing businesses should be strongly considered in the design phase of project.

Ms. Price said that the following are additional comments the ACAC expressed concerning the other alternatives: (1) The ACAC was unanimous in not recommending Alternative "K"; and (2) The ACAC was unanimous in not recommending Alternative "B" in its entirety. Both of these alternatives were deemed to be too disruptive to residences, businesses, and the environment. They are likewise not true "connectors" and would contribute to urban sprawl.

She said that although there were serious concerns expressed by almost all of the ACAC members as to the design plans that were provided to them by the N.C. Dept. of Transportation, the general consensus was to recommend it with reservations. The three dissenting members: Pat Skalski (representing Coalition of Asheville Neighborhoods), Harry Weiss (representing the Preservation of Asheville & Buncombe County) and Rusty Sivils (representing the Western N.C. Alliance) were not opposed to the selection of "A" as the corridor of choice, but expressed opposition to segments of the proposed project and thus voted against the motion. In summary, their concerns were as follows: (1) Traffic volume projections contain errors and need to be re-examined; (2) the widening of I-240 will cause unnecessary disruption to the adjacent neighborhoods; (3) the additional lanes to Smokey Park Bridge will add to congestion and confusion; (4) there has not been adequate attention given to alternative transportation modes; and (5) making the area more "friendly" to automobiles does not address the real problem, such as sprawl and land use controls.

She then briefly explained why Alternative "K" and "B" were unanimously not recommended.

Mr. Harry Weiss, Mr. Rusty Sivils and Ms. Pat Skalski each went into greater detail regarding the concerns of their respective organizations.

Mr. John Hill, representing the French Broad River Foundation, explained in detail the tremendous amount of work and public input that went into the recommendation. He felt that even though only six lanes were mentioned to the ACAC at the time of their review, the N.C. Dept. of Transportation ("NC DOT") has professional engineers on staff to determine if six or eight lanes are necessary.

Discussion surrounded various issues, some being, but are not limited to, what type of environmental study was performed and why there has not been an updated analysis performed since 1995.

Councilman Cobb expressed concern of truck traffic, noise, pollution, smog and the large vehicles carrying hazardous materials. He strongly felt that Alternative "K" should be built because Alternative "A" will kill our downtown.

When Mayor Sitnick asked if the ACAC committee was given the opportunity to review any design plans, Ms. Price replied that she was not contacted by the NC DOT, however, there was information in the newspapers that said the design plans were available at the Armory.

Mayor Sitnick also expressed many concerns regarding the project, some being that we should not build our roads and highways for peak hour traffic, air pollution, noise, social affordable housing, urban sprawl, the further alienation of the Hillcrest community, and the fact that eight lanes were never mentioned.

When Councilman Cobb said that he felt City Council should hold a public hearing on the route, Mayor Sitnick said that since Secretary Tolsen of the NC DOT said that they will no longer tell communities what to do but instead listen to what the communities want, the very least Asheville could do is to hold a public hearing, with the express understanding that changes may not be forthcoming or possible. The public hearing would be just to tell NC DOT what the 1998 Asheville community has to say about the project.

Vice-Mayor Hay's biggest concern was possibly raising the expectation that there is something the City Council can do to re-route the corridor, noting that City Council cannot make any decisions to bind the NC DOT.

After a brief discussion, it was the consensus of City Council to instruct the City Manager to contact the NC DOT to see what their plans are concerning public hearings in the Asheville area, prior to any public hearing being scheduled by City Council.

On behalf of City Council, Mayor Sitnick thanked Ms. Price and other committee members present for reviewing their report for City Council.

REPORT FROM THE FUTURE OF THE CIVIC CENTER TASK FORCE

Vice-Mayor Hay, Chair of the Task Force on the Future of the Civic Center, reported that over two years ago City Council commissioned the Task Force on the Future of the Civic enter to study the need to make substantial renovations to the Asheville Civic Center. Among the issues to be reviewed were the necessity of making repairs, the impact of the anticipated opening of the Bi-Lo Center in Greenville and, most importantly, an assessment of the direction of be taken by the Civic Center for the foreseeable future. The Task Force has worked continuously and diligently since that time studying options, reviewing reports from consultants and soliciting public input through several series of public meetings and surveys. Interim reports were made to City Council in November 1996 and May 1998.

At the direction of City Council, the City engaged the services of Hunter Interests Inc. of Annapolis, Maryland, a nationally-recognized consulting firm, to assist in the study. After Phase I of its worked (completed in May 1998), the consulting firm reported that our present multi-purpose Civic Center is well-suited in terms of location, size, and facilities to continue to meet the needs of our community, but that significant improvements are required to extend its useful life and to maximize its potential. The consultant also found that there is a significant market for conventions and conferences in Asheville, but that our Civic Center is unable in its present state to host them.

Phase II (completed this summer) considered the feasibility of expanding the Civic Center to attract those events. In its Phase II report, the consultant recommended that the Civic Center be expanded to attract new conventions and conferences by making the following improvements:

A. Upgrade the existing facilities throughout, including the Thomas Wolfe Auditorium, in order to provide a first-class convention and conference offering, particularly with regard to technological, audio-visual and acoustical amenities.

B. Expand the current Civic Center to provide an additional 31,780 square feet of space, to include breakout rooms, conference rooms, and a new ballroom/exhibit room roughly the same size as the existing exhibit level.

C. Enhance food and beverage facilities to serve the conventions/conferences and meet the perceived need for additional service for local events.

D. Recruit a developer to construct a new hotel to be located adjacent to the Civic Center. The City would enter into a public-private relationship with the developer which would include sharing the cost of construction of the new convention/conference spaces. The consultant urges that no improvements be initiated until the developer is identified.

The Task Force has carefully studied the consultant's report and solicited public input about his recommendations. A representative group from the Task Force visited the Roanoke, Virginia, Conference Center to inspect that facility to learn more about the concept. After thoughtful review, the Task Force recommends to City Council that it adopt the proposal presented by the consultant, along with the following supplemental recommendations:

A. The Thomas Wolfe Auditorium should be upgraded to make it a premier performing arts facility, including improvements in acoustics and backstage properties.

B. In addition to the new facilities recommended by the consultant, further study should be done on expanding the "flat show" space available for trade shows, with an emphasis on continuous space.

C. In making improvements to the Civic Center to accommodate conventions/ conferences, necessary improvements to the arena should be included.

D. Assure that any expansions/improvements adequately address existing and potential parking concerns.

E. An emphasis be made to involve local developers in the private portion of the project.

The Task Force believes that the success of a Civic Center Renovation Plan rests upon a balanced approach to economic development, local public use, and financial feasibility considerations. After careful review, it finds that each need is best met by a synthesis of the proposal by the consultant with the additional recommendations found by the Task Force. Specifically, the Task Force recommends to City Council that it engage Hunter Interests Inc. to move forward with the proposal it made regarding the Civic Center, building into their proposal the recommendations made by the Task Force. The Task Force also recommends that it be commissioned to continue its work in overseeing and reporting to City Council as the project develops.

At the request of Councilwoman Field, Vice-Mayor Hay said that the Task Force would contact the consultant and request that they interview local firms and open up the process for the schematic design work.

Vice-Mayor Hay responded to Mayor Sitnick's question about the facade of the Civic Center once the project is complete.

Mayor Sitnick wanted to make sure that Buncombe County continues to have input into this project with perhaps some funding cooperation as well.

It was the consensus of City Council that the Task Force continue its work in overseeing and reporting to City Council as this project develops.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place the appropriate items, including a budget amendment to proceed with Phase III, on the next formal City Council agenda.

At 5:00 p.m., Mayor Sitnick announced a short break.

PEG CHANNEL UPDATE

Ms. Robin Westbrook, Public and Community Information Coordinator, said that the Cable Franchise Agreement adopted by City Council designates three initial access channels to be used for public, educational and/or government programming.

She said that in August 1998, City Council adopted a Cable Franchise Agreement allowing InterMedia to provide cable service within the city limits of Asheville. As part of this agreement, InterMedia was required to provide three initial channels to be used for public, educational and/or government programming. A fourth access channel will be provided when certain programming thresholds are met on the other channels.

She said that the City may assign or delegate the administration and management of the PEG channels to a third party or to InterMedia. The agreement states also that the City and InterMedia may coordinate the administration and management of the channels. The City has the sole authority to designate the channels and the use of their capacity.

Ms. Westbrook said that regarding the Government Access Channel, the City will be responsible for management and programming of the government channel. This channel will be programmed with city information, City Council meetings and other forms of programming.

Councilman Cobb said that there are many educational entities in the City of Asheville and the educational access channel may be designated for the use of all of these organizations. Some of these entities have video programs and curriculums already established. This gives the educational community a head start in the programming of their channel.

He said that there are several ways that the educational access channel can be organized. Due to the expertise that exists in our educational community, we recommend that we go to them for the answers. By establishing an Educational Access Channel Commission to determine how to manage the channel, we allow these organizations to work together to chart their own course. He said that Ms. Robin Westbrook will explain the composition and expectations of this Commission.

Ms. Westbrook said that regarding the Educational Access Channel, it is proposed that the City form an Educational Access Channel Commission made up of members representing all of the educational entities in the City. This Commission will oversee the development and future programming of the educational access channel. It will work with the educational community in Asheville to achieve this task. She reviewed a draft ordinance which would establish the Commission. Following City Council's review of the ordinance, staff will meet with all representatives of these organizations to solicit input on the document.

Councilwoman Field suggested that the commission be broadened to include representatives from the Charter School, the Home Schooling program and the alternative teaching community.

Mayor Sitnick suggested that that the people who participated in the cable franchise discussions be included in on the development stage of the Commission as well.

Councilman Cloninger also suggested that it might be good to have a couple of members from the general public on the Commission.

It was the consensus of City Council to ask that staff meet with the educational community to review the ordinance establishing an educational access channel commission to solicit their input on the document. After staff receives that input, then they will come back to City Council with a recommended ordinance.

Councilman Tomes said that during the meeting of the City Council to consider the cablevision franchise with InterMedia, a lot of interest was expressed about a public access channel. Now that the franchise has been granted, Council needs to address the administration and management of the public access channel.

He said there are many ways a public access channel can be managed. In considering how we do it in the City of Asheville, we need to look at the language of the franchise granted to InterMedia and to the comments expressed during the meetings of the City Council on the franchise. Under the terms of the franchise, the City may assign or delegate the administration and management of the governmental, educational and/or public access channels to InterMedia or to a third party. He said that Assistant City Attorney Patsy Meldrum will now explain various options we can consider in the administration and management of the public access channel.

Assistant City Attorney Patsy Meldrum first reviewed with Council the franchise requirements regarding the Public Access Channel: (1) InterMedia provides channel capacity for up to three initial channels that may be designated by the City for governmental, educational and/or public access ("PEG channels); (2) The City shall have the sole authority to designate the channels and use of their capacity; (3) The City may assign or delegate the administration and management of the PEG channels to another party or to InterMedia; and (4) The City and InterMedia may coordinate the administration and management of the PEG channels. She said that several of the available options for the administration and management of the public access channel include:

1. The City assigns or delegates the administration and management of the public access channel to a third party.

    - Establish a non-profit corporation and contract with the non-profit corporation to operate and manage the public access channel, incorporating guidelines for channel operation and management in the contract. (If desired, a commission could be appointed to oversee the contract).

      OR

    - Send out a request for proposal ("RFP") for a non-profit corporation to operate and manage the public access channel, incorporating guidelines for channel operation and management in the contract. (If desired, a commission could be appointed to oversee the contract).

      OR

    - Set up a commission and authorize the commission to contract with a non-profit corporation to operate and manage the public access channel, incorporating guidelines in the ordinance setting up the commission on operation and management of the public access channel.

2. The City hires staff and operates and manages the public access channel.

3. The City authorizes InterMedia to operate and manage the public access channel.

A time and method for public comment on the administration and management of the public access channel should be determined. If a RFP is used, public comment on the request may be considered before the request is sent out for response.

Ms. Meldrum responded to several questions from Council, including, but not limited to, what was the advantage of having a non-profit corporation operate and manage the channel and how do other cities handle their public access channel.

After discussion, it was the consensus of City Council to direct staff to develop a RFP for a non-profit corporation to operate and manage the public access channel, incorporating guidelines for channel operation and management in the contract, along with language to appoint a commission to oversee the contract including the commission's authority. After the RFP has been drafted and the community has been given an opportunity to comment on it, staff will bring the RFP back to City Council for their approval at a formal meeting and ask for authority to send it out. After responses are received, the RFP's will be reviewed and staff will make a recommendation to award the contract and also present Council with a draft ordinance on the Public Access Commission. It was Council's consensus that they would select the non-profit corporation and appoint the commission, with Council retaining review authority on subsequent renewals or re-bids in the future.

When Councilwoman Field suggested that Mark Rosenstein review the draft RFP, Ms. Meldrum responded that she would invite his comments, as well as several other individuals in the community.

Vice-Mayor Hay suggested that the Public Access Commission should be a small group.

SECOND READING OF ORDINANCE NO. 2521 - ORDINANCE AMENDING THE FRANCHISE FOR ASHEVILLE TROLLEY WORKS

City Attorney Oast said that the first reading of this ordinance was adopted on October 27, 1998, subject to further discussion on the name on the outside of the vehicles.

Mr. Bill Kelly, representative of the Grove Park Inn, said that the identification on the outside of the trolleys will read "Asheville Trolley Works". He also said that they will have a separate telephone line that will be answered "Asheville Trolley Works."

Upon inquiry of Vice-Mayor Hay, City Attorney Oast suggested that a new subsection (c) be included in Paragraph 6 to read as follows: "Identification/Advertising: Each trolley vehicle may display the name "Asheville Trolley Works" externally, and may have incidental signs providing route and fare information. Any other external signs shall be limited to one display face per side of the vehicle, and shall be subject to the size limitations to off-premise signs."

Councilman Tomes moved to suspend the rules in order to take official action at this meeting. This motion was seconded by Councilman Sellers and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved to adopt Ordinance No. 2521 on its second and final reading, with the addition of subsection (c) in paragraph 6 as read by City Attorney Oast. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 161

CARTER COVE SANITARY SEWER AND WATER IMPROVEMENTS BID AWARD

Ms. Cathy Ball, City Engineer, said that this is the consideration of adopting a resolution awarding the contract for the Beaverdam Annexation Area Carter Cove Sanitary Sewer and Water Improvements to the lowest responsible bidder, Cooper Construction Company Incorporated, in the amount of $442,278.00.

Approximately $540,000 is available in the budget for this project. The project consist of installing approximately 5,800 linear feet of sanitary sewer line and 550 linear feet of waterline.

Mattern & Craig Consulting Engineers and Surveyors prepared construction plans for the project. The engineer's estimate, also provided by Mattern and Craig, for this project is in the amount of $440,446.00.

On Tuesday, September 23, 1998, at 2:00 p.m., the Engineering Department received the following three bids for the project:

Precision Contracting, Asheville, NC	$435,806.00
Cooper Construction Co., Hendersonville, NC	$442,278.00
Buckeye Construction Co., Canton, NC	$478,031.25

The lower bidder for this project was Precision Contracting with a bid of $435,806; however, after checking references for similar types of jobs, they have been determined not to be responsible for performing this job.

Over ninety-three percent of the work on this project consists of installing sanitary sewer line. Precision Contracting has completed two sanitary sewer projects in the past. The first was for the Town of Spruce Pine and the second was for MSD at the Holiday Inn Sunspree Resort Golf Course. The cost of the project for Spruce Pine was approximately $114,000. Staff talked to Robert Wiseman with the Town of Spruce Pine. He gave a favorable reference for the work they performed; however, he said that he had some problems with the way the crews interacted with the residents.

The second sanitary sewer project was with MSD at the Holiday Inn Sunspree. The total cost of this project was approximately $250,000. MSD staff provided the documentation from the project indicating that they encountered several problems with the Contractor during the course of the project. Some of the problems included; (1) discharged sewer into the creek four times; (2) failed to provide adequately trained and skilled labor to perform the necessary work; (3) repeated instances of improperly installed silt fence and deliberate discharges of mud and soil into the creek; (4) placement of stored materials and trespassing ion areas outside the construction easement; and (5) damaged the irrigation system and cover up the line without repairing it. Additionally, MSD informed Precision's Bonding Company that they needed more sewer pipe laying experience.

The Director of the Golf Course at the time of the construction of this project provided staff with information supporting the information MSD provided.

The factors leading to the determination that Precision Contracting was not a responsible bidder are; (1) they have never completed a sanitary sewer project of this size; (2) of the two sanitary sewer projects they have completed, they encountered major problems with the bigger one and some minor problems with the smaller one; (3) Precision's Insurance Company paid the Holiday Inn Sunspree approximately $20,000 in damages following the sanitary sewer project at the Golf Course; and, (4) they discharged sewer into the creek at the Golf Course four times.

The second low bidder by $6,472 was Cooper Construction. They have performed several projects of this nature for the City of Asheville in the past without any major problems. She also received some positive references for Cooper from outside companies.

The construction time for this project is identified as 150 calendar days in the contract documents. If Contractor shall neglect, fail or refuse to complete the work within the time herein specified, then the Contractor pays the sum of $250 as liquidated damages for such breach of contract as hereinafter set forth, for each and every calendar day that the Contractor shall be in default after the time stipulated in the contract.

Staff recommends that City Council accept a resolution awarding the bid for Beaverdam Annexation Area Carter Cove Sanitary Sewer and Water Improvements to Cooper Construction Company, the responsible low bidder, and authorize the City Manager to execute all necessary agreements and contracts.

Ms. Susan Lewis, attorney representing Precision Contracting, explained that her client is the lowest responsible bidder and responded to all the problems Ms. Ball alleged, noting that some of the problems she was not aware of and requested a copy of the information so that she could be prepared to respond at the formal meeting.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ANNUAL RETREAT TOPICS

City Manager Westbrook said that staff is seeking direction for the agenda items for the upcoming retreat.

He said that listed below are topics which have been suggested for the annual retreat to be held January 29, 30 and 31 of 1999. He asked that Council review the list and finalize their decision so that staff can begin preparation. There also may be topics not listed that Council may want to discuss. In previous retreats, Council has been able to deal effectively with anywhere from eight to ten issues including the brainstorming session. Based on prior history, Council may want to pare down the above list of subjects to a more reasonable size depending on the amount of time they may wish to spend on goal setting, as well as brainstorming.

1. Sewer Agreement - After reviewing the details of the sewer agreement at the September retreat, Council wanted to further discuss its options with regard to MSD not funding the extension of sewer lines for residential and commercial areas inside the City of Asheville for those who currently do not have sewer service, economic development projects, and annexation areas.

2. Review of Current Goals and the Setting of New Goals for the Upcoming Fiscal Year - Council normally does this as a part of the retreat process to give staff guidance for the upcoming budget.

3. Water Agreement - Details of the water contracts were discussed at the September retreat, and Council wanted further discussion of the water agreement at the mid-year retreat.

4. Annexation - This might be an appropriate time to discuss where we are on the annexation study and what steps need to be taken to complete it.

5. User Fees - The Mayor and Council asked for a report on user fees in the City of Asheville and across the state.

6. Stormwater Requirements - The retreat may be a good time to discuss Phase II of the federal stormwater requirement regulations and its impact on the City.

7. Civic Center Financing - A key to transforming our Civic Center to a convention center lies in the financing. This may be an appropriate time for Council to discuss where the Task Force on the Future of the Civic Center is in their current study and financial options.

8. Minimum Housing Code - As you know we are approaching a Minimum Housing Code deadline in July of 1999. This may be a good opportunity to receive a report from Terry Summey.

9. Civil Service Law - Council Members have expressed an interest in discussing the Civil Service Law at the retreat.

10. Bele Chere - Council has expressed an interest in discussing Bele Chere from several viewpoints including alcohol, increasing revenues and the financial results of the most recent Bele Chere. Staff could be ready to report these issues to you at that time.

11. Community Facilitation Training - For some time certain City employees have been receiving training and development in the area of facilitation of public meetings. With our emphasis on Community Oriented Government and many public meetings which occur between staff and various organizations and communities throughout the City, we needed to improve our facilitation skills. This was a strategic alignment with our commitment to Community Oriented Government. We have sent some staff to Western Carolina University for training in dealing with public disputes and conflict. They have also had video training and teleconferences to interact with other municipalities on this type of training. We have also invited a professor from N.C. State University to provide a course and spend time in training and certifying our employees in community facilitation. Some time ago upon apprising Council of this initiative, you requested a review and perhaps a short session for the Council on this matter. The professor from N.C. State University would discuss how to keep meetings from turning sour, how to stay on track in high tension meetings, and how to bring about consensus at the end of the meeting. This would take approximately one hour. If you would like to have this briefing and training as a part of the retreat, staff would be glad to coordinate it for you.

12. Review of the City of Asheville Corporate University/Management 21 Employee Development Program - Over a period of time staff has been examining the organization to determine where gaps exist between where the organization is and where it strategically needs to go. Once that determination was made, we needed to make sure the skills, behaviors, and capabilities of staff were aligned with the organizations goals. This is a large undertaking and it is directed at developing employees to their fullest potential. They are creating training modules and a curricula designed around the gaps we have found to take us into the twenty-first century. Staff would like to brief Council on our concept of the City of Asheville Corporate University; it would take approximately thirty minutes.

13. Reports From Departments - Council Members have indicated they like to hear reports from Department Directors on critical items that are in progress and issues that may arise in the coming year. This does not mean a report from each department, but only those that have topics that are both timely and could benefit Council in terms base knowledge or feedback to departments as a part of their planning and implementation process.

14. Council/Staff Brainstorming Issues - In the previous Council/staff retreat, Council indicated they very much liked to brainstorm solutions about specific issues. If there are issues Council would like to discuss, it would be helpful if they could be identified ahead of time so that staff can provide information or research if needed.

After discussion, (1) the Minimum Housing Code was removed from the retreat topics to be handled under Reports from Departments or at a worksession; (2) Civic Center Financing was removed from the retreat topics; (3) the Review of Current Goals should include the second set of ten goals; (4) Community Facilitation Training was removed from the retreat topics to be handled at a worksession; (5) User Fees to be removed from the retreat topics to be handled at a worksession; (6) Stormwater Regulations to be removed from the retreat topics to be handled under Reports from Departments; (7) Annexation to be removed from the retreat topics to be handled under Reports from Departments; and (8) Water Agreement to be removed from the retreat topics to be reviewed by a Council committee made up of Mayor Sitnick, Councilwoman Field and Councilman Cobb which will hold their first meeting after the retreat.

The following topics were agreed upon to be retreat topics: Sewer Agreement, Review of Current Goals (top ten along with second ten), Civil Service Law, Bele Chere, Review of the City of Asheville Corporate University/Management 21 Employee Development Program; Reports from Departments; Council/Staff Brainstorming Issues; and Economic Development/Job Creation.

REFINANCING CURRENTLY OUTSTANDING GENERAL OBLIGATION BONDS

Finance Director Bill Schaefer said that this is the consideration of resolutions authorizing: (1) application to the Local Government Commission for authorization to issue General Obligation Refunding Bonds and (2) making certain statements of fact concerning the proposed bond issue.

Due to the decrease in prevailing interest rates, it would be beneficial at this time for the City of Asheville to refinance portions of its currently outstanding debt. Specifically, the Finance Department proposes to refund the callable portions of four issues: $2,600,000 of General Obligation Street and Sidewalk Bonds Series 1986; $1,950,000 General Obligation Street and Sidewalk Bonds Series 1990; $8,800,000 General Obligation Water Bonds Series 1992; and $2,425,000 General Obligation Water Bonds Series 1994. Refunding of those issues will require the City to issue General Obligation Refunding Bonds in an amount not to exceed $18,500,000. The sale of the Refunding Bonds is tentatively scheduled by the Local Government Commission (LGC) on January 19, 1999 with closing and funds delivery on February 9, 1999. Based on currently prevailing interest rates, estimated approximate savings from the refunding will be: Gross Savings of $857,000; Net Present Value Savings of $773,000; and Annual Savings throughout the life of the issue of $55,000. Actual savings and specific outstanding bond series to be refunded will be dependent on the rates obtained on the date of sale of the bonds.

The City will require the services of a financial advisor and bond counsel to assist with the preparation of documentation for the Refunding Bonds. The Finance Department proposes the City retain Wachovia Capital Markets, Inc. as financial advisor (Fee of $12,500 plus out-of-pocket expenses not to exceed $750) and Parker, Poe, Adams & Bernstein L.L.P. as bond counsel. Retention of the financial advisor and bond counsel is subject to the approval of the LGC.

The first proposed resolution authorizes and directs the Finance Director to submit an application to the LGC to allow the City of Asheville to issue not to exceed $18,500,000 General Obligation Refunding Bonds and allow the retention of Wachovia Capital Markets, Inc. as financial advisor and Parker, Poe, Adams & Bernstein L.L.P. as bond counsel for the issue.

The second proposed resolution provides "statements of fact concerning proposed bond issue" in regards to: (A) the necessity of the proposed financing; (B) the amount of the bonds proposed; (C) past debt management policies; (D) past budgetary and fiscal management policies; and (E) retirement of debt. These "statements of fact" are required in order for the LGC to make determinations necessary to approve the City's request to issue Refunding Bonds.

City staff recommends City Council adopt both attached resolutions.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

BOARDS & COMMISSIONS

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Eugene Ellison to the Alcoholic Beverage Control Board.

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Bernadette Thompson and Cassandra Ingram to the Asheville-Buncombe Community Relations Council.

At Councilman Tomes' request, at 6:34 p.m., Councilman Cloninger moved to excuse Councilman Tomes from the meeting. This motion was seconded by Councilwoman Field and carried unanimously.

It was the consensus of Council to instruct the City Clerk to arrange interviews with Sherry Wilson, Connie Barnette and Richard Evans for a vacancy on the Americans with Disabilities Act Compliance Committee.

It was the consensus of Council to instruct the City Clerk to arrange interviews with Chris Goodwin, Michael Hootstein, Patricia Grant, Sondra Slosman and Lauren Malinoff for vacancies on the Board of Adjustment. It was also the consensus of Council to instruct the City Clerk to prepare the proper paperwork to reappoint Dennis Hodgson (Regular member) and Joseph Brady (Alternate member) to the Board of Adjustment.

It was the consensus of Council to instruct the City Clerk to arrange interviews with Bill Branyon, Steve Rice, Kim Moore and Leslie Hennessee for vacancies on the Asheville-Buncombe Fair Housing Commission.

It was the consensus of Council to instruct the City Clerk to arrange an interview with Lloyd Williams for a vacancy on the Firemen's Relief Fund.

It was the consensus of Council to instruct the City Clerk to arrange interviews with Thomas House, John Moyer, Jamie Deveney, Barbara Weinkle and Frank Fishburne for vacancies on the Recreation Board;

It was the consensus of Council to instruct the City Clerk to prepare the proper paperwork to appoint Robert Camille to the River District Design Review Committee.

It was the consensus of Council to instruct the City Clerk to arrange interviews with Nick Koon and Robert Potter for a vacancy on the Transit Authority.

REPORTS FROM BOARDS & COMMITTEES

Councilman Cloninger said that the first meeting of the Asheville Film Board went very well.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - November 10, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Vice-Mayor gave the invocation and publicly thanked everyone for their kind words of sympathy on the loss of his father.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING NOVEMBER 11, 1998, AS "VETERANS DAY" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming November 11, 1998, as "Veterans Day" in the City of Asheville and presented it to Ms. Deborah Crowder, representing the 16th District Veterans of Foreign and it's Ladies Auxiliary.

AMENDMENT TO AGENDA

Due to the large group of citizens wishing to address City Council on the issue of the Asheville Motor Speedway, Councilman Tomes moved to amend the agenda to place the future of the Asheville Motor Speedway update at the end of the agenda, at which time the meeting will adjourn and reconvene at the Civic Center in the Banquet Hall. This motion was seconded by Councilwoman Field and carried unanimously.

II. CONSENT:

At the request of Vice-Mayor Hay, Item G. was removed from the Consent Agenda for further discussion.

A. RESOLUTION NO. 98-157 - RESOLUTION AWARDING BID TO VAN LOTT INC. FOR A BULLDOZER FOR THE PUBLIC WORKS DEPARTMENT

Summary: The consideration of a resolution to award the bid for the purchase of a bulldozer to Van Lott Inc. in the amount of $127,502.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were invited to furnish a bulldozer for the Public Works Department, Street Division. Three (3) bids were received as shown as follows:

Van Lott Inc., Asheville, NC	$127,502
NC Equipment Co., Asheville, NC	$133,815
Carolina Tractor & Equipment, Asheville, NC	$140,919

Bids have been reviewed for technical compliance to specifications by the Public Works Department and the Fleet Management Division, and their concurrence received in the following recommendation.

Funds for this purchase are provided for in the budget.

City staff recommends City Council adopt the resolution which awards the bid to the lowest responsible bidder, Van Lott, Inc., Asheville, N. C., in the amount of $127,502 for the purchase of a 1998 'Deere' model 750C bulldozer.

RESOLUTION BOOK NO. 25 - PAGE 28

B. RESOLUTION NO. 98-158 - RESOLUTION AUTHORIZING AN INSTALLMENT PURCHASE CONTRACT NUMBER ONE BETWEEN WACHOVIA LEASING CORPORATION AND THE CITY OF ASHEVILLE TO FINANCE THE ACQUISITION OF A BULLDOZER

Summary: The consideration of resolutions authorizing: (1) the installment financing of a bulldozer and (2) the reimbursement of the City from proceeds of the financing in the event the bulldozer is delivered prior to execution of the installment financing contract.

The Finance Department sought proposals from 30 firms to finance the purchase of a bulldozer for the Public Works Department. The amount to be financed is $127,502, equaling the amount of the lowest bid, over a period of five years. Both fixed-rate and variable-rate proposals were solicited. Proposals were received from 11 firms, "no bid" responses were received from 3 and no response was received from the remaining 16 . The best proposal, 3.74% interest plus $250.00 closing cost, was submitted by Wachovia Leasing Corporation.

The first proposed resolution authorizes the installment purchase contract between the City and Wachovia Leasing Corporation; designates that the obligations will be "qualified tax-exempt obligations" (meaning that the City does not anticipate that we will issue more than $10,000,000 of tax-exempt debt during calendar year 1998 and are therefore "bank qualified") and authorizes the City Manager to execute any and all documents necessary for the financing.

The second proposed resolution allows reimbursement to the City from proceeds of the financing if it becomes necessary for the City to take delivery and pay for the bulldozer prior to execution of the financing contract. (We presently anticipate that the financing will be in place prior to delivery of the bulldozer.)

Staff recommends City Council adopt both resolutions.

RESOLUTION BOOK NO. 25 - PAGE 30

C. RESOLUTION NO. 98-159 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO UNDERTAKE CERTAIN EXPENDITURES WITH RESPECT TO MISCELLANEOUS CAPITAL PROJECTS PRIOR TO THE EXECUTION BY THE CITY OF AN INSTALLMENT PURCHASE CONTRACT FOR SUCH PURPOSES IN AN AMOUNT NOT TO EXCEED $127,502

Summary: See Item B. above.

RESOLUTION BOOK NO. 25 - PAGE 32

D. RESOLUTION NO. 98-160 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY TO CAROLINA POWER & LIGHT COMPANY A BLANKET EASEMENT FOR THE INSTALLATION AND MAINTENANCE OF ELECTRIC FACILITIES NECESSARY TO PROVIDE SERVICE TO THE TWIN SPRINGS SUBDIVISION

Summary: The consideration of a resolution authorizing the Mayor to convey to Carolina Power and Light Company (CP&L) a blanket easement for the installation and maintenance of electric facilities necessary to provide service to Twin Springs Subdivision.

Twin Springs Subdivision is located on Broadview Drive in Oakley. The City is scheduled to subdivide this property into 34 residential lots. The city will construct the infrastructure improvements and Habitat for Humanity will construct the housing units.

In order to install underground electric service to all 34 homes to be constructed in the subdivision, CP&L has requested a blanket easement. The proposed blanket easement will enable the facilities to be placed in "mutually suitable locations." The actual locations will be determined between the owner and CP&L at the time service facilities are installed.

Approval of the resolution will authorize conveyance of the easement to CP&L for the installation and maintenance of electric service facilities.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 34

E. RESOLUTION NO. 98-161 - RESOLUTION AUTHORIZING THE FINANCE DIRECTOR TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF THE CITY'S PROPOSED BOND FINANCING AND TO SUBMIT SUCH APPLICATION TO THE LOCAL GOVERNMENT COMMISSION

Summary: The consideration of resolutions authorizing: (1) application to the Local Government Commission for authorization to issue General Obligation Refunding Bonds and (2) making certain statements of fact concerning the proposed bond issue.

Due to the decrease in prevailing interest rates, it would be beneficial at this time for the City of Asheville to refinance portions of its currently outstanding debt. Specifically, the Finance Department proposes to refund the callable portions of four issues: $2,600,000 of General Obligation Street and Sidewalk Bonds Series 1986; $1,950,000 General Obligation Street and Sidewalk Bonds Series 1990; $8,800,000 General Obligation Water Bonds Series 1992; and $2,425,000 General Obligation Water Bonds Series 1994. Refunding of those issues will require the City to issue General Obligation Refunding Bonds in an amount not to exceed $18,500,000. The sale of the Refunding Bonds is tentatively scheduled by the Local Government Commission (LGC) on January 19, 1999 with closing and funds delivery on February 9, 1999. Based on currently prevailing interest rates, estimated approximate savings from the refunding will be: Gross Savings of $857,000; Net Present Value Savings of $773,000; and Annual Savings throughout the life of the issue of $55,000. Actual savings and specific outstanding bond series to be refunded will be dependent on the rates obtained on the date of sale of the bonds.

The City will require the services of a financial advisor and bond counsel to assist with the preparation of documentation for the Refunding Bonds. The Finance Department proposes the City retain Wachovia Capital Markets, Inc. as financial advisor (Fee of $12,500 plus out-of-pocket expenses not to exceed $750) and Parker, Poe, Adams & Bernstein L.L.P. as bond counsel. Retention of the financial advisor and bond counsel is subject to the approval of the LGC.

The first proposed resolution authorizes and directs the Finance Director to submit an application to the LGC to allow the City of Asheville to issue not to exceed $18,500,000 General Obligation Refunding Bonds and allow the retention of Wachovia Capital Markets, Inc. as financial advisor and Parker, Poe, Adams & Bernstein L.L.P. as bond counsel for the issue.

The second proposed resolution provides "statements of fact concerning proposed bond issue" in regards to: (A) the necessity of the proposed financing; (B) the amount of the bonds proposed; (C) past debt management policies; (D) past budgetary and fiscal management policies; and (E) retirement of debt. These "statements of fact" are required in order for the LGC to make determinations necessary to approve the City's request to issue Refunding Bonds.

City staff recommends City Council adopt both resolutions.

RESOLUTION BOOK NO. 25 - PAGE 35

F. RESOLUTION NO. 98-162 - RESOLUTION MAKING CERTAIN STATEMENTS OF FACT CONCERNING PROPOSED BOND ISSUE

Summary: See Item E. above.

RESOLUTION BOOK NO. 25 - PAGE 36

G. MOTION ACCEPTING THE FINDINGS OF HUNTER INTERESTS INC. REGARDING IT'S PHASE II, A DETAILED MARKET ANALYSIS, ALONG WITH THE SUPPLEMENTAL RECOMMENDATIONS BY THE FUTURE OF THE CIVIC CENTER TASK FORCE; RESOLUTION NO. 98-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NOTIFY HUNTER INTERESTS INC. TO PROCEED WITH PHASE III, THE DEVELOPMENT OF A BUSINESS AND STRATEGIC PLAN; AND ORDINANCE NO. 2522 - BUDGET AMENDMENT, IN THE AMOUNT OF $62,800, TO PROCEED WITH PHASE III OF HUNTER INTERESTS INC.'S PROPOSAL

This item was removed from the Consent Agenda for further discussion.

H. ORDINANCE NO. 2522 - BUDGET AMENDMENT TO APPROPRIATE FUNDING FROM THE SALE OF PROPERTY INTO AN ACCOUNT FOR FUTURE PARK DEVELOPMENT

Summary: The consideration of a budget amendment, in the amount of $20,000, to appropriate funding from the sale of property to the Opportunity Corporation of Madison-Buncombe Counties to construct a new office building for their staff.

City Council approved the sale of approximately 1.3 acres of property behind the Reid Community Center to the Opportunity Corporation of Madison-Buncombe Counties. In exchange for this property, the Opportunity Corporation agreed to pay $20,000 to the City of Asheville for the City Parks and Recreation to use in funding needed parks in this particular area. The action required by City Council in regard to this staff report is to set up an appropriation to accept the money from this sale into the appropriate account.

The Parks and Recreation Department requests City Council approval of the budget amendment to appropriate $20,000 into an account for future park development.

ORDINANCE BOOK NO. 17 - PAGE 167

I. ORDINANCE NO. 2523 - BUDGET AMENDMENT TO AMEND THE WATER CAPITAL PROJECT ORDINANCE (29 FUND)

Summary: The consideration of a budget amendment to provide funding for engineering services for the design of the Brevard Road/Sand Hill Bridge Projects and to reprogram funds for a change order to the Camp Dresser & McKee contract for engineering services for the Mills River Water Treatment Facilities.

The Brevard Road/Sand Hill Bridge Projects are high priority Water Distribution Master Plan projects that will greatly improve water service in the West Asheville/West Buncombe service area. Design of the Sand Hill Bridge Project is complete; however, design of the Brevard Road Project is needed and has been estimated not to exceed $50,000. Adequate funding for these engineering services is available in the Distribution Master Plan Improvements due to the Biltmore Avenue Water Line Project coming in under budget. It is also expected that there will be enough contingency remaining from the Mills River Project to fund the construction of these projects. The Mills River Project is expected to be substantially complete in the Spring of 1999; and if there is adequate contingency remaining, staff will request approval to fund construction of the Brevard/Sand Hill Bridge Projects at that time.

There is currently adequate funding in the Mills River Project Contingency to fund a change order to the Camp Dresser & McKee contract for engineering services related the Mills River Project. This increase in fees is due to an extension of the scheduled completion date of the Mills River Water Treatment Plant. The projected final completion date has been extended by the contractors from January 6, 1999, to approximately July 1, 1999, and could result in increased engineering fees of up to $199,800. This includes assistance provided by Camp Dresser & McKee in preparing the funding application for the pesticide mixing stations on the Mills River Watershed.

Staff recommends adoption of the budget amendment to reprogram funds in the amount of $50,000 from the Water Distribution Master Plan Downtown Project (Biltmore Avenue) to the Brevard Road/Sand Hill Road Bridge Project and to reprogram funds in the amount of $199,800 from Mills River Contingency to Mills River Engineering Services.

ORDINANCE BOOK NO. 17 - PAGE 169

J. ORDINANCE NO. 2524 - BUDGET AMENDMENT TO AMEND THE WATER CAPITAL PROJECT ORDINANCE (35 FUND)

Summary: The consideration of a budget amendment to the Water Major Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to reflect the first payment to the N.C. Dept. of Transportation ("NC DOT") for the relocation of water lines on US 70/74 Tunnel Road/Haw Creek, the pesticide mixing stations, and the first project of the Fiscal Year 1998-99 Distribution System Improvements.

Funds in the amount of $597,920 were approved to be transferred from the Operating Budget (30 Fund) to the Water Major Capital Improvements Fund (35 Fund) to fund capital improvements projects.

The following are three projects that the Regional Water Authority has previously committed to fund with Fiscal Year 1998-99 Contribution to Capital:

- Payment #1 of the US 70/74 Tunnel Road/Haw Creek NC DOT project in the amount of $89,962;
- Relocation of the pesticide mixing stations on the Mills River Watershed in the amount of $33,000; and
- The Affordable Housing 50% fee waiver in the amount of $87,000.

A Quality Improvement Task Team called the Critical Needs Assessment Team has been formed to identify and prioritize critical water distribution system needs. The team has identified three projects thus far to be prioritized along with other projects. These projects are as follows:

- Lee Street/Prospect Street Water Main Replacement ($33,000) which is needed in order to provide adequate service to existing and future customers;
- Monroe Street Water Main Replacement ($25,000) which is needed in order to provide adequate service to existing and future customers; and
- Mine Hole Gap and Young's Cove Reservoir Improvements Project ($40,000) which includes resurfacing these water distribution system reservoirs in order to protect water quality.

An update of the Critical Needs Assessment Team and a list of other potential projects will be presented in November.

On October 20, 1998, the Regional Water Authority adopted a resolution to fund water line replacements in Prospect Street and Monroe Street. Other priorities will be recommended after completion of the Task Team's work. Since the Authority has committed to funding the pesticide mixing stations and the first payment to the NC DOT for the relocation of water lines on US 70/74 Tunnel Road/Haw Creek, it is recommended that this budget amendment reflect appropriations for these projects as well.

Staff recommends adoption of the budget amendment which will reflect the addition of a portion of Contribution From Other Funds - Fiscal Year 1998-99 in the amount of $180,962, to fund the following projects in the 35 Fund: Relocation of Pesticide Mixing Stations ($33,000), Lee Street/Prospect Street Water Main Replacement ($33,000), Monroe Street Water Main Replacement ($25,000), and the first payment of the NC DOT US 70/74 Tunnel Road/Haw Creek water line relocation project ($89,962).

ORDINANCE BOOK NO. 17 - PAGE 171

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

MOTION ACCEPTING THE FINDINGS OF HUNTER INTERESTS INC. REGARDING IT'S PHASE II, A DETAILED MARKET ANALYSIS, ALONG WITH THE SUPPLEMENTAL RECOMMENDATIONS BY THE FUTURE OF THE CIVIC CENTER TASK FORCE; RESOLUTION NO. 98-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NOTIFY HUNTER INTERESTS INC. TO PROCEED WITH PHASE III, THE DEVELOPMENT OF A BUSINESS AND STRATEGIC PLAN; AND ORDINANCE NO. 2525 - BUDGET AMENDMENT, IN THE AMOUNT OF $62,800, TO PROCEED WITH PHASE III OF HUNTER INTERESTS INC.'S PROPOSAL

Vice-Mayor Hay, Chair of the Task Force on the Future of the Civic Center, said that the Task Force would like to review the contract directly with Hunter Interests Inc. in that there are some issues that the Task Force would like to discuss with them, in particular the local architect issue raised by Councilwoman Field on November 4, 1998. The Task Force will be meeting next week to review the proposal and he does not expect any substantive changes, but wanted to let Council know they have not reviewed the proposal as a group and that they wanted to do that.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and ordinance and they would not be read.

Vice-Mayor Hay moved to adopt Resolution No. 98-163 and Ordinance No. 2525. This motion was seconded by Councilwoman Field and carried unanimously.

Vice-Mayor Hay said that the Citizen-Times ran an article last week that basically said there was a proposal by the City to fund the Civic Center with an increase in room tax. He said that report was inaccurate. He said that they are at the stage now where they need to start looking at funding options, and that is one funding option that they will be looking at. However, at this time, there has not been any proposals on funding decided.

ORDINANCE BOOK NO. 17 - PAGE 173

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING 980 HENDERSONVILLE ROAD FROM HIGHWAY BUSINESS DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT AND 45 SEMINOLE ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE BUSINESS DISTRICT

ORDINANCE NO. 2526 - ORDINANCE TO REZONE 980 HENDERSONVILLE ROAD FROM HIGHWAY BUSINESS DISTRICT AND RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT AND 45 SEMINOLE ROAD FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO OFFICE BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 5:15 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to rezone 980 Hendersonville Road from Highway Business and RS-4 Residential Single-Family Medium Density District to Office Business District and 45 Seminole Road from RM-8 Residential Multi-Family Density District to Office Business District.

The owner and applicant, Biltmore Baptist Church, has requested the rezoning of two lots on Hendersonville Road and one adjoining lot on Seminole Street (PIN Nos. 9646-08-99-8970, 9656-05-09-0747, and 9657-17-00-0113) totaling 5.72 acres from Highway Business District, RS-4 Residential Single-Family Medium Density District and RM-8 Residential Multi-Family Medium Density District to Office Business District.

The Church wishes to sell the property. The current main building, approximately 43,000 square feet, occupies that portion of the property that is currently zoned Highway Business. The parking for this building occupies that area of the property currently zoned RS-4. There is not sufficient room for parking for the existing building on the section currently zoned Highway Business. The use of RS-4 for parking after a change of use would not be allowed. Thus, the Church would like to zone the entire property as one zoning classification.

The parsonage is currently zoned RM-8. It is 0.51 acre in size and has a house and associated out buildings on it. The property fronts on Seminole Street, and is surrounded by office uses.

The Planning staff reviewed the rezoning request and recommended approval of the rezoning provided, however, that the new Office Business zoning should terminate twenty feet inside of the eastern property line of the area now zoned RS-4. This will preclude entry to the property from Imperial Court, thus preventing traffic from accessing the property through a Residential district. At their October 7, 1998, Planning & Zoning Commission meeting, the Commissioners voted seven to zero to recommend approval of the rezoning of two lots on Hendersonville Road and one adjoining lot on Seminole Street to Office Business District.

Upon inquiry of Councilwoman Field, Mr. Black said that even though Planning staff generally does not like to split zone a piece of property, in this case, they feel it is warranted in order to restrict traffic from entering the property from Imperial Court.

Mr. Richard Moore, member of Biltmore Baptist Church, spoke in support of the proposed rezoning.

Mayor Sitnick closed the public hearing at 5:23 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2526, retaining a 20 foot portion of property on the eastern property line to remain zoned RS-4. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17- PAGE 175

B. PUBLIC HEARING RELATIVE TO A CONDITIONAL USE APPLICATION TO LOCATE A TELECOMMUNICATIONS TOWER AT 754 MERRIMON AVENUE

Mayor Sitnick said that this public hearing was continued from the October 27, 1998, date due to an error in notice of the public hearing (a "Z" sign was not posted at the site). She said that this is a public hearing for Council to consider whether the requested conditional use application to locate a telecommunications tower at 754 Merrimon Avenue should be issued. There being no preliminary matters to be considered, she opened the public hearing at 5:24 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing. She then administered the oath to anyone who anticipated speaking on this matter.

Mayor Sitnick reviewed the procedures for this hearing by stating that City Council will first hear from staff who will describe the proposal and provide some background information. Then the applicant may make a presentation and then comments from the public will be taken. She said that there will be an opportunity for questions and rebuttal comments, as necessary. Following the hearing, Council will then debate the proposal and will take action on the request. Hearing no questions about the procedure, she asked for staff's presentation.

Mr. Mike Matteson, Urban Planner, said that SBA Incorporated is requesting a conditional use permit to construct a telecommunications tower for Bell South Mobility DCS at 754 Merrimon Avenue.

This staff report includes information with respect to the proposed telecommunications tower's ability to meet both the general and specific conditions as required by Section 7-16-2 of the Unified Development Ordinance.

The property is located at the corner of Merrimon Avenue and Sandon Drive. The proposal is to construct a 175 foot galvanized steel monopole tower outfitted with a triangular work platform at the top of the tower. In addition, a set of three steel equipment cabinets are proposed to be mounted to a concrete pad located adjacent to the base of the monopole.

Bell South Mobility will lease a portion of the property and the existing dentist office will remain on the site.

The property is zoned Community Business II. Telecommunications towers are conditional uses within the Community Business II zoning district. Conditional uses are uses which, because of their unique characteristics or potential impacts on the surrounding neighborhood and/or the city as a whole, require individual consideration of their location, design, configuration, and/or operation at the particular location proposed.

In addition to development standards for the zoning district in which they are located, conditional uses must meet certain general and individualized conditions in order to ensure that the use is appropriate at a particular location and to ensure protection of the public health, safety, and welfare.

The general conditions, which apply to all conditional uses, can be found in Section 7-16-2 (c) of the Unified Development Ordinance and are as follows:

(1) That the proposed use or development of the land will not materially endanger the public health or safety;

City Council may want to consider such things as the structural integrity of the tower, security, etc. but cannot consider radio frequency emissions (provided that FCC regulations have been met and they do have FCC approval).

(2) That the proposed use is reasonably necessary for the public health or general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region;

(3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;

The applicant has provided the City with studies regarding the effect of telecommunications towers on property values, including a recent study in Asheville illustrating the change in values for properties *in the vicinity* of telecommunications towers. One study recently done for the Asheville area focused on two areas: the Richmond Hill area and the Oakley community. It analyzed sales data for properties located within the vicinity of towers in those area. Most of the properties used in the study were not adjoining or abutting the tower property, but merely in the vicinity of the tower. There is one property in the Richmond Hill area that is adjoining and abutting the tower location - 216 Richmond Hill Drive. That location is 200 feet from the existing tower and there is a mature tall row of evergreen trees between the property and the tower which is a pretty effective visual buffer.

(4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located;

Telecommunications towers are listed as conditional uses within the Commercial Business II zoning district. The Unified Development Ordinance allows towers with a height of up to 200 feet. The Commercial Business II zoning district limits the height of structures (other than telecommunications towers) to 40 feet. A "windshield survey" indicates that the majority of structures along the street do not exceed 40 feet. There is a residence directly adjacent to the proposed tower site. The residential property, however, is not zoned residential.

(5) That the proposed use or development of the land will generally conform with the comprehensive plan and other official plans adopted by the city;

The City's comprehensive plan, the Asheville City Plan 2010, was adopted in 1987. Telecommunications towers were not a major issue facing communities at that time. Therefore, the plan does not specifically address these facilities.

(6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and

(7) That the proposed use will not cause undue traffic congestion or create a traffic hazard.

The following individualized conditions, which can be found in Section 7-16-2(d)(3) of the Unified Development Ordinance, apply specifically to telecommunications towers:

a) **Use districts: Office/Business, Community Business II, Resort, Institutional, Highway Business, Regional Business, Commercial Industrial, River, Industrial**

The property is zoned Community Business II.

b) **No telecommunications tower or antenna shall interfere with usual and customary radio and television reception excepting broadcast facilities as provided for in the regulations of the Federal Communications Commission (FCC).**

The applicant has provided the City with a statement indicating that this condition will be met.

c) **All telecommunications towers must comply with FCC and Federal Aviation Administration (FAA) guidelines. The telecommunications tower owner shall provide the City each year with a copy of any FCC and FAA licenses required.**

The applicant has provided the City with a statement indicating that this condition will be met.

d) **Unless otherwise specified herein, telecommunications towers shall be restricted to the minimum standards of lighting required by the FAA. Telecommunications towers that do not require FAA compliant lighting shall be equipped with at least one steady-burning red obstruction lamp meeting FAA specification L-810 in order to alert helicopters that approach and depart at low altitudes to the presence of such towers. All telecommunications towers that require flashing lights by the FAA shall utilize a dual lighting system consisting of a white strobe light for daytime lighting and a red flashing light for nighttime lighting.**

The applicant has provided the City with a statement indicating that this condition will be met.

e) **Minimum setbacks for telecommunications towers shall be in accordance with the setback requirements set forth in the development standards for the zoning district in which the location of the tower is proposed, provided that the buffering requirements set forth in subsection 7-16-2.D.3.f., below, may be met. Additionally, telecommunications towers must set back from any residentially zoned properties a distance equivalent to the height of the tower being erected or 125 feet, whichever is greater.**

The site plan submitted by the applicant shows that this condition has been met. The proposed tower height is 175 feet. Because this is a monopole tower, the setback distance from residentially zoned property is half the height of the tower, or 87.5 feet. The proposed tower location is not within 87.5 feet of any residentially zoned property.

f) **Telecommunications towers shall be buffered from adjacent properties with a buffer meeting the requirements of a "B" buffer as described in Sec. 7-11-2.D.15., regardless of adjacent zoning district classifications or uses.**

The landscape plan does indicate a "B" buffer between the proposed tower and adjacent properties with the exception of along the west property line which has a severe slope that would pretty much preclude a buffer being constructed. In this location, alternative compliance from the buffering standards was approved by the Technical Review Committee due to limitations related to the topography of the site. The landscape plan indicates that part of the buffer will be located outside of the leased area.

g) **No telecommunications towers shall be located on top of buildings.**

The proposed tower will not be located on top of a building.

h) **No telecommunications towers or antennas shall be constructed in local historic districts or on the property on which a local historic landmark is located. Telecommunications towers shall not be constructed within 1000 feet of any local historic district.**

The proposed location for the telecommunications tower is not within a local historic district or on a property on which a local historic landmark is located. The proposed location is not within 1000 feet of any local historic district.

i) **No telecommunications towers shall be located within one-half mile of the Blue Ridge Parkway roadway unless the tower shall not be visible and/or discernible to the Parkway visitor as a telecommunications tower, from the Parkway roadway. The burden of demonstrating that a tower is not visible or discernible from the Parkway roadway shall be on the applicant. "Visible" shall mean capable of being seen by the unaided eye in daylight. "Discernible" shall mean capable of being distinguished with the eye or mind from its surroundings as a telecommunications tower.**

The proposed location for the telecommunications tower is not within one-half mile of the Blue Ridge Parkway roadway.

j) **No telecommunications towers shall be erected in areas determined by the Asheville City Council to be "viewsheds of superior quality" taking into consideration the definitions by the United States Department of Interior, Blue Ridge Parkway Office. A map indicating the location of the "viewsheds of superior quality" which has been reviewed and adopted by the Asheville City Council shall be kept on file in the Planning and Development Department of the City of Asheville.**

The proposed location for the telecommunications tower is not in an area determined by the Asheville City Council to be "viewsheds of superior quality."

k) **Telecommunications towers shall not be constructed unless the company erecting the tower has general liability coverage of at least $1,000,000. The owner of a telecommunications tower shall provide the City with a certificate of insurance showing evidence of its coverage and the certificate shall contain a requirement that the insurance company notify the City thirty (30) days prior to the cancellation, modification or failure to renew the insurance coverage required.**

The applicant has provided the City with a certificate of insurance showing evidence of coverage.

l) **Telecommunications towers shall have a flat gray or galvanized finish.**

The applicant has provided the City with a statement indicating that this condition will be met.

m) **Telecommunications towers over 125 feet in height shall be constructed to provide for at least one additional user. Broadcast AM towers are exempt from this requirement.**

The applicant has provided the City with a statement indicating that this condition will be met.

n) **No two telecommunications towers shall be constructed within 1320 feet of each other unless documentation is provided to the Department of Planning and Development to show that co-location on towers within the 1320 feet is not technically feasible. Broadcast AM towers are exempt from this requirement.**

There does not appear to be another telecommunications tower within 1320 feet of the proposed tower location. The closest tower appears to be the one at the Grace Plaza Shopping Center.

o) **No telecommunications tower shall be constructed without first looking at other possibilities within 1320 feet for location of an antenna on structures other than a tower. Such structures include billboards, church steeples, etc.**

The applicant has indicated that there are no existing structures within 1320 feet of the proposed location of sufficient height to satisfy their coverage objectives. It may be possible, however, for them to utilize "stealth" technology by building a new structure in the vicinity on which to locate an antenna.

p) **Monopole-type telecommunications towers are encouraged and shall receive a reduction in setback distances of up to 50% of the setback requirement stated in item 4. above.**

A monopole-type telecommunications tower is proposed for the site.

q) **The base of the telecommunications tower along with any individual guy wires shall be enclosed by a fence a minimum of 8 feet in height.**

The proposed facility will be enclosed by an eight foot fence.

r) **No telecommunications tower shall be permitted which exceeds 200 feet in height.**

The proposed telecommunications tower would be 175 feet in height.

s) **The City Council may require any other conditions found necessary to ameliorate the impact of the tower on the adjacent properties and uses. Such conditions shall include, but are not limited to: the height of the tower; the construction or type of tower; and co-location of the antennas and facilities of different parties on a single tower.**

The applicant is aware that City Council may require additional conditions. If City Council is inclined to approve the conditional use permit, they may want to consider establishing the following additional conditions:

- That the proposed work platform not be permitted (please note that the draft of the proposed new Wireless Telecommunication Facilities Ordinance prohibits such platforms). Staff understands that these platforms are used very infrequently and the use of a crane could satisfy their maintenance objectives;
- That the tower not be lighted, except for to meet the minimum requirements of the FAA and the City; and

- That the height of the tower be limited to 150 feet. Staff feels that based on the maps supplied by the applicant, there is no significant gain in a 175 foot tower that could not be accomplished with a 150 foot tower.
- That the lessor be required to provide the buffering outside of the leased area.

t) **Telecommunications towers which have remained inactive for a period of 180 days or longer shall be removed by the owner of the tower. In the event that the City determines that a tower has not been removed pursuant to this requirement, the City may provide the owner of the tower with a written notice sent by certified mail, return receipt requested, or by hand delivery or by any other method allowed under the North Carolina Rules of Civil Procedure for service, that the tower should be removed within 90 days of receipt of that notice.**

The applicant is aware of this condition.

u) **The above regulations shall not be deemed to prohibit the installation of an antenna on any existing tower, whether conforming or nonconforming, so long as the addition of said antenna adds no more than ten feet to any nonconforming dimension of the existing tower.**

Mr. Matteson said that he has received 42 calls from people in the area expressing opposition to this request.

Mayor Sitnick questioned the studies the applicant provided indicating that indicating that telecommunications towers have little or no effect on residential property values. Mr. Matteson said that the initial study that they supplied the City with was a study out of the Pacific Northwest and it was a number of years old. Therefore, the City asked them to provide a study of the Asheville area. That study was prepared the Asheville study was prepared by Jay Marlow, Marlow Real Estate Appraisal Services located here in Asheville. Their study does suggest that the existing towers at Richmond Hill and in Oakley did not significantly affect property values for the residential properties that they had sales data for. One ordinance condition is that the proposed use will not injure the value of abutting or adjoining properties. With one exception, the properties for which they had sales data for were not abutting or adjoining the tower, but rather were merely in the vicinity of the tower.

Upon inquiry of Councilman Cobb, Mr. Matteson said the tower in Oakley is 225 feet, the tower in the Richmond Hill area is 150 feet and the tower at Grace Plaza Shopping Center is 100 feet.

Ms. Katherine Wilkerson, attorney representing SBA Inc. and BellSouth Mobility DCS, introduced Mr. Stephen Lewotsky, Zoning Coordinator for SBA Inc.

Mr. Lewotsky briefly reviewed his credentials and talked about the telecommunications in general, noting that approximately 24,000 people in Asheville use wireless telecommunications. He then went over the specific site details that BellSouth used to find this site which began over two years ago and involved looking at 15 different sites. He said that this Merrimon Avenue site meets their criteria and also satisfied Asheville's Code. He submitted 15 letters (Applicant Exhibit A) into the record which letters note that there is a gap of service in this area. He said that there are no tall structures in the area that would provide them an opportunity to put a concealed site on the ground. According to Asheville's Code, they provided a monopole, asked for the tower to be 175 feet (not 200 feet allowed), and added additional landscaping. He said that their site design meets the health, safety and welfare of the community. He explained that it provides an essential service to the community and the region, it does not adversely affect property values, it is compatible with the character of the area, and it facilitates the use of the surrounding zones. The site will not interfere with the operation of the basic electronics, i.e., television, radio, microwaves, etc. The site satisfies all the set-back requirements. He said they spent a great deal of effort working with the community and the City to develop this site. They arranged a meeting with three neighborhood organizations at the request of the Planning & Development Department. Actually they postponed the meeting 30 days to allow everyone in those organizations to be notified. At the meeting, they listened to the community's comments and actually incorporated some of their ideas into their design. He submitted 2 photo simulations (Applicant Exhibit B) of the telecommunications tower at 754 Merrimon Avenue. Their real estate study indicates that cellular telecommunications towers do not affect property values in the Asheville area. They feel they have done everything the City has asked to minimize the visual impact of this tower, by placing it in a commercial zone, meeting with the neighbors, using the smallest antenna possible, and studying the effects of wireless on property values. In every instance they have met the requirements of the City in their efforts to provide for the needs of the community. They feel that this is the best site they can find in this area. The site satisfies the regulatory requirements of the Unified Development Ordinance, it presents substantial opportunities for co-location which will reduce the overall number of sites that will be needed by providers coming into the area in the future, and it will affect the smallest number of property owners possible. He then submitted for the record a copy of their original application (Applicant Exhibit C) , responses to conditions of approval of the Technical Review Committee (Applicant Exhibit D), letter from the Planning & Development Department stating that the information they provided sufficiently addressed the Technical Review Committee's conditions (Applicant Exhibit E), letter to adjacent property owner offering to provide additional landscaping (Applicant Exhibit F), and a copy of their real estate report (Applicant Exhibit G). By use of a map, he said that given the way the zones are laid out in Asheville and given the zones the towers are allowed in, in order to get a site in this area, they had no choice but to go next to residential zones. He urged City Council to approve their conditional use application to construct a 175 foot telecommunications tower for Bell South Mobility DCS at 754 Merrimon Avenue.

Upon inquiry of Vice-Mayor Hay, Mr. Lewotsky explained the advantages of digital vs. cellular.

Mr. Lewotsky responded to a question from Councilman Cobb regarding the coverage area and how the topography of the area, trees and buildings made it difficult to find an suitable location. He said that putting a wireless site downtown is not going to bring the signal far enough onto Merrimon Avenue, because not only are they trying to serve the Merrimon Avenue area, they are trying to hand off to sites north of Merrimon Avenue. He said that for this site, their primary provider is BellSouth, however, the tower is being built to allow other providers to go on it as well.

At the request of Ms. Wilkerson, Mr. Lewotsky swore that all the information in the application which he submitted into evidence and the other documents that he has actual knowledge of, with the exception of the letter from the Planning & Development Department, is true.

Mr. Howard Petree, BellSouth Mobility DCS Radio Frequency Engineer, reviewed his credentials with City Council. By use of a map, he explained the objective of the site was to provide coverage to a coverage hole on Merrimon Avenue, north of Asheville and south of the Beaver Lake area. He said they already have a site located on the BB&T Building in downtown and it does not provide the coverage that they need to connect to the north on Merrimon Avenue. He then explained that they are requesting a 175 foot tower instead of a 150 foot tower in order to minimize the coverage hole on Merrimon Avenue. He then addressed the antenna configuration they chose which would allow them to use one antenna per sector and minimize the aesthetic effect on the community.

When Mayor Sitnick asked if they looked at co-locating on the tower at the Grace Plaza Shopping Center, Mr. Petree said that the maximum height they could go on that tower was approximately 65 feet and that doesn't even reach over the hill.

Councilwoman Field asked if two antennas located lower on possibly a church steeple work better because there is still a pretty big coverage hole? Mr. Petree said that it is financially not feasible to do that. He said that they try to minimize the number of sites they put in an area.

Mr. Jay Marlow, Marlow Real Estate Appraisal Services, reviewed his credentials and briefed City Council on the Property Value Impact Study he prepared on the impact of communication towers on residential home prices. He said he analyzed two neighborhoods where there were existing communication towers: (1) Richmond Hills which has an existing tower that has been there for approximately two years; and (2) Oakley which has a tower which was more recently built. He analyzed sales within each neighborhood which were located in close proximity to the communication towers as compared to homes located in the same neighborhoods which were located further away. His analysis revealed that there was no difference in sales price, marketing time, price per square foot or rate of depreciation between homes which were located in close proximity to the tower and homes in the same development which were located further away. He also analyzed sales from within each of these neighborhoods that have communication towers compared to the larger Asheville market. Once again, he found that in both neighborhoods that have already existing communication towers, there was no difference in sales price, marketing time, price per square foot of residence or depreciation rates in these neighborhoods compared to the greater Asheville real estate market. He said that if Council recognizes the importance of digital communications in the area, then they must accept the need for communication towers in areas which would benefit from these serves. It then becomes a matter of not if, but where, to locate the towers. The proposed site is already in a commercial district located behind an operating commercial business. Behind the site is a high embankment which shields all but two residences from having a direct view of the tower's base. The two residences are also zoned Commercial Business II. This site, due it it's already existing commercial zoning and the commercial nature of the surrounding properties will have no effect on residential property values in the greater neighborhood.

When Vice-Mayor Hay asked if Mr. Marlow looked at the impact of property values regarding the tower at Grace Plaza Shopping Center, Mr. Marlow explained that he did try to analyze that site, however, because the tower is too new, there is not adequate sales data within which to make a comparison.

Mr. Marlow explained how close the houses were that he looked at to the tower and why he chose those particular ones.

Ms. Wilkerson requested City Council's approval of the conditional use application to construct a telecommunications tower for Bell South Mobility DCS at 754 Merrimon Avenue. She said they would be happy to consider the conditions suggested by the Planning staff, however, they would request approval at 175 feet.

The following individuals spoke against City Council approving the conditional use application for several reasons, some being, but not limited to, approval of the application would perpetuate a travesty on the Gracelyn Road and surrounding neighborhoods; the best possible site is no site at all; the tower will ruin viewscape and landscape; mistrust between neighborhood groups and developers; the neighborhood is trying to keep out commercial encroachments that are inappropriate for the area; every time there has been an attempt to encroach into the neighborhoods, the perpetuators have tried to cast residents who suffer from and oppose proposals as anti-business, anti-development, anti-progress, anti-religious, or simply out of touch with the needs of the community; turning a quick profit seems to be the sole objective who want to infringe upon residential neighborhoods; the people who are going to use this service should pay the true economic cost instead of asking the surrounding neighborhoods to provide an indirect subsidy for the convenience of a few; the proposed tower is 75% taller than the tower at Grace Plaza Shopping Center; the neighborhood will see more than just the base of the tower; at the meeting with Mr. Lewotsky, none of the possible locations were adequately addressed and some residents felt that they were not taken seriously; suggestion to use the tower on top of Reynolds Mountain; digital will not be adequate in the future because we will probably go to satellite communications; when the satellite technology is here, who will pay to take down the cellular towers; City Council should pass a strong telecommunications tower ordinance which will protect the community from further encroachments of this nature; the tower will spoil the terrain, vision and property values; denial of the application should be based on Items 2, 3, 4 and (f) and (j); the tower is not necessary, it will infringe upon the surrounding neighborhood and the people who travel on Merrimon Avenue; tower should be built somewhere less visible; new global telecommunications system will allow subscribers to receive wireless digital telephone service virtually anywhere on the planet; there are unresolved questions about the safety of exposure to microwave radiation emitted by these towers; towers add to the generic urban sprawl spreading over the City; alternate sites should be considered; consider sites on public properties and permitting co-location on those properties; a possible location might be in the vicinity of the North Asheville Community Center; Merrimon Avenue is desperately in need of a comprehensive vision of development that will serve the businesses, residents and traveling public; a pocket park was just purchased by the neighborhoods and presented to the City which gives the indication that neighborhoods do not want commercial encroachment; why is stealth technology not being used; and, some homes in the area will have the light shining into rooms:

Mike Lewis, 48 Gracelyn Road
Dennis Hodgson, 107 Evelyn Place
Sidney Feldman, 1 Sandon Circle
A resident from 19 Melrose Avenue
Doug Saylor, 9 Mt. Vernon Circle
Robert Prentice, 403 Secluded Forest Drive (submitted Audience Exhibit A)
Ben Jones, 400 North Griffing Boulevard
David Thundershell Queen
Keith Thompson, 1 Bridle Path Road
Alan Wagner, 15 Larchmont
David Whitley, 210 Edgewood Road
Kay Coxe Andrews, 8 Sandon Circle

Upon inquiry of Councilman Cloninger regarding submission of documents into the record, City Attorney Oast said that since we are in a quasi-judicial context, unless the authors of the letters submitted are here to swear to their truth, that they would have to be considered potentially hearsay, although they can be admitted into the record for whatever they're worth. He said that the applicant has submitted a number of documents into the record and the staff report is part of the record as well (City Exhibit A).

When Councilman Cloninger asked if it would be too late to supplement the record with the letters in opposition to this, since he did not have them with him at this meeting, City Attorney Oast that felt that the record could be held open to allow for submission of that information, however, the applicant should be given an opportunity to respond to it.

Given the opinion of the City Attorney, Councilman Cloninger submitted a letter from Paul M. Rosa (City Exhibit B) into the record.

When Mayor Sitnick asked if telephone calls are able to be submitted into the record, City Attorney Oast said that Council needs to base its decision on matters that are in the record and although the letters are in the record, he stressed that Council should be aware that they are considered hearsay and Council needs to be aware that that potential problem exists. Regarding the telephone calls, there isn't even a document to support it.

At the request of Mayor Sitnick, City Attorney Oast said that he recommended City Council to vote yes or no regarding the issuance of a conditional use permit, and then direct staff to prepare findings and conclusions and bring them back to City Council for a second vote. He said staff will prepare the findings and conclusions based on the comments of City Council and bring them back to Council at their next formal meeting on November 24, 1998.

Mayor Sitnick closed the public hearing at 7:24 p.m.

Councilman Cloninger moved to deny the conditional use application to locate a telecommunications tower at 754 Merrimon Avenue and to instruct staff to prepare findings of fact and conclusions consistent with that decision and bring them back to Council at their next formal meeting on November 24, 1998. This motion was seconded by Councilman Sellers.

Vice-Mayor Hay said that Item 4 is sufficient for him to vote against the application and it should appear in the findings. He was not convinced that providing digital service to north Asheville rises to the level of Item 2. He felt that if you talked to the people in north Asheville who are really going to be the ones affected by this on both sides, they will say that they want digital service, but when you tell them there is going to be a 175 foot tower to give them that digital service, they would say they don't want that service that bad.

Councilwoman Field said that she does understand the need for people to be able to have the opportunity to use cell phones. She understands that our cable franchisee will be providing digital service at a low cost as well. She said that she is Chair of the Governor's Regional Civic Connectivity Commission and there is an ordinance being supported by the N.C. League of Municipalities to provide for the public location of cell towers in the community. The bottom line for her was when the engineer showed Council his maps that indicated the proposed location did not solve the problem of filling the hole in the service on Merrimon Avenue. Therefore, Item 2 does not completely provide an essential service to the community or to the region. She still believes that the hole can be filled in a way that does not affect the neighborhood in this kind of way. She stressed that City Council needs to be fair to treat one segment of the community the same as other segments of the community. She would vote against the application because she didn't believe that the proposed tower solves the problem of the hole and does not meet Item 2. She did not believe that any cell tower can be in harmony with the scale, bulk, coverage, density and character of any neighborhood in Asheville and that is something that Council needs to look at very carefully.

Councilman Cobb felt that the application should be denied based on Items 2, 3 and 4. He felt that the service is needed out there but they should find a way to provide it, without the construction of a 175 foot tower. He felt that two smaller towers might accomplish that need and they would not be as obtrusive to the neighborhoods.

Councilman Tomes felt that even though the applicant has met the requirements of the Unified Development Ordinance, the 175 foot tower will not adequately bridge the large service gap, so he would have to vote to deny the application.

Councilman Cloninger said that among the concerns he has is that the 175 foot tower will create visual blight, when you look at the height of the proposed tower relative to the surrounding buildings that are no higher than 40 feet. He was concerned about the blight that would be created as a result of the height of the proposed tower relative to the surrounding landscape. He was not convinced that Bell South has adequately looked at other less conspicuous locations in that area, nor have they looked at potential stealth technologies. He also was not convinced that the value of the adjoining or abutting property would not be adversely impacted by the tower.

Councilman Sellers felt that the application should be denied based on Item 4, along with Items 2 and 3. He agreed with most of the statements already stated by Council.

Mayor Sitnick said that Items 2, 3 and 4 have not been satisfied. She believed that Item 3 has been misleading because she considers the studies that have been done to be non-studies, in that a couple of instances cited can in no way be construed as study. She said the most hopeful comment was that satellites will eventually make cell towers obsolete. She questioned the difference between the terms "adjoin" and "abut." She also felt that the comment made about the adjoining or abutting property having a rental house on it was an elitist comment. She said that this Council looks at the total community and doesn't make their decisions based on neighborhoods.

City Attorney Oast reminded Council to base their vote on the testimony and evidence that has been presented at this hearing. He said that one man provided some information about potential danger from radio emissions. City Attorney Oast suggested to Council that without more evidence on that, that issue should not be the basis for their decision because the evidence that Council does has suggests that they do meet the FCC standards and the law specifically prohibits denial based on that reason.

The motion made by Councilman Cloninger and seconded by Councilman Sellers to deny the conditional use permit carried unanimously.

At 7:40 p.m., Mayor Sitnick announced a short break.

C. PUBLIC HEARING RELATIVE TO REZONING 910 SWANNANOA RIVER ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 8:03 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Carl Ownbey, Urban Planner, said that this is the consideration of an ordinance to rezone 910 Swannanoa River Road from RM-16 Residential Multi-Family High Density District to Neighborhood Business District.

The owners, Wade and Sandra Hall, have requested the rezoning of 910 Swannanoa River Road (PIN No. 9668.09-15-0297) from RM-16 Residential Multi-Family High Density District to Neighborhood Business District.

The Neighborhood Business District was established to indicate areas for low density commercial uses that are compatible with and accessible to pedestrians from the surrounding neighborhood. This area of Swannanoa River Road is adjacent to a relatively large residential complex that is isolated from the area. This development potential will allow pedestrian access from the residential community and comply with the definition of the NB zoning district. However, due to the small size of the lot (.80 acre), the City Attorney's office has pointed out that this request could be determined to be "illegal spot zoning" which can only be determined in court.

The Planning staff reviewed the rezoning request and recommended approval. At their October 7, 1998, Planning & Zoning Commission meeting, the Commissioners voted unanimously to recommend approval of the rezoning of 910 Swannanoa River Road from RM-16 Residential Multi-Family High Density District to Neighborhood Business District. Mr. Ownbey noted that the neighborhood did attend the Planning & Zoning Commission meeting, however, an item prior to this matter lasted over 2-1/2 hours and the neighborhood left prior to the hearing.

Mr. Ownbey said that on November 5, 1998, a valid protest petition was filed.

Upon inquiry of Councilman Cobb about proper notification to surrounding property owners, Mr. Ownbey said that everyone within 400 feet that was on their database was notified. He said that the residents at View Pointe were not notified because they were new residents and they were not on the database which information is furnished by Buncombe County. However, the overall developer of View Point was notified.

In response to Councilwoman Field, Mr. Ownbey said that the closest commercial area, excluding Recreation Park, would be the intersection at Tunnel Road and Swannanoa River Road or the intersection of Fairview Road and Swannanoa River Road. Mr. Ownbey said that neither commercial area is able to be walked at safely because of no sidewalks and because of the traffic on Sweeten Creek Road.

Mr. Steve Barden, attorney representing the developer of View Pointe, noted that his client did not get notice of the Planning & Zoning Commission meeting because of some apparent misaddress. He explained that the property is surrounded by residential property and to rezone it would, in his opinion, constitute an illegal spot zoning. He said there is no benefit to rezone this property to commercial. Since Swannanoa River Road is not a pedestrian access and to rezone will only bring additional traffic brought in from other areas. He urged Council to deny the rezoning due to the illegal spot zoning.

The following individuals spoke against rezone 910 Swannanoa River Road for several reasons, some being, but not limited to, no prior notification of meetings, already existing safety and traffic problems on Swannanoa River Road, especially at intersection of Azalea Road and Swannanoa River Road; the area was recently zoned residential under the Unified Development Ordinance and should not be changed; the rezoning would constitute illegal spot zoning; there are adequate shopping facilities nearby and more businesses are not needed in the community; no sidewalks to walk on Swannanoa River Road; Swannanoa River Road is narrow and is dangerous for cars; best interest for entire community for area to remain residential; Swannanoa River Road has a 45 miles per hour speed limit at that location and it would be hard for residents of the Beverly Hills community to cross the street to shop at any proposed stores at that location; greenway path would desirable instead of zoning to commercial; since View Pointe is on the top of the hill from the proposed site, the exhaust and pollution from the commercial strip will affect the quality of lives in the development and pollute the homes; this rezoning will start commercial development into residential areas; view will be destroyed; the residents of View Pointe already have to deal with flea markets, parked large trucks, washing machines and mattresses on the property and the owner has not taken any pride in the property to date; and noise:

Tom O'Keefe, resident of View Pointe (presented petition with 27 signatures and photograph of area)
Mr. Herb Gallinger, resident of View Pointe
Mr. Brian McKenna, President of the Beverly Hills Homeowners Association
Ms. Marilyn Born, resident of View Pointe
Mr. Peter Fisher, resident on Little Cedar Court in View Pointe
Mr. Robert Born, resident of View Pointe

Ms. Anita Wolfe, 25 Little Cedar Court in View Pointe
Ms. Esther Fisher, resident of View Pointe
Ms. Trish Lancaster, 3 Waverly Court (presented petition with 53 signatures which opposes the rezoning to Neighborhood Business)

Mr. Wade Hall, owner of 910 Swannanoa River Road for over 20 years, spoke in support of the rezoning. He said this area was zoned commercial prior to adoption of the Unified Development Ordinance and he assured the neighborhood that he would not put anything on that property that they would be ashamed of. He planned to build small businesses that would be appropriate for the neighborhood, e.g., drug store, medicine shop, pizza place, etc. He said the site is not appropriate for residential and should be zoned back to commercial. He urged City Council to rezone this property.

Mayor Sitnick reminded Council that they must consider all uses allowable under the Neighborhood Business District and not the use the petitioner proposes.

Mayor Sitnick closed the public hearing at 8:46 p.m.

Upon inquiry of Councilwoman Field if the petitioner and the property owners might reach a compromise, audience members did not feel that any consensus could be reached.

Upon inquiry of Councilman Cobb about a possible illegal spot zoning, City Attorney Oast emphasized that the rezoning could be determined to be an illegal spot zoning. He said that there are a number of factors that a court would look at and only a court can determine whether something is spot zoning or not.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hay moved to deny the rezoning of 910 Swannanoa River Road from RM-16 Residential Multi-Family High Density District to Neighborhood Business District. This motion was seconded by Councilwoman Field.

Vice-Mayor Hay said that he was sympathetic with the situation of Mr. Hall, however, he did not think the appropriate zoning for the lot is Neighborhood Business in that it is not designed for pedestrian access.

Councilwoman Field felt that the City needs to retain their multi-family residential land.

Mayor Sitnick felt that there are a lot of uses under the current zoning designation of RM-16 and the traffic situation at that area greatly concerns her.

The motion made by Vice-Mayor Hay to deny the rezoning and seconded by Councilwoman Field carried unanimously.

D. PUBLIC HEARING RELATIVE TO REZONING 1451 SWEETEN CREEK ROAD FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT

Mayor Sitnick opened the public hearing at 9:00 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to rezone 1451 Sweeten Creek Road from RM-16 Residential Multi-Family High Density District to Commercial Industrial District.

The owners and applicants, Narrell and Billie Owenby, have requested the rezoning of 1.57 acres at 1451 Sweeten Creek Road (PIN No. 9656-10-37-1408) from RM-16 Residential Multi-Family High Density District to Commercial Industrial District.

By use of a map, Mr. Black reviewed the location of the property, noting that it runs from Edgewood Road over to Sweeten Creek Road. The area in question is close to the entrance to a stable single family neighborhood. The potential commercial industrial uses that would be allowed in this area are of greater functional impact (primarily noise and traffic) to these areas than the current zoning, which fits in with the existing development. He said there is commercial industrial development (electrical shop) just above the property. The 2010 Plan calls for low density residential in this area.

The Planning staff reviewed the rezoning request and recommended denial. At the October 7, 1998, Planning & Zoning Commission meeting, the Commissioners voted seven to zero to recommend denial of the rezoning of 1.57 acres at 1451 Sweeten Creek Road from RM-16 Residential Multi-Family High Density District to Commercial Industrial District.

On October 21, 1998, the petitioners appealed the Planning & Zoning Commission's denial to City Council.

Mr. Narrell Owenby, petitioner, explained that the original rezoning request was for two lots to be rezoned, however, the owner of the other lot withdrew his request. Unfortunately he was out of the country when the Planning & Zoning Commission held their hearing and did not know that the other petitioner had withdrawn his request. He said that since they are widening Sweeten Creek Road and taking a portion of his property for right-of-way, the property will not be desirable for a residence. He urged City Council to rezone his property to commercial industrial.

Ms. Lois Hodgson, President of Cimarron Homeowners Association, urged City Council not to rezone the property to commercial. She hoped Council would not allow commercial development to encroach into the residential properties in the area. She felt the proposed rezoning is close enough to affect their property values. She felt that Edgewood Road is in a constant state of disrepair because of so much traffic now and urged Council to deny the rezoning request.

Mr. Roger Smith, President of the Stockwood Road Association, urge City Council to deny the rezoning request. To rezone this property would be an incompatible extension into the residential neighborhood.

Mayor Sitnick closed the public hearing at 9:19 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Cloninger moved to deny rezoning 1451 Sweeten Creek Road from RM-16 Residential Multi-Family High Density District to Commercial Industrial District. This motion was seconded by Councilman Cobb and carried unanimously.

121

E. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING SHORT TERM RENTAL IN RESIDENTIAL DISTRICTS (VACATION RENTALS)

ORDINANCE NO. 2527 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO ALLOW VACATION RENTALS AS A PERMITTED USE, SUBJECT TO SPECIAL REQUIREMENTS, IN ALL RESIDENTIAL DISTRICTS

Mayor Sitnick opened the public hearing at 9:21 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

At the request of Councilman Cloninger, Councilman Sellers moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

Senior Planner Gerald Green said that this is the consideration of two wording amendments to the Unified Development Ordinance which would permit vacation rentals as a conditional use in single family residential districts and as a permitted use, subject to special requirements, in multi-family residential districts.

The Asheville Planning & Zoning Commission, at their October 7, 1998, meeting, reviewed and recommended approval of two amendments to the Unified Development Ordinance which identify vacation rentals as conditional uses in the single-family residential districts and as permitted uses, subject to special requirements, in the multi-family residential districts. As proposed, the approval of vacation rentals in single-family residential districts would require a public hearing before City Council. Approval of vacation rentals in multi-family residential districts would be granted by staff upon a finding that all requirements were met. The Planning & Zoning Commission felt that the introduction of this type of use into single family residential districts would be a change substantial enough to warrant a public hearing. The proposed amendments identify standards which must be met by vacation rentals in residential districts; these standards are the same for single-family and multi-family residential districts. The standards address issues such as minimum acreage for the use, maximum number of rental units, open space requirements, buffering requirements, services provided to guests, and other measures designed to minimize the impact of this use in residential areas. The Commission felt that vacation rentals would provide an alternative lodging choice for visitors to the Asheville area while preserving open areas.

The Asheville Planning & Zoning Commission voted 6 -1 to recommend approval of the wording amendments. The Planning & Development staff recommend approval of the amendments.

He said letters of support have been received from the Chamber of Commerce and the Friends of the Blue Ridge Parkway, and the National Park Service/Blue Ridge Parkway which he would give to the City Clerk for submission into the record.

Mr. Mike McLeod urged City Council to adopt the ordinances in that it clarifies the existing ordinance and imposes several stringent new requirements. It will encourage the preservation of large tracts of unspoiled acreage, because vacation rentals would only be permitted in tracts of 30 acres or more, and at least 1/2 of the acreage would have to be devoted to open space. The ordinance amendment would permit him to build six additional homes off

Sweeten Creek Road at Willow Winds and without approval of this amendment, he would be forced to sell the land for more intensive development. He felt that the ordinance serves a strong public interest in that his tract of land is the only tract that is zoned multi-family that is adjacent to the Blue Ridge Parkway. Therefore, he believes the public is served by making vacation rentals in multi-family district a use by right subject to special conditions. Urban encroachment has been widely recognized as one of the greatest threats to the beauty of our great national resource, the Blue Ridge Parkway. This amendment will enable him to maintain his acreage in a relatively natural state and not detract in any way from the Parkway, with whom they share a common boundary of over 1700 feet. In addition, it serves the economic purpose of providing badly needed accommodations for families who wish to come to Asheville and rent a vacation home.

Mr. Mel Thomason, 304 Cisco Road, asked City Council to consider an amendment to permit vacation rentals as a permitted use, subject to special requirements, in all residential districts.

Mr. Roger Smith, President of the Stockwood Road Association, said their only concern would be the additional traffic coming in and out of Stockwood Road neighborhood. He said the amendment will probably be good for preservation of his neighborhood, however, they do want their neighborhood protected.

Mayor Sitnick closed the public hearing at 9:47 p.m.

Upon inquiry of Vice-Mayor Hay, Mr. Green explained that the staff's recommendation was to treat vacation rentals as a permitted use, subject to special requirements, in all neighborhoods, regardless of whether they were single-family or multi-family. He then explained why he thought the Planning & Zoning Commission made their recommendation different from staff's recommendation.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman moved for the adoption of Ordinance No. 2527, to permit vacation rentals as a permitted use, subject to special requirements, in all residential districts. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17- PAGE 177

IV. NEW BUSINESS:

A. RESOLUTION NO. 98-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AWARD THE BID TO COOPER CONSTRUCTION COMPANY FOR THE BEAVERDAM ANNEXATION AREA CARTER COVE SANITARY SEWER AND WATER IMPROVEMENTS

Ms. Cathy Ball, City Engineer, said that staff is recommending City Council award the contract for the Beaverdam Annexation Area Carter Cove Sanitary Sewer and Water Improvements to the lowest responsible bidder, Cooper Construction Company Incorporated, in the amount of $442,278.00.

On Tuesday, September 23, 1998, at 2:00 p.m., the Engineering Department received the following three bids for the project:

Precision Contracting, Asheville, NC	$435,806.00
Cooper Construction Co., Hendersonville, NC	$442,278.00
Buckeye Construction Co., Canton, NC	$478,031.25

The lowest apparent bidder for this project was Precision Contracting, which is a minority owned business, with a bid of $435,806; however, after checking references for similar types of jobs, they have been determined not to be responsible for performing this job. Staff has met with the Minority Business Commission and notified them of staff's recommendation.

The biggest reason for designating them as not responsible for this project is that they have found on two sewer projects that they had completed, one of which was for $114,000 for the Town of Spruce Pine and the other was for approximately $250,000 for Metropolitan Sewerage District ("MSD").

She clarified some of the concerns raised about how that bid was awarded and some complications with what was considered to be a sub-contractor. It is her understanding that when the bid was awarded to Precision for the Holiday Inn Sunspree sanitary improvements, MSD had not planned to sod the fairways of the golf course, they had only planned to sod the tee-boxes and they had bid that out to Precision to do. When the golf course found out about this, they were very upset because they wanted to have the fairway sodded as well. That's when the negotiations went between MSD and the Holiday Inn Sunspree. They had told her that does not figure in at all to the recommendation they gave them regarding Precision Contracting. That was not looked at in a negative way. The problem arose because the sod that was installed did not live, according to what she was told, because the sprinkler system had been damaged and not repaired by Precision Contracting. That was the result of the damages and from that the insurance company paying to take care of the sod. She said that the City would like to work with Precision Contracting in the future, in the event that they are low bidder for a project of a lesser amount. They would like to work with them to establish a good reputation.

Upon inquiry of Councilman Sellers, Ms. Ball said that there approximately 15-16 homes that will be affected by this project.

Ms. Susan Lewis, attorney representing Precision Contracting, passed out to City Council a booklet and stated that the bid must be awarded to the lowest responsible bidder and obviously Precision Contracting is the lowest bidder, therefore, she would argue the definition of what is "responsible." Precision Contracting has the bidding limit of $500,000, is licensed by the state to bid $500,000, and is bonded up to $500,000. The project in question consists of three separate lines. The job is basically running the sewer lines, with completing one line 100% and then proceeding with the next line. This is basically not a complicated project but a high dollar project based on so many lines to be run. Relative to the letter Jim Orr signed, she said Mr. Orr was not the Superintendent of the Golf Course, but was Director of the Golf Course at Holiday Inn Sunspree. He made several allegations and one basically was that he didn't have any communications with the contractor. Precision Contracting had dealings with MSD who contracted the job out to them. They had no authority to deal with Sunspree. At any point in time that they had any conversations with Sunspree, they would have them in the presence of MSD and the Superintendent, who again is not Jim Orr. Also, Mr. Orr has no contracting license and does not have any way to supervise Precision Contracting, nor was he in any position to supervise Precision Contracting. Therefore, the letter from Mr. Orr is irrelevant.

Ms. Lewis then proceeded to review the information in the booklet which addressed the items Ms. Ball voiced concerns about at the November 4, 1998, worksession. She summarized by stating that Precision Contracting is the responsible bidder and should be awarded the contract.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 98-164 which awarded the contract to Cooper Construction Company. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilman Cloninger said that Ms. Lewis had made some very persuasive arguments, however, he felt that we needed to have confidence in our City Engineer and should rely on her judgment. He agreed with Ms. Ball in that the City should look for other opportunities to work with Precision Contracting in the future.

RESOLUTION BOOK NO. 25 - PAGE 39

V. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 27, 1998, AND THE WORKSESSION HELD ON NOVEMBER 4, 1998

Vice-Mayor Hay moved for the adoption of the minutes of the regular meeting held on October 27, 1998, and the worksession held on November 4, 1998. This motion was seconded by Councilman Tomes and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville from October 9-29, 1998: Allison Frank (Streets), Herbert Rector (Water) and Mary Pettijohn (Inspections).

The following claims were received by the City of Asheville from October 30 - November 5, 1998: Annie R. Fowler (Police), Suzanne R. Wilder (Sanitation) and William Flanagan (Finance).

These claims have been referred to Asheville Claims Corporation for investigation.

VI. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. COMMENTS BY DAVID THUNDERSHELL QUEEN RELATIVE TO ASHEVILLE POLICE DEPARTMENT

Mr. David Thundershell Queen, resident of 37 Wall Street and freelance journalist and reporter. He addressed City Council about the police misconduct and even brutality of some officers at Bele Chere 1998. He felt that to not discipline a violent police over-reaction, he urged City Council to seriously look into the voices of many who witnessed the incident. A citizens/police review board with real power to discipline or dismiss is in order, not just the present Citizens/Police Advisory Committee. Criminal charges should be charged against officers who violently abuse the rights of a fellow citizen while hiding behind a badge. He presented City Council with Volume 5, No. 13, of the Mountain Xpress and Council to read the details.

B. MICKIE MaHAFFEY

Mr. Mickie MaHaffey briefed City Council on an impromptu survey he conducted concerning the accessibility of City officials.

At 10:15 p.m., Mayor Sitnick adjourned this meeting to proceed to the Asheville Civic Center.

VII. UNFINISHED BUSINESS:

At 10:30 p.m., Mayor Sitnick reconvened the meeting.

A. FUTURE OF THE ASHEVILLE SPEEDWAY

Representative Martin Nesbitt, attorney representing the racing community, introduced the program and speakers before City Council.

Mr. Keith Cochran briefed Council on the 38 year history of racing at the Asheville Motor Speedway, starting with when the Speedway was first built in 1960 on the site of a former airstrip, known as Carrier Field, on the banks of the French Broad River.

Mr. Dean Jones reviewed with Council the economic impact study consisting of facts gathered from the 1998 season. He reviewed each area involving track employees, track concession vendors, race community vendors, advertising dollars, race purse, race admission and other event and revenues, totaling a revenue loss of approximately $2,386,490.

Mr. Kermit Trolley reported to Council on the driver/team owner point of view with closing the Asheville Motor Speedway, stressing that the citizens of Western North Carolina will lose an exciting education opportunity. Most areas of racing, from track owner to advertising to track crew, require a college degree with today's era of racing. If the Speedway is taken away from the community, many youth will not be exposed to a career opportunity with salaries large enough to make any local doctor, lawyer or accountant envious. Many charities will lose a tremendous amount of donations directly from the racing families, some charities being, but not limited to, Memorial Mission Hospital Ducky Derbie, Eblen Foundation Boosters, Victims of Fire Burn-Out, Cancer Foundation (Amy Hamerick), Family of Gary Neice, Billy Joe Pressley Memorial, Children's Miracle Network, and Make-A-Wish Foundation. He then explained the sponsorship aspect of the racing community.

Ms. Sharon Tolley presented City Council with a petition containing 20,390 signatures that support racing in the Asheville area and that are in favor of the continuation of racing at the Asheville Motor Speedway for one more season. She also presented City Council with a letter from Kathy Cook who wrote in support of the racing community in Asheville.

Representative Nesbitt said that the NASCAR license expires on December 31, 1998, and they hoped to work toward closure of this issue near the first of December. He again urged City Council to work to allow racing at the Asheville Motor Speedway until another track could be built.

City Attorney Oast briefed City Council on the progress to date noting that staff has been given direction from City Council that they desire to see the racetrack utilized for a period of time in order to give Speedway '99 a chance to pursue establishment of another racetrack in the area. He said that he is working to develop plans for its operation and a method for soliciting who will operate with it with appropriate members of the community and as well as City staff. RiverLink is working to gather concurrence from all of the parties who contributed to the purchase of the racetrack to allow its continued use as a racetrack for a period of time. Although he is encouraged by the meetings to date, he stressed that a lot of pieces need to fall into place. He said that he is preparing documents, proceeding on the assumption that the racetrack can be used another season.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 11:30 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

127

Tuesday - November 17, 1998 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Earl Cobb

CONSENT:

Authority to Advertise for Upset Bids for 110 Morris Street

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids for 110 Morris Street.

A bid from Carol Lynne Jones, in the amount of $79,600.00, has been received for the purchase of 110 Morris Street. The bid is not less than the established minimum price of $79,500.00.

110 Morris is a residential lot and house near the corner of West Asheville Park comprising 13,503 square feet of land. The property was acquired along with the park property and is under the Parks & Recreation Department's control. The house contains 1,336 square feet of floor space, three (3) bedrooms, one and one half (1 1/2) baths and a full basement with drive-in garage. The bidder, Carol Lynne Jones, intends to occupy the residence as her home. She is a graduate of the Affordable Housing Coalition's Homebuyer Education Class.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff and the Parks & Recreation staff recommends adoption of the resolution.

Grant Application to Assist in the Construction of Haw Creek Park

Summary: The consideration of a resolution to apply for grant funds to assist with the construction of Haw Creek Park through the N.C. Dept. of Environment and Natural Resources.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Neighborhood Association's long term goal to build a park in the Haw Creek community. The park is a collaborative effort between the City of Asheville and the Haw Creek Neighborhood Association, who has committed to raise $40,000 to assist with construction of the park. Haw Creek Park will be a passive park located on approximately 6.2 acres on Haw Creek Road, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The grant funds will be used to add a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department is requesting $100,000 in grant funds which requires a 50% cash match. Funds for the match are currently available in the Capital Improvement Budget designated for Haw Creek Park.

The Parks and Recreation Department recommends the City Manager and/or the Mayor be authorized to apply for the grant and enter into the agreement to assist with the development of Haw Creek Park.

Budget Amendment to Appropriate Funds from NC Governor's Highway Safety Program

Summary: The consideration of a budget amendment, in the amount of $50,000, to appropriate funds to the Police Department in support of a grant funded project from the NC Governor's Highway Safety Program.

The Police Department has been awarded a $37,500 grant from the NC Governor's Highway Safety Program (GHSP). The grant is for the purchase of equipment to support the department's traffic safety program; specifically five in-car computers and five speed detection devices.

GHSP guidelines require a local match of $12,500 for a total project budget of $50,000.

The City Council, at their meeting on July 28, 1998, authorized the application for this grant.

City staff recommends City Council adopt the budget amendment appropriating $50,000 to the Police Department budget.

Budget Amendment for Fair Housing Assistance Program

Summary: The consideration of a budget amendment to continue federal funding for the twelfth year of the Fair Housing Assistance Program.

On April 28, 1987, the City of Asheville was recognized by Department of Housing and Urban Development (HUD) as having a fair housing enforcement program which is substantially equivalent to that of the Federal Fair Housing Act. The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988.

The City has received approval from HUD of $18,400 for the Fair Housing Assistance Program for the period October 1, 1998 - September 30, 1999. This will be the twelfth year of funding through this program. The program is administered under contract by the Asheville-Buncombe Community Relations Council which provides staff support to the Asheville-Buncombe Fair Housing Commission. The City Community Development Division serves as Lead Entity and monitors the program.

Community Development staff recommends adoption of the budget amendment.

Amendment to Agreement with J.L. deBall-Girmes

Summary: The consideration of a resolution authorizing the Mayor to enter into an amendment to the agreement with J.L. deBall-Girmes of America Inc.

Girmes applied for an Industrial Development Grant based on expansion plans that included investment in facility and equipment at their Old Charlotte Highway site of $2,000,000 by July 1, 1998, and $7,000,000 within two years. An increase in new jobs from between 12 to 16 were to be provided by July 1, 1998, and up to 50 by January 1, 2000. On August 12, 1997, City Council awarded an Industrial Development Grant, in the amount of $51,300, to J.L. deBall-Girmes of America Inc.

Due to unforeseen circumstances, certain equipment could not be delivered by the July 1, 1998, deadline. The equipment is now in place and Girmes has met all other requirements of the grant. They are requesting that the Grant Agreement be amended to change the completion deadline from July 1, 1998, to October 1, 1998. No other changes are requested.

Staff recommends that City Council adopt a resolution authorizing the Mayor to amend the agreement with J.L. deBall-Girmes of America Inc. in order to extend the deadline in the agreement from July 1, 1998, to October 1, 1998.

Set Public Hearing on General Obligation Refunding Bonds and Introduction of Bond Order

Summary: Introduction of the Bond Order by the Finance Director and the consideration of a resolution which calls for a public hearing on the Bond Order, directs publication of said public hearing and directs the filing of a debt statement.

At City Council's direction of November 10, 1998, the Finance Director has filed with the Local Government Commission an application for its approval of $18,500,000 General Obligation Refunding Bonds of the City of Asheville, North Carolina.

The Bond Order briefly describes the bonds to be issued in regard to: purpose; maximum amount; taxes to be levied; provides for a sworn statement of debt; and states the effective date of the Bond Order. The Bond Order will be published and a public hearing convened for its consideration prior to its proposed adoption by Council on December 8, 1998.

The Resolution calls for a public hearing on the Bond Order to be held on December 8, 1998 at 5:00 p.m. in the Council Chambers of the City Building; directs the City Clerk to publish notice of the public hearing no fewer than 6 days prior to the public hearing and directs the Finance Director to file with the City Clerk (prior to publication of the Bond Order and along with the notice of public hearing) a statement of the debt incurred or to be incurred, the appraised value of property subject to taxation by the City and the net debt of the City.

City staff recommends City Council adopt the resolution.

Amendment to Minority Business Plan

Summary: The consideration of a resolution to amend the Minority Business Plan in order to permit minority firms participation as mentors in the Mentor-Protégé Program.

In May of 1998, City Council adopted the Asheville-Buncombe Minority Business Plan. The Plan requires that "The Minority Business Commission shall establish a Mentor-Protégé Program." The Plan defines the Mentor-Protégé as "A program of the Minority Business Commission whereby ***non-minority*** firms provide assistance and mentorship to minority firms." (emphasis added) The Commission is currently working to implement the Mentor-Protégé program; however, they find the present program definition unnecessarily restrictive and exclusionary. There are many minority firms which have the experience, wisdom and commitment to serve as effective mentors; however, the current definition of the program unintentionally excludes their participation in the mentor role.

At their meeting on October 15, 1998, the Minority Business Commission recommended that the Plan's definition of the Mentor-Protégé program be amended to permit the inclusion of minority firms as mentors. Specifically revise the definition on page two of the plan as follows: "**Mentor-Protégé Program** – A program of the Minority Business Commission whereby minority and non-minority firms provide assistance and mentorship to minority firms."

The resolution amends the Plan as recommended by the Minority Business Commission. The recommended revision to the Plan was adopted by the Buncombe County Commission earlier this month.

City staff recommends City Council adopt the resolution.

Pack Place Lease

Summary: The consideration of a resolution directing the City Clerk to advertise an offer from Pack Place Education Arts and Science Center, Inc. to lease the property owned by the City of Asheville and known as the Pack Place Education Arts and Science Center.

The City of Asheville owns the property on which the Pack Place Education Arts & Science Center is located. That property was leased to Pack Place Education Arts & Science Center, Inc. on December 13, 1988, for a ten (10) year term for the construction, operation and maintenance of the education, arts & science center.

The current lease with Pack Place Education Arts & Science Center, Inc. expires on December 12, 1998. Pack Place Education Arts & Science Center, Inc. has offered to lease the property again from the City for the continuing operation and maintenance of the education, arts and science center. Pack Place Education Arts & Science Center, Inc. desires to lease the property for more than ten (10) years.

N. C. Gen. Stat. sec. 160A-272 authorizes North Carolina cities to lease property for longer than ten (10) years if the lease is treated as a sale of property and is executed by following any of the procedures authorized for sale of real property in Article 12 of Chapter 160A of the North Carolina General Statutes. Of those procedures, N. C. Gen. Stat. sec. 160A-269 appears to be the most appropriate method for execution of a lease for more than ten (10) years for this property and requires that when an offer is made and the City Council proposes to accept it, a deposit shall be made with the City Clerk and the City Clerk shall publish a notice of the offer.

A deposit has been received and the general terms of the proposed lease are described in the notice.

City staff recommends the resolution directing the City Clerk to advertise the offer of the lease be adopted.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

ROSS CREEK URBAN WATERSHED PROJECT

Ms. Becky Rideout, representative of the Land-of-Sky Regional Council, briefed Council on the Ross Creek Urban Watershed Project, which is to restore Ross Creek and Kenilworth Lake. She reviewed the Project, the progress they are making and requested the City of Asheville's support through participation in the future. She felt one way for the City to show their support is for representatives from the Engineering, Public Works and/or Planning Departments to serve on their clean stream action team.

Councilwoman Field suggested Ms. Rideout coordinate her efforts with the recommendations in the consultant's report that the City had prepared approximately 4-5 years ago relative to stormwater.

UPDATE ON FAIR HOUSING

Mr. Bob Smith, Executive Director of the Asheville-Buncombe Community Relations Council, updated City Council on fair housing activities as well as what they are doing regarding outreach in education.

Mayor Sitnick said that she would be happy to write a letter of support for Mr. Smith in his efforts to consider asking state and federal agencies make a broader definition of discrimination on any basis.

HONDA HOOT

Mr. Charles D. Keller, Manager of the Honda Rider's Club of America, presented City Council with an overview of the history of the Honda Hoot in Asheville and its impact to the community. He said that when the Honda Hoot first came to Asheville in 1994 it had 1,254 registered attendees with a financial impact of $952,488. In 1998, they had 7,062 registered attendees with a financial impact of $5,364,012. He said the total financial impact over the five years they have been to Asheville is $16,448,720. He said the advertising/media dollars spent by Honda to advertise the Honda Hoot over five years is $243,400, however, the advertising/media impressions for five years is $16.2 million. He said Honda's philosophy is to invest in the community in which they are in, noting that in 1998 they spent $362,261 in this market place. He also stated that $73,000 was raised in 1998 in a motorcycle charity run for the Pediatric Brain Tumor Foundation.

He felt that the City of Asheville has a lot to offer in the field of travel, tourism and convention potential. He said that it is their intent to build a stronger bond with the community as they work toward the future. As they work toward that end, he said (1) they looked for is a way for their participants actually help off-set some of the expenses, i.e., Civic Center. For example, this year they have negotiated a rate with the individual hotels tacking on an additional $2 to the room lodging for Honda Hoot participants only that at the end of the event that money would be turned over to the Civic Center to off-set rent; (2) they are always looking for ways to advertise more in order to bring more attention to an event. When they advertise, it should be remembered that this advertisement has a great deal of carry-over because people will remember Asheville and want to visit at different times during the year. This year the Tourism Development Authority helped them with $15,000 to help off-set advertising; (3) another item is a pass-through costs. They asked that those items, i.e., donuts for their receptions, be passed through at cost and not marked up at the suggested retail price; (4) shared expenses. They hold a lot of free parties and request that when locals are being entertained that the City should share in the expenses of security, trash and even EMT's; (5) event parking. This year they are currently working with the City on a proposal which will allow them to buy parking permits from the City which can then be put on the motorcycles which will allow them to park in metered parking spots, in addition to buying out the Civic Center Parking Garage; (6) they need a clear, concise and consistent permitting process; and most importantly (7) a can-do team attitude with the City. In closing, he said that in the last five years, they have paid retail for police security, trash service, sanitation, port-a-potties, roving EMT's, Civic Center parking, Civic Center rent, and ground transportation. They would like to get the City's assistance in making that switch from paying retail to wholesale based on what the Honda Hoot brings to the marketplace.

Upon inquiry of Mayor Sitnick, Mr. Keller said they charge non-members $50 and members $45 for the event.

Councilwoman Field noted that City Council needs to also respect the concerns and needs of the people who live in Asheville every day.

Civic Center Director David Pisha responded to the concern about pass-through costs, in particular the charge for donuts and coffee. He said that the cost includes labor going to get the items, setting them up in the Civic Center, along with tables, etc.

Mayor Sitnick said that the City has a policy with regard to festivals and such which policy treats all festivals fair and even-handed. She stressed that each organization feels that their festival is bringing something into the community.

With regard to the permitting process, City Manager Westbrook said that he would investigate the incident Mr. Keller mentioned, but also suggested that the planning for the Honda Hoot should take place far in advance of the actual event. Since the City has designated representatives to whom problems and issues can be brought during the event, he suggested their event coordinator know which City staff member handles specific problems and issues.

Mr. Keller felt that this may be an opportune time for Asheville to make whatever changes or improvements it may need to attract and keep large events like the Honda Hoot coming back to Asheville.

Mayor Sitnick agreed that Council may need to look at a possible policy amendment in the future regarding some instances where exceptions may be warranted. She did note, however, that the City does in fact subsidize approximately $8,700 for the free outdoor parties Mr. Keller mentioned. In addition, all downtown police officers work the Honda Hoot almost exclusively during their event which is an additional estimate of $10,000 the City subsidizes.

When Mr. Keller said that it appeared to be a distinct difference in the enforcement of the parking laws from last year to this year, City Manager Westbrook said that during the five days the Honda Hoot was in Asheville, the City issued a total of 585 parking citations to all vehicles, including motorcycles. Only 138 of those citations were issued to motorcycles, however, they were unable to distinguish between those motorcycles participating in the Honda Hoot and any others. Types and numbers of motorcycle citations were as follows: overtime parking - 74; parking in designated handicapped spaces - 18; and, parking in authorized areas (in intersections, loading zones and crosswalks; on sidewalks, etc.) - 46. He said that almost all parking tickets issued by the Police Department were complaint generated and it didn't appear to him that 138 out of 585 was unusual. On this issue, Mayor Sitnick said that just because people go to a different town and bring good things to that town doesn't mean they can break the rules or expect something different than is done for others.

With regard to the parking proposal for Honda Hoot, City Manager Westbrook said that after that plan is agreed upon, he will bring it to City Council for approval.

The following individuals spoke in support of the City helping the Honda Hoot where they can to keep this wonderful business opportunity in Asheville:

Mr. Phil Flack, Asheville resident and vendor at rally
Mr. Randy Fluharty, Chair of the Buncombe County Tourism Development Authority
Mr. John Weinkenwerder, hotel owner, former Chair of the Asheville Area Chamber of Commerce and former Chair of the Buncombe County Tourism Development Authority
Mr. Jay Garner, President and CEO of the Asheville Area Chamber of Commerce
Mr. Michael Smith, Vice-President and General Manager of Daniels Communications
Mr. Mike Kryvanek, General Manager of the Holiday Inn Sunspree Resort and former Director of Sales and Marketing at the Radisson
Mr. Mike Traynor, President of the Pediatric Brain Tumor Foundation
Ms. Rosalie Johnston, representing hotel properties that have less than 100 rooms

In order to clear up a misconception, Mr. Keller said that American Honda Motor Co. and Honda Motor Company Limited, is a for-profit corporation. However, as far as their intent on this event, it is to grow the market place and they are not looking for immediate remuneration on it. Eventually, if they are good people, make the best product and embrace their consumers, it will be profitable to them. But it is not their goal to hold the Honda Hoot to make money as other rallies do.

Mr. Garner suggested City Council develop an incentive policy similar what City Council is already doing for traditional economic development on the industry side. At the request of Councilman Cloninger, Shelly Green, head of the Convention Visitor Bureau, said that she would research other cities to see what type policies they have along these lines, in particular to see how it's funded, whether by local money or room tax. It would also be interesting to know what, if any, their overall subsidy is of their convention center.

Councilman Cloninger said that it sounds like rather than considering, at this point, what we would be willing to do for Honda, if anything, we need to develop an overall policy that is fair, consistent, also has enough flexibility to take into consideration what the economic impact of a particular convention might bring. He would like to explore the idea of what some of the other communities are doing and also what City staff may be able to think of that might help the City develop a policy that looks at some of the larger conventions that come to the area.

It was the consensus of City Council to assign this task to the Future of the Civic Center Task Force and if Vice-Mayor Hay, Chair of the Task Force, feels additional staff support is necessary, he will so advise the City Manager.

Mr. Keller said that he will send City Council, the City Manager and the Civic Center Director a bullet-point sheet of their concerns and suggestions.

Mayor Sitnick said that there is no doubt that City Council would like to keep the Honda Hoot coming to Asheville and the City will work with them on a solution.

GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BONDS

Finance Director Bill Schaefer said that this is the consideration of the following three resolutions: (1) directing publication of notice of intention to apply to the Local Government Commission (LGC) for approval of bonds; (2) directing the Finance Director to submit an application to issue bonds for consideration by the LGC; and (3) making certain statements of fact concerning the proposed bond issue.

Based upon recommendations by the Parks and Recreation Master Plan Steering Committee and the Greenway Steering Committee, Council directed staff to proceed with a referendum for the issue of $18,000,000 Parks, Recreation and Greenway bonds. The resolutions are the first in a series of actions required by Council to effect issue of the bonds.

The general obligation bonds shall be for the following purposes and in the following maximum amounts: $18,000,000.00 of bonds for the purpose of providing recreation opportunities through the preservation and acquisition of land for open spaces, natural areas, environmental enhancements and greenways, including rights-of-way and easements; providing new recreation facilities, playfields and playgrounds, including acquisition of land, rights-of-way and easements therefor; and renovating existing parks and recreation facilities.

The first proposed resolution directs the City Clerk to publish "Notice of Intention to Apply to the Local Government Commission for Approval of Bonds". The notice states the purpose of the bonds, their maximum amount and provides instructions to citizens or taxpayers of the City of Asheville who object to the issue of bonds to file a written notice of their objection with the LGC and City Clerk within 7 days of the publication of the notice.

The second proposed resolution authorizes and directs the Finance Director to submit an application to the LGC to allow the City of Asheville to issue not to exceed $18,000,000 General Obligation Parks, Recreation and Greenway Bonds and allow the retention of Parker, Poe, Adams & Bernstein L.L.P. as bond counsel for the issue.

The third proposed resolution provides "statements of fact concerning proposed bond issue" in regards to: (A) the necessity of the proposed financing; (B) the amount of the bonds proposed; (C) past debt management policies; (D) past budgetary and fiscal management policies; and (E) increase in taxes and retirement of debt. These "statements of fact" are required in order for the LGC to make determinations necessary to approve the City's request to issue Refunding Bonds.

City staff recommends City Council adopt all three resolutions.

Councilwoman Field explained that the Housing and Community Development Committee ("Committee") met to discuss the possibility of including, in addition to the parks, recreation and greenway bond, a bond to build a Housing Trust Fund. This is not money that will be grant money, but money that will be loaned and therefore, it will be a revolving fund. The Homes for Buncombe Asheville is requesting $2 Million a year for five years to be added to the parks, recreation and greenway bond ballot, but to be voted on separately. They have a grant for $6,000 and they have raised $6,000 to do a survey or polling of the community to find out if this is the best way to do it. They have heard in other communities, a quality of life bond got more support than a parks, recreation and greenway bond. She asked if it would have a major affect on what we're doing to hold up for about a month so that the Homes for Buncombe Asheville can get their survey done. If it will, is there some way we can add it down the road? The Committee said that they would unanimously support their request for either a delay or some way of giving them some other opportunity, if it is appropriate, for them to come onto the bond issue in May. She did stress, however, that the Committee, under no circumstances, wants to hold up the parks, recreation and greenway bond.

Mr. Schaefer said that the process on the parks, recreation and greenway bonds has already started and they are aiming for a May 11 referendum. The two situations would be presented separately on the ballot. The documentation for those can be combined at certain points. The questions should stand separately on the ballot and he recommended we continue on with these three resolutions and at a later date, staff can bring in the documentation to address the housing trust fund. He said they probably have about a month within which to get the information.

Councilwoman Field said that after the Homes for Buncombe Asheville obtain their survey results, they will determine whether it is in the best interest to try to put together a quality of life bond issue or to do something separately.

Councilman Cloninger very strongly urged that the City proceed with the parks, recreation and greenway bond. In a letter received from Will Abberger, Director of Conservation Services with The Trust for Public Land, he read "Regarding the issue of the willingness of Asheville voters to support a tax increase for a parks and greenways bond, the survey tested a number of different appropriation levels, ranging from $38 million to $3 million. In our view, the survey indicated a sufficient level of support from Asheville voters, 62 percent, to support an $18 million parks and greenways bond. We also polled the $28 million appropriation level (between $18 and $28 million) with a question phrased to test the average tax increase to the individual property owner necessary to support this amount of bonds: when asked if they would be willing to support $55 per year in additional taxes, only 50 percent of those surveyed responded yes. Based on the survey results, we believe any amount higher than $18 million would be difficult to pass. ... Based on our experience with similar measures in other communities, the 62 percent level of support for parks and greenways indicated in the Asheville survey is likely to decrease prior to the actual vote." He was in favor of the idea of exploring a possible housing referendum and they should have an opportunity to conduct their survey and come back and see what might be done. However, he felt it was doubtful that a bond referendum with both issues is feasible. He also said that The Trust for Public Land's experience has been that traditionally parks and greenways bond measures stand the greatest chance of success if it is placed on the ballot alone, as a single. They are not optimistic about adding another bond issue on the ballot. He also said that months and months of work has gone into the Parks and Recreation Master Plan to arrive at this point and we don't have that plan at this point with the housing trust fund.

Upon inquiry of Councilwoman Field, Mr. Schaefer said that it would not be appropriate to consider revenue bonds for the housing trust fund.

Mayor Sitnick hoped that if we cannot do the bonds together, that we work together to explore every avenue to find the kinds of funds that we need, e.g. some cities work with private developers to create incentives, some places dedicate a penny of the tax revenue for housing, etc. She hoped to be able to come up with a combination of sources that work.

Councilman Cloninger said that The Trust for Public Land is having their national meeting in early December and at that time they will make a decision on where they will devote their resources for the coming year. We need to send them a strong message that we are committed to the parks, recreation and greenway bond referendum. Mayor Sitnick also noted that they indicated that they would be more than willing to help the Affordable Housing Coalition with their efforts, should it come to that.

Ms. Beth Maczka, Director of the Affordable Housing Coalition, spoke in support of the quality of life bond. She explained that they do not want to propose housing to the detriment of parks. She appreciated City Council leaving the door open for them to include their bond question on the May 11 ballot, if, after their survey, the results indicate that is the best way to proceed. She did note that they are will continue to work with Buncombe County and the State Housing Trust Fund as well.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place the resolutions relative to the parks, recreation and greenway bond on the next formal City Council Agenda. In addition, if it is determined that the Homes for Asheville Buncombe's survey determines that it is in their best interest to proceed with a quality of life bond, staff should be prepared to proceed with the documentation to place that item on the May 11 ballot as a separate issue.

REGIONAL AIR QUALITY

Mr. Kim Carlyle, representative of the WNC Alliance, read a letter dated November 3, 1998, which reads in part "we are very concerned about the deterioration of air quality in the mountain region of Western North Carolina. Although air pollution problems have been gradually worsening for many years in the mountains, the reduced visibility and public health warnings of this summer should serve as a wake up call for our community. Air pollution is reaching levels which seriously jeopardize public health and quality of life in the mountains. To begin addressing this problem, we ask the Asheville City Council pass a resolution in support of North Carolina join Tennessee in signing a Memorandum of Understanding (MoU) with federal agencies regarding regional air quality. ... The MOU does not address existing air pollution sources. It only addresses new sources of pollution which may impact the most pristine areas in the mountains. ... The MoU simply clarifies the implementation procedures for the Clean Air Act for all the state and federal parties involved." The resolution they requested City Council to adopt is as follows: "The Asheville City Council supports North Carolina join Tennessee in signing, unamended, the Memorandum of Understanding ("MoU") with federal agencies regarding regional air quality. At a recent public forum, citizens from across western North Carolina spoke overwhelmingly in favor of signing the agreement. This MoU will protect air quality in western North Carolina's most pristine areas, such as the Great Smoky Mountains National Park and Shining Rock Wilderness Area. The MoU is only concerned with facilitating the compliance of new industries with existing regulations. The Asheville City Council recognizes that clean air is vital to maintaining the public health, economic viability, and quality of life in the region. We urge the Governor to sign the MoU without revision." The letter was signed by representatives of the American Grassroots Unlimited, Blue Ridge Environmental Defense League, Coalition for Scenic Beauty, Friends of the Blue Ridge Parkway, National Parks and Conservation Association, League of Women Voters-Asheville-Buncombe Chapter, Appalachian Voices, Coalition of Asheville Neighborhoods, Dogwood Alliance, Friends for Parks and Public Lands, League of Women Voters-NC State Office, Physicians for Social Responsibility, Sierra Club-Wenoca Group, UNC-A Environmental Quality Institute, Western Carolina Women's Coalition, Southern Appalachian Biodiversity Project, U.S. Public Interest Research Group-NC Field Office and WNC Alliance.

Councilman Cloninger clarified that this also applies to not only new industries but major expansions to new industries as well. He supported City Council's passage of the resolution, however, he would ask that City Council delete the word "unamended." He felt that it would be presumptuous of City Council, without knowing all of any potential amendments that might be on the table, which ones may be helpful and which ones may not be helpful.

Mr. Carlyle said that an important note in the summary of the permitting procedures Memorandum of Understanding on Air Quality, reads "The passage of any amendment to the MoU by a North Carolina signatory will render the agreement between NC and other signatory states invalid." Councilman Cloninger still recommended that the word "unamended" be deleted.

Councilwoman Field noted that all the organizations that encouraged City Council to adopt the resolution were environmental groups. She suggested that they encourage large business groups, like the Chamber of Commerce, to support the resolution in order to show the balance with other members in the community.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

FINANCING PURCHASE OF TWO FIRE TRUCKS AND A LOADER PACKER

Finance Director Bill Schaefer said that this is the consideration of a resolution authorizing the installment financing of two fire trucks and a loader packer.

The City of Asheville Fiscal Year 1998-1999 Capital Improvement Plan includes authorization in FY 98/99 for the purchase of two fire trucks (a severe service vehicle estimated to cost approximately $120,000 and a pumper/telesquirt costing approximately $255,000) and a loader packer for sanitation (approximately $120,000); all of which are to be financed.

The Finance Department sought proposals from 30 firms to finance the purchase of a bulldozer for the Public Works Department. Twelve proposals were received, the best of which was submitted by Wachovia Leasing Corporation - - 3.74% interest plus $250.00 closing cost. Wachovia Leasing Corporation has offered to extend those very favorable rates to finance other essential equipment authorized by our current budget.

Federal Tax laws make it advantageous for banks to lend to "bank qualified" governmental borrowers. As a result, banks can provide lower rates for loans to their "bank qualified" borrowers. For a local government to be "bank qualified" it must not contemplate issuing more than $10,000,000 in tax-exempt debt in the calendar year in which the loan is made. The City of Asheville is "bank qualified" in 1998; however, we do not expect to be in calendar year 1999.

We do not anticipate delivery of the fire trucks and loader packer until normal competitive procurement can be completed for each of them; which will not occur until well into calendar year 1999.

However, in order to take advantage of Wachovia's offer, the loan transaction must be closed not later than December 31, 1998. We propose to close the loan this year. We would then place the proceeds of the loan in escrow until each of the trucks is delivered, at which time funds would be drawn from escrow to pay the purchase price.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Wachovia Leasing Corporation for the purchase of two fire trucks and a loader packer and authorizes the City Manager to execute and deliver any and all necessary documents.

City staff recommends City Council adopt the resolution.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER BUSINESS

I-26 Connector

Mayor Sitnick said that a letter has been received from Tom Kendig, Project Manager from the N.C. Dept. of Transportation ("NC DOT"), relative to the I-26 construction and related improvements calendar of events. He said project is divided into two components: I-26 Interstate Highway Construction and the I-26 Connector. The I-26 Interstate Highway Construction project has gone through the entire process and is currently under construction. Workshops and public hearings were held at the appropriate times. With regard to the I-26 Connector, this portion of the interstate will connect with existing I-26 and the interstate under construction as described in the first component. There are two additional public workshops to be held on the I-26 connector. The first will be held during the first quarter of 1999 and the second will be held during the summer. In addition during the March to April timeframe, it is anticipated that the environmental assessment will be complete. After having received the information from the public workshops and the environmental assessment, the NC DOT will hold a public hearing more than likely in the summer of 1999. Asheville would be the location of the public hearing. The NC DOT is legally required to follow this process.

Upon inquiry of Mayor Sitnick, City Manager Westbrook said that he was not sure if the City could hold a joint hearing with the NC DOT, and he thought that what NC DOT suggested was that City Council go to their public hearing. If City Council chooses to hold their public hearing earlier than NC DOT's hearing, chances are that if NC DOT members are present, they will not have their environmental assessment complete and they won't have any answers regarding many questions, like noise.

It was the consensus of Council that it should be made clear to the Asheville residents that the Asheville City Council does not have a decision in this and that the public forum will only be to hear from the community to express their concerns and opinions about the I-26 Connector. The NC DOT will be invited as well to listen to the comments. The purpose of the forum will be for City Council to relay the community's concerns to the NC DOT.

It was the consensus of City Council to wait until Councilman Cobb is present before any decision is made.

Joint Meetings

Mayor Sitnick received a letter from Buncombe County Manager Wanda Greene which asks if the City Council would be interested in a brainstorming session with all the elected officials in Buncombe County. A suggestion was that it be an overnight retreat with an agenda and a professional facilitator. She asked that if City Council is interested, that some potential dates be suggested for the event.

138

It was the consensus of Council that they would be interested in this event and that it be held after their annual retreat, which is scheduled for the end of January 1999. The City Manager said that he would contact Ms. Greene regarding the agenda, to make sure that it is a commonly created agenda.

Closed Sessions

Mayor Sitnick said that she has asked the City Attorney to draft a paragraph to City Council about seeing if Council would be agreeable to having as few closed sessions as possible in the future. She said closed sessions would only be on personnel matters, legal issues and land acquisitions. As soon as that information is ready she will bring it to City Council for their consideration.

CLOSED SESSION

At 6:04 p.m., Councilman Cloninger moved to go into closed session to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange or lease - statutory authority is G.S. 143-18.11 (a) (5). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:37 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilwoman Field and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:37 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - November 24, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman M. Charles Cloninger

INVOCATION

Councilman Sellers gave the invocation.

I. PROCLAMATIONS:

A. PRESENTATION OF CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING AWARD

City Manager Westbrook presented Finance Director Bill Schaefer with the Certificate of Achievement for Excellence in Financial Reporting Award. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. The City of Asheville is proud to have received this award for the 18th year.

He also presented R. Patricia Leckey, City Accountant, with the Award of Financial Reporting Achievement. Ms. Leckey was designated the individual primarily responsible for preparing the award-winning comprehensive annual financial report.

Mr. Joe Elkins, Ms. Valerie Brown and Ms. Barbara Smith were also recognized for their work in achieving the awards.

B. PROCLAMATION PROCLAIMING DECEMBER 1, 1998, AS "WORLD AIDS DAY" IN THE CITY OF ASHEVILLE

Councilman Tomes read the proclamation proclaiming December 1, 1998, as "World Aids Day" in the City of Asheville and presented it to Ms Pam Kelly, Center Director for the Harvest House.

C. PROCLAMATION PROCLAIMING DECEMBER 10, 1998, AS "HUMAN RIGHTS DAY" IN THE CITY OF ASHEVILLE

Councilwoman Field read the proclamation proclaiming December 10, 1998, as "Human Rights Day" in the City of Asheville and presented it to Mr. George Yates and Ms. Betsy Ewing, who briefed City Council on some activities taking place during that day.

II. CONSENT:

A. RESOLUTION NO. 98-165 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER FOR THE LEASE BY PACK PLACE EDUCATION ARTS & SCIENCE CENTER INC. OF THE PROPERTY OWNED BY THE CITY OF ASHEVILLE AND KNOWN AS PACK PLACE EDUCATION ARTS & SCIENCE CENTER

Summary: The consideration of a resolution directing the City Clerk to advertise an offer from Pack Place Education Arts and Science Center, Inc. to lease the property owned by the City of Asheville and known as the Pack Place Education Arts and Science Center.

The City of Asheville owns the property on which the Pack Place Education Arts & Science Center is located. That property was leased to Pack Place Education Arts & Science Center, Inc. on December 13, 1988, for a ten (10) year term for the construction, operation and maintenance of the education, arts & science center.

The current lease with Pack Place Education Arts & Science Center, Inc. expires on December 12, 1998. Pack Place Education Arts & Science Center, Inc. has offered to lease the property again from the City for the continuing operation and maintenance of the education, arts and science center. Pack Place Education Arts & Science Center, Inc. desires to lease the property for more than ten (10) years.

N. C. Gen. Stat. sec. 160A-272 authorizes North Carolina cities to lease property for longer than ten (10) years if the lease is treated as a sale of property and is executed by following any of the procedures authorized for sale of real property in Article 12 of Chapter 160A of the North Carolina General Statutes. Of those procedures, N. C. Gen. Stat. sec. 160A-269 appears to be the most appropriate method for execution of a lease for more than ten (10) years for this property and requires that when an offer is made and the City Council proposes to accept it, a deposit shall be made with the City Clerk and the City Clerk shall publish a notice of the offer.

A deposit has been received and the general terms of the proposed lease are described in the notice.

City staff recommends the resolution directing the City Clerk to advertise the offer of the lease be adopted.

RESOLUTION BOOK NO. 25 - PAGE 42

B. RESOLUTION NO. 98-166 - RESOLUTION AMENDING THE MINORITY BUSINESS PLAN TO INCLUDE THE ASSISTANCE OF MINORITY FIRMS IN THE DEFINITION OF MENTOR-PROTÉGÉ PROGRAM

Summary: The consideration of a resolution to amend the Minority Business Plan in order to permit minority firms participation as mentors in the Mentor-Protégé Program.

In May of 1998, City Council adopted the Asheville-Buncombe Minority Business Plan. The Plan requires that "The Minority Business Commission shall establish a Mentor-Protégé Program." The Plan defines the Mentor-Protégé as "A program of the Minority Business Commission whereby ***non-minority*** firms provide assistance and mentorship to minority firms." (emphasis added) The Commission is currently working to implement the Mentor-Protégé program; however, they find the present program definition unnecessarily restrictive and exclusionary. There are many minority firms which have the experience, wisdom and commitment to serve as effective mentors; however, the current definition of the program unintentionally excludes their participation in the mentor role.

At their meeting on October 15, 1998, the Minority Business Commission recommended that the Plan's definition of the Mentor-Protégé program be amended to permit the inclusion of minority firms as mentors. Specifically revise the definition on page two of the plan as follows:

"**Mentor-Protégé Program** – A program of the Minority Business Commission whereby minority and non-minority firms provide assistance and mentorship to minority firms."

The resolution amends the Plan as recommended by the Minority Business Commission. The recommended revision to the Plan was adopted by the Buncombe County Commission earlier this month.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 44

C. RESOLUTION NO. 98-167 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE AN OFFER OF PURCHASE FOR UPSET BIDS REGARDING 110 MORRIS STREET

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids for 110 Morris Street.

A bid from Carol Lynne Jones, in the amount of $79,600.00, has been received for the purchase of 110 Morris Street. The bid is not less than the established minimum price of $79,500.00.

110 Morris is a residential lot and house near the corner of West Asheville Park comprising 13,503 square feet of land. The property was acquired along with the park property and is under the Parks & Recreation Department's control. The house contains 1,336 square feet of floor space, three (3) bedrooms, one and one half (1 1/2) baths and a full basement with drive-in garage. The bidder, Carol Lynne Jones, intends to occupy the residence as her home. She is a graduate of the Affordable Housing Coalition's Homebuyer Education Class.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff and the Parks & Recreation staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 45

D. RESOLUTION NO. 98-168 - RESOLUTION AUTHORIZING THE CITY MANAGER AND/OR MAYOR TO APPLY AND ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR A GRANT TO ASSIST WITH THE DEVELOPMENT OF HAW CREEK PARK

Summary: The consideration of a resolution to apply for grant funds to assist with the construction of Haw Creek Park through the N.C. Dept. of Environment and Natural Resources.

The development of Haw Creek Park represents the City of Asheville and the Haw Creek Neighborhood Association's long term goal to build a park in the Haw Creek community. The park is a collaborative effort between the City of Asheville and the Haw Creek Neighborhood Association, who has committed to raise $40,000 to assist with construction of the park. Haw Creek Park will be a passive park located on approximately 6.2 acres on Haw Creek Road, and will serve as a major destination along the proposed Haw Creek Greenway. Park features include a trail, picnic shelter, and paved parking. The grant funds will be used to add a toddler playground, a second picnic shelter, rest rooms, interpretive signage, and landscaping.

The Parks and Recreation Department is requesting $100,000 in grant funds which requires a 50% cash match. Funds for the match are currently available in the Capital Improvement Budget designated for Haw Creek Park.

The Parks and Recreation Department recommends the City Manager and/or the Mayor be authorized to apply for the grant and enter into the agreement to assist with the development of Haw Creek Park.

RESOLUTION BOOK NO. 25 - PAGE 46

E. ORDINANCE NO. 2528 - BUDGET AMENDMENT TO APPROPRIATE FUNDS TO THE POLICE DEPARTMENT IN SUPPORT OF A GRANT FUNDED PROJECT FROM THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM

Summary: The consideration of a budget amendment, in the amount of $50,000, to appropriate funds to the Police Department in support of a grant funded project from the NC Governor's Highway Safety Program.

The Police Department has been awarded a $37,500 grant from the NC Governor's Highway Safety Program (GHSP). The grant is for the purchase of equipment to support the department's traffic safety program; specifically five in-car computers and five speed detection devices.

GHSP guidelines require a local match of $12,500 for a total project budget of $50,000.

The City Council, at their meeting on July 28, 1998, authorized the application for this grant.

City staff recommends City Council adopt the budget amendment appropriating $50,000 to the Police Department budget.

ORDINANCE BOOK NO. 17 - PAGE 183

F. ORDINANCE NO. 2529 - BUDGET AMENDMENT TO APPROPRIATE FUNDS FOR THE 12TH YEAR OF THE FAIR HOUSING ASSISTANCE PROGRAM

Summary: The consideration of a budget amendment to continue federal funding for the twelfth year of the Fair Housing Assistance Program.

On April 28, 1987, the City of Asheville was recognized by Department of Housing and Urban Development (HUD) as having a fair housing enforcement program which is substantially equivalent to that of the Federal Fair Housing Act. The City has been carrying out its fair housing program under contract with the Asheville-Buncombe Community Relations Council and Fair Housing Commission since January 1988.

The City has received approval from HUD of $18,400 for the Fair Housing Assistance Program for the period October 1, 1998 - September 30, 1999. This will be the twelfth year of funding through this program. The program is administered under contract by the Asheville-

Buncombe Community Relations Council which provides staff support to the Asheville-Buncombe Fair Housing Commission. The City Community Development Division serves as Lead Entity and monitors the program.

Community Development staff recommends adoption of the budget amendment.

ORDINANCE BOOK NO. 17 - PAGE 185

G. RESOLUTION NO. 98-169 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO AN AMENDMENT TO THE AGREEMENT WITH J.L. DEBALL-GIRMES TO EXTEND THE COMPLETION DATE FROM JULY 1, 1998, TO OCTOBER 1, 1998

Summary: The consideration of a resolution authorizing the Mayor to enter into an amendment to the agreement with J.L. deBall-Girmes of America Inc.

Girmes applied for an Industrial Development Grant based on expansion plans that included investment in facility and equipment at their Old Charlotte Highway site of $2,000,000 by July 1, 1998, and $7,000,000 within two years. An increase in new jobs from between 12 to 16 were to be provided by July 1, 1998, and up to 50 by January 1, 2000. On August 12, 1997, City Council awarded an Industrial Development Grant, in the amount of $51,300, to J.L. deBall-Girmes of America Inc.

Due to unforeseen circumstances, certain equipment could not be delivered by the July 1, 1998, deadline. The equipment is now in place and Girmes has met all other requirements of the grant. They are requesting that the Grant Agreement be amended to change the completion deadline from July 1, 1998, to October 1, 1998. No other changes are requested.

Staff recommends that City Council (1) adopt a resolution authorizing the Mayor to amend the agreement with J.L. deBall-Girmes of America Inc. in order to extend the deadline in the agreement from July 1, 1998, to October 1, 1998, and (2) appropriate $51,300 in accordance with the agreement.

RESOLUTION BOOK NO. 25 - PAGE 47

H. ORDINANCE NO 2530- BUDGET AMENDMENT TO APPROPRIATE FUNDS IN ACCORDANCE WITH THE J.L. deBALL-GIRMES OF AMERICA INC. AGREEMENT

Summary: See Item G above.

ORDINANCE BOOK NO. 17 - PAGE 187

I. RESOLUTION NO. 98-170 - RESOLUTION CALLING FOR A PUBLIC HEARING ON DECEMBER 8, 1998, ON THE BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $18,500,000 GENERAL OBLIGATION REFUNDING BONDS AND DIRECTING PUBLICATION OF SAID PUBLIC HEARING AND FILING A DEBT STATEMENT

Summary: Introduction of the Bond Order by the Finance Director and the consideration of a resolution which calls for a public hearing on the Bond Order, directs publication of said public hearing and directs the filing of a debt statement.

At City Council's direction of November 10, 1998, the Finance Director has filed with the Local Government Commission an application for its approval of $18,500,000 General Obligation Refunding Bonds of the City of Asheville, North Carolina.

The Bond Order briefly describes the bonds to be issued in regard to: purpose; maximum amount; taxes to be levied; provides for a sworn statement of debt; and states the effective date of the Bond Order. The Bond Order will be published and a public hearing convened for its consideration prior to its proposed adoption by Council on December 8, 1998.

The Resolution calls for a public hearing on the Bond Order to be held on December 8, 1998 at 5:00 p.m. in the Council Chambers of the City Building; directs the City Clerk to publish notice of the public hearing no fewer than 6 days prior to the public hearing and directs the Finance Director to file with the City Clerk (prior to publication of the Bond Order and along with the notice of public hearing) a statement of the debt incurred or to be incurred, the appraised value of property subject to taxation by the City and the net debt of the City.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 48

J. INTRODUCTION OF BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $18,500,000 GENERAL OBLIGATION REFUNDING BONDS OF THE CITY OF ASHEVILLE, N.C.

Summary: See Item H above.

K. RESOLUTION NO. 98-171 - RESOLUTION DIRECTING PUBLICATION OF NOTICE OF INTENT TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BOND FINANCING

Summary: The consideration of the following three resolutions: (1) directing publication of notice of intention to apply to the Local Government Commission (LGC) for approval of bonds; (2) directing the Finance Director to submit an application to issue bonds for consideration by the LGC; and (3) making certain statements of fact concerning the proposed bond issue.

Based upon recommendations by the Parks and Recreation Master Plan Steering Committee and the Greenway Steering Committee, Council directed staff to proceed with a referendum for the issue of $18,000,000 Parks, Recreation and Greenway bonds. The resolutions are the first in a series of actions required by Council to effect issue of the bonds.

The general obligation bonds shall be for the following purposes and in the following maximum amounts: $18,000,000.00 of bonds for the purpose of providing recreation opportunities through the preservation and acquisition of land for open spaces, natural areas, environmental enhancements and greenways, including rights-of-way and easements; providing new recreation facilities, playfields and playgrounds, including acquisition of land, rights-of-way and easements therefor; and renovating existing parks and recreation facilities.

The first proposed resolution directs the City Clerk to publish "Notice of Intention to Apply to the Local Government Commission for Approval of Bonds". The notice states the purpose of the bonds, their maximum amount and provides instructions to citizens or taxpayers of the City of Asheville who object to the issue of bonds to file a written notice of their objection with the LGC and City Clerk within 7 days of the publication of the notice.

The second proposed resolution authorizes and directs the Finance Director to submit an application to the LGC to allow the City of Asheville to issue not to exceed $18,000,000 General Obligation Parks, Recreation and Greenway Bonds and allow the retention of Parker, Poe, Adams & Bernstein L.L.P. as bond counsel for the issue.

The third proposed resolution provides "statements of fact concerning proposed bond issue" in regards to: (A) the necessity of the proposed financing; (B) the amount of the bonds proposed; (C) past debt management policies; (D) past budgetary and fiscal management policies; and (E) increase in taxes and retirement of debt. These "statements of fact" are required in order for the LGC to make determinations necessary to approve the City's request to issue Refunding Bonds.

City staff recommends City Council adopt all three resolutions.

L. RESOLUTION NO. 98-172 - RESOLUTION AUTHORIZING THE FINANCE DIRECTOR TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF THE CITY'S PROPOSED GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BOND FINANCING AND TO SUBMIT SUCH APPLICATION TO THE LOCAL GOVERNMENT COMMISSION

Summary: See Item J above.

RESOLUTION BOOK NO. 25 - PAGE 52

M. RESOLUTION NO. 98-173 - RESOLUTION MAKING CERTAIN STATEMENTS OF FACT CONCERNING THE GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BOND

Summary: See Item J above.

RESOLUTION BOOK NO. 25 - PAGE 53

N. MOTION SETTING A JOINT PUBLIC HEARING ON DECEMBER 15, 1998, WITH THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION TO CONSIDER A LOCAL HISTORIC LANDMARK FOR BILTMORE INDUSTRY PROPERTIES AT 111 GROVEWOOD

O. RESOLUTION NO. 98-174 - RESOLUTION AUTHORIZING AN INSTALLMENT PURCHASE CONTRACT BETWEEN WACHOVIA LEASING CORPORATION AND THE CITY OF ASHEVILLE TO FINANCE THE ACQUISITION OF TWO FIRE TRUCKS AND A LOADER PACKER

Summary: The consideration of a resolution authorizing the installment financing of two fire trucks and a loader packer.

The City of Asheville Fiscal Year 1998-1999 Capital Improvement Plan includes authorization in FY 98/99 for the purchase of two fire trucks (a severe service vehicle estimated to cost approximately $120,000 and a pumper/telesquirt costing approximately $255,000) and a loader packer for sanitation (approximately $120,000); all of which are to be financed.

The Finance Department sought proposals from 30 firms to finance the purchase of a bulldozer for the Public Works Department. Twelve proposals were received, the best of which was submitted by Wachovia Leasing Corporation - - 3.74% interest plus $250.00 closing cost. Wachovia Leasing Corporation has offered to extend those very favorable rates to finance other essential equipment authorized by our current budget.

Federal Tax laws make it advantageous for banks to lend to "bank qualified" governmental borrowers. As a result, banks can provide lower rates for loans to their "bank qualified" borrowers. For a local government to be "bank qualified" it must not contemplate issuing more than $10,000,000 in tax-exempt debt in the calendar year in which the loan is made. The City of Asheville is "bank qualified" in 1998; however, we do not expect to be in calendar year 1999.

We do not anticipate delivery of the fire trucks and loader packer until normal competitive procurement can be completed for each of them; which will not occur until well into calendar year 1999. However, in order to take advantage of Wachovia's offer, the loan transaction must be closed not later than December 31, 1998. We propose to close the loan this year. We would then place the proceeds of the loan in escrow until each of the trucks is delivered, at which time funds would be drawn from escrow to pay the purchase price.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and Wachovia Leasing Corporation for the purchase of two fire trucks and a loader packer and authorizes the City Manager to execute and deliver any and all necessary documents.

City staff recommends City Council adopt the resolution.

RESOLUTION BOOK NO. 25 - PAGE 55

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING 720 HENDERSONVILLE ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT

ORDINANCE NO. 2531 - ORDINANCE TO REZONE 720 HENDERSONVILLE ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 5:14 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Urban Planner Carl Ownbey said that this is the consideration of an ordinance to rezone 720 Hendersonville Road from RS-8 Residential Single-Family High Density District to Highway Business District.

The owner and applicant, Mr. Alfred Berlin of Chammies Car Wash, has requested the rezoning of 720 Hendersonville Road (PIN No. 9647-20-82-9429) from RS-8 Residential Single-Family High Density District to Highway Business District. The property is adjacent to an existing property which is presently used as a car wash. The applicant owns both pieces of land. The lot in question is 39.98 feet wide, and is a non-conforming lot in the RS-8 district in which it is currently located. The Unified Development Ordinance requires a minimum lot width of 50 feet at the setback line in the RS-8 District.

The Planning staff reviewed the rezoning request and recommended approval. At their November 4, 1998, meeting, the Planning & Zoning Commission voted seven to zero to recommend approval of the rezoning.

Mayor Sitnick closed the public hearing at 5:20 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2531. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 16 - PAGE 189

B. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A WIRELESS TELECOMMUNICATION FACILITIES ORDINANCE

Summary: The revised definition of antenna, as recommended by the Planning and Zoning Commission, is closely linked to the telecommunications facilities ordinance. In fact, the new definition of antenna is incorporated into the draft telecommunications facilities ordinance. For this reason, and to avoid unnecessary duplication of efforts, staff would like the City Council to consider these items at the same time. The Planning and Zoning Commission, at their November 2, 1998, meeting, continued consideration of the draft telecommunications facilities ordinance until their December 2, 1998, meeting. As a recommendation from the Planning and Zoning Commission is required prior to consideration of an ordinance amendment by City Council, the City Council will not be able to consider this at their November 24, 1998, meeting. In order to provide the opportunity for Council to deal with both these ordinance amendments at the same time, staff is requesting that Council continue the consideration of the ordinance amendment until your January 12, 1999, meeting.

Councilman Sellers moved to continue the public hearing until January 12, 1999. This motion was seconded by Councilwoman Field and carried unanimously.

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 98-175 - RESOLUTION ADOPTING FINDINGS OF FACT AND CONCLUSIONS OF LAW RELATIVE TO THE DENIAL OF THE CONDITIONAL USE APPLICATION TO LOCATE A TELECOMMUNICATIONS TOWER AT 754 MERRIMON AVENUE

City Attorney Oast said that the order contains findings of facts and conclusions of law taken from City Council's discussion after their public hearing on November 10, 1998.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that, as he interprets the ordinance, the burden is on the applicant to establish that certain conditions been me. Based on Council's comments after the public hearing, Council did not think that some of the conditions had been met.

Since Councilman Cloninger was not at this meeting, Councilman Sellers asked if he had been given an opportunity to review the order. City Attorney Oast said that he did talk with Councilman Cloninger and Councilman Cloninger said that he had confidence in the Council to make sure the order was proper.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 98-175. This motion was seconded by Councilman Sellers and carried unanimously.

Councilwoman Field did not believe that any cell tower could be in harmony with the scale, bulk and character of any area or neighborhood in Asheville. As long as that stays in as a condition in part of the conditional uses, she didn't see how City Council could site a cell tower anywhere in the community, except maybe in an industrial district. She asked the City Attorney to provide to Council clarification on that part of the conditional use process, with regard to cell towers.

RESOLUTION BOOK NO. 25- PAGE 57

V. NEW BUSINESS:

A. RESOLUTION NO. 98-176 - RESOLUTION IN SUPPORT OF NORTH CAROLINA ADOPTING PERMITTING PROCEDURES FOR AIR QUALITY IN THE SOUTHEAST

City Attorney Oast said that at City Council request, he has prepared a resolution and summary of the Memorandum of Understanding ("MOU"). He said that the Buncombe County Commissioners adopted a similar resolution last week. At Councilman Cloninger's request, there is no reference to the unamended MOU. He felt that Councilman Cloninger's request was that since the State of North Carolina is primarily responsible for administering the law and would be responsible for administering the MOU, they should be the ones who decide how much time they need or how much time is advisable. He said that basically the MOU formalizes the process for involving land managers for several federal agencies in the air quality permitted decisions that are made in the State of North Carolina, primarily the Dept. of Interior and the Dept. of Agriculture, and ensures that they get involved in the process and they have input into the state agency decisions if they wish to.

Dr. Richard Mass, UNC-A Environmental Quality Institute, urged City Council to sign a resolution asking Governor Hunt and the State of North Carolina to agree to sign onto the MOU to cooperate with the State of Tennessee on air quality permits in both states to protect the Class 1 air sheds of the Smoky Mountain National Park and other federal lands. He briefly reviewed the six addenda which the State of North has tacked on the agreement that the State of Tennessee has already signed. He said that four are amendments to the preamble and they don't affect the agreement. One is unclear and the other amendment (addendum 5)) is one that basically everyone disagrees with and hopefully they will go back and change it. Addendum 5 is the only amendment that both the federal land managers with the National Park Service, the U.S. Forest Service and the Fish and Wildlife Service along with the State of Tennessee has disagreed with. It says there can only be a 30 day period from the time the application is made before federal land managers have to sign whether they will go along with it or not. All concerned believe that this is too short a time, noting that in the original MOU it allowed 60 days and he doesn't know why the State of North Carolina wanted to propose the shorter time frame. It basically precludes the possibility of having public input. He again asked City Council to endorse the MOU without the amendments with some type of notation that they disagree with Addendum 5 that shortens the comment period to 30 days.

Councilwoman Field suspected that the reason for the 30 days period was to speed up the process so that if indeed industry is impacted that there is some kind of deadline for when the agency has to respond.

City Attorney Oast pointed out that because we have a lot of national park land around Asheville that the federal land managers may view industries locating in this area as tending to affect the air quality of those areas more than industries in another part of the state for instance. He emphasized that this does not impose any stricter pollution discharge requirements on anyone, but it does mandate a process.

Mayor Sitnick said that essentially this is asking new industry to comply with existing regulations. There is nothing new imposed here. Given the fact that the Smoky Mountain National Park is one of the most polluted in the country, we need to be doing everything we can to ask new industry to comply. She felt that even 60 days is not that long of period of time when you consider 90 and 120 days in other pieces of federal legislation.

City Attorney Oast said that one of the reasons that the State of Tennessee desires a longer time period is that it provides more of an opportunity to work out differences and perhaps adopt some mitigating standards that maybe a 30 day time period may not allow for.

The following individuals spoke in support of City Council signing the unamended MOU for various reasons:

Ms. Hazel Fobes
Ms. Susan Kask, Economics Professor at Western Carolina University
Mr. Kim Carlyle
Mr. Mike Morgan
Mr. Keith Thompson, 1 Bridle Path
Dr. Harvard Ayers, Professor of Sustainable Development and Anthropology at Appalachian State (presented City Council with a book entitled "An Appalachian Tragedy")
Mr. Allen Frank
Mr. Ted Prosser, business owner and real estate developer
Mr. Hal Hogstrom, retired academic

Mr. Carlyle said that at Council's worksession on November 17, a suggestion was made that other groups, other than environmental groups, should be contacted to see if they would be willing to endorse City Council's signing the unamended MOU. He said that they now have signatures from the American Lung Association, BB&T Insurance Services, Hawk & Ivy Bed and Breakfast, Landmark Management Inc., Mike Byer Auto & Truck Repair, NC League of Women Voters, Physicians for Social Responsibility, and Western Carolina Women's Coalition, in addition to other businesses.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-176 which does not address any amendments. This motion was seconded by Councilman Cobb.

Councilman Cobb said that we have serious pollution problems and we will have to find a way to address them. He felt that it will take a concerted effort by the businesses and local citizens to work on this problem. He also felt that there should be some way to obtain money from the tourist business to help off-set some of the problems we have as a result of tourism.

Mayor Sitnick stated that the environment is no longer a political issue. This is not just about tourists breathing clean air and not just about luring new business and jobs, which is part of our responsibility and something we are committed and dedicated in doing. This is also about the people who live here being healthy. She was pleased to take this small step to encouraging our legislators on a state and federal level to create a very balanced and even-handed approach to compliance with the laws that we finally have in place. She appreciated the support from the environmental community, which she expected, and really appreciated the support from the business community.

After a brief discussion, Councilman Tomes agreed to amend this motion to adopt Resolution No. 98-176, with an additional note that the Asheville City Council is concerned about the issues raised in Addendum 5 which may have the affect of limiting public input in the process. Councilman Cobb agreed to amend his second. This motion carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 63

Mayor Sitnick instructed the City Clerk to arrange for Dr. Maas and Dr. Ayers to make a presentation to City Council, in a future worksession, similar to their presentation they made for Leadership Asheville which was very informative.

B. RESOLUTION NO. 98-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE A LEASE FOR THE ASHEVILLE MOTOR SPEEDWAY FOR 1999

City Attorney Oast said that this resolution is the consideration of a resolution authorizing the City Manager to negotiate a lease for the Asheville Motor Speedway ("AMS") for 1999.

After meetings and discussions with NASCAR officials, RiverLink representatives, potential Speedway operators, representatives of the racing community, and City staff, the following facts, observations and recommendations have emerged:

1. The NASCAR sanction should be applied for by mid-December; NASCAR would prefer that an operator be identified prior to issuing the sanction.

2. RiverLink and its donors have indicated that their agreement to suspend the use restrictions for 1999 will depend on who the operator will be.

3. The recommended arrangement for operation of AMS in 1999 is for the City to lease it to an operator, with sufficient insurance, indemnity and other provisions to insure that the City, RiverLink and others are insulated from liability. Other provisions would deal with noise, environmental matters, and operational issues. The following is a general summary of proposed lease terms:

Statutory Authority: G.S. 160A-272.

- Authorizes City to enter into leases for its property.
- If lease is for less than one year, no requirement for public notice, and City Manager may be delegated authority to lease (and presumably to negotiate).

Lease Period:

- Beginning December 1998 or January 1999, and ending October 1999.
- Establish racing calendar (historically every Friday night, April through mid-October).
- Establish practice days (historically open practice has been Wednesday, with some individual practice at other pre-arranged times).

Rental:

- Should be a straight rental, payable in monthly installments.
- No percentages – operator keeps profit, absorbs loss.

Liability Issues:

- Operator assumes all risks of operation.
- Blanket indemnity for City.
- Adequate insurance to be provided (determined by Risk Manager).
- Environmental issues: Lessee to operate safely; pay for Phase I assessment at end of lease.

Operational Issues:

- Noise: Must operate within applicable noise restrictions.
- Traffic: Must make adequate provision for traffic/parking.
- Maintenance: Structures, grounds to be maintained by lessee; City not responsible for repairs.
- Utilities: Lessee to provide.
- Concessions, Advertising, Medical, Access, etc.: All to be handled by lessee for period of the lease.

NASCAR Issues:

- Operator must obtain/maintain NASCAR sanction
- Operator must abide by all NASCAR rules and regulations

Other Matters:

- Lease subject to approval by RiverLink, other donors/predecessors in title.
- Final form to be approved by City Council prior to authorization to execute.

4. Because the lease would be for one year or less, the City Manager may be given authority to enter into it on the City's behalf. Also, the usual notice provisions are not applicable, which gives some flexibility in scheduling.

5. RiverLink or its donors have indicated that a minimum rental of $200,000 is a condition of their agreement for allowing operation in 1999. Council may adopt this as baseline rental or may establish other guidelines. Our information indicates that "move in" costs will be between $30,000 and $50,000. Council may also direct the Manager to negotiate the best agreement possible, keeping in mind the City's concerns and the conditions suggested by others whose approval is required.

6. This is not a matter for which competitive bidding is required. Our discussions with NASCAR indicate that word of the AMS situation has spread though the racing community, and that the individuals who are interested in operating AMS in 1999 have already contacted us. Moreover, there has been plenty of publicity through various channels. Council may direct staff to issue a Request for Proposals, but it appears unlikely that doing so would generate any more interest or additional proposals, and it would add time to a tight schedule.

Council should establish those guidelines that it thinks appropriate and authorize the Manager to negotiate within those guidelines. The resolution may authorize the Manager to enter into the lease, or for the lease to be presented to Council for final approval. The proposed resolution directs the Manager to return to Council for final approval.

City Attorney Oast emphasized that discussions have gone well and there are still a lot of things that need to fall in place. He asked that two additional lease provisions be included: (2) That the lease be so constructed to allow for use by other events during the 1999 season (that is consistent with the way it has been used in the past); and (2) There be a no sub-let provision.

Upon inquiry of Mayor Sitnick about whether the NASCAR sanctions have already expired, City Attorney Oast said that it is his understanding that the sanctions expire on December 31. NASCAR indicated that they have a strong interest in remaining in western North Carolina and that they would work with us to allow racing to continue in the area in perpetuity and next year at the Asheville Motor Speedway.

Councilman Sellers agreed with the City Attorney that all the meetings have been very productive and he would support adopting the resolution to keep moving forward.

Mayor Sitnick, on behalf of City Council, thanked the City Attorney for the excellent work he has done as a participant in the meetings and as a negotiator.

Councilwoman Field said that the City is very thankful to RiverLink for providing the City the opportunity to have park land on the river to provide for a greenway which we have been working on for a very long time. She personally has tremendous respect for what RiverLink has done to provide the City with this. However, she expressed concern that one of the anonymous donors requested that if the City did lease the property that all of the proceeds of the lease be held by RiverLink. She personally felt that since this is the City's property, the City should certainly be as responsible a party as RiverLink for holding this money in escrow or however the City decides to use it. City Attorney Oast said that this issue is being negotiated, noting that the point the City is making is that whatever revenue that comes in from the operation of this would be earmarked for parks and recreation purposes and perhaps a large portion of it specifically for the area encompassed by this property.

City Manager Westbrook said that if Council gives him the authority to negotiate the agreement, it will have to be fair for the City, work for the racing community and RiverLink will want for it to be fair to them and their donors. He said that there will be compromise, but he will not come back to Council to recommend anything that will not work for the City. He said there are still a number of issues being worked out.

Mayor Sitnick felt there should be some type of recognition of the historical and cultural aspect of the speedway. Also, she recommended that when the negotiations come to fruition that we do have public notice and opportunity for public comment.

Councilman Tomes was elated to see the spirit of the community working together and commended all the parties involved.

Vice-Mayor Hay spoke in appreciation of Councilman Sellers' work on this issue.

Mayor Sitnick said that while the City is looking out for the City, the racing community and RiverLink, it would be her hope that when this is negotiated and when this race track goes on line again that we are committed to enforcing the noise ordinance out of consideration for the citizens of Asheville, as much as we are committed to having a win-win solution for the racing community.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast explained that if the City conveyed the property to someone else, the property would be subject to the same restrictions and it would be up to the donors whether or not to lift them for any amount of money.

City Attorney Oast thanked Representative Martin Nesbitt, Ron Crane, Karen Cragnolin, Doug Wilson and Councilman Sellers for their cooperation in working on this issue.

Representative Nesbitt appreciated Council's work on this issue.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 98-177. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25- PAGE 64

At 6:40 p.m., Mayor Sitnick announced a short break.

C. RESOLUTION NO. 98-178 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Hay said that the term of Gene Ellison expired on November 13, 1998. This resolution will reappoint Mr. Ellison to serve an additional three year term, term to expire November 13, 2001, or until his successor has been appointed.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Vice-May Hay moved for the adoption of Resolution No. 98-178. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 66

D. RESOLUTION NO. 98-179 - RESOLUTION APPOINTING A MEMBER TO THE AMERICANS WITH DISABILITIES ACT COMPLIANCE COMMITTEE

Vice-Mayor Hay said that Margie Liverman has resigned her position on the ADA Compliance Committee, leaving an unexpired term until August 22, 2001. On November 10, 1998, City Council interviewed Richard Evans, Connie Barnette and Sherry Fitzpatrick.

Councilwoman Field felt that after interviewing Ms. Barnette, she felt she would be a fine candidate for the Fair Housing Commission.

Councilwoman Field nominated Sherry Fitzpatrick.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Sherry Fitzpatrick was unanimously appointed to serve the expired term of Ms. Liverman, term to expire August 22, 2001, or until her successor has been appointed.

RESOLUTION BOOK NO. 25 - PAGE 67

E. RESOLUTION NO. 98-180 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Hay said that the terms of Bud Taylor (Regular), Dennis Hodgson (Regular) and Joseph Brady (Alternate) on the Board of Adjustment expire on January 21, 1999. Also, Allen Roderick has resigned as an Alternate, thus leaving an unexpired term until January 21, 2001.

On November 4, 1998, it was Council's intent to (1) reappoint Mr. Brady as an alternate member to serve an additional three year term, term to expire on January 21, 2002; and (2) reappoint Dennis Hodgson as a regular member to fill an additional three year term, term to expire January 21, 2002.

On November 10, 1998, City Council interviewed Lauren Malinoff, Chris Goodwin, Patricia Grant and Sondra Slosman.

Mayor Sitnick nominated Lauren Malinoff as a Regular member.

Councilman Sellers nominated Patricia Grant as a Regular member.

Councilman Cobb nominated Chris Goodwin as a Regular member.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted: Lauren Malinoff received four votes, Patricia Grant received one vote and Chris Goodwin received one vote. A resolution would be prepared to appoint Lauren Malinoff as a Regular member to serve a three year term, term to begin on January 22, 1999, and expire on January 21, 2002, or until her successor has been appointed.

Vice-Mayor Hay moved to reappoint Dennis Hodgson as a Regular member to serve an additional three year term, term to expire on January 21, 2002, or until his successor has been appointed. This motion was seconded by Councilman Cobb and carried unanimously.

Councilman Sellers nominated Patricia Grant as an Alternate member.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Patricia Grant was unanimously appointed to serve as an Alternate

155

member to serve the unexpired term of Mr. Roderick, term to expire January 21, 2001, or until her successor has been appointed.

Vice-Mayor Hay moved to reappoint Joseph Brady as an Alternate member to serve an additional three year term, term to expire on January 21, 2002, or until his successor has been appointed. This motion was seconded by Councilwoman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 68

F. RESOLUTION NO. 98-181 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL

Vice-Mayor Hay said that the terms of Bernadette Thompson and Cassandra Ingram expire on December 31, 1998. On November 4, 1998, City Council desired to waive it's rules relative to individuals serving only two full successive terms, and reappoint Ms. Thompson. This resolution will reappoint Ms. Thompson and Ms. Ingram to each serve an additional three year term, terms to expire December 31, 2001, or until their successors have been appointed.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Vice-Mayor Hay moved to reappoint Ms. Cassandra Ingram to serve an additional three year term, term to expire December 31, 2001, or until her successor has been appointed. This motion was seconded by Councilman Sellers and carried unanimously.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Vice-Mayor Hay moved to waive the rules relative to individuals serving only two full terms and reappoint Ms. Bernadette Thompson to serve an additional three year term, term to expire December 31, 2001, or until her successor has been appointed. This motion was seconded by Councilman Cobb and carried unanimously.

Councilwoman Field asked that the City Clerk notify the Chairs of individuals boards at the beginning of the quarterly appointment process that there are upcoming vacancies on their respective boards so that they have enough time to meet and submit their recommendations.

RESOLUTION BOOK NO. 25 - PAGE 69

G. RESOLUTION NO. 98-182 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE FAIR HOUSING COMMISSION

Vice-Mayor Hay said that the terms of Jim Drummond, Joyce Harrison and Jim Barrett expire on December 31, 1998. On November 10, 1998, City Council interviewed Leslie Hennessee, Bill Branyon and Kim Moore. Steve Rice was interested in the vacancy, however, he was not able to attend on the interview date.

Councilwoman Field nominated Connie Barnette.

Vice-Mayor Hay nominated Steve Rice.

Mayor Sitnick nominated Kim Moore.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Connie Barnette (subject to her agreeing to serve on this Commission), Steve Rice and Kim Moore were appointed to serve as members on the Fair

Housing Commission to each serve a three year term respectively, all terms to begin on January 1, 1999, and expire on December 31, 2001, or until their successors have been appointed.

RESOLUTION BOOK NO. 25 - PAGE 70

H. RESOLUTION NO. 98-183 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Hay said that the term of Jerry VeHaun expires on January 1, 1999. On November 10, 1998, City Council interviewed Lloyd Williams Sr.

Councilman Cobb nominated Lloyd Williams.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Lloyd Williams. Sr. was unanimously appointed to serve a two year term, term to begin on January 2, 1999, and expire on January 1, 2001, or until his successor has been appointed.

RESOLUTION BOOK NO. 25 - PAGE 71

I. RESOLUTION NO. 98-184 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Hay said that Jim Orr and Bill Stewart have resigned their positions on the Recreation Board, thus leaving two unexpired terms until June 30, 2000. On November 10, 1998, City Council interviewed Jamie Deveney, Frank Fishburne and Barbara Weinkle. Thomas House and John Moyer were both interested in the vacancy, however, they were unable to attend on the interview date.

Councilwoman Field nominated Frank Fishburne and Barbara Weinkle.

Vice-Mayor Hay nominated Thomas House.

Councilman Cobb nominated John Moyer.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, each Council member voted for two candidates: Frank Fishburne received four vote, Thomas House received four votes and Barbara Weinkle received three votes. Therefore, the resolution would appoint Frank Fishburne and Thomas House to serve as members on the Recreation Board to serve the unexpired terms of Mr. Orr and Mr. Stewart. Each term will begin immediately and expire on June 30, 2002, or until their successors have been appointed.

RESOLUTION BOOK NO. 25 - PAGE 72

J. RESOLUTION NO. 98-185 - RESOLUTION APPOINTING A MEMBER TO THE RIVER DISTRICT DESIGN REVIEW COMMITTEE

Vice-Mayor Hay said that there currently exists a vacancy on the River District Design Review Committee for a design professional, including, but not limited to, architects, engineers or qualified artists. On November 4, 1998, it was City Council's intent to appoint Robert Camille Jr. to serve a three year term, term to begin immediately and expire on September 1, 2001, or until his successor has been appointed.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Vice-Mayor Hay moved for the adoption of Resolution No. 98-185. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 73

K. RESOLUTION NO. 98-186 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE TRANSIT AUTHORITY

Vice-Mayor Hay said that the term of Nick Koon expires on December 31, 1998. On November 10, 1998, City Council interviewed Nick Koon and Robert Potter.

Councilman Cobb nominated Robert Potter.

Councilwoman Field nominated Nick Koon.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, Robert Potter was unanimously appointed to serve a four year term, term to begin on January 1, 1999, and expire on December 31, 2002, or until his successor has been appointed.

RESOLUTION BOOK NO. 25 - PAGE 74

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 10, 1998, AND THE WORKSESSION HELD ON NOVEMBER 17, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on November 10, 1998, and the worksession held on November 17, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

B. FEES AND CHARGES COMMITTEE

Councilman Cobb moved to request that the Fees & Charges Committee meet to revisit the fee that is currently being charged to use community centers. This motion was seconded by Councilman Sellers and carried unanimously.

C. REAFFIRMATION OF CITY COUNCIL'S SUPPORT FOR CITY ATTORNEY OAST

Because there have been a lot of comments about City Council's poor choice in having Robert Oast as the City's legal counsel, Councilwoman Field moved to reaffirm City Council's support of City Attorney Oast as City Council's legal counsel. This motion was seconded by Councilman Sellers. After each Council member voiced their praise, confidence and support of City Attorney Oast, the motion carried unanimously.

D. ASHEVILLE AREA CIVIC CENTER COMMISSION

Vice-Mayor Hay, liaison to the Civic Center Commission, read two resolutions adopted by the Civic Center Commission. One resolution supports the Future of the Asheville Civic Center Task Force's proposal to the City Council on enhancement of the Civic Center and appreciated the Task Force's efforts to sustain the future of the Civic Center as a strong force in entertainment, economic impact and unity within our community. The other resolution supports City Council's decision to disallow fee reductions for the use of the Civic Center by the Honda Hoot motorcycle rally, recognizing that the Honda Hoot is an exciting and beneficial event for our City and one that the Civic Center seeks to actively support.

B. CLAIMS

The following claims were received by the City of Asheville during the week of November 6-12, 1998: Bell South (Water), Brian Hasmuck (Police) and Crystal Coomer (Streets).

The following claims were received by the City during the week of November 13-19, 1998: Bell South (Streets), Bonnie Grainger (Water), Kim Carnes (Water) and Roger McPeters (Sanitation).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. BOARD APPOINTMENTS

Mr. Mike Morgan asked City Council to consider adopting a policy to the effect that all members on boards should be U.S. citizens.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:25 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 1, 1998- 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; and Councilman Thomas G. Sellers; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman O.T. Tomes

CONSENT:

Intent to Close an Unnamed Alley between Michigan Avenue & Richmond Avenue

Summary: The consideration of a resolution of intent to set a public hearing on January 12, 1999, to close an unnamed alley between Michigan Avenue and Richmond Avenue.

A petition has been received from James H. and Mona G. Justice, Richard A. and Shirley J. Page and Jose and Guiller Nina T. Valazquez, owners of parcels 9638-15-54-5274, 5196, and 6293 requesting that a portion of an unnamed and unopened alleyway between Richmond Avenue and Michigan Avenue be permanently closed to public use. These individuals own all of the property with frontage on the portion of the unopened alleyway between Richmond Avenue and Michigan Avenue that has been petitioned to be closed.

The Public Works Department staff recommends City Council adopt the resolution of intent to set a public hearing on January 12, 1999, to permanently close the unnamed and unopened alleyway between Richmond Avenue and Michigan Avenue.

Acceptance of Remainder of Bear Knoll Drive

Summary: The consideration of a resolution authorizing the City Manager to accept the remaining portion of Bear Knoll Drive for street maintenance.

Trappers Run is an existing subdivision in the City. The developer completed the streets in the subdivision several years ago and turned the streets over to the City to maintain. Since that time, Bear Knoll Drive has been extended and a cul-de-sac constructed. The developer has now completed this portion of the street and is requesting that the City accept the street for maintenance. Engineering Department staff along with Public Works staff have inspected the road and found it to be in compliance with our Standard Specifications.

Staff requests Council authorize the City Manager accept the remaining portion of Bear Knoll Drive for City maintenance.

Section 108 Loan Guarantee

Summary: The consideration of a resolution to authorize the mayor to execute a Contract for Loan Guarantee Assistance, Fiscal Agency Agreement, Notes, and other documents in connection with a Section 108 Loan Guarantee from the U. S. Department of Housing and Urban Development (HUD) to generate $1.5 million for rental rehabilitation loans.

On April 1, 1998, the Mayor executed a Funding Approval/Agreement with the Dept. of HUD for a 1.5 million dollars Section 108 loan guarantee pursuant to the application for same approved by City Council Resolution No. 97-211 and submitted by the City of Asheville on December 16, 1997. The Section 108 loan guarantee program enables Community Development Block Grant (CDBG) entitlement grantees to borrow money from the federal government at low interest rates for CDBG eligible activities. The proceeds of the proposed loan will be loaned to investor owners through the City of Asheville Rental Rehabilitation for Owners and Tenants (CARROT) loan program. The Section 108 loan funds will be used to provide decent housing opportunities for low and moderate income households at affordable rents.

The Section 108 loan will be secured by a series of ten (10) Notes of $150,000 each with different maturity dates ranging from one to ten years to be repaid using program income from the CARROT loans, program income from the existing rehabilitation loan portfolio and as necessary a portion of the CDBG entitlement funds. The CARROT loans will be secured by deeds of trust which will be assigned to the Dept. of HUD. The goal of the Section 108 project is to rehabilitate 150 rental units over a three year period of time.

Community Development staff recommends approval of the resolution.

Storefront Door Replacement at Civic Center

Summary: The consideration of a resolution to authorize the City Manager to enter into a construction contract to replace the storefront doors at the Civic Center.

An ADA accessibility study was completed for the Civic Center and City staff has determined that the storefront doors at the entrance to the Civic Center do not meet Federal Guidelines for accessibility. City staff solicited sealed bids from ten General Contractors, three of which were minority contractors, for the replacement of storefront doors at the Civic Center. The following bids were received:

KEKO, Inc.	$ 179,672
Carolina Construction and Investment Co.	$ 180,909
R P F Construction, Inc.	$ 142,880

Approved funding is available in the Civic Center account to pay for this renovation to replace the storefront doors at the Civic Center.

The Parks and Recreation Department staff requests City Council to direct the City Manager to enter into a contract for $142,880 with R P F Construction, Inc., to replace the storefront doors at the Civic Center.

Project Budget Authorization

Summary: The consideration of a budget amendment to officially establish project budgets in the amount of $220,000 for Phase II of W.T. Weaver Boulevard Greenway, $200,000 for Pritchard Park, $50,000 for Haw Creek Park, and $20,000 for park improvements.

Funds for Phase II of the W.T. Weaver Boulevard Greenway, Pritchard Park development, Haw Creek Park, and park repairs and renovations were authorized through the City of Asheville's Capital Improvement Program. Funds had been held in a capital reserve account until it was necessary to begin work on these projects. This ordinance will officially establish project budgets for W.T. Weaver Boulevard, Pritchard Park, Haw Creek Park, and park improvements using funds formerly held in capital reserve.

161

Staff recommends City Council officially establish budgets for the aforementioned projects.

Acceptance of Elderly and Disabled Transportation Assistance Program Grant

Summary: The consideration of entering into an agreement with Buncombe County through its Mountain Mobility System program in order to take advantage of a $5,000 grant to transport the elderly to recreation programs.

The City of Asheville has obtained a $5,000 grant of state money routed through Buncombe County for use in the Mountain Mobility System, and which may only be used to transport the elderly to recreation programs. The Parks and Recreation Department will use this money for special events and additional transportation to events for seniors. These events include such things as the Asheville Symphony, Home Shows, The WNC Fair, concerts at Civic Center, the N.C. Arboretum, etc. These are new trips which the Department has not provided prior to this grant.

This grant involves no commitment of City funds to match or otherwise contribute to this grant. The grant will take the form of a credit, and will be applied to Mountain Mobility System use by the Parks and Recreation Department.

City staff recommends City Council authorize the City Manager to enter into an agreement with Buncombe County through its Mountain Mobility System program to transport the elderly to recreation programs.

Setting a Public Hearing to Reallocate CDBG Funds from Hill Street/Cherry Street to City-Wide Rehabilitation

Summary: The consideration of a motion setting a public hearing on January 12, 1999, to reallocate $160,000.00 of Community Development Block Grant (CDBG) funds from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program in order to utilize current funds according to immediate needs.

The Hill Street/Cherry Street Project is the CDBG budget title for the Head of Montford Redevelopment Project activities. The need for Redevelopment Project activities has diminished with the increase in private investment in the Montford area. Indeed the increase in property values in Montford has outdone the average for Asheville by two times. To a large extent all of the goals of the redevelopment plan have been realized. Although some work remains to be done, funding for such activities should be routed through the CDBG funding process as specific projects are developed. The project budget has a current balance of $172,600.00 which has been carried over from prior years and represents funds that were not needed to carry out the activities for which they were originally scheduled. The projected need to fund currently planned activities amounts to approximately $12,600.00 leaving a balance of $160,000.00. The City Wide Rehabilitation Program has an immediate need for funds for homeowner rehabilitation loans. In assessing the need for funds in Montford compared to the shortfall of funds for homeowner rehabs CD staff have determined that a greater need exists in the City Wide Rehab Program.

The reallocation of $160,000.00 for which no activities are currently planned from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program will enable the rehabilitation of an additional five to seven homes.

The Community Development staff recommends City Council set a public hearing on 1/12/99 to consider the reallocation of $160,000.00 of Community Development Block Grant funds from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program.

Office Space for VISION

Summary: The consideration of a request from the VISION for Asheville-Buncombe for an extension of time for use of city office space.

City staff has received a request from the VISION to extend the commitment for donated office space from the City of Asheville from December 31, 1998 to June 30, 1999. Currently, the VISION utilizes office space in the City Development Office located at 29 Haywood Street. The VISION Board of Directors has indicated that they will call an Executive Committee meeting in the near future to discuss options for VISION office space. They have indicated that they will review available options over the next several months. As of this time, City staff is not aware of any other available space from the City of Asheville that could meet the needs of VISION.

Due to the addition of the Cable Coordinator position and associated equipment, all of which will be housed at the City Development office, it is anticipated that this office space will be needed by the City. This position will likely be filled by February 1, 1999.

Staff recommends that City Council approve the extension of time from December 31, 1998, through June 30, 1999, for the VISION office space to allow them an opportunity to make alternate arrangements for office space.

Mayor Sitnick was interested in using the space left vacant by VISION for possibly a central location for the City to sell souvenirs.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RECOGNITION OF OFFICER GROVER MATHEWS

On behalf of City Council, Mayor Sitnick praised Officer Grover Mathews from the Asheville Police Department who saved a life by performing the Heimlich maneuver.

UPDATE ON THE TREE/GREENWAY COMMISSION'S ACTIVITIES

Mr. Kasty Lavtin, Chairman of the Tree/Greenway Commission, said that the mission statement for the Commission is to support the vitality of the City's trees through professional arboricultural practices and conscientious stewardship. The Commission also assists in decisions about tree planting and preservation, engages in dedicated advocacy, and promotes public awareness concerning the importance of trees and greenways. This is accomplished though education and code enforcement. He said that the Commission has worked hard in the past year to establish itself as a community resource advocating trees and flora amenities.

He reviewed the Commission's accomplishments in 1998: (1) "Trees Today - Tomorrow" Seminar in March of 1998; (2) Commission retreat in August of 1998 in which they drafted the mission statement and goals and objectives for next year; (3) Tree Response Committee for proactive field work and pragmatic solutions; (4) participation in Pritchard Park Planning; (5) Greenway liaison for master planning; (6) participation in the Unified Development Ordinance's Technical Review Committee; and (7) development of administrative procedures regarding permits, letters and code enforcement..

Mr. Lavtin outlined their goals and objectives, which are (1) Education Program consisting of verbal - slide program, brochures and booklets, and seminar; (2) Continuing "Tree Response" activities; (3) Pro-active code enforcement; and (4) Commission funding mechanism.

Mayor Sitnick spoke very highly of the Tree/Greenway Commission members and it's important role in the City of Asheville.

DOWNTOWN PLAN COMMITTEE

Ms. Karen Tessier reviewed with City Council the background of the Downtown Master Plan process to date. She said the downtown Asheville has experienced tremendous growth and change during the last ten years. There is now a variety of diverse needs, agendas and opportunities that have evolved since the revitalization process began. Things to consider now include a compatibility of new market segments and socio-economic groups as well as lifestyle and business patterns. New goals need to be set to develop central public/private goals, policies, ordinances, incentives and an economic strategy to retain and continue to recruit desired growth. Many new downtown "niche" organizations have developed and Asheville needs to review its organizational structure to ensure consistent, effective communication. A strong leadership system must be in place in a now very dynamic Central Business District to meet the demands of differing businesses, consumer, tourist and residential living components. The downtown community needs a new plan to coordinate, focus and give guidance to downtown's next stage of development.

The Downtown Commission members have been carefully researching planning options and processes that have worked effectively in comparable cities. A Master Plan Committee was established. The Committee decided it needed an assessment of the downtown and recommendations on what to focus on when developing a downtown plan for Asheville's next stage of growth. The Committee became interested in inviting the National Main Street Center to bring a technical assistance team to Asheville. After the committee consulted with Savannah Renewal and Development Authority they felt professionals from a non-profit organization specializing in downtown revitalization (such as National Main Street Center) complemented with an expert from another community similar to Asheville (such as Savannah) would be an effective and affordable step to get advice and to focus on input from our community. The National Main Street Center's team visited on September 21-23, 1998, and the following summarizes their visit and report:

The Downtown Plan Committee set three main goals: (1) facilitate meaningful public participation by meeting with community organizations and individuals; (2) review/assess current downtown status and recommend what elements an Asheville as to the best process/structure to design and implement the plan given that it is possible Asheville will be using current staff and volunteers rather than hiring an outside consultant; (3) use other cities and organizational models to propose the best and most efficient structure for an entity to implement the plan and manage the downtown (look at funding and personnel issues).

The National Main Street Center worked with the Downtown Plan Committee and the City to advise and facilitate the first steps in developing a Downtown Plan that will guide and manage future growth in downtown Asheville. The team of downtown revitalization efforts leading the technical assistance visit included Mr. Mac Nichols of the National Main Street

Center, Washington, D.C., Ms. Cuffy Sullivan of the Savannah Renewal and Development Authority, Savannah, Georgia, and Mr. Rodney Swink of the N.C. Division of Community Assistance, Raleigh N.C. This team of experts (1) met with members of our community to assess downtown to solicit input for a downtown plan; (2) took a tour and gave an assessment of downtown; (3) gave recommendations on what to focus on to guide downtown's future success; and (4) addressed recommendations on organizational structure that would need to be in place to implement a downtown plan. A final presentation was made at the end of the tree days with a summary of recommendations following the visit.

To accomplish the goals, the staff of the City Development Office worked with the Downtown Plan Committee to develop an agenda, coordinate logistics, provide key information and facilitate the three day strategy input sessions.

The guidelines for development of a Downtown Master Plan are (1) concentrate on supporting local small businesses; (2) support residential; (3) transportation issues; (4) institutions need to be kept downtown; (5) infrastructure; (6) be involved in catalytic development; (7) policy/resource development (use local talent); (8) provide incentives and protections so that public and private investments are protected; (9) know the roles and responsibilities of groups involved in downtown; and (10) decide how to staff and how to pay for staff.

Mr. Jim Samsel explained to City Council the next step in the process which will be to hold a planning retreat to (1) review ordinance governing the Downtown Commission; (2) recommend ordinance revisions; (3) internal assessment (structure); and (4) infrastructure issues. He said that they would like to come back to City Council in 60 to 90 days for an update.

On behalf of City Council, Mayor Sitnick thanked the Downtown Commission and Master Plan Committee for their tremendous amount of work they have accomplished to date.

1998 BELE CHERE REPORT

Mr. Irby Brinson, Director of Parks and Recreation, presented, on behalf of the Parks and Recreation Department and the 1998 Bele Chere Board, the final report for the 1998 Bele Chere Festival which includes a financial statement and an update of the Strategic Plan.

In January of 1997, City Council approved the Bele Chere Strategic Plan for the next five years. Part of that plan included an annual report to City Council each year after the festival. He updated City Council on the Strategic Plan and financial statement for the 1998 Festival. As can be seen from the financial statement, Bele Chere made a total of $59,140.84. This represents the third year in a row that the Festival has made a profit. This is due largely to an overall increase in sponsorships, souvenir sales and shuttle services. The profit made from Bele Chere will go into the Festival Fund and will be used to enhance Bele Chere as well as other festivals, therefore reducing the City's taxpayers' support of these events. Tremendous headway was made this year in relationships with the downtown merchants which include reducing vendor fees and allowing restaurants rent-free space for the "Taste of Asheville" area. This dialogue has resulted in better communication and trust between both groups.

Mr. Brinson then highlighted various objectives relating to the following goals: (1) To develop financial stability for the festival by becoming self-sustaining, without effecting the quality of the event; (2) To enhance the festival's image with the media and throughout the community; (3) To enhance the quality of the vendors, entertainment, events, and overall festival logistics; (4) To restructure the festival by re-evaluating the roles and responsibilities associated with producing the festival; (5) To improve relationships with the downtown merchants; (6) To resolve the issues surrounding the selling and consumption of alcohol at the festival; (7) To use the excess revenue generated to foster improvements in festival operations, downtown and at the river; and (8) To make the festival as safe as possible for those attending.

Mr. Brinson reviewed the results of the survey conducted by ProGen during the 1998 Festival noting that the estimated direct economic impact of the 1998 Bele Chere was almost $23 Million. Recognition should be given to all City departments for their involvement with the Festival. Without their support and commitment to improving the quality of Bele Chere, the Festival could not continue to be successful.

The Parks and Recreation Department and the Bele Chere Board recommend City Council's endorsement of the Annual Report for Bele Chere.

Upon inquiry of Councilwoman Field, Mr. Brinson said that the Alcohol Task Force is still meeting and they will be prepared to present City Council with an extensive report on that issue in January.

Upon inquiry of Councilman Cobb, Mr. Brinson said that the total of City in-kind services for the 1998 Bele Chere festival is $206,860. The break-down for that figure is police $22,033; fire $10,000; finance $5,781; public works $39,440; building safety $750; and parks and recreation $128,858. He said that in the Parks & Recreation Department more than half of that is overtime.

Mayor Sitnick asked that there be more aggressive recycling opportunities at the festival, with the possibility of a litter free zone or some pre-festival awareness of recycling. Also, she requested that the Bele Chere Board will work with the dance community to address some issues they raised. Mr. Brinson said that they are currently addressing both of those issues.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LEASE WITH HABITAT FOR HUMANITY FOR 9 BILTMORE AVENUE

Mr. Ed Vess, Field Services Coordinator, said that this is the consideration of a lease of 9 Biltmore Avenue to the current tenant Asheville Area Habitat for Humanity, Inc.

City Council previously authorized holding the subject property for a period of two years (until August, 2000) before considering its sale. In the interim the property is being leased. The current tenant, Asheville Area Habitat for Humanity, Inc., has been paying $150.00 per month. The proposed lease calls for incremental increases beginning December 1, 1998, as follows:

12/1/98 - 11/30/99	**12/1/99 - 5/31/00**	**6/1/00 - 8/31/00**
$300.00 per mo.	$400.00 per mo.	$1,100.00 per mo.

The property comprises 2,070.5 sq. ft. in a 20.5' X 101' space. The space has heat but not air conditioning. The Lessee is responsible for paying utilities and maintenance of the interior including cleaning, glass breakage, electrical, heating, and plumbing. The Lessor is responsible for the exterior walls and roof along with the parking area.

Asheville Area Habitat for Humanity operates a used furniture and home accessories store on the premises. The store proceeds are used for Habitat's non-profit housing production.

Community Development staff recommends adoption of the resolution as does the Housing & Community Development Committee.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 98-187 - RESOLUTION SETTING A PUBLIC HEARING TO CONSIDER APPLYING TO THE SECRETARY OF COMMERCE FOR DESIGNATION OF A STATE DEVELOPMENT ZONE

Ms. Charlotte Caplan, Community Development Director, requested City Council set a public hearing to consider a resolution to apply to the Secretary of Commerce for designation of a State Development Zone (SDZ) for the City of Asheville, under the Economic Opportunity Act of 1998.

The NC Economic Opportunity Act of 1998 builds on the existing William Lee Act by recognizing that areas of economic disadvantage exist within otherwise prosperous counties. It creates State Development Zones which are urban areas of high poverty within which certain types of businesses creating new jobs or investing in new equipment can claim significant state tax credits. Similar tax incentives have been available for some time under the Lee Act but at very much lower levels because Buncombe County qualifies only for the minimum ("Tier 5") incentives.

Eligible Areas
- Contiguous census tracts or block groups with total population more than 1000, in a municipality with population more than 5000
- More than 20% poverty within SDZ
- Part of each census tract and/or block group must lie within the municipality

Eligible business types
- Manufacturing
- Warehousing and wholesale trade
- Data processing
- Air Courier Services
- Central Administrative Offices (must create at least 40 jobs to qualify)

Tax credits available in SDZs
- Eligible businesses with 5 or more employees receive $4000 tax credit for each new job created, in addition to credit under Lee Act ($500 in Buncombe County)
- 7% tax credit for investment in machinery and equipment - no threshold
- 7% tax credit for costs of establishing a CAO creating at least 40 jobs
- Up to $1000 tax credit for new employee training

Restrictions
- New jobs must not be offset by job loss at another NC location
- New jobs must pay average weekly wage no lower than 110% of County average (currently $493 a week, or $12.32 an hour)

SDZ Designation Procedure
- Local government or individual taxpayers can request designation
- Local government request requires public hearing and Council action
- Simple request form to be submitted to Dept. of Commerce after November 2, 1998

- Secretary of Commerce will designate SDZ after 10 day eligibility review period
- Lasts for four years - SDZ can be enlarged in that time, but not made smaller.

The legislation becomes effective January 1, 1999. We need to get the application to the State by mid-December. Any jobs created after January 1 but before the designation is approved would not receive a tax credit.

Description of Proposed SDZ

SDZ options were studied by a task force comprised of City Planning and Development staff and representatives of Asheville Chamber of Commerce, Asheville Merchants Association, Asheville Business Development Office, Buncombe County, Land of Sky Regional Council, Pisgah Legal Services, and the NC Department of Commerce (as advisor). The yellow area on the map is the SDZ recommended by the task force. The table provides demographic information.

The proposed SDZ is based on eight complete census tracts with more than 20% poverty plus block groups from other census tracts selected either because they join up these tracts (the SDZ cannot contain non-contiguous areas), or because they contain significant areas with suitable zoning (e.g. along the rivers, near the airport).

The orange on the map represents areas included in the proposed SDZ that are zoned for the eligible business types. The brown represents the area with the same zoning, that will remain outside the proposed SDZ. The proposed SDZ includes a significant part of Buncombe County outside the City, mainly in Census tract 23, Block Group 9, which enlarges the SDZ and makes it possible to include the airport. A minority opinion within the task force wanted to limit the SDZ to the city core in order to concentrate job creation incentives in the area of highest poverty. The majority felt that low income persons would be best served by including as much developable land as possible, even though transportation difficulties might prevent some people from accessing new jobs. Location and land availability are key to business development. If suitable land is not available, businesses may simply choose another city.

City staff and the Task Force recommend that City Council authorize the Mayor to apply to the Department of Commerce for designation of the proposed area as a State Development Zone.

Mayor Sitnick requested that as much public notice as possible be given to this real positive effort regarding economic development, making sure that the public is fully aware of the designation impact.

Councilwoman Field moved to waive the rules and take action at this meeting. This motion was seconded by Councilman Sellers and carried unanimously.

Councilwoman Field moved for the adoption of Resolution No. 98-165. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 75

DISCUSSION ON DATE OF TOUR OF THE URBAN AREAS AROUND THE CITY

Assistant City Manager Doug Spell said that this is the consideration of establishing a date for the tour of urban areas by City Council.

The City retained the consulting firm of BenchMark, Inc. to perform an annexation study. On March 31, 1998, staff and the consultant presented information to City Council regarding "annexation issues". At that meeting, the consultant outlined the need to try and organize a tour of urban areas with City Council as a part of the annexation study. From a timing standpoint, it was preferable to try and accomplish this during the winter when leaves were no longer on trees and one could better see development which has occurred around the City of Asheville.

In order to coordinate the tour of urban areas, staff has organized to have a 24 passenger mini-bus to accommodate City Council, staff members and media on the proposed tour. It is anticipated that the tour will take approximately three hours. Staff recommends that the tour begin around 12:30 p.m. on a Tuesday afternoon of a City Council formal meeting. At that time, staff will have a briefing of the tour agenda and lunch for City Council members. The tour itself would begin around 1:00 p.m. such that we would return to City Hall approximately three hours later.

The timing for the tour of urban areas is important in that this topic is proposed to be further discussed as a part of the City Council Retreat on January 29, 1999, and this background will be beneficial to City Council.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda to schedule the tour for January 12, 1999, with January 26, 1999, being the alternate date.

ESTABLISHMENT OF A DEVELOPMENT ISSUES FORUM

City Manager Jim Westbrook said that staff requests authority to establish a Development Issues Forum to provide a forum to discuss with the entire development community the City's development review process and regulations.

City staff would like to formalize their relationship with developers and the building/ construction community by establishing a Development Issues Forum. The purpose of the forum would be to discuss the City's processes beginning with land use through the issuance of Certificates of Compliance. Through the ongoing issues forum, staff could receive invaluable input on needed changes with development ordinances, create a better understanding of existing ordinances, seek input on recommended changes to the Unified Development Ordinance (UDO) and the Engineering Standard Specifications and Details Manual, and establish better lines of communication between the development community and City staff.

We feel having operated under the Unified Development Ordinance and Engineering Standard Specifications Manual for more than a year, it is an opportune time to establish a mechanism for discussion on these and other issues to take place. Other cities having completed major revisions to their UDO, Standard Specifications, and other development ordinances have found this a useful tool in helping the development community understand the ordinances and having the development community assist staff in understanding the impact, whether positive or negative, on them.

City staff would like to organize and insure participation by a broad spectrum of individuals and organizations in the development community. Knowledgeable persons from the Planning and Development Department, the Water Resources Department, the Building Safety Department, the Engineering Department and the Fire Department would be present to discuss issues. Staff sees this as an ongoing process and a means of receiving continuous feedback from the development community.

The staff recommends that Council authorize staff to initiate and organize a Development Issues Forum for the purpose and reasons outlined above.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

APPROVAL OF CITY MANAGER'S PARTICIPATION IN ASHEVILLE AREA CHAMBER OF COMMERCE'S POLITICAL INSTITUTE

City Manager Westbrook said that beginning in January, the Asheville Area Chamber of Commerce will host a Political Institute, which is a nine week program to encourage and educate business people who are interested in running for public office or becoming more involved in political campaigns. He said a couple of weeks ago Ms. Angie Chandler, with the Chamber of Commerce, asked if he would be agreeable to speak at the Institute on non-political issues. He agreed to it because he wanted to help the Chamber on any issue he could, however, because it was a political institute, he wanted to get City Council's approval first. He said that he would be speaking on the nuts and bolts of local government, council/manager form of government, etc. They have not asked that he speak on any other issue, however, he wanted to make sure there was no misunderstanding on the Council on what his role would be.

Ms. Angie Chandler explained that this program is a service to their members and aimed at educating business people on the political and the governmental process and how government works. Other government leaders participating in the program will be state representatives, County Manager Wanda Greene, representatives from local boards of education, and leadership from boards and commissions. She said that there will also be a session on people who are interested in running for public office or becoming more involved in political campaigns.

Councilman Cobb was uncomfortable in supporting the City Manager's participation in that he felt that this could be aimed at the three Council members who are coming up for election in the fall.

City Manager Westbrook said that since he did not have the entire support of City Council on his participation, he may decide not to participate. However, Mayor Sitnick felt that maybe having an opportunity for input might be beneficial and Council could rely on City Manager Westbrook's experience to make his presentation.

Mayor Sitnick said that because of the particular timing of this request, along with the Council being under the threat of recall, there might be a feeling amongst some of Council that there is some hidden purpose for the Institute.

Ms. Chandler stressed that this is not directed at the City in that the Chamber has been looking at this for quite some time. The Institute was in their plan of action that was determined back in July and this is just part of their overall strategic plan.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

OTHER ISSUES

Election Process

At the request of Vice-Mayor Hay, City Attorney Oast was instructed to provide City Council with a brief report on the election process regarding general election to run-off rather

170

than primary to general election. City Attorney Oast said that he will research that issue and advise City Council on whether they can make the change or if it requires legislative action. If it does require legislative action, Council can discuss that at their annual retreat in January.

Mayor's Roundtable on The Block

Mayor Sitnick asked that the City Manager to begin the process of re-scheduling the Mayor's roundtable on The Block.

Public Comment

Mayor Sitnick said that she would like to place an item on the next agenda regarding the reconsideration of Council's policy regarding public comment. She said that she voted against the current policy and would like for it to be reconsidered.

CLOSED SESSION

At 4:52 p.m., Councilman Cloninger moved to go into closed session in order to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - statutory authorization is N.C. Gen. Stat. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 4:57 p.m., Councilman Cloninger moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 4:57 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 8, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Councilman Cobb requested that Consent Agenda Item O. be pulled for discussion.

A. RESOLUTION NO. 98-188 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A LEASE AND MEMORANDUM OF LEASE FOR PROPERTY KNOWN AS THE PACK PLACE EDUCATION ARTS & SCIENCE CENTER

Summary: This resolution authorizes the Mayor to execute a lease and a memorandum of lease for the property known as the Pack Place Education Arts & Science Center.

The City of Asheville owns the property on which the Pack Place Education Arts & Science Center is located. That property was leased to Pack Place Education Arts & Science Center, Inc. on December 13, 1988, for a ten (10) year term for the construction, operation and maintenance of the education, arts & science center.

The current lease with Pack Place Education Arts & Science Center, Inc. expires on December 12, 1998. Pack Place Education Arts & Science Center, Inc. has offered to lease the property again from the City for the continuing operation and maintenance of the education, arts and science center. Pack Place Education Arts & Science Center, Inc. desires to lease the property for more than ten (10) years.

N. C. Gen. Stat. sec. 160A-272 authorizes North Carolina cities to lease property for longer than ten (10) years if the lease is treated as a sale of property and is executed by following any of the procedures authorized for sale of real property in Article 12 of Chapter 160A of the North Carolina General Statutes. Of those procedures, N. C. Gen. Stat. sec. 160A-269 appears to be the most appropriate method for execution of a lease for more than ten (10) years for this property and requires that when an offer is made and the City Council proposes to accept it, a deposit shall be made with the City Clerk and the City Clerk shall publish a notice of the offer.

A deposit was received and the notice required was advertised in the Asheville Citizen-Times on Friday, November 27, 1998. The time period for upset bids as set forth in N. C. Gen. Stat. sec. 160A-269 has run and no upset bids have been received.

The resolution authorizing the execution of the lease and memorandum of lease be adopted.

RESOLUTION BOOK NO. 25 - PAGE 76

B. RESOLUTION NO. 98-189 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON JANUARY 12, 1999, TO CLOSE AN ALLEY BETWEEN RICHMOND AND MICHIGAN AVENUES

RESOLUTION BOOK NO. 25 - PAGE 78

C. INTRODUCTION OF BOND ORDER AUTHORIZING THE ISSUANCE OF $18,000,000 GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BONDS FOR THE CITY OF ASHEVILLE, N.C.

Summary: Introduction of a Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds for the City of Asheville and consideration of a resolution setting a public hearing thereon.

Having previously instructed staff to apply to the Local Government Commission for approval to issue $18,000,000 General Obligation Parks, Recreation and Greenway Bonds; the next step in the process is the introduction of the Bond Order and setting a public hearing thereon.

The Bond Order provides the purpose and amount of the bonds; states that the projects to be funded by the proceeds of the bonds are necessary; states that taxes shall be levied annually to pay the principal and interest on the bonds; indicates that a sworn statement of debt has been filed with the City Clerk and is open to public inspection; and states that the bond order shall take effect when approved by the voters of the City at a referendum scheduled for May 11, 1999.

The proposed resolution sets a public hearing regarding the bond order to be held at 5:00 p.m. January 12, 1999 in the Council Chambers of the City Building and directs the City Clerk to cause notice of said public hearing to be published. It also directs the Finance Director to file with the City Clerk a statement of debt of the City.

City staff recommends City Council adopt the resolution.

D. RESOLUTION NO. 98-190 - RESOLUTION CALLING FOR A PUBLIC HEARING ON JANUARY 12, 1999, ON THE BOND ORDER AUTHORIZING THE ISSUANCE OF $18,000,000 GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BONDS AND DIRECTING PUBLICATION OF SAID PUBLIC HEARING AND FILING OF A DEBT STATEMENT

Summary: See Item C above.

RESOLUTION BOOK NO. 25 - PAGE 79

E. RESOLUTION NO. 98-191 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT THE REMAINING PORTION OF BEAR KNOLL DRIVE FOR STREET MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to accept the remaining portion of Bear Knoll Drive for street maintenance.

Trappers Run is an existing subdivision in the City. The developer completed the streets in the subdivision several years ago and turned the streets over to the City to maintain. Since that time, Bear Knoll Drive has been extended and a cul-de-sac constructed. The developer has now completed this portion of the street and is requesting that the City accept the street for maintenance. Engineering Department staff along with Public Works staff have inspected the road and found it to be in compliance with our Standard Specifications.

Staff requests Council authorize the City Manager accept the remaining portion of Bear Knoll Drive for City maintenance.

RESOLUTION BOOK NO. 25 - PAGE 81

F. RESOLUTION NO. 98-192 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A TWO YEAR LEASE WITH ASHEVILLE AREA HABITAT FOR HUMANITY INC. FOR PROPERTY AT 9 BILTMORE AVENUE

Summary: The consideration of a lease of 9 Biltmore Avenue to the current tenant Asheville Area Habitat for Humanity, Inc.

City Council previously authorized holding the subject property for a period of two years (until August, 2000) before considering its sale. In the interim the property is being leased. The current tenant, Asheville Area Habitat for Humanity, Inc., has been paying $150.00 per month. The proposed lease calls for incremental increases beginning December 1, 1998, as follows:

12/1/98 - 11/30/99	12/1/99 - 5/31/00	6/1/00 - 8/31/00
$300.00 per mo.	$400.00 per mo.	$1,100.00 per mo.

The property comprises 2,070.5 sq. ft. in a 20.5' X 101' space. The space has heat but not air conditioning. The Lessee is responsible for paying utilities and maintenance of the interior including cleaning, glass breakage, electrical, heating, and plumbing. The Lessor is responsible for the exterior walls and roof along with the parking area.

Asheville Area Habitat for Humanity operates a used furniture and home accessories store on the premises. The store proceeds are used for Habitat's non-profit housing production.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 82

G. RESOLUTION NO. 98-193 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE THE SECTION 108 LOAN GUARANTEE CONTRACT WITH THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

Summary: The consideration of a resolution to authorize the mayor to execute a Contract for Loan Guarantee Assistance, Fiscal Agency Agreement, Notes, and other documents in connection with a Section 108 Loan Guarantee from the U. S. Department of Housing and Urban Development (HUD) to generate $1.5 million for rental rehabilitation loans.

On April 1, 1998, the Mayor executed a Funding Approval/Agreement with the Dept. of HUD for a 1.5 million dollars Section 108 loan guarantee pursuant to the application for same approved by City Council Resolution No. 97-211 and submitted by the City of Asheville on December 16, 1997. The Section 108 loan guarantee program enables Community Development Block Grant (CDBG) entitlement grantees to borrow money from the federal government at low interest rates for CDBG eligible activities. The proceeds of the proposed loan will be loaned to investor owners through the City of Asheville Rental Rehabilitation for Owners and Tenants (CARROT) loan program. The Section 108 loan funds will be used to provide decent housing opportunities for low and moderate income households at affordable rents.

The Section 108 loan will be secured by a series of ten (10) Notes of $150,000 each with different maturity dates ranging from one to ten years to be repaid using program income from the CARROT loans, program income from the existing rehabilitation loan portfolio and as necessary a portion of the CDBG entitlement funds. The CARROT loans will be secured by deeds of trust which will be assigned to the Dept. of HUD. The goal of the Section 108 project is to rehabilitate 150 rental units over a three year period of time.

Community Development staff recommends approval of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 83

H. RESOLUTION NO. 98-194 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH R.P.F. CONSTRUCTION INC. TO REPLACE STOREFRONT DOORS AT THE CIVIC CENTER

Summary: The consideration of a resolution to authorize the City Manager to enter into a construction contract to replace the storefront doors at the Civic Center.

An ADA accessibility study was completed for the Civic Center and City staff has determined that the storefront doors at the entrance to the Civic Center do not meet Federal Guidelines for accessibility. City staff solicited sealed bids from ten (10) General Contractors, three (3) of which were minority contractors, for the replacement of storefront doors at the Civic Center. The following bids were received:

KEKO, Inc.	$ 179,672
Carolina Construction and Investment Co.	$ 180,909
R P F Construction, Inc.	$ 142,880

Approved funding is available in the Civic Center account to pay for this renovation to replace the storefront doors at the Civic Center.

The Parks and Recreation Department staff requests City Council to direct the City Manager to enter into a contract for $142,880 with R P F Construction, Inc. to replace the storefront doors at the Civic Center.

RESOLUTION BOOK NO. 25 - PAGE 84

I. ORDINANCE NO. 2532 - BUDGET AMENDMENT TO OFFICIALLY ESTABLISH BUDGETS FOR W.T. WEAVER BOULEVARD GREENWAY, PRITCHARD PARK, HAW CREEK PARK AND OTHER PARK IMPROVEMENTS

Summary: The consideration of a budget amendment to officially establish project budgets in the amount of $220,000 for Phase II of W.T. Weaver Boulevard Greenway, $200,000 for Pritchard Park, $50,000 for Haw Creek Park, and $20,000 for park improvements.

Funds for Phase II of the W.T. Weaver Boulevard Greenway, Pritchard Park development, Haw Creek Park, and park repairs and renovations were authorized through the City of Asheville's Capital Improvement Program. Funds had been held in a capital reserve account until it was necessary to begin work on these projects. This ordinance will officially establish project budgets for W.T. Weaver Boulevard, Pritchard Park, Haw Creek Park, and park improvements using funds formerly held in capital reserve.

Staff recommends City Council officially establish budgets for the aforementioned projects.

ORDINANCE BOOK NO. 17 - PAGE 191

J. RESOLUTION NO. 98-195 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY THROUGH ITS MOUNTAIN MOBILITY SYSTEM PROGRAM IN ORDER TO TAKE ADVANTAGE OF A GRANT TO TRANSPORT ELDERLY TO RECREATION PROGRAMS

Summary: The consideration of entering into an agreement with Buncombe County through its Mountain Mobility System program in order to take advantage of a $5,000 grant to transport the elderly to recreation programs.

The City of Asheville has obtained a $5,000 grant of state money routed through Buncombe County for use in the Mountain Mobility System, and which may only be used to transport the elderly to recreation programs. The Parks and Recreation Department will use this money for special events and additional transportation to events for seniors. These events include such things as the Asheville Symphony, Home Shows, The WNC Fair, concerts at Civic Center, the N.C. Arboretum, etc. These are new trips which the Department has not provided prior to this grant.

This grant involves no commitment of City funds to match or otherwise contribute to this grant. The grant will take the form of a credit, and will be applied to Mountain Mobility System use by the Parks and Recreation Department.

City staff recommends City Council authorize the City Manager to enter into an agreement with Buncombe County through its Mountain Mobility System program to transport the elderly to recreation programs.

RESOLUTION BOOK NO. 25 - PAGE 86

K. MOTION AUTHORIZING STAFF TO INITIATE AND ORGANIZE A DEVELOPMENT ISSUES FORUM

Summary: Staff requests authority to establish a Development Issues Forum to provide a forum to discuss with the entire development community the City's development review process and regulations.

City staff would like to formalize our relationship with developers and the building/ construction community by establishing a Development Issues Forum. The purpose of the forum would be to discuss the City's processes beginning with land use through the issuance of Certificates of Compliance. Through the ongoing issues forum, staff could receive invaluable input on needed changes with development ordinances, create a better understanding of existing ordinances, seek input on recommended changes to the UDO and the Engineering Standard Specifications and Details Manual, and establish better lines of communication between the development community and City staff.

We feel having operated under the Unified Development Ordinance and Engineering Standard Specifications Manual for more than a year, it is an opportune time to establish a mechanism for discussion on these and other issues to take place. Other cities having completed major revisions to their UDO, Standard Specifications, and other development ordinances have found this a useful tool in helping the development community understand the ordinances and having the development community assist staff in understanding the impact, whether positive or negative, on them.

City staff would like to organize and insure participation by a broad spectrum of individuals and organizations in the development community. Knowledgeable persons from the Planning and Development Department, the Water Resources Department, the Building Safety Department, the Engineering Department and the Fire Department would be present to discuss issues. Staff sees this as an ongoing process and a means of receiving continuous feedback from the development community.

The staff recommends that Council authorize staff to initiate and organize a Development Issues Forum for the purpose and reasons outlined in this report.

L. MOTION SETTING A PUBLIC HEARING ON JANUARY 12, 1999, TO REALLOCATE COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS FROM HILL STREET/CHERRY STREET TO CITY-WIDE REHABILITATION

M. MOTION ENDORSING THE ANNUAL REPORT FOR BELE CHERE

Summary: In January of 1997, City Council approved the Bele Chere Strategic Plan for the next five years. Part of that plan included an annual report to City Council each year after the festival. He updated City Council on the Strategic Plan and financial statement for the 1998 Festival. As can be seen from the financial statement, Bele Chere made a total of $59,140.84. This represents the third year in a row that the Festival has made a profit. This is due largely to an overall increase in sponsorships, souvenir sales and shuttle services. The profit made from Bele Chere will go into the Festival Fund and will be used to enhance Bele Chere as well as other festivals, therefore reducing the City's taxpayers' support of these events. Tremendous headway was made this year in relationships with the downtown merchants which include reducing vendor fees and allowing restaurants rent-free space for the "Taste of Asheville" area. This dialogue has resulted in better communication and trust between both groups. Also he reviewed the results of the survey conducted by Progen during the 1998 Festival. Highlights from this report will be shared during the presentation to City Council. Recognition should be given to all City departments for their involvement with the Festival. Without their support and commitment to improving the quality of Bele Chere, the Festival could not continue to be successful.

The Parks and Recreation Department and the Bele Chere Board recommend City Council's endorsement of the Annual Report for Bele Chere.

N. MOTION APPROVING THE EXTENSION OF TIME FROM DECEMBER 31, 1998, THROUGH JUNE 30, 1999, FOR VISION FOR ASHEVILLE-BUNCOMBE TO CONTINUE TO USE CITY OFFICE SPACE AT 29 HAYWOOD STREET

Summary: The consideration of a request from the VISION for Asheville-Buncombe for an extension of time for use of city office space.

City staff has received a request from the VISION to extend the commitment for donated office space from the City of Asheville from December 31, 1998 to June 30, 1999. Currently, the VISION utilizes office space in the City Development Office located at 29 Haywood Street. The VISION Board of Directors has indicated that they will call an Executive Committee meeting in the near future to discuss options for VISION office space. Thev have indicated that they will review available options over the next several months. As of this time, City staff is not aware of any other available space from the City of Asheville that could meet the needs of VISION.

Due to the addition of the Cable Coordinator position and associated equipment, all of which will be housed at the City Development office, it is anticipated that this office space will be needed by the City. This position will likely be filled by February 1, 1999.

Staff recommends that City Council approve the extension of time from December 31, 1998 through June 30, 1999 for the VISION office space to allow them an opportunity to make alternate arrangements for office space.

O. APPROVAL OF CITY MANAGER'S PARTICIPATION IN THE ASHEVILLE AREA CHAMBER OF COMMERCE'S POLITICAL INSTITUTE

This item was pulled from the Consent Agenda for further discussion.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Field moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

ITEM PULLED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

APPROVAL OF CITY MANAGER'S PARTICIPATION IN THE ASHEVILLE AREA CHAMBER OF COMMERCE'S POLITICAL INSTITUTE

Summary: Beginning in January, the Asheville Area Chamber of Commerce will host a Political Institute, which is a nine week program to encourage and educate business people who are interested in running for public office or becoming more involved in political campaigns. From demographic profiles of voters, to press releases, to campaign ethics, this program will look at every aspect of the political campaign process.

City Manager Westbrook asked for City Council's support in being a speaker in one of the sessions which deals with knowledge is power - facts about local government operations.

Councilman Cobb said that he was assured that this is a non-political political institute and would support the City Manager's participation regarding his role as a speaker. He supported the purpose of the program which is to encourage and educate business people who are interested in running for public office or becoming more involved in political campaigns. He stressed that we need more citizen involvement. However, he felt the cost of the program ($295 for Chamber members and $395 for non-Chamber members), would make it cost prohibitive for many people who may want to participate. Also, he felt that to limit the class to 25 participants was too exclusive. He challenged the Chamber of Commerce to (1) eliminate the cost of the program including the elimination of the food costs; (2) open the program up to all interested citizens; and (3) encourage the media to report in detail all the sessions for those who are unable to attend. He felt that if they encourage all interested citizens, he felt that the businesses, neighborhoods, and private citizens could, and would, underwrite the cost. In any event, he applauded any effort to educate and inform our citizens about the political process.

Councilman Tomes applauded the efforts of the Chamber but noticed that the program focused on business and felt the program should try to include the grassroots people.

Vice-Mayor Hay suggested that since the City's government access channel will be running soon, the program can be taped and shown on that channel.

City Manager Westbrook said that his part in the program will be to talk about the Council/Manager form of government and about local government operations. His part will be strictly non-political.

Mr. Clay Dover, representative of the Chamber of Commerce and Chairman of the Local Issues Task Force, assured City Council that their intent is nothing at all targeted toward any individual or any group. They have been organizing this program for over two years. He said that one reason for the limitation of 25 people is that the location is somewhat restrictive due to the number of seats available. Regarding the cost of the program, the Chamber is a private institution and it does try to break-even on programs like this. In fact, they felt that $300 was a very reasonable cost. Included in that $300 is materials, a meal, and costs incurred in bring outside people to speak. He said that he would invite the taping of the program. The program is aimed at getting more people involved in the political process of not only our City, but our County and State as well.

Regarding Councilman Tomes suggestion about embracing the grassroots community, Mr. Dover said that he would be happy to re-consider possible scholarships.

Councilman Sellers moved to approve the City Manager's participation in the Asheville Area Chamber of Commerce's Political Institute. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE ADOPTION OF BOND ORDER AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $18,500,000 GENERAL OBLIGATION REFUNDING BONDS, SERIES 1999, OF THE CITY OF ASHEVILLE, N.C.

RESOLUTION NO. 98-196 - RESOLUTION OF THE CITY OF ASHEVILLE, N.C., PROVIDING FOR THE ISSUANCE OF NOT TO EXCEED $18,500,000 GENERAL OBLIGATION REFUNDING BONDS, SERIES 1999, OF THE CITY OF ASHEVILLE, N.C.

Mayor Sitnick opened the public hearing at 5:22 p.m.

City Clerk Burleson reported that the bond order entitled "Bond Order Authorizing the Issuance of Not to Exceed $18,500,000 General Obligation Refunding Bonds, Series 1999, of the City of Asheville, N.C.," which was introduced at the regular meeting of the City Council on November 24, 1998, was published on November 27, 1998. She then presented the notice to the public setting the time and date of the public hearing. She also reported that she had filed in her office a statement of debt complying with provisions of the Local Government Bond Act, and such statement as filed showed the net indebtedness of the City to be 1.675% of the appraised valuation of property in said City subject to taxation.

Finance Director Bill Schaefer said that this is the consideration of a resolution providing for the issuance of not to exceed $18,500,000 General Obligation Refunding Bonds, Series 1999.

Having previously given notice of the City's intent to issue bonds and having held a public hearing regarding the bond issue; the next step in the process is for Council to provide for the issuance of the bonds.

The proposed resolution describes in detail the bonds which are to be refunded (series; principal amounts and maturities); the bonds to be issued (principal not to exceed $18,500,000; annual maturities; interest payment dates; provisions for registration of the bonds; etc.) The resolution also authorizes the selection of paying and transfer agents and a bond registrar; requests that the Local Government Commission sell the bonds through competitive bid; authorizes and directs the Mayor, City Manager and Finance Director to prepare the bonds for delivery after sale; authorizes and approves the form and content of the Official Statement which will be dated on or about January 8, 1999 and the Supplement to the Official Statement which will be dated on or about January 19, 1999; authorizes and approves the form and content of the Escrow Agreement; authorizes and directs the Mayor, City Manager, Finance Director and City Clerk to execute and deliver for and on behalf of the City any and all additional certificates, documents, opinions or other papers necessary to implement and carry out the purpose of the resolution; and provides for continuing disclosure of financial information of interest to bond holders.

In response to Councilman Cobb about the projected savings, Mr. Schaefer said that an annual savings throughout the life of the bonds is approximately $60,000 per year.

City staff recommends City Council adopt the bond order and resolution.

Mayor Sitnick closed the public hearing at 5:25 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the bond order and resolution and they would not be read.

Councilwoman Field moved to adopt the bond order without change and direct the City Clerk to publish a notice of adoption, as prescribed by The Local Government Bond Act, of the bond order entitled "Bond Order Authorizing the Issuance of Not to Exceed $18,500,000 General Obligation Refunding Bonds, Series 1999, of the City of Asheville, N.C.," which was introduced at the regular meeting of the City Council held on November 24, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

Councilwoman Field moved for the adoption of Resolution No. 98-196, Resolution of the City of Asheville, N.C., providing for the issuance of not to exceed $18,500,000 General Obligation Refunding Bonds, Series 1999, of the City of Asheville, N.C. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 87

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-197 - RESOLUTION TO WAIVER THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL SIDEWALK REQUIREMENT FOR SARDIS ROAD STOR MOR

Mr. John Echeverra, Assistant City Engineer, said that this is the consideration of a resolution waiving the Unified Development Ordinance (UDO) and the Asheville Standard Specifications and Details Manual (Standards Manual) requirement for a sidewalk along Oak Terrace Drive for the Sardis Road Stor Mor Facility.

Section 7-8-16 (f) (10) of the Unified Development Ordinance requires that new construction on property zoned Regional Business District place sidewalks as specified in the Asheville Standard Specifications and Details Manual (Standards Manual) along street rights-of-way. The Sardis Road Stor Mor proposes to build a self-storage facility on Oak Terrace Drive. Oak Terrace Drive has a dedicated right-of-way but is not a City maintained street. Oak Terrace Drive is a dirt road.

The Standards Manual requires a five foot sidewalk along the rights-of-way for all newly developed projects. The Standards Manual stipulates that for any requirements for sidewalks to be waived the City Council must take action to grant the waiver.

Staff recommends that City Council waive the requirement that a sidewalk be placed on Oak Terrace Drive for the Sardis Road Stor Mor due to the fact that Oak Terrace Drive is not a City maintained street or paved road. Additionally, this corridor is not identified on any future corridor or pedestrian thoroughfare plan.

Vice-Mayor Hay said that this does seem like the appropriate instance to make an exception. However, one of Council's goals in the UDO is to create sidewalks where ever sidewalks are appropriate and he does not want to send the message that Council is opening the door to consider a lot of sidewalk waivers.

Councilwoman Field said that one of the things the pedestrian thoroughfare plan includes is an option if someone wants to ask for a sidewalk waiver that City Council request that they take the lump sum of money it would have cost to build it and put it into a fund to build sidewalks in other more appropriate locations. She supported City Council's adoption of the pedestrian thoroughfare plan..

City Attorney Oast responded to Councilman Cobb's inquiry about Oak Terrace Drive not being a City maintained street.

Upon inquiry of Mayor Sitnick, City Attorney Oast said that he did not think that City could require a developer to install sidewalks if, in the future, the street is paved or brought up to City standards.

Councilman Tomes said that since there were commitments made in the past for sidewalks in various areas of the City and they have not been installed yet, he felt Council needed to be very intentional about the message they send about sidewalk construction.

Mr. John Broadbooks, landscape architect and planner for the Sardis Road Stor Mor Project, explained why City Council should support waiving the sidewalk requirement.

City Manager Westbrook said that this is the first time a request to waive a sidewalk requirement has come before City Council since adoption of the UDO, showing that staff, in addition to City Council, feels that sidewalks are equally important.

Upon request of Councilman Cloninger, and as recommended by City Attorney Oast, Vice-Mayor Hay moved to excuse Councilman Cloninger from voting on this matter due to a conflict of interest. This motion was seconded by Councilwoman Field and carried unanimously.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilman Sellers moved for the adoption of Resolution No. 98-197. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 97

B. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT AND RESTATEMENT OF AGREEMENT REGARDING CONSTRUCTION OF A HIGH-TECH/FLEX BUILDING TO BE LOCATED IN BILTMORE PARK TECHNOLOGY CENTER (FORMERLY TECHNOLOGY PARK AT BROADLANDS)

At the request of City staff, Councilman Cobb moved to continue this item to the December 15, 1998, City Council meeting. This motion was seconded by Councilman Tomes and carried unanimously.

C. UPDATE ON GOVERNMENT ACCESS CHANNEL

Ms. Robin Westbrook, Public and Community Information Coordinator, said that in August 1998, City Council adopted a Cable Franchise Agreement allowing InterMedia to provide cable service within the city limits of Asheville. As part of this agreement, InterMedia was required to provide three initial channels to be used for public, educational and/or government programming. A fourth access channel will be provided when certain programming thresholds are met on the other channels.

The Government Access Channel, Channel 20, is scheduled to premier on Wednesday, December 9, 1998. Programming on this channel will include a Community Bulletin Board, taped Asheville City Council meetings, Open Net, and other varied governmental programming. Open Net, a live feed received from Raleigh, is a live two hour call-in show that focuses on statewide issues of importance. This program will be aired on Tuesday and Thursday evenings from 8:00 p.m. - 10:00 p.m.

Channel 20 will include limited programming initially; however, it is anticipated that the variety and scope of programming will increase as the channel becomes established.

Upon inquiry of Vice-Mayor Hay about the possibility of running the Chamber's political institute on this channel, Ms. Westbrook said that we have no equipment or personnel, however, we can contract to do that with an outside firm.

When Vice-Mayor Hay asked about who will make and how decisions will be made on what will be shown on the governmental channel, Ms. Westbrook said that if the information does not come from a specific City department, she would seek City Manager approval to get clearance on whatever is put on that channel. City Manager Westbrook also said that this is a factual channel about City government putting forth information that the public might need, opposed to the public channel, which is much broader. He said the focus for the government channel is much narrower. He said we will try to keep it focused strictly on local government and providing factual information to the citizens.

Mayor Sitnick said that she was sure Ms. Westbrook would be open for information from City Council as well.

Upon inquiry of Councilman Cobb about Asheville High School students taping the Chamber's Political Institute, Ms. Westbrook said that she was sure that as long as they were able to get students to do that and we were able to pay their fee, they would be happy to film it.

When Councilman Cobb asked if the City Council meetings could be shown live on the government channel, City Manager Westbrook said that that capability will be a part of the renovations to the Council Chamber.

Councilman Tomes was very supportive of involving youth in the political process.

Upon inquiry of Councilwoman Field about how much money and who decides what equipment will be purchased, City Manager Westbrook said that for the public channel, whoever the Council chooses to run the public channel would be making that decision. For the governmental channel, City staff will make recommendations to the Council based on the level of service Council wants to provide. Ms. Westbrook also said that she felt it would be Council's decision as to what percentage of that money would go to public vs. governmental.

Councilwoman Field said that she was approached with an idea of a regional public access group where everyone can pool their equipment, money, talent, and space to do the work and have the member governments that have cable contracts help support that. Ms. Westbrook said that there are several communities that do that and she does have some contacts if there is interest in pursuing that idea.

Mayor Sitnick suggested that the City pull resources together inside the City so that we can be cost effective.

D. RECONSIDERATION OF PUBLIC ADDRESS TO CITY COUNCIL RULE 7

Mayor Sitnick felt that Council changed their policy relative to public address to City Council based on one incident and one issue. She asked for City Council to reconsider not limiting the number of public speakers under the "Informal Discussion and Public Comment" portion of the agenda. The current policy allows three people to speak for three minutes on an issue or a designated spokesperson can speak for 10 minutes on an issue. She supported the three minute time limit for individuals, however, she felt that Council should not limit the number of speakers. Regarding the 10 minute time limit for people representing groups, she felt that should possibly be lowered.

Councilwoman Field reviewed the guidelines from the City of Cincinnati regarding their public comment policy. She said that there are so many ways a person can communicate with the Council or with the government. She felt the current policy is certainly a valid and fair amount of time for Council to be aware of an issue, noting that the policy allows City Council the flexibility of waiving it.

Mayor Sitnick felt that since the policy has not been abused in the past and because the policy was changed based on one incident, she felt that not limiting the speakers further enhances the ability of people to participate in their government. She stressed that public participation is crucial to the way we should conduct our meetings.

Vice-Mayor Hay agreed that the prior policy was not abused, however, by having the current policy in place, it gives Council some control over unexpected situations. He felt that the policy makes people aware that they need to organize their thinking in advance and present their issue effectively.

Councilman Cobb suggested that representative speakers be limited to five minutes and all other individuals three minutes, including a provision that the Mayor or the Council have the authority to not take any more comments on that issue.

Councilman Cloninger voiced support for the current policy.

Councilman Tomes supported the idea of limiting comments on one issue to three speakers in favor and three speakers opposed.

Mr. Mickie McHaffee encouraged Council to broaden their time limits so that people have a chance to speak.

Mr. David Whitley felt that if you encourage more people to participate in the process, you can achieve more solutions. He also felt that it would be difficult to choose three speakers from the many who wish to speak. He said that Councilman Cobb's suggestion might be a good compromise.

Mr. Morrison felt that Council should limit comments, however, they should take opposing views.

Mayor Sitnick said that the Council Chamber is being retrofitted with a speaker timing device that will be fair to everyone who speaks.

Councilman Tomes moved to go back to the original policy of allowing individuals three minutes to address City Council, except for a spokesman of a group who will be allowed 10 minutes.

Councilman Cobb suggested that at a worksession the ten minute time limit be discussed.

Upon inquiry of Councilman Cobb, City Attorney Oast said that since the mayor is the presiding officer, she would have the authority to control the debate and stop taking comments. He also said that City Council Rule 9 (b) would apply in that the mayor has the right "to determine whether a speaker has gone beyond reasonable standards of courtesy in his remarks and to entertain the rule on objections from other members on this ground."

The motion made by Councilman Tomes failed due to a lack of a second.

E. CONSIDERATION OF WAIVING PARK USE FEES

Mayor Sitnick said that group called "Food Not Bombs" wanted to feed a group of homeless people at Pritchard Park and they did not have a permit, nor could they afford the permit fee of $25 per day for park use. That group, along with "New Foundation" and a number of churches, have been feeding the homeless and the hungry on our streets for two or three years with no problem. She said that after talking with City staff, it was recommended that Council consider the possibility of adding a provision to the existing ordinance that allows preachers to obtain a street preaching permit, without fee, to preach in our City parks. She requested City Council, since there is a precedent in the street preaching permit, to (1) instruct staff to draft an amendment to the ordinance governing street preaching permits to include a street feeding permit; and (2) create an interim policy to waive the $25 park use fee until staff reports back to Council on an ordinance amendment to add a street feeding permit provision.

Discussion surrounded the health issues.

Councilwoman Field said that Council has been approached by a group who wants to waive the fees in one of the community centers because they feel they are serving the community through their activities. She questioned if Council is setting a precedent of waiving fees once they have been established.

Councilman Sellers said that the Fees & Charges Committee will be meeting soon and reviewing the issue about waving the fee at the community center and felt that this issue can be reviewed by the Committee as well.

Mayor Sitnick said that she would be amenable to sending this to the Fees & Charges Committee for their review.

Mr. Mickie McHaffee, Mr. Dave Taber, Mr. Jarod Tabor and Mr. Nathan Smith spoke in support of waiving the park use fee for groups feeding the homeless and hungry for many reasons.

Ms. Regina Trantham, representative of the Merchant Action Coalition and President of the Battery Hill Association, felt that City Council should look at this issue seriously before any decisions are made. Because this is the Christmas season, many merchants could not attend the meeting to give Council their input about their concerns and asked that any decision be postponed until the first of the year. Her organizations are not just business, in that they do care about their community through productive participation in programs that help women, children and the homeless.

Councilwoman Field suggested that some kind of partnership with the churches or another institution downtown might be a way to provide restroom facilities.

Councilman Cobb moved to temporarily waive the $25 park permit fee only (not the permit) for the groups feeding the homeless and hungry at City/County Plaza until the Fees & Charges Committee reports back to City Council with a recommendation. This motion was seconded by Councilman Tomes and carried unanimously.

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 24, 1998, AND THE WORKSESSION HELD ON DECEMBER 1, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on November 24, 1998, and the worksession held on December 1, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. CLAIMS

The following claims were received by the City of Asheville during the week of November 20-December 3, 1998: Jackie Little (Water), Linda Costantine (Water), Rhonda McFadden (Water), Warren Fluharty (Water), Laura Silvernail (Water) and Monty Monteath (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Public Skating at the Asheville Civic Center

Vice-Mayor Hay said that he was pleased that public skating will start at the Asheville Civic Center this month..

CLOSED SESSION

At 7:08 p.m., Councilman Cloninger moved to go into closed session in order to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - statutory authorization is N.C. Gen. Stat. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:19 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:19 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - December 15, 1998 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Mayor Sitnick gave the invocation.

AGENDA CHANGE

Vice-Mayor Hay requested that the issue of appointing an additional person to the Future of the Civic Center Task Force be added to the Agenda.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING DECEMBER 15, 1998, TO JANUARY 1, 1999, AS THE PERIOD OF CELEBRATION FOR ALBEMARLE PARK'S CENTENNIAL

Mayor Sitnick read the proclamation proclaiming December 15, 1998, to January 1, 1999, as the period of celebration for Albemarle Park's Centennial. She presented the proclamation to Ms. Juanita Landolfi, President of the Albemarle Park Manor Grounds Association, who briefed City Council on some activities taking place during that period of time. She also invited City Council to The Manor Inn's New Year's Eve Celebration.

B. RECOGNITION OF RECIPIENTS OF HOUSING NORTH CAROLINA AWARDS

Mayor Sitnick said that each year the North Carolina Housing Finance Agency gives "Housing North Carolina Awards" for outstanding examples of affordable housing development or supportive services. This year, eight awards were made, of which two came to Asheville - the only community to win more than one award. The winners were: Mountain Housing Opportunities and the Asheville Regional Housing Consortium for the River Glen Apartments, and the Housing Authority of the City of Asheville for its Community Health Services program for the elderly.

She recognized Lee McElrath, Board President, Althea Goode, Board Vice-President, Scott Dedman, Executive Director, and Cindy Weeks, Program Development Manager, for Mountain Housing Opportunities.

Mr. Dedman explained the River Glen Apartment project and presented Councilwoman Field, Chair of the Asheville Regional Housing Consortium, with the plaque for the Project.

Mayor Sitnick then recognized Annette Coleman, Board Chair, David Jones, Executive Director, Spike Gram, Gerontologist, Kay Clark, Nurse Practitioner, Georgia Crump, MSJ Community Health and Lead Trainer, and Carolyn Colvard, Program Coordinator, for the Housing Authority.

187

Ms. Gram outlined the Community Health Services Program and thanked individual agencies for working together on this program.

On behalf of City Council, Mayor Sitnick congratulated the representatives of the two agencies for their outstanding programs.

II. CONSENT AGENDA:

A. **RESOLUTION NO. 98-198 - RESOLUTION AUTHORIZING THE SALE OF 110 MORRIS STREET TO CAROL LYNNE JONES IN THE AMOUNT OF $79,600**

Summary: The consideration of a resolution conveying 110 Morris Street to Carol Lynne Jones in the amount of $79,600.

On November 24, 1998, the City Council directed the City Clerk to advertise for upset bids on 110 Morris Street. The advertisement ran in the Asheville Citizen-Times on December 4, 1998, as provided in N. C. Gen. Stat. sec. 160A-269. Subject to no upset bid being received on or before December 14, 1998, the sale to Carol Lynne Jones in the amount of $79,600 should be approved.

Community Development staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 98

B. **RESOLUTION NO. 98-199 - RESOLUTION MODIFYING THE SCHEDULE OF CITY COUNCIL MEETINGS**

Summary: City Council will (1) tour the urban areas around the City on Tuesday, January 12, 1999, beginning at 12:30 p.m. in Room 209 of the City Hall Building; and (2) hold it's annual retreat beginning 1:00 p.m. on Friday, January 29, 1999, through 12:00 Noon on Sunday, January 31, 1999, at Highland Lake Inn in Flat Rock, N.C.

RESOLUTION BOOK NO. 25 - PAGE 99

C. **MOTION SETTING A PUBLIC HEARING ON JANUARY 12, 1999, TO CONSIDER ADOPTION OF A SMALL AREA PLAN KNOWN AS THE CHARLOTTE STREET CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE (ASHEVILLE CITY 2010 PLAN)**

D. **MOTION SETTING A PUBLIC HEARING ON MARCH 9, 1999, TO CONSIDER THE REZONING OF 25 WHITE PINE DRIVE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions on the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. JOINT PUBLIC HEARING WITH THE HISTORIC RESOURCES COMMISSION OF ASHEVILLE-BUNCOMBE COUNTY TO CONSIDER THE DESIGNATION OF BILTMORE INDUSTRIES PROPERTY LOCATED AT 111 GROVEWOOD ROAD AS A LOCAL HISTORIC LANDMARK

ORDINANCE NO. 2533 - ORDINANCE TO DESIGNATE THE BILTMORE INDUSTRIES PROPERTY LOCATED AT 111 GROVEWOOD ROAD AS A LOCAL HISTORIC LANDMARK

Mayor Sitnick opened the public hearing at 5:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Vice-Chair Chris Knorr announced that a quorum of the Historic Resources Commission was present.

Ms. Maggie O'Connor, Historic Resources Commission Director, said that at their November 11, 1998, regularly scheduled meeting, the Historic Resources Commission ("HRC") voted to hold a joint public hearing with the Asheville City Council to consider if Biltmore Industries should be designated a local historic property.

When a property is designated historic, restrictions are placed on the property and to any exterior improvements or interior improvement where interiors are designated as significant. Any modification to the structures or land must receive a Certificate of Appropriateness from the HRC and all improvements must follow the Secretary of the Interior's Standards for Rehabilitation and Illustrated Guidelines for Rehabilitating Historic Buildings.

Designation of this building as a local historic landmark makes the property owner eligible for a 50% reduction of property taxes. Currently the assessed value of the property is $1,561,300 and the total taxes paid for this year were $21,077.55. If the Biltmore Industries property building is designated historic, the taxes would be reduced by half to $10, 338.78.

Before the Asheville City Council can adopt an ordinance designating the Biltmore Industries property located at 111 Grovewood Road as a local historic landmark, the HRC must find that the Biltmore Industries property has integrity of design, setting, workmanship, materials, feeling, and has architectural and cultural significance. At this joint public hearing with the Asheville City Council, the HRC will determine if the property is significant and possess integrity and will recommend to the Council to adopt or reject an ordinance designating the property as a local historic landmark.

Ms. O'Connor described the project in detail while using a slide program. She said the property to be included in the designation is (1) the building exteriors of (a) Eleanor Vance Building; (b) Charlotte Yale Building; (c) Carding and Spinning Buildings; (d) Weavers' Building - Antique Car Museum; (e) Boiler House; (f) Gatehouse, and (g) Guardhouse; (2) the 11-1/2 acres of land with the existing landscape features including rock walls, steps and stone patios; (3) the interior features of historical significance including, but not limited to, the quotes painted on walls and doors in all buildings, the beams, two chandeliers, and the Roycroft lantern in the Weavers' Building, the dye vats and washing machines in the Carding and Spinning Building; and (4) the smokestack connected to the Boiler House. She said that she has received a favorable comment from the State of North Carolina on this designation.

Ms. Betty Lawrence, member on the HRC, moved that the HRC Commission adopt the following Findings:

1. That notice of a public hearing on this designation was published in the Asheville Citizen on 2nd day of December, 1998
2. That at this hearing the applicant and the public were all given the opportunity to offer oral and documentary evidence to the Historic Resources Commission members.
3. The North Carolina Department of Cultural Resources has been provided with the opportunity to review and comment on the proposed designation.
4. That the historic landmark designation criteria, as set forth in Part 3C of Article 19 of Chapter 160A of the North Carolina General Statutes and in Chapter 8 of the Code of Ordinances of the City of Asheville, is as follows:

   a. Deemed and found to be by this Commission to be of special significance in terms of its historical, prehistorical, architectural or cultural importance and to possess integrity of design, setting workmanship, materials, feeling and/or association.
   b. Deemed and found to be by this Commission to be of historical and cultural significance, suitable for preservation or restoration, and of educational value, when taking into consideration the cost of acquisition, restoration, maintenance, operation or repair; possibilities for adaptive or alternative use of the property; appraised value; and administrative and financial responsibility of any person or organization willing to underwrite all or a portion of such costs.

5. This application meets the criteria for significance and aspects of integrity for the following reasons:

   a. The use of the property by Biltmore Industries survives as a direct and important link to the arts and crafts movement of England and America of the nineteenth and early twentieth-century and is thereby of historical and cultural importance.
   b. The property is associated with the lives, work, and ideals of Mr. & Mrs. George Vanderbilt and Fred L. Seely, leading figures of the twentieth-century in the Asheville/Buncombe County area.
   c. The Vanderbilt's established Biltmore Industries in order to make it possible for girls and boys to become productive and useful citizens of their own community and to use Biltmore Estate's natural resources of wool and timber in a practical and honorable way.
   d. In 1917 Mrs. Vanderbilt sold Biltmore Industries to Mr. Fred Seely, builder of the Grove Park Inn. Seely directed the construction of shop structures adjacent to the Grove Park Inn to house all facets of Biltmore Industries and to allow for expansion. The shops were built to complement the "organic" architecture of the Grove Park Inn and they form a compact grouping of cottage-like buildings with stuccoed wall surfaces, casement windows, and broad sloping roofs with rounded eaves that mimic those of the Grove Park Inn, thereby possessing integrity of design, setting, workmanship, materials, feelings and/or association. The grounds are landscaped with dense plantings of evergreens and flowering shrubs.

6. Based upon the foregoing reasons, the Historic Resources Commission of Asheville and Buncombe County **deems and finds** that the Biltmore Industries property is significant in terms of its historical, architectural or cultural importance; that the structure possess integrity of design, setting, workmanship, materials , feeling, and/or association and that the property is suitable for preservation and is of educational value, taking into

consideration the cost of maintenance, use of the property, appraised value of the property and responsibility of the owner for maintenance of the property. Based upon the foregoing, the Historic Resources Commission recommends to the Asheville City Council adoption of an ordinance designating Biltmore Industries, located at 111 Grovewood Road, as a local historic landmark.

This motion was seconded by HRC member Fred Eggerton and carried unanimously.

Mayor Sitnick closed the public hearing at 5:31 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2533. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 196

B. PUBLIC HEARING TO CONSIDER THE DESIGNATION OF A STATE DEVELOPMENT ZONE

RESOLUTION NO. 98-200 - RESOLUTION TO APPLY TO THE SECRETARY OF COMMERCE FOR DESIGNATION OF A STATE DEVELOPMENT ZONE FOR THE CITY OF ASHEVILLE

Mayor Sitnick opened the public hearing at 5:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Charlotte Caplan, Community Development Director, said that the NC Economic Opportunity Act of 1998 builds on the existing William Lee Act by recognizing that areas of economic disadvantage exist within otherwise prosperous counties. It creates State Development Zones ("SDZ") which are urban areas of high poverty within which certain types of businesses creating new jobs or investing in new equipment can claim significant state tax credits. Similar tax incentives have been available for some time under the Lee Act but at very much lower levels because Buncombe County qualifies only for the minimum ("Tier 5") incentives.

Eligible Areas

- Contiguous census tracts or block groups with total population more than 1000, in a municipality with population more than 5000
- More than 20% poverty within SDZ
- Part of each census tract and/or block group must lie within the municipality

Eligible business types

- Manufacturing
- Warehousing and wholesale trade
- Data processing
- Air Courier Services
- Central Administrative Offices (must create at least 40 jobs to qualify)

Tax credits available in SDZs
- Eligible businesses with 5 or more employees receive $4000 tax credit for each new job created, in addition to credit under Lee Act ($500 in Buncombe County)
- 7% tax credit for investment in machinery and equipment - no threshold
- 7% tax credit for costs of establishing a CAO creating at least 40 jobs
- Up to $1000 tax credit for new employee training

Restrictions
- New jobs must not be offset by job loss at another NC location
- New jobs must pay average weekly wage no lower than 110% of County average (currently $493 a week, or $12.32 an hour)

SDZ Designation Procedure
- Local government or individual taxpayers can request designation
- Local government request requires public hearing and Council action
- Simple request form to be submitted to Dept. of Commerce after November 2, 1998
- Secretary of Commerce will designate SDZ after 10 day eligibility review period
- Lasts for four years - SDZ can be enlarged in that time, but not made smaller.

The legislation becomes effective January 1, 1999. We need to get the application to the State by mid-December. Any jobs created after January 1 but before the designation is approved would not receive a tax credit.

Description of Proposed SDZ

SDZ options were studied by a task force comprised of City Planning and Development staff and representatives of Asheville Chamber of Commerce, Asheville Merchants Association, Asheville Business Development Office, Buncombe County, Land of Sky Regional Council, Pisgah Legal Services, and the NC Department of Commerce (as advisor). She reviewed a map which designated specific SDZ's recommended by the task force.

The proposed SDZ is based on eight complete census tracts with more than 20% poverty plus block groups from other census tracts selected either because they join up these tracts (the SDZ cannot contain non-contiguous areas), or because they contain significant areas with suitable zoning (e.g. along the rivers, near the airport).

The orange on the map represents areas included in the proposed SDZ that are zoned for the eligible business types. The brown represents the area with the same zoning, that will remain outside the proposed SDZ. The proposed SDZ includes a significant part of Buncombe County outside the City, mainly in Census tract 23, Block Group 9, which enlarges the SDZ and makes it possible to include the airport. A minority opinion within the task force wanted to limit the SDZ to the city core in order to concentrate job creation incentives in the area of highest poverty. The majority felt that low income persons would be best served by including as much developable land as possible, even though transportation difficulties might prevent some people from accessing new jobs. Location and land availability are key to business development. If suitable land is not available, businesses may simply choose another city.

City staff and the Task Force recommend that City Council authorize the Mayor to apply to the Department of Commerce for designation of the proposed area as a State Development Zone.

Upon inquiry of Richard Timothy Williams, Ms. Caplan said that she did not believe that there were any provisions in this legislation specific to handicapped persons.

Mayor Sitnick closed the public hearing at 5:46 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-200. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 100

Vice-Mayor Hay said that this is consistent with and supportive of the City's economic development policy.

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 98-201 - RESOLUTION ADOPTING THE COMPREHENSIVE PARKING STUDY FOR THE DOWNTOWN, BILTMORE VILLAGE AND WEST ASHEVILLE AREAS

Ms. Cathy Ball, City Engineer, said that this is the consideration of adopting the Comprehensive Parking Study Recommendations for Downtown, Biltmore Village and West Asheville and directing City staff to begin implementing these recommendations.

On September 15, 1998, representatives from Walker Parking Consultants and Day Wilburn Associates, Inc., presented recommendations from the Comprehensive Parking Study of the Downtown, Biltmore Village, and West Asheville areas. Staff then met with several organizations to discuss the recommendations of the study. Staff met with the Asheville Downtown Commission, Asheville Downtown Association, Merchant Action Coalition, Haywood Road Small Area Planning Group, and Downtown Parking Task Force. In addition, staff has received phone calls from the Biltmore Village Merchants Association, Eagle Market Street Development and other individuals. Representatives from some of these groups provided input at the public hearing.

Following the public hearing on October 27, 1998, staff prepared specific recommendations along with approximate costs estimates and a schedule for Council adoption. She said that she plans to bring back to Council at least twice a year an update on what has been accomplished. All comments from interested parties have been either included in the recommendations or addressed.

Ms. Ball then briefly highlighted some of the major recommendations as follows:

Downtown Area: A. Parking Garages: (1) Explore the possibility of increasing the number of monthly parkers in the Wall Street and Rankin Street garages; (2) Look for opportunities to increase parking in the City-County Plaza area; (3) Investigate the possibility of allowed one hour free parking on weekdays and three hours free parking on Saturdays in the parking garages; (4) Actively pursue additional parking in the Biltmore Avenue/Patton Avenue area; (5) Investigate the option of a "park and rice" system; (6) Add a 550 space parking deck in the Battery Park area; and (7) Improve signage to and on the garages. B. On-Street Parking: (1) Request Council pass an ordinance prohibiting feeding on-street parking meters; (2) Work with businesses, residences in individual blocks to revise, add, or eliminate loading zones and handicap parking, including changing some loading zones to commercial vehicles only; (3) Work to provide bus parking for Pack Square; (4) Increase on-street parking meter rates from 25-cents per hour to 50-cents per hour; and (5) Replace manual meters with electronic meters. C. Pedestrian and Bicyclist: (1) Improve pedestrian crossing on College Street close to City/County Plaza. D. Transportation: (1) Optimize traffic signals. Ms. Ball said that in the downtown area they received a lot of comment from different organizations. After receiving those recommendations, they incorporated them into these recommendations. However, many of the recommendations need to be studied further before they are implemented and what was included in these recommendation is that they need to be studied or they need to be explored. Many are at no cost to the City - just means working with some downtown organizations to see how possible it would be to implement them. The only item they had any comment back on was adding parking in the Biltmore Avenue/Patton Avenue area.

Biltmore Village: A. Off-Street Parking: (1) Explore the possibility of adding additional surface parking lots that will add approximately 150 off-street parking spaces; and (2) Explore the possibility of building a 400 car parking garage to meet the off-street demand through the year 2018. B. Pedestrian and Bicyclist: (1) Add crosswalks at the intersection of Lodge Street and All Souls Crescent. C. Transportation: (1) Work with railroad to develop a plan to minimize the impact of the railroad tracks on Biltmore Avenue.

West Asheville: A. Off-Street Parking: (1) Work with private parking lot owners to develop standardized signs for customer parking lots. B. On-Street Parking: (1) Strip on-street parking spaces - work with property owners and business owners on the location of loading zones and handicap ramps). C. Transportation: (1) Request NC DOT study the intersection of Haywood Road and Burton Street to see if it warrants a traffic signal; and (2) Restripe Haywood Road to have two lanes of traffic, except at various intersections.

Staff recommends that City Council adopt the Comprehensive Parking Study Recommendations for Downtown, Biltmore Village and West Asheville and direct City staff to begin implementing these recommendations.

Ms. Ball responded to various questions from Council regarding the recommendations.

Councilman Tomes said that he might come back to Council with a suggestion along the lines of what Kansas City, Missouri, is doing. They have a large surplus fund as a result of an increase in their violation charges, which money is designated to the youth.

Vice-Mayor Hay said that he was not satisfied with the wording relative to the parking in the Biltmore Avenue area. He said there is an immediate problem in the Biltmore Avenue area now that is not being addressed. He suggested amending recommendation 7 Under Downtown Parking Garages to read "Develop a plan for additional parking in the Biltmore Avenue area." He felt the plan could include developers. The approximate end date on that recommendation should be "December 31, 1999."

Mayor Sitnick said that we have some areas behind the City Hall Building that has great potential to go beyond surface lots. The two areas would not only make a great multi-tied deck for the City and County buildings, but also for the Biltmore Avenue and Pack Place area. It could also act as a place for employers and employees to park with a shuttle to downtown.

Upon inquiry of Mayor Sitnick about any recommendation to temporarily park buses that load and unload at Pack Place, Ms. Ball said that it was not officially recommended in the parking study, however, a recommendation does state that when a structure is built in that area that it accommodate bus parking.

Councilwoman Field said that in order for Council to issue revenue bonds in order to build any parking structure that the City had to have a parking study. That is one of the reasons why we went through this exercise. She felt that all of Council has identified the need for parking around the Pack Place area. She suggested amending recommendation 7. Under Downtown Area On-Street Parking to read "Provide bus parking for Pack Place." She also felt a stronger statement needed to be made about coming up with a partnership with a developer to do a parking structure in the Biltmore Avenue area.

Regarding financing of the recommendations, Councilwoman Field suggested the City Manager come back to City Council in the Capital Improvement Program on how the recommendations will be financed.

City Manager Westbrook said that with regard to parking decks, the study recommends the one at the Grove Arcade/Civic Center area be the first one constructed. We will have to pledge the revenues of the parking system, however, even after that, we will have a short-fall in revenue to build that first deck. After the first one is built, we will need to find out how we can come up with the money to build the second one. He asked for general direction from Council based on the recommendations and staff will work on them based on the dates that the City Engineer has presented, starting with the parking deck in the Grove Arcade/Civic Center area first and then work toward the other in future years. Staff will also come back to City Council at various times to modify the plan.

After discussion of possible rewording, it was decided to amend recommendation 7 Under Downtown Parking Garages to read "Develop a plan to meet the parking needs in the Biltmore Avenue area." The approximate end date on that recommendation should be "December 31, 1999." Ms. Ball felt that might be a better recommendation because it may be that the plan would actually call for a surface parking lot.

Mr. Robert Griffin, representing the Biltmore Village Merchants Association and the Biltmore Village Historic Museum, encouraged City Council to strongly consider surface parking locations in the immediate vicinity of the existing Biltmore Train Station so as to accommodate parking for the Amtrak Station and potential locations on those surface locations to build future garages.

Ms. Diana Bilbrey, representing the Health Adventure at Pack Place, urged City Council's support in improving the parking situation on Biltmore Avenue. She noted that they are eager to cooperate with the City in any way they can.

Mr. Mickey Mahafee hoped that City Council would make sure that the concerns of pedestrians are incorporated into the recommendations.

Ms. Christy Pinkston, downtown merchant and also representative of the Merchant Action Coalition, stressed that the meter feeding is a huge problem in the downtown area. She suggested a program to educate people on other parking alternatives outside the City.

Ms. Pam Myers, Director of the Asheville Art Museum in Pack Place, urged City Council's assistance in solving the parking problem in the Pack Place area.

Ms. Linda Nelms, Chair of the Board of Directors for Pack Place, also spoke in support of solving the parking problem in the Pack Place area.

Ms. Regina Trantham, representing the Battery Park merchants, noted that some of the recommendations actually generate revenue immediately. She did feel that there needs to be more enforcement regarding parking.

Ms. Judy Swan, downtown resident and member on the Downtown Association Parking Task Force, urged City Council to look closely at the recommendations of both the Downtown Association and Merchants Action Coalition that the 15-minute rate be raised to $1 per hour.

Mr. John Fleming, President of the Asheville Downtown Association, encouraged City Council to not raise rates in one section of the community without looking to see the effect of that in combination of other rates in various facilities. The garages and parking rates from all the sectors of the City need to be looked at together.

Mr. Scott Jarvis, Chairman of the Downtown Commission, stressed that parking has been an issue of the Downtown Commission for a long time. He thanked different organizations and individuals on their time and efforts into the study.

Mr. Morrison was pleased that the loading zone areas on Biltmore Avenue is being looked at. He suggested that parking be placed on The Block area.

Mr. Neal Evans, Business Administrator of Pack Place, stressed the need for parking in the Pack Place area.

Ms. Jill Arrington, representing the Eagle-Market Streets Development Corporation, noted the desperate need for parking in the City/County area. She said that in developing that plan, active steps be taken to contact all interested parties to be included in the process, particularly given the historical significance of The Block and the Eagle-Market Streets area and any economic development that has happened there in the past.

City Manager Westbrook confirmed that if Council approves the study with the amended recommendations, staff will start bringing back these recommendations and studies to Council on the individual actions as they occur. Also, the City Engineer will be updating City Council twice a year and that would include starting to work on possible financing of a deck in the Grove Arcade/Civic Center area as defined in the study.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 98-201 to adopt the Comprehensive Parking Study Recommendations for Downtown, Biltmore Village and West Asheville areas with the following changes: (1) Recommendation 7 Under Downtown Parking Garages be amended to read "Develop a plan to meet the parking needs in the Biltmore Avenue area." With the approximate end date to be "December 31, 1999" and (2) Recommendation 7. Under Downtown Area On-Street Parking be amended to read "Provide a plan for bus parking for Pack Place." This motion was seconded by Councilwoman Field.

Vice-Mayor Hay said that this is a good comprehensive plan and represents a consensus from the community.

Councilwoman Field said that this is the kind of citizen input and public participation in a process that she considered to be meaningful.

Councilman Cobb hoped that any future decks that are built in the City contain one level of business in it and not just be all parking.

Mayor Sitnick thanked all the citizens of the community who have worked on this diligently. She said it would be our greatest hope that as we move along in trying to implement this plan, which we consider a great significant part of economic vitality in this community, that we form the kinds of partnerships in implementing the plan both fiscal and physical that were formed in creating the plan.

The motion made by Councilman Cloninger and seconded by Councilwoman Field carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 101

B. RESOLUTION NO. 98-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT AND RESTATEMENT OF AGREEMENT REGARDING CONSTRUCTION OF A HIGH-TECH/FLEX BUILDING TO BE LOCATED IN BILTMORE PARK TECHNOLOGY CENTER (FORMERLY TECHNOLOGY PARK AT BROADLANDS)

Assistant City Attorney Patsy Meldrum said that this resolution is to authorize the Mayor to execute an Amendment and Restatement of Agreement by and among the City of Asheville, Western North Carolina Regional Economic Development Non-Profit Corporation and Biltmore Farms, Inc. regarding the construction of a high-tech/flex building to be located in Biltmore Park Technology Center (formerly Technology Park at Broadlands)

On November 28, 1997, the City of Asheville, Western North Carolina Regional Economic Development Non-Profit Corporation and Biltmore Farms, Inc. entered into an agreement regarding the construction of a "high-tech/flex building" in a technological business park to be named Technology Park at Broadlands (now Biltmore Park Technology Center) (hereinafter the "1997 Agreement"). Biltmore Farms, Inc. owns the land on which the technological business park is located and on which the "high-tech/flex building" is to be located.

The 1997 Agreement described the construction of the "high-tech/flex building" which would be constructed by Biltmore Farms, Inc. on property it owns with financing in an amount of up to $2,500,000 from certificates of participation which the City of Asheville would cause to be issued. The 1997 Agreement further provided that the City of Asheville would reimburse Biltmore Farms, Inc. for water and sewer lines and an access road for the Building and the technological business park, with total costs not to exceed $310,000.

Biltmore Farms, Inc. agreed to provide security for the funding from the certificates of participation for the construction of the building, Western North Carolina Regional Economic Development Non-Profit Corporation agreed to market the building for a suitable high-tech user and to provide funding for the interest portion of the debt service on the certificates of participation during the first 24 months after completion of the building.

Construction of the access road and water and sewer lines and issuance of the certificates of participation have now been completed. Biltmore Farms, Inc. desires to relocate the space where the building will be constructed. As a result of these and other changes, it is necessary to revise the 1997 Agreement. An "Amendment and Restatement of Agreement" has been prepared in order to include those revisions.

At the request of Vice-Mayor Hay, City Manager Westbrook gave City Council a status report on the project noting that it is coming along as expected.

Ms. Meldrum said that since they are still working on finalizing the language of the agreement that some language be inserted in the resolution that the final agreement is subject to the approval of the City Attorney's Office. If there are any material changes from what City Council has seen, she will bring those back to City Council.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it will not be read.

Councilwoman Field moved for the adoption of Resolution No. 98-202. This motion was seconded by Vice-Mayor Hay and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 102

C. RESOLUTION NO. 98-203 - RESOLUTION APPROVING ASSIGNMENT OF GROVE ARCADE LEASE

Because Councilman Cloninger's firm represents the Grove Arcade Public Market Foundation, he asked to be excused from voting. Due to a conflict of interest, Councilman Sellers moved to excuse Councilman Cloninger from voting. This motion was seconded by Councilman Cobb and carried unanimously.

City Attorney Oast said that this is the consideration of a resolution approving assignment of the Grove Arcade Lease.

In August of 1997, the City approved the lease of the Grove Arcade Building, acquired from the US Government pursuant to the National Monuments Act, to the Grove Arcade Public Market Foundation.

GAPMF and the City have received a $1 million grant from the Economic Development Administration to finance part of the renovation, scheduled to begin in January, 1999. GAPMF proposes to finance part of the remainder of the renovations through the use of a mechanism known as tax credit syndication.

Tax credits are available for the cost of work done on historic structures, provided the work preserves or restores the structure and meets certain other requirements. Syndication is a way of selling the tax credits in exchange for financial participation, not unlike certificates of participation. One requirement for the use of tax credit syndication is that the entity doing the work and using the credits must be a tax paying or "for-profit" entity. GAPMF is a non-profit entity.

In order for GAPMF to use tax credit syndication, it has organized a wholly owned for-profit subsidiary corporation. Grove Arcade Preservation, Inc. ("GAPI"), and proposes to assign the lease to this subsidiary in order to market the tax credits. GAPI will then enter into a partnership with the purchaser of the tax credits, and this entity will perform the work on the building.

GAPMF has been working with the National Park Service and the General Services Administration, the federal agencies responsible for the building, and will obtain written assurances that this transaction will not violate any of the deed restrictions; GAPMF's attorneys have been consulting with a Philadelphia law firm that specializes in such transactions, and has handled several of them around the country. A local example of tax credit syndication involving the use of public funds is a recent project by Mountain Housing Opportunities.

One of the requirements of the N.C. law governing the City's lease of the Grove Arcade to GAPMF is that the lessee or purchaser be a non-profit corporation, and that the disposition be subject to a preservation agreement that guarantees the preservation of the structure. The Operating Agreement between the City and GAPMF is such an agreement, and it would continue to bind GAPI. As long as the preservation agreement remains in effect, assignment or other disposition is not prohibited by the statute. Finally, our bond counsel has indicated that the transaction will not affect the validity of the 1997 COP's issuance, because only the taxable part of the issuance is being used in connection with the Grove Arcade renovations.

City Attorney Oast said that Council will need to take two actions: (1) approve the resolution allowing the assignment; and (2) a motion approving our execution of the appropriate covenants to Economic Development Administration to allow us to fulfill the conditions of grant.

Mr. Lou Bissette spoke in support of the assignment of the Grove Arcade lease.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 98-203. This motion was seconded by Councilman Sellers and carried unanimously.

Councilman Sellers moved to approve the execution of the appropriate covenants to the Economic Development Administration. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 104

D. UPDATE ON ZEALANDIA BRIDGE

Ms. Suzanne Molloy, Assistant Public Works Director, said that his report outlines the findings and recommendation based upon staff's evaluation of the measures necessary to rehabilitate the Zealandia Bridge located at Beaumont Gap.

On July 21, 1998, City Council directed staff to: 1) Determine temporary measures needed to make the Zealandia Bridge safe; and 2) Provide cost estimates to permanently repair the structure. After additional engineering analysis and subsequent bidding of the project, staff determined the structure can be stabilized to prevent safety hazards (until Spring, 1999) for $20,000. For $50,000, the structure can be stabilized to prevent safety hazards for an estimated 3 years, and potentially up to 5 years. Permanent rehabilitation efforts would need to be initiated at the end of either of these time periods with an additional cost of $350,000. An additional $4,000 will be needed for surveying and easement acquisition. The bids received by the City must be acted upon in a timely manner or the bid proposal can be withdrawn by the Contractor.

Staff also evaluated other issues which must be addressed in order to rehabilitate the bridge. These issues include: 1) Ownership of bridge property outside of the right-of-way; 2) Buy-in from adjoining property owners who will need to dedicate property or easements to the City for rehabilitation access and linkages to a potential greenway system; and 3) Identification of organization or responsible individuals who will spearhead planning, easement acquisition, and fundraising efforts.

Ownership of the Bridge
The City of Asheville does not currently own all of the property upon which the Zealandia Bridge is located. A 30 foot right-of-way exists on Beaumont Street; however, portions of the structure are located on the property owned by Robert D. Armstrong and Juanita Brown.

Dedication of Property or Easements
The Historic Resources Commission has just recently mailed correspondence to the two key property owners who would need to dedicate permanent easements for access to the bridge for

rehabilitation, reconstruction, or long-term greenway development. The correspondence provides an overview of the bridge preservation concept, costs, and necessary easements. A response has not been received from these two property owners.

Organizational Sponsorship and Fundraising
On December 7, 1998, Joshua Warren agreed to organize and temporarily chair a "Save the Bridge" Committee to work with the Historic Resources Commission on fundraising over the next three years. The Preservation Society , though interested in the structure, has decided not to take on this project. Public Works is not aware of any funds that have already been raised for stabilization or long-term options. A preliminary fundraising plan would be initiated by the Committee to raise necessary funds.

Greenway System
The *Master Greenway Plan* identifies a neighborhood greenway along Beaucatcher which could link up to the Zealandia Bridge; however, neighborhood greenways have not been prioritized in the plan. The Parks and Recreation Department will focus on the 14 corridor greenways as outlined in the implementation plan. Land acquisition for greenway development will be necessary and no budget (current or planned) has been identified for this specific type of project in the future. Should a greenway system eventually be linked across the Beaumont Gap, a pedestrian bridge could be constructed for approximately $60,000.

Petition from Residents of Windswept
Residents of Windswept Drive submitted a petition to the City of Asheville requesting that the Zealandia Bridge not be rehabilitated for reasons outlined in their petition. The residents have requested that this petition be presented to City Council as a part of the consideration of the bridge discussion.

The Zealandia Bridge is not designated as "historic" by virtue of not being in the National Register of Historic Structures. The primary issue is that of public safety due to the condition of the structure. Considering potential liability, the structure should either be demolished or rehabilitated to a condition to allow for private fundraising to restore the bridge. If temporarily stabilized, fencing should be installed to prevent access to the bridge and avoid tampering with stabilization system.

Based upon the public safety concerns outlined herein, staff recommends that City Council take action according to one of the following two (2) options:

Option #1 Authorize staff to remove the Zealandia Bridge and salvage any potential materials that an be feasibly incorporated into other City projects;

Option #2 Appropriate funds in the amount of $54,000 and authorize the City Manager to enter into a contract in the amount of $50,000 with the lowest bidder Precision Contracting Inc. for stabilization of the structure and easement acquisition, contingent upon the following:

a. Permanent easements for access to the Bridge can be acquired within 30 days; and

b. An agreement be prepared between the "Save the Bridge" Committee and the City outlining the Committee's commitment to raise $330,000 no later than January 2, 2002, and to repay the City the $50,000 for stabilization if the fundraising efforts are not successful.

Upon inquiry of Councilman Cobb, Ms. Molloy said that it would cost approximately $5-7,000 of in-house labor to tear the bridge down.

200

Councilman Cloninger tried to determine whether there was enthusiasm in the community to save the bridge, or whether the City is trying to talk people into becoming interested. He felt if the City was trying to prod people along, that would not be a good indication that we should spend the $50,000.

Upon inquiry of Councilman Tomes about where the $54,000 would come from to stabilize the bridge, City Manager Westbrook said it would have to come out of either contingency or fund balance.

Mr. Robert Griffin said that with his previous offer to volunteer to raise $5,000 and the City's $7,000 for demolition, those two figures could be combined for a total of $13,000 toward the $50,000 to stabilize the bridge. He urged Council to give more time in order to save this historical artifact.

Mr. Jody Kuhne, representative of the Historic Resources Commission, felt this was a difficult time to raise money in the year. He said that people are interested in the project but they are not quite sure what will happen to the bridge. Since the City has a greenway master plan, he felt that we should put this together as a package that the public is willing to support. Personally he felt the property should become a greenway and if it would be organized through Parks and Recreation, he would be willing to spearhead the original public foray into developing this into a greenway since it is not currently a priority under the greenway plan. He took this issue to the N.C. Dept. of Transportation Maintenance Department and they said that if we had someone willing to do this type of work for $50,000, we should do it. He sees this as a $50,000 investment into property the City already owns. He said the people at Peppertree have expressed their willingness to see the park developed and the easements granted up to the bridge on their side. They have been unable to contact the other property owner on the other side. He felt that in stabilizing the bridge for three-five years will give the community an opportunity to raise the $300,000 through grants and ICTEA funds. He encouraged City Council to take steps to save the bridge.

Mr. Harry Weiss, Executive Director of the Preservation Society, said that despite the lack of official designation of this bridge, it is a bona fide historic resource that ties in with the Zealandia and ties into a whole 19th Century landscape. He felt that the concept of a park at this location is a viable one that may serve to leverage a financial solution for restoring the bridge, as well as making it a useful and functional element that the public can enjoy. You could treat it as a public monument in the sense that Vance Monument is a public monument owned by the City. He said that the Preservation Society is not in a position to take the lead to spearhead the work on saving the bridge, however, they will assist and support any efforts to save it.

Councilman Cloninger said that option no. 2 authorizes the expenditure of $50,000 to stabilize the bridge for the next three-five years and then if the Save the Bridge Committee is not successful in their fundraising efforts, they would have to reimburse the City that amount. His concern is that if this Committee doesn't get off the ground at all and not even able to raise $50,000, then the City won't get that money back and will have had to spent $50,000 for basically nothing. He did not know enough about the Committee, any members, what their potential is for fundraising, or what their plan is. He only way he would be comfortable at this point to allocate $50,000 is if the Committee was given a fairly short time-frame to come up with $50,000 and put it in escrow so that it is sitting in an account waiting to be reimbursed back to the City in the event they are not successful.

Mr. Weiss felt that if the strategy of a park on the 12 acres is explored, they would be able to find public support for it if there was support from the adjacent property owners and some indication of interest on the part of City government as a whole. In talking with representatives of Peppertree and Zealandia, they have both indicated a comfort level and general support for the idea of a park at that location. They have also indicated a willingness to grant the necessary easements for repair and restoration of the bridge, as well as future pedestrian access across portions of Zealandia to make a better linkage between the bridge and any potential park there. He said their fundraising plan shows a three year schedule to raise the entire $330,000, with $50,000 being raised in 1999. He could not imagine $50,000 could be raised in 30 days.

When Mayor Sitnick asked if there has been any effort in the past months, since this first came to Council to raise any funds, Mr. Weiss said that there have been private contracts made but until they knew a firm figure to go to people to raise funds, it was a difficult proposition. When they approach major funding sources, those sources will want more clarity on what the total cost of the whole project will be.

When Councilwoman Field asked what would happen if Council delayed action for 30 days to get clarity from the Committee, Ms. Molloy said that staff's concern is that Council really needs to decided soon because winter is coming and there is a contractor involved. She said that easements and temporary construction easements need to be obtained, and the property needs to be surveyed.

Mayor Sitnick noted that should a greenway system be eventually linked across the Beaumont Gap, a pedestrian bridge could be constructed for approximately $60,000. Recognizing the sensitivity of the historic aspect of Zealandia Bridge, how offensive would it be to construct the pedestrian bridge across the Gap for $60,000 using the materials that were salvaged from the Zealandia Bridge and creating a plaque recognizing that this is a pedestrian bridge that was in part constructed out of materials from the Zealandia Bridge. Ms. Molloy responded that the $60,000 cost is for a new pre-fabricated type of bridge that will probably be similar to what will go eventually be in the W.T. Weaver Boulevard Phase II Greenway. She said the City could look into that, however, the cost would go up substantially. However, there may be ways that you can incorporate some of that back into the design. But to actually totally re-create the structure in the same manner will be very difficult because it is stone and mortar and a lot of the cap stones are already missing on the bridge.

City Manager Westbrook said that the bridge is a danger to the public and that staff needs to block the street, take the bridge down or stabilize it. He said the first staff recommendation was to take the bridge down because there is nobody that uses it now, it is across public right-of-way, it is dangerous, and it would cost a lot of money to stabilize it. Because there are a lot of variations and if Council wants more time, he recommended blocking the street at this time because they feel the bridge is imminent danger. If the bridge were dismantled and at another time a pedestrian bridge was built, we could save the materials and perhaps build an entranceway or some pillars with a plaque that might be a trailhead for that particular interest. But to completely rebuild it, it will get back up to the $350,000 figure. Staff is concerned about the safety and if there is any other delay, the road should be blocked.

Ms. Betty Lawrence said that the City has never spent any money on maintaining this bridge and has owned it for a number of years so the City should take some portion of responsibility for its condition. She encouraged Council to support the concept of a park.

After discussion, Councilwoman Field moved to continue this matter until January 12, 1999, in order for (1) the Public Works Department to report on whether they have or have not obtained the appropriate easements, (2) the Public Works Department to meet with the Director of Parks and Recreation to find out if the partnering of the bridge and parks will work with the Greenway Master Plan, and (3) the Historic Resources Commission, through HRC Director Maggie O'Connor, to report back with some clear, strong direction from the Save the Bridge

Committee on a realistic timeline and their ability to raise the $50,000. If after that time, Council will make a definite decision. This motion was seconded by Councilman Sellers.

Councilman Cloninger said that would like to see some evidence from commitments as to money.

The motion made by Councilwoman Field and seconded by Councilman Sellers carried unanimously.

Given the imminent danger concern, City Manager Westbrook said that staff will decide whether to keep the road open or close it.

Councilman Tomes moved to amend the agenda to discuss the Asheville Motor Speedway prior to the proposed Phase III water restrictions. This motion was seconded by Councilwoman Field and carried unanimously.

E. RESOLUTION NO. 98-204 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE A LEASE FOR THE ASHEVILLE MOTOR SPEEDWAY

RESOLUTION NO. 98-205 - RESOLUTION DIRECTING THAT THE REVENUE FROM THE LEASE OF THE ASHEVILLE MOTOR SPEEDWAY FOR 1999 BE USED FOR PLANNING AND DEVELOPMENT OF THE PROPERTY

City Attorney Oast said that on October 13, 1998, City Council acquired approximately 31 acres of property known as the Asheville Motor Speedway from RiverLink to be used for park and greenway purposes. Over the past few weeks staff, RiverLink and the racing community have been working to resolve issues that would allow the property to be used for racing for another season.

He said that pursuant to the direction from City Council at their November 24, 1998, meeting, a Lease Agreement was drafted incorporating the basic terms that Council reviewed and approved at that meeting. The City received three inquiries about leasing AMS for 1999, and furnished a copy of the draft lease to each person who requested one. Some changes were made to the draft, and those changes were also supplied to the interested parties. Meetings were arranged with each of the three parties, but one party pulled out prior to the meeting, and only two meetings were held. One group that was interviewed included John Huffman, the South Carolina businessman who owns the Hickory Motor Speedway; the other group (Carolina Motorsports) included Danny Jones, who is seeking to develop a speedway in Henderson County.

Both parties agreed to the essential operational aspects of the lease: length of season, insurance and indemnity, noise restrictions; and both submitted strong proposals.

The main difference between the two proposals was in the amount of rent offered for the season. The Jones group offered $200,000, a substantial part of which will be paid before the season begins. The Huffman proposal offered significantly less money. The figure is significant not only because it is higher than the other figure that was offered, but because one of RiverLink's donors have suggested the $200,000 minimum lease amount that the City should request. He felt that $200,000 is a fair rent and that we had some information that the track's recent income history would support an income of $200,000 for a season. He also was advised that it will take between $30-80,000 to make the racetrack operational for next year.

Accordingly, the City's staff recommends that the City accept the proposal made by Danny Jones and Carolina Motorsports for leasing the speedway for 1999, and that it authorize the City Manager to negotiate and sign the lease in substantial conformity with the draft lease, and for a rent of $200,000. The lease, and Council's approval of it, are subject to the contingency to that appropriate waivers and approvals be obtained with respect to the Conservation Easement and deed restrictions. The discussions on these points are already underway. The details are subject to further negotiation, and the City will insist on reviewing a financial statement prior to executing the Lease.

City Attorney Oast said that the City cannot guarantee racing but the best thing the City can do is everything to make it possible for racing to occur. If we can come up to an agreement, and again this is not a "done-deal", it will be up to the racing community to make that racing happen. If Council agrees with staff's recommendation to accept the proposal made by Danny Jones and Carolina Motorsports for leasing the speedway for 1999, there are still some details that need to be addressed, for example, they want to establish a timetable for getting certain things done and a schedule of payments to be received needs to be established depending on the kinds of financial assurances that the City receives.

City Attorney Oast said that the Parks and Recreation Department is requesting that funds from the lease of the Speedway for the 1999 season be dedicated for the future development and design of the Speedway property, consistent with the terms of its acquisition.

City Attorney Oast thanked Councilman Sellers, Representative Martin Nesbitt Sr., Martin Nesbitt Jr., Ron Crane, Doug Wilson, Karen Cragnolin, Jim Westbrook, Irby Brinson, John Huffman, the Young family, Danny Jones and everyone who expressed interest in operating the speedway. He said everyone had good ideas about what should be incorporated into the agreement. He said that the revenue for the operation of the Speedway during the final season may go a long way towards providing the City's plan for developing the property. Also, the Asheville Motor Speedway, which is 40 years old, will soon be replaced with a bigger, better and faster facility that will better serve the needs of the racing community and may provide for some economic development.

Mayor Sitnick wanted to make sure that some kind of recognition of the Speedway's four decades long cultural historical contribution to this community be acknowledged. City Attorney Oast said that the best way to address that issue is when the 1999 racing season is over, that the raceway will be the City's property and what is appropriate to do with it should be left up to the City. City Manager Westbrook said that in talking with the Director of Parks and Recreation, it is in his plan to incorporate whatever happens to that property there a proper recognition for what has occurred there in the past in terms of the racetrack.

Mr. Ron Crane, member of the Speedway 99 Committee, said that personally, he was resentful that a Black Flag Committee that is trying to recall City Council tied the issues of the racetrack to the recall petition. He does not support any of their issues and they have found this Council to be open-minded to their needs and wants concerning the racetrack. He said Bob Oast was very precise in his information he has given them and he has worked very hard with the Speedway 99 Committee. He said that Councilman Sellers, who is liaison to the Speedway 99 Committee, has certainly done a worthy job. Parks & Recreation Director Irby Brinson and City Manager Westbrook have shown their concern for all the citizens' needs in the community and addressed all issues in a most professional manner. He said City Council has done a stand-up job and he personally thanked them. He thanked RiverLink and its donors for allowing racing to continue for another year.

Mr. Don Yelton said that he was with MSD Associates who has been retained by the Black Flag Committee to circulate the recall petition. He thanked the Mayor for her comments relative to the historic nature of the racetrack. He suggested that City Council use some of the $200,000 to take a canoe ride down by the old racetrack and look at all the old cars sticking out of the bank causing an environmental hazard.

Mr. Peter Dawes, partner in MSD Associates, suggested City Council use some of the $200,000 to clean up RiverLink's old Mill property down by the River that burnt down. He said the tape that is around the building is not sufficient to keep people out of there.

Representative Martin Nesbitt thanked Councilman Sellers, City Attorney Oast, all City Council members, RiverLink and the racing community for their work with this. He said that it is almost unbelievable to think that we are here only two months after it looked like there was no answer to this question. He said it was important for everyone to remember that when the racing community approached City Council there were no solutions. It took communication, good will and people working together to find a solution to this problem. He couldn't think of anything else where this many people in our community have come together in such a quick period of time to do what he felt was the appropriate thing to do for the community. He said that when people question the historic significance of the racetrack, they may be just thinking that some people have a soft spot in their hearts, but in the NASCAR magazine this week, on the front page inside from the editor there is a piece on the historical significance of Asheville to NASCAR. He again thanked all the individuals involved.

Councilman Cloninger said that a tremendous part of being able to work out an agreement was due to the cool level headed leadership that Representative Nesbitt approached this matter. On behalf of City Council, he expressed Council's appreciation.

Mayor Sitnick said that in reference to the Wadley-Donovan report which consistently bad-mouthed this community, said we don't get along, said we don't know how to work together, and said we don't know how to come to resolution, she would like to compliment the racing the community. There was a shock, there was a stunning blow, there was anger, there was emotional upheaval and everybody worked together and found a win-win solution. The Wadley-Donovan report said that doesn't happen in this community. She rests her case on the quick resolution of the speedway issue.

An audience member said that the 20,000 people who signed the petition requesting that racing be allowed at the racetrack for another season thanked City Council.

Mayor Sitnick said that members of Council have been previously furnished with copies of the resolutions and they would not be read.

Councilman Sellers moved for the adoption of Resolution No. 98-204. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 105

Councilman Tomes moved for the adoption of Resolution No. 98-205. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 106

F. PHASE III DROUGHT RESTRICTIONS AND RATE SURCHARGES

Mr. Tom Frederick, Water Resources Director, said that at the Water Authority meeting on December 15, 1998, the Authority adopted a resolution declaring Phase III Water Use Restrictions and Surcharges which continue to enforce Phase II restrictions adopted October 20, 1998, and add rate surcharges of $1.40 per one hundred cubic feet for all consumption during this restriction greater than 80% of the customers average consumption in the past year. One action the Water Authority did not enact delaying putting in taps for new customers that come in and begin an application during this Phase III condition. It was decided by the Authority to keep that process as it currently exists.

Continued above normal temperatures and below normal rainfall in the Asheville area has resulted in further depletion of the City's water supply reservoirs. As of December 9, 1998, the combined reservoir levels have reached a record 67.35 feet below normal and recent staff calculations have projected that if current temperature and lack of rainfall persist, the current stored water in the reservoirs may not last beyond 90 more days.

On Thursday, December 3, 1998, the Water Authority held a public forum at the City of Asheville Public Works facility where a draft of Phase III restrictions were introduced for public comment. A resolution has been amended to incorporate some effective comment from this forum. In addition, the staff received many suggestions from the public on areas to target better public information.

Along with the proposed resolution, the Water Resources Department is increasing public information on conservation through various news media, billing inserts, and five business round tables in the next two weeks with landscapers, lodging facilities, multi-family residential facilities, industry, and restaurants. In addition, the staff are focusing on responsive leak repairs in the Water System, implementing purchase of water from Hendersonville and evaluation of other alternatives, and continuing to evaluate the latest conditions at the two water treatment plants to anticipate as early as reasonable changing conditions requiring operating adjustments or other contingencies.

Upon inquiry of Councilman Sellers, Mr. Frederick said that if necessary to go to Phase IV, that would be mandatory rationing of water to customers and curtailing of non-essential uses.

Mr. Frederick responded to various questions from Council, some being, but not limited to, what is the feasibility of brining in water from the French Broad River to our treatment plant, can industries use the French Broad River water, when will the Mills River Plan be operable, is there any kind of surcharge for commercial industry, is there a penalty clause in the Mills River Plan construction documents, and can the City look to FEMA for help.

Mayor Sitnick said that this crisis makes a case for on-going conservation. This community has attempted to do some public relations and education efforts in the past regarding on-going conservation. Since we can't control the weather and there will be future droughts, while we are trying to keep up with a 200 year old infrastructure that is very expensive, that we consider creating an ongoing, much more accentuated water conservation program throughout the City to not only keep people on their toes, but so that if we get to this point of drought again that we are not in such a desperate situation. Conservation should be part of our daily lives. When we are fiscally conservative everyone thinks that's great, but the minute you talk about conservation of nature

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 8, 1998

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on December 8, 1998. This motion was seconded by Councilman Cobb and carried unanimously.

B. FUTURE OF THE CIVIC CENTER TASK FORCE

Vice-Mayor Hay, who is also Chair of the Future of the Civic Center Task Force, moved to appoint John Winkenwerder to the Future of the Civic Center Task Force. This motion was seconded by Councilwoman Field and carried unanimously.

C. JOINT MEETINGS WITH BUNCOMBE COUNTY ELECTED OFFICIALS

City Manager Westbrook said that he received a letter from Buncombe County Manager Wanda Greene which suggested the dates of Friday, February 19-20, 1999, or Friday, February 26-27, 1999, as possible dates for the brainstorming session with all the elected officials in Buncombe County. He said the retreat would be at Owen Conference Center at UNC-Asheville. It would be held on Friday from 4-8:00 p.m. and then again on Saturday from 8-4:00 p.m.

Mayor Sitnick asked that City Council contact the City Manager directly the next day to let him know of which dates City Council would prefer to meet.

D. CLAIMS

The following claims were received by the City of Asheville during the week of December 3-10, 1998: Kristy Penland (Water), Pat Blair (Finance), Clifton Dozier (Inspections), Michaela Denny (Sanitation), Clements Flower Shop (Sanitation), Freida Mitchell (Traffic Engineering), Gary Strickland (Sanitation), Walter Koester (Water) and Mike Zenowitz (Inspections).

These claims have been referred to Asheville Claims Corporation for investigation.

E. LAWSUIT

The following Petition in the Nature of Certiorari was received on December 10, 1998: SBA Inc. and BellSouth Carolina, PCS, L.P., d/b/a BellSouth Mobility DCS and Paul Tescione v. City of Asheville. The proceeding is an appeal to Superior Court from City Council's adoption of Order Denying Conditional Use Permit for wireless telecommunications tower proposed to be located at 754 Merrimon Avenue.

This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. COMPLAINT BY RICK WILLIAMS RELATIVE TO SONNY'S TOWING

Mr. Rick Williams was very upset at the towing practices of Sonny's Towing Service in private lots. He said that he has researched this issue and has found out that City Council does have the authority and can regulate towing in the Asheville area.

Mayor Sitnick said that the City Attorney will look into this matter and that she would contact Mr. Williams with what he finds.

B. MASSACRE IN MEXICAN STATE OF CHIAPAS

Mr. Bill Gorz, representing Sister City Solidaridad, said that the Mexican City of San Cristobal de Las Casas is one of Asheville's Sister Cities. On December 22, 1997, approximately 65 members of a right-wing paramilitary group drove into a community of Mayan

Indians on the outskirts of San Cristobal de Las Casas and went on a killing spree. Twenty-one women, 14 children, one infant and nine men for a total of 45 people were killed. At least 25 more were injured and the whole town was terrorized. While this was happening, the Chiapas state police watched from a few hundred yards away and did nothing. Investigations by both the Mexican Federal Attorney Generals Office and the Zapatista Command Council revealed that the perpetrators had links to the Mexican Institutional Revolutionary Party, which is the Mexican federal government, the Chiapas State Governor's Office and local governor's offices, and furthermore that these contacts had supplied the perpetrators with the weapons, ammunition, vehicles and radios used in the assault.

After an investigation, approximately 40 people were identified and formally charged with participation in the massacre. One was the Mayor of Chenalhol which is nearby-town. Also, the material that was used in the assault was paid for by the U.S. Government so our tax dollars were used for this outrage.

Almost a year has gone by and the people responsible for this tragedy have not been brought to justice. The PRI government of President Zedillo has not pursued the indictments handed down by the Attorney General's Office and without any outside pressure being brought upon the Mexican government, it is likely that the whole thing will be swept under the rug.

The fact that there is no pressure, recently Amnesty International and the United Nations Commission against torture have released reports that have been raised international awareness of the problem in Mexican and the European Union has made an extensive investigation, has condemned the massacre and the Mexican government's complicity. In the United States, Senator Leahy and Representative Pelosi introduced a bill requiring the Mexican government to spend the money that we send them for defense and anti-drug efforts actually for defense and anti-drug efforts rather than oppressing their own population.

We hereby call upon the City of Asheville to support it's Sister City and join this growing international movement in forcing the Mexican government to bring this gang of killers to justice. In support of this we request the following points: (1) That the City Council formally condemn the massacre; (2) That the City Council send a letter to the office of President Zedillo deploring the government's lack of action in this matter, and urging him to support immediate hearings so that justice may be served; and (3) That the City Council send copies both of the condemnation and the letter to President Zedillo to the people of our Sister City San Cristobal de Las Casas n case of the office of their mayor, so they will know of our support.

Councilwoman Field said that the Sister Cities group is very much aware of what is going on and is monitoring it. She said that because Sister City relationships are government to government, we are working with the system and with the Red Cross as much as we can. She suggested our City Attorney look into the situation to see what City Council can do.

Mayor Sitnick suggested Mr. Gorz contact Councilwoman Field to exchange information.

C. COMPLAINT BY DEBBIE LEDFORD RELATIVE TO SONNY'S TOWING

Ms. Debbie Ledford, speaking on behalf of her mother, urged City Council to stop the towing practices of Sonny's Towing. She said that he if he is operating within the law, it is barely. She urged City Council to support their efforts.

Mayor Sitnick said that City Council has been discussing this issue.

B. COMMENTS BY MR. MORRIS RELATIVE TO CANNABIS

Mr. Morrison said that he would be contacting City Council members and try to inform them about his issue of cannabis use and not abuse.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:17 p.m.

Magdalene Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 5, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

New Street Name Approval - Rosefield Drive

Summary: The consideration of a resolution accepting the new proposed street name Rosefield Drive.

New Street Name - Distant View Drive

Summary: The consideration of a resolution accepting the new proposed street name Distant View Drive.

Contract with NC State University to Provide a Pavement Management Inventory for City-Maintained Streets

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with NC State University to provide a Pavement Management Inventory in the amount of $41,104.

The City maintains approximately 365 miles of streets. The best method for prioritizing the maintenance of these streets is to develop an inventory of all the streets along with the condition of the street. Many municipalities use this method for developing both short and long term pavement and maintenance schedules.

The Institute for Transportation Research and Education (ITRE), which is affiliated with North Carolina State University, provides these services to many cities in North Carolina. (All contracts must be with NC State University.) Prior to selecting ITRE for this contract, staff invited three other firms to demonstrate their ability to provide these services to the City. Review staff consisted of three staff persons from the Engineering Department, one staff person from the Public Works Department and one staff person from the Information Services Division of the Finance Department. Following the demonstrations, the staff committee selected ITRE to perform the work for the following reasons:

- *ITRE was the least expensive.* In order to maintain this inventory, it should be redone every three to five years due to the fact that some streets deteriorate at varying rates. Staff felt that it would not be feasible to spend $100,000 every five years to have the inventory redone.
- *ITRE is a non-profit organization established specifically to assist with Transportation Research and Education.*
- *ITRE has provided this service to several cities in North Carolina.*

The services provided by ITRE consist of an inventory and evaluation of all City streets, as well as establishing a database which prioritizes the street maintenance needs. The Public

Works Department has $40,000 budgeted for this project and the Engineering Department has the remaining funds budgeted. Due to the fact that ITRE is a non-profit organization affiliated with NC State University, they do not have the funds to begin the project. Therefore, they have requested half of the money initially and the remaining half at the end of the project.

City staff requests City Council authorize the City Manager to sign a contract with NC State University in the amount of $41,104 to provide a Pavement Management Inventory for the City.

Bid Award for 16 Assorted Vehicles

Summary: The consideration of a resolution to award Bid Request No. 486-99 for the purchase of 16 assorted fleet vehicles.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish the Police, Building Safety and Engineering Departments with vehicles as described in the bid summary as bid items 1 through 4. Four bids were received as follows:

Full Size Police Vehicles	
Earl Tindol Ford, Gastonia, N.C.	$193,130.00
Matthews Ford, Asheville, N.C.	$195,160.00
Frank Polk Ford, Black Mountain, N.C.	$206.640.00

Mid Size 4 WD Pickup Truck	
Earl Tindol Ford, Gastonia, N.C.	$15,769.00
Matthews Ford, Asheville, N.C.	$15,666.00
Frank Polk Ford, Black Mountain, N.C.	$15,690.00
Fletcher Motor Company, Fletcher, N.C.	$16,145.27

Mid Size 2 WD Pickup Trucks	
Earl Tindol Ford, Gastonia, N.C.	$40,065.00
Matthews Ford, Asheville, N.C.	$39,705.00
Frank Polk Ford, Black Mountain, N.C.	$39,774.00
Fletcher Motor Company, Fletcher, N.C.	$40,156.95

One-Half Ton 2 WD Heavy Duty Pickup	
Earl Tindol Ford, Gastonia, N.C.	$28,866.00
Matthews Ford, Asheville, N.C.	$28,744.00
Frank Polk Ford, Black Mountain, N.C.	$28,816.00
Fletcher Motor Company, Fletcher, N.C.	$32,217.14

Bids have been reviewed for technical compliance to specifications by the Fleet Management Division and their concurrence received in the following recommendations.

Funds for the purchase of these vehicles are to be from the requisitioning departments capital equipment appropriations for FY 98/99. All vehicles are budgeted as replacement vehicles.

Subject to Council's approval, it is recommended that awards be made to the low bidder of each item as follows:

Bid item 1 award to Earl Tindol Ford, Gastonia, N. C. in the amount of $193,130.00 for the purchase of the vehicles described in the bid summary for this item.

Bid items 2, 3, and 4 award to Matthews Ford, Asheville, N. C. in the amount of $84,115.00 for the purchase of vehicles described in the bid summary for these items.

Grand total of all awards as recommended $277,245.00.

Adoption of Fiscal Year 1999-2000 Budget Schedule

Summary: The budget office has proposed a Fiscal Year 1999/2000 budget schedule.

The proposed Fiscal Year 1999/2000 budget schedule identifies key dates for completion of all phases of budget adoption. Key phases of the process include distribution of budget materials and instructions, submission of departmental budget requests, City Manager's review of departmental requests, presentation of the proposed budget to City Council, a public hearing and formal adoption. Adoption of the Fiscal Year 1999/2000 budget is scheduled for June 22, 1999.

City staff recommends City Council adopt the Fiscal year 1999/2000 budget schedule.

Accepting the Regional Water Authority's Recommendation to award the Bid for the Fairview Reservoir Project to T & K Utilities

Summary: The consideration of awarding a construction contract to T&K Utilities for the "Fairview Reservoir Project".

Sealed bids were received by the Regional Water Authority on October 28, 1998 for the Fairview Reservoir Project. This project is a Master Plan Phase II project that includes the construction of a 1 million gallon reservoir and the installation of approximately 3,700 linear feet of 12-inch waterline. This is the last project in a series of projects that will greatly enhance the Authority's ability to provide reliable water service to existing customers in the South Buncombe/ Fairview area and will provide for the future growth and development of this area. As a result of this reservoir construction, (4) existing pumping stations will be abandoned in favor of the regional South Buncombe / Fairview Pumping Station and Reservoir. Construction on this project is scheduled to begin in mid February, 1999 with 180 calendar days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time.

Five (5) bids were received with T&K Utilities of Asheville, North Carolina submitting the low of $675,700. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. The engineer's estimate for the project is in the amount of $738,000. All the bids received are listed below in the order of their bid:

T&K Utilities, Asheville, N.C.	$ 675,700.00
Cooper Construction Company, Hendersonville, N.C.	$ 676,926.00
Buckeye Construction Company, Canton, N.C.	$ 689,588.63
Terry Brothers Construction Company, Leicester, N.C.	$ 801,925.00
Hickory Construction Company, Hickory, N.C.	$ 906,925.00

The Regional Water Authority approved award of this contract to T&K Utilities in the low bid amount of $ 675,700.00 on November 17, 1998, and staff recommends City Council's concurrence with the Authority's action.

Accepting the Regional Water Authority's Recommendation to award the Bid for the Spivey Mountain Reservoir Project to Taylor & Murphy Construction Company

Summary: The consideration of awarding a construction contract to Taylor and Murphy Construction Company for the "Spivey Mountain Reservoir Project".

The Regional Water Authority received bids for the Spivey Mountain Reservoir Project on November 13, 1998. This reservoir and its related pumping station and water transmission lines, already under construction, will alleviate periodic low water pressures in the western sections of our water distribution system and will provide for the continued growth and development of that area. This project was previously bid but not awarded due to failure of the low bidder to comply with the Minority Business provisions of the contract. Construction on this project is scheduled to begin in mid February, 1999 with 150 calendar days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time.

A total of two bids were received with Taylor and Murphy submitting the low bid of $ 663,069. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. All the bids received are listed below in the order of their bid:

Taylor and Murphy Construction Company, Asheville, N.C.	$ 663,069
Hobson Construction Company, Arden, N.C.	$ 697,400

The previous low bid for this project, submitted by Taylor and Murphy, was $ 532,340. This bid was rejected for failure to comply with the Minority Business provisions of the contract. Subsequently, a low bid of $ 561,000 was negotiated with Cooper Construction Company but this was rejected by the Authority at the recommendation of staff. The engineer's estimate for this project is in the amount of $600,000.

Since the bid opening, negotiations with Taylor and Murphy has brought their low bid price down to $560,000. Approximately $ 60,000 of this reduction is attributable to raising the base of the reservoir approximately 10 feet and the associated reduction in excavation. The remainder of the reduction was not related to any change in scope but rather to price negotiations. Staff is confident that the quality of the finished project will not be sacrificed by any of these price reductions.

The Regional Water Authority approved award of this negotiated contract to Taylor and Murphy Construction Company in the amount of $560,000 on December 15, 1998, and staff recommends City Council's concurrence with the Authority's action.

Agreement with the N.C. Dept. of Transportation for the NC 191/Brevard Road to I-240 Interchange Project

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with the N.C. Dept. of Transportation ("NC DOT") for utility relocation costs as part of improvements along NC 191/Brevard Road to the I-240 Interchange.

The NC DOT is proposing to construct roadway improvements along NC 191 (Brevard Road) from I-40 to I-240. NC DOT proposes to widen and relocate NC 191/Brevard Road as a four-lane road with curb and gutter from just north of the Interstate 40/NC 191 interchange to just north of the Interstate 240/Park Road interchange on the western side of Asheville. The intersection of Fairfax Avenue with the westbound Interstate 240 exit ramp will be eliminated, and Fairfax Avenue will be extended to intersect with NC 191. The westbound Interstate 240 exit ramp will be shifted south to tie into NC 191 across from the Interstate 240 westbound entrance ramp. A new bridge will be constructed to carry proposed NC 191 over Hominy Creek and Hominy Creek Road. Shelburne Road will be extended to tie into NC 191 at the proposed Fairfax Avenue/NC 191 intersection north of Interstate 240. These improvements are anticipated to start in 1999. An agreement was executed in July, 1996, solely for the transfer of ownership of Bridge #216 to the City of Asheville so as to leave it in place to accommodate pedestrian traffic.

The Municipal Agreement provides for the relocation of the waterline. The items in conflict with NC DOT will be designed and relocated during construction of the project. The existing waterline is an 8-inch diameter and the Water Master Plan calls for this waterline to be upgraded to a 24-inch diameter. This will occur as part of the waterline relocation. All 6-inch and 12-inch existing waterlines are being relocated for construction of the highway. The estimate for the relocation of the waterline is $256,756. The Municipal Agreement contains provisions for reimbursement of these costs after completion of the work and within sixty (60) days after date of invoice. Interest shall be paid at the rate of 8% on any unpaid balance due.

This agreement will effect the necessary adjustment of any utilities under franchise without cost to the NC DOT, and to provide for the adjustment of any municipally-owned utilities, without cost to the NC DOT.

On December 15, 1998, the Regional Water Authority unanimously approved a resolution amending Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to provide future funding for the NC 191 NC DOT Project in the amount of $256,756. This project will be funded with future funds from either the Operating Budget or from bonds or loans.

Staff recommends that City Council (1) authorize the City Manager to sign the Municipal Agreement for improvements on NC 191/Brevard Road to I-240 Interchange; and (2) authorize the budget amendment to reprogram line items relating to the NC 191 24-inch waterline.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRESENTATION OF ANNUAL AUDIT REPORT

Finance Director Bill Schaefer said that City Council retained an independent audit firm, Crisp Hughes Evans LLP of Asheville, NC, to perform an audit of the City of Asheville for the fiscal year ended June 30, 1998, as required by North Carolina General Statute sec. 159-34. The auditors gave the City a "clean" audit opinion.

Mr. Brian Broom, Senior Manager, briefed City Council on their findings, noting that their reports on compliance and internal control disclosed no instances of noncompliance and no material weaknesses in controls. He then reviewed the Fund Balance in the General Fund.

PRITCHARD PARK DESIGN UPDATE

Mr. Alan Glines, Assistant Landscape Architect, said that the Parks and Recreation Department has been working with the consultant design team, Genesis Group Inc., to develop redesign plans for Pritchard Park.

Over the past several months City staff, in conjunction with the Pritchard Park Task Force, have been working with Genesis Group to develop redesign plans for Pritchard Park in downtown Asheville. On October 8th and November 5th, 1998, community meetings were held to gather information and review conceptual plans for Pritchard Park. The plan has received broad support from many in the community including downtown merchants, residents, property owners, and municipal advisory groups. Since then, City staff have been reviewing the plans and making suggestions for design improvements. In addition staff has begun the process of evaluating the traffic impacts of the proposed plans.

The next steps as a part of this project consist of a comprehensive project impact evaluation. Such components as traffic impact due to revised travel patterns, utility conflicts, and construction sequence need to be evaluated.

Mr. Robert Finnegan, Genesis Group Inc., reviewed with City Council the main issues the consultant design team reviewed. Some of those issues were how to get traffic through the site, the addition of parking, and how to increase the size of the park. He said some traffic calming elements include changing the vehicular use on College Street and Patton Avenue from a one way to a two way system, the addition of a roundabout at the Coxe Avenue and Patton Avenue intersection and the College Street and Haywood Road intersection, and reducing speed on Patton Avenue. They also looked at a more pedestrian friendly environment, for instance widening the sidewalk on College Street to place some outdoor tables and chairs, public art, etc.; the possibility of businesses along College Street adding some balconies; the encouragement of some signage improvements; the addition of some type of marquee structure to mark the Wall Street/Market Street entrance; the addition of a bus shelter kiosk; etc. He said that the park is divided into two aspects. The western part is more of a passive park with preservation of the existing large tree, the addition of other trees, and the creation of a walkway system through the park. The eastern part will be developed as an amphitheater element with some variability to it where people can come and do a variety of things. Artistic inclusion in the eastern part could include a bronze statute, of perhaps Mr. William Johnson who was the original property owner of the site, or some other historical figure.

Mr. Michael Wallwork, Alternative Street Design, P.A., reviewed with Council their task of improving pedestrian mobility in the area and connecting the park to something other than it just being an island. He explained how they tried to minimize the amount of asphalt and use as much space as possible for parking and greenery. He then detailed for Council the use of round-abouts and the excellent reports they have received from other cities who use roundabouts.

Mr. Wallwork responded to various questions from Council regarding roundabouts.

Councilwoman Field suggested that if the roundabouts are successful at these two locations, they might be work well at Pack Square and also at the Civic Center. She spoke in support of roundabouts.

Mayor Sitnick encouraged the concept of street trees on College Street toward Pack Square.

Mr. Finnegan said that based on the components of the plan, they have developed a preliminary project budget of $1,436,610, which includes (1) demolition of the existing infrastructure in the park, i.e. drainage, irrigation, landscaping, paving, structures/utilities; (2) reconstruction of drainage, irrigation, landscaping, paving/grading, site specialties, round-abouts, retaining walls/signs, structures/utilities, water/sewer/stormwater, artistic inclusion; and (3) permits and fees. He said that they will be happy to work with the City to look for ways to reduce the costs, i.e., reduce the number of trees, use less expensive paving material, etc. He also said that it is his understanding that the City has $200,000 for this project at this time. He suggested using that money for demolition of those elements in the park and perhaps construct the amphitheater and some ancillary elements.

Upon inquiry of Mayor Sitnick, Mr. Finnegan said that the park could be completed in phases. He explained that there are a variety of options available for public/private partnerships and would be happy to furnish to the City some possible funding sources.

Councilwoman Field felt that the City may be able to obtain some corporate contributions from the three banks in the immediate area of Pritchard Park. She also had a brief conversation with the Merchants Association who said they may be able to help a little with funding. She felt this needed to be a public/private community project and would work along with the Mayor on meeting with different groups. She favored doing the project all at once and not by phases.

It was the consensus of City Council to instruct staff the City Manager to report back to Council on a plan of how the money can be raised, along with the possibly of appointing some lead Council members to focus on that plan.

LEASE PORTION OF MILLS RIVER PROPERTY TO R.V. WARREN FARMS

Mr. Tom Frederick, Water Resources Director, said that this is the consideration of a resolution to lease presently vacant land on the opposite side of the Mills River from the new water treatment plant owned by the City of Asheville be leased to R. V .Warren Farms in 1999 for corn production with appropriate restrictions for environmental protection.

The City of Asheville purchased property in Henderson County in 1994 along the west bank of the French Broad River, on both sides of the Mills River, for the construction of a Water Treatment Plant. The Plant is currently being built exclusively on the south side of the Mills River. A residual 51 acres north of the Mills River is presently vacant land but was agricultural before the City's purchase. R. V. Warren Farms has offered to lease this land during 1999 for corn production at a fair market price of $75 per acre ($3,825 total).

Staff has evaluated this proposal and finds there is no near-term use of the property north of the Mills River for the water treatment complex. Further review of this 51 acres confirms the property is relatively flat and most of the property drains slightly toward the east where the French Broad River is located. Negotiations for this lease with R. V. Warren include requirements for a 75-foot buffer at the rivers, prohibition of pesticide applications, and limitations on herbicide and fertilizer use. The restrictions will promote an example of agricultural use in harmony with environmental protection.

Staff further recommends the revenue from the lease go to the Water Fund toward the local matching funds for watershed protection in the Mills River valley provided the currently pending application to the Clean Water Management Trust Fund is approved.

The Regional Water Authority of Asheville, Buncombe, and Henderson adopted a resolution on December 15, 1998, recommending that the Asheville City Council grant this lease.

Staff recommends the City Council adopt the resolution, thereby granting the lease to R.V. Warren Farms for 1999 for a total of $3,825.

Mr. Frederick responded to questions from Council as they related to Mr. Warren's experience with not using pesticides, who will monitor the compliance and the City's efforts to promote the best way to promote the proper use of the property.

When Mayor Sitnick suggested that the lease contain some type of enforcement and violation language, especially since this is adjacent to our water treatment plant and 30-60 days is too long for a violation to occur, City Attorney Oast that standard language will be incorporated into the lease which will address Mayor Sitnick's concerns.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay, Chair of the Boards & Commissions Committee, said that there is a vacancy for a central representative on the Citizens-Police Advisory Committee. He said the deadline for receiving applications is January 27, 1999.

Vice-Mayor Hay also said that there is a vacancy on the Opportunity Corporation for Madison-Buncombe Counties, however, the Mayor is charged with the responsibility of making that appointment.

Vice-Mayor Hay said that regarding the two School Board vacancies expiring on April 1, 1999, the Boards and Commissions Committee recommend not proceeding with soliciting applications and reappoint both Mr. Brian Weinkle and Mr. Roy Harris to each serve an additional four year term. Both individuals are interested in reappointment and both have excellent attendance records. He said that the School Board is proceeding in the right direction with a team approach with Chair Susan Fisher and Superintendent Campbell. It was the consensus of City Council to instruct the City Clerk to prepare the proper paperwork to reappoint Mr. Weinkle and Mr. Harris to each serve an additional four year term.

OTHER BUSINESS

Councilwoman Field, Chair of the Housing & Community Development Committee, requested that a public hearing be scheduled to reallocate Community Development Block Grant funds, in the amount of $27,000, to New Home Community Health Center.

Vice-Mayor Hay spoke about the success of public skating during December, 1998, and stated that the Civic Center Director is working on a new schedule to allow public skating to run through March, 1999.

Vice-Mayor Hay, liaison for the Airport Authority, reported to City Council that the Airport Authority has decided to postpone building a parking deck and to make other arrangements for parking in the immediate future.

CLOSED SESSION

At 4:42 p.m., Councilman Cloninger moved to go into closed session (1) to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange or lease - statutory authority is G.S. 143-318.11 (a) (5); and (2) to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial appointment of an individual public officer or employee or prospective public officer or employee - statutory authority is G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 7:15 p.m., Vice-Mayor Hay moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

217

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:15 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 12, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Cobb gave the invocation.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JANUARY 11-18, 1999, AS "DR. MARTIN LUTHER KING JR. WEEK" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming January 11-18, 1999, as "Dr. Martin Luther King Jr. Week" in the City of Asheville. She presented the proclamation to Ms. Oralene Simmons, who briefed City Council on some activities taking place during the week.

B. RECOGNITION OF BUNCOMBE COUNTY'S PROJECT ACCESS

Mayor Sitnick read the recognition of Buncombe County's Project Access and presented the recognition to Dr. Suzanne Landis, on behalf of the Medical Society, and Dr. George Bond, on behalf of Buncombe County, and Mr. Alan McKenzie, who briefed Council on the project.

II. CONSENT AGENDA:

At the request of Mr. H.K. Edgerton, Item E. was removed from the Consent Agenda to be discussed individually.

A. RESOLUTION NO. 99-1 - RESOLUTION ACCEPTING THE NEW PROPOSED STREET NAME ROSEFIELD DRIVE

Summary: Free-Beaux Associates, owner of lots in the Kenilworth Hills Subdivision, has petitioned the City of Asheville to accept the street name Rosefield Drive. The new street will be a cul-de-sac beginning at Kenilworth Road.

RESOLUTION BOOK NO. 25 - PAGE 107

B. RESOLUTION NO. 99-2 - RESOLUTION ACCEPTING THE NEW PROPOSED STREET NAME DISTANT VIEW DRIVE

Summary: Highland Builders of Asheville, owner of lots in The Views of Asheville, a resubdivision of The Pinnacle at Park Avenue, has petitioned the City of Asheville to accept the street name Distant View Drive. The new street will be a cul-de-sac beginning at Park Avenue.

RESOLUTION BOOK NO. 25 - PAGE 108

C. RESOLUTION NO. 99-3 - RESOLUTION WITH THE NORTH CAROLINA STATE UNIVERSITY TO PROVIDE A PAVEMENT MANAGEMENT INVENTORY FOR CITY MAINTAINED STREETS

Summary: The consideration of a resolution authorizing the City Manager to sign a contract with NC State University to provide a Pavement Management Inventory in the amount of $41,104.

The City maintains approximately 365 miles of streets. The best method for prioritizing the maintenance of these streets is to develop an inventory of all the streets along with the condition of the street. Many municipalities use this method for developing both short and long term pavement and maintenance schedules.

The Institute for Transportation Research and Education (ITRE), which is affiliated with North Carolina State University, provides these services to many cities in North Carolina. (All contracts must be with NC State University.) Prior to selecting ITRE for this contract, staff invited three other firms to demonstrate their ability to provide these services to the City. Review staff consisted of three staff persons from the Engineering Department, one staff person from the Public Works Department and one staff person from the Information Services Division of the Finance Department. Following the demonstrations, the staff committee selected ITRE to perform the work for the following reasons:

- *ITRE was the least expensive.* In order to maintain this inventory, it should be redone every three to five years due to the fact that some streets deteriorate at varying rates. Staff felt that it would not be feasible to spend $100,000 every five years to have the inventory redone.
- *ITRE is a non-profit organization established specifically to assist with Transportation Research and Education.*
- *ITRE has provided this service to several cities in North Carolina.*

The services provided by ITRE consist of an inventory and evaluation of all City streets, as well as establishing a database which prioritizes the street maintenance needs. The Public Works Department has $40,000 budgeted for this project and the Engineering Department has the remaining funds budgeted. Due to the fact that ITRE is a non-profit organization affiliated with NC State University, they do not have the funds to begin the project. Therefore, they have requested half of the money initially and the remaining half at the end of the project.

City staff requests City Council authorize the City Manager to sign a contract with NC State University in the amount of $41,104 to provide a Pavement Management Inventory for the City.

RESOLUTION BOOK NO. 25 - PAGE 109

D. MOTION APPROVING THE 1999-2000 ANNUAL OPERATING BUDGET SCHEDULE

E. RESOLUTION TO AWARD BIDS FOR FLEET VEHICLES

This item was removed from the Consent Agenda for further discussion.

F. RESOLUTION NO. 99-4 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE FOR A PORTION OF THE MILLS RIVER PROPERTY WITH R.V. WARREN FARMS FOR CORN PRODUCTION

Summary: The consideration of a resolution to lease presently vacant land on the opposite side of the Mills River from the new water treatment plant owned by the City of Asheville be leased to R. V .Warren Farms in 1999 for corn production with appropriate restrictions for environmental protection.

The City of Asheville purchased property in Henderson County in 1994 along the west bank of the French Broad River, on both sides of the Mills River, for the construction of a Water Treatment Plant. The Plant is currently being built exclusively on the south side of the Mills River. A residual 51 acres north of the Mills River is presently vacant land but was agricultural before the City's purchase. R. V. Warren Farms has offered to lease this land during 1999 for corn production at a fair market price of $75 per acre ($3,825 total).

Staff has evaluated this proposal and finds there is no near-term use of the property north of the Mills River for the water treatment complex. Further review of this 51 acres confirms the property is relatively flat and most of the property drains slightly toward the east where the French Broad River is located. Negotiations for this lease with R. V. Warren include requirements for a 75-foot buffer at the rivers, prohibition of pesticide applications, and limitations on herbicide and fertilizer use. The restrictions will promote an example of agricultural use in harmony with environmental protection.

Staff further recommends the revenue from the lease go to the Water Fund toward the local matching funds for watershed protection in the Mills River valley provided the currently pending application to the Clean Water Management Trust Fund is approved.

The Regional Water Authority of Asheville, Buncombe, and Henderson adopted a resolution on December 15, 1998, recommending that the Asheville City Council grant this lease.

Staff recommends the City Council adopt the resolution, thereby granting the lease to R.V. Warren Farms for 1999 for a total of $3,825.

RESOLUTION BOOK NO. 25 - PAGE 110

G. RESOLUTION NO. 99-5 - RESOLUTION ACCEPTING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO AWARD THE BID FOR THE FAIRVIEW RESERVOIR PROJECT TO T & K UTILITIES

Summary: The consideration of awarding a construction contract to T&K Utilities for the "Fairview Reservoir Project".

Sealed bids were received by the Regional Water Authority on October 28, 1998 for the Fairview Reservoir Project. This project is a Master Plan Phase II project that includes the construction of a 1 million gallon reservoir and the installation of approximately 3,700 linear feet of 12-inch waterline. This is the last project in a series of projects that will greatly enhance the Authority's ability to provide reliable water service to existing customers in the South Buncombe/ Fairview area and will provide for the future growth and development of this area. As a result of this reservoir construction, four existing pumping stations will be abandoned in favor of the regional South Buncombe / Fairview Pumping Station and Reservoir. Construction on this project is scheduled to begin in mid February, 1999 with 180 calendar days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time.

Five bids were received with T&K Utilities of Asheville, North Carolina submitting the low of $675,700. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. The engineer's estimate for the project is in the amount of $738,000. All the bids received are listed below in the order of their bid:

COMPANY	BID AMOUNT
T&K Utilities, Asheville, N.C.	$ 675,700.00
Cooper Construction Company, Hendersonville, N.C.	$ 676,926.00
Buckeye Construction Company, Canton, N.C.	$ 689,588.63
Terry Brothers Construction Company, Leicester, N.C.	$ 801,925.00
Hickory Construction Company, Hickory, N.C.	$ 906,925.00

The Regional Water Authority approved award of this contract to T&K Utilities in the low bid amount of $ 675,700.00 on November 17, 1998, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 25 - PAGE 111

H. RESOLUTION NO. 99-6 - RESOLUTION ACCEPTING THE REGIONAL WATER AUTHORITY'S RECOMMENDATION TO AWARD THE BID FOR THE SPIVEY MOUNTAIN RESERVOIR PROJECT TO TAYLOR & MURPHY CONSTRUCTION COMPANY

Summary: The consideration of awarding a construction contract to Taylor and Murphy Construction Company for the "Spivey Mountain Reservoir Project".

The Regional Water Authority received bids for the Spivey Mountain Reservoir Project on November 13, 1998. This reservoir and its related pumping station and water transmission lines, already under construction, will alleviate periodic low water pressures in the western sections of our water distribution system and will provide for the continued growth and development of that area. This project was previously bid but not awarded due to failure of the low bidder to comply with the Minority Business provisions of the contract. Construction on this project is scheduled to begin in mid February, 1999 with 150 calendar days allocated for construction. There is a liquidated damages clause in the contract of $ 500.00 per day if the project is not completed on time.

A total of two bids were received with Taylor and Murphy submitting the low bid of $ 663,069. These bids were received in accordance with NC General Statute 143-129 and in accordance with the City of Asheville's Minority Business Plan. All the bids received are listed below in the order of their bid:

Taylor and Murphy Construction Company, Asheville, N.C.	$ 663,069
Hobson Construction Company, Arden, N.C.	$ 697,400

The previous low bid for this project, submitted by Taylor and Murphy, was $532,340. This bid was rejected for failure to comply with the Minority Business provisions of the contract. Subsequently, a low bid of $561,000 was negotiated with Cooper Construction Company but this was rejected by the Authority at the recommendation of staff. The engineer's estimate for this project is in the amount of $600,000.

Since the bid opening, negotiations with Taylor and Murphy has brought their low bid price down to $560,000. Approximately $ 60,000 of this reduction is attributable to raising the base of the reservoir approximately 10 feet and the associated reduction in excavation. The

222

remainder of the reduction was not related to any change in scope but rather to price negotiations. Staff is confident that the quality of the finished project will not be sacrificed by any of these price reductions.

The Regional Water Authority approved award of this negotiated contract to Taylor and Murphy Construction Company in the amount of $560,000 on December 15, 1998, and staff recommends City Council's concurrence with the Authority's action.

RESOLUTION BOOK NO. 25 - PAGE 112

I. RESOLUTION NO. 99-7 - RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE IMPROVEMENTS ON NC 191/BREVARD ROAD TO I-240 INTERCHANGE

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with the N.C. Dept. of Transportation ("NC DOT") for utility relocation costs as part of improvements along NC 191/Brevard Road to the I-240 Interchange.

The NC DOT is proposing to construct roadway improvements along NC 191 (Brevard Road) from I-40 to I-240. NC DOT proposes to widen and relocate NC 191/Brevard Road as a four-lane road with curb and gutter from just north of the Interstate 40/NC 191 interchange to just north of the Interstate 240/Park Road interchange on the western side of Asheville. The intersection of Fairfax Avenue with the westbound Interstate 240 exit ramp will be eliminated, and Fairfax Avenue will be extended to intersect with NC 191. The westbound Interstate 240 exit ramp will be shifted south to tie into NC 191 across from the Interstate 240 westbound entrance ramp. A new bridge will be constructed to carry proposed NC 191 over Hominy Creek and Hominy Creek Road. Shelburne Road will be extended to tie into NC 191 at the proposed Fairfax Avenue/NC 191 intersection north of Interstate 240. These improvements are anticipated to start in 1999. An agreement was executed in July, 1996, solely for the transfer of ownership of Bridge #216 to the City of Asheville so as to leave it in place to accommodate pedestrian traffic.

The Municipal Agreement provides for the relocation of the waterline. The items in conflict with NC DOT will be designed and relocated during construction of the project. The existing waterline is an 8-inch diameter and the Water Master Plan calls for this waterline to be upgraded to a 24-inch diameter. This will occur as part of the waterline relocation. All 6-inch and 12-inch existing waterlines are being relocated for construction of the highway. The estimate for the relocation of the waterline is $256,756. The Municipal Agreement contains provisions for reimbursement of these costs after completion of the work and within sixty (60) days after date of invoice. Interest shall be paid at the rate of 8% on any unpaid balance due.

This agreement will effect the necessary adjustment of any utilities under franchise without cost to the NC DOT, and to provide for the adjustment of any municipally-owned utilities, without cost to the NC DOT.

On December 15, 1998, the Regional Water Authority unanimously approved a resolution amending Capital Project Ordinance 82-25 (35 Fund - Water Major Capital Improvements Fund) to provide future funding for the NC 191 NC DOT Project in the amount of $256,756. This project will be funded with future funds from either the Operating Budget or from bonds or loans.

Staff recommends that City Council (1) authorize the City Manager to sign the Municipal Agreement for improvements on NC 191/Brevard Road to I-240 Interchange; and (2) authorize the budget amendment to reprogram line items relating to the NC 191 24-inch waterline.

K. MOTION SETTING A PUBLIC HEARING FOR JANUARY 26, 1999, TO REALLOCATE COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS TO NEW HOPE COMMUNITY HEALTH CENTER

L. MOTION SETTING A PUBLIC HEARING FOR JANUARY 26, 1999, TO ZONE SECTION 11 OF BILTMORE PARK TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

M. MOTION SETTING A PUBLIC HEARING FOR JANUARY 26, 1999, TO ZONE SECTION 12 OF BILTMORE PARK TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

N. MOTION SETTING A PUBLIC HEARING FOR JANUARY 26, 1999, TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CREATE AN OFFICE II ZONING DISTRICT

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

NEW TIMING DEVICE FOR SPEAKERS

Mayor Sitnick said that in an effort to be fair to all speakers, we have installed a timing device. For individuals speaking, the time limit is three minutes each. For a group spokesman, the time limit is 10 minutes. We request that if you are speaking for a group, you make that known prior to your comments to allow the appropriate time to be set.

Also, in an effort to allow the speaker to get the full time allotted to address Council, City Council will hold all their questions or comments until the speaker is finished.

She explained that on the podium there are three lights. The green light indicates that you are within your allotted time. The amber light will signal that the speaker has 15 seconds to wrap up. When the red light comes on, your time is up and we ask that you take your seat to allow others to speak.

She felt that this system will allow our meetings to run smoothly and be fair to all speakers.

ITEM PULLED FROM THE CONSENT AGENDA FOR FURTHER DISCUSSION

RESOLUTION NO. 99-8 - RESOLUTION TO AWARD BIDS FOR FLEET VEHICLES

Summary: The consideration of a resolution to award Bid Request No. 486-99 for the purchase of sixteen (16) assorted fleet vehicles.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish the Police, Building Safety and Engineering Departments with vehicles as described in the bid summary as bid items 1 through 4. Four bids were received as follows:

Full Size Police Vehicles	
Earl Tindol Ford, Gastonia, N.C.	$193,130.00
Matthews Ford, Asheville, N.C.	$195,160.00
Frank Polk Ford, Black Mountain, N.C.	$206.640.00
Mid Size 4 WD Pickup Truck	
Earl Tindol Ford, Gastonia, N.C.	$15,769.00
Matthews Ford, Asheville, N.C.	$15,666.00
Frank Polk Ford, Black Mountain, N.C.	$15,690.00
Fletcher Motor Company, Fletcher, N.C.	$16,145.27
Mid Size 2 WD Pickup Trucks	
Earl Tindol Ford, Gastonia, N.C.	$40,065.00
Matthews Ford, Asheville, N.C.	$39,705.00
Frank Polk Ford, Black Mountain, N.C.	$39,774.00
Fletcher Motor Company, Fletcher, N.C.	$40,156.95
One-Half Ton 2 WD Heavy Duty Pickup	
Earl Tindol Ford, Gastonia, N.C.	$28,866.00
Matthews Ford, Asheville, N.C.	$28,744.00
Frank Polk Ford, Black Mountain, N.C.	$28,816.00
Fletcher Motor Company, Fletcher, N.C.	$32,217.14

Bids have been reviewed for technical compliance to specifications by the Fleet Management Division and their concurrence received in the following recommendations.

Funds for the purchase of these vehicles are to be from the requisitioning departments capital equipment appropriations for FY 98/99. All vehicles are budgeted as replacement vehicles.

Subject to Council's approval, it is recommended that awards be made to the low bidder of each item as follows:

Bid item 1 award to Earl Tindol Ford, Gastonia, N. C. in the amount of $193,130.00 for the purchase of the vehicles described in the bid summary for this item.

Bid items 2, 3, and 4 award to Matthews Ford, Asheville, N. C. in the amount of $84,115.00 for the purchase of vehicles described in the bid summary for these items.

Grand total of all awards as recommended $277,245.00.

Mr. H.K. Edgerton asked if the Request for Proposals went to any minority-owned businesses. Finance Director Bill Schaefer responded that the City extended an invitation to 24 entities, however, none were minority-owned firms. He said that the City presently has no minority businesses certified in the City or County that supply vehicles. He said that Councilman Tomes will make him aware of a firm that may be an opportunity in the future. He said that any time we can find a minority in a commodity of a product or serve that is not listed, we would welcome the opportunity to extend to them an opportunity to be listed as one of our vendors and to extend an opportunity for participation in any procurement action by the City.

Councilman Tomes suggested that the Director of Minority Affairs subscribe to Black Enterprise which lists major companies throughout the United States.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-8. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 114

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CLOSING AN ALLEY BETWEEN RICHMOND AND MICHIGAN AVENUES

RESOLUTION NO. 99-9 - RESOLUTION TO PERMANENTLY CLOSE AN ALLEY BETWEEN RICHMOND AND MICHIGAN AVENUES

Mayor Sitnick opened the public hearing at 5:20 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Suzanne Molloy, Assistant Public Works Director, said that a petition has been received from James H. and Mona G. Justice, Richard A. and Shirley J. Page and Jose and Guiller Nina T. Valazquez, owners of parcels 9638-15-54-5274, 5196, and 6293 requesting that a portion of an unnamed and unopened alleyway between Richmond Avenue and Michigan Avenue be permanently closed to public use. These individuals own all of the property with frontage on the portion of the unopened alleyway between Richmond Avenue and Michigan Avenue that has been petitioned to be closed.

The Public Works Department staff recommends City Council adopt the resolution to permanently close the unnamed and unopened alleyway between Richmond Avenue and Michigan Avenue.

Mayor Sitnick closed the public hearing at 5:24 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-9. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 116

B. PUBLIC HEARING RELATIVE ADOPTION OF BOND ORDER AUTHORIZING THE ISSUANCE OF $18,000,000 GENERAL OBLIGATION PARKS, RECREATION AND GREENWAY BONDS OF THE CITY OF ASHEVILLE, N.C.

RESOLUTION NO. 99-10 - RESOLUTION SETTING A SPECIAL BOND REFERENDUM AND DIRECTING THE PUBLICATION OF NOTICE OF A SPECIAL BOND REFERENDUM AND NOTIFICATION OF THE BUNCOMBE COUNTY BOARD OF ELECTIONS

Mayor Sitnick opened the public hearing at 5:26 p.m.

City Clerk Burleson reported that the bond order entitled "Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds of the City of Asheville, N.C.," which was introduced at the regular meeting of the City Council on December 8, 1998, was published on January 1, 1999. She then presented the notice to the public setting the time and date of the public hearing. She also reported that she had filed in her office a statement of debt complying with provisions of the Local Government Bond Act, and such statement as filed showed the net indebtedness of the City to be 1.675% of the assessed valuation of property in the City subject to taxation.

Finance Director Bill Schaefer said that this is the consideration of (1) adoption of the Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds; and (2) resolution setting a Special Bond Referendum on May 11, 1999.

Having previously given required public notice and a Sworn Statement of Debt (which shows the net indebtedness of the City to be 1.675% of the assessed valuation of property in the City subject to taxation) having been filed with the City Clerk, as required by the Local Government Bond Act, a public hearing regarding the validity of the Bond Order and the advisability of issuing the General Obligation Parks, Recreation and Greenway Bonds should now be conducted.

The Bond Order provides the purpose and amount of the bonds; states that the projects to be funded by the proceeds of the bonds are necessary; states that taxes shall be levied annually to pay the principal and interest on the bonds; indicates that a sworn statement of debt has been filed with the City Clerk and is open to public inspection; and states that the bond order shall take effect when approved by the voters of the City at a referendum scheduled for May 11, 1999.

The proposed resolution sets a Special Bond Referendum to be held on May 11, 1999, to approve or disapprove the indebtedness to be incurred by the issuance of the General Obligation Parks, Recreation and Greenway Bonds and the levy of a tax for the payment thereof.

Following the closing of the public hearing, City staff recommends City Council (1) adopt the Bond Order; and (2) adopt the proposed resolution setting a Special Bond Referendum on May 11, 1999.

Mr. H.K. Edgerton said that no one can argue against the City needing parks. However, he said the $18 Million referendum translates into a 3 cent tax increase and approximately a 6% overall increase in the tax rate. He also said there is rumored there is a $5.4 million budget deficit. He said the City already has infrastructure problems and we are losing 25% of our water in leaks. He asked what the money would be used for, what will happen for our reserves, and is it our goal to have Asheville as the highest City to live in. He wondered why so much land will be used for parks, etc., when there is a scarcity in land for housing for the poor.

Parks & Recreation Director Irby Brinson responded to Mr. Edgerton by saying that the $18 Million is broken down into four different areas - $6 Million for new facility construction; $6 Million for renovating existing facilities; $3 Million for greenway development; and $2 Million for land acquisition. He then gave examples of several projects in each category.

Mayor Sitnick responded that it is well recognized across the nation that parks, recreation and greenways are all parts of quality of life that drive the economic development engine of communities. She felt it was important to recognize that it's not just about parks and greenways, but about providing things for people in this community to enhance and improve lives. She said there is no question that housing is an important factor for this Council. She said they are looking at housing and all kinds of issues, i.e., the Housing Action Plan and looking at the potential of revenues to support that Plan as well.

City Manager Westbrook responded that the City's budget is balanced as required by State law. With regard to the 25% loss of water due to leaks, he said that the average water loss for a relatively new infrastructure is 15-20%, however, the City is trying to reduce that water loss.

Mayor Sitnick closed the public hearing at 5:37 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the bond order and resolution and they would not be read.

Councilman Cloninger moved that the City Council adopt without change or amendment and direct the City Clerk to publish a notice of adoption, as prescribed by The Local Government Bond Act, of the General Obligation Parks, Recreation and Greenway Bond Order entitled "Bond Order Authorizing the Issuance of $18,000,000 General Obligation Parks, Recreation and Greenway Bonds of the City of Asheville, N.C.," which was introduced at the regular meeting of the City Council held on December 8, 1998. This motion was seconded by Councilman Sellers and carried unanimously.

Councilwoman Field moved for the adoption of Resolution No. 99-10, Resolution setting a special bond referendum and directing the publication of notice of a special bond referendum and notification of the Buncombe County Board of Elections. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 117

C. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A WIRELESS TELECOMMUNICATION FACILITIES ORDINANCE

ORDINANCE NO. 2535 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING A WIRELESS TELECOMMUNICATION FACILITIES ORDINANCE

Mayor Sitnick opened the public hearing at 5:39 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Senior Planner Gerald Green said that the Planning and Zoning Commission has reviewed and is recommending approval of a revised telecommunications facilities ordinance, which establishes new standards for telecommunication towers and related facilities.

Provided for Council's consideration is a draft Telecommunication Facilities Ordinance. Revised standards for the location and erection of telecommunication towers and related telecommunication facilities are set forth in the proposed ordinance. The ordinance amendment was prepared at the request of City Council by a consultant hired following a request for proposals and review of submitted proposals. Council identified specific goals which were to be accomplished by the proposed ordinance amendment. These goals included:

- Provision of wireless service to all areas of the community;
- Minimize the aesthetic impacts of wireless infrastructure;
- Promote co-location of existing structures;
- Encourage concealment, camouflage, and stealth technologies;
- Protect mountain ridges from tower proliferation; and
- Anticipate technological advances and obsolescence.

As part of their review of the proposed ordinance amendment, the Planning and Zoning Commission directed that two opportunities, other than regular meetings of the Commission, be provided for input by representatives of the telecommunications industry. As a result, representatives of the telecommunications industry met with staff on one occasion and with members of the Commission (with Council members invited) on another occasion to discuss their concerns regarding the proposed ordinance.

At the Planning & Zoning Commission meeting on December 2, 1998, the Commission voted 4-3 to recommend approval of the amendment with the following revisions:

- Provide a range of dates for balloon and crane tests and allow the applicant to provide photographs of the tests, as recommended by the industry representatives; and

- Provide tower owners with notice that the required annual renewal of their license is due.

Following the review of the revised telecommunications ordinance by the Planning & Zoning Commission, and their recommendation for adoption of the revised ordinance, staff met with the consultant and Councilmember Cloninger to discuss possible revisions to the draft ordinance amendment which would address the concerns expressed by the telecommunications providers. The proposed revisions are:

- On Page 18, No. 47 (c) read "Wireless telecommunication facilities may be co-located on any structure which hosts one or more existing permitted and approved wireless telecommunication facilities ...."

- On Page 19 (d) read "Where co-location is proposed by use of a combiner ... an equipment enclosure which houses only the combiner and amplifiers may exceed the maximum permitted dimensions for other types of equipment closures up to a maximum of 70 cubic feet."

- On Page 20 No. 6 read "The Planning and Development Department Director may require as a condition of approval ...."

- On Page 23, delete No. 5.

- On Page 29, delete No. 3.
- On Page 40 (s), read "In addition, concealed structures must be set back from any residentially zoned or used properties a distance ...."
- On Page 28 (o), read "In addition, telecommunication towers must (be) set back from any residentially zoned or used properties a distance ...."
- On Page 40, delete No. 2.

The revisions address many, but not all of the concerns expressed by the telecommunications providers. The major concern of the providers is the height limitation of 100 feet for support structures (towers). Providers have argued that restricting the height of support structures to 100 feet will result in the need for more support structures (possibly 12-15 more). The consultant has pointed out that a height limit of 100 feet will not result in significantly more support structures and that a goal of the draft ordinance is to protect the aesthetic quality of the City of Asheville by restricting the height of support structures. Other concerns of the providers include (1) the providers would like input into the final selection of consultants to be involved in the review of the applications for towers; (2) they would like the electric transmission towers to be considered for the location of antenna to be limited to those towers located within the search area rather than any tower located within one-quarter mile; and (3) the would like for the ordinance to provide Council with greater flexibility in the establishment of setbacks rather than having a certain defined setback for all telecommunication facilities.

The Planning & Zoning Commission voted 4-3 to recommend approval of the draft ordinance amendment with the two revisions noted above. The Commission has not seen the revisions recommended by the consultant. Staff recommends that City Council consider adoption of the revised telecommunications facilities ordinance, which establishes new standards for telecommunications towers and related facilities, with all revisions.

Mr. Paul Rosa, consultant retained by the City to develop the wireless telecommunication facilities ordinance, reviewed the substantive revisions to the ordinance since the original draft was presented to City Council on September 1, 1998. We had five types of facilities in the 9-1-98 draft, the microcell, concealed facilities, co-location, conventional telecommunication towers and a concealed telecommunications support structure. The changes are as follows:

- Definition for "Microcell" and "Wireless Telecommunication Facility, Microcell." The original definition restricted equipment enclosures to 25 cubic feet, and antennas to 3 feet in height and a combined surface area of 10 square feet. These restrictions were based on microcell specifications provided by a number of microcell manufacturers. The revised definition has expanded these parameters to allow equipment closures of up to 40 cubic feet, and antennas of up to 8 feet in height and 30 square feet total surface area. This allows use of full-sized antennas, yet restricts equipment enclosures to a smaller size than is typically found with full size base stations.
- Concealed Wireless Telecommunications Facilities - Increased Antenna Heights. The earlier draft limited antennas concealed behind an RF-transparent facade to 6 feet in height. Revisions allow panel antennas up to 8 feet in height, and allow omnidirectional (whip-type) antennas concealed behind an RF-transparent facade that is at least 8 feet in height to extend above the facade a distance equal to the facade height.

- Height Extensions of Electric Distribution Poles in Residential Areas. Revisions allow wooden electric transmission poles to be extended in height to the lesser of 20 feet above the vegetative canopy (as determined by the City Arborist) or 80 feet. This allows wireless facilities to service virtually all areas of the City of Asheville, particularly on ridges where they may be few parcels with a public use character where Concealed Telecommunication Support Structures would be allowed as a conditional use. No more than one such pole may be extended in height within 1230 (1/4 mile) of a similar extended-height pole. Height extensions would be allowed in all residential areas for Microcells, and in Residential Multiple zoning districts for Concealed facilities.

- Co-location Treated as a Use by Right, Subject to Special Requirements. The earlier draft treated co-location as a Conditional Use in order to give the City Council the opportunity to determine whether specific nonconforming towers could be decommissioned, reduced in height, or relocated. This was seen as cumbersome by industry. Since the majority of nonconforming towers targeted by the original provision were government-owned, it was felt that the City and its instrumentalities could exercise their role as property owners to limit undesired co-location. By making co-location a Use by Right, Subject to Special Requirements, an incentive is provided to encourage industry to co-locate.

- Primary Public Safety Provider Exception Eliminated. The earlier draft included an exception for Primary Public Safety Providers allowing them to exceed the 100 foot height limitation (up to 199 feet) and permitting them to place towers on Restricted Mountain Ridges. Even though legally permissible under the Telecommunications Act of 1996, it was felt that the City should hold itself to the same standards imposed on industry. Since only one additional tower is in issue, it was felt that this was a reasonable accommodation.

- Notice of Intent to Remove Abandoned Wireless Facilities. Industry has asked for written notice to be given by the City of Asheville prior to removing abandoned or unused wireless facilities to preclude administrative oversights of permit renewal requirements at their corporate headquarters. The revised draft requires the City to give 30 days written notice to affected wireless providers prior to removing such facilities.

- Flexible dates for Crane/Balloon Tests. Industry has asked for flexibility in notifying affected property owners of scheduled dates for crane/balloon test simulations of proposed Telecommunication Towers and Concealed Telecommunication Support Structures to accommodate inclement weather conditions. The revision provides that applicants shall notify affected property owners at least 10 days in advance of the primary test date, and shall specify primary and alternate dates, as well as a range of test dates.

- Natural Disaster Performance Standards. Based on advice that Asheville was located on a known earthquake fault line, the earlier draft contained specifications regarding survivability of wireless facilities. In order to accommodate industry concerns that these provisions were overly restrictive, and in light of the fact that the likelihood of earthquakes was fairly remote, these provisions have been eliminated.

Mr. Rosa said that he has given Council a specifications sheet for a Personal Communication Services (PCS) Antenna Combiner. He felt this is a way to co-locate now with this combiner for the PCS carriers.

He said that the one thing they did not concede was the height limit. He felt it was vitally important for communities today to establish a height baseline and he would recommend not going above that height. He explained his reasons for his recommendation.

Mr. Rosa noted that they create on additional new zone, which is the Controlled Access Facilities Zone (essentially the State highway rights-of-way). Staff has not completed the full text of that, so any adoption of the ordinance should include a reference that that supplemental text will be provided by staff.

He presented Council with an article on a 130 foot BellSouth Clock Tower which provides for three wireless carriers in Charlotte, N.C. Companies are building nice things elsewhere, they should build them here in Asheville as well. When you look at costs, you just can't look at the City of Asheville. These companies have between 2-5 million customers or more and the costs are spread across networks.

Mr. Rose felt that this ordinance reflects what they have heard from the community - low profile wireless infrastructure and access everywhere. He felt they accomplished that with the proposed ordinance while trying to be fair to industry.

Upon inquiry of Councilman Cobb, Mr. Rosa explained that it will be a few years before satellite communications will be competitive.

Mr. Larry McDevitt, attorney representing Bell Atlantic Mobile, said that he would not be speaking for the industry, however, they would like to address areas of common concern to the companies. He felt there are some items in the proposed ordinance that are not fair from an industry prospective. He explained briefly how a cellular telephone works and the necessity of the towers. He handed out to Council a document entitled "Requested Changes to the Proposed Text Amendments to the City of Asheville Unified Development Ordinance relating to Wireless Telecommunications Facilities." He then started to review the six main concern points addressed in the document as follows:

He strongly urged Council to consider an amendment to the 100 foot limitation height. He said their experts have told them that the minimum height they need in this area for optimum service to this community is 114.6 feet - that is without any co-location. If another company is on the same tower, you have to have about 20 feet, not from the tips of the antennas, but from the core of the tower. If you are at 115 feet and you want two other companies, you will need 145-150 feet for a triple location tower. Their concern is that with the 100 foot limitation, there will be times when the area will be such that they can provide very good service with a 100 foot tower, however, other times it will simply be too low and not suitable. Most of the time a 100 foot tower will destroy the ability of co-location, limiting only one company per tower. That will result in increases in the number of communication towers that will be needed. He proposed that if the limit remains at 100 feet, the ordinance be amended so that City Council can approve a tower of up to 150 feet if the applicant can demonstrate five specific standards. If Council does not accept this proposed amendment, at a bare minimum, the height limitation needs to be at 115 feet. A study revealed that people from all segments of society are applying for these services demonstrating that the people of Asheville want cellular telephone services.

He next issue is the five year conditional use renewal requirement. He said he has already expressed concern about the legality of this requirement. He felt it was not fair for the industry to make an investment in land and property and then have it taken away for no reason after five years. He requested some objective standards by which the City will judge whether to remove the tower or not. It was his understanding from discussions with Mr. Green, City Attorney Oast and Mr. Rosa that this was a good idea and that proposals would be included in the ordinance to address that issue. However, it is also his understanding that it was not done and there was not enough time to do it. He asked that City Council not consider this section today, but ask that staff come back in perhaps 30 days with another section that incorporates ascertainable, identifiable standards. He felt it was only fair for the industry to know what they had to do before someone tells them they can't use their tower.

Their next topic of concern is the annual wireless telecommunication facility permit. He said that Mr. Rosa amended the ordinance to add 30 day written notice requirement prior to removing the telecommunication facility. He said because there are a lot of people working in this area, that the opportunity to miss a renewal date can easily happen. His proposal asks that the industry be given 30 days notice that they have not filed for their renewal permit, so that they will have an opportunity to renew it.

Mr. Gary Pennington, attorney representing Bell Atlantic Mobile, said that the flexibility of setback requirements should be amended. He said that as the ordinance reads, at a minimum, if the tower is adjacent to a residentially zoned property or a property on which is located a residence, the tower has to be set back at least one-half the height of the tower (50 feet if the tower height is limited to 100 feet). He asked City Council insert some flexibility into that standard to give the City Council the discretion to examine, on a case by case basis, each application. Since each piece of real property in Asheville is unique and if the overall goal is to lessen the aesthetic or visual impact of the tower, he felt that City Council should have some flexibility to meet or achieve that goal by having some discretion on what that setback should be.

Mr. Pennington said their next issue of concern is the use of an outside consultant for application review by the City of Asheville. The industry feels that this item should be deleted. There is a $2,500 application fee and in addition to the application fee, they would be required, if the City deemed it necessary, to submit a $5,000 bond to reimburse the City for the cost of using a consultant to review the application and to advise the City Council on the application. As a compromise, they request that the City prepare a list (perhaps five) of qualified individuals who could serve as consultants if necessary. The industry should then have the opportunity to exclude some, but not all, of the consultants. They are concerned with the qualifications of the consultant and his impartiality as to the City or the applicant. The City would have final say in the selection from the remaining names.

He then said that their final concern is the required use of electric transmission towers. The ordinance, as written now in two instances, requires that before a tower is approved or before a concealed telecommunications support structure is approved, that the applicant utilize an existing electric transmission tower to place its antenna. Primarily, they've asked that the language "... within one-quarter mile (1320 feet)" be deleted from the text and insert "... within the search area." He explained that what they are asking is that if there is a transmission tower within their search area, they will attempt to us it, with some exceptions (items which they have no control over that would make that transmission tower unsuitable). He then explained what is meant by a search area.

Vice-Mayor Hay was concerned that if we do not act on the portion of the text relative to the five year conditional use renewal requirement at this point, there will be a hole in the ordinance. He was uncomfortable in leaving a portion of the ordinance out. He wondered if it would be possible to act on the ordinance with this requirement in it and then take action to schedule a review of changes to that portion of the ordinance.

Councilman Cloninger reminded Council that it will be five years before that requirement will take effect. He felt Council should adopt the ordinance as is and then amend it at some later date, if appropriate, to add some additional language.

City Attorney Oast said that if Council wanted to try to address some of the concerns raised by the industry representatives, it may be appropriate to give staff direction to re-examine those issues. He said that staff is willing to work with industry representatives and reconsider any issue upon direction by Council. Regarding Council's not acting on the language about the five year conditional use renewal requirement, he would feel more comfortable if Council either acted on it or deleted it with the intention of not doing anything about it, rather than leave it undetermined for some period of time.

Councilman Tomes was concerned that no RF Engineer was involved in this ordinance drafting, given the kind of scientific data involved. Mr. Green said that to his knowledge, the only RF engineers that have been involved in the review of this were those who work for or who were under contract for the providers of telecommunication facilities. Mr. Green said that based on his knowledge of the ordinance and in working with Mr. Rosa in the drafting of this ordinance, it is his opinion that Mr. Rosa has the necessary credentials to prepare the draft ordinance submitted to Council. He felt that with his limited knowledge, the RF engineering would come into play until the detailed siting of the telecommunication facilities and the actual construction of those facilities.

Upon inquiry of Councilwoman Field regarding the five years conditional use permit renewal, City Attorney Oast explained that if the requirement remains in, then the five year limitation doesn't affect anyone for five years. However, he thinks that the industry raises the point that it does affect them now because that's a decision they have to make going into the situation. Mr. McDevitt is asking that Council delete that requirement from the stated requirements of the ordinance which, if an operator makes application for a conditional use permit and that provision is not in the ordinance, then if the permit is granted, they may be able to have the tower up in perpetuity.

When Councilwoman Field asked Mr. Rosa if it would be possible to come up with some objective standards that a company would have to meet after five years to continue their conditional use, Mr. Rosa said that he did think that would be possible and that it would take some time in that he didn't know what criteria the industry or City Council would want included.

Upon inquiry of Mayor Sitnick about a statement which said that City staff and Mr. Rosa promised to include in the proposed ordinance certain objective standards for the five year review, Mr. Green responded that he did remember stating that they would work on the standards, however, he did not recall having promised that it would be included in this draft ordinance.

Councilman Cobb said that on page 33 of the draft ordinance, the sentence reads "Before a permit shall be issued or renewed, an applicant or permitee must certify that: ..." It then lists six different conditions to be met. He felt those standards should suffice as the objective standards for the five year review. Mr. McDevitt responded that those standards just apply for the annual permit, not for the five year conditional use renewal.

Mr. George Saenger, attorney representing Triton and America Tower, do support the six major concerns that Mr. McDevitt and Mr. Pennington outlined above. However, as the draft ordinance now reads, Triton and America Tower are opposed to it. He felt that the effect of the ordinance is limiting the providers to provide new technology. Triton would provide better service at a lower cost, however, this ordinance precludes that from being offered across the board to the citizens of Asheville. This ordinance provides for limited service and limited access. He felt that the City needed to do a better balancing act than just meeting the legal requirements. You need to find a system that will allow you to have the best wireless communications system in the town and still meet the other aesthetic goals. He explained that even if Council amended the ordinance with the six amendments outlined by Mr. McDevitt and Mr. Pennington, they are not saying that they have no other objections to the ordinance. However, they would be willing to participate in any further review and then make known their specific objections over and above what the six concerns.

Mr. Jack Tate, attorney representing U.S. Cellular, supported Mr. McDevitt and Mr. Pennington's comments. He said they hired an expert, Mr. Hodnett, who is the Chief Radio Engineer for the FBI and also a consultant for the Dept. of Defense, who made the determination of the height minimum of 114.6 feet in this area because of our topography. On that basis alone combined with this Council's goal of providing service that the community wants, we would submit there needs to be flexibility to go above the 100 feet height limit. They would prefer the 200 foot limit, but are willing to work and demonstrate that in any particular case, they need a different height above the 100 feet. Since he was told there has only been one application in two years, he could not see the rush in adopting this ordinance without even considering the six major concerns previously mentioned.

Upon inquiry of Councilman Cobb, Mr. Tate said that there are maybe 8-12 U.S. Cellular towers in this area now, but did not have the information with him on their height.

Mr. Steve Lewotsky, representing SBA, agents for BellSouth, agreed with the prior comments made earlier by industry representatives. He felt that there has been a lot of information presented to City Council in ways that this ordinance can be made more effective and better for the community and providers. He would appreciate it if Council would look at the information again to come up with a better ordinance.

Mr. Mike Lewis felt that the towers represent the degeneration of Asheville and our quality of life. Cellular towers have become blight on the landscape. The over-riding consideration is not how badly do we need cell service in this community, but one of aesthetics because Asheville has two things going for it - quality of life and our people. He urged Council to consider very hard about making any changes to the proposed ordinance. He felt some consideration should be given to the type of notice the City gives before termination of a license and taking down a tower. If Council does want to consider the six amendments, then Council should put a moratorium for the duration on any new towers until the sections of the ordinance can be worked out. The proposed ordinance seems to suit Asheville's needs and he urged Council to consider adoption of the proposed ordinance and work on the glitches as time goes on and we learn more about it.

Mr. Leonard Smith agreed with the comments made by Mr. Lewis. He felt no one should tell the City of Asheville who they can use as a consultant, especially someone who is trying to do business with the City. He said that any group who gets a license to have a tower and then forgets to renew it shouldn't be given the license in the first place, due to inefficiency. He recommended City Council adopt the proposed ordinance and then come back and review the five year conditional use renewal requirement. He felt there was good arguments on why it should not be a perpetual license.

Mr. U. Morrison encouraged City Council to consider carefully all the information that has been presented. He said the industry does have some major fine points, however, he does not appreciate the massive towers. He felt that a specialist on the City's behalf seemed like a good idea.

Mr. Rosa said that the only change that he would make that the industry has suggested is on the notice provision. He felt that it would not be unreasonable to add in a requirement that they be notified 30 days before their renewal date, in addition to the 30 days before a facility is removed.

Mr. Rosa said that respect to the height, he gave an example of an actual installation on a wood pole that is flush with the tree line in the immediate area. To say that it will not work below 100 feet, is not a fair characterization. In fact, he has seen a U.S. Cellular installation with their name on it that is on a wood pole in Roanoke, Virginia, that is 10 feet in height.

Mr. Rosa responded to the RF engineer concern. He said that he is aware that engineers could be brought in if necessary. He said BellSouth Mobility offered to make their engineers available to the City. The City did provide them some data on alternative locations and after we received no response, we were told they preferred to withhold the data.

When Councilman Cobb asked what advantages would an additional 15 feet be to the height, Mr. Rosa said that the 100 foot height restriction is a baseline that is reasonable and which was arrived at after a lot of factors were discussed and analyzed.

Mayor Sitnick closed the public hearing at 7:16 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field said that she was fairly uncomfortable with the issue of the 100 vs. 115 feet height restriction. Since she has not heard any good, substantial reasons for why the height restriction is 100 feet, she would like to have an engineer advise her what the difference is between 100 feet and 115 feet. She had a real problem with the staff not having some engineering backup on the choice of 100 feet. She said that she would be willing to adopt the proposed ordinance today if there could be some direction to staff to look at the industry comments within some sort of timeframe. She felt there are some points the industry has raised that makes sense and she would support.

Councilman Tomes echoed the same comments as Councilwoman Field relative to the engineer issue. He said that he would be willing to vote for the ordinance with the condition that we be in a position to come back and amend it later, if necessary.

Mayor Sitnick didn't think there was any problem with City Council adopting the ordinance today and then working on amendments. She said that Council can instruct staff to look at any one of the proposals brought forth by industry, as well as other revisions.

Councilman Cloninger strongly encouraged City Council adopt the proposed ordinance as is at this time and would be supportive of reviewing amendments in the future. He felt we are on the threshold of having many applications filed for towers and he would much rather have those be applications filed under this revised ordinance than the one that is currently in effect. He did feel that the revised ordinance is an excellent ordinance and it does meet the goals set out by City Council.

Councilman Cloninger moved to adopt Ordinance No. 2535, with the provision that the text for the new Controlled Access Facilities Zone will be inserted by staff. This motion was seconded by Councilman Tomes.

Vice-Mayor Hay supported voting for the revised ordinance as is and then directing staff to review the industry comments. He did think that Council needs to be open to some amendments because he would like to have an ordinance which is flexible. He said he was more interested in the flexibility to 150 feet than he was to setting the restriction at 115 feet. What the industry proposes does put the burden on them to come to City Council to either approve or deny the request. Regarding the five year conditional use renewal requirement, he felt that Councilman Cobb was correct in that there are some standards in the ordinance and the industry would like to know that it will be renewed in five years. However, he was not sure that's what a conditional use permit is meant to be under these circumstances. Regarding the notice requirement, he felt that was the easiest thing for Council to amend because that will not come up for a year. He felt that the setback issue and the list of consultants can be considered in due course to see if that's the kind of flexibility we want to bring in.

Mayor Sitnick would like to see some fair exchange regarding the 100 foot height restriction. If Council considers more flexibility in the height, she would like to see if the industry would perhaps go to their 200 foot towers and apply some stealth technology or lower them if 200 feet is not a necessity. She echoed Vice-Mayor Hay's concerns on the five year conditional use and wanted to be very cautious on how the City proceeds with that. With regard to notification, she's not sure the City should be burdened with notifying industry that there is a permit renewal requirement coming up. She would like to adopt the revised ordinance as is and direct staff to work with Mr. Rosa and with the industry on some of the points outlined today.

The motion made by Councilman Cloninger and seconded by Councilman Tomes carried unanimously.

City Manager Westbrook said that since the Planning & Development staff has a current list of priorities from City Council that they are currently working on, he suggested that at an upcoming worksession the matter relative to possible amendments as a result of industry comments be brought back along with all the other priorities so that they can be prioritized in the overall scope.

Councilwoman Field felt that the industry deserved to have the staff come back with their comments on these recommendations within 60 days.

Vice-Mayor Hay noted that if the ordinance is amended, it will have to go back to the Planning & Zoning Commission for their recommendation and then back to City Council.

At the suggestion of Councilman Cloninger, it was the consensus of Council that at Council's annual retreat in approximately two weeks, that a timeline be discussed for possible amendments to this ordinance.

ORDINANCE BOOK NO. 17 - PAGE 203

At this time 7:33, Mayor Sitnick announced a short break.

D. PUBLIC HEARING TO CONSIDER THE REALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS FROM HILL STREET/CHERRY STREET TO CITY-WIDE REHABILITATION

ORDINANCE NO. 2536 - BUDGET AMENDMENT TO REALLOCATE $160,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS FROM HILL STREET/CHERRY STREET TO CITY-WIDE REHABILITATION

Mayor Sitnick opened the public hearing at 7:58 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Ed Vess, Field Services Coordinator, said that this public hearing will be to consider the reallocation of $160,000 of Community Development Block Grant (CDBG) funds from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program in order to utilize current funds according to immediate needs.

The Hill Street/Cherry Street Project is the CDBG budget title for the Head of Montford Redevelopment Project activities. The need for Redevelopment Project activities has diminished with the increase in private investment in the Montford area. Indeed the increase in property values in Montford has outdone the average for Asheville by two times. To a large extent all of the goals of the redevelopment plan have been realized. Although some work remains to be done, funding for such activities should be routed through the CDBG funding process as specific projects are developed. The project budget has a current balance of $172,600 which has been carried over from prior years and represents funds that were not needed to carry out the activities for which they were originally scheduled. The projected need to fund currently planned activities amounts to approximately $12,600 leaving a balance of $160,000. The City Wide Rehabilitation Program has an immediate need for funds for homeowner rehabilitation loans. In assessing the need for funds in Montford compared to the shortfall of funds for homeowner rehabs Community Development staff have determined that a greater need exists in the City Wide Rehab Program.

The reallocation of $160,000 for which no activities are currently planned from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program will enable the rehabilitation of an additional five to seven homes.

Councilwoman Field said that this did come before the Housing & Community Development Committee and some people from the Head of Montford wanted to reserve this money. She said that in the future if there is a project to fund, we can certainly consider that. However, the Committee felt that the opportunity to do something with the money now was an appropriate reallocation. She again noted that this will not close the door on future projects.

Upon inquiry of Mayor Sitnick, Mr. Vess said that there would be no assurance that the funds would be available in the future for a Head of Montford Project other than the fact that the City of Asheville does receive annually CDBG entitlement funds. Each year the City goes through a funding process where they invite applications from non-profit groups for projects that are eligible. The Head of Montford's application would be just like any other non-profit group completing an application. Their application would be evaluated, along with any other applications, as to its merits.

Mayor Sitnick said that the City of Asheville has invested quite a bit of money over the years into the Montford community to preserve a wonderful historic district. She hoped that for future projects there would be some ease of that area getting the necessary funds for future projects.

Discussion surrounded the Hill Street/Cherry Street original project and how many factors came together to make the Head of Montford a success. He noted that all to a large extent, all of the goals originally set for the Head of Montford Project have been realized since 1987.

Upon inquiry of Councilwoman Field, Mr. Vess said that in excess of $5.5 million of CDBG money in the Montford community since 1987. He said that did not even include the private dollars that were leveraged as a result of much of this public investment. He also noted that Montford, like any other community within the City limits where there are low income people living, would still be eligible for the City-Wide Rehab Program. There would not be any withdrawal from Montford, it's just a matter of there is not currently a project designated for those funds.

When Mr. H.K. Edgerton asked if the money can be used for projects on the river, Mr. Vess recommended that if they are interested for a project which is not in place yet, that they apply for the CDBG funding cycle.

Ms. Elizabeth Graham, property owner in the Hill Street/Cherry Street area, said that Mr. Vess is saying that if the money is reallocated from this project area, that all the goals that can be met, have been met. She asked Council that if they are going to reallocate the money from the Montford area that Council adopt a resolution which states that the Montford Redevelopment Plan is now terminated. She said that Asheville has a history of starting plans and not always ending them in a nice, clean package. She said that if Council is not going to terminate the Plan and put it in writing so that all the property owners are aware of that, then she suggested Council leave the money where it is.

Ms. Lake encouraged the City Council to reallocate the funds to the City-Wide Rehab Program. She represents an 81 year old lady who has been on a waiting list for seven years for rehab.

Upon inquiry of Mayor Sitnick if it is customary to close out a plan when money is reallocated, Mr. Vess said that it is not, under the Community Development Program, necessary to go through any type of official close-out. It's just a matter of Council acknowledging that the project has been completed and you no longer fund it as a project. Again, that does not mean that the community cannot receive CDBG funds for various projects in the City-Wide Rehab Program.

Councilwoman Field said that the Housing & Community Development Committee would be happy to review the request for a closing out the Montford Redevelopment Plan and report back to City Council their recommendation. She said that she would be interested in knowing the pros and cons of closing out the Plan.

When Councilman Tomes noted that he knew a couple of people in that area whose homes were in need of rehab, Mr. Vess said that there are three houses in the Montford area now that will be rehabilitated with the reallocation of these funds. He also said that if there are homes in the Hill Street area that people know about, he encouraged them to contact the Community Development Division and submit an application, or give him their names and addresses and he would contact them.

Mr. Vess responded to questions from Mr. H.K. Edgerton of what other types of programs are available for rehabilitation

Mayor Sitnick closed the public hearing at 8:30 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved to adopt Ordinance No. 2536, to reallocate $160,000 of Community Development Block Grant funds from the Hill Street/Cherry Street Project to the City Wide Rehabilitation Program. This motion was seconded by Councilman Cobb and carried unanimously.

Councilman Cloninger moved to refer to the Housing & Community Development Committee the question of whether or not to recommend appropriate action to terminate the Head of Montford Project. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 240

E. PUBLIC HEARING TO CONSIDER THE ADOPTION OF A SMALL AREA PLAN KNOWN AS THE CHARLOTTE STREET CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE (ASHEVILLE CITY 2010 PLAN)

RESOLUTION NO. 99-11 - RESOLUTION TO CONSIDER THE ADOPTION OF A SMALL AREA PLAN KNOWN AS THE CHARLOTTE STREET CORRIDOR PLAN AS AN ADDENDUM TO THE COMPREHENSIVE PLAN FOR THE CITY OF ASHEVILLE (ASHEVILLE CITY 2010 PLAN)

Mayor Sitnick opened the public hearing at 8:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of adoption of the Charlotte Street Corridor Plan, a small area plan developed by the Planning and Development Department for Charlotte Street from I-240 north to the end of the street.

In January of 1996, the Asheville City Council directed the City Planning and Development Department to develop a small area plan for the Charlotte Street Corridor. Staff has completed a draft plan for the corridor which is largely based upon input and participation from various stakeholders of the community. This input and participation included numerous advisory committee meetings, a half-dozen community meetings, a two-day Charette, as well as recent meetings with various groups and individuals representing both the business and residential communities.

The Charlotte Street Corridor Plan addresses three primary issues which were identified by the community as being the most important issues facing the street. These three issues are;

1) vehicular and pedestrian circulation
2) land use, and
3) streetscape and appearance.

For each of the three major issues, the plan establishes a set of goals and recommendations. The goals are broad statements of purpose and describe the desired end result of the plan - what is to be accomplished. The vehicular and pedestrian circulation goals are (1) to improve the safety and efficiency of all modes of transportation within the Charlotte Street corridor; and (2) promote increased pedestrian activity as well as alternate means of transportation within the Charlotte Street corridor. The land use goals are (1) continue the existing balanced mix of uses on Charlotte Street between commercial, residential, institutional and open space; and (2) encourage compatible new development that serves adjacent neighborhoods and helps to create an economically vibrant pedestrian environment. The streetscape and appearance goal is to improve the appearance of Charlotte Street and create a unique and unifying image for the corridor. He then reviewed the recommendations which outline ways in which the goals can be accomplished. The plan emphasizes cooperation and incentives as the keys to successful implementation of the plan.

Upon adoption by the City Council, the Charlotte Street Corridor Plan will become part of the Asheville City Plan: 2010 and will serve as a guide for future development and improvements along the street.

With regard to goal no. 2 under vehicular and pedestrian circulation, the Planning & Zoning Commission recommended that within a year from adoption of the plan, this issue should be examined at a workshop by experts from such fields as traffic engineering, transit, planning and pedestrian planning in order to develop alternate methods of achieving this goal. This workshop was a recommendation of the Planning & Zoning Commission who also asked City Council to set aside some funding in the budgeting process this spring to provide for that workshop.

Recently, the Charlotte Street business community has offered comments and expressed concerns regarding an earlier version of the draft plan. Following review of these comments/concerns, the Planning and Development staff met with various groups and individuals representing both the business community and the surrounding neighborhoods. Staff then proposed a number of modifications to the plan which were based upon the meetings with these various groups and individuals.

At their December 2, 1998, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the small area plan with some minor revisions to the Plan which have been included in this draft. The Planning and Development Department also recommends approval of the small area plan.

Mr. Matteson said that this small area plan is intended to be a guide for future development and improvements on the street. It is not intended to be a regulatory document nor is it intended to lead to new regulations. The Planning staff feels very strongly that the best way to implement this plan is through cooperation between the various groups that will benefit from the plan - the business and property owners, the residential neighborhoods, and the City. The staff also feels that incentives can and should be a key in implementing this plan as well.

Upon inquiry of Councilman Sellers of the estimate of the cost of the workshop requested by the Planning & Zoning Commission, Mr. Matteson said that he did not have an estimate at this point but would have an estimate in plenty of time for the budgeting process.

Ms. Jane Mathews, speaking as liaison from the Planning & Zoning Commission, said that at the Commission's December 2, 1998, and January 6, 1999, meetings, the Commission did make specific changes to the plan and requested that those changes be included as worded by the Commission. She felt the workshop is very important to help resolve some outstanding issues. The Commission felt that a neutral third party to facilitate the dialog and with some technical expertise in terms of creative solutions that would look at not only the vehicular traffic issues, but all of the other issues in a way that would be acceptable to everyone involved. Regarding the Capital Improvement Program allocation, she hoped that members of the business and neighborhood community might contribute through grants or through gifts to the community to help fund that process. Regarding the issue of transition overlay, she said the Commission changed the wording to "explore applications of an overlay zoning district" to not necessarily nail it down to transition or other planning strategy or tool.

Mr. Mike Ward, resident of 15 Terrace Road in Albemarle Park, said that the essential theme which has evolved from all the meetings centers around traffic. He, too, suggested the workshop described by Ms. Mathews. He also suggested that the link to downtown from North Asheville should be Central Avenue and that this too be included in the collaboration of the workshop. During the advisory board meetings, he has struggled with the 1997 traffic study as done by the City Traffic Division in that there is an underlying assumption that whatever benefits or facilitates traffic also is a positive for the pedestrian. He said that it has been a rough 2-3 years, however, he does think we have a good plan with still some details to work out.

Mayor Sitnick closed the public hearing at 8:57 p.m.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-11, with the specific wording amendments adopted by the Planning & Zoning Commission at their December 2, 1998, and January 6, 1999, meetings as reflected in their minutes. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 120

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. RESOLUTION NO. 99-12 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PRECISION CONTRACTING INC. FOR THE SHORT-TERM STABILIZATION OF ZEALANDIA BRIDGE

ORDINANCE NO. 2537 - BUDGET AMENDMENT, IN THE AMOUNT OF $50,000, FOR THE SHORT-TERM STABILIZATION OF ZEALANDIA BRIDGE

Ms. Suzanne Molloy, Assistant Public Works Director, said that as directed by Council, staff developed a public/private partnership to both stabilize the Zealandia Bridge and establish guidelines for the long-term funding of full bridge restoration.

At City Council's December 15th meeting staff was directed to (1) seek and evaluate short and long-term private funding sources; and (2) obtain access easements from adjacent property owners.

On December 22nd, staff held a community meeting to discuss the above issues. Attendees included Windswept Drive property owners, members from the Historic Resources Commission, and interested citizens. The group unanimously endorsed the short-term stabilization of the bridge (with a private pledge of $40,000), fencing off the bridge from curious citizens in order to prevent loitering, and the formation of a committee to work with the Parks and Recreation Department to fund and develop a park on City property adjacent to the bridge.

A combined effort of Quality Forward, the Historic Preservation Society, and private individuals has resulted in the raising of $40,000 for the initial stabilization project. A committee with these individuals and organizations will immediately be established and responsible for raising the remaining funds for the permanent rehabilitation effort of the Zealandia Bridge and park development. Estimated costs for the entire project may range up to $800,000.

Quality Forward will coordinate the transfer of $40,000 to the City for Phase I of the project. In conjunction with the committee, Quality Forward will oversee additional fundraising efforts for the remainder of the project. The City will develop a Memorandum of Understanding with the committee outlining requirements for fundraising to be completed no later than January

1, 2002. Upon raising 80% of the funds, the Parks and Recreation Department will update Council on the project.

The Parks and Recreation Department will be responsible for designing and programming the park development at the Beaucatcher reservoir. The Water Resources Department is amenable to park development subject to easement restrictions (for water lines).

Staff is still seeking two access easements to the bridge.

Beaumont Street is currently closed to vehicular traffic pending stabilization efforts.

Staff recommends approval of (1) a budget amendment for $50,000 for the short-term stabilization of the bridge (80% private funding and 20% public contribution); (2) authorizing the City Manager to enter into a contract with Precision Contracting, Inc. for the short-term stabilization of the bridge; and (3) direction to staff to draft a Memorandum of Understanding with the fundraising committee and Quality Forward specific to funding, deadlines, park development, and full bridge restoration.

Upon inquiry of Councilman Cobb, Ms. Molloy said that the City will have temporary construction easement agreements.

Mr. Robert Griffin recognized that if people were going to invest private funds into restoring the bridge, then it would be nice to have some opportunity for the bridge to be enjoyed by the public. Using that property to the north of the bridge would not only create that opportunity but could in fact create the opportunity for something larger than just this bridge project that would make even more fundraising possible. He said that since mid-December they have raised approximately $1,000 a day toward this project and he felt comfortable that they could raise more to take it beyond what the initial Phase I stabilization was, so that all of that work could be used toward Phase II. They objective is to assist the City in coming up with the funds necessary to spend the money in a reasonable way so that we don't have to un-do anything for the final restoration of the bridge. They have presently raised $37,000 toward their goal of $40,000 and he feels comfortable that they can raise the remaining. He would also like to work with staff to look at the possibilities of enhancing that even further. He passed out to Council a list of donors.

Mr. Dan Foy, resident at 10 Windswept Drive and representative of the residents that live from 10 to 400 Windswept Drive, said that they were concerned about the bridge being restored because they have so many problems up there now, i.e., people shooting guns, vandalism, spray painting on the rock cliffs, etc. They feel that if the bridge is restored, all we are doing is giving them a nice place to trash. The park is a good idea and should be built without the bridge. There are really no views from the bridge now because of the trees grown up on both sides of it.

Mr. Harry Weiss, Director of the Preservation Society, thanked Mr. Griffin for his leadership in spearheading the fundraising efforts. He pointed out that a substantial amount of the funds pledged to this project from the private sector, including the Preservation Society, expresses a contingency that this is tied into the concept of a bridge with a park. He said the funds that are forthcoming for this are essentially in a package deal in terms of their participation. He said there is a lot of activity that goes on around the reservoir and that by creating some active uses in terms of a park, that will hopefully increase the level of participation, stewardship, and policing of the activity that occurs there.

Councilwoman Field said that there is certainly a commitment from City Council to do a park if we can, but there is not money in the budget and the City cannot guarantee to any of the donors that we would end up with a park. The intent is there and it sounds like a good idea, but the money isn't.

Ms. Susan Roderick, representative of Quality Forward, felt that this is one of the greatest public/private projects she has ever seen. She feels that we can make a park up there and we do need to think of what our priorities are. She felt that one way to fix some of the problems the residents are having is by having a care-taker/maintenance person who lives in the area.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2537. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 242

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Cloninger moved for the adoption of Resolution No. 99-12. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 121

Councilman Sellers moved to direct staff to draft a Memorandum of Understanding with the fundraising committee and Quality Forward specific to funding, deadlines, park development, and full bridge restoration. This motion was seconded by Councilman Cobb and carried unanimously.

B. FURTHER DISCUSSION OF APPOINTMENTS TO THE ASHEVILLE SCHOOL BOARD

Vice-Mayor Edward Hay said that the terms of Brian Weinkle and Roy Harris, as members on the Asheville School Board, expire on April 1, 1999. He explained that both are eligible for reappointment. He then reviewed the board appointment process and how the School Board appointment process is a long and involved process.

He personally felt that Mr. Weinkle and Mr. Harris are both doing particularly good jobs and we currently have a balanced School Board, both racially and geographically. While we have a long way to go in the City schools, we have made progress in the last two years and the City schools are taking steps in the right direction. He thinks that is because there is a teamwork approach with the School Board and the Superintendent that may well doing what City Council would like to see done with the City schools in the long run.

He said that according to Council's appointment process, we can wait one month and then start talking about reappointment, or we can start talking about reappointment now. If we have an expectation that way, then we need to be talking openly about what we might do in a month. It also gives people an opportunity to comment to Council on what they feel about reappointment.

Mr. Joe Bly passed out data received from the state report card from 1996-97 school year and the 1997-98 school year. He did not propose to stop reappointment of Mr. Weinkle or Mr. Harris because he felt they are doing the best they can, but they are not doing good enough. He represented the 1,000 children in the City school system who cannot read and write in grades 3-8. He hoped his data demonstrates that saying that we need a certain number of African Americans on the School Board, a certain number of women, and a certain number of people living in Asheville geographically is not working.

Mr. H.K. Edgerton felt that Mr. Weinkle and Mr. Harris should be reappointed. He hoped that this Council will have a better influence on our School Board to see that there is some aggressive behavior to ensure that our children have a better chance in succeeding in this community.

Councilman Tomes said that until this community registers it's displeasure over the staggering kind of dilemma that many of our children, African Americans and poor Whites, find themselves in, we will never correct it. The School Board is accountable, but they can only respond to the voice of the community. He didn't think there has been a collaborative, collective effort on the part of community. He felt that if White children were falling through the cracks they would have shut down the school, privatized them or turn it over to someone else. Until the community rallies and make it a community effort, we will be continued to be plagued with this beyond the 21st Century. With the proliferation of technology and the kind of skills and expertise that the labor force is looking for, he felt the community needs to think in terms of the vibrancy and health of the total community, not segments of the community.

As a result of a comment by Mr. Bly about the School Board not being accountable because it is an appointed school board, Mayor Sitnick suggested Mr. Bly contact her to discuss an elected school board vs. an appointed school board.

VI. OTHER BUSINESS:

A. UPDATE ON THE WATER CRISIS

Mr. Tom Frederick, Director of Water Resources, updated City Council on the water crisis stating that as of today, we have 96 days of water left. Recent rains is not a reason to stop conserving. He explained all the efforts being made to educate the public in water conservation and the steps being taken by the City to conserve water as well.

Mr. Frederick responded to a question relative to a commercial bottler buying Asheville water and selling it.

Mayor Sitnick asked for an update from the Water Resources Director and the City Attorney relative to a portion of the City Code dealing with droughts.

B. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 15, 1998, AND THE WORKSESSION HELD ON JANUARY 5, 1999

Councilman Cobb moved for the adoption of the minutes of the regular meeting held on December 15, 1998, and the worksession held on January 5, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

C. CLAIMS

The following claims were received by the City of Asheville during the week of December 11, 1998 - January 7, 1999: John Senechal (Water), Eric Fronrath (Civic Center), Joe Treadway (Water), Kelly McKibben (Traffic Engineering), Dina Herig (Civic Center), James D. Allen (Water), Natalie Grant (Streets), Ryan Dickson (Streets), Benjamin Rogers (Streets), Bill Devlin (Streets), Riveria Mallory (Streets), Margie Gaddy (Streets), Kemper Brown (Water) and David Pilcher (Streets).

These claims have been referred to Asheville Claims Corporation for investigation.

D. LAWSUIT

The following lawsuit was received on December 16, 1998, regarding Patrick L. Johnson v. City of Asheville and Metropolitan Sewerage District of Buncombe County, North Carolina. The nature of the proceeding is negligence alleged due to MSD "raising" a manhole structure above the street pavement level to facilitate the resurfacing of the street by the City.

The City Attorney recommends this be handled by an outside attorney.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. ASHEVILLE MOTOR SPEEDWAY

City Attorney Oast said that just prior to this meeting, he received word from Carolina Motorsports, headed by Danny Jones, that they were withdrawing from negotiations to lease the Asheville Motor Speedway for 1999. He said that this was disappointing because they had high hopes for Carolina Motorsports and Mr. Jones and the City had gone far towards getting the necessary approvals from the necessary parties. He did say that this may have happened soon enough that we can perhaps begin negotiations with the other interested party. We still have a lot of things to work out in that respect, however time is of the essence.

Councilman Sellers said that there are a lot of things that are actually behind schedule with the Asheville Motor Speedway if it's going to operate this year. Sponsors, advertisers, car builders, mechanics, etc. need to know whether they should move forward with operating at the Asheville Motor Speedway or start gearing towards another racetrack, such as Hickory or Spartanburg.

Councilman Sellers moved to instruct the City Manager and City Attorney to pursue negotiations with John Huffman and James Young and that they report back to Council with their recommendations as soon as possible. This motion was seconded by Councilwoman Field and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 9:55 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 19, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Bids for Relocation & Refurbishing of Existing Furniture at the Municipal Building

Summary: The consideration of a resolution authorizing the City Manager to enter into a service contract with Office Environments of Asheville Inc. to relocate and refurbish existing furniture to be used at the Municipal Building, when renovations are complete.

In an effort to reduce costs for new furniture in the Municipal Building, when renovations are complete, City staff will be using refurbished existing furniture as much as possible. City staff solicited sealed bids from 18 furniture contractors, 3 of which were minority contractors, for relocation and refurbishing of 585 pieces of existing furniture currently being used by City staff throughout the City. Only one bid from Office Environments of Asheville, in the amount of $37,100 was received.

Approved funding is available in the Municipal Building construction account to pay for the relocation and refurbishing of existing furniture, designated for use in the Municipal Building.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a service contract with Office Environments of Asheville Inc., in the amount of $37,100, to relocate and refurbish existing furniture to be used at the Municipal Building, when renovations are complete.

Bids for New Furniture for the Municipal Building

Summary: The consideration of a resolution to award Bid Request No. 488-99 for the purchase of new office furniture for the Municipal Building.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish and install miscellaneous office furniture, as described in Section A through G of the bid documents, in the Municipal Building. Seven bids were received. Bids have been reviewed for technical compliance to specifications by Lyle Willis, Project Coordinator and his concurrence was received in the following recommendations.

Funds for these purchases have been budgeted in Account No. 666-4680-461.70-04.

Subject to Council's approval, it is recommended that awards be made for the furniture proposed by the low bidder of each section as follows:

Section A - Metal Bookcases, Shelving - award to the low bidder, Interior Systems, West End, N. C., in the amount of $14,469.00.
Section B - Metal Casegoods, Desk, Credenza - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $26,627.63.

Section C - Wood Casegoods - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $9,672.55.
Section D - Wood Bookcases - award to the low bidder, Mac Thrift Office Furniture, Winston-Salem, N. C., in the amount of $3,146.86.
Section E - Panels System - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $41,553.36.
Section F - Metal Seating - award to the low bidder, Hoyle Office Supply, Arden, N. C., in the amount of $40,324.96.
Section G - Wood Seating - award to the low bidder, Office Environments, Asheville, N. C., in the amount of $11,596.00.
Grand total of all awards as recommended $147,390.36.

Request for City to be Fiscal Agent regarding the Community Image Survey

Summary: Private funding to carryout the Community Image Survey Project has been identified and a request that the City act as fiscal agent on behalf of the Metropolitan Planning Organization for the project will need City Council approval.

An overview of the Community Image Survey Project was presented to City Council at their February 17, 1998, meeting. Since that time, private funding of $55,000 has been identified and should be adequate to carry out the project. The Metropolitan Planning Organization can sponsor the project, however, since they are not a fiscal entity, the City will need to act as fiscal agent for the project and provide limited staff support as such. If City Council desires that the City participate in the project by being the fiscal agent, a project budget ordinance will be prepared and presented to City Council for adoption.

Upon City Council concurrence to act as fiscal agent, City staff recommends City Council adopt a budget for the Community Image Project, in the amount of $55,000, with the funding provided by private sources.

Setting of a Public Hearing on February 9, 1999, to Adopt Amendments to the City of Asheville Personnel Policy

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

RESOLUTION NO. 99-13 - RESOLUTION AUTHORIZING THE CITY TO ENTER INTO AN AMENDMENT OF A LEASE WITH SKYLAND VOLUNTEER FIRE DEPARTMENT TO PERMIT USE OF THE PREMISES AS A POLICE SUBSTATION

City Attorney Oast said that this is the consideration of a resolution authorizing execution of an amendment to the lease with Skyland Volunteer Fire Department (Skyland VFD) to permit establishment of a police substation.

In December of 1995, the City entered into a ground lease agreement with the Skyland VFD, allowing the City to build a fire station on the Skyland VFD property. Subsequent developments have resulted in the size of the City's building being reduced, and sharing some of the facilities with Skyland VFD.

In an effort to improve service to the southern part of the City, the Police Department would like to establish a police substation in the Skyland area, and the City's facility can be configured to accommodate the police, and this work is underway. The Lease Agreement with Skyland VFD currently addresses occupancy only by the Fire Department, and an amendment is necessary to allow occupancy by the Police Department. The term of the Police Department's lease is 10 years, renewable for an additional 10 years. No additional rent is involved, but the City is agreeing to reimburse Skyland VFD for the legal costs incurred in connection with negotiating and finalizing this amendment, and is providing additional paved parking.

City Attorney Oast said that because the Skyland VFD's Board only meets once a month and they will be meeting on January 25, 1999, he requested City Council consider adoption of the resolution at this meeting.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved to waive the rules and proceed with formal action at this meeting. This motion was seconded by Councilman Tomes and carried unanimously.

Councilman Tomes moved to adopt Resolution No. 99-13. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 122

PRESENTATION BY THE HOMES FOR ASHEVILLE-BUNCOMBE TASK FORCE

Joyce Harrison and Scott Dedman, co-chairs of the Homes for Asheville Buncombe Task Force, presented a proposal for a Housing Trust Fund for Asheville, to be funded from local sources.

Ms. Harrison explained why a local housing trust fund is needed for Asheville:

(1) The Asheville Housing Trust Fund is needed to meet the goals set out in the City's Housing Action Plan.

- The City's Housing Action Plan, adopted in October 1998, calls for establishing a local Housing Trust Fund. The Housing Trust Fund was accepted for future action, in conjunction with increasing public awareness of the need and additional strategic planning. This background work should take place by spring 1999, so that a Housing Trust Fund can be formed beginning with the 1999-2000 budget;
- A Housing Trust Fund can double the City's efforts to assist working families and elderly and disabled citizens. A proposed $2.1 million in local revenues each year will assist an additional 190 families. This number is approximately 17% of the City's annual Housing Production target, and will more than double the number of families currently assisted.

(2) It makes economic sense - A local Housing Trust Fund pays back:

- Asheville will benefit economically from the Asheville Housing Trust Fund, which will
  - Generate new tax revenues. Develop attractive new homes on abandoned lots and improve or replace vacant, dilapidated homes. Example: a $12,000 vacant lot, after it is developed into a $90,000 property with a new home, will pay $1,053 per year in new tax revenues for City and County services and schools.
  - Help renters become homebuyers - so they can build savings or equity for their future. Low interest second mortgages from the Trust Fund will make modest homes affordable to low income working families. The first mortgage is provided by local banks.

- Make loans, not grants. This way families who are helped to buy homes can pay their own way. All loans for development housing should be payable to the Trust Fund to create a revolving pool of money.
- Create jobs and help local business. Local homebuilders create jobs and buy materials here at home - unlike mobile homes which are made outside of the Asheville area.
- Bring in private investment. Work with private lenders, corporations, builders, donors. A combination of non-profit, business, charitable, local government, and volunteer effort brings the strongest public support and accountability.

(3) Better homes improve the safety, stability, and quality of life of the entire city.
- Preserve existing homes, improve neighborhoods.
- Convert absentee, neglectful ownership which has abandoned property or failed to care for it, into local ownership which will maintain, improve, and pay taxes.
- Promote attractive design which fits into existing neighborhoods.
- Provide safe, attractive homes and neighborhoods for working families, children, the elderly, and disabled citizens. Families who work in our community should be able to live in our community, in safe, attractive housing. Children need decent homes to get a good education and move up in life. Elderly and disabled citizens need and deserve safe, attractive homes and neighborhoods.

(4) It has been successful in other North Carolina cities.
- Winston-Salem, Raleigh, Durham and Greensboro have successful housing bond programs.
- Durham and Greensboro automatically set aside a portion of their property tax revenues for housing, and both cities have leveraged their trust funds by issuing general obligation housing bonds.
- Durham's $21 million in housing bonds leveraged two dollars of private investment for every public dollar invested. Over $675,000 in new property taxes are paid each year on housing built with bond funds. Approximately 1,200 new jobs were created.

(5) There is strong public support for new local revenues for affordable housing
- A recent opinion poll shows that 62% of voters in the City and County will support increasing their property taxes $15 per year to provide affordable housing. Furthermore, 65% of Asheville's registered voters would vote for a housing tax or bond which would raise their individual property taxes by $15 per year (December 1999 - January 1999 poll). Higher income voters and retirees show even stronger support.
- The Homes for Asheville-Buncombe County Task Force, a broad coalition of business, neighborhood and civic leaders, has voted to support the creation of a local housing trust fund. Other groups, such as the Home Builders Association and the Mortgage Lenders Association, have also voted to support this concept.
- A recent community forum sponsored by the Asheville Citizen-Times identified housing as a top priority for community attention.

(6) There are options for how to fund the Asheville Housing Trust Fund.
- As a community we have options as to how to secure the resources.
    - A two cent set-aside of property taxes. Two cents per $100 of value would raise property taxes $15 per year for a property valued at $75,000. $20 per year for a property valued at $100,000. This method alone would raise approximately $870,000 of revenue each year.
    - A housing bond. This method, if used in combination with the two cent set-aside of property taxes, would speed the flow of funds and production, providing approximately $2 million of improvements each year over a five year period.

- A hotel/motel tax to be used for affordable housing or shared with other services. The recent voter poll also showed support for this option.

- Of course a combination of these may be feasible. The steering committee of the Homes for Asheville-Buncombe Task Force looks forward to a partnership with the City to assess the best methods of securing resources for the Asheville Housing Trust Fund. It is recommended that one or more of the above methods be adopted before July 19999 for the 1999-2000 budget year. However, if a housing bond is one of the methods selected, they recommend that such a bond not be put before the voters before the fall of 1999.

They also reviewed two spreadsheets prepared jointly by Task Force members and City staff. The first spreadsheet illustrates how $2.1 million a year could be used to create 190 units of housing a year, and the second demonstrates the financial costs and benefits of funding such a program through general obligation bonds. It indicates that increased tax revenues would be very roughly equal to the interest on the bonds.

They recommended that Council consider providing for a local housing trust fund in its 1999-2000 budget. If a housing bond is the method selected, they recommend putting this to the voters in the fall of 1999.

Upon inquiry of Councilman Cloninger, Mr. Dedman explained the concept of leveraging.

After discussion, it was the consensus of Council that the Housing & Community Development Committee begin addressing this issue and that they invite the Buncombe County Commissioners to be a part of those meetings in an effort to coordinate City/County cooperation in the County-wide problem of affordable housing.

PRESENTATION OF REPORT OF CHURCH COMMITTEE

Mr. Gerald Green, Senior Planner, said that City Council directed Planning and Development staff to work with a committee composed of representatives of the religious community and neighborhood representatives to review the definition of church found in the Unified Development Ordinance (UDO) and the development standards for churches in residential districts and provide recommendations for appropriate revisions to these.

As a result of concerns expressed by the religious community that the definition of "church" in the UDO was too restrictive, City Council in September 1998 directed Planning and Development Department staff to work with a small committee to review the definition of "church" and to recommend appropriate changes. The Committee was also instructed to review the development standards for churches in residential neighborhoods and to suggest revisions to these standards. A committee composed of four ministers, four representatives of neighborhoods, and one Council member was formed to carry out this task (Rev. Jerry Young, Rev. Bill Clark, Bob McCarthy, Tom Lewis, Rev. Randy Young, Betty Garofano, Brian Peterson, Rev. John Grant, Council Member Earl Cobb).

Following a number of meetings, the Committee developed a set of recommendations which address the definition of "church" and development standards for churches in residential neighborhoods. The recommended definition of "church," now termed "place of worship," is broadened to include all those facilities intended for religious services. The Committee recommends that places of worship be categorized according to the number of seats in their sanctuary as follows:

- Small place of worship - up to 400 seats;
- Medium place of worship - 401 to 800 seats;
- Large place of worship - more than 800 seats.

It is recommended by the Committee that development standards for places of worship in residential districts be related to their size; the larger the place of worship the more restrictive the location requirements. Recommendations of the Committee are that the larger the place of worship, the higher the functional classification of the street on which it must be located. In addition to the location requirements, the Committee also recommended development standards for large places of worship located in residential districts. He then reviewed the detailed recommendations from the Committee as follows:

Committee Purpose: The Committee was formed to carry out the following tasks:

- Review the definition of "church" as currently set forth in the UDO (Unified Development Ordinance) and recommend any needed revisions to make the definition more compatible with the expanding role of churches;
- Review current development standards for churches in residential districts and recommend revisions which would permit reasonable growth of churches while protecting residential neighborhoods; and
- present recommendations to the City Council for their consideration and action.

Committee Recommendations: The Committee presents the following recommendations for the consideration by the City Council:

- Definition of church - the Committee unanimously (Dr. Grant abstained from voting) recommends that the following definition be adopted in lieu of the current definition of church:
    - Place of worship - a building (s) or structure(s) including, but not limited to, accessory classrooms, meeting rooms, offices, and housing quarters for religious leaders, that are primarily intended for religious services and which operate as a private, non-profit, tax exempt institution. The term includes, but is not limited to, churches, synagogues, and temples.
- Development standards for churches (places of worship) in residential districts - the Committee recommends that the following development standards be adopted for churches (places of worship) located in residential districts. All but one of the recommendations are presented with the unanimous approval of the Committee (Dr. Grant abstained from voting in all but one of the recommendations - the location requirement for large places of worship is recommended with a 5 - 4 vote of the committee).
    - The Committee unanimously (Dr. Grant abstained from voting) recommends that places of worship be divided into three (3) categories, based on the number of seats in the sanctuary(ies), for determining the appropriate development standards when locating in residential districts. The categories are:
        - Small place of worship - up to 400 seats;
        - Medium place of worship - 401 to 800 seats; and
        - large place of worship - more than 800 seats.
    - The Committee voted unanimously (Dr. Grant abstained from voting) that the following location requirements for small and medium places of worship in residential districts:
        - Small places of worship may locate anywhere in residential districts; and
        - Medium places of worship may locate in residential districts if the facility is located on a major or minor thoroughfare or is located on a residential collector street if the facility (located on a residential collector street) is located:

252

    - within 300 feet of a major or minor thoroughfare if the collector street passes through an area with residential uses; or
    - within 1000 feet of a major or minor collector if the collector street passes through an area with non-residential uses.
- The Committee voted 5 - 4 (Dr. Grant did vote on this issue) to recommend the following location requirement for large places of worship:
  - Large places of worship may locate in residential districts only if located on a major thoroughfare.

(Rev. Bill Clark called after the report was distributed and said that he thought he was voting opposite of the way he actually voted. Therefore, the majority of the Committee (4-5) voted against large places of worship locating in residential districts only if located on a major thoroughfare.)

- The Committee unanimously (Dr. Grant abstained from voting) recommends that large places of worship be treated as a conditional use in residential districts. The following development standards are recommended for large places of worship located in residential districts:
  - Minimum lot area shall be four (4) acres;
  - Minimum setbacks shall be as follows:
    - Front - 50 feet
    - Side - 50 feet
    - Rear - 50 feet
    - All active recreation areas shall be setback at least 30 ft from property lines
    - If a publicly maintained street is located between the place of worship and adjacent residential uses, the side and rear setbacks may be reduced by ½;
  - Parking shall not be located in front of the building(s) (between the street and the buildings) and shall not be located any closer than 30 feet to any property line. In addition, parking areas shall be buffered with a minimum of a "B" buffer as described in Sec, 7-11-2 of the UDO (20 ft wide buffer with mixture of trees and shrubs). The buffer shall incorporate a wall, landscaped berm, or shrubs with a minimum height of 30 inches. If a landscaped berm is used, the berm shall be completely covered with landscaping within 24 months of the issuance of the Certificate of Completion. If shrubs are used, the shrubs shall form a dense barrier with a minimum height of 30 inches within 24 months of the issuance of the Certificate of Completion.
  - The primary access for the place of worship shall be from a street with a minimum classification of residential collector. Secondary points of access may be located on local residential streets, but shall not exceed one point of access per local residential street and a total of two (2) secondary points of access on all local residential streets.
  - Height of buildings shall not exceed 50 feet, provided that for each one foot in height over 30 feet, the building shall be set back an additional one foot beyond that otherwise required. Steeples, spires, bell towers, etc. shall not be subject to the height limitation.
  - Impervious surfaces shall not exceed 70% of the total lot area.
  - Outdoor lighting standards shall not exceed 16 feet in height. Lights shall be shielded and directed away from residential areas. Lights on buildings for the purpose of illuminating buildings or signs are exempt from the height limitation.

- Enrollment at day care centers which are operated by the place of worship and/or located on the site of the place of worship shall not exceed 100 children unless otherwise approved by City Council as part of the initial approval of the place of worship.
- Offices associated with the place of worship shall not exceed 20% of the total floor area of all buildings on the site.
- Public address systems shall be permitted for special purposes only and shall not be used for continuous broadcast(s).
- No commercial activities shall be permitted.
- No warehousing activities shall be permitted.
- No facilities for vehicle maintenance shall be permitted.
- Parking for vehicles owned and/or used by the place of worship shall be located at the rear of the property and screened with vegetation from adjacent residential uses.
- No grading shall be permitted within 20 feet of any property line, other than for utilities, landscaping, and access points.
- No grading shall occur until site development plans for the place of worship have been approved..

The Committee presents their recommendations to City Council for consideration and action. Should Council determine that amendments to the UDO are appropriate to deal with these recommendations, the recommendations, with appropriate direction, must be provided to the Planning and Zoning Commission for their review and recommendation.

The Planning and Development Department staff recommends that Council forward the recommendations of the Church Committee to the Planning and Zoning Commission with appropriate direction for the development of amendments to the UDO.

Mr. Green said that he received two letters from Committee members after distribution of the report to the Committee members. One letter received on January 5, 1999, from Ms. Betty Garofano reads: "The definition of church is too long, inaccurate, and unfair to those religions which do not choose to feed from the public trough (private, non-profit tax exempt institution). My definition which is simple and inclusive is, 'Place of worship: A building or a structure in which a religious group or sect worships its God or Gods to its beliefs and practices, provided those practices do not conflict with the government's lawful authority to promote public health, safety, and welfare.' This would include the Christian church, Jewish Synagogue, Islamic center and mosque, Hindu and Buddhist temple and Sikh gurdwaras, etc. etc. Conditional use is subjective and has the potential for abuse by empowering those in authority to make exceptions for their favorites and to discriminate against those who do not meet their test. Minority religious are most often the casualties. Also the extra time required of the planners to work with the petitioners would be costly and would not include neighbors. While churches and other religious institutions are thought to contribute to public welfare, they can, if broadly defined, injure a residential neighborhood by creating extra traffic, noise, lights, and litter and by shifting the property tax burden to the other landowners. The use of land and not the nature of the using organization must be the controlling factor in zoning. Precisely defining the terms of a zoning is the best way to avoid litigation." Mr. Green responded to the issues Ms. Garofano raised in her letter.

The other letter received today was from Rev. Jerry Young. Mr. Young's letter reads: "While preparing today's presentation and review for City Council I have found several errors in the report which I would like to formally bring to your attention: (1) I realized that we never formally adopted the rules which would govern our voting. That is, my file is devoid of any guidelines in relation to absentee voting, quorum, etc.; (2) On page one: Development

Standards for Churches, you note that the committee 'unanimously recommends that places of worship be divided into three categories ...' This is incorrect, I was not present to vote on that issue as I was out of the United States on October 30th, when the same was presented; (3) On page one: 'The committee unanimously recommends the following location requirements for small and medium places of worship ...' I remember at least one person abstaining from voting on these. It is also important to note that we dealt with this in 'piece meal format.' It would be difficult to say that we could accurately judge the full effect of the votes; and (4) On page two: 'The committee voted 5 to 4 to recommend the following location requirements for large places of worship ...' I believe you were informed by Bill Clark that he was confused and voted incorrectly and would like to correct his vote. Finally, we were never able to have a final vote with a full copy of the 'report.' Instead we were only mailed a copy and asked to comment. I question the fact that this report represents the committee's 'recommendations' given the fact that there was no vote on the total package to codify the same. Did any other members contact you and request revisions? If so did you make them? I wanted to inform you of these concerns prior to your presentation to City Council. Perhaps the Committee should go back to the table and formally vote on the entire report." Mr. Green responded to the issues raised by Rev. Young.

Mr. Green also said Rev. Clark's phone call relative to his vote was the only other comment received after the committee report was distributed.

At the request of Mayor Sitnick, Mr. Green read the following letter from Brian Peterson, President of the Coalition of Asheville Neighborhoods, which he faxed to her today: I was unable to attend this weeks City Council meeting due to a family vacation and therefore ask the Mayor to read this brief statement to Council before any action is taken on the recommendations of the Church Committee. As a member of the Church Committee appointed by Council to examine the City's zoning regulations concerning churches, I am happy to report that the Church Committee was able to reach a significant compromise proposal. I believe that this compromise is fair to both churches and to neighborhoods. The compromise proposal balances the needs of churches to fulfill their ministries and to have reasonable growth with the needs of neighborhoods to have safe and peaceful residential communities. The compromise does not merely look to address the problems of one church or one neighborhood. The compromise seeks to serve all of our city's religious institutions and residential neighborhoods. Gerald Green and Bob Oast both deserve recognition for their willingness to take a broad view and to offer the Committee helpful information on what other cities have done. Gerald in particular was very patient with the Committee members on this difficult issue. I realize that this proposal is a significant departure from the City's current zoning of churches. Also, I realize that this is a complicated proposal. However, I believe that it is necessary to properly take into account the fundamental changes that have occurred in religious institutions in Asheville and across the country. This proposal will help clarify for church leaders and nearby res-(sic). An integral part of this compromise is the restrictions upon the mega-churches - that is those over 800 seats. These mega-churches are like a Super Wal-Mart. They serve a regional population drawn from all over Buncombe and surrounding counties. They offer a tremendous variety of programs and services to their members and to the larger public. Their multifaceted ministries usually operate seven days a week. Because of their enormous size and impact, these mega-churches should not be located in residential areas. It was my initial position that the mega-churches should not be permitted in residential areas at all. It is a position that I believe most neighborhood leaders share. However, in the spirit of compromise, I agreed to the proposal before you that would allow mega-churches in residential areas but restrict their locations to major thoroughfares. This limitation is a necessary part of the overall compromise that was reached and should be included in any final changes to the UDO."

Mr. Green responded and explained several issues raised by Council, some being, but not limited to: fundraising, recreational facilities, and day care facilities.

Upon inquiry of Vice-Mayor Hay on why Dr. Grant abstained from voting on all matters but one, Mr. Green said that Dr. Grant said that he had not attended enough of the meetings to be fully knowledge about all the issues.

Councilwoman Field felt that perhaps the Committee should reconvene and clarify the one issue relative to the location requirement for large places of worship.

Vice-Mayor Hay agreed with Councilwoman Field in that it seems like there is unanimity on all issues except for that one issue.

Discussion then surrounded a letter received by Mayor Sitnick dated January 18, 1999, from the Carrier Heights Neighborhood Association. Said letter requested that City Council postpone the Technical Review Committee (TRC) meeting scheduled for January 20, 1999, to consider further expansion of the Trinity Baptist Church project until the process of citations/injunctions/revocation of permits on current violations of ordinances by the Church are resolved, and until the proposed amendments to the UDO related to churches are adopted.

City Attorney Oast said that City Council has the right to ask TRC to postpone action on the plan, but he didn't think they would have to do it, because there is some right on behalf of the applicant to insist that they go ahead. He said that if the applicant has requested approval of their building plans pursuant to one set of ordinances and regulations that, without their consent, the City cannot make an after-adopted ordinance or regulation applicable to them. Mr. Green also responded in that the Church's plans have been submitted as required by our ordinance.

Upon inquiry of Mayor Sitnick about if there any citations/injunctions/revocation of permits on current violations of ordinances, City Attorney Oast said that he has just recently received the letter and he would like an opportunity to meet with the Planning & Development Department staff to see where those issues stand.

Mayor Sitnick said that the TRC, when deliberating this particular project, should be informed of the discussion that has taken place today and should be made aware that there are UDO amendment proposals that have not been adopted. Mr. Green assured the Mayor that he would make the TRC members aware of the proposed ordinance and the discussions taken place at this meeting.

Mayor Sitnick noted that there were some postponements already granted in this process. She said that considering the timing of this and it's all happening fairly concurrently, that some consideration be made to the issues pointed out by the neighborhood association. She said a postponement was granted to Trinity Baptist Church representatives when they wanted it and needed it, and she felt that at the very least beyond postponing, that the TRC should be made aware of the fact that these are happening right now.

Mr. David Payne, attorney for Trinity Baptist Church, was concerned that City Council was talking about TRC issues in a Church Committee report presentation.

Mr. Bob McCarthy felt there was a conflict of interest for Councilman Cobb being a voting member on the Church Committee.

Ms. June Lamb reiterated the request for TRC to postpone the Church's project, noting that they have already proceeded to install street lights and paved sidewalks.

Mr. Green responded to several points of clarification raised by Rev. Jimmy Dykes , Pastor of the North Asheville Baptist Church.

Vice-Mayor Hay moved to (1) refer the Church Committee's report to the Planning & Zoning Commission for their review and recommendation to the City Council, and (2) request that the Church Committee reconvene to clarify the issue relative to the location requirement for large places of worship, with said clarification given to the Planning & Zoning Commission when the matter is discussed by the Commission. This motion was seconded by Councilman Cloninger and carried unanimously.

Mayor Sitnick requested that the TRC, when deliberating this particular project, be informed of the discussion that has taken place today and should be made aware that there are UDO amendment proposals that have not been adopted.

At 4:50 p.m., Mayor Sitnick announced a short break.

DISCUSSION OF ALCOHOL SALES AT BELE CHERE

Mr. Irby Brinson, Director of Parks & Recreation, said that the Bele Chere Alcohol Task Force has been meeting for several months to make a recommendation to City Council regarding the sale of alcohol at the Festival.

In January, 1997, a five-year strategic plan for the Bele Chere Festival was approved by City Council. One goal of that plan was to empower the Alcohol Task Force to resolve the issues surrounding the selling and consumption of alcohol throughout the Festival. The Task Force has met consistently since 1997 to resolve the Festival's alcohol concerns. The Task Force is made up of members from downtown merchants, a representative from both the Asheville Police Department and Alcohol Law Enforcement, Councilman Sellers, City Attorney, Festival staff and Bele Chere Board Members. Since 1997, significant improvements have been made in regard to alcohol sales and consumption which have resulted in major improvements to the festival. These include reduction of arrests by 60%, merchants selling responsibly and self-policing their operations, a stricter accountability system with mandatory alcohol training, use of wristbands to curtail under age drinking in the Festival, and exceeding the requirements of State law in regard to rules and regulations.

The Task Force has developed three options in regard to alcohol sales and consumption at future Bele Chere Festivals. These options are included in the staff report and will be discussed in length during the work session.

Mr. Tim Richards, Chair of the 1999 Bele Chere Festival, said that on January 11, 1997, a five-year strategic plan for Bele Chere was approved by City Council. One goal of this plan was to empower an Alcohol Task Force to "resolve the issues surrounding the selling and consumption of alcohol at the festival." The objectives of the Task Force were to minimize liability and maximize control and accountability for the city, to improve the public's perception, and to facilitate a phased transition of beer sales from the City to sales by a more appropriate organization. This Task Force has met consistently since 1997 to resolve the festival's alcohol concerns.

Not only has the Task Force implemented many changes suggested in the Strategic Plan, they have also created new policies and procedures to improve the alcohol environment at the festival.

The Task Force has followed the objectives outlined in the Strategic Plan of a phased transition of the city from the sale of alcohol:

- In 1997, the number of city-operated booths was reduced from thirteen to nine.
- In 1998, the number of booths was further reduced to six.

Accomplishments since the Task Force's inception:

- In the first year of the Task Force, arrests decreased by 60%.
- On the whole, merchants are now selling responsibly; self-policing has resulted in better sales procedures.
- The accountability system and mandatory training for alcohol servers for the Bele Chere booths have dramatically improved.
- The merchant/City relationship has strengthened.
- Wristbands helped curtail underage drinking.
- The festival has exceeded the requirements of state law in certain aspects in order to be as vigilant as possible. The festival adopted the position to check the ID of every person, every time, and requires that all servers be 21.

It should also be noted that throughout the twenty year history of Bele Chere only three claims have been made against the City, and none of those was alcohol-related. The City was found not to be negligent in all three cases.

The Alcohol Task Force is invested in continuing with the plans they have implemented in order to fine-tune alcohol policies and procedures that benefit downtown, the festival, and especially the community at large. The Task Force is cognizant of the survey done at the 1998 festival by ProGen Research that found that 76% of festival attendees support the sale of alcohol. Their goal is to keep the festival financially viable, while allowing the downtown merchants a greater share of alcohol sales. Festival staff, with the help of the Task Force, has researched alternate sources of revenue to replace alcohol sales and sponsorships. In two years, no feasible alternatives have been found to replace the 30% of gross festival revenue generated.

The following are three different alternatives for City Council to consider.

OPTION 1 - **Continuation of the Alcohol Task Force's Plan as set forth in the Strategic Plan**

The Alcohol Task Force proposes that a non-profit organization take responsibility for beer and wine sales at Bele Chere. The Merchants Action Coalition (MAC), a registered non-profit organization, has been approached to be this group and is considering it with acceptance pending a full membership vote. The selected non-profit group would hold all alcohol permits and staff the six booths at the festival with well trained volunteers, thus removing the city from the sale of alcohol. (Please note: it may be necessary to contact other experienced non-profit groups for the first year in the event that a single group cannot provide adequate staffing.) The organization would pay the city a percentage of the profits (to be determined later), defined as gross sales less all costs minus any shortages. The exact details of this arrangement will be mutually agreed upon by the City and the approved non-profit organization.

The advantages to Option 1 include: Effectively allows the City to be out of the alcohol business; Retains most of the control over procedures and consumption; Minimizes the loss in the $23 million economic impact to the Asheville community; Minimizes lost revenue and keeps the festival financially stable since alcohol sales and sponsorship represent 30% of gross revenue; Reduces risk of lost attendance; The financial stability of this plan maintains a quality festival; Allows MAC and staff to work together, fostering a cooperative spirit; Retain alcoholic beverage sponsors currently committed to $38,000 in 1999; Eliminates the risk of alienating festival sponsors; and trained and experienced supervisors in each booth.

258

Disadvantages to Option 1 include: City may retain some level of liability for alcohol; The City loses some control at point of sale compared to 1998; City could potentially be seen as still selling alcohol; and continued overtime costs for Police Department.

OPTION 2 - Alcohol-free Sunday

The Alcohol Task Force has developed additional measures to further limit the consumption of alcohol. The basic recommendation of a non-profit organization staffing the beer booths is still in place, but is further enhanced. This plan establishes Sunday as an alcohol-free day of the festival and allows any persons not wanting to be exposed to alcohol sales on the street to be able to enjoy all aspects of the festival.

The advantages to Option 2 include: User-friendly to all constituents of the community; Those preferring an alcohol-free event can attend on Sunday; Increased "family" appeal; Further reduces the level of alcohol consumption; Possible lower level of police presence required on Sunday in future years, reducing costs; Possible increase in attendance by those who avoid it due to alcohol; and Sunday attendees who wish to consume alcohol can do so inside a licensed downtown establishment further enhancing merchant sales.

Disadvantages to Option 2 include: Challenge of effectively communicating this change to the public; Possible reduction in alcohol-related sponsorships; Loss of some sales revenue; and arrests will increase on Sunday.

It was noted that all advantages and disadvantages from Option 1 continue to apply to Option 2.

OPTION 3 - Alcohol-free Bele Chere

The third possibility is to completely prohibit all alcohol on the streets during Bele Chere.

The advantages to Option 3 include: City out of the alcohol business; Festival seen as more "family" oriented; Possible increase in non-alcoholic drink sales; Substantially reduce the City's level of liability; and possible reduced police presence required in future years.

Disadvantages to Option 3 include: Loss of all control over alcohol consumption; Likely increase in hard liquor consumption (easier to conceal), glass bottles, off-site consumption, and binge drinking; Overcrowding likely at downtown establishments serving alcohol with possible fire marshal concerns and public safety problems resulting; Increased arrests; Risk of decreasing the $23 million economic impact to the Asheville community; An immediate loss of $149,000 in revenue necessitating the downsizing of the event and reduction in the quality of entertainment and other programming offered; Possible decreased attendance. According to 1998 survey, 76% of current attendees support alcohol sales; Jeopardizes ability to meet festival Mission Statement; Jeopardizes the ability to meet Goal One of the Strategic Plan: to develop financial stability and to become self-sustaining; Jeopardizes ability to meet twenty objectives specified in the strategic plan; Likely loss or reduction in many other sponsors concerned about the consequences of this change; Loss of all alcohol-based sponsors; Loss of revenue by downtown merchants from loss of "to go" sales; Challenge of effectively communicating this change to the public; Inability to accomplish many needed festival improvements; Possible reduced police presence may increase perception of unsafe environment; Increased overtime for fire department; and full ramifications of changes not felt until Bele Chere 2000.

After careful consideration of all information and possible advantages and disadvantages, the Alcohol Task Force recommends Option 1 as the best course of action available. This recommendation allows an approved non-profit organization to be responsible for the alcoholic beverage sales, therefore alleviating the City from direct alcohol sales.

City Council discussed the three options, noting that we would lose 15% of our beer sales revenues if Council proceeds with Option 2. However, other ways to recoup that loss were also discussed.

A representative from Max's Deli briefed Council on their history with Bele Chere and supported the Task Force's recommendation.

Councilman Sellers said that he is totally in support of Option 3, but in the spirit of compromise, he would support Option 2. He said that he would like to revisit this issue in one year.

After discussion, City Council felt that Option 2, which includes all the advantages and disadvantages from Option 1 would be best for the City of Asheville at this time.

Councilwoman Field suggested that Sunday be set aside as the day for all local performers.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

RESOLUTION NO. 99-14 - RESOLUTION AUTHORIZING THE CITY MANAGER TO NEGOTIATE A LEASE FOR CITY PROPERTY ON AMBOY ROAD

Councilman Cloninger said that his firm represents Mr. Young on an on-going basis, but they have not done any legal work in connection with this work. Therefore, Councilwoman Field moved to excuse Councilman Cloninger from voting due to a conflict of interest. This motion was seconded by Councilman Sellers and carried unanimously.

City Attorney Oast said that this is the consideration of a resolution to authorize the City Manager to negotiate a lease for a portion of the Amboy Road property for use as a speedway ("Subject property").

Pursuant to the direction from City Council at your November 24, 1998, meeting, a Lease Agreement was drafted incorporating the basic terms that Council reviewed and approved at that meeting. The City received three inquires about leasing the Subject Property for 1999, and furnished a copy of the draft lease to each person who requested one. Some changes were made to the draft, and those changes were also supplied to the interested parties. Meetings were arranged with each of the three parties, but one party pulled out prior to the meeting, and only two meetings were held. One group that was interviewed included John Huffman, the South Carolina businessman who owns the Hickory Motor Speedway (HMS) ; the other group (Carolina Motorsports) included Danny Jones, who is seeking to develop a speedway in Henderson County.

On January 12, 1999, Carolina Motor Sports withdrew from further negotiations, and Council authorized negotiations to be reopened with John Huffman. We have reached a tentative agreement for $75,000 for the season, and some details remain to be worked out between the City and HMS. The remaining major terms and conditions of the Lease are essentially unchanged from previous versions. The parties who hold the restrictions and the easement still need to agree to the proposed use, but we are working with them. Their approval is a stated contingency in the Lease and the resolution.

Accordingly, the City's staff recommends that the City accept the proposal made by HMS, LLC, represented by John Huffman for leasing the Subject Property for 1999, and that it authorize the City Manager to negotiate and sign the lease in substantial conformity with the draft lease, and for a rent of $75,000. This approval is subject to appropriate permissions being obtained, and some other details being addressed.

If City Council agrees with staff's recommendations, Council should adopt the resolution.

Councilman Sellers moved to waive the rules and proceed with taking formal action on this matter. This motion was seconded by Councilwoman Field and carried unanimously.

Councilman Sellers moved for the adoption of Resolution No. 99-14. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 123

OVERVIEW OF IMPACT FEES

Mr. S. Douglas Spell, Assistant City Manager, said that as requested by City Council, staff is providing an overview on the topic of impact fees.

Impact fees provide a method of shifting all or a portion of the financial burden for new or expanded facilities away from the community at large to the direct user. The aim of impact fees is to require new development to account for its fiscal impact on the community by contributing its proportionate share of the cost of new or expanded facilities.

Impact fees are single payments required to be made by builders or developers at the time of development. The fee is calculated based upon a proportionate share of the capital cost of providing major facilities. This one-time payment based upon "impact" differentiates the fee from a tax.

Types of Impact Fees: Impact fees have been assessed for a variety of public purposes. The most common use of impact fees is for water and sanitary sewer facilities. The next most common purpose is for street and highways. The list of other purposes also include parks, libraries, police and fire facilities, hospitals, schools, solid waste facilities, and cemeteries.

In most cases, the impact fee is paid directly up front as a part of the development cost. For example a new subdivision may be charged the fee based upon the number of dwelling units for such purposes as utilities or streets. In some cases, the developer may be allowed to dedicate right of way for thoroughfare improvements or real estate for park land development to offset the actual fee imposed for the development.

Legal Requirements: Impact fees have been explicitly authorized by only a few states since the 1980's. Based on my research, the states that have authorized such impact fees consist of Arizona, California, Georgia, Illinois, Maine, Maryland, North Carolina, Tennessee, Texas, Vermont, West Virginia, and Washington.

North Carolina, as well as several of the other aforementioned states, have only authorized impact fees for some local governments. Therefore, cities in North Carolina must obtain enabling legislation in order to assess an impact fee for a specific purpose.

The legal rationale for impact fees is referred to as *rational nexus.* In order to be legally and constitutionally valid, there must be a rational nexus between the fee charged and the purpose for which it is assessed. The rational nexus test involves several issues. First, there must be clear legal authority to impose the fee. In North Carolina, as noted above, this authority takes the form of local legislation. Next, the relationship between the fee and its stated purpose must be established. That is, the fee must be reasonable in amount and it must be intended for use in a way that advances or promotes its stated objective. Third, the fee must actually be used for expenditure in a manner and time that specifically promotes the stated objective. The objectives or purpose for which impact fees are collected should be identified on the comprehensive plan or the capital improvements plans and should generally be expended within three to five years of collection.

Impact Fees in Asheville: Development in the City of Asheville is currently imposed an impact fee for water and sanitary sewer service. North Carolina General Statutes provide specific legal authority for an "Authority" or "District" to adopt and assess impact fees.

The Regional Water Authority began charging an impact fee effective January 1, 1989 and the fee is referred to as a "Development Fee". The fee amount is based upon the type of user (e.g. residential, commercial, industrial, etc.) and the size of the facility for non-residential uses. The Development Fee is based on meter size and therefore for a typical single family residence the fee amount would be $200.00.

He reviewed Attachment #1 which was a copy of the fee schedule for the Regional Water Authority outlining the development fee for all uses. I would also note that this fee amount was increased effective July 1, 1998, by doubling the prior amount. The revenue collected as a result of this fee is used as a funding source in the Water Fund.

The Metropolitan Sewerage District of Buncombe County (MSD) charges new development a "Facility Fee". As with the Development Fee charged by the Regional Water Authority, the MSD Facility Fee is based upon the type of use of the proposed development. The Facility Fee for an average residence with 1400 to 3000 square feet is $750.00.

He then described Attachment #2 which is the "Facility Fee Computation" provided to customers by MSD. The revenue collected by MSD from Facility Fees is earmarked for providing or upgrading sanitary sewer services. The last revision to the fee schedule was effective July 1, 1997.

He noted that both the Regional Water Authority and MSD allow a fee reduction for "affordable housing". In such instances, a governmental agency must provide certification that the residential unit is part of a program of affordable housing. The Regional Water Authority reduces the Development Fee and other water connection charges by 50% and MSD reduces their facility fee to $300.00.

Fees Charged by Other Cities: In North Carolina, 22 cities and three counties have received legislative authority to assess impact fees. This authority was granted to those local governments by the General Assembly between the years of 1985 and 1991. He reviewed Attachment # 3 which provides an overview of these cities, the type of fees charged, and the fee amount. Based on the information on this attachment, the total impact fees for cities in North Carolina range from $805 to $4,739 for residential development.

He also reviewed Attachment #4 which is a listing of "National Averages of Impact Fees By Type" from the "Growth Management Studies Newsletter" comparing fees in 1988 and 1991. The averages are listed by fee type and provide a range of "low," "average," and "high".

Process to Adopt an Impact Fee: Previously in this report, reference is made to the *rational nexus test*. In consideration of this, the following steps should be taken by a local government prior to assessing an impact fee:

1) Identify the specific purpose for which impact fee revenues are intended to be used, and the type, or basis, of the fee;

2) Request and obtain legal authority (local legislation) from the General Assembly enabling the governmental unit to charge the specific impact fee;

3) Utilize the Master Plan to determine the proportionate share of each element (water, sewer, parks, etc.) intended to be paid for from impact fees;

4) Establish the timing for expenditure of impact fee revenue, and identify the specific purpose or facilities for which the funds will be expended;

5) Adopt ordinances or policies, as appropriate, establishing the impact fee amount, and the procedure for collection, accounting, reporting and expenditure of revenue collected from the impact fee.

Other Issues: As a part of the consideration of impact fees, a jurisdiction should be aware of various issues surrounding the assessment of impact fees. The primary argument presented pertains to the increased costs to the home buyer and the effect on affordable housing. He then reviewed Attachment #5 which is information provided by the N.C. Home Builders Association which consists of items of consideration regarding impact fees.

This report is being provided to City Council as an overview on the topic of impact fees.

Mayor Sitnick said that she preferred to call these fees "participation fees." She felt that there are some things that the City should consider as the price of doing business in the City when a development is going to levy a cost to the members of the community. She said that she asked for this information in order for City Council to evaluate it and consider it as something they might want to look into as time goes by.

REPORTS ON BOARDS/COMMISSIONS

Vice-Mayor Hay announced the Annual Board/Commission luncheon will be held on March 2, 1999, at Noon at the Asheville Civic Center.

SUPPORT OF THE STUDY OF THE BASF SITE FOR FUTURE ECONOMIC DEVELOPMENT

City Manager Westbrook said that Carolina Power and Light (CP&L) and BASF have entered into an agreement which gives CP&L the exclusive right to evaluate and assess the BASF property for possible future economic development. One of the critical elements in economic development for the City of Asheville is identifying potential sites for quality economic development. The study by CP&L could possibly identify the BASF site as a strong economic development candidate and, thus, enhance Asheville's ability to attract quality economic development. The City, therefore, should endorse and cooperate with CP&L in its endeavor to perform this study.

After the City Council adopts the resolution, City staff will work with CP&L and others to provide any information we have concerning the BASF site. The City and CP&L feel this is a team effort which also includes the County and the Chamber of Commerce.

Staff recommends that City Council adopt the resolution supporting the study of the BASF site for future economic development potential.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CLOSED SESSION

At 6:12 p.m., Councilman Cloninger moved to go into closed session to consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - statutory authorization is G.S. 143-318.11 (a) (6). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:00 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:00 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - January 26,1999 - 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Edward C. Hay Jr., Presiding; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Leni Sitnick (National Conference of Mayors in Washington, D.C.)

INVOCATION

Vice-Mayor Hay gave the invocation.

ADDITION TO AGENDA

Vice-Mayor Hay asked that the City Council retreat agenda beginning on Friday, January 29, 1999, be discussed under Other Business.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING 1999 AS "THE YEAR OF THE OLDER PERSONS"

Councilman Cobb read the proclamation proclaiming 1999 as "The Year of the Older Persons" in the City of Asheville. He presented a proclamation to Mr. Willie Jones, Senior Volunteer of the Year, and Ms. Emma Williams, President of the Senior Opportunity Center Seniors Advisory Board.

Ms. Williams said that she would present Ms. Roberta Anderson, President, NC Association of Senior Citizens Clubs - District IX and Ms. Betty Moody, President of the Harvest House Senior Advisory Board, with a copy of the proclamation as well.

II. CONSENT:

A. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 9, 1999, TO CONSIDER AMENDMENTS TO THE CITY OF ASHEVILLE PERSONNEL POLICY

B. RESOLUTION NO. 99-15 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICE CONTRACT WITH OFFICE ENVIRONMENTS OF ASHEVILLE INC. TO RELOCATE AND REFURBISH EXISTING FURNITURE FOR THE MUNICIPAL BUILDING

Summary: The consideration of a resolution authorizing the City Manager to enter into a service contract with Office Environments of Asheville Inc. to relocate and refurbish existing furniture to be used at the Municipal Building, when renovations are complete.

In an effort to reduce costs for new furniture in the Municipal Building, when renovations are complete, City staff will be using refurbished existing furniture as much as possible. City staff solicited sealed bids from 18 furniture contractors, 3 of which were minority contractors, for relocation and refurbishing of 585 pieces of existing furniture currently being used by City staff throughout the City. Only one bid from Office Environments of Asheville, in the amount of $37,100 was received.

Approved funding is available in the Municipal Building construction account to pay for the relocation and refurbishing of existing furniture, designated for use in the Municipal Building.

The Parks and Recreation Department requests City Council authorize the City Manager to enter into a service contract with Office Environments of Asheville Inc., in the amount of $37,100, to relocate and refurbish existing furniture to be used at the Municipal Building, when renovations are complete.

RESOLUTION BOOK NO. 25 - PAGE 124

C. ORDINANCE NO. 2538 - BUDGET AMENDMENT FOR THE COMMUNITY IMAGE PROJECT

Summary: Private funding to carryout the Community Image Survey Project has been identified and a request that the City act as fiscal agent on behalf of the Metropolitan Planning Organization for the project will need City Council approval.

An overview of the Community Image Survey Project was presented to City Council at their February 17, 1998, meeting. Since that time, private funding of $55,000 has been identified and should be adequate to carry out the project. The Metropolitan Planning Organization can sponsor the project, however, since they are not a fiscal entity, the City will need to act as fiscal agent for the project and provide limited staff support as such. If City Council desires that the City participate in the project by being the fiscal agent, a project budget ordinance will be prepared and presented to City Council for adoption.

Upon City Council concurrence to act as fiscal agent, City staff recommends City Council adopt a budget for the Community Image Project, in the amount of $55,000, with the funding provided by private sources.

ORDINANCE BOOK NO. 17 - PAGE 245

D. RESOLUTION NO. 99-16 - RESOLUTION AWARDING BIDS FOR NEW FURNITURE FOR THE MUNICIPAL BUILDING

Summary: The consideration of a resolution to award Bid Request No. 488-99 for the purchase of new office furniture for the Municipal Building.

Pursuant to N. C. Gen. Stat. sec. 143-129 and in compliance with the City's Minority Business Plan, sealed bids were received to furnish and install miscellaneous office furniture, as described in Section A through G of the bid documents, in the Municipal Building. Seven bids were received. Bids have been reviewed for technical compliance to specifications by Lyle Willis, Project Coordinator and his concurrence was received in the following recommendations.

Funds for these purchases have been budgeted in Account No. 666-4680-461.70-04.

Subject to Council's approval, it is recommended that awards be made for the furniture proposed by the low bidder of each section as follows:

Section A - Metal Bookcases, Shelving - award to the low bidder, Interior Systems, West End, N. C., in the amount of $14,469.00.
Section B - Metal Casegoods, Desk, Credenza - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $26,627.63.

Section C - Wood Casegoods - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $9,672.55.
Section D - Wood Bookcases - award to the low bidder, Mac Thrift Office Furniture, Winston-Salem, N. C., in the amount of $3,146.86.
Section E - Panels System - award to the low bidder, Corporate Express, Greenville, S. C., in the amount of $41,553.36.
Section F - Metal Seating - award to the low bidder, Hoyle Office Supply, Arden, N. C., in the amount of $40,324.96.
Section G - Wood Seating - award to the low bidder, Office Environments, Asheville, N. C., in the amount of $11,596.00.
Grand total of all awards as recommended $147,390.36.

RESOLUTION BOOK NO. 25 - PAGE 126

E. RESOLUTION NO. 99-17- RESOLUTION ADOPTING THE 1999 CITY COUNCIL MEETING SCHEDULE

The following schedule of the meetings of the Asheville City Council for 1999 be, and the same is, hereby established as follows: (1) City Council Worksessions - 3:00 p.m. - 1st and 3rd Tuesdays of each month - 1st Floor North Conference Room - City Hall Building, Asheville, N.C.; and (2) City Council Formal Meetings - 5:00 p.m. - 2nd and 4th Tuesdays of each month - Council Chamber - 2nd Floor - City Hall Building, Asheville, N.C.

RESOLUTION BOOK NO. 25 - PAGE 131

F. RESOLUTION NO. 99-18 - RESOLUTION IN SUPPORT OF THE STUDY OF THE BASF SITE FOR FUTURE ECONOMIC DEVELOPMENT POTENTIAL

Summary: Carolina Power and Light (CP&L) and BASF have entered into an agreement which gives CP&L the exclusive right to evaluate and assess the BASF property for possible future economic development. One of the critical elements in economic development for the City of Asheville is identifying potential sites for quality economic development. The study by CP&L could possibly identify the BASF site as a strong economic development candidate and, thus, enhance Asheville's ability to attract quality economic development. The City, therefore, should endorse and cooperate with CP&L in its endeavor to perform this study.

After the City Council adopts the resolution, City staff will work with CP&L and others to provide any information we have concerning the BASF site. The City and CP&L feel this is a team effort which also includes the County and the Chamber of Commerce.

RESOLUTION BOOK NO. 25 - PAGE 132

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Tomes moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO CREATE AN OFFICE II ZONING DISTRICT

ORDINANCE NO. 2539 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO CREATE AN OFFICE II ZONING DISTRICT

Vice-Mayor Hay opened the public hearing at 5:05 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Senior Planner Gerald Green said that this is the consideration of an ordinance amending the Unified Development Ordinance (UDO) to create an Office II District.

The Asheville Planning and Zoning Commission, at their January 6, 1999, meeting, reviewed and recommended approval of an amendment to the UDO which would create an Office II District. The need for this district was identified during the annual review of the UDO. The proposed Office II District would serve as an intermediate office district between the current Office District and the Office Business District. As proposed, the Office II District would permit a range of office uses similar to those permitted in the Office District. In addition to the office uses, a limited number of related uses are permitted. These include beauty shops and salons, day care centers, and restaurants (with restrictions). Structures within the proposed Office II District may have a footprint of up to 8,000 square feet, with a gross floor area up to 16,000 square feet. The minimum lot size permitted in the proposed district is 10,000 square feet. Single family and multi-family residential uses are permitted at maximum density of 12 units per acre. The Planning and Zoning Commission has tentatively identified locations for the mapping of the Office II District. This matter will be brought to Council at a later date.

Mr. Green said that an omission in the ordinance before Council is an amendment to section 7-16-1 (c) 37. A subsection (d) should be added which reads "Restaurants shall not exceed 4,000 square feet in gross floor area.

The Asheville Planning and Zoning Commission voted 6 to 0 to recommend approval of the wording amendment. The Planning and Development staff recommends approval of the amendment.

Upon inquiry of Councilman Tomes, Mr. Green explained that staff interprets the term accessory apartment to mean that that apartment is not the principle use on that site, but is secondary to some other principle use, whether it's an office, a church or a single-family home on that site.

Mr. Green also explained the definition of assisted living.

Vice-Mayor Hay closed the public hearing at 5:15 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2539. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 247

B. PUBLIC HEARING RELATIVE TO ZONING SECTION 12 OF BILTMORE PARK TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

Mr. Bruce Black, Urban Planner, said that the RS-4 Residential Single-Family Medium Density District zoning, which was requested by the petitioner Mr. Robert Sulasky, would give the developers at 25 foot front setback. A recorded plat was discovered that shows 20 foot front setbacks. Therefore, Mr. Sulasky has requested that he be allowed to withdraw this request and go back through the zoning process to request an RS-8 Residential Single-Family High Density District zoning.

Upon inquiry of Councilwoman Field, City Attorney Oast said that since the petitioner is requesting a more intensive zoning than RS-4 and there is not a problem regarding the timing of the zoning, it was his recommendation that it go through the normal review process of the Planning & Zoning Commission and then back to City Council.

Councilman Sellers moved to withdraw this item from the agenda, pursuant to the petitioner's request. This motion was seconded by Councilman Tomes and carried unanimously.

C. PUBLIC HEARING RELATIVE TO ZONING SECTION 11 OF BILTMORE PARK TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

ORDINANCE NO. 2540 - ORDINANCE ZONING SECTION 11 OF BILTMORE PARK TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT

Vice-Mayor Hay opened the public hearing at 5:16 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of an ordinance to zone Section 11 of Biltmore Park RS-4 Residential Single-Family Medium Density District.

The owner and applicant, Biltmore Farms Inc., has requested the zoning of Section 11 of Biltmore Park Subdivision to RS-4 Residential Single-Family Medium Density District. This section was annexed into the City of Asheville effective December 23, 1998.

The Planning staff reviewed the rezoning request and recommended approval to the Planning and Zoning Commission. At their January 6, 1999, meeting, the Planning & Zoning Commission voted six to zero to recommend approval of the initial zoning of Section 11 of Biltmore Park Subdivision as RS-4 Residential Single-Family Medium Density District.

Vice-Mayor Hay closed the public hearing at 5:21 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2540. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 252

D. PUBLIC HEARING RELATIVE TO REALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS TO NEW HOPE COMMUNITY HEALTH CENTER

ORDINANCE NO. 2541 - BUDGET AMENDMENT TO REALLOCATE $27,000 OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS TO NEW HOPE COMMUNITY HEALTH CENTER

RESOLUTION NO. 99-19 - RESOLUTION AMENDING THE 1998/99 CONSOLIDATED COMMUNITY DEVELOPMENT BLOCK GRANT/HOME PLAN TO PROVIDE FOR A $27,000 GRANT TO NEW HOPE COMMUNITY HEALTH CENTER

Vice-Mayor Hay opened the public hearing at 5:22 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a resolution amending the 1998/99 Consolidated CDBG/HOME Plan to provide for a $27,000 grant to New Hope Community Health Center and adoption of a budget amendment to reallocate surplus Community Development Block Grant (CDBG) funds from the Section 108 Debt Service project to New Hope Community Health Center.

One hundred and sixty-four thousand ($164,000) in CDBG funds was allocated for repayment of Section 108 Loan Program debt in 1998-99. Since that program is only now getting under way, there will be a substantial surplus (about $160,000) in the allocation.

The Housing and Community Development Committee has approved the reallocation of $27,000 of this surplus to New Hope Community Health Center. These funds will be used to support the Social Behavior Modification Plan and Drug Abuse Prevention Plan. The remainder of the surplus Section 108 debt service funds will be reallocated in the spring along with 1999-2000 funds.

New Hope Community Health Center, located at 46 South Market Street, has proposed a two-pronged attack on adverse social conditions in the Eagle/Market Streets area (the Block):

1) Social Behavior Modification Plan
   - Teams of volunteers will hold a nightly dusk to dawn vigil in the area
   - They will be trained in non-confrontational outreach and vigilance
   - Two community coordinators will organize and oversee the vigil
   - Positive activities will be organized (e.g. musical events)
   - The goal will be to decrease current antisocial behaviors (public drinking, drug use, prostitution, littering, loitering, gambling, panhandling, and profanity)
   - Reducing the number of 911 calls from the area will be a key performance measure.

2) Drug Abuse Prevention Plan
   - The Center will contract with a certified substance abuse counselor
   - Community substance abuse advocates will be recruited and trained
   - Substance abuse counseling sessions will be held
   - Case management services will be provided
   - A women's drop-in center will be opened

The proposed $27,000 grant will enable the program to start and operate for at least 6 months.

Since opening in 1994 (full-time in 1998) the New Hope Community Health Center has been a positive force for change on the Block, offering medical and some social services in a non-traditional, client-friendly setting. The proposed programs will enable the Center to reach out to some of the most disadvantaged and despairing people in our community. If successful, these programs may achieve lasting social changes on the Block, paving the way for economic regeneration.

Staff recommends City Council hold a public hearing to consider the reallocation of surplus CDBG funds.

Ms. Bonnie Love, Project Coordinator of New Home Community Health Center, spoke in support of the appropriation and talked about the many activities they have planned for their project. She also described the training for the volunteers and their productive goals for the programs.

Vice-Mayor Hay Councilwoman Field and Councilman Tomes all spoke in support of these projects.

Mr. Randall Richardson, Executive Director of New Hope, loaned through the Executive Loan Program at Mission-St. Joseph's Health Care System, said that he was excited about this opportunity to participate not only in the CDBG initiative, but in other initiatives as well.

Vice-Mayor Hay closed the public hearing at 5:40 p.m.

Vice-Mayor Hay said that members of Council have previously received a copy of the ordinance and the resolution and they would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-19. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 133

Councilman Tomes moved for the adoption of Ordinance No. 2541. This motion was seconded by Councilwoman Field and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 254

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. MOTION TO ALLOW AN APPROVED NON-PROFIT ORGANIZATION TO BE RESPONSIBLE FOR THE ALCOHOL BEVERAGE SALES AT THE BELE CHERE FESTIVAL, ESTABLISH SUNDAY AS AN ALCOHOL-FREE DAY AT THE FESTIVAL, AND A REVIEW OF THE OPTION 2 POLICY CHANGE BE INCLUDED IN THE ANNUAL REPORT ON FESTIVALS

Mr. Irby Brinson, Director of Parks & Recreation, said that in January, 1997, a five-year strategic plan for the Bele Chere Festival was approved by City Council. One goal of that plan was to empower the Alcohol Task Force to resolve the issues surrounding the selling and consumption of alcohol throughout the Festival. The Task Force has met consistently since 1997 to resolve the Festival's alcohol concerns. The Task Force is made up of members from downtown merchants, a representative from both the Asheville Police Department and Alcohol

271

Law Enforcement, Councilman Sellers, City Attorney, Festival staff and Bele Chere Board Members. Since 1997, significant improvements have been made in regard to alcohol sales and consumption which have resulted in major improvements to the festival. These include reduction of arrests by 60%, merchants selling responsibly and self-policing their operations, a stricter accountability system with mandatory alcohol training, use of wristbands to curtail under age drinking in the Festival, and exceeding the requirements of State law in regard to rules and regulations.

The Task Force has developed three options in regard to alcohol sales and consumption at future Bele Chere Festivals. These options were reviewed in depth at the January 19, 1999, City Council worksession, along with the advantages and disadvantages which were developed during the meetings of the Task Force. Based upon discussion with City Council on January 19, 1999, the Alcohol Task Force is recommending that Option 2 be approved that would allow an approved non-profit organization to be responsible for the alcoholic beverage sales along with the establishment of Sunday as an alcohol-free day at the festival.

Councilwoman Field asked about what impact this might have on the Asheville Downtown Association ("ADA") since they have been holding the alcohol permit for the City in the past. Mr. Brinson said that even though the ADA has held the permit, they were reluctant to do that because of the liability concerns. Mr. Brinson did say that the details still need to be worked out on what non-profit organization would be responsible for the beer and wine sales at Bele Chere.

Mr. Keith Thompson, owner of a downtown business, suggested that in the future we look to re-direct some of this economic development from downtown into other areas of the City like Haywood Road or the River area.

Councilwoman Field personally preferred Option 1, however, would be willing to support Option 2 as the compromise. She did, however, want to see some strong follow-up to find out what kind of impact this is having on the festival and how people are responding to it. She also suggested keeping the Bele Chere Festival the same for at least 2 years for consistency.

Councilman Cobb felt that Option 2 was a good compromise.

Councilman Sellers felt that Option 2 will be a good test to see how the alcohol fee day works. He asked that this issue be re-visited after this year's festival in order to try to get a handle on the effect of Option 2.

Upon inquiry of Vice-Mayor Hay, Mr. Brinson said that as part of the Strategic Plan, they report back to City Council annually on the festivals. He said that as part of the annual report, he would include not only the financial impact of Option 2, but the attendance and the programmatic side information as well.

Upon inquiry of Mr. H.K. Edgerton, Mr. Brinson said that this has no affect on the Goombay Festival.

Councilman Sellers moved to allow an approved non-profit organization to be responsible for the alcoholic beverage sales at the Bele Chere Festival, establish Sunday as an alcohol-free day at the Festival, and a review of the Option 2 policy change be included in the annual report on festivals. This motion was seconded by Councilman Cloninger and carried unanimously.

Councilman Cloninger thanked the Alcohol Task Force for their efforts on this particular issue.

B. RESOLUTION NO. 99-20 - RESOLUTION AWARDING THE SALE OF THE 1999 REFUNDING BONDS

Finance Director Bill Schaefer said that this is the consideration of a resolution which confirms the sale of the City's refunding bonds to Wachovia Capital Markets, Inc., establishes the interest rates for said bonds and provides direction to the Finance Director regarding disposition of the proceeds of the sale.

At the City's request, the Local Government Commission solicited bids for $17,170,000 of City of Asheville General Obligation Refunding Bonds, Series 1999; the proceeds of which will be used to pay cost of issuance of the Refunding Bonds and to refund:

$2,600,000 General Obligation Street and Sidewalk Bonds, Series 1986;
$1,950,000 General Obligation Street and Sidewalk Bonds, Series 1990;
$8,800,000 General Obligation Water Bonds, Series 1992; and
$2,425,000 General Obligation Water Bonds, Series 1994.

Five bids were received. Wachovia Capital Markets, Inc. submitted the lowest bid which produced a true interest cost of only 4.013998%. The resulting savings to the City from the refunding totals $914,000 over the life of the bonds. Savings during the remaining five months of this fiscal year will be $26,781 and savings each year thereafter, until the bonds' final maturity in 2012, will range from $66,230 to $70,030. The present value of those savings is $818,151.

The proposed resolution establishes the interest rate for each maturity of the bonds (the interest rate corresponds to that offered in Wachovia's bid); awards the bonds to Wachovia Capital Markets, Inc. and provides direction to the Finance Director regarding disposition of the proceeds of the sale.

City staff recommends City Council adopt the proposed resolution.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-20. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 134

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 12, 1999, AND THE WORKSESSION HELD ON JANUARY 19, 1999

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on January 12, 1999, and the worksession held on January 19, 1999. This motion was seconded by Councilwoman Field and carried unanimously.

B. CITY COUNCIL 1999 RETREAT SCHEDULE

Vice-Mayor Hay said that Mayor Sitnick had requested that the economic development discussion and the annexation study discussion be rescheduled to Saturday, January 30, instead of Friday, January 29, in order that she may participate in the discussions. Vice-Mayor Hay noted that the Mayor would not be back from her trip from Washington, D.C., until Saturday morning.

City Manager Westbrook said that the economic development discussion would pose no problem to reschedule since staff was making that presentation. However, he asked for Council's guidance relative to the annexation study discussion since the consultants who would be making the report are not available to come to the retreat on Saturday.

Councilman Cobb suggested moving the annexation study discussion to a worksession. City Manager Westbrook said that the two hours scheduled on this topic could be handled at a short worksession agenda, however, staff needs direction from City Council soon on this particular issue.

Councilwoman Field said that since Mayor Sitnick is pretty up-to-speed on this issue, perhaps that topic could remain on Friday and the City Manager or the consultant brief her. She also suggested that the discussion be recorded.

Vice-Mayor Hay said that the purpose of the retreat is goal and priority setting for the upcoming year and if we don't take into account what we may or may not do about annexation, he was not sure Council could set goals in other areas.

It was the consensus of City Council to reschedule the Civil Service Law topic to Friday instead of Saturday and in it's place on Saturday, hear the economic development topic. It was also the consensus of Council to keep the annexation study discussion on Friday.

C. CLAIMS

The following claims were received by the City of Asheville during the weeks of December 8, 1998 - January 14, 1999: Elizabeth Douglass (Water), John Leslie (Water), Dan Fiore (Water), Stroupe Sheet Metal (Streets), Phillip D. Stover (Water) and Mike Evolga (Police).

The following claims were received by the City of Asheville during the weeks of December 15, 1998 - January 21, 1999: Pauline Hessler (Water), Jeanette Turner (Water), BellSouth (Water), BellSouth (Water) and Elbert Taylor (Finance).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

A. RETREAT

Upon inquiry of Mr. H.K. Edgerton, Vice-Mayor Hay said that the retreat is for City Council to work together and there will be no opportunity for public input. He did note that the public is invited and encouraged to attend and observe.

Mr. Edgerton asked if the Rule of 3 would be part of the Civil Service Law discussion. City Manager Westbrook said that in the context of the staff's discussion, it would be discussed in general as a problem that we see from the staff's standpoint. Mr. Edgerton urged City Council to consider the Rule of 3 since it does not allow ethnic minorities to advance in City government, especially as it relates to employment in the Asheville Police Department.

Mr. John Hayes also urged City Council to seriously review the Civil Service Rule of 3.

274

VIII. ADJOURNMENT:

Vice-Mayor Hay adjourned the meeting at 6:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

City Council Annual Retreat
Friday - January 29, 1999 - 1:00 p.m. -
Sunday, January 31, 1999 - 10:30 a.m.
Highland Lake Inn, Flat Rock, N.C.

Mayor Leni Sitnick, Presiding (Mayor Sitnick was unable to attend the retreat on January 29 due to the U.S. Conference of Mayor's meeting in Washington, D.C.); Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Friday, January 29, 1999

Annexation Study - Richard Flowe, Consultant from Benchmark Inc., reviewed the fundamentals of annexation, annexation purposes and strategy, net cost of annexation based upon hypothetical residential property values, urban territory surrounding the City including development patterns and public services provided, and setting of goals of objectives for future growth.

It was the consensus of Council to instruct Mr. Flowe to develop a plan on the direction City Council should implement the extension of the municipal boundaries over the next several years. Said plan should consist of (1) cleaning up small service inequities; (2) looking at the economic base diversity; (3) addressing those residential areas that lie immediately outside the City limits that have full infrastructure services; (4) looking at those residential areas that lie immediately outside the City limits that don't have complete urban area infrastructure; and (5) mix and always view future development opportunities. Said plan was requested to come back before City Council after April 1, 1999, with a proposed timeline.

Civil Service Law - City Attorney Bob Oast and Personnel Director Jeff Richardson reviewed with Council (1) a brief history of the Civil Service Commission (2) statutory and case law relative to personnel administration since the adoption of the civil service law; and (3) existing conflicts between the Civil Service Law and federal/state personnel law.

Discussion surrounded the Civil Service Law being amended starting with the inconsistencies with federal and state law. Staff suggested a group of employees be recruited, along with a Council member and a member of the Civil Service Board, to discuss possible amendments, along with discussion of changes only affecting future employees, not current ones. This topic would be discussed further in the goal setting process.

Y2K Report - Finance Director discussed the City of Asheville's Year 2000 Project status. Mayor Sitnick requested the City write a letter to Buncombe County voicing our concern about the County's preparedness for Y2K.

Stormwater Regulations - Phase II - City Engineer Cathy Ball updated City Council on the Phase II Stormwater Regulations. The City of Asheville will be required to comply with these regulations by April 2002. The regulations require the City to develop a stormwater program to include the following minimum measures (1) public education and outreach on stormwater impacts; (2) public involvement/participation; (3) illicit discharge detection and elimination; (4) construction site stormwater runoff control; (5) post-construction stormwater management in new development and redevelopment; and (6) pollution prevention/good housekeeping for municipal operations. She noted that in the 1999-2000 budget she will request $125,000 to have a consultant prepare: (1) a program detailing what must be done to comply with Phase II Stormwater Regulations; (2) information that can be used for the public education/awareness portion of the program; and (3) the application necessary to get a general permit from the Environmental Protection Agency.

Target Based Budgeting - Budget Director Ben Durant explained that under target-based budgeting, each department is given a maximum dollar figure for its budget based upon projected growth in the overall City revenues. As a part of his presentation, it was mentioned that staff was going to work with a policy in which there will be no new major initiatives without new revenues sources. City Council expressed an interest to be more involved in the budget process regarding the vision of the departments.

Minimum Housing Code Issues - Director of Building Safety Terry Summey reviewed with City Council significant dates of the Housing Code Enforcement Program, future Housing Code initiatives, substandard vacant residential structures update, summary of inspections, and the inspections needed based on the Housing Code schedule. He updated Council on the efforts made to increase the number of residential rental properties in the City that are inspected and brought up to the Minimum Housing Code. In addition, he reviewed the efforts to date to address vacant substandard residential structures which negatively impact neighborhoods. In order to reach the City's goals of inspecting all units by July 1, 1999, Mr. Summey outlined the additional assets he would need.

It was the consensus of City Council to refer this report and information to the Housing and Community Development Committee for their recommendation prior to July 1, 1999, in case the Committee's report has budgetary ramifications.

Fire Department Accreditation - Fire Chief John Rukavina updated City Council on the progress of their work in preparation for accreditation through the National Fire Service Accreditation Program. Their goal is to bring an accreditation evaluation team to Asheville in time for the millennium in early 2001.

Saturday, January 30, 1999

MSD Sewer Consolidation Agreement - Assistant City Manager Doug Spell reviewed with City Council the MSD Policy and the MSD Sewer consolidation agreement. The following issues of concern were addressed (1) the financial philosophy of the MSD Board utilizing a "pay as you go" philosophy; (2) the "Fund Balance" amount in the general fund is at $23,653,349 for Fiscal Year 1999; and the policies of the MSD Board do not include provisions for sanitary sewer line extensions beyond those identified in exhibits which are part of the Sewer Consolidation Agreement.

It was the consensus of City Council to direct the City Manager to send a letter to MSD enumerating the City's concerns.

Economic Development - City Manager Westbrook reviewed the background of the City Business and Development Coordinator along with the City Business and Development Commission. With the recent turnover in the City Business and Development Coordinator, he explained why he felt the reporting status for the position should be transferred from the Planning & Development Department to the City Manager's Office. He anticipated this position being filled by April 1999.

Mr. Westbrook then explained the five specific projects which the City has provided funds as part of the economic development incentives. These developments are indicators of the City's initiative to facilitate an economic development program consisting of retention of business, expansion of business, and new business development and attraction.

Mr. Westbrook explained that three request for proposals have been received, which scope of work includes the focus on efforts to assist the City in preparing the Strategic Plan for Economic Development. Staff will present this information to City Council soon and request that a consulting firm be selected and that the City Manager be authorized to enter into a contract with the selected firm. An appropriation will be required by City Council in order to fund the Strategic Plan, with estimates ranging from $60,000 to $162,000. The Community Development Block Grant funds in the amount of $11,000 are available and have previously been allowed for planning activities.

Mayor Sitnick was interested in establishing a task force made up of Council and staff to go out to praise and market Asheville.

Report on Unaccounted for Water - Water Resources Director Tom Frederick explained the many contributing factors that make up for unaccounted water, with water leaks being only one of those factors. He stated that this is a widely misunderstood problem, and the City is trying to correct the misunderstanding by being proactive with the information.

Mayor Sitnick would like to review the rate structure in general, the lack of equity in the City and County governments not paying for water, and the water efficiency program.

It was the consensus of City Council for staff to prepare a press release about unaccounted for water.

Report on the Asheville Transit System - Urban Planner Bruce Black briefed City Council on the background of the Transit Authority, it's employees, equipment, relation to the operating company, relation to the union, funding and budget process. He reviewed the current responsibilities of the Transit Authority along with their current powers. Mr. Black then reviewed the relationship between the City and the Transit Authority. He then reported on the alternative organizational relationships between the City Council and the Asheville transit system. Currently the transit system is managed by the Asheville Transit Authority, with operational responsibility contracted to an operating company. He compared each alternative organizational structure by highlighting the strengths and weaknesses of each form of organization.

The theory in the approach is to define two ends of the spectrum, namely complete control and autonomy to the extent allowed by law by the Asheville Transit Authority, and, at the other end of the spectrum, the complete control of the transit system by the City Council. A third point on the spectrum between these alternatives is the present structure, namely a hybrid system which tends to disperse authority and responsibility to different parties.

After presenting all information, Mr. Black concluded that the organizational structure that presented the clearest alignment of authority, and responsibility while retaining the greatest degree of simplicity and directness and allowing for the greatest oversight was the organizational structure calling for complete control by the City Manager with policy set by the City Council. The next best organizational structure that responds to these criteria is complete control by the Asheville Transit Authority. The least responsive to these criteria is the present hybrid organizational system. He then outlined the advantages and disadvantages of moving the transit system under the City Council.

It was the consensus of City Council to further investigate the possibility of complete control by the City of Asheville with the information coming back to City Council as part of the budget process, which will allow staff time to work out the details, talk with the Transit Authority, etc.

Legislative Update - City Attorney Bob Oast reviewed with Council some changes that would affect Asheville relative to annexation, sexually-oriented businesses and economic development. He then reviewed with Council the results of the three requests Asheville made to the legislature. He said that the deadline to introduce bills was March 31, 1999.

It was the consensus of City Council to proceed with re-submission of the Asheville-Buncombe Community Relations Council's request to become a local EEOC deferral agency.

Corporate University Management 21 Employee Development Program - Personnel Director Jeff Richardson and Assistant Personnel Director Kevin Wilson reviewed with City Council the status to date and the plan for the future in the creation of a Corporate University.

It was the consensus of City Council to support the formation of a Corporate University to ensure staff development remains aligned to strategic initiatives and close the gaps which may exist.

City Council Goal Setting Process - Budget Director Ben Durant gave a status report on City Council's top 10 goals from last year. He also reviewed the status of the second set of goals from last year as well. Mr. Durant then explained the goal setting process. He began with the organizational mission and theh moved to the top 40 livability factors that impact a citizens "quality of life." Council then determined the critical "quality of life" issues Asheville must address to achieve its mission and then group related the issues into broad service areas based on common themes. He noted that the goals should address the general ends or outcomes that Asheville wants to direct its efforts in the upcoming fiscal year. Goals should address key issues by stating policy intention and should be broad enough in scope to allow senior management and staff to propose objectives and strategies during the budget process to meet City Council's established goals.

After considerable discussion, three lists were formulated: 1999-2000 Goals, Council's On-Going Support, and Miscellaneous items.

The following are the 1999-2000 Goals with strategies:

Preserve the environment

- Coordinate with existing initiatives (Land-of-Sky Regional County, Buncombe County, etc.) on household hazardous waste control
- Expand recycling program beyond single family
- Coordinate anti-litter campaign with Buncombe County, Chamber of Commerce and the N.C. Dept. of Transportation
- Improve sign ordinance enforcement
- Encourage more aggressive water efficiency and water conservation program
- Reduce vehicle emissions through traffic engineering enhancements

Improve the quality of life through enhancing cultural, arts, recreational and entertainment opportunities

- Expand the benefits of the cable franchise
- Civic Center expansion/improvement
- Public/private partnership to establish an Asheville Museum of History
- Promote passage of parks, recreation and greenway bond
- Implement parks, recreation and greenway Master Plan
- Develop policy on public art
- Move ahead on public access channel
- Promote quality of life issues for our children and our youth

Improve all transportation systems through innovative and cost effective planning and operations

- Develop plan for City operation of transit system
- Follow through on comprehensive public participation transportation planning process
- Promote passenger rail service to Asheville
- Implement Pedestrian Thoroughfare Plan
- Maintain downtown sidewalks and construct new sidewalks
- Traffic calming

Promote economic vitality through planned and sustainable growth

- Identify suitable industrial sites
- Approve and implement Economic Development Strategic Plan, i.e., Council/staff business recruitment support team - on-going corporate help; emphasis on eco-nomic efforts (create new theme to market Asheville like making Asheville the National Institute of Environment)
- Implement Downtown Plan
- Finalize plans for property at Airport
- Fiscal responsibility for City government (i.e., new revenues, no tax increase, efficient operation)
- Continue annexation study
- Identify and fund infrastructure needs
- Review participation fees
- Continue visiting, promoting and growing of existing businesses
- Encourage cost effective conservation efforts for businesses and industry
- Work with Carolina Power & Light Company, Buncombe County and Chamber of Commerce to develop the BASF site

Expand all housing opportunities in Asheville

- Promote, fund, identify revenue and implement the Housing Action Plan
- Fund the Housing Action Plan by promoting a Housing Trust Fund referendum
- Encourage general assembly to increase state housing trust fund
- Revisit the Minimum Housing Code compliance
- Encourage lending institutions to be more creative with financing for affordable housing and minority lending
- Encourage the Community Development staff to work closely with federal funding options
- Encourage public/private partnerships

The following is the Council's On-Going Support List: (1) quality education; (2) safe cities; (3) civic pride and citizenship; (4) support regional approach to cell tower regulation; and (5) Council Chamber renovations.

The following items were discussed and placed on the miscellaneous list: (1) City/County relations; (2) Media relations; (3) press releases be prepared after City Council trips; (4) organization of a special celebration for the new millennium, other than First Night; (5) exploring cooperative efforts with Buncombe County on the PEG Channel, and (6) taking a pro-active approach to let the community know what is happening.

Mayor Sitnick stressed that the Council's On-Going Support list and the miscellaneous items list will be "living" lists.

Mayor Sitnick hoped that the litter kick-off effort in March would be a cooperative effort among the City of Asheville, Buncombe County, Chamber of Commerce.

Sunday, January 31, 1999

The following items were discussed and consensus of Council to place on future worksessions: (1) Request for Whit Webb from N.C. Dept. of Transportation to talk about the I-26 connector delay; (2) Meet with groups (A-B Technical College, High Schools, Warren Wilson College, Mars Hill College, Montreat College, etc.) to find out what they are doing to prepare students to go into the work force; (3) Update from various members from the Eagle/Market Streets community on improvements to the Eagle/Market Street area; (4) Solutions for youth downtown; (5) Reports from Department Directors from the Best Practices Book on which ideas might work well for Asheville; (6) Ways to expand the City's Home Page, i.e. insert the Parcel Identification Number and it will tell you what the property is zoned and if it is in the City's extra-territorial jurisdiction area; (7) Report on reaction to the television production of City Council meetings and how to make the meetings more useful to the public;

Councilwoman Field shared with City Council information on her recent trip to Raleigh, N.C., to attend the N.C. League of Municipalities Board of Director's meeting.

At the request of Vice-Mayor Hay, City Attorney Oast said that he would report back to City Council at their February 16, 1999, the options available to City Council regarding the election process.

It was the consensus of City Council to instruct the Personnel Director to begin working with a task force composed of department representatives, a Council member and a member of the Civil Service Board to re-tool the Civil Service Law, starting with the recruitment and section process. The City Attorney was instructed to see if legislation could be drafted prior to the local bill closing date of March 24, 1999.

Councilwoman Field reported on the status of the public art policy. She proposed that streetscape and other similar boards or commissions could in some ways be blended together to streamline the process. It was the consensus of City Council to proceed with the public art policy with the coordination of the different plans, i.e., streetscape plan, downtown design review plan, etc.

Mayor Sitnick reviewed with City Council the proposed agenda of the joint City/County/area municipalities meeting to be held on February 19-20, 1999, at the Owen Conference Center at UNC-Asheville. It was the consensus of Council for the meeting not to be confrontational with no policy decisions being made at that meeting.

Mayor Sitnick shared with City Council information on her recent trip to Washington, D.C., to attend the U.S. Conference of Mayor's meeting.

Mayor Sitnick adjourned the meeting at 10:30 a.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 2, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Mowing Contracts

Summary: The consideration of resolutions authorizing the City Manager to enter into service contracts to mow City right-of-ways, parks and other public areas.

In an effort to reduce costs, promote competitive bidding and improve the quality of work for mowing City right-of-ways, parks and other public areas, City staff has divided City grass areas into six separate bidding sections. City staff has solicited sealed bids from twelve (12) mowing contractors, five (5) of which were minority contractors, to mow City right-of-ways, parks and other public areas throughout the City. City staff reviewed all bids and have determined the qualified lowest bidders per section, based on bid specifications to be the following:

Bidder:	Section:	Bid Amount:
Donnie Appleseed's	Central	$37,667.35
*Professional Lawn Care Ser.	East	$26,170.00
	West	$38,999.00
	Right-of-ways	$49,998.00
	North	$31,025.00
*Williams and Williams	South	$ 7,175.00
	Total Cost	$ 191,034.35

*Professional Lawn Care Service and Williams & Williams have stated that all specified mowing equipment will be on hand at the time of contract signing. City staff has notified both mowing contractors that upon review of equipment at the time of contract signing, if all equipment required by the bid specifications are not on hand, then the mowing contract for their sections will be awarded to the next lowest qualified bidder.

Approved funding is available in the City mowing contract account to pay for mowing City right-of-ways, parks and other public areas. The recommended total cost for the award of the recommended contracts compares to the previous contract amount for the prior two (2) years is $202,833.00.

The Parks and Recreation Department staff requests City Council to direct the City Manager to enter into service contracts with Donnie Appleseed's, *Professional Lawn Care Service and *Williams & Williams respectively, *or the next highest qualified bidder, if specified equipment is not on hand at the time the contract is ready for execution.

When Mayor Sitnick suggested that the mowers have bags attached to their equipment to catch what is mowed (in particular litter), Mr. Willis responded that it is hard to attach a bag to some commercial mowers. However, they will be coordinating the mowing with the Adopt-A-Street Program and will monitor the areas after they have been mowed. He also stated that there is a mechanism in the contracts to assess a monetary penalty in order to get the contractors to do a better job.

Upon inquiry of Councilman Cobb, Mr. Willis stated that he would review the contracts to see if the contractors will be required to maintain creek banks.

Offer to Purchase Vacant Lot on Park Place

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids for a vacant lot on Park Avenue.

A bid from David J. Heetderks, in the amount of $8,700.00, has been received for the purchase of a vacant lot on Park Avenue. The bid is not less than the established minimum price of $8,700.00.

The property is a commercial industrial zoned lot at the end of Park Avenue comprising 7,000± square feet of land. The property has an irregular shape and modest slope. It has approximately 78 feet of frontage along Park Avenue. There is no current or contemplated use for the property by the City. Mr. Heetderks is a resident of the West End community where the property is located.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff recommends adoption of the resolution.

Upon inquiry of Vice-Mayor Hay about if the community is aware of this potential purchase of land, Mr. Vess said that even though he has not officially contacted the neighborhood organization, Mr. Heetderks, the potential purchaser, is very active in that community organization.

Set Public Hearing on February 23, 1999, for Urban Mass Transit Operating Grant Application

Summary: The consideration of setting a public hearing in order to apply for Mass Transit Funding in the amount of $470,631 for Fiscal 1998/99.

The Fiscal 1998/99 Annual Operating Budget included Asheville Transit Authority funding as follows:

Operating revenues	$675,000
Operating subsidy:	
City of Asheville	813,485
State funding	182,165
Federal funding	470,631
Total funding	$2,141,281

In order to receive the Federal funding, the City Council must hold a public hearing at which time the service will be discussed, and certain environmental, land use planning and social impacts of the service will be outlined. Upon completion of the public hearing, a resolution authorizing the Mayor to file an application for the Grant and provide certain required assurances to the U.S. Department of Transportation should be considered.

Staff recommends City Council schedule a public hearing to consider authorizing the Mayor to file an application for Mass Transit funding in the amount of $470,631 for Fiscal Year 1998/99.

List of Festivals & Special Events

Summary: The consideration of a motion approving the 1999 Parks and Recreation Department's festival and special events schedule.

In March of 1995, the Asheville City Council adopted a festival's policy. A segment of that policy requires that City Council approve the list of festivals on an annual basis. These festivals and special events are co-sponsored by the City of Asheville. The Parks and Recreation Department is recommending the approval of the following festivals and special events:

EVENT	DATE
Sunday in the Park - Quality Forward	TBA
March of Dimes/Walk America	24-Apr
Very Special Arts Festival	7-May
Asheville Youth Symphony Concert	16-May
Moonlight-Downtown	4-Jun
La Fiesta - Asheville Art Museum	5-Jun
Honda Hoot 22-26	22-Jun
Downtown After Five	25-Jun
Riverlink - Riverfest 25-27	25-June
Shin Dig on the Green	3-Jul
July 4th	4-Jul
Downtown After Five	9-Jul
High Country Art and Craft Show (10-11)	10-Jul
Shin Dig on the Green	10-Jul
Shin Dig on the Green	17-Jul
Bele Chere 23-25	23-Jul
Shin Dig on the Green	31-Jul
Downtown After Five	13-Aug
Shin Dig on the Green	14-Aug
Shin Dig on the Green	21-Aug
Goombay 27-29	27-Aug
Shin Dig on the Green	28-Aug
Shin Dig on the Green	4-Sep
Downtown After Five	10-Sep
Great Smokies Brewfest	18-Sep
Greek Festival 1-3	1-Oct
A Walk into History - Urban Trail	3-Oct
American Lung Association - Reindeer Romp	21-Nov
Christmas Parade - Asheville Merchants Assoc.	24-Nov
Light Up Holidays	27-Nov
First Night	31-Dec

The Parks and Recreation Department staff recommends approval of the above festivals and special events for 1999.

Upon inquiry of Mayor Sitnick, City Manager Westbrook explained that Honda Hoot is strictly a for-profit organization on this non-profit list.

Shiloh Recreation Center HVAC Contract

Summary: The consideration of a resolution authorizing the City Manager to enter into a Heating/Ventilating/Air-conditioning contract for the Shiloh Recreation Center.

In an effort to improve quality of service through the City of Asheville daycare and after school programs, City staff, through the capital improvement process, has designated the Shiloh Recreation Center to receive heating/ventilating/air-conditioning up-grades. City staff solicited sealed bids from eight (8) Heating and Air-Conditioning Contractors, three (3) of which were minority contractors, to supply and install heating/ventilating/air-conditioning up-grades at the Shiloh Recreation Center. City staff divided the bid package into three (3) base bids to allow for maximum flexibility in awarding a contract based on limited funding of $ 35,000.00. The following bids were received:

Bolton Corporation	$ 58,300.00
Elcon Service	$ 50,579.00
McNutt Service Group	$ 48,699.00
Carolina Comfort Heating & Cooling	$ 49,558.00

City staff has reviewed all bids and determined that McNutt Service Group, Inc. is the lowest bidder and based on the limited budget of $ 35,000.00, recommends acceptance of base bid #1, #2 and part "B" of base bid #3 for a combined total of $34,409.00.

Approved funding is available in the capital improvement project account to pay for this renovation to the heating/ventilating/air-conditioning system at the Shiloh Recreation Center.

The Parks and Recreation Department staff requests City Council authorize the City Manager to enter into a contract for $ 34,409.00 with McNutt Service Group, Inc.

Budget Amendment relative to Hockey Related Expenses

Summary: The consideration of a budget amendment, in the amount of $305,000, to amend the Civic Center's Fiscal Year 1998-99 budget in order to fund hockey related expenses.

In October 1998, the City of Asheville and Asheville Smoke, Inc. entered into an agreement to provide a minor league hockey program at the Asheville Civic Center. In June 1998, however, when the Civic Center's annual budget was initially adopted, no formal agreement existed between the City and Asheville Smoke, Inc. As such, expenditures and revenues related to the minor league hockey program were not included in the Civic Center's original FY 1999-1999 budget.

With the minor league hockey program now fully operational, the Civic Center has incurred hockey related expenses, i.e. building maintenance, renovations, concessions, temporary labor, etc. that were not included in the original budget. These expenditures are estimated to be $305,000.

In addition to increased expenditures related to hockey, the Civic Center has generated new revenues, primarily from increased concession sales, that were not included in the Civic Center's initial revenue projections. The Civic Center has also generated additional revenue from its new public skating program. These new revenues will be sufficient to offset the $305,000 in additional hockey related expenditures. Thus, it is recommended that Council increase the Civic Center appropriation by $305,000 to be offset by $305,000 in additional revenue generated from hockey ticket sales.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

DROUGHT RELATED EXPENSES

Mr. Tom Frederick, Director of Water Resources, said that this is the consideration of a budget amendment to amend the Regional Water Authority's Fiscal Year 1998/1999 balanced budget in order to fund drought related expenses.

Critically low water levels in the North Fork and Bee Tree Reservoirs prompted the Regional Water Authority to declare Phase III mandatory water restrictions on December 15, 1998. Reservoir levels continue to remain critically low which has resulted in unexpected operational expenses including the purchase of approximately 2 million gallons of water per day from Hendersonville. The total cost of drought related expenses is estimated to be $334,750 through the end of February 1999.

The Fiscal Year 1998/1999 Water Fund Budget does not contain a provision for expenses related to emergencies such as droughts or floods, so it will be necessary for the Authority to adopt a revised budget to fund this severe drought.

Highlighted below are drought related operational expenses that are expected to be incurred through the end February 1999:

Water Conservation Kits	$17,000
Public Education/Advertising	10,000
Recycle Backwash Water	12,000
Replace Bee Tree Filter Media	5,000
Electrical/Pumping Costs	26,250
Treatment Chemicals	8,750
Consultant Fees (CDM)	15,000
Overtime Water Maintenance/Plants	60,750
Contractor Assistance (Leak Repair)	20,000
Total	$174,750

In addition, there is the expense of purchasing water from Hendersonville and other utilities through the end of February 1999 that is expected to cost approximately $160,000.

The operating expenses highlighted above totaling $174,750 can be funded by decreasing or postponing the following budgeted expenses/projects:

Repairs to equipment/buildings/watershed roads	$30,000
Training	4,000
Mills River Utilities (due to delays in start-up)	15,000
Spring Image Enhancing/Water Eff. Campaign	10,000
Vacancies throughout the Department that were unfilled during first half of 98/99 as well as the frozen Admin. Assist. and Eng. Tech.	115,750
Total	$174,750

There are no other areas in the operating budget that can be cut in order to fund the purchase of water from other utilities without reducing critical programs and/or customer service. It is, therefore, recommended that the Fiscal Year 1998/1999 Water Fund Budget be amended to provide funding in the amount of approximately $160,000.

It is possible that there may be enough revenue collected from surcharges that were implemented as part of the Phase III mandatory water restrictions on December 15, 1998, to cover the purchase of water from Hendersonville and other utilities. Since that time, water production has decreased approximately 5%, indicating that the surcharges have encouraged customers to reduce consumption by that same amount. Although it is difficult to accurately predict the effect of conservation efforts; it is estimated that if this trend in reduced consumption continues, revenue of nearly $175,000 may be realized from the surcharges. However, if consumption drops to 10% of normal, revenues will drop by nearly $130,000.

Since conservation efforts and the surcharges realized from them are unpredictable, it may be necessary for staff to request another budget amendment as early as next month. If the drought worsens, there may also be additional expenses that will need to be funded in the near future.

Staff recommends approval of reducing or postponing the budgeted line items highlighted above in order to fund operating expenses related to the drought. In addition, staff recommends review and approval of amending the Authority's Fiscal Year 1998/1999 balanced budget in order to fund the purchase of $160,000 of water from Hendersonville though the end of February 1999.

Mr. Frederick responded to several questions and comments from Council, some being, but are not limited to: is it possible to purchase water from the Town of Black Mountain and the Town of Weaverville, what is the target date for the Mills River Treatment Plant to come on line, is there a possibility to capture water when hydrants are flushed for public health and safety needs, why doesn't the Water Fund budget contain money for emergencies, are there any federal agencies that the City can look to in times of drought, is the Water Efficiency Program actually being decreased by $10,000, and the need for a press release explaining the 25% water loss.

Mayor Sitnick asked to participate in discussions with the Regional Water Authority on their rate structure to see if something can be done to create an emergency fund so that in times of drought individual residential users are not so heavily penalized.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CARTER COVE ROAD SEWER PROJECT

Mr. John Echeverri, Assistant City Engineer, said that this is the consideration of a budget amendment to appropriate $200,000 from the General Fund Contingency for sewer improvements for the Beaverdam Annexation - Carter Cove Area.

On November 10, 1998, City Council awarded the contract for the Beaverdam Annexation - Carter Cove Area project to Cooper Construction Company in the amount of $442,278. It has been determined that $250,000 exists in the project budget. Staff is requesting an additional appropriation of $200,000 from the City's General Fund Contingency to cover the additional cost of the project and an additional 10% contingency to complete the project. The Water Authority is paying approximately $16,500 of the cost for the installation of the water line which is a part of this project.

Staff has held several meetings with the residents of Carter Cove to prepare for the installation of the water line and the sewer line. Construction will be ready to begin as soon as the one additional easement is acquired. This is the easement of Robert M. and Lenoir Swicegood. Staff has met with Mr. Mac Swicegood several times in an effort to obtain this easement. Staff is actively pursuing obtaining this easement by providing Mr. Swicegood with all the information he needs to get his parents signature on the easement. Staff's goal is to have construction begin in four to six weeks.

Staff recommends that City Council appropriate $200,000 from the General Fund Contingency for the Beaverdam Annexation - Carter Cove Area Sanitary Sewer Improvements.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORT ON NATIONAL LEAGUE OF CITIES MEETING IN KANSAS CITY, MISSOURI

Vice-Mayor Hay, Councilwoman Field and Councilman Tomes all reported on their recent trip to the National League of Cities meeting which was held in Kansas City, Missouri. Each shared important information with Council as it related to issues affecting the City of Asheville.

Mayor Sitnick asked that City Council consider reporting on their trips at formal Council meetings so that members of the community can hear the reports since the formal meetings are broadcast.

BOARDS AND COMMISSIONS

Vice-Mayor Hay reviewed the options of the appointment to the Citizens-Police Advisory Committee and the Asheville School Board.

Upon recommendation of the City Council Boards/Commission Committee, it was the consensus of City Council not to interview the two central area candidates for the Citizens-Police Advisory Committee but to place the appointment on the next formal meeting agenda for consideration.

Upon recommendation of the City Council Boards/Commission Committee, and after further discussion of the reappointment process and the excellent credentials of the applicants, it was the consensus of City Council to have the City Clerk prepare the proper paperwork to reappoint Roy Harris and Brian Weinkle to the Asheville School Board.

OTHER BUSINESS

Urban Sprawl and Ways to Control It

At the request of Hazel Fobes, Mayor Sitnick read the following letter dated February 2, 1999, from Hazel W. Fobes: "Yesterday, February 1, I delivered to the Mayor's office letters addressed to each of you containing copies of an article from the Christian Science Monitor, (one of the nation's leading newspapers) January 20, 1999 titled 'Suburbs Create Sprawl-free Zones to Control Growth' and information on a letter to opinion, Mt. XPRESS, January 27, '99 from a reader, John Murrell-Kisner, who is forming with David Stewert a group, Smart Growth Partners, focusing on livable, healthy communities. Their next meeting is February 25, at noon, 29-1/2 Page Ave. Tel: 253-8265 and 285-0810. They encourage interest and input. I bring this to your attention now because urban sprawl needs to be addressed and curbed now and because among your top issues for the council's 1999 goals are transportation, local economy, environment and quality of life. All of these relate to uncontrolled suburban development. A growing concern in the nation and in Asheville and Buncombe Co. is the rapid growth of our suburbs. This brings traffic, smog, crime, wider highways, destruction of farmlands, some residential areas, vilifies open-spaces. To curb this unrestrained development in our suburbs and encourage planning, growth management movements have organized programs in 12 states, including New York, New Jersey, Maryland and California. The term being used for these programs is 'Smart Growth'. Remember Asheville is 'Smart Growth Partners'. I ask you to give serious concern to this problem and contact our local group."

St. Dunstans Road

Because City Council doesn't normally take public comment at a worksession, Vice-Mayor Hay moved to waive the rules and take public comment in order to hear a neighborhood road concern that needs a decision on the following day. This motion was seconded by Councilman Cobb and carried unanimously.

Mr. and Mrs. May, residents on St. Dunstans Road, said that their family moved to St. Dunstans Road in 1997 at the time the road was closed. It was their understanding, and the neighbors in the area, that the road was to remain closed after the construction was completed by the N.C. Dept. of Transportation ("NC DOT") on the McDowell Street bridge project. It was also their understanding that the road would not be re-opened as a connector street from McDowell Street to Biltmore Avenue and that the NC DOT was to cul-de-sac St. Dunstans Road. They have just received a letter from the NC DOT that says that unless they hear differently from the City of Asheville on or before tomorrow (February 3, 1999) they will continue to proceed with the re-opening of St. Dunstans Road. They urged City Council to notify the NC DOT to keep the road closed because St. Dunstans is a narrow road and if re-opened with a traffic light at the intersection of McDowell Street and St. Dunstans Road, will attract a large amount of traffic through this residential neighborhood. They said that two petitioners were given to the City of Asheville to keep the road closed. At the very least, they urged City Council to hold a public hearing in order to hear the residents' concerns regarding this street being re-opened.

City Manager Westbrook explained that the City's official position has been, and remains, to re-open St. Dunstans Road for public safety purposes. He explained that the road was temporarily closed for about two years for NC DOT's construction project.

Councilwoman Field recalled that when this NC DOT project came before City Council, an issue arose about cutting down trees in that area and the NC DOT worked with the City to resolve that issue. She did not recall the road closing being an issue expressed by the neighborhood.

Assistant City Manager Doug Spell explained that the City's position is that the road be re-opened from a public safety standpoint. He did not recall that there were any problems associated with the traffic or cut-through when the road was open. He felt that if people were going to try to cut through from McDowell Street to Biltmore Avenue that they would probably use Doctor's Drive because it is a straighter road. He said that NC DOT planning documents show that in future years the amount of cars anticipated to be traveling on St. Dunstans Road would be minimal traffic for a residential street. He did note that if the road were re-opened, the City has many traffic calming methods that can be used to address any traffic problems they may encounter. Regarding the width of St. Dunstans Road, he said the width is not out of the ordinary for residential streets in Asheville.

Fire Chief John Rukavina explained the Fire Department's response time with the road open vs. the road being closed. He said that from a public safety standpoint, his recommendation would be to re-open the road.

A resident at 172 St. Dunstans Road, said that there used to be a one-way sign on St. Dunstans Road prior to the closing and now the sign is gone. She also urged Council to keep the road closed due to the anticipated increase in traffic. She felt that if the road were to be re-opened, the road would need to be widened and more one-way signs installed on the road.

Discussion surrounded the proposed cul-de-sac and who would have to pay for any right-of-way needed for that construction; and the procedure which would need to be followed for a formal street closing as required by the General Statutes.

City Council instructed the City Manager to contact Mr. Smart with the NC DOT, the next day to see if the deadline date of February 3, 1999, can be postponed until City Council can discuss this matter at a formal meeting with NC DOT representatives and area neighbors. If the February 3, 1999, deadline cannot be postponed, the City's original position to re-open St. Dunstans Road would remain intact as recommended by City staff.

CLOSED SESSION

At 5:27 p.m., Councilwoman Field moved to go into closed session for the following reasons: (1)to establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange or lease - G.S. 143-318.11(a)(5); and (2) to consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are: Richard A. Black, individually and in his capacity as Administrator of the Estate of Dorcas Faye Black; Michelle Hughes Elliott; Douglas Charles Elliott; the City of Asheville; James Cheeks; the North Carolina Department of Transportation; Ken Putnam; Merry Maids Limited Partnership; Munchel Enterprises, Inc., d/b/a Merry Maids; Archie Franklin Lail, Edda Lail; and Karl Heinz Lail - G.S. 143-318.11(a)(3). This motion was seconded by Councilman Cloninger and carried unanimously.

At 6:10 p.m., Councilwoman Field moved to come out of closed session. This motion was seconded by Councilman Sellers and carried unanimously.

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 6:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

290

Tuesday - February 9, 1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Sellers gave the invocation.

AGENDA ADDITION

At the request of City Manager Westbrook, City Council added the item of Community Development Budget Amendment under the "Other Business" section of the agenda.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JANUARY 31, 1999, AS "REV. DR. WESLEY GRANT SR. DAY" IN THE CITY OF ASHEVILLE

Councilman Tomes read the proclamation proclaiming January 31, 1999, as "Rev. Dr. Wesley Grant Sr. Day" in the City of Asheville. He presented the proclamation to Rev. Grant.

B. PROCLAMATION PROCLAIMING THE MONTH OF MARCH AS "BLACK HISTORY MONTH"

Mayor Sitnick read the proclamation proclaiming the month of February, 1999, as "Black History Month" in the City of Asheville and presented the proclamation to Mr. John Hayes, President of the local chapter of the NAACP.

II. CONSENT:

A. RESOLUTION NO. 99-21 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICE CONTRACT WITH DONNA SPRATT, D/B/A DONNIE APPLESEED'S LANDSCAPING, TO MOW THE CENTRAL SECTION AREA OF THE CITY OF ASHEVILLE

Summary: The consideration of resolutions authorizing the City Manager to enter into service contracts to mow City right-of-ways, parks and other public areas.

In an effort to reduce costs, promote competitive bidding and improve the quality of work for mowing City right-of-ways, parks and other public areas, City staff has divided City grass areas into six separate bidding sections. City staff has solicited sealed bids from twelve (12) mowing contractors, five (5) of which were minority contractors, to mow City right-of-ways, parks and other public areas throughout the City. City staff reviewed all bids and have determined the qualified lowest bidders per section, based on bid specifications to be the following:

Bidder:	Section:	Bid Amount:
Donnie Appleseed's	Central	$37,667.35
*Professional Lawn Care Ser.	East	$26,170.00
	West	$38,999.00
	Right-of-ways	$49,998.00
	North	$31,025.00
*Williams and Williams	South	$ 7,175.00
	Total Cost	$ 191,034.35

*Professional Lawn Care Service and Williams & Williams have stated that all specified mowing equipment will be on hand at the time of contract signing. City staff has notified both mowing contractors that upon review of equipment at the time of contract signing, if all equipment required by the bid specifications are not on hand, then the mowing contract for their sections will be awarded to the next lowest qualified bidder.

Approved funding is available in the City mowing contract account to pay for mowing City right-of-ways, parks and other public areas. The recommended total cost for the award of the recommended contracts compares to the previous contract amount for the prior two (2) years is $202,833.00.

The Parks and Recreation Department staff requests City Council to direct the City Manager to enter into service contracts with Donnie Appleseed's, *Professional Lawn Care Service and *Williams & Williams respectively, *or the next highest qualified bidder, if specified equipment is not on hand at the time the contract is ready for execution.

RESOLUTION BOOK NO. 25 - PAGE 136

B. RESOLUTION NO. 99-22 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICE CONTRACT WITH RANDY PITTS, D/B/A PROFESSIONAL LAWN CARE SERVICE, TO MOW THE NORTH, EAST, WEST AND RIGHT-OF-WAY SECTION AREAS OF THE CITY OF ASHEVILLE

Summary: See Item A. above.

RESOLUTION BOOK NO. 25 - PAGE 138

C. RESOLUTION NO. 99-23 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SERVICE CONTRACT WITH ALFRED WILLIAMS, D/B/A WILLIAMS AND WILLIAMS, TO MOW THE SOUTH SECTION AREA OF THE CITY OF ASHEVILLE

Summary: See Item A. above.

RESOLUTION BOOK NO. 25 - PAGE 139

D. RESOLUTION NO. 99-24 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE A VACANT LOT ON PARK AVENUE

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer of purchase for upset bids for a vacant lot on Park Avenue.

A bid from David J. Heetderks, in the amount of $8,700.00, has been received for the purchase of a vacant lot on Park Avenue. The bid is not less than the established minimum price of $8,700.00.

The property is a commercial industrial zoned lot at the end of Park Avenue comprising 7,000± square feet of land. The property has an irregular shape and modest slope. It has approximately 78 feet of frontage along Park Avenue. There is no current or contemplated use for the property by the City. Mr. Heetderks is a resident of the West End community where the property is located.

Approval of the resolution will initiate the sale of the property through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff recommends adoption of the resolution.

RESOLUTION BOOK NO. 25 - PAGE 142

E. **MOTION SETTING A PUBLIC HEARING ON FEBRUARY 23, 1999, TO CONSIDER THE FILING OF AN APPLICATION FOR MASS TRANSIT FUNDING IN THE AMOUNT OF $470,631 FOR FISCAL YEAR 1998/99**

F. **MOTION APPROVING THE 1999 PARKS AND RECREATION DEPARTMENT'S FESTIVAL AND SPECIAL EVENTS SCHEDULE**

Summary: The consideration of a motion approving the 1999 Parks and Recreation Department's festival and special events schedule.

In March of 1995, the Asheville City Council adopted a festival's policy. A segment of that policy requires that City Council approve the list of festivals on an annual basis. These festivals and special events are co-sponsored by the City of Asheville. The Parks and Recreation Department is recommending the approval of the following festivals and special events:

Sunday in the Park - Quality Forward	TBA
March of Dimes/Walk America	24-Apr
Very Special Arts Festival	7-May
Asheville Youth Symphony Concert	16-May
Moonlight-Downtown	4-Jun
La Fiesta - Asheville Art Museum	5-Jun
Honda Hoot 22-26	22-Jun
Downtown After Five	25-Jun
Riverlink - Riverfest 25-27	25-June
Shin Dig on the Green	3-Jul
July 4th	4-Jul
Downtown After Five	9-Jul
High Country Art and Craft Show (10-11)	10-Jul
Shin Dig on the Green	10-Jul
Shin Dig on the Green	17-Jul
Bele Chere 23-25	23-Jul
Shin Dig on the Green	31-Jul

Downtown After Five	13-Aug
Shin Dig on the Green	14-Aug
Shin Dig on the Green	21-Aug
Goombay 27-29	27-Aug
Shin Dig on the Green	28-Aug
Shin Dig on the Green	4-Sep
Downtown After Five	10-Sep
Great Smokies Brewfest	18-Sep
Greek Festival 1-3	1-Oct
A Walk into History - Urban Trail	3-Oct
American Lung Association - Reindeer Romp	21-Nov
Christmas Parade - Asheville Merchants Assoc.	24-Nov
Light Up Holidays	27-Nov
First Night	31-Dec

The Parks and Recreation Department staff recommends approval of the above festivals and special events for 1999.

G. ORDINANCE NO. 2542 - BUDGET AMENDMENT TO AMEND THE REGIONAL WATER AUTHORITY'S FISCAL YEAR 1998/99 BALANCED BUDGET IN ORDER TO FUND DROUGHT RELATED EXPENSES

Summary: The consideration of a budget amendment to amend the Regional Water Authority's Fiscal Year 1998/1999 balanced budget in order to fund drought related expenses.

Critically low water levels in the North Fork and Bee Tree Reservoirs prompted the Regional Water Authority to declare Phase III mandatory water restrictions on December 15, 1998. Reservoir levels continue to remain critically low which has resulted in unexpected operational expenses including the purchase of approximately 2 million gallons of water per day from Hendersonville. The total cost of drought related expenses is estimated to be $334,750 through the end of February 1999.

The FY 1998/1999 Water Fund Budget does not contain a provision for expenses related to emergencies such as droughts or floods, so it will be necessary for the Authority to adopt a revised budget to fund this severe drought.

Highlighted below are drought related operational expenses that are expected to be incurred through the end February 1999:

Water Conservation Kits	$17,000
Public Education/Advertising	10,000
Recycle Backwash Water	12,000
Replace Bee Tree Filter Media	5,000
Electrical/Pumping Costs	26,250
Treatment Chemicals	8,750
Consultant Fees (CDM)	15,000
Overtime Water Maintenance/Plants	60,750
Contractor Assistance (Leak Repair)	20,000
Total	$174,750

In addition, there is the expense of purchasing water from Hendersonville and other utilities through the end of February 1999 that is expected to cost approximately $160,000.

The operating expenses highlighted above totaling $174,750 can be funded by decreasing or postponing the following budgeted expenses/projects:

Repairs to equipment/buildings/watershed roads	$30,000
Training	4,000
Mills River Utilities (due to delays in start-up)	15,000
Spring Image Enhancing/Water Eff. Campaign	10,000
Vacancies throughout the Department that were unfilled during first half of 98/99 as well as the frozen Admin. Assist. and Eng. Tech.	115,750
Total	$174,750

There are no other areas in the operating budget that can be cut in order to fund the purchase of water from other utilities without reducing critical programs and/or customer service. It is, therefore, recommended that the FY 1998/1999 Water Fund Budget be amended to provide funding in the amount of approximately $160,000.

It is possible that there may be enough revenue collected from surcharges that were implemented as part of the Phase III mandatory water restrictions on December 15, 1998, to cover the purchase of water from Hendersonville and other utilities. Since that time, water production has decreased approximately 5%, indicating that the surcharges have encouraged customers to reduce consumption by that same amount. Although it is difficult to accurately predict the effect of conservation efforts; it is estimated that if this trend in reduced consumption continues, revenue of nearly $175,000 may be realized from the surcharges. However, if consumption drops to 10% of normal, revenues will drop by nearly $130,000.

Since conservation efforts and the surcharges realized from them are unpredictable, it may be necessary for staff to request another budget amendment as early as next month. If the drought worsens, there may also be additional expenses that will need to be funded in the near future.

Staff recommends approval of reducing or postponing the budgeted line items highlighted above in order to fund operating expenses related to the drought. In addition, staff recommends review and approval of amending the Authority's FY 1998/1999 balanced budget in order to fund the purchase of $160,000 of water from Hendersonville though the end of February 1999.

ORDINANCE BOOK NO. 17 - PAGE 256

H. RESOLUTION NO. 99-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MCNUTT SERVICE GROUP INC. TO SUPPLY AND INSTALL A HEATING/VENTING/AIR CONDITIONING SYSTEM AT THE SHILOH RECREATION CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a Heating/Ventilating/Air-conditioning contract for the Shiloh Recreation Center.

In an effort to improve quality of service through the City of Asheville daycare and after school programs, City staff, through the capital improvement process, has designated the Shiloh Recreation Center to receive heating/ventilating/air-conditioning up-grades. City staff solicited sealed bids from eight (8) Heating and Air-Conditioning Contractors, three (3) of which were minority contractors, to supply and install heating/ventilating/air-conditioning up-grades at the Shiloh Recreation Center. City staff divided the bid package into three (3) base bids to allow for maximum flexibility in awarding a contract based on limited funding of $ 35,000.00. The following bids were received:

Bolton Corporation	$ 58,300.00
Elcon Service	$ 50,579.00
McNutt Service Group	$ 48,699.00
Carolina Comfort Heating & Cooling	$ 49,558.00

City staff has reviewed all bids and determined that McNutt Service Group, Inc. is the lowest bidder and based on the limited budget of $ 35,000.00, recommends acceptance of base bid #1, #2 and part "B" of base bid #3 for a combined total of $34,409.00.

Approved funding is available in the capital improvement project account to pay for this renovation to the heating/ventilating/air-conditioning system at the Shiloh Recreation Center.

The Parks and Recreation Department staff requests City Council authorize the City Manager to enter into a contract for $ 34,409.00 with McNutt Service Group, Inc.

RESOLUTION BOOK NO. 25 - PAGE 143

I. ORDINANCE NO. 2543 - BUDGET AMENDMENT FOR THE BEAVERDAM ANNEXATION AREA CARTER COVE SANITARY SEWER IMPROVEMENT PROJECT

Summary: The consideration of a budget amendment to appropriate $200,000 from the General Fund Contingency for sewer improvements for the Beaverdam Annexation - Carter Cove Area.

On November 10, 1998, City Council awarded the contract for the Beaverdam Annexation - Carter Cove Area project to Cooper Construction Company in the amount of $442,278. It has been determined that $250,000 exists in the project budget. Staff is requesting an additional appropriation of $200,000 from the City's General Fund Contingency to cover the additional cost of the project and an additional 10% contingency to complete the project. The Water Authority is paying approximately $16,500 of the cost for the installation of the water line which is a part of this project.

Staff has held several meetings with the residents of Carter Cove to prepare for the installation of the water line and the sewer line. Construction will be ready to begin as soon as the one additional easement is acquired. This is the easement of Robert M. and Lenoir Swicegood. Staff has met with Mr. Mac Swicegood several times in an effort to obtain this easement. Staff is actively pursuing obtaining this easement by providing Mr. Swicegood with all the information he needs to get his parents signature on the easement. Staff's goal is to have construction begin in four to six weeks.

Staff recommends that City Council appropriate $200,000 from the General Fund Contingency for the Beaverdam Annexation - Carter Cove Area Sanitary Sewer Improvements.

ORDINANCE BOOK NO. 17 - PAGE 258

J. ORDINANCE NO. 2544 - BUDGET AMENDMENT RELATIVE TO HOCKEY RELATED EXPENSES

Summary: The consideration of a budget amendment, in the amount of $305,000, to amend the Civic Center's Fiscal Year 1998-99 budget in order to fund hockey related expenses.

In October 1998, the City of Asheville and Asheville Smoke, Inc. entered into an agreement to provide a minor league hockey program at the Asheville Civic Center. In June 1998, however, when the Civic Center's annual budget s initially adopted, no formal agreement existed between the City and Asheville Smoke, Inc. As such, expenditures and revenues related to the minor league hockey program were not included in the Civic Center's original FY 1999-1999 budget.

With the minor league hockey program now fully operational, the Civic Center has incurred hockey related expenses, i.e. building maintenance, renovations, concessions, temporary labor, etc. that were not included in the original budget. These expenditures are estimated to be $305,000.

In addition to increased expenditures related to hockey, the Civic Center has generated new revenues, primarily from increased concession sales, that were not included in the Civic Center's initial revenue projections. The Civic Center has also generated additional revenue from its new public skating program. These new revenues will be sufficient to offset the $305,000 in additional hockey related expenditures. Thus, it is recommended that Council increase the Civic Center appropriation by $305,000 to be offset by $305,000 in additional revenue generated from hockey ticket sales.

ORDINANCE BOOK NO. 17 - PAGE 260

K. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 23, 1999, TO REZONE PROPERTY LOCATED ON CENTRAL AVENUE, ORANGE STREET, LIBERTY STREET, CLAYTON STREET AND ORCHARD STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

L. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 23, 1999, TO REZONE PROPERTY LOCATED ON MAUDE AVENUE AND SUMMIT AVENUE FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

M. MOTION SETTING A PUBLIC HEARING ON FEBRUARY 23, 1999, TO REZONE PROPERTY ON ASHELAND AVENUE, GROVE STREET AND MORGAN STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Field and carried unanimously.

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO CONSIDERING AMENDMENTS TO THE CITY OF ASHEVILLE PERSONNEL POLICY

RESOLUTION NO. 99-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ADOPT A REVISED CITY OF ASHEVILLE PERSONNEL POLICY

Mayor Sitnick opened the public hearing at 5:16 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Personnel Director Jeff Richardson said that this is the consideration of a resolution amending the City of Asheville Personnel Policy and amendment to Section 2-230 (b) of the Code of Ordinances of the City of Asheville relative to the departmental pre-disciplinary conference.

Mr. Richardson said that the City has not amended the Personnel Policy since December 20, 1994. During that period, administrative policies and practices have been updated. The Personnel Policy in Section 5.D. outlines that the policy shall be reviewed every three years. These proposed changes reflect the most recent review of this policy by the Human Resources Department. The proposed amendments serve to better clarify appropriate application of City policy and/or are mandated by State or Federal law.

Mr. Richardson stated that the Civil Service Board reviewed the amendments and had concerns with Section 43 relative to Annual Leave and Section 52 relative to Bereavement Leave.

The proposed amendments are as follows:

Section 7. Definitions:

A. Probationary Employee: A newly hired or promoted employee who has not successfully completed the guidelines set forth in Section 24 of this policy.

B. Seasonal and/or Temporary Employee: An employee who has been hired with the understanding that the employment will continue only for a specified period of time, not to exceed twelve (12) continuous months.

C. Part-Time Regular Employee: An employee who has been hired into a budgeted position that is funded between 20 hours and 37.5 hours weekly and has successfully completed probationary period.

D. Full-Time Regular Employee: An employee who has been hired into a full-time budgeted position and has successfully completed probationary period.

Reason for Change: These definitions better reflect the different employment statuses with the City and their respective meaning, due in part to the City's recent decision to begin providing part-time pro-rated benefits to regular part-time employees. I have also included "seasonal temporary employee" as a new definition.

Section 24. Probationary Period.

(a) All newly appointed or promoted employees shall serve a probationary period of 180 days, during which time the employees shall be deemed "probationary employees". Probationary employees shall be entitled to benefits as provided in the City's Personnel Policy.

(b) No later than 10 days after a probationary employee's first day at work, the supervisor shall establish the employee's work plan, which shall have been approved by the Department Director. At intervals not later than 90 days and 150 days after the first day of work, the supervisor shall review with the probationary employee his/her performance under the work plan. Said review shall include the following criteria:

298

1. The employee's accomplishments, needed improvements, strengths and weaknesses;
2. Whether the employee is performing satisfactorily in his/her work;
3. What the employee must do to bring his/her work up to satisfactory level if it is unsatisfactory.
4. What the supervisor can do to help the employee bring his/her work up to a satisfactory level; and
5. The length of time the employee has, if any, to make the necessary improvements.

The work plan and review criteria established above may be supplemented according to the needs of the department or the requirements of the particular position, and shall be furnished to the employee at the time the work plan is established. The reviews set forth herein need not be formal; however, notice of any problems or deficiencies must be provided in writing to an employee in order to satisfy the writing requirements of this section.

(c) Any person hired by the City of Asheville may, during the probationary period, be dismissed by the director of the employing department for any reason not contrary to the laws of public policy of North Carolina. Such action shall not take place until the department director has consulted with the Human Resources Director. Such reasons shall be set forth in writing by the department director and made available to the affected employee at the time of the dismissal. In the event that such action is reviewed by the Civil Service Board, compliance with the writing requirement of paragraph (b) shall be deemed sufficient justification for the action taken. In such matters, the Chairman of the Civil Service Board may act for the Board.

(d) The probationary period may be extended for up to ninety (90) additional days by the department director, with the written concurrence of the Human Resources Director.

(e) This section shall apply to former City employees who are rehired after a period of separation from employment with the City.

(f) This section shall apply to non-probationary employees who are transferred to new positions with the City; provided, that any disciplinary or performance-based action other than returning the employee to the former position, shall be in accordance with the policies and rules applicable to non-probationary situations.

(g) Exceptions for certain employees: The probationary period for new or rehired employees in police and fire departments shall commence with the first day the employee is available for regular duty following completion of the training or education necessary to fulfill the minimum requirements for certification as imposed by North Carolina law. The time period required for such training or education shall be established by the department director of the respective department in consultation with the Human Resources Director, and approved by the Civil Service Board.

(h) Probationary employees who fail to receive notification from departmental management as to their employment status by the 180th day shall rightfully assume status as a regular employee with all non-probationary City policies applicable to them at that time.

In the case of employees in other departments whose positions may but do not always require minimum certifications or training, a probationary period for that employee maybe established by the Department Director in consultation with the Human Resources Director, and shall be reported to the Civil Service Board. In no case shall a probationary period established pursuant to this paragraph be less than 180 days.

Reason for change: This change reflects what is commonly recognized across North Carolina public sector as a true probationary employment, with the employee in an "at-will" status for the length of the probation. This is consistent with the vast majority of other municipalities/counties in North Carolina, as well as the State.

Section 43: Annual Leave.

Strike the sentence that disallows probationary employees from using annual leave until the conclusion of the probationary period.

Reason for change: Departmental management needs the discretion as to whether to grant annual leave during probation. Job finalists often have already made vacation plans prior to being hired and the City needs to honor those arrangements if possible.

Section 47: Family Leave

4. An eligible employee is entitled to a total of twelve (12) weeks of FMLA leave per 12 month period measured backward from the date an employee uses any FMLA leave; provided, however, that husbands and wives who are both employed by the City are only entitled to an aggregate of twelve (12) weeks of FMLA leave per 12 month period. An employee who is on FMLA leave is guaranteed the same or comparable job when he/she returns to work.
5. An eligible employee may, with the City's consent, take intermittent leave or have a modified work schedule due to the arrival of a new child so long as the cumulative leave does not exceed twelve (12) weeks per 12 month period measured backward from the date an employee used any FMLA leave.

Reason for change: The City has the choice under the Federal guidelines of the Family Medical Leave Act (FMLA) of how it counts its twelve (12) weeks. The proposal to count the twelve (12) week period per 12 month period will ensure that employees who qualify for FMLA do not have an advantage of taking two (2), separate twelve (12) week periods based on the time of calendar year the qualifying event occurs.

Section 47: Family Leave

C. Parental Leave For the Involvement in Children's Schools

Chapter 509 of the 1993 Session Laws amended G.S. 95-28.3 to require at least four (4) hours of leave per year so that a parent, guardian or any person standing "in loco parentis" of a school-aged child may attend or otherwise be involved in activities at the child's school under the following conditions:

1) The leave shall be at a mutually agreed upon time between the employer and employee;

2) The employer may require an employee to provide the employer with a written request for the leave at least 48 hours before the time desired for the leave; and

300

3) The employer may require that the employee furnish written verification from the child's school that the employee attended or was otherwise involved at that school during the time of leave.

The definition of school includes public and private schools, church schools, and preschools. It also includes day care facilities as defined under G.S. 110-86. Please note that this leave is not guaranteed paid leave, but rather guaranteed time-off. Employees wishing to take this leave would have to use accrued annual or compensatory leave in order to be paid.

Reason for addition of this language: The City needs this language incorporated into its Personnel Policy as other municipalities in North Carolina have done since it being passed into General Statute in 1993.

Section 49: Military Leave.

Military leave shall be granted to all employees who are members of a reserve component of the United States Armed Forces or National Guard for annual training, monthly drills, war or national emergency. Proof of any military duty/orders shall be submitted to the employee's supervisor or department director within thirty (30) calendar days of the date of the assignment, except in the case of national emergency.

For purposes of paragraphs (I) and (II) below, employees granted leave with pay will be paid the difference between their base military pay and their current City salary provided military pay is the lesser.

In each case, the following policy and procedures will be in effect:

I. **Annual Military Training:**

An employee who has been ordered to active duty for annual training, including monthly drills and service schools, shall be granted military leave. Such leave shall be with pay for up to fifteen (15) scheduled work days per Federal fiscal year (i.e. one hundred twelve and a half (112.5) hours for those employees on a 37.5 hour work week, one hundred twenty (120) hours for those employees both on a 40 hour work week and a 14 or 28 day work cycle, one hundred forty-two and a half (142.5) for those employees on a 16 or 25 day work cycle and one hundred eighty (180) hours for those employees on a 112 hour work cycle). Additional leave will be charged to accrued annual leave, holiday leave, compensatory time, or taken without pay, at the employee's option.

II. **National Emergency/War:**

An employee who has been ordered to active duty for a national emergency or war shall be granted military leave. Such leave shall be with pay for up to one hundred eighty (180) calendar days. In the event a national emergency or war continues beyond one hundred eighty (180) calendar days, the City Manager may extend paid leave for a reasonable period of time, not to exceed an additional one hundred eighty (180) calendar days, unless additional time is authorized by City Council.

(a) Insurance: When an employee is called to active duty for national emergency or war, the City shall continue the reservist and his/her family on any City benefit plan(s) which the employee participates in. During such period of time, the reservist shall be responsible for paying any premiums(s) due through payroll deduction or other arrangements made with the Human Resources Department. Health and dental coverages shall be continued until the reservist is covered by the Military Health Insurance Plan (i.e. CHAMPUS) - generally a period of thirty (30) calendar days; however, if the reservist chooses, (s)he may continue individual and/or family coverage pursuant to current COBRA regulations. In the event a reservist discontinues individual and/or family coverage during active duty, the reservist and his/her family member(s) may be re-enrolled subject to current HIPAA regulations upon the reservist's return from active duty and presentation of a Certificate of Honorable Discharge from the United States Government.

(b) Leave: Annual, sick and holiday leave shall be earned by the employee as if the employee had been working.

(c) Re-employment: Upon release from active duty, the reservist must immediately notify his/her supervisor with (s)he will return to work. All reinstatement employment rights under the Veterans Re-employment Rights Law shall apply.

Reason for change: The new Military Leave policy brings the City into compliance with the Uniformed Services Employment and Reemployment Rights Act of 1994. The new policy is also easier to understand and more equitable for City employees.

Section 52: Bereavement Leave.

Full-time employees may be granted two (2) consecutive work days of bereavement leave with pay due to the death of a member of his/her immediate family or significant other.

For purposes of this section, "immediate family" includes spouse, mother, father, legal guardian, son, daughter, sister, brother, grandparent, or grandchild and any combinations or half- or step- or in-law- that can be derived from those named. "Significant other" is defined as a person with whom the employee cohabits and maintains an intimate relationship regardless of marital status.

If additional time off is needed, employees may request to use accrued annual leave, compensatory time, or leave without pay.

Employees who need time off to attend the funeral of a co-worker, close personal friend or relative not included as "immediate", may request the use of accrued annual or compensatory time or time without pay.

Reason for change: The current policy is too liberal and is confusing to administer. Current application throughout the City is inconsistent as policy allows for up to three days off for immediate family member death. Past interpretation has directed departments to base the amount of days on where the death was and the amount of travel time necessary to attend the funeral. The proposed change streamlines the policy and should eliminate confusion and inconsistent practice across departments.

Section 62: Investigative Suspension.

Investigation status is used to temporarily remove an employee from work status and may be used for the following reasons:

1. To investigate allegations of performance or conduct deficiencies that would constitute just cause for disciplinary action.

2. To avoid disruption of the work place and/or to protect the safety of persons or property.
3. To provide time to schedule and conduct a pre-disciplinary conference.

Investigative suspension with pay does not constitute a disciplinary action as defined in this article. Management must notify an employee in writing of those reasons for investigative suspension not later than the second working day after beginning of the suspension. Investigative suspensions that last beyond (30) calendar days must be approved by the City Manager and in no case shall the suspension extend beyond (60) calendar days.

Reason for change: Current policy is not effective personnel practice in that employees may be placed on non-paid suspensions for up to 90 days in order for an investigation of possible wrong inappropriate action can be reviewed by City management. The employee should continue to be in a "on pay status" until management determines the facts of the issues, therefore rendering no disciplinary action prematurely. In addition, 30 days is more than enough time to conduct an administrative investigation in the vast majority of circumstances. The State of North Carolina moved to paid investigative suspensions about seven (7) years ago for the same reasons as outlined.

Because the employee remains on pay status, there would be no need to provide any type of grievance rights due to the fact that the employee would continue in his/her employee pay status until the conclusion of the investigation.

Section 69. Departmental Pre-Disciplinary Conference.

Procedure for Conference. The pre-disciplinary conference shall be attended by and limited to (1) the employee, (2) the supervisor(s) of the employee, (3) the department director and (4) a representative from the Human Resources Department when requested by the employee or department director. Such Human Resources representative shall be the Director or his/her designee. No attorneys may be present for either side during this meeting.

Reason for Change: The pre-disciplinary meeting is an administrative meeting. The main purpose of the meeting is to afford the employee a full opportunity to address the issues that have led to the consideration of disciplinary action. No disciplinary action has been taken and therefore to involve attorneys serves to inhibit management's effort to get at the facts of what has transpired. If disciplinary action is taken after the pre-disciplinary meeting, the employee is granted full access of representation through the grievance process.

In addition, the North Carolina Institute of Government strongly urges local governments from allowing attorneys to be present at these meetings for the reasons noted above. The State of North Carolina goes as far as to disallow attorneys from these meetings as noted in the State Personnel Act, as does many local governments.

If City Council concurs with the proposed amendment to Section 69 (Departmental Pre-Disciplinary Conference), an amendment to Section 2-230 (b) of the Code of Ordinances will need to be considered to conform the ordinance to the policy.

City staff is recommending that City Council (1) consider a resolution amending the City of Asheville Personnel Policy, and (2) consider an amendment to Section 2-230 (b) of the Code of Ordinances of the City of Asheville reflecting amendments being made to the pre-disciplinary conference.

Mr. Mike Knisely, President of the Asheville Firefighters Association, supported all the amendments except for the amendment to Section 69 which excludes an employee of having attorney representation at the pre-disciplinary conference. They feel that having the option of attorney representation was positive and felt that the potential exists for a violation of due process.

Mr. Richardson responded to several questions from Council, some being, but are not limited to, what happens in a pre-disciplinary conference, how many conferences have there been in the past year and how many employees brought attorneys, what is the difference between a pre-dismissal conference and a pre-disciplinary conference, are pre-disciplinary conferences recorded, what are some examples of when a pre-disciplinary conference would be initiated, does the City have an attorney present at these pre-disciplinary conferences, and who pays for the employee's attorney.

Councilwoman Field felt that when attorneys are present, it creates more of an adversarial position and sometimes presents no option for a solution.

City Attorney Oast said that it was his experience that when attorneys are involved in pre-disciplinary situations like this, it's typically because there is some other legal action pending or there it is a possibility of other legal action, such as wrongful discharge, worker's compensation, or something like that.

Councilman Cloninger asked if at the pre-disciplinary conference stage, could information be obtained from an employee that would ultimately be used in a criminal prosecution of that employee. City Attorney Oast said that pursuant to N.C. Gen. Stat. 160A-168, you cannot use any of the information in a subsequent criminal prosecution.

Councilman Tomes felt that many employees going into these hearings may not have the knowledge or verbal skills to adequately represent themselves so they immediately feel intimidated. He wondered if there was a way to bring an innovative sensitivity to the conferences, like a mediator or an outside facilitator. Mr. Richardson explained that the representative of the Human Resources Department is the neutral arbitrator in the conferences.

City Manager Westbrook explained that a pre-disciplinary conference is no more than a fact-finding meeting and that the City owes it to it's citizens to be able to talk to an employee to find out what happened and their side of the story.

Mayor Sitnick felt that it might be a good idea for the employee to be allowed to have a friend allowed at the pre-disciplinary conference so as to take noes on behalf of the employee.

Councilman Cloninger suggested that Section 69 title be changed from "departmental pre-disciplinary conference" because it implies that disciplinary action will be the outcome,

Mr. Knisely said that he would be willing to meet with City representatives to see if another solution could be worked out with respect to Section 69.

Vice-Mayor Hay voiced several concerns about not having an attorney present and supported staff re-visiting the amendment to Section 69 to see if another solution could be reached.

Mr. John Hayes, former City employee, felt that Councilman Tomes made a good point in that some employees may feel intimidated when meeting with management staff.

Mayor Sitnick closed the public hearing at 6:29 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Cloninger moved to adopt Resolution No. 99-26, with the exception of Section 69 and further instructed staff to study the language in that Section including the title of the section and the content. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 145

IV. UNFINISHED BUSINESS:

A. DISCUSSION OF ST. DUNSTANS ROAD

Assistant City Manager Doug Spell said that at the February 2, 1999, Council worksession, City Council indicated that they would like to receive public comment at the February 9, 1999, Council meeting regarding St. Dunstans Road.

Mr. Spell gave a project history of the McDowell Street viaduct as follows: (1) added to the N.C. Dept. of Transportation ("NC DOT") 10-year Transportation Improvement Program before November 1983; (2) public hearing on the NC DOT Project was held on August 10, 1994; (3) City Council approved the Municipal Agreement on June 25, 1996; (4) construction began on December 12, 1996; and (5) the project completion is scheduled for November 1, 1999. He then reviewed an aerial map of the area designating the area surrounding St. Dunstans Road, along with a map which showed the general road layout and the number of dwelling units in this area. Mr. Spell indicated that the February 3, 1999, date given in the letter from Division Engineer Bill Smart to the Mays was not arbitrary. This was based upon the construction contract as a part of the McDowell Street Viaduct Project. This date was provided to allow the contractor to begin grading for the roadway construction along St. Dunstans Road and to avoid delaying the contractor on the project. They indicated that if a decision were made at the February 9, 1999, Council meeting, NC DOT would entertain a change depending on the stage of construction and progress made over the prior week. However, this portion of work is critical with regard to proceeding to shift traffic to the newly constructed bridge section. NC DOT also indicated that they may ask the City to bear the cost difference if a design change is necessary which results in additional costs as a part of the contract.

Mr. Spell reviewed the following area traffic volumes with Council: (1) Doctor's Drive @ 1270 vehicles per day ("vpd"); (2) Grindstaff Road @ 173 vpd; (3) St. Dunstans Road (near Sterling Street) @ 194 vpd and (4) St. Dunstans Road - Year 2016 projected at 500 vpd. He then reviewed the following comparison with other streets: (1) Edgewood Road at Chatham Road @ 1369 vpd; (2) Vermont Avenue north Onley Road at 379 vpd; (3) Kimberly Avenue north of Evelyn Place at 3943 vpd; (4) Coleman Avenue between Merrimon Avenue and Murdock Avenue @ 1073 vpd; and (5) Hillside Street west of Charlotte Street at 834 vpd.

City staff recommends St. Dunstans Road remain open.

Mr. Spell said that the street closing process for the City is as follows: (1) submittal of a street closing application and payment of a $2,500 street closing fee; (2) City Council sets a public hearing on the street closing request; (3) public hearing advertised and notification to property owners and utility providers; (4) public hearing held; and (5) Council action on the street closing request.

Mr. Spell the presented the following issues relative to closing the street: (1) emergency response (e.g., fire, police, ambulance) as a through street at 1 minute 40 seconds vs. 3 minutes 17 seconds if closed; (2) street has been a through street since 1929; (3) the cost difference is estimated at

$16,200 and the City is unsure at this time whether the City will have to pay this cost or whether the NC DOT will include it in the project cost; and (4) there are more mutually beneficial ways to address traffic issues in lieu of street closings.

Mr. Spell said that some reasons to keep the road open is (1) emergency vehicle response; (2) previously opened to traffic since 1929; (3) the layout is not conducive to cut through traffic; (4) traffic volumes projected on St. Dunstans Road are extremely low; (4) there are other means to control traffic in lieu of closing the street; and (5) not all residents want it closed.

Mr. Spell then presented the following alternatives to closing St. Dunstans Road: (1) evaluate traffic after project completion, perform traffic counts, and receive input from residents of the larger area; (2) post the street for "No Through Traffic"; (3) incorporate traffic calming measures into the street design; and (4) designate a portion of St. Dunstans Road as "One-Way" from McDowell Street to Grindstaff Road.

The following individuals spoke in support of keeping St. Dunstans closed for various reasons, some being, but are not limited to: St. Dunstans is a community of 30 house, one day care and one group home; the neighborhood was under the impression the road was to remain closed; there is an alternate route that is almost the same distance to alleviate any emergency response concerns; if the closing of St. Dunstans is a danger, then why has it been closed for two years without some type of emergency exit; from the Grindstaff intersection with St. Dunstans to the end of McDowell, the road width is narrow; traffic volume studies performed may be inaccurate; St. Dunstans is an extremely fragile neighborhood which has been encroached upon by the McDowell viaduct and zoning changes on the Biltmore side; noise has increased in the area; St. Dunstans is a mixed-race, mixed-class neighborhood and should be preserved; there was speeding through the neighborhood when the road was open; St. Dunstans Circle will again become an attractive site for illegal drug dealers and other dangerous activity; when St. Dunstans Road was open, the road was not a visible access from McDowell to Biltmore but now it will be emphasized by a four-way traffic signal at the intersection of McDowell Street and St. Dunstans Road; St. Dunstans will be an easy access through road from McDowell Street to Biltmore Avenue resulting in an increase in traffic; St. Dunstans Road is not prepared for increased traffic since it is not wide enough for two-way traffic, a portion of the road is currently one-way, and the road needs repairs; motorists do not pay any attention to construction signs stating that St. Dunstans Road is closed, so they will probably not pay any attention to one-way signs; group home residents have the ability to get out and walk, run and ride bikes in the neighborhood with minimal supervision since the road has been closed; there has been a 50% decrease in crime since the road has been closed; residents would like to have a cul-de-sac in the area instead of St. Dunstans Road being re-opened; St. Dunstans Road has blind curves and a shaded area that is not plowed or sanded in the winter; people enjoy walking in the street; the road will have to be re-striped; the Police Department will have to start patrolling the street; and re-opening St. Dunstans Road will decrease property values.

Ms. Julie May, resident of 151 St. Dunstans Road (passed out a booklet and stated she had 9 letters in support of the closing)
Mr. Tim May, resident of 151 St. Dunstans Road (passed out a map showing the response distance to St. Dunstans Road)
Ms. Maurine Killoran, resident on St. Dunstans Circle
Ms. Brooke Roberts, resident of 172 St. Dunstans Road
Ms. Jeannie Cagle, Clinical Social Worker and Director of Mountain Area Residential Facilities which operate the group home on St. Dunstans Circle
Ms. Nicole McKinney, resident of 145 St. Dunstans Road (passed out a crime analysis report for the St. Dunstans Road area and read a letter from Asheville Day Nursery)
Ms. M. C. Edmonds, resident of 141 St. Dunstans Road

Councilman Tomes said that City Council has previously dealt with the Hillcrest community issue of closing the bridge. Council did listen to the residents of the area and kept the bridge closed. Since

306

this is a fragile neighborhood with valid concerns, he felt that City Council should be consistent as they respond to different communities.

Upon inquiry of Mayor Sitnick, Fire Chief Rukavina said that there was a fire on St. Dunstans Road since the road closure and if you apply the response times that have been identified, then it took longer than it normally would because the street was closed for the first fire truck to arrive on the scene. He said that his preference remains the same and that is to re-open the road. He understood the concerns of the neighborhood, however, he needs to look at the neighborhood that the street serves.

Fire Chief Rukavina responded to questions from Council about the alternative routes proposed by the neighbors and also how emergency vehicles respond on one-way traffic streets.

Councilman Cobb said that although the City wants to protect the neighborhood, they have to be concerned with all the flow of the traffic in the City. He felt that traffic is a part of our society and we have to control it, not eliminate it.

Upon inquiry of Councilman Cobb, Ms. May stated that the NC DOT said that if City Council voted to keep the road closed, they would consider a cul-de-sac on the road as part of the project.

As a result of some discussion relative to closing the street, City Attorney Oast said that if the road were re-opened, it does not prohibit anyone from going through the street closing process.

Mayor Sitnick said that even though the City Council requested that the Hillcrest bridge remain closed, there was an incident on Edgewood Road where the neighborhood worked with the City and the Police Department to install some major traffic calming options that have worked real well. After visiting the area, she felt that if anyone wanted to cut through from McDowell Street to Biltmore Avenue, the natural inclination would be to cut across Doctor's Drive instead of St. Dunstans Road because Doctor's Drive is a quicker, straighter route. While she is sympathetic to this cause, she said that the position of the City and the recommendation of our Fire Chief who deals with life and death issues weights very heavily on her mind. If she didn't think there was another way to deal with the legitimate concerns expressed by the neighbors about traffic she might feel differently. However, at this time, she would support leaving the road open, imposing severe traffic calming measures into that neighborhood, and monitor those measures carefully and constantly. She said that after those measures have been monitored and the results reveal that the road should be closed, then a street closing process can be initiated.

Councilman Cloninger moved to not begin the street closing process but direct staff to begin working on the following alternatives to closing St. Dunstans Road: (1) evaluate traffic after project completion, perform traffic counts, and receive input from residents of the larger area; (2) post the street for "No Through Traffic"; (3) incorporate traffic calming measures into the street design and any other measures that seem applicable to making sure that we protect the integrity of the neighborhood; and (4) direct staff to study designating a portion of St. Dunstans Road as "One-Way" from McDowell Street to Grindstaff Road. After the alternatives are instituted, City staff and the neighborhood can come back and report to City Council on how the alternatives are working. This motion was seconded by Councilman Cobb and carried unanimously.

V. NEW BUSINESS:

A. RESOLUTION NO. 99-27 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Hay said that there exists a vacancy until June 30, 1999, for a central representative on the Citizens-Police Advisory Committee.

Councilwoman Field nominated Paul Godfrey.

After Vice-Mayor Hay asked if anyone in the audience would like to comment on this matter and hearing none, he asked for a vote to appoint Paul Godfrey and the vote was unanimous. Therefore, the resolution will appoint Mr. Paul Godfrey as a member of the Citizens-Police Advisory Committee, to serve the unexpired term of Fairfax Arnold, term expiring June 30, 1999, and then to serve a full three year term, term to expire June 30, 2002, or until his successor has been appointed and qualified.

RESOLUTION BOOK NO. 25 - PAGE 152

B. RESOLUTION NO. 99-28 - RESOLUTION REAPPOINTING MEMBERS TO THE ASHEVILLE SCHOOL BOARD

Vice-Mayor Hay said that the terms of Brian Weinkle and Roy Harris, as members on the Asheville School Board, expire on April 1, 1999. This resolution will reappoint Mr. Weinkle and Mr. Harris to each serve an additional four year term, terms to expire April 1, 2003, or until their successors have been appointed.

Vice-Mayor Hay spoke about the process that was used in this section process and his support of the entire School Board and the job they are doing.

Mayor Sitnick said that she would like to see more consistent communication between City Council and the School Board during the year to talk about ways we can support each other and work together. She said that City Council wants to work with the School Board to make the Asheville City Schools the best they can be and to maximize their potential. Mayor Sitnick then asked staff to set up a roundtable between the School and City Council to start the process.

Councilman Tomes supported reappointment of both candidates, however, was concerned about the drop out rate of African American students and others in the community.

Mayor Sitnick said that she visits the schools on a regular basis and is very impressed with the teachers in the community. She suggested City Council might like to do the same since one of Council's goals is work with the children and youth of our community.

Ms. Susan Fisher, Chair of the Asheville School Board, thanked City Council for their support of the School Board and briefed the Council on the progress of some of their programs.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-28. This motion was seconded by Councilman Sellers and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 153

C. RESOLUTION NO. 99-29 - RESOLUTION ENDORSING APPOINTMENT TO THE OPPORTUNITY CORPORATION OF MADISON-BUNCOMBE COUNTIES

Vice-Mayor Hay said that the term of Doris Hill Brewer expires in March 1999. The Opportunity Corporation has requested that Ms. Brewer be reappointed for an additional three year term, term to expire March 2002. Vice-Mayor Hay noted that this is the Mayor's appointment.

Vice-Mayor Hay said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-29. This motion was seconded by Councilwoman Field and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 154

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 26, 1999, AND THE WORKSESSION HELD ON FEBRUARY 2, 1999

Councilman Tomes moved for the adoption of the minutes of the regular meeting held on January 26, 1999, and the worksession held on February 2, 1999. This motion was seconded by Councilman Cobb and carried unanimously.

B. ORDINANCE NO. 2545 - BUDGET AMENDMENT RELATIVE TO THE COMMUNITY DEVELOPMENT FUND

Ms. Charlotte Caplan, Community Development Director, said that this is the consideration of a budget amendment to transfer $14,000 from the General Fund fund balance to the Community Development Fund, in order to resolve a recent HUD finding concerning unsupported costs paid from the CD Fund

In July 1998, HUD's Office of the Inspector General (OIG), acting on a complaint, initiated a limited survey of the CDBG-funded activities carried out by the Eagle/Market Streets Development Corporation (EMSDC). The City received a copy of the OIG's report on December 29, 1998, followed by a letter from the HUD Field Office requiring a response to the OIG recommendations by February 5.

The OIG report does not indicate any evidence of misuse of funds for ineligible purposes or serious negligence but it did identify some mistakes by EMSDC and some weaknesses in the City's oversight of its subgrantee. All but one of the recommendations are for improvements in the City's procedures for training and monitoring subgrantees. These improvements are being implemented and a letter has been sent to HUD describing them.

The other OIG recommendation is for repayment of $14,000 to the City's CDBG program from non-federal funds. This represents the difference between the amount paid by EMSDC for a property at 70 South Market Street and the appraised value of the property. The OIG found that $14,000 of the total $85,000 purchase price was an unsupported cost because there was no formal written justification or HUD approval for paying more than the appraised value of $71,000. The repayment of the $14,000 is not a penalty or fine, but simply a way of correcting the original transaction so that the CDBG funding for the acquisition is fully supported by the documentation available (the appraisal). The $14,000 will remain in the City's CDBG account for use in other eligible activities, which could include other EMSDC activities.

Staff has requested EMSDC to reimburse the $14,000. EMSDC has responded orally that it does not have sufficient funds on hand to make this reimbursement. The agency is seeking other non-federal sources of funds that it could apply to this repayment.

Staff recommends that the City comply, without delay, with HUD's requirement to reimburse the $14,000 to the CDBG fund. The General Fund fund balance appears to be the only possible source. It is possible that some or all of this amount may be reimbursed by EMSDC in the near future.

Staff recommends approval of the budget ordinance amendment to transfer $14,000 from the General Fund fund balance to the Community Development Fund.

Councilwoman Field said that the reason this did not appear on the agenda is that the City was trying to give EMSDC as much time as possible to obtain sufficient funds to reimburse the City. They did state that they will be working with the City to repay the $14,000..

Mayor Sitnick said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2545. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 262

B. CLAIMS

The following claims were received by the City of Asheville during the week of January 22-28, 1999: Phyllis Walker (Streets), Edward Mike Pressley (Streets) and Shamika Griffin (Police).

The following claims were received by the City of Asheville during the week of January 29-February 4, 1999: Charlotte Sarti (Water), Charles Morgan (Water) and BellSouth (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

C. LAWSUIT

The City received the following Complaint on January 25, 1999: Darlene Worley v. City of Asheville - small claims action for injuries sustained at a tennis junior tennis program sponsored by the City.

This matter will be handled in-house.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Business Relocation and Expansion

Mayor Sitnick reported that the Chamber of Commerce is doing an outstanding job of recruiting business to the City of Asheville.

Roy Harris

Mr. Roy Harris thanked City Council for reappointing him to the Asheville School Board. He reported that he was proud of the accomplishments they have made and the professional manner in which they conduct business.

Closed Session.

At 8:15 p.m., Vice-Mayor Hay moved to go into closed session to consult with an attorney employed or retained by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuit about which the Council expects to receive advice are Jennifer Jacobs and the City of Asheville - G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Sellers and carried unanimously.

At 8:22 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cloninger and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 8:22 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 16, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; Assistant City Attorney Patsy Meldrum; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Earl Cobb, Councilman M. Charles Cloninger and City Attorney Robert W. Oast Jr.

CONSENT:

Budget Amendment re: Sale of 110 Morris Street

Summary: The consideration of a budget amendment appropriating the funds from the sale of 110 Morris Street into capital projects designated for Parks and Recreation.

Over the past year, the City of Asheville has been working to sell the dwelling at 110 Morris Street located on the property at West Asheville Park administered by the Parks and Recreation Department. The closing of this property has occurred and funds totaling $74,354.00 need to be allocated into a capital fund for improvements at the park. The Parks and Recreation staff currently plans to make improvements and upgrades to the playground facility at West Asheville Park. These improvements will result in the playground being in compliance with the Americans With Disabilities Act and the recommendations by the Consumer Product Safety Commission.

The Parks and Recreation staff is recommending approval of the budget amendment to appropriate $74,354 into a capital fund for improvements at West Asheville Park.

Support Funding for Land & Water Conservation Program

Summary: The consideration of a resolution to endorse the reestablishment of Land and Water Conservation Funds through the Federal Government.

For over 30 years the Land and Water Conservation Fund (LWCF) established by the Federal Government assisted local parks and recreation departments specifically for the purpose of acquiring and developing natural resources that would provide recreation opportunities for future generations. Funding for the Land and Water Conservation Program was generated from revenues produced from off-shore drilling rights. Over the past three years, funding for LWCF has not occurred which has greatly diminished opportunities for further development of parks and recreation facilities by local governments. During the last session of Congress, Bills were introduced by both the House and the Senate which would reinstate funding from the Land and Water Conservation Fund. City Council is well aware of the needs identified in the Parks, Recreation and Greenway Master Plans. Funding for the LWCF or similar Bill would greatly help meet the needs of this community.

The Parks and Recreation staff recommends City Council approving a resolution supporting funding for the Land and Water Conservation Program.

Naming of Reid Annex in Memory of Lonnie D. Burton

Summary: The consideration of a resolution naming the Reid Annex Building in memory of Lonnie D. Burton.

The Opportunity Corporation has entered into a 10-year lease on the Reid Center Annex Building and is renovating the facility in order to open a Head Start Child Development Center. This program will offer education and socialization activities to low-income children and their families. Mr. Lonnie D. Burton served as Executive Director of this organization for 23 of the 28 years of his employment here. He was passionate about this program and believed that early intervention is a way to move people out of poverty. Therefore, the Opportunity Corporation wants to honor his memory and his family by naming this Head Start facility and City-owned building the "Lonnie D. Burton Child Development Center."

The Parks and Recreation Advisory Board and staff support this request and recommends that City Council approve renaming the Reid Center Annex Building as the "Lonnie D. Burton Child Development Center."

Resolution of Intent to Annex City-Owned Non-Contiguous Property known as "Richmond Hill Property" and setting a public hearing on March 9, 1999

Resolution of Intent to Annex City-Owned Non-Contiguous Property known as "Bent Creek Property" and setting a public hearing on March 9, 1999

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PEDESTRIAN THOROUGHFARE PLAN

Ms. Suzanne Molloy, Assistant Director of Public Works, said that the Public Works Department is planning to recommend adoption of the Pedestrian Thoroughfare Plan this upcoming May after a series of public meetings, public input, and final revisions to the document.

The Public Works Department in conjunction with the Bicycle and Pedestrian Task Forces and the prior work of the Pedestrian Awareness and Community Evaluation (PACE) Committee has developed a preliminary Pedestrian Thoroughfare Plan. The purpose of the plan is to serve as a basis for pedestrian planning and prioritizing capital improvement and maintenance projects. The goal of the plan is to promote pedestrian activity, provide guidelines and design recommendations, and improve the pedestrian environment in the City of Asheville.

Ms. Molloy and Mr. Oliver Gajda briefed Council on the Plan which identifies: 1) existing sidewalks needing reconstruction, 2) sidewalks requiring ADA improvements, 3) sidewalks with pedestrian obstructions, 4) pedestrian hazard areas, 5) needed pedestrian crossings, and 6) needed pedestrian linkages, including linkages adopted in the *Master Greenway Plan*. The total cost for the plan is estimated at $35,619,730 with the plan recommending methods for financing which include local funding mechanisms (UDO, posting, impact fees); public/private partnerships (special assessments)l and pursing state and federal funding. The plan also recommends a series of action steps to ensure the implementation of the plan, i.e., establish a bicycle and pedestrian coordinator, update the UDO and engineering standards manual, development funding mechanisms (impact fees, NC DOT), incorporate pedestrian concerns into current and proposed plans, and support the bicycle and pedestrian task forces. Benefits of the plan include smart growth, air quality, health, community safety, economic development, livability and intermodal transportation.

On March 1st, printed copies of the draft plan will be available to the public.

Ms. Elizabeth Teague, representative from the Land-of-Sky Regional Council, spoke about the joint cooperation between the City and the Asheville Urban Area Metropolitan Planning Organization's Pedestrian and Bicycle Thoroughfare Plan. A series of public meetings will be hosted during the months of March and April. The public comment period will end on April 23rd.

Ms. Molloy said that after incorporation of public comment and recommendations, a final plan will be brought back to City Council on May 25th for adoption. The final adoption of the plan will be coordinated with a series of events (such as Strive Not to Drive Day) sponsored by the City of Asheville, the Bicycle and Pedestrian Task Forces of the Asheville Urban Area Metropolitan Planning Organization, and Land of Sky Regional Council.

Ms. Molloy said that over the next several months, the government access channel, will be running a series "Perils for Pedestrians" which highlights positive pedestrian programs and events. The City of Asheville's draft Pedestrian Thoroughfare Plan and the Urban Trail are both recognized in this program. This series is intended to raise awareness on the importance of pedestrian planning and programs. Additional information pertaining to the plan and public input sessions will be advertised via the newspaper and the government access channel.

The purpose of this report is to apprise City Council of the process to be used to gain public review and input as a part of the ultimate adoption of a Pedestrian Thoroughfare Plan.

Councilwoman Field liked the idea of some kinds of flexibility in the Plan and noted that Portland, Oregon, has some interesting solutions to ADA problems. She stressed that as part of the greenway master plan, we need to make sure that we think about the Pedestrian Thoroughfare Plan as part of that process.

Mayor Sitnick suggested that some type of flow chart be created to inform the public about the structure of local government and what City Council has control over. She also hoped that the City sets aside some funds every year for new sidewalks. She urged City staff to look at all kinds of materials (pervious and impervious) for walkable opportunities.

City Council suggested avenues to try to identify funding sources for the Plan.

PURCHASE OF PROPERTY AT THE CORNER OF BELL ROAD AND NEW HAW CREEK ROAD

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution and budget amendment, in the amount of $55,000 out of Fund Balance, to purchase property located at the corner of Bell Road and New Haw Creek Road to be used for parking at Bullman Park.

Currently, the East Asheville Youth Activities Program is serving over 500 children in the youth baseball and softball program. For many years, problems have occurred in regard to adequate parking for the activities at the park. The Parks and Recreation Advisory Board has identified this needs as a high priority within the department. For several months, staff has been working with an adjacent property owner for the purchase of 2.09 acres at the corner of Bell Road and New Haw Creek Road. This purchase would be used for the development of a parking lot to meet the above need. The current property owner has agreed to a price of $55,000. Staff is requesting an appropriation from Fund Balance to go towards the purchase of this property.

The Parks and Recreation Advisory Board and staff recommend City Council authorize the City Manager to enter into any agreements for the purchase of this property and approval of a budget amendment in the amount of $55,000 for the purchase of 2.09 acres at the corner of Bell Road and New Haw Creek Road.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

PRITCHARD PARK FUNDING STRATEGIES

Mr. Alan Glines, Assistant Landscape Architect, said that the Parks and Recreation Department has been directed by Council to study funding options for the estimated budget for the Pritchard Park project.

Since the presentation to Council by Genesis Group Inc., the City's consultant for the redesign of Pritchard Park on January 5, 1999, staff has reviewed options for funding and organizing the project. The project budget is estimated to be $1.4 million. This figure does not include possible traffic changes that may be needed throughout the downtown system nor any utility improvements. This major fundraising campaign could take from one to two years.

There are numerous ways to organize the fundraising effort:

1. City Council leads the fundraising effort. They may appoint a member of the community to spearhead the effort. Staff would support their efforts with back up information and grant writing.

   Advantages of this option include:
   - a strong City identity for the project is created;
   - a consistent message is given.

   Disadvantages of this option include:
   - time consuming commitment for City Council;
   - Staff time for this project will compete with other duties;
   - experience in handling this unusual type of campaign may be an issue;
   - City may not be eligible to apply for some grants which have restricted funding unless a partnership is developed with a Non-Profit Agency which may apply for grants on behalf of the City.

2. Establish a Fundraising Committee led by a professional fundraiser who manages the project and who is paid by way of a grant or a percentage of fundraising manages the project.

   Advantages of this option include:
   - professional expertise in handling the project;
   - fundraiser may be able to devote more time to the project;
   - may accelerate the timeline for fundraising.

   Disadvantages of this option include:
   - negative perception by the public that funds raised are being used to pay a consultant instead of actual project construction;
   - success of the campaign is dependent on the experience of this key individual;
   - fundraiser may not be a member of this community;
   - City may not be eligible to apply for some grants which have restricted funding unless a partnership is developed with a Non-Profit Agency which may apply for grants on behalf of the City.

3. An outside Non-Profit Agency and the Fundraising Committee leads the campaign (either entity could manage the process), writes grants and accepts funds on behalf of the City.

Advantages of this option include:
- ready experience of a Non-Profit Agency in grant writing;
- ability to apply for grants which have restricted funds;
- positive impression of being a community-wide effort;
- may reduce Staff time required on this project.

Disadvantages of this option include:
- the fundraising effort is only as effective as the Non-Profit Agency's resources, experience and skills;
- time commitment may be too great for a Non-Profit Agency in light of their existing commitments;
- a distinct leadership role with the project may be unclear to the community.

4. A Fundraising Committee coordinated by City staff composed of individuals from several departments and disciplines, manages the project. This could include City Council and Non-Profit Agency involvement.

Advantages of this option include:
- diverse skills brought by the different participants;
- restricted funding sources may still be available if a Non-Profit Agency could be involved;
- The project would still have clear City leadership;
- The City benefits from the partnerships formed.

Disadvantages of this option include:
- Staff time constraints with their regular job duties;
- differing interests and priorities from departments participating;
- since this project is large and complex there may not be the needed level of Staff experience;
- fundraising timeline may take longer.

Time Frame - Before May 1999, the fundraising committee could be organized and research begun for grants and donor sources. Thereafter fundraising and grant writing efforts could begin.

Funding Sources for the Project:

- City Capital Improvement Project Budget: Approximately 1/3 of proposed budget over the next two years applied for through the Capital Improvement Project process to provide seed money to match grants.
- Grants: Relevant state, federal and private grant sources can be identified and applied for.
- Donations: Private individuals, organizations and corporations may be a source of funds for the project.
- Grass Roots Fundraising: Community generated activities may be effective in raising funds for the project.

Staff is providing an update for City Council on possible funding scenarios of the Pritchard Park project.

Council discussed the options presented, stressing that only $300,000 is for the actual park itself and the rest of the $1.4 million is for traffic issues, resignalizations, streetscape things, art work, etc.

Councilwoman Field was pleased that there is currently some funds in the Capital Improvement Plan to begin work on this project. She stressed that she would be willing to help raise funds for this very important project.

Councilman Tomes wanted to make sure that we communicate to the community in a precise manner the source of funding, rather than leave the impression that it may end up being a taxpayer responsibility and burden.

Mr. Glines explained why Pritchard Park was not included in the Parks, Recreation and Greenways Master Plan.

City Council suggested some possible funding sources for the project.

City Council expressed interest in hiring a professional fundraiser to help with this fundraising effort, as long as no City money is involved.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CHANGING METHOD OF MAYOR AND COUNCIL ELECTION FROM PRIMARY-GENERAL TO GENERAL-RUNOFF

Assistant City Attorney Patsy Meldrum said that this is the consideration of an amendment to the City Charter to change the method of election of Mayor and Council to General Election – Runoff.

She reviewed with Council the current method of election (non-partisan primary and general election) and the method under consideration (general election and run-off).

a. Legal Authority. Part 4 of Article 5 of Chapter 160A permits a municipality to modify certain aspects of its form of government by amending its Charter. This is accomplished by adopting an ordinance following a public hearing. One of the forms of government that may be changed in this way is the manner of election of the Mayor and Council. Past recent changes have included; at large election of the mayor; non-partisan elections; and four-year staggered terms.

b. Process. Currently, the manner in which the Mayor and Council are elected is by primary-general election. In order to change this to the general election - runoff method, Council must first adopt a resolution of intent to consider an ordinance effecting the change. At the time the resolution of intent is adopted, the Council must also set a date for a public hearing on the proposed change, to be held within 45 days. The public hearing must be advertised at least once, not less than 10 days prior to the date of the hearing. At a regular meeting following the public hearing, but not more than 60 days thereafter, the ordinance effectuating the change may be adopted. This will involve amending Section 6 of the Charter.

Assuming that Council adopts the resolution of intent to consider the above-described change at its February 23 meeting, the earliest that a public hearing could be held would be March 9, and the earliest that the ordinance could be adopted would be March 23.

c. Effect on timing of election: filing. Pursuant to G.S. 163-279, for cities using the non-partisan primary-general election method, the general election is held on the first Tuesday after the first Monday in November, and the primary is 4 weeks earlier. When the method is changed to general-runoff, the runoff is held on the first Tuesday after the first Monday in November, and the general election is four weeks earlier. It appears that the filing date for elections under this system would be the same as it currently is. G.S. 163-294.2(c).

d. Other issues. The statute provides that the ordinance amendment may be put to a vote of the people, either by Council, or by a petition signed by 10% of voters qualified to vote in municipal elections. Obviously, if this occurs, the timing of the process will be altered.

If Council wishes to change its method of election to the primary-runoff method, the resolution of intent should be adopted. The proposed resolution assumes that the schedule discussed above is acceptable, but Council can adjust the schedule within certain limitations.

Vice-Mayor Hay explained why he felt that the current method seems inefficient and is also a campaign finance issue.

Councilwoman Field felt that there are pros and cons to both methods and wanted to hear from the public on how they feel about this.

Upon inquiry of Councilwoman Field, Ms. Meldrum briefed Council on some other municipalities in North Carolina that use the general election-runoff method.

Ms. Meldrum said that she would gather some statistics from the Board of Elections

Mayor Sitnick also felt that there are advantages and disadvantages of the general election-runoff method.

Ms. Meldrum then responded to various questions from Council and on questions which she was unable to respond to, noted that she would research those and be ready to report back to Council when this item is considered at the next formal meeting.

Vice-Mayor Hay suggested Ms. Meldrum contact the City of Wilmington's Board of Elections for a history on their experience with the general election-runoff method, assuming they don't have districts and have non-partisan elections.

Councilman Tomes was concerned that people have the mind-set that the first election is only a primary (with normally very poor turn-out) and normally general election is held in November. If Council changes this method, the general election will be the first election, and only if necessary, a run-off would be in November.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

ECONOMIC DEVELOPMENT STRATEGIC PLAN

Assistant City Manager Doug Spell said that this is the consideration of selecting a consultant to prepare a Strategic Plan for economic development for the City of Asheville.

One critical component for the future positive growth of the City of Asheville pertains to an aggressive economic development program. In order to have an effective economic development program the focus must be well defined. Therefore, staff prepared a request for proposals (RFP) for a Strategic Plan for Economic Development. The RFP outlined a Scope of

Work consisting of ten (10) tasks as a part of the preparation of a Strategic Plan. He reviewed the Scope of Work from the RFP.

The RFP was advertised in The Asheville-Citizen Times and The Charlotte Observer on December 6, 1998. Additionally, staff sent out notices to prospective consulting firms including three potentially interested firms from the list of certified minority businesses.

The City received proposals from four consulting firms. The cost estimate from the proposals received ranged from $60,000 to $162,500. Additionally the range in time schedules outlined in the proposals stipulated that the Strategic Plan would be completed in six to ten months.

A selection panel comprised of Dale Carroll, Executive Director for AdvantageWest, Bruce Tompkins, Local Merchant and Chairman of the City Business and Development Commission, Jim Westbrook, and Douglas Spell reviewed and evaluated the proposals. An evaluation criteria was prepared in order to objectively consider each proposal. The evaluation criteria included items such as:

- prior experience in the tasks comprising the Scope of Work;
- firm's approach to accomplish the plan;
- involvement of stakeholders;
- availability to begin the project and time schedule to complete;
- cost estimate included in the proposal.

The selection panel recommended the selection of Lockwood Greene Consulting, Inc. to prepare the Strategic Plan for Economic Development. This recommendation is based upon the national scale of economic development, experience of the firm, significant client contact, opportunity for new ideas, closer proximity of firm location, and national identity of firm. Their cost estimate is in the amount of $66,000 plus estimated expenses of $12,700 for travel and other reimbursables for a total estimate of $78,700.

The Strategic Plan has been listed as a priority project of City Council. In order to initiate the Strategic Plan a budget ordinance amendment will be required. The amendment will appropriate $67,700 from Fund Balance for this project. Additionally, funds in the amount of $11,000 are available from Community Development Block Grant (CDBG) funds which have previously been earmarked for "planning." The Strategic Plan will provide some elements of economic diversification consistent with HUD direction for CDBG funds. If City Council concurs, staff will include the CDBG funds in the budget amendment.

Staff recommends the selection of Lockwood Greene Consulting, Inc. to prepare the Strategic Plan for Economic Development for the City of Asheville in the submitted proposal amount of $78,700 and approval of an appropriation from Fund Balance to fund this project.

Mr. Bruce Tompkins, Chair of the City Business and Development Commission, spoke in support of the selection of Lockwood Greene.

Discussion surrounded the importance for the selected firm to understand how unique Asheville is and the need to come up with some creative and innovative ideas. Therefore, it was the consensus of Council to meet with the project manager of Lockwood Greene to discuss Council's desires regarding economic development, to include, but not limited to, discussion of creative ways of going about economic development, how they feel about economic development incentives and what those incentives would be, how they would market Asheville's strengths, etc.

NEXT COMMUNITY MEETING

It was the consensus of City Council to hold their next scheduled community meeting on Tuesday, March 30, 1999, at the East Asheville Community Center, 906 Tunnel Road, Asheville, N.C. City staff will be available beginning at 6:00 p.m. to answer any questions from the public and the community meeting will begin at 7:00 p.m.

REPORTS ON BOARDS/COMMISSIONS

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 5:17 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - February 23,1999 - 5:00 p.m.

Regular Meeting

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

INVOCATION

Councilman Tomes gave the invocation.

AGENDA CHANGES

At the request of City Manager Westbrook, Item A on the Consent Agenda was removed due to an upset bid being received.

At the request of Mayor Sitnick, the following item was added to the agenda under Other Business: consideration of appointing Vice-Mayor Hay to the Joint Task Force of the Chamber of Commerce and Tourism Development Authority Product Development Task Force.

I. PROCLAMATIONS:

A. RESOLUTION NO. 99-30 - RESOLUTION OF APPRECIATION TO RETIRING EMPLOYEE EDWARD A. LEMON

City Manager Westbrook said that Edward A. Lemon has been employed by the City of Asheville for over 26 years and has requested retirement from his position, effective March 1, 1999, as Construction Inspector in the Engineering Department.

Resolution No. 99-30 was adopted by acclamation.

RESOLUTION BOOK NO. 25 - PAGE 155

B. RECOGNITION OF THE PARKS AND RECREATION DEPARTMENT ACCREDITATION

Mayor Sitnick said that in February 1994, the Asheville Parks & Recreation Department ("APRD") became the first municipal recreation department to receive national accreditation from the Commission for Accreditation of Park and Recreation Agencies. Every 5 years an accredited agency must be reviewed to ensure compliance with the 154 standards established by the Commission. The standards represent all areas of operations for municipal parks and recreation. She said that on February 12 1999, APRD was re-accredited.

Mayor Sitnick then recognized Parks and Recreation Director Irby Brinson for his Department's hard work in receiving the honorary designation.

C. PROCLAMATION PROCLAIMING THE WEEK OF FEBRUARY 22-27, 1999, AS "BIG SOUTH CONFERENCE BASKETBALL WEEK"

Vice-Mayor Hay, member of the Big South Steering Committee, read the proclamation proclaiming the week of February 22-27, 1999, as "Big South Conference Basketball Week" in the City of Asheville.

II. CONSENT:

A. RESOLUTION AUTHORIZING THE SALE OF A VACANT LOT ON PARK AVENUE TO DAVID J. HEETDERKS

This item was removed from the Consent Agenda due to an upset bid being received.

B. ORDINANCE NO. 2546 - BUDGET AMENDMENT APPROPRIATING FUNDS FROM THE SALE OF 110 MORRIS STREET INTO CAPITAL PROJECTS DESIGNATED FOR PARKS AND RECREATION

Summary: The consideration of a budget amendment appropriating the funds from the sale of 110 Morris Street into capital projects designated for Parks and Recreation.

Over the past year, the City of Asheville has been working to sell the dwelling at 110 Morris Street located on the property at West Asheville Park administered by the Parks and Recreation Department. The closing of this property has occurred and funds totaling $74,354.00 need to be allocated into a capital fund for improvements at the park. The Parks and Recreation staff currently plans to make improvements and upgrades to the playground facility at West Asheville Park. These improvements will result in the playground being in compliance with the Americans With Disabilities Act and the recommendations by the Consumer Product Safety Commission.

The Parks and Recreation staff is recommending approval of the budget amendment to appropriate $74,354 into a capital fund for improvements at West Asheville Park.

ORDINANCE BOOK NO. 17 - PAGE 264

C. RESOLUTION NO. 99-31 - RESOLUTION SUPPORTING FUNDING FOR THE LAND AND WATER CONSERVATION PROGRAM

Summary: The consideration of a resolution to endorse the reestablishment of Land and Water Conservation Funds through the Federal Government.

For over 30 years the Land and Water Conservation Fund (LWCF) established by the Federal Government assisted local parks and recreation departments specifically for the purpose of acquiring and developing natural resources that would provide recreation opportunities for future generations. Funding for the Land and Water Conservation Program was generated from revenues produced from off-shore drilling rights. Over the past three years, funding for LWCF has not occurred which has greatly diminished opportunities for further development of parks and recreation facilities by local governments. During the last session of Congress, Bills were introduced by both the House and the Senate which would reinstate funding from the Land and Water Conservation Fund. City Council is well aware of the needs identified in the Parks, Recreation and Greenway Master Plans. Funding for the LWCF or similar Bill would greatly help meet the needs of this community.

The Parks and Recreation staff recommends City Council approving a resolution supporting funding for the Land and Water Conservation Program.

RESOLUTION BOOK NO. 25 - PAGE 156

D. RESOLUTION NO. 99-32 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AGREEMENTS TO PURCHASE 2.09 ACRES AT THE CORNER OF BELL ROAD AND NEW HAW CREEK ROAD TO BE USED FOR PARKING FOR BULLMAN PARK

Summary: The consideration of a resolution and budget amendment, in the amount of $55,000 out of Fund Balance, to purchase property located at the corner of Bell Road and New Haw Creek Road to be used for parking at Bullman Park.

Currently, the East Asheville Youth Activities Program is serving over 500 children in the youth baseball and softball program. For many years, problems have occurred in regard to adequate parking for the activities at the park. The Parks and Recreation Advisory Board has identified this needs as a high priority within the department. For several months, staff has been working with an adjacent property owner for the purchase of 2.09 acres at the corner of Bell Road and New Haw Creek Road. This purchase would be used for the development of a parking lot to meet the above need. The current property owner has agreed to a price of $55,000. Staff is requesting an appropriation from Fund Balance to go towards the purchase of this property.

The Parks and Recreation Advisory Board and staff recommend City Council authorize the City Manager to enter into any agreements for the purchase of this property and approval of a budget amendment in the amount of $55,000 for the purchase of 2.09 acres at the corner of Bell Road and New Haw Creek Road.

RESOLUTION BOOK NO. 25 - PAGE 157

E. ORDINANCE NO. 2547 - BUDGET AMENDMENT FOR THE PURCHASE OF 2.09 ACRES AT THE CORNER OF BELL ROAD AND NEW HAW CREEK ROAD

Summary: See Item "F" above.

ORDINANCE BOOK NO. 17 - PAGE 266

F. MOTION SETTING A PUBLIC HEARING ON MARCH 9, 1999, TO REZONE PROPERTY LOCATED ON LIVINGSTON STREET, SOUTH FRENCH BROAD AVENUE AND CHOCTAW STREET FROM OFFICE DISTRICT TO OFFICE II DISTRICT

G. RESOLUTION NO. 99-33 - RESOLUTION RENAMING THE REID ANNEX BUILDING IN MEMORY OF LONNIE D. BURTON

Summary: The consideration of a resolution naming the Reid Annex Building in memory of Lonnie D. Burton.

The Opportunity Corporation has entered into a 10-year lease on the Reid Center Annex Building and is renovating the facility in order to open a Head Start Child Development Center. This program will offer education and socialization activities to low-income children and their families. Mr. Lonnie D. Burton served as Executive Director of this organization for 23 of the 28 years of his employment here. He was passionate about this program and believed that early intervention is a way to move people out of poverty. Therefore, the Opportunity Corporation wants to honor his memory and his family by naming this Head Start facility and City-owned building the "Lonnie D. Burton Child Development Center."

The Parks and Recreation Advisory Board and staff support this request and recommends that City Council approve renaming the Reid Center Annex Building as the "Lonnie D. Burton Child Development Center."

RESOLUTION BOOK NO. 25 - PAGE 158

H. RESOLUTION NO. 99-34 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER THE ANNEXATION OF NONCONTIGUOUS PROPERTY KNOWN AS THE "RICHMOND HILL ROAD PROPERTY" AND SETTING A PUBLIC HEARING ON MARCH 9, 1999

Summary: The consideration of a resolution stating the intent of the City of Asheville to consider the annexation of noncontiguous property known as the "Richmond Hill Property" and setting a public hearing on March 9, 1999.

In order to annex City-owned property, the North Carolina General Statutes specify that the City Council initiate the process by adopting a resolution stating its intent to annex the property, and to fix a date on a public hearing to permit any resident of the City to appear and be heard on the question of the desirability of the annexation.

This annexation area would be a satellite annexation as it is not directly adjacent to the existing corporate limits. The standards for such annexations are specified in N. C. Gen. Stat. sec. 160A-58.1 and include: (1) The annexation area may not be more that 3 miles from the existing corporate limits; (2) The annexation area may not be closer to another city or town; (3) The city must be able to provide the same services to the annexation area that it provides in the rest of the city; (4) If the area is part of a subdivision, the entire subdivision must be included; and (5) The sum of the area in satellite areas may be no more than 10% of the area in the primary corporate limits. This area meets these standards.

The Richmond Hill property consists of 183 acres located between Richmond Hill Drive, Adams Hill Road and the Norfolk Southern Railway tracks along the French Broad River. It is located approximately 70' west of the existing City limits along Richmond Hill Drive. Both water and sewer lines are not extended to the property, but are available approximately 250' to the east of the property.

The Planning and Development Department recommends City Council adopt a resolution stating its intent to annex and set a public hearing for March 9, 1999.

RESOLUTION BOOK NO. 25 - PAGE 159

I. RESOLUTION NO. 99-35 - RESOLUTION STATING THE INTENT OF THE CITY OF ASHEVILLE TO CONSIDER THE ANNEXATION OF NONCONTIGUOUS PROPERTY KNOWN AS THE "BENT CREEK PROPERTY" AND SETTING A PUBLIC HEARING ON MARCH 9, 1999

Summary: The consideration of a resolution stating the intent of the City of Asheville to consider the annexation of noncontiguous property known as the "Bent Creek Property" and setting a public hearing on March 9, 1999.

In order to annex City-owned property, the North Carolina General Statutes specify that the City Council initiate the process by adopting a resolution stating its intent to annex the property, and to fix a date on a public hearing to permit any resident of the City to appear and be heard on the question of the desirability of the annexation.

This annexation area would be a satellite annexation as it is not directly adjacent to the existing corporate limits. The standards for such annexations are specified in N. C. Gen. Stat. sec. 160A-58.1 and include: (1) The annexation area may not be more that 3 miles from the existing corporate limits; (2) The annexation area may not be closer to another city or town; (3) The city must be able to provide the same services to the annexation area that it provides in the rest of the city; (4) If the area is part of a subdivision, the entire subdivision must be included; and (5) The sum of the area in satellite areas may be no more than 10% of the area in the primary corporate limits. This area meets these standards as follows:

The Bent Creek property consists of two tracts of land which together are located between Brevard Road and I-26 along the French Broad River. One tract consists of 137 acres and the other tract consists of 1.78 acres. The tracts are located approximately 4,500' south of the existing City limits in the Biltmore Square Mall area. The two tracts together are served by both water and sewer.

The Planning and Development Department recommends City Council adopt a resolution stating its intent to annex and set a public hearing for March 9, 1999.

RESOLUTION BOOK NO. 25 - PAGE 162

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Cloninger moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Sellers and carried unanimously.

III. PUBLIC HEARINGS:

Vice-Mayor Hay moved to amend the agenda to consider the public hearing regarding rezoning on property located on Asheland Avenue, Grove Street and Morgan Street at this time. This motion was seconded by Councilman Tomes and carried unanimously.

A. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED ON ASHELAND AVENUE, GROVE STREET AND MORGAN STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Mayor Sitnick opened the public hearing at 5:15 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance rezoning property located on Asheland Avenue, Grove Street and Morgan Street from Office Business District to Office II District.

The Asheville Planning and Zoning Commission, at their February 3, 1999, meeting, reviewed and recommended approval of the rezoning of property located on Asheland Avenue from Office Business District to Office II District. Eight parcels are included in the area to be rezoned. Three of the parcels front on Asheland Avenue, four on South Grove Street, and one is a through lot with frontage on both Asheland Avenue and South Grove Street. Current land uses on the parcels include medical offices, residential structures used for offices, and residential uses. Structures up to 30,000 sq. ft. in gross floor area are permitted under the current Office Business zoning. The proposed zoning would reduce the permitted structure size to a footprint of 8,000 sq. ft. and a maximum gross floor area of 16,000 sq. ft. The smaller scale of development permitted in the Office II District would be a better fit with the residential uses found on South Grove Street and could also be better served by the streets in the area, particularly South Grove Street. There were significant comments from the residents of South Grove Street during the public hearing. The residents were fearful that the proposed rezoning would permit more intense development in the area. Concern was also expressed regarding traffic on the residential streets, particularly cut-through traffic using Dailey, South Grove, and Morgan Streets as a short cut between South French Broad and Asheland Avenues.

The Asheville Planning and Zoning Commission voted 6 to 0 to recommend approval of the rezoning. The Planning and Development staff recommends approval of the rezoning.

Mr. Green said that he recently spoke with the property owners in the area and they requested a one foot strip be zoned residential along the Grove Street side to prohibit traffic from exiting onto Grove Street. Mr. Green felt it would be better to talk to the Traffic Engineer to find more comprehensive ways to address the traffic in the neighborhood.

Upon inquiry of Councilman Tomes, Mr. Green said that prior to adoption of the Unified Development Ordinance, South Grove Street was zoned commercial service, which was a much more intensive use, and staff is now trying to refine that zoning to be more compatible with the scale of the residential area that abuts it.

When Councilman Cobb asked about what type of traffic studies have been done in the area, Mr. Green said that no studies have been done yet. However, Planning staff will work with the Traffic Engineer to find a solution to problems with cut-through traffic and other types of traffic problems the area is currently experiencing.

Upon inquiry of Vice-Mayor Hay, Mr. Green said that the Planning and Zoning Commission did not have the one foot strip suggestion in front of them for consideration, however, they did hear the traffic concerns.

The following residents spoke in opposition to the proposed rezoning, unless there was a one foot strip of residential land on the Grove Street side. Some comments were, but are not limited to: the Office II District is not in the scale of the residential neighborhood; concerns about more traffic onto the narrow S. Grove Street; need to keep the neighborhood in tact and affordable for minorities; there is a lot of on-street parking on S. Grove Street already;

Mr. Mel Thomason, owner of 9 Blanton Street
Mr. Joe Craig, 155 S. Grove Street
Mr. Gary Sanford, 139 S. Grove Street
Ms. Mary Warren, 136 S. Grove Street

Dr. Gray, Senior Managing Physician for Asheville Women's Medical Center and owner of some of the property under discussion, said that he accepted the City's request to "down-size" his property from Office District to Office II District because of his sensitivity to the neighborhood. He understands that the primary problem is the amount of cut-through traffic from South French Broad to Asheland Avenue. However, as a property owner, he has a serious problem in accepting the one foot strip limitation, which further reduces his use of that property in the future. He said they have commercial access to that property now and the one foot restriction would limit that commercial access and would make that piece of property not useful.

Dr. Gray responded to questions from Councilman Tomes relative to the rental properties he owns in the area.

Councilman Tomes was concerned with how fragile the neighborhood is and personally felt that if we are going to embrace the sensitivity in a holistic manner, one foot would not be asking too much. He was concerned about the encroachment into the residential neighborhood in five-ten years from now.

Councilwoman Field asked if there is, at the present time, access to any of the lots that serve Asheville Women's Medical Center, from S. Grove Street. Dr. Gray responded that two lots (5418 and 5402) are commercial property that have been developed as commercial property and there is access from there to S. Grove Street. The other two lots (5544 and 5650) could potentially have access out of 5418 and 5402, so to put a foot restriction would only further limit any architectural development that would meet the requirements allowed for that property.

Upon inquiry of Councilwoman Field, Mr. Green said that if Council zoned the one foot strip residential, the access would remain.

There was some discussion about the property Dr. Anderson owns (5698).

Councilman Cloninger suggested remanding this matter back to the Planning and Zoning Commission for their review of the one-foot strip of residential land. The Commission, and/or City staff, may think of other creative ideas to protect the neighborhood. Or, if Council did not want to remand the matter back to the Commission, he suggested a delay in the decision for two weeks so that Council can visit the area with the one foot strip in mind.

Mr. Green said that the earliest this matter could be reviewed by the Planning & Zoning Commission would be at their April 7, 1999, meeting.

Mayor Sitnick closed the public hearing at 6:14 p.m.

Councilman Cloninger moved to remand this matter back to the Planning and Zoning Commission to consider the one-foot strip, as well as any other ideas that the Commission, or staff or the public might come up with to accomplish the same goal of protecting the neighborhood. This motion was seconded by Councilman Tomes.

Upon inquiry of Councilwoman Field, Mr. Green said that he would research the impacts of split zoning and report back to Council his results.

Vice-Mayor Hay asked Mr. Green to contact Dr. Anderson and report back to Council his feelings about this rezoning.

The motion made by Councilman Cloninger and seconded by Councilman Tomes carried unanimously.

Councilman Sellers moved to amend the agenda to consider the presentation by Speedway 99 at this time. This motion was seconded by Councilwoman Field and carried unanimously.

B. ASHEVILLE MOTOR SPEEDWAY

On behalf of Speedway 99, Mr. Ron Crane expressed their appreciation to the Asheville City Council, the City Manager, the City Attorney and Parks & Recreation Director Irby Brinson for their work associated with restoring racing at the Asheville Motor Speedway for the 1999 racing season. Each member of Speedway 99 presented the Mayor, City Council and City Attorney Oast with a model race car. They especially thanked Councilman Sellers as the lead Council member who worked directly with their Committee.

On behalf of City Council, Mayor Sitnick said that this was a very unified effort by everyone who participated in it, from City staff, to City Council, to RiverLink, to the donors, to the spokespeople for Speedway 99, but mostly to the people of Speedway 99 who were so passionate from the very beginning, yet so willing to work things out for everyone's best interest. She felt this was a model for any kind of dealings in the future that bring people together who don't necessarily agree, but who can work through their difficulties and concerns.

C. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED ON CENTRAL AVENUE, ORANGE STREET, LIBERTY STREET, CLAYTON STREET AND ORCHARD STREET OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

ORDINANCE NO. 2548 - ORDINANCE TO REZONE PROPERTY LOCATED ON CENTRAL AVENUE, ORANGE STREET, LIBERTY STREET, CLAYTON STREET AND ORCHARD STREET OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Mayor Sitnick opened the public hearing at 6:30 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance rezoning property located on Central Avenue, Orange Street, Liberty Street, Clayton Street and Orchard Street from Office Business District to Office II District.

The Planning and Zoning Commission, at their February 3, 1999, meeting, reviewed and recommended approval of the rezoning of property located on Central Avenue and Orange Street from Office Business District to Office II District. Fifty-four parcels are included in the area to be rezoned. In addition to Central Avenue and Orange Streets, streets providing access to the parcels are Orchard, Clayton, and Liberty Streets. Current land uses on the parcels include a wide range of offices, churches, clinics, and residential uses. With the exception of a few structures, the buildings are of a residential scale and design. Structures up to 30,000 sq. ft. in gross floor area are permitted under the current Office Business zoning. The proposed zoning would reduce the permitted structure size to a footprint of 8,000 sq. ft. and a maximum gross floor area of 16,000 sq. ft. The smaller scale of development permitted in the Office II District would be a better fit with the residential scale uses found in the area and in the Office District to the north. The residential scale streets in the area, on which parking is permitted, could better accommodate the smaller scale structures permitted in the Office II District. There were a few comments in support of the rezoning from property owners in and around the area to be rezoned. One property owner was concerned about an existing use which is non-conforming under the Office Business zoning and would remain non-conforming under the Office II zoning.

The Asheville Planning and Zoning Commission voted 6 to 0 to recommend approval of the rezoning. The Planning and Development staff recommends approval of the rezoning.

Councilwoman Field asked if she would have a conflict of interest since one of the properties which contains the non-conforming use is a client of the firm that she works for. City Attorney Oast said that he felt there was no conflict of interest.

Mr. Al Austin, President and CEO of Teleco Credit Union and Affiliates located at 7 Orchard Street (Lot 0295), said that long range plans for expansion of their facility will be virtually eliminated if their property is rezoned to Office II District.

Upon inquiry of Councilwoman Field about excluding Lot 0295 from the rezoning request, Mr. Green said that would create an unusual zoning pattern, however, it could be a transition lot from Office Business to Office II to Office.

Mayor Sitnick closed the public hearing at 6:43 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Hay moved for the adoption of Ordinance No. 2548, excluding PIN No. 9649.19-52-0295, which is to remain zoned Office Business District. This motion was seconded by Councilman Cloninger and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 268

D. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED ON MAUDE AVENUE AND SUMMIT AVENUE FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

ORDINANCE NO. 2549 - ORDINANCE TO REZONE PROPERTY LOCATED ON MAUDE AVENUE AND SUMMIT AVENUE FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Mayor Sitnick opened the public hearing at 6:44 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Gerald Green, Senior Planner, said that this is the consideration of an ordinance rezoning property located on Maude Avenue and Summit Avenue from Office Business District to Office II District.

The Planning and Zoning Commission, at their February 3, 1999, meeting, reviewed and recommended approval of the rezoning of property located on Maude Avenue and Summit Avenue from Office Business District to Office II District. Sixteen parcels, all located at least one lot back from Hendersonville Road, are included in the area to be rezoned. Current land uses on the parcels include offices, a bank, residential uses, and vacant. The current Office Business zoning of the property permits structures up to 30,000 sq. ft. in gross floor area. The proposed zoning would reduce the permitted structure size to a footprint of 8,000 sq. ft. and a maximum gross floor area of 16,000 sq. ft. The streets which access the property are narrow and it is felt that the scale of development permitted under the Office II zoning can be better accommodated by the limited street capacity in the area. The smaller scale of development permitted in the Office II District would also fit better with the scale of adjacent development. There were no comments from the public regarding this request.

The Asheville Planning and Zoning Commission voted 6 to 0 to recommend approval of the rezoning. The Planning and Development staff recommends approval of the rezoning.

Ms. Charlotte Penley, 1 Summit Avenue, asked if the City could maintain Summit Street and what impact the rezoning would have on her property. Mr. Green said that rezoning the property would have no impact on Summit Avenue. He said that Summit Street has never been developed as a City street and the City has no obligation to maintain it. However, if the property were developed for any type of office use or single- or multi-family residential, other than a single lot, the developer would be required to provide an access that met the standards set forth in the City's Standards and Specifications Manual.

Mayor closed public hearing at 6:50.

Councilman Tomes questioned stormwater runoff control by the City.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Field moved for the adoption of Ordinance No. 2549. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 270

E. PUBLIC HEARING RELATIVE TO FILING OF AN APPLICATION FOR MASS TRANSIT FUNDING

RESOLUTION NO. 99-36 - RESOLUTION AUTHORIZING THE FILING OF AN APPLICATION WITH THE FEDERAL TRANSIT ADMINISTRATION

Mayor Sitnick opened the public hearing at 6:51 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Bruce Black, Urban Planner, said that this is the consideration of a resolution applying for Mass Transit Funding in the amount of $470,631 for Fiscal 1998/99.

The Fiscal 1998/99 Annual Operating Budget included Asheville Transit Authority funding as follows:

Operating revenues	$675,000
Operating subsidy:	
City of Asheville	813,485
State funding	182,165
Federal funding	470,631
Total funding	$2,141,281

In order to receive the Federal funding, the City Council must hold a public hearing at which time the service will be discussed, and certain environmental, land use planning and social impacts of the service will be outlined. Upon completion of the public hearing, a resolution authorizing the Mayor to file an application for the grant and provide certain required assurances to the U.S. Department of Transportation should be considered.

Staff recommends City Council consider authorizing the Mayor to file an application for Mass Transit funding in the amount of $470,631 for Fiscal Year 1998/99.

Mayor Sitnick closed the public hearing at 6:53 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Tomes moved for the adoption of Resolution No. 99-36. This motion was seconded by Councilman Cobb and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 165

IV. UNFINISHED BUSINESS:

V. NEW BUSINESS:

A. MOTION DIRECTING STAFF ON HOW TO PROCEED WITH FUNDING THE PRITCHARD PARK PROJECT

Mr. Alan Glines, Assistant Landscape Architect, said that the Parks and Recreation Department has been directed by Council to study funding options for the estimated budget for the Pritchard Park project.

Mr. Glines reviewed the following project highlights: lighting in park space and street lighting; rock work and small water feature in the park; outdoor tables and chairs along sidewalks and the park; sidewalk expansion and use of special paving materials; park landscape plantings; benches along sidewalks and the park; improvements to pedestrian crosswalks and connections to the park; community gathering space in the park; traffic calming measures and roundabouts; public art which may include historical markers and sculptural elements and artwork; and street trees, tree grates and decorative sidewalk planters.

He said that the total estimated project budget is $1.4 million. This includes: demolition (pavement, bus shelter removal and tipping fees) - $150,000; streets and sidewalk improvements (including roundabouts) - $590,000; park space development - $300,000; public art components - $160,000; and design fees and contingency - $200,000. He said that approximately $350,000 would be for the park itself, with the balance of the estimate being traffic improvements, sidewalk and streetscape improvements.

He said funding sources for the project include: City Capital Improvement Project Budget (approximately 1/3 of the proposed budget over the next two years to provide seed money to match grants and to support partial construction); grants from relevant state, federal and private grant sources to be identified and applied for; donations from private individuals, corporations, organizations; and grass roots fundraising.

As a result of the discussion at the February 16, 1999, worksession, Council directed staff to coordinate the fundraising committee with City Council members being closely involved and helping in the fundraising efforts for the project. We might include the assistance of a non-profit agency to apply for some of the grants that have restricted funds. The non-profit agency would hold the money for the project and then turn it over on behalf of the City for construction. We could also seek possible funding, through a grant, to hire a professional fundraiser to manage the project for the City. He said the are still in the process of evaluating the conceptual plan for traffic feasibility. He said we are also looking at the option of phasing in portions of the plan.

Upon inquiry of Vice-Mayor Hay, Mr. Glines said that they will pursue funding options with the N.C. Dept. of Transportation.

When Vice-Mayor Hay asked if it would be possible to do the park before we got the traffic improvements done, Mr. Glines said that sometimes it's hard to expand a park footprint and not have the traffic improvements in place, however, they will work with the consultant on phasing options.

Mr. Chris Peterson, representing the Merchants' Action Coalition ("MAC"), read the following letter dated February 16, 1999, from Joe Eckert, President of MAC: "We the members of MAC which consists of downtown business and property owners were excited to receive information on the 18 million dollar Bond Issue for Parks and Greenways. However, after we reviewed the information we were extremely disappointed that no money has been allocated for Pritchard Park or for that matter any other parks located in downtown. As downtown property owners who have helped revitalize the city we as a group cannot support this Bond Issue until it is revised to include Pritchard Park. If you have any questions please contact Beth Stickle at 254-6447 who is a member of our Budget Committee." He urged City Council to re-direct $1 million of the bond money to complete the Pritchard Park Project.

Mr. Irby Brinson, Director of Parks & Recreation, explained that there was a 100 member citizens committee that went through a public process to prioritize projects for the bond. Basically every issue that was identified in the Parks & Recreation Master Plan was on that list. Issues that were currently funded, which Pritchard Park was currently funded with $250,000, were not included as far as prioritization. The committee went through a multi-voting process and identified the top issues. He said that in addition to the $200,000 in the Capital Improvement Project ("CIP") for Pritchard Park, he is requesting an additional $300,000 be included in the CIP for this year, which would be the City's 1/3 funding. He said that the Finance Director felt that the Parks, Recreation and Greenway Bond should deal with parks and recreation issues only and that the traffic issues should be addressed with the N.C. Dept. of Transportation.

Councilman Cloninger said that the fact that Pritchard Park is not in the bond referendum package is not a reflection that it's not a high priority. Actually, that it's already in the CIP project budget indicates that it is an extremely high priority and that it's one that will go forward, regardless of what happens with the parks, recreation and greenway bond referendum. He was concerned with the $1.4 million estimate for the Project. He felt we needed to look at ways to cut that down and concentrate on making that park itself a useable, attractive greenspace as quickly as possible.

Mayor Sitnick noted that the park itself can be completed with the City's one-third. The street and sidewalk improvements and the roundabouts will have a N.C. Dept. of Transportation component. She also noted that the public art might have to wait for another phase of the project.

Mr. John Driscoll, architectural intern, showed an illustration of the park where the street configuration utilizes the center of the square rather than the perimeter. He felt that the City should direct the money towards greenspace primarily so we have a true park.

Ms. Regina Trantham, President of the Battery Hill Association and member of MAC, felt that the Pritchard Park plan is a well thought out plan, however, she felt it was too expensive. She suggested maybe volunteerism, use of prison labor or use of interns. As a business owner, she was concerned about how long the project will take to be completed. Since the buses have been moved from Pritchard Park, business has declined 10-15% because of the state the park has been left in. She also supported MAC's position that Pritchard Park be included in the bond referendum.

As a fundraising idea, Ms. Cynthia Wade suggested citizens purchase bricks (with their names engraved) that could be incorporated into the overall design. She said $2. 5 million could be raised if 125,000 bricks were purchased at a price of $20 a brick.

Councilman Cloninger felt that making the area an attractive, usable greenspace at Pritchard Park should be a high priority. His concern is that if we can't raise $1.4 million, we're not even going to go forward expeditiously on improving the park itself. He said that we should start with making the park a nice area and then improve on the surrounding area if the money is raised. The design the consultant came up with is great, however, we can't afford it. A million dollars will be hard to raise for this project and he wasn't sure if we really want to raise $1 million for a project that is only going to affect one City block. He encouraged Council to scale down the project and concentrate on the design and building of the greenspace in such a way that in future years we can improve the surrounding area. If we don't specifically concentrate on the park area now and if we don't put ourselves on a specific timeline for improving that park, he sees this plan sitting on the shelf and nothing being done.

Councilman Tomes agreed with Councilman Cloninger. He, too, felt we should scale the project down with a beautiful greenspace. Several people have told him that our infrastructure needs should be a major priority over a $1 million park.

Councilwoman Field said felt it was very important to coordinate the demolition work at Pritchard Park at the same time we put in the water lines down Haywood Street because of how it will affect the merchants. To that end, she felt like we should do the whole Pritchard Park Project at one time. The roundabouts are very important to her in that they are a new concept that the N.C. Dept. of Transportation has just said they are very supportive of. She thinks that we can get that portion of the money from the N.C. Dept. of Transportation enhancement funds. The $160,000 for public art is something that we can easily put out as a public/private partnership and we have been able to get large contributions for artwork on the Urban Trail. The largest portion of the $150,000 for demolition is for tipping fees at the County Landfill. Perhaps we can get the County to waive some of those tipping fees. If we consider one of our goals this year to be able to provide for the cultural, arts, recreation and entertainment of the City, then downtown and Pritchard Park is very important to achieving that goal. The merchants of downtown deserve the park and deserve to have the opportunity to have the wonderful design that has been designed by a very long public process. She strongly supported that the project be done all at once as designed. She felt Pritchard Park is the key to the very best downtown in all of North Carolina and strongly supported moving forward.

Mayor Sitnick agreed with Councilwoman Field. She did note that if the bond referendum fails, the Pritchard Park project will still move forward. Asking the County to waive the tipping fees is a great idea since Pritchard Park is in Buncombe County. In addition, there is the potential of Better America Bonds that have been proposed for greenspaces. Pritchard Park is an aggressive design and we have other needs in the community, however, she felt that there are ways that we can scale this back a little and still create a magnificent downtown focal point. She would like for us to work with the design that has been created, find the ways to be more efficient with the money that we have and then go from there. She urged the City Manager to include the $300,000 request in the CIP for Pritchard Park next fiscal year.

Vice-Mayor Hay recalled that the consultant said that this project can be completed in phases, that we wouldn't have to raise the money all at one time, and that they would come back with a plan for all that. He felt that we really need to determine how much money we really do need to raise after taking out all the different aspects, like possible N.C. Dept. of Transportation funds. He would like to see some effort put into phasing the project in, like creating the greenspace first.

Councilman Cobb supported the project being developed. He felt that after we take out all the possible funding sources, we could possibly reduce the $1.4 million needed to $650,000, most of which the City will have earmarked for this project. He felt the citizens of Asheville would love to contribute and be a part of this project. He felt that the project would need to be completed in phases.

After Mayor Sitnick expressed concerned that MAC would not support the bond referendum if Pritchard Park was not included in the bond, Mr. Brinson said that he would be happy to attend the next MAC meeting to make them aware of why Pritchard Park was not included in the bond referendum, in addition to the many things that the City does to support the downtown.

When Mr. Peterson said that MAC was willing to work with the City and suggested adding $1.5 million to the bond referendum, Mr. Brinson explained that the bond referendum amount could not be changed.

Councilwoman Field suggested a Council committee meet with staff and resolve some of these problems on how we are going to proceed and report back to the full Council with a recommendation. Since the traffic study on the roundabouts won't be completed for at least two months, that will give the committee time to make some decisions so they can give staff clear direction on how to proceed.

Councilman Cloninger suggested Council direct staff to start looking at ways to phase in this project, as opposed to doing it all at once.

Mayor Sitnick said that she would formally request that Buncombe County consider waiving the tipping fees for demolition for Pritchard Park.

It was the consensus of City Council for Councilwoman Field and Councilman Cloninger (Council committee) to meet with City staff and decide on how the City should proceed in the Pritchard Park Project and report back to the full Council with a recommendation. Staff will also begin looking at ways to phase in the project.

B. RESOLUTION NO. 99-37 - RESOLUTION OF INTENT TO CONSIDER AN ORDINANCE AMENDING THE CHARTER AND RELATED LAWS OF THE CITY OF ASHEVILLE TO PROVIDE FOR SELECTION OF THE MAYOR AND CITY COUNCIL BY NON-PARTISAN ELECTION AND RUNOFF AND SETTING A PUBLIC HEARING ON MARCH 9, 1999

Ms. Patsy Meldrum, Assistant City Attorney, said that this is a resolution of intent to consider an amendment to the City Charter to change the method of election of Mayor and Council to General Election – Runoff and setting a public hearing on March 9, 1999.

She reviewed with Council the current method (non-partisan primary and general election) and then the method under discussion (general election and runoff).

Assuming that Council adopts the resolution of intent to consider the above-described change at its February 23 meeting, the earliest that a public hearing could be held would be March 9, and the earliest that the ordinance could be adopted would be March 23.

The statute provides that the ordinance amendment may be put to a vote of the people, either by Council, or by a petition signed by 10% of voters qualified to vote in municipal elections. Obviously, if this occurs, the timing of the process will be altered.

If Council wishes to change its method of election to the primary-runoff method, the resolution of intent should be adopted. The proposed resolution assumes that the schedule discussed above is acceptable, but Council can adjust the schedule within certain limitations.

Ms. Meldrum then reported the results of various questions Council raised at their worksession on February 16, 1999, i.e., who can call for a runoff, and information from the City of Wilmington and the City of Monroe who have non-partisan general and runoff elections.

Vice-Mayor Hay said that he was concerned about the October general election and whether that would reduce voter participation, which is not what we want to do. He said that if there are no runoffs, it is in furtherance of one of our goals which is to reduce the cost of running for election. If there is only one election, whether it be campaign finance or just simply the cost of holding the election, it seems like that is something that City Council should look into. He would like to go forward with the public hearing process and see if we want to consider making a change.

Upon reviewing the information Ms. Meldrum submitted for the City of Wilmington, she asked Ms. Meldrum to find out the percentage of the voter turnout in the City of Wilmington elections. She said that her tendency at this time is to leave the elections as they are now, but would like to see what the community thinks.

Councilman Cloninger also preferred to keep the election process as it is now, however, he did feel that it is a good idea to go through the process and get additional information.

Mr. Brian Peterson felt that since City Council has been making some changes in their election process in the last few years (change in how the Mayor is elected, change to four-year staggered terms, partisan elections to non-partisan elections), he felt that the citizens might need time to get adjusted to those changes before making another change. He understood the concern about the expenses, but given the way that this system will be set up, it's generally going to be the incumbents and the well-known candidates who will save money because if you're an unknown you're not going to win that first time and you're still going to have to campaign in the run-off. It gives the appearance that it's the incumbent's protection plan. He also felt it might make it more difficult for a minority candidate to get elected to City Council.

Councilman Cobb said that if the voters wanted the election process changed, he would have no objection making a change.

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Hay moved for the adoption of Resolution No. 99-37. This motion was seconded by Councilman Cloninger and carried on a 5-2 vote, with Mayor Sitnick and Councilman Cobb voting "no".

RESOLUTION BOOK NO. 25 - PAGE 166

C. RESOLUTION NO. 99-38 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH LOCKWOOD GREENE CONSULTING INC. TO PREPARE THE STRATEGIC PLAN FOR ECONOMIC DEVELOPMENT

ORDINANCE NO. 2550 - BUDGET AMENDMENT TO INITIATE THE STRATEGIC PLAN FOR ECONOMIC DEVELOPMENT

Assistant City Manager Doug Spell said that this is the consideration of selecting a consultant to prepare a Strategic Plan for economic development for the City of Asheville.

One critical component for the future positive growth of the City of Asheville pertains to an aggressive economic development program. In order to have an effective economic development program the focus must be well defined. Therefore, staff prepared a request for proposals (RFP) for a Strategic Plan for Economic Development. The RFP outlined a Scope of Work consisting of ten (10) tasks as a part of the preparation of a Strategic Plan. He then reviewed the Scope of Work from the RFP.

The RFP was advertised in The Asheville-Citizen Times and The Charlotte Observer on December 6, 1998. Additionally, Staff sent out notices to prospective consulting firms including three (3) potentially interested firms from the list of certified minority businesses.

The City received proposals from four (4) consulting firms. The cost estimate from the proposals received ranged from $60,000 to $162,500. Additionally the range in time schedules outlined in the proposals stipulated that the Strategic Plan would be completed in six (6) to ten (10) months.

A selection panel comprised of Dale Carroll, Executive Director for AdvantageWest, Bruce Tompkins, Local Merchant and Chairman of the City Business and Development Commission, Jim Westbrook, and Douglas Spell reviewed and evaluated the proposals. An evaluation criteria was prepared in order to objectively consider each proposal. The evaluation criteria included items such as:

- prior experience in the tasks comprising the Scope of Work;
- firm's approach to accomplish the plan;
- involvement of stakeholders;
- availability to begin the project and time schedule to complete;
- cost estimate included in the proposal.

The selection panel recommended the selection of Lockwood Greene Consulting, Inc. to prepare the Strategic Plan for Economic Development. This recommendation is based upon the national scale of economic development, experience of the firm, significant client contact, opportunity for new ideas, closer proximity of firm location, and national identity of firm. Their cost estimate is in the amount of $66,000 plus estimated expenses of $12,700 for travel and other reimbursables for a total estimate of $78,700.

The Strategic Plan has been listed as a priority project of City Council. In order to initiate the Strategic Plan a budget ordinance amendment will be required. The amendment will appropriate $67,700 from Fund Balance for this project. Additionally, funds in the amount of $11,000 are available from Community Development Block Grant (CDBG) funds which have previously been earmarked for "planning." The Strategic Plan will provide some elements of economic diversification consistent with HUD direction for CDBG funds. If City Council concurs, Staff will include the CDBG funds in the budget amendment.

Staff recommends the selection of Lockwood Greene Consulting, Inc. to prepare the Strategic Plan for Economic Development for the City of Asheville in the submitted proposal amount of $78,700 and approval of an appropriation from Fund Balance to fund this project.

Upon inquiry of Councilwoman Field about contingency, Mr. Spell said this is a not to exceed amount so if there were unanticipated expenses, they would have to come back to City Council for an additional appropriation.

Mr. Spell and Mr. Kalzow, consultant with Lockwood Greene, responded to Councilman Tome's inquiry about their experience in dealing with ethnic groups.

Mayor Sitnick said that she feels very strongly that we have to assess as part of our economic plan the impact of poverty in general and the impact of the economic gap that exists here and across this nation and to make every single person a part of our investment portfolio. She said the Chamber of Commerce and Advantage Asheville has been very successful in many of their efforts to grow the economy and keep it vibrant. She would like to concentrate on those types of positive efforts that have occurred in this community and concentrate on the positive comments from people in the community as the process begins. She wants to do everything in our power to say away from the misrepresenting negative comments that often times comes from certain segments of the community that are not necessarily reality. There is more good happening here than negative happening here. She stressed that we need to accentuate the positive rather than concentrate on the negative.

Mr. H.K. Edgerton, Board Director for the Housing Alliance Committee for Buncombe County, said that until all issues of affordable housing for the poor and the working poor have been worked out that will allow the poor people of this community to realize their dreams of home ownership, he is personally opposed to any expenditure of funds for economic development. He felt there was not enough ethnic minority components throughout the City of Asheville.

Mr. Brian Peterson said that as the consultant is developing his study, the City might give some thought to its structure of the Planning & Development Department in conjunction with the Economic Development Director.

Mayor Sitnick asked that all references to economic development be prefaced with the word "sustainable."

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and ordinance and they would not be read.

Councilman Cobb moved to adopt Resolution No. 99-38. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 167

Councilwoman Field moved for the adoption of Ordinance No. 2550. This motion was seconded by Councilman Tomes and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 272

VI. OTHER BUSINESS:

A. APPROVAL OF THE MINUTES OF THE ANNUAL RETREAT HELD ON JANUARY 29, 1999, THE REGULAR MEETING HELD ON FEBRUARY 9, 1999, AND THE WORKSESSION HELD ON FEBRUARY 16, 1999

Councilman Tomes moved for the adoption of the minutes of annual retreat held on January 29, 1999, the regular meeting held on February 9, 1999, and the worksession held on February 16, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

B. PRODUCT DEVELOPMENT TASK FORCE

At the request of Mayor Sitnick, Councilman Sellers appointed Vice-Mayor Hay to the Joint Task Force of the Chamber of Commerce and Tourism Development Authority Product Development Task Force. This motion was seconded by Councilman Cobb and carried unanimously.

C. CLAIMS

The following claims were received by the City of Asheville during the week of February 5-11, 1999: Robin Bokur (Civic Center) and Howard Frankel (Water).

The following claims were received by the City during the week of February 12-18, 1999: Asheville Transit (Water), Kim Duncan (Water), Jr. League of Asheville (Water), Katrina Robinson (Fire) and Rhea Ferguson Jr. (Water).

These claims have been referred to Asheville Claims Corporation for investigation.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

CLOSED SESSION

At 8:57 p.m., Councilman Sellers moved to go into closed session for the following reasons: (1) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange or lease - G.S. 143-318.11(a)(5); (2) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or conditions of initial employment of an individual public officer or employee or prospective public officer or employee - G.S. 143-318.11(a)(6); and (3) To consult with an attorney employed by the City in order to preserve the attorney-client privilege between the City and its attorney. The parties to the lawsuits about which the Council expects to receive advice are: (A) CC&J Enterprises, Jackson Park/Woolsey Neighborhood Association, and City of Asheville; and (B) SBA, Inc., BellSouth Carolina PCS, L.P., d/b/a BellSouth Mobility DCS, Paul Tescione and City of Asheville - G.S. 143-318.11(a)(3). This motion was seconded by Councilwoman Field and carried unanimously.

At 10:20 p.m., Councilman Sellers moved to come out of closed session. This motion was seconded by Councilman Cobb and carried unanimously.

VIII. ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 10:20 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 2, 1999 - 3:00 p.m.

Worksession

Present: Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman M. Charles Cloninger; Councilman Earl Cobb; Councilwoman Barbara Field; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson

Absent: None

CONSENT:

Engineering Contract - Brevard Road Water Main Extension

Summary: The consideration of a resolution concurring with the Regional Water Authority's action on February 16, 1999, to approve the award of an engineering services contract to Mattern & Craig, not to exceed $30,000, for engineering to complete a 24" water main extension along Brevard Road.

On December 15, 1998, the Water Authority adopted a budget resolution amending the 29 Fund to allow available contingencies for the Mills River Water Treatment Plant to be transferred for engineering expenses to extend an existing 24" water line in Brevard Road. This extension will be part of a future major transmission loop as recommended in the long-term Master Plan adopted by the Water Authority in 1995. This particular section of work will start in front of Biltmore Square Mall, extend under I-26 with a cased bore under the highway, and tie into an existing 6" main near Jim Barkley Toyota. The project will also include removal of a failed 6" pipe hanging under the Brevard Road bridge over I-26.

Eventually, a 24" transmission main will be extended along Brevard Road from I-240 to near Long Shoals Road, and will become part of a major transmission corridor from Henderson County as the Mills River Water Treatment Plant expands. The short section described above is needed now to restore a loop severed when the pipe on the bridge over I-26 failed due to age. By extending a 24" pipe now, we eliminate the need for a second costly bore under I-26 later.

Mattern & Craig has previously worked for the Water Authority in this area after the pipe failed on the bridge, and is very familiar with the work required. A favorable fee not to exceed $30,000 has been negotiated with Mattern & Craig which will provide engineering services through the completion of construction.

City staff recommends City Council's concurrence with the Regional Water Authority's action on February 16, 1999, to approve the award of an engineering services contract to Mattern & Craig, not to exceed $30,000, for engineering to complete a 24" water main extension along Brevard Road.

Amendment to Fees & Charges Manual regarding Recreation Center Rental Fee & Park Permit Fee

Summary: The consideration of a resolution revising the Fees and Charges Manual to amend the community center rental fees and temporarily waive park permit fees.

On January 19th, the City's Fees & Charges Committee held a public meeting to discuss revising the City's community center rental fee and park permit fee.

The City currently charges a minimum rental fee of $150 to various groups and organizations for private use of community centers during non-operating hours. This fee provides for three hours of usage, with an additional fee of $25 for each hour thereafter. Staff was asked by City Council to re-examine the current fee to determine how it compared with community center rental fees in other North Carolina cities. Based on survey data collected by Parks & Recreation staff, the Fees & Charges Committee is recommending that City Council revise its current community center rental fee to $50 per hour with no minimum fee. Usage that is less than a full hour will be prorated and charged in 30 minute increments.

The City also charges a $25 park permit fee to individuals or groups requesting the use of a park facility for a private function or event. This fee is set to defray the cost of additional maintenance and clean-up that the City incurs when a private function or event is held in a City park. *Food Not Bombs*, a non-profit organization, recently requested that due to the humanitarian nature of their service, they be allowed to use the City/County Plaza facility to serve food to homeless persons without paying the $25 park permit fee. Under current City policy, waivers of park permit fees are not granted for any individual or organization that uses a park facility for a private event, regardless of the nature of that event. In addition, it should be noted that services to the homeless are already being provided and supported in Asheville through various homeless shelters and programs. In light of *Food Not Bombs'* request, however, the Fees & Charges Committee is recommending waiving the park permit fee for 90 days to allow *Food Not Bombs* time to identify a funding source in which to pay the park permit fee in the future. Upon the conclusion of the 90 day waiver, *Food Not Bombs* will be required to pay the park permit fee for any future events held at Asheville park facilities as is required of all other individuals and organizations.

City staff recommends City Council approve the recommendations of the Fees & Charges Committee.

Offer to Purchase Two Vacant Lots on Sara Street

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer to purchase two vacant lots on Sara Street.

A bid from MGS, LLC, in the amount of $10,700.00, is not less than the established minimum prices for the property on Sara Street.

The two lots comprising 10,400 square feet are zoned residential and located in the Montford community. The topography is gently sloping down from street grade.

Approval of the resolution will initiate the sale of the Sara Street lots through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff recommends adoption of the resolution authorizing the City Clerk to advertise an offer to purchase two vacant lots on Sara Street.

Budget Amendment re: Public Information Officer

Summary: Over the past three to four months we have been trying to make staffing changes to accomplish a higher level of effort with regard to the Public Information Officer (PIO). The incumbent in that position (Community and Public Involvement) has assumed additional duties over the past several years. Those duties include cable television, Community Oriented Government, special projects involving media/advertising related matters, and others. It has become evident over that period of time as a result of the additional work, especially cable television, that we are not meeting the Council's or the organization's expectations of providing quality PIO services. I anticipate cable television becoming even more involved in the future. As you know, we want to expand the programming on the governmental channel. In addition we are working with Council to provide the framework for the educational and public channels. In order to provide a full range of PIO services to the City, I would like to add a position whose responsibility would entirely be the PIO function. I have discussed this with each of you over the past several weeks and feel that Council's expectations, and that of the organization, are greater than the service level we are currently providing. Since this is a mid-year addition to the budget, it would require a budget appropriation of $12,541. This appropriation is for one and a half month's salary, personal computer and related specialized software, and other items necessary to start a new employee in this type of job. We anticipate the recruiting, selection, and hiring process to take approximately ten weeks; therefore, our target date for having someone in the position is May 15, 1999.

Staff recommends Council appropriate $12,541 in order to fund the Public Information Officer position.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place these items on the next formal City Council agenda.

EDUCATIONAL ACCESS CHANNEL COMMISSION

Councilman Cobb said that the cable franchise agreement adopted by City Council designates three initial access channels to be used for public, educational and/or governmental programming. In November, 1998, City Council discussed several possible ways to organize the creation of the educational and public access channels. This presentation will address the formation of an educational access commission.

Notices were sent to Asheville City Schools, Buncombe County Schools, University of North Carolina at Asheville (UNC-A), Asheville-Buncombe Technical College (A-B Tech), the Asheville branch of Shaw University, the Council of Asheville Independent Parochial Schools, the local representative of North Carolina Home School Educators, and the Francine Delany Charter School. State and local officials were contacted to ensure that the accurate contacts were identified. Notices were also printed in the Asheville Citizen-Times and in CityWorks.

The first meeting was held on December 14, 1998. Representatives from Asheville City Schools, Buncombe County Schools, UNC-A, A-B Tech, and Citizens for Media Literacy were in attendance. A second meeting was held on January 14, 1999. The same members attended as well as Bob Brummond. All those on the original mailing list received notices of both meetings. The following recommendations were made concerning the ordinance establishing the Education Access Channel Commission.

Recommendations from the education community

- A 9 person Commission with membership as follows:
  2 members representing Asheville City Schools
  2 members representing UNCA
  2 members representing AB-Tech
  1 member representing Buncombe County Schools
  2 members at-large representing the public and organizations such as private schools, charter schools, home schools, MAHEC, The Health Adventure, etc.

- Delete the requirement of at least 60% educational programming and no more than 40% athletic programming. The programming mix, which includes athletics, should be determined by the Commission.

- The Commission members should serve four year staggered terms.

- The Commission should solicit wide-spread community input.

Recommendations from others interested in the Educational Access Channel Commission

- An 11 person Commission with membership as follows:
  2 members representing Asheville City Schools
  2 members representing UNCA
  2 members representing AB Tech
  1 member representing Buncombe County Schools
  4 members at-large representing the public and organizations such as private schools, charter schools, home schools, MAHEC, The Health Adventure, etc.

- The programming mix, which includes athletics, should be determined by the Commission. This mix should be of substantial educational interest.

- The Commission members should serve four year staggered terms.

- The Commission should solicit widespread community input.

Councilman Cobb said that he, Councilman Tomes and the City Manager request that a compromise including expanding the Buncombe County representation to a two and the at-large representation to three be considered. Given the fact that Charter has purchased InterMedia in this area, it is feasible that the educational access channel could become county-wide. If this occurs, having two members from Buncombe County Schools will be invaluable.

He said they also request that the Commission establish operating guidelines for the channel that will be reviewed and approved by City Council. This will maintain the integrity of the channel while allowing the educational community to work together to provide the best programming possible.

Ms. Robin Westbrook, Public and Community Information Coordinator, pointed out the following change to the proposed ordinance: The Commission shall serve four year staggered terms, with six of the first appointees serving four year terms and five of the first appointees serving two year terms so that the terms may be staggered.

Upon inquiry of Councilwoman Field, Ms. Westbrook talked about what kind of programming will be aired on this channel. Ms. Carolyn Moore from the Asheville City Schools also said the possibilities were unlimited, including using already prepared programs and also programs that they will have the opportunity to create. A representative from UNC-A talked about how they would be able to utilize this channel as well.

Ms. Westbrook responded to various questions from Council, some being, but not limited to: when will the educational channel go on the air; and will the Commission have access to the kind of material that is educational in nature, like on the Discovery Channel.

Mayor Sitnick said that she would like to see as much student produced material as possible.

Councilman Cobb hoped that in the future we can have live programming from the classrooms.

Councilwoman Field said that since there is a possibility of the educational access channel becoming regional or county-wide, she felt it would be good for the commission to look at how that would happen and how funding would be proportioned. Ms. Westbrook responded that there has already been some discussion in the group about that.

A representative from UNC-A said that UNC-A and A-B Tech do not have cable drops and requested the City ask InterMedia for those drops. City Manager Westbrook responded that they will work with InterMedia on that request.

Upon inquiry of Councilman Cloninger, Mr. Joe Haight, General Manager of InterMedia, said that all the free Internet cable drops are in except for four locations.

City Manager Westbrook responded to the question raised by Ms. Katherine Southerland about the progress of the public access channel.

Mr. Wally Bowen, representative of the Citizens for Media Literacy, was concerned about the following items relative to the public access channel: (1) the origination sites not at UNC-Asheville and A-B Tech, (2) how the money will be divided up amongst the educational, public and government channels; (3) the lack of progress on the public access portion; and (4) the rationale behind developing the Request for Proposals first and then appointing a commission. He hoped that Council will consider some collaboration between education and public access channels.

Mr. Talmadge Neece, representing the League of Women Voters, read a statement which urges City Council to consult with the Buncombe County Commissioners and the authorities governing other municipalities in the County with a view, first, to conforming the principles and conditions for public use of cable television channels in the county. The consultation should aim at a compact for the operation of common public television facilities for governments and the public of the entire county. The League is prepared to offer its guidance and oversight in working towards the accomplishment of this public vision. The League stands ready to submit a proposal which would strive for maximum public input into, public use of, and public benefit from, these dedicated channels.

Vice-Mayor Hay and Councilman Cloninger agreed that Council felt the best way to facilitate this was to develop our system as fully as we could and then invite others to join in. The City didn't want to put their system on hold until everyone was ready to join in.

Mr. Haight said the management and operational changes with Charter would not happen until the 3rd or 4th quarter of this year and he agreed that the educational access channel should be county-wide. He also said that he would be happy to work with A-B Tech and UNC-Asheville about the Internet drops.

Mayor Sitnick said that our responsibility to the educational access channel is clear and vivid and City Council is committed and dedicated in keeping the educational channel for education. Regarding the combination of the public access and education channels, she felt that there may be a possibility to combine operations and equipment as a cost savings device, however, City Council is committed to making sure that each channel serves their specific purpose in the community.

Mr. Jack Fobes spoke in opposition of the separation of the public access and education channels.

Ms. Gay Fox, representing the Vice-Mayor of Black Mountain Sara Marshall Rafter, urged City Council to wait and get the total input from all the communities before proceeding with the public access channel. In response, Mayor Sitnick said that every two months she and the City Manager meet with the other Mayors and City Managers in Buncombe County. She asked the City Manager to add to their topics of discussion cable and PEG cooperation.

Ms. Rebecca Campbell suggested City Council tour other cities that have successful public access channels.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

CHANNEL 20 UPDATE

Ms. Robin Westbrook, Public and Community Information Coordinator, updated City Council on what is being aired on the Government Channel (20). Some items aired are the City Council meetings, Open Net on Tuesday and Thursday nights, the community bulletin board, a program about the pedestrian thoroughfare plan, and other programs provided to them on a 3/4 inch format. She stressed that they are limited on the programs they can show because they do have to be on a 3/4 inch format.

Ms. Westbrook introduced Mr. Jeff Reble, the new Cable Access Coordinator for the City, who discussed ways to expand the channel, if the City had more equipment.

Vice-Mayor Hay suggested that the times the City Council meetings will be aired should be included in CityWorks as well as on the City's Home Page.

Vice-Mayor Hay wondered if it was possible, during the airing of the City Council meeting, that the agenda be shown to let the public know exactly what topic they are discussing if they happen to tune in to the show during the middle of the meeting. City Manager Westbrook responded that the equipment to do those specialized features is expensive, however, Ms. Westbrook is working on a partnership that will allow us to borrow some of that equipment so we will have the capability of providing some of those specialized features.

Mayor Sitnick suggested that during the taping of the City Council meetings, that the camera stationed near the front of the room be moved a little more to focus on the speaker or the audience.

Councilwoman Field felt that the interview session of Ms. Westbrook relative to the water situation that was aired on the Government Channel was very informative. Ms. Westbrook responded that we did have to pay for the production time, however, it was at a minimal cost and considering the number of time it ran, it was an excellent way of getting the information to the community.

Mayor Sitnick suggested Ms. Westbrook contact Karen Rankin and other people on the Litter Committee to develop a program that focuses on the upcoming Asheville-Buncombe Clean-Up Campaign being kicked off on March 25. Mayor Sitnick also suggested the possibility of other boards, like the Planning & Zoning Commission, Board of Adjustment and the Tree/Greenway Commission, being taped for viewing on the Government Channel.

After a brief discussion regarding the taping of the City Council meetings once the renovation work was completed in the Council Chamber, it was the consensus of Council to have staff explore the ways of having City Council meetings be shown live and still have the capability of showing them more than once.

SKATEBOARD PARK PRESENTATION

Mr. Irby Brinson, Director of Parks and Recreation, said that the Parks and Recreation Department is seeking City Council's approval to proceed with the development of a Skateboard Park at the corner of Flint and Cherry Streets.

For almost two years, the Skateboard Task Force has been working toward the development of a permanent skateboard park. The criteria that was established early on specified a need to find a location that was close to the downtown area in order to assist in solving the problems with skateboarders in the downtown business area. City Council authorized staff to develop a temporary site located at the top of the Civic Center Parking Deck. This temporary site has been open since August of 1998 and has been a tremendous success. The park averages 40 - 50 participants during good weather and has virtually stopped complaints received by the Police Department and downtown merchants concerning skateboarders. Staff has met with representatives from the N. C. Department of Transportation and discussed preparation of an encroachment agreement which would allow the City to use this property to develop the park. Staff has also contacted Bell South who currently uses the area for parking and solicited their approval to this proposal if additional parking can be found for them at other locations. Staff is proposing that the gravel lot located on the west side of Flint and Cherry Streets be enhanced and expanded to include additional parking spaces not only for Bell South employees but also for overflow parking for the Civic Center. The Task Force has presented a conceptual design for the Skateboard Park to the Montford Community Club and has received overwhelming support from them for this location. It is anticipated that the cost for the park will be approximately $150,000 - $200,000 with additional funding needed for parking improvements to the parking area on the west side of Flint and Cherry Streets. Staff is soliciting private donations to assist in the funding for this project.

The Skateboard Task Force is soliciting City Council support to (1) proceed with the development of the Skateboard Park at the corner of Flint and Cherry Streets; (2) authorize the City Manager to enter into any agreements with the North Carolina Department of Transportation for the use and development of this property; and (3) keep the temporary site located at the top of the Civic Center Parking Deck open until a permanent site is built.

Upon inquiry of Councilman Cobb relative to charging a fee for use of the new Skateboard Park, Mr. Brinson said that the Task Force is debating that issue. Councilwoman Field felt that there may be other ways to off-set the expense of the Park other than to charge the children that use it.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

LAKE CRAIG/JOHN MOYER PROPERTY

Mr. Irby Brinson, Director of Parks & Recreation, said that this is the consideration of a resolution to proceed with investigating the purchase of properties known as the Lake Craig and John Moyer properties.

Mr. Brinson said that for several years, the Parks and Recreation Department has been working towards the purchase of 68 acres in East Asheville known as the Lake Craig property.

The property is located near the Swannanoa River adjacent to the Recreation Park operated by Buncombe County Recreation Services. The Lake Craig Task Force was formed in 1996 and is made up of RiverLink, Western North Carolina Soccer Foundation, Western North Carolina Youth Sports Complex, and the City of Asheville. The intended use for this property would be to develop soccer fields and other facilities on this site. The Parks, Recreation and Greenway Bond has earmarked $2 Million for the Lake Craig property. There are still some outstanding issues, for example, property surveys have to be obtained and there is a need for a feasibility study, and soil compaction and tests.

In addition, approximately 1 year ago, the Public Works Department approached Parks and Recreation Department with regard to developing a partnership to expand this project to include the purchase of property owned by John Moyer.

Ms. Suzanne Molloy, Assistant Director of Public Works, and Ms. Karen Rankin, Solid Waste Coordinator, explained that after working with a charter team and evaluating our customers' needs, the Public Works Department has decided to develop a Natural Resource Facility to provide a central location for a composting/mulching facility, a small educational eco-park to showcase the usage of recycled materials and backyard composting demo-sites, and to utilize a site for beneficial fill activities for long-term park development needs. The 78-acre tract will help in the proper management of the City's organic resources and inert debris that can be re-used and recycled. The current methods for managing these materials is not sustainable. White Fawn Reservoir is closing due to its reaching its capacity.. Henson's is relocating and the City's passive leaf composting site on Broadway is too small. Should the city not develop a facility, a transfer station would have to be sited to transfer all of these materials to the Buncombe County Landfill at an estimated annual cost of $700,000 a year. The Moyer property is a logical alternative due to it's central location, prior land usage and potential for park develop. Benefits of site include: located within the city; convenient access for crews and residents; Swannanoa River Greenway link; potential for long-term use; cost savings over current operations; and revenue opportunities.

Ms. Molloy explained the following site development requirements which must be addressed: infrastructure development (roads, bridges); Blue Ridge Parkway Viewshed; composting and mulching must be allowed at parks facilities (UDO); and stormwater management/wetland remediation.

Mr. Brinson said that the next steps would be: surveys and appraisals; community input from public input sessions, informational material, and on-site open house; engineering and planning studies; and phased site construction.

The Parks and Recreation Department and the Public Works Department request City Council's approval to proceed with investigating the purchase of both the Lake Craig Property and the John Moyer Property. In addition, both departments are requesting City Council's approval to work with adjacent property owners and other interested parties in discussing plans for the property and to solicit their input prior to bringing this back to City Council for formal adoption.

City Council spoke in support of this project noting it was an excellent example of a public/private partnership, parks and recreation is the highest and best use for the property, and the location will be ideal for out of town travelers since it is close to hotels, motels and eating establishments right off of I-40.

Upon inquiry of Councilwoman Field about traffic concerns on Azalea Road, Mr. Brinson said that they will address that in their feasibility study.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

At 5:20 p.m., Mayor Sitnick announced a short break.

Councilman Tomes moved to change the agenda and add the I-26 Connector Project discussion at this time. This motion was seconded by Councilwoman Field and carried unanimously.

I-26 CONNECTOR PROJECT DISCUSSION

Mayor Sitnick said that at no point has she ever asked the N.C. Department of Transportation ("NC DOT") or any member of the NC DOT to halt or delay the I-26 Connector Project. It is clear that the I-26 Corridor is almost complete, that we cannot be building a road to nowhere and we must accommodate whatever flow of traffic occurs on the I-26 Corridor when it comes to the Asheville area. She did not appreciate the fact that she has been told that because questions have been asked by herself and other members of City Council that we have halted the project by expressing concern and asking for answers that have been asked of us by our constituents. Most of the phone calls she has been getting are from members of the business and residential community thanking City Council for asking the questions we have been asking. They have been unsatisfied by the information they have received at the public hearing and at the National Guard Armory many months ago and wanted us to satisfy their concerns and, that's what we did. When the NC DOT representative came to the worksession, we asked questions relating to air pollution, noise, construction dirt, the transporting of hazardous waste and nuclear materials through our City, the increase in drug trafficking when highways go through cities, the increase of accidents involving large trucks, and the increase of litter. The citizens have also asked why are we building this road through the City for trucks that really want to just get to the other side of the City. She said that it appears that an elected body who chooses to ask questions of a state agency is somewhat punished by being told that they have delayed a very important project. We have never asked for a delay or for the project to be halted. City Council simply wanted to be responsive and accountable to the taxpayers and citizens of Asheville.

Councilman Cobb said that he was never opposed to the I-26 connector, however, they did not think the route should be through the City of Asheville. He asked that if it is true that City Council's questioning of the project did delay the project, he wanted a letter from the State stating that was the reason for the delay. He felt that if the I-26 connector route is the appropriate route, it should stand up for scrutiny and questions.

Councilwoman Field explained what she understood was the reasoning for the delay of the I-26 connector project. She said that the Asheville Connector is funded separately and is on a different tract from other NC DOT projects. The bond money appropriated for all connector projects was to be spent by a certain date within two years. The Asheville Connector was originally scheduled to be funded in the first year. After the NC DOT meeting in West Asheville, they discovered they had to do an environmental justice impact process so that delayed the project eight months and knocked the project out of the first year funding. When the NC DOT representative came to the City Council worksession and Council asked them to look at the possibility of going to 6 lanes instead of 8 lanes, they said that they would need to research traffic studies, etc. and that slowed them down. As a result of our request, that knocked us out of the second year funding. We are now in the third year of funding. She was upset that NC DOT did not point out at the time the request was made for them to look at the 6 lanes vs. 8 lanes that the research would knock them into the third year funding. She said that even though we may not agree on where the connector should go, or whether to widen from 6 or 8 lanes, she felt the entire Council agreed that the project should continue and perhaps a resolution in support of the timely completion of the project would be appropriate.

Mayor Sitnick said that since Asheville is topographically challenged, concerns about truck traffic are legitimate. She also said that since the original plan was to go to 6 lanes, she didn't understand why they had to go back to the drawing board to research the Council's request.

Mayor Sitnick noted that we still have received no response to the questions raised at the worksession from NC DOT. She suggested City Council write individual letters to Secretary Tolsen to let him know how you feel about this project and the timely completion of it. She also suggested a formal stand be made and that Council consider adopting a resolution stating that the City Council is committed to support the timely completion of the I-26 Connector Project.

Councilman Tomes said that regardless of route is ultimately decided upon, that the environmental justice issues be embedded in the construction.

Upon inquiry of Councilman Cobb, Councilwoman Field said that the reason why they chose this route through the City was that it was the least expensive, the shortest distance, had the least impact on the community, and solved a lot of other problems.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

COUNCIL CHAMBER RENOVATION

Mr. Lyle Willis, Construction Manager, said that this is the consideration of a resolution authorizing the City Manager to enter into construction renovation and media equipment contracts for renovation of the City Hall Council Chamber.

City staff, upon direction from City Council, has developed construction renovation drawings and design specifications through Electronic Interiors Inc. and Mathews & Glazer Architects to renovate the City Hall Council Chamber. The City of Asheville solicited sealed bids from general contractors to renovate the Council Chamber. City staff along with the Office of Minority Affairs reviewed all bids and have determined the lowest responsible bidder to be A&B Construction & Development, Inc., including a base bid amount of $179,403 plus bids for Add Alternate #1 at $17,300 and Add Alternate #3 at $9,723.

Alternate 1 consists of the stand alone electronic presentation kiosk, housing a 37" monitor, rear screen projector, camera port, video-camera recorder and computer tower. Alternate 3 consists of a moveable wheelchair lift.

City staff have estimated costs for the electronic media presentation equipment to be installed once the construction renovations are complete and have broken-down the costs into two separate phases. The first phase includes the basic media equipment needed and the second phase includes the electronic presentation equipment needed. This would allow for the equipment to be purchased and installed over two separate funding years. City staff will solicit sealed bids for the Phase I media equipment separately and award a contract to the lowest responsible bidder when funding as been approved by City Council.

Mr. Willis reviewed the total costs of the two separate phases. The first phase would include the construction renovations, contingency, miscellaneous furniture and the basic media equipment for $289,803. The second phase would include Add Alternates #1 and #3 and the electronic presentation equipment for an additional $134,023.

Funding has not been approved and City Council will need to appropriate funding for the project prior to contracts being awarded.

348

The Parks and Recreation Department staff requests City Council: (1) direct the City Manager to appropriate funding for Phase 1 for $289,803; (2) enter into a general contract with A&B Construction & Development Inc. for the base bid amount of $179,403; and (3) direct the City Manager to solicit bids for the basic media equipment and enter into a contract with the lowest qualified bidder for the media equipment.

Discussion surrounded the construction portion of the amount being driven by the Asheville-Buncombe Historic Resources Commission ("HRC") in that they did not want mounting of electronic hardware in the historic furniture currently located in the Council Chamber.

Mr. Jeff Reble, Cable Access Coordinator for the City, explained what the basic media equipment would include, noting that if Council wanted to have the capability of having City Council meetings be shown live and still have the capability of showing them more than once, additional equipment would need to be purchased, in an approximate amount of $20,000.

Councilman Cloninger expressed concern about the amount of money the renovation will cost. He noted that the Chamber has served the public through the years and that we just need to improve the acoustics; make exhibits more visible for the public and City Council; and be able to televise the City Council meetings. He was concerned that approximately $100,000 would have to be spent because of HRC's decision. He also questioned why HRC would want the City to remove the historic furniture out of the Council Chamber just to be stored and not be able to use it in the historic Council Chamber.

Upon inquiry of Councilwoman Field if the desks in the Council Chamber are indeed the original desks, Mr. Willis said that City Council has established an ordinance which established the Council Chamber as historic along with its contents.

Mayor Sitnick said that this renovation work is in part getting ready for a paperless City Council package. She agreed with Councilman Cloninger in that we want to provide the best coverage for the public, however, the question is how much do we need to spend on it. She basically wanted everyone to hear, see the exhibits, and having the meeting aired on television frequently.

Upon inquiry of Councilwoman Field, City Manager Westbrook said that this appropriation would be coming out of Fund Balance. He noted that the City currently spends $25-30,000 annually for the City Council meetings to be televised.

When Mayor Sitnick asked if we can cut some of this cost anywhere, Mr. Willis responded that this is the tightest package that will work getting this production to television.

Upon learning that the contractor's bid bond would expire on March 14, 1999, it was the consensus of City Council to have the City Attorney write a letter to the contractor asking if the City can obtain a 30 day extension on their bid bond.

It was the consensus of City Council to have Councilwoman Field and Councilmen Cloninger and Tomes meet with the HRC Chair or other members of HRC to discuss the HRC's decision and other options available.

PROPERTY MANAGEMENT FOR COMMUNICATION FACILITIES

Mr. Gerald Green, Senior Planner, said that this is the consideration of a resolution authorizing the City Manager to enter into a management agreement with MetroSite Management, LLC, for the marketing and management of City properties for the location of communications facilities.

In late 1998, the City of Asheville solicited proposals for the marketing and management of City properties for the location of communications facilities. Two qualified proposals were submitted; one by CityScape Siting and Management, Inc. and one by MetroSite Management, LLC. After reviewing the proposals, comparing the merits of each, and assessing the ability of each firm to achieve the objectives identified by the City, staff is recommending that an agreement be entered into with MetroSite Management for the marketing and management of City properties for the location of communications facilities. Staff's recommendation is based on the following factors:

- MetroSite conducts an audit of City property to identify the appropriateness of each property for the location of communications facilities. CityScape requires that City staff identify the properties which are to be marketed;
- Based upon the information submitted in the proposal, MetroSite conducts more aggressive marketing of City property for communications facilities;
- MetroSite's plan of action is more comprehensive and meets more of the objectives established by the City for this effort; and
- MetroSite provides for the input and approval of the City on lease negotiations and agreements while CityScape reserves the exclusive right to enter into lease agreements.

Although MetroSite's management fee is higher than CityScape's (33.3% of gross lease revenue versus 25%), it is felt that the higher fee is offset by the audit of City property conducted by MetroSite and the firm's aggressive marketing campaign. As part of our recommendation, staff requests that MetroSite's plan of action either be included as part of the final management agreement or referenced by the management agreement.

Staff recommends that a management agreement be developed and entered into with MetroSite Management, LLC for the marketing and management of City properties for the location of communications facilities. The plan of action prepared by MetroSite and submitted as part of their proposal should be either included as part of the final management agreement or referenced by the management agreement.

Councilman Cloninger wanted to make sure that that the consultant studies our current telecommunications facilities ordinance in order to help further the City Council's goals with regard to telecommunication facilities.

Mayor Sitnick asked that the record show that City Council has received this information and instructs the City Manager to place this item on the next formal City Council agenda.

REPORTS ON BOARDS/COMMISSIONS

OTHER BUSINESS

Councilman Cloninger recognized Councilman O.T. Tomes as being recognized by the Land-of-Sky Regional Council as the Outstanding Person of the Year. He received the award for his outstanding contributions to improved human relations and human services with area impact on the entire region. His was a key role in establishing the ABCCM Doctors Medical Clinic, the Minority Infant Mortality Reduction Project, the Positive African American Males (Males Mentoring) Project and "Building Bridges." When told some of these concepts would not work, he persisted and built consensus. These programs have brought medical care to unserved persons, mentored young males, eliminated increases in infant mortality and brought community healing. He has extended his commitment to dialogue and consensus to service on the Asheville City Council and the Regional Council. His nomination says "Rev. Tomes speaks the truth in love. He motivates others towards effective change. He promotes greater understanding through communication. He builds consensus .... He is not afraid to confront tough issues, expose painful areas, and brings about healing."

ADJOURNMENT:

Mayor Sitnick adjourned the meeting at 7:10 p.m.

Magdalen Burleson
CITY CLERK

Leni Sitnick
MAYOR

Tuesday - March 9,1999 - 5:00 p.m.

Regular Meeting

Present:	Mayor Leni Sitnick, Presiding; Vice-Mayor Edward C. Hay Jr.; Councilman Earl Cobb; Councilman Thomas G. Sellers; and Councilman O.T. Tomes; City Attorney Robert W. Oast Jr.; City Manager James L. Westbrook Jr.; and City Clerk Magdalen Burleson
Absent:	Councilwoman Barbara Field (National League of Cities Congress of Cities meeting in Washington, D.C.) and Councilman M. Charles Cloninger (Making Cities Livable Conference in St. Augustine, Florida)

INVOCATION

Mayor Sitnick gave the invocation.

I. PROCLAMATIONS:

A. RECOGNITION OF PLAYERS AND COACHES INVITED TO INVITATIONAL INTERNATIONAL BASKETBALL TOURNAMENT IN ASHEVILLE'S SISTER CITY SAUMUR, FRANCE

Mayor Sitnick recognized Dr. Robert Merrill, the players and coaches who will be attending the first Invitational International Basketball Tournament in Asheville's Sister City Saumur, France.

B. PROCLAMATION PROCLAIMING MARCH 7-13, 1999, AS "GIRL SCOUT WEEK" IN THE CITY OF ASHEVILLE

Councilman Sellers read the proclamation proclaiming March 7-13, 1999, as "Girl Scout Week" in the City of Asheville. He presented the proclamation to Ms. Patsy Meldrum, President of the Pisgah Girl Scout Council, and Ms. Judy Vernon, Girl Scout Troop #26 Leader, who briefed City Council on some activities taking place during the week.

C. PROCLAMATION PROCLAIMING MARCH 7-13, 1999, AS "DENTAL ASSISTANTS RECOGNITION WEEK" IN THE CITY OF ASHEVILLE

Councilman Cobb read the proclamation proclaiming March 7-13, 1999, as "Dental Assistants Recognition Week" in the City of Asheville. He presented the proclamation to Ms. Enana Houston, President of the Dental Assisting Class at A-B Technical College.

D. PROCLAMATION PROCLAIMING MARCH 15-19, 1999, AS "FINANCIAL FITNESS WEEK" IN THE CITY OF ASHEVILLE

Vice-Mayor Hay read the proclamation proclaiming March 15-19, 1999, as "Financial Fitness Week" in the City of Asheville. He presented the proclamation to Mr. Tom Parker who briefed City Council on some activities taking place during the week.

E. PROCLAMATION PROCLAIMING MARCH, 1999, AS "WOMEN'S HISTORY MONTH" IN THE CITY OF ASHEVILLE

Mayor Sitnick read the proclamation proclaiming March, 1999, as "Women's History Month" in the City of Asheville.

F. RECOGNITION OF COUNCILMAN TOMES

Mayor Sitnick recognized Councilman Tomes as being awarded the Outstanding Person of the Year by the Land-of-Sky Regional Council.

II. CONSENT:

Mr. Tom Lewis, Chairman of the Carrier Heights Neighborhood Association, asked that Item G. be removed from the consent agenda to be discussed individually.

A. RESOLUTION NO. 99-40 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH METROSITE MANAGEMENT, LLC, FOR THE MARKETING AND MANAGEMENT OF CITY PROPERTIES FOR THE LOCATION OF COMMUNICATION FACILITIES

Summary: The consideration of a resolution authorizing the City Manager to enter into a management agreement with MetroSite Management, LLC, for the marketing and management of City properties for the location of communications facilities.

In late 1998, the City of Asheville solicited proposals for the marketing and management of City properties for the location of communications facilities. Two qualified proposals were submitted; one by CityScape Siting and Management, Inc. and one by MetroSite Management, LLC. After reviewing the proposals, comparing the merits of each, and assessing the ability of each firm to achieve the objectives identified by the City, staff is recommending that an agreement be entered into with MetroSite Management for the marketing and management of City properties for the location of communications facilities. Staff's recommendation is based on the following factors:

- MetroSite conducts an audit of City property to identify the appropriateness of each property for the location of communications facilities. CityScape requires that City staff identify the properties which are to be marketed;
- Based upon the information submitted in the proposal, MetroSite conducts more aggressive marketing of City property for communications facilities;
- MetroSite's plan of action is more comprehensive and meets more of the objectives established by the City for this effort; and
- MetroSite provides for the input and approval of the City on lease negotiations and agreements while CityScape reserves the exclusive right to enter into lease agreements.

Although MetroSite's management fee is higher than CityScape's (33.3% of gross lease revenue versus 25%), it is felt that the higher fee is offset by the audit of City property conducted by MetroSite and the firm's aggressive marketing campaign. As part of our recommendation, staff requests that MetroSite's plan of action either be included as part of the final management agreement or referenced by the management agreement.

Staff recommends that a management agreement be developed and entered into with MetroSite Management, LLC for the marketing and management of City properties for the location of communications facilities. The plan of action prepared by MetroSite and submitted as part of their proposal should be either included as part of the final management agreement or referenced by the management agreement.

RESOLUTION BOOK NO. 25 - PAGE 168

B. RESOLUTION NO. 99-41 - RESOLUTION AUTHORIZING A CONTRACT WITH MATTERN & CRAIG FOR ENGINEERING SERVICES FOR EXTENSION OF A 24-INCH TRANSMISSION WATER MAIN ALONG BREVARD ROAD

Summary: The consideration of a resolution concurring with the Regional Water Authority's action on February 16, 1999, to approve the award of an engineering services contract to Mattern & Craig, not to exceed $30,000, for engineering to complete a 24" water main extension along Brevard Road.

On December 15, 1998, the Water Authority adopted a budget resolution amending the 29 Fund to allow available contingencies for the Mills River Water Treatment Plant to be transferred for engineering expenses to extend an existing 24" water line in Brevard Road. This extension will be part of a future major transmission loop as recommended in the long-term Master Plan adopted by the Water Authority in 1995. This particular section of work will start in front of Biltmore Square Mall, extend under I-26 with a cased bore under the highway, and tie into an existing 6" main near Jim Barkley Toyota. The project will also include removal of a failed 6" pipe hanging under the Brevard Road bridge over I-26.

Eventually, a 24" transmission main will be extended along Brevard Road from I-240 to near Long Shoals Road, and will become part of a major transmission corridor from Henderson County as the Mills River Water Treatment Plant expands. The short section described above is needed now to restore a loop severed when the pipe on the bridge over I-26 failed due to age. By extending a 24" pipe now, we eliminate the need for a second costly bore under I-26 later.

Mattern & Craig has previously worked for the Water Authority in this area after the pipe failed on the bridge, and is very familiar with the work required. A favorable fee not to exceed $30,000 has been negotiated with Mattern & Craig which will provide engineering services through the completion of construction.

City staff recommends City Council's concurrence with the Regional Water Authority's action on February 16, 1999, to approve the award of an engineering services contract to Mattern & Craig, not to exceed $30,000, for engineering to complete a 24" water main extension along Brevard Road.

RESOLUTION BOOK NO. 25 - PAGE 169

C. RESOLUTION NO. 99-42 - RESOLUTION AMENDING THE FEES AND CHARGES MANUAL REGARDING THE RECREATION CENTER RENTAL FEE AND THE PARK PERMIT FEE

Summary: The consideration of a resolution revising the Fees and Charges Manual to amend the community center rental fees and temporarily waive park permit fees.

On January 19th, the City's Fees & Charges Committee held a public meeting to discuss revising the City's community center rental fee and park permit fee.

The City currently charges a minimum rental fee of $150 to various groups and organizations for private use of community centers during non-operating hours. This fee provides for three hours of usage, with an additional fee of $25 for each hour thereafter. Staff was asked by City Council to re-examine the current fee to determine how it compared with community center rental fees in other North Carolina cities. Based on survey data collected by Parks & Recreation staff, the Fees & Charges Committee is recommending that City Council revise its current community center rental fee to $50 per hour with no minimum fee. Usage that is less than a full hour will be prorated and charged in 30 minute increments.

The City also charges a $25 park permit fee to individuals or groups requesting the use of a park facility for a private function or event. This fee is set to defray the cost of additional maintenance and clean-up that the City incurs when a private function or event is held in a City park. *Food Not Bombs*, a non-profit organization, recently requested that due to the humanitarian nature of their service, they be allowed to use the City/County Plaza facility to serve food to homeless persons without paying the $25 park permit fee. Under current City policy, waivers of park permit fees are not granted for any individual or organization that uses a park facility for a private event, regardless of the nature of that event. In addition, it should be noted that services to the homeless are already being provided and supported in Asheville through various homeless shelters and programs. In light of *Food Not Bombs'* request, however, the Fees & Charges Committee is recommending waiving the park permit fee for 90 days to allow *Food Not Bombs* time to identify a funding source in which to pay the park permit fee in the future. Upon the conclusion of the 90 day waiver, *Food Not Bombs* will be required to pay the park permit fee for any future events held at Asheville park facilities as is required of all other individuals and organizations.

City staff recommends City Council approve the recommendations of the Fees & Charges Committee.

RESOLUTION BOOK NO. 25 - PAGE 170

D. RESOLUTION NO. 99-43 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE USE AND DEVELOPMENT OF A SKATEBOARD PARK AT THE CORNER OF FLINT AND CHERRY STREETS

Summary: For almost two years, the Skateboard Task Force has been working toward the development of a permanent skateboard park. The criteria that was established early on specified a need to find a location that was close to the downtown area in order to assist in solving the problems with skateboarders in the downtown business area. City Council authorized staff to develop a temporary site located at the top of the Civic Center Parking Deck. This temporary site has been open since August of 1998 and has been a tremendous success. The park averages 40 - 50 participants during good weather and has virtually stopped complaints received by the Police Department and downtown merchants concerning skateboarders. Staff has met with representatives from the N. C. Department of Transportation and discussed preparation of an encroachment agreement which would allow the City to use this property to develop the park. Staff has also contacted Bell South who currently uses the area for parking and solicited their approval to this proposal if additional parking can be found for them at other locations. Staff is proposing that the gravel lot located on the west side of Flint and Cherry Streets be enhanced and expanded to include additional parking spaces not only for Bell South employees but also for overflow parking for the Civic Center. The Task Force has presented a conceptual design for the Skateboard Park to the Montford Community Club and has received overwhelming support from them for this location. It is anticipated that the cost for the park will be approximately $150,000 - $200,000 with additional funding needed for parking improvements to the parking area on the west side of Flint and Cherry Streets. Staff is soliciting private donations to assist in the funding for this project.

The Skateboard Task Force is soliciting City Council to (1) support to proceed with the development of the Skateboard Park at the corner of Flint and Cherry Streets (2) authorize the City Manager to enter into any agreements with the North Carolina Department of Transportation for the use and development of this property; and (3) keep the temporary site located at the top of the Civic Center Parking Deck open until a permanent site is built.

RESOLUTION BOOK NO. 25 - PAGE 171

E. RESOLUTION NO. 99-44 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE AN OFFER TO PURCHASE TWO LOTS ON SARA STREET

Summary: The consideration of a resolution authorizing the City Clerk to advertise an offer to purchase two vacant lots on Sara Street.

A bid from MGS, LLC, in the amount of $10,700.00, is not less than the established minimum prices for the property on Sara Street.

The two lots comprising 10,400 square feet are zoned residential and located in the Montford community. The topography is gently sloping down from street grade.

Approval of the resolution will initiate the sale of the Sara Street lots through the upset bid process as provided in N. C. Gen. Stat. sec. 160A-269.

Planning staff recommends adoption of the resolution authorizing the City Clerk to advertise an offer to purchase two vacant lots on Sara Street.

RESOLUTION BOOK NO. 25 - PAGE 173

F. ORDINANCE NO. 2551 - BUDGET AMENDMENT RELATIVE TO THE CITY'S PUBLIC INFORMATION OFFICER

Summary: Over the past three to four months we have been trying to make staffing changes to accomplish a higher level of effort with regard to the Public Information Officer (PIO). The incumbent in that position (Community and Public Involvement) has assumed additional duties over the past several years. Those duties include cable television, Community Oriented Government, special projects involving media/advertising related matters, and others. It has become evident over that period of time as a result of the additional work, especially cable television, that we are not meeting the Council's or the organization's expectations of providing quality PIO services. It is anticipated cable television becoming even more involved in the future. As you know, we want to expand the programming on the governmental channel. In addition we are working with Council to provide the framework for the educational and public channels. In order to provide a full range of PIO services to the City, the City Manager would like to add a position whose responsibility would entirely be the PIO function. He has discussed this with each Council member over the past several weeks and feel that Council's expectations, and that of the organization, are greater than the service level we are currently providing. Since this is a mid-year addition to the budget, it would require a budget appropriation of $12,541. This appropriation is for one and a half month's salary, personal computer and related specialized software, and other items necessary to start a new employee in this type of job. We anticipate the recruiting, selection, and hiring process to take approximately ten weeks; therefore, our target date for having someone in the position is May 15, 1999.

Staff recommends Council appropriate $12,541 in order to fund the Public Information Officer position.

ORDINANCE BOOK NO. 17 - PAGE 274

G. **MOTION SETTING A PUBLIC HEARING ON MARCH 23, 1999, TO CONSIDER A CONDITIONAL USE PERMIT FOR TRINITY BAPTIST CHURCH**

This item was removed from the Consent Agenda to be discussed separately.

H. **MOTION SETTING A PUBLIC HEARING ON MARCH 23, 1999, TO ZONE SECTION 12 OF BILTMORE PARK RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT**

I. **MOTION SETTING A PUBLIC HEARING ON MARCH 23, 1999, TO REZONE 49 ACRES LOCATED OFF GERBER ROAD FROM INDUSTRIAL DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT**

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolutions and ordinances and the Consent Agenda and they would not be read.

Councilman Sellers moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Tomes and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL DISCUSSION

MOTION SETTING A PUBLIC HEARING ON APRIL 13, 1999, TO CONSIDER A CONDITIONAL USE PERMIT FOR TRINITY BAPTIST CHURCH

The consideration before Council at this time is the setting of a public hearing on March 23, 1999, for a Conditional Use approval and permit, as outlined in the Unified Development Ordinance (UDO), for Trinity Baptist Church located at 216 Shelburne Road in West Asheville.

This project is for the expansion of the existing church facility. The project will include a 2400 seat sanctuary, youth classrooms, and a recreational facility. The project has been submitted and reviewed under Level Three - subsection 7-5-9(A) of the UDO by the Technical Review Committee. They approved this project with several conditions which the developer has addressed and resubmitted revised site plans. This property is within the City Limits of Asheville.

City Council must take formal action as set forth in subsection 7-5-5 (E) 2 and shall state if the proposed conditional use meets or does not meet each of the standards set forth in subsection 7-16-2 (C). Those standards are outlined below:

Conditional Use Standards:

1. That the proposed use or development of the land will not materially endanger the public health or safety;
2. That the proposed use is reasonably necessary for the health and general welfare, such as by enhancing the successful operation of the surrounding area in its basic community functions or by providing an essential service to the community or region;
3. That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;
4. That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density and character of the area or neighborhood in which it is located;
5. That the proposed use or development of the land will generally conform with the Comprehensive Plan and other official plans adopted by the City;

6. That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and
7. That the proposed use will not cause undue traffic congestion or create a traffic hazard.

Recommended findings on these standards will be submitted to Council in a staff report prior to the public hearing.

The Planning staff and the Technical Review Committee state that this project meets all the technical standards for development in the RM-6 zoning district.

City staff recommends City Council set a public hearing on March 23, 1999, to consider a Conditional Use approval and permit for Trinity Baptist Church located at 216 Shelburne Road in West Asheville.

Mr. Tom Lewis, Chairman of the Carrier Heights Neighborhood Association, asked that this public hearing be scheduled at a later date in order to give their attorney more time to prepare their report. He also noted that their attorney has a conflict with the March 23, 1999, date.

A representative from Trinity Baptist Church said that they have been working diligently in these matters and asked that the public hearing be scheduled on March 23, 1999.

Upon inquiry of Councilman Cobb, City Attorney Oast said that the Neighborhood Association has filed an appeal with the Board of Adjustment relating to another permit that was granted on the same property. The substance of the appeal is that it challenges the Zoning Administrator's determination that the proposed use is a church use. The Board of Adjustment will hear that matter on April 26, 1999.

Mayor Sitnick that this is a very complicated issue and we have been very understanding for a number of requests that have come before us for delays and for postponements and we want to make sure that everyone has enough time to present their case. Therefore she would vote in favor of setting the public hearing on April 13, 1999.

Councilman Tomes moved to schedule the public hearing for a Conditional Use approval and permit for Trinity Baptist Church on April 13, 1999. This motion was seconded by Vice-Mayor Hay and carried on a 4-1 vote, with Councilman Sellers voting "no".

III. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO REZONING 25 WHITE PINE DRIVE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT

Mayor Sitnick opened the public hearing at 5:34 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Mike Matteson, Urban Planner, said that this is the consideration of an ordinance to rezone 25 White Pine Drive from RM-8 Residential Multi-Family Medium Density District to Highway Business District.

James Kim (owner) and Arthur Carter (petitioner) are requesting to rezone 25 White Pine Drive from RM-8 Residential Multi-Family Medium Density District to Highway Business District. The property totals approximately 1.53 acres and is currently vacant. Surrounding zoning consists of Highway Business to the east, Regional Business to the south, RM-8 to the north and RS-4 to the west. Surrounding land uses are commercial to the south and east, single-family residential to the west and multi-family residential to the north. The property is located between the Kenilworth Forest neighborhood and the commercial corridor along Tunnel Road.

The RM-8 zoning district is a medium density multi-family residential district which permits residential development at a density not to exceed eight units per acre. The Highway Business zoning district was established to address the needs of commercial development along major thoroughfares. A wide range of commercial uses is permitted within the Highway Business zoning district.

The Planning and Development staff is recommending denial of the rezoning request for the following reasons:

- There is already significant traffic on this portion of the street due to the Asheville Mall entrance. The City of Asheville Public Works Department has noted existing traffic safety problems which could become worse with any additional traffic.

- The Highway Business zoning district allows a very wide range of uses. The rezoning could have a negative effect on both the Kenilworth Forest Neighborhood, as well as the apartments which are already bordered by commercial development to their east.

- The existing multi-family zoning provides a good transition between Tunnel Road and the single-family neighborhood to the west.

At their November 4,1998, meeting, the Planning and Zoning Commission voted unanimously to recommend denial of the rezoning request.

Mayor Sitnick said that on March 4, 1999, a letter was received from Art Carter to Gerald Green as follows: "As we discussed Wednesday, March 3, 1999, I am asking for a postponement of our hearing with the City Council, Tuesday, March 9, 1999 concerning the property at 25 White Pine Drive. We are making this request for two reasons: first, several people associated with preparing the presentation, including myself, have been ill with the flu. Secondly, there have been some developments pertaining to access that may make it possible for other options concerning this property. Please notify me if there is a problem concerning this request for postponing the hearing."

Upon inquiry of Vice-Mayor Hay about why this was presented to the Planning & Zoning Commission in November and the public hearing is being held in March, Mr. Matteson explained that Mr. Carter requested the public hearing be scheduled for March so that they could have a traffic engineer design all the options of putting traffic on Tunnel Road.

Mr. Jimmy Boyd, 26 East Shore Drive, said that he was opposed to continuing this matter any further. At Mr. Boyd's request, five audience members raised their hand to agree with him.

Mr. Art Carter, representative of the Real Estate Group of Asheville and also owner of the subject property, said that he is asking for a continuance in order to have a more detailed presentation regarding the traffic situation, however, he is prepared to address the Council at this time.

Because Mr. Carter was prepared to address Council, it was the consensus of City Council not to postpone the hearing.

Upon inquiry of Vice-Mayor Hay, Mr. Matteson said that during the UDO mapping, staff proposed this area to be zoned RM-16, however, the Neighborhood Association was opposed to that and the area was ultimately zoned RM-8.

Mr. Carter said that during the Planning & Zoning Commission hearing in November, the only objection by the neighborhood was that they did not want traffic on White Pine Drive because of the steep hill and already existing traffic problems. His proposal is that they want to access to Tunnel Road. He said the property the nail salon is on is zoned commercial and they will have access and egress through that property to Tunnel Road.

Mr. Fred Martin, immediate past President of the Kenilworth Forest Community Club, spoke in opposition to the rezoning request noting that anything in the Highway Business District can be built on that property. He was concerned about the already existing traffic problem on White Pine Drive and strongly objected to any rezoning of that property.

Mr. Norman Lewis, adjoining property owner, was also concerned about what could be built on that property if it is rezoned and was totally opposed to the rezoning request.

Ms. Virginia May, 27 White Pine Drive, spoke in opposition of the rezoning and felt that if the property were to be rezoned, that commercial district would be right up against a residential district.

Mr. Phil Noblett, 297 White Pine Drive and former President of the Kenilworth Forest Community Club, spoke in opposition of the proposed rezoning. He stressed there is already an ingress/egress problem on Tunnel Road, especially at that location of the nail salon property. He felt that people would want to avoid trying to get onto Tunnel Road and come onto White Pine Drive and get to the traffic signal. He felt that the proposed zoning change would encroach into the residential neighborhood.

Mr. Jimmy Boyd spoke in opposition to the rezoning noting that the nail salon property is owned by Exxon, not by the owner of the subject property requesting to be rezoned.

City Attorney Oast cautioned City Council that the underlying ownership of property is not part of Council's consideration on the rezoning request, because the parcel that is being requested to be rezoned could be sold tomorrow and the access could be cut off.

Councilman Tomes voiced concern of the encroachment into the residential neighborhood.

Mayor Sitnick said that her main concern is the neighborhood encroachment and the already existing traffic problems of exiting and entering the property from Tunnel Road.

Mr. Carter said that the nail salon property is owned by the owners of the property being requested to be rezoned and that Exxon does not own that property. He said that they would be willing to give a one-foot buffer on the Springside Park and White Pine Drive portions of the property to ensure that they will be no traffic onto White Pine Drive.

Mayor Sitnick closed the public hearing at 6:04 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

There being no motion made to rezone the property, the decision of the Planning and Zoning Commission stands to deny the rezoning petition.

B. PUBLIC HEARING RELATIVE TO REZONING PROPERTY LOCATED ON LIVINGSTON STREET, SOUTH FRENCH BROAD AVENUE AND CHOCTAW STREET FROM OFFICE BUSINESS DISTRICT TO OFFICE II DISTRICT

Due to a conflict of interest, Vice-Mayor Hay moved to excuse Councilman Tomes from voting. This motion was seconded by Councilman Cobb and carried unanimously.

City Attorney Oast explained that Councilman Cloninger and Councilwoman Field are both out of town and Councilman Tomes is excused from voting. Therefore, under the General Statutes in order to adopt an ordinance to rezone this property on the first reading, it would require an affirmative vote of five members of Council and there is only a four member quorum present. Even if all four Council members vote in favor of the rezoning, the rezoning request would still have to advance to the next formal meeting at which time City Council would have to vote again.

Mayor Sitnick was concerned that if the public hearing was held today, the other two Council members would not have the benefit of hearing all comments before they were required to vote.

Councilman Cobb moved to continue this public hearing until March 23, 1999. This motion was seconded by Councilman Sellers and carried unanimously.

C. PUBLIC HEARING CONSIDERING THE AMENDMENT TO THE CHARTER AND RELATED LAWS OF THE CITY OF ASHEVILLE TO PROVIDE FOR SELECTION OF THE MAYOR AND CITY COUNCIL BY NON-PARTISAN ELECTION AND RUNOFF

Mayor Sitnick opened the public hearing at 6:10 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

City Attorney Oast said that this is the consideration of an amendment to the City Charter to change the method of election of Mayor and Council to General Election – Runoff.

He reviewed with Council the current method of election (non-partisan primary and general election) and the method under consideration (general election and run-off).

a. Legal Authority. Part 4 of Article 5 of Chapter 160A permits a municipality to modify certain aspects of its form of government by amending its Charter. This is accomplished by adopting an ordinance following a public hearing. One of the forms of government that may be changed in this way is the manner of election of the Mayor and Council. Past recent changes have included; at large election of the mayor; non-partisan elections; and four-year staggered terms.

b. Process. Currently, the manner in which the Mayor and Council are elected is by primary-general election. In order to change this to the general election - runoff method, Council must first adopt a resolution of intent to consider an ordinance effecting the change. At the time the resolution of intent is adopted, the Council must also set a date for a public hearing on the proposed change, to be held within 45 days. The public hearing must be advertised at least once, not less than 10 days prior to the date of the hearing. At a regular meeting following the public hearing, but not more than 60 days thereafter, the ordinance effectuating the change may be adopted. This will involve amending Section 6 of the Charter.

At its meeting on February 23, 1999, Council adopted Resolution No. 99-37, the Resolution of Intent to consider an ordinance making the proposed change, and setting the public hearing for March 9, 1999. As pointed out above, the ordinance cannot be adopted at this meeting; the earliest that a vote on the ordinance could occur would be the formal meeting on March 23.

c. Effect on timing of election; filing. Pursuant to G.S. 163-279, for cities using the non-partisan primary-general election method, the general election is held on the first Tuesday after the first Monday in November, and the primary is 4 weeks earlier. When the method is changed to general-runoff, the runoff is held on the first Tuesday after the first Monday in November, and the general election is four weeks earlier. It appears that the filing date for elections under this system would be the same as it currently is. G.S. 163-294.2(c).

d. Effect on voting. Assistant City Attorney Patsy Meldrum has explained through illustrations how the election-runoff system works, as compared to the primary-election system currently in use. She has provided you with information on election returns and voter turnout in cities where the election-runoff system is used.

e. Other issues. The statute provides that the ordinance amendment may be put to a vote of the people, either by Council, or by a petition signed by 10% of voters qualified to vote in municipal elections. Obviously, if this occurs, the timing of the process will be altered.

After the public hearing, Council may schedule a vote on the proposed change, and staff will draft a proposed ordinance. As noted, the earliest this could occur would be your March 23 meeting; it must occur, if at all, within 60 days, or by May 8.

At the request of Vice-Mayor Hay, Ms. Meldrum reviewed the information City Council requested from New Hanover County Board of Elections regarding the voter turnout for the last six municipal elections of the City of Wilmington.

Ms. Laura Whitley, Mr. Brian Peterson and Mr. David Whitley all were opposed to City Council making any changes in their election process at this time. Some reasons were that they felt the October general election would result in a lower voter turnout, especially since people are familiar with the general elections being held in November for national elections; this change may make it more difficult for lesser known candidates; there will be more significant adverse affect on minority candidates, and Council needs to keep the election process consistent and easy to follow.

Mayor Sitnick closed the public hearing at 6:22 p.m.

Upon inquiry of Vice-Mayor Hay, City Attorney Oast said that City Council (1) can schedule a vote on the proposed change which must occur, if at all, within 60 days, or by May 8; or (2) do nothing and the election process will remain the same.

Vice-Mayor Hay said that he was the Council member who requested changing the election method of City Council be investigated. After going through the process and having his questions answered, he felt that City Council should not make a change in the election method at this time.

Councilman Tomes thanked Vice-Mayor Hay for bringing this issue up for discussion, however, he, too, felt that our current election method should remain.

Councilman Cobb felt that moving the general election to October will reduce voter turnout and felt that this issue should be put to a vote of the people. He would like to see Council limit campaign expenses. City Attorney Oast responded that limiting campaign expenses is not something that can be done by Charter amendment.

Councilman Sellers supported the election method remaining the same as it currently is.

It was the consensus of Council not to schedule a vote on the proposed change.

D. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF NON-CONTIGUOUS CITY-OWNED PROPERTY KNOWN AS THE "RICHMOND HILL PROPERTY"

ORDINANCE NO. 2552 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE CITY-OWNED PROPERTY KNOWN AS THE "RICHMOND HILL PROPERTY"

Mayor Sitnick opened the public hearing at 6:32 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Paul Benson, Urban Planner, said that this is the consideration of a resolution stating the intent of the City of Asheville to consider the annexation of noncontiguous property known as the "Richmond Hill Property."

In order to annex City-owned property, the North Carolina General Statutes specify that the City Council initiate the process by adopting a resolution stating its intent to annex the property, and to fix a date on a public hearing to permit any resident of the City to appear and be heard on the question of the desirability of the annexation.

This annexation area would be a satellite annexation as it is not directly adjacent to the existing corporate limits. The standards for such annexations are specified in N. C. Gen. Stat. sec. 160A-58.1 and include: (1) The annexation area may not be more that 3 miles from the existing corporate limits; (2) The annexation area may not be closer to another city or town; (3) The city must be able to provide the same services to the annexation area that it provides in the rest of the city; (4) If the area is part of a subdivision, the entire subdivision must be included; and (5) The sum of the area in satellite areas may be no more than 10% of the area in the primary corporate limits. This area meets these standards.

The Richmond Hill property consists of 183 acres located between Richmond Hill Drive, Adams Hill Road and the Norfolk Southern Railway tracks along the French Broad River. It is located approximately 70' west of the existing City limits along Richmond Hill Drive. Both water and sewer lines are not extended to the property, but are available approximately 250' to the east of the property.

Mayor Sitnick closed the public hearing at 6:35 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2552. This motion was seconded by Vice-Mayor Hay and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 276

E. PUBLIC HEARING TO CONSIDER THE ANNEXATION OF NON-CONTIGUOUS CITY-OWNED PROPERTY KNOWN AS THE "BENT CREEK PROPERTY"

ORDINANCE NO. 2553 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE CITY-OWNED PROPERTY KNOWN AS THE "BENT CREEK PROPERTY"

Mayor Sitnick opened the public hearing at 6:36 p.m.

City Clerk Burleson presented the notice to the public setting the time and date of the public hearing.

Mr. Paul Benson, Urban Planner, said that this is the consideration of a resolution stating the intent of the City of Asheville to consider the annexation of noncontiguous property known as the "Bent Creek Property."

In order to annex City-owned property, the North Carolina General Statutes specify that the City Council initiate the process by adopting a resolution stating its intent to annex the property, and to fix a date on a public hearing to permit any resident of the City to appear and be heard on the question of the desirability of the annexation.

This annexation area would be a satellite annexation as it is not directly adjacent to the existing corporate limits. The standards for such annexations are specified in N. C. Gen. Stat. sec. 160A-58.1 and include: (1) The annexation area may not be more that 3 miles from the existing corporate limits; (2) The annexation area may not be closer to another city or town; (3) The city must be able to provide the same services to the annexation area that it provides in the rest of the city; (4) If the area is part of a subdivision, the entire subdivision must be included; and (5) The sum of the area in satellite areas may be no more than 10% of the area in the primary corporate limits. This area meets these standards.

The Bent Creek property consists of two tracts of land which together are located between Brevard Road and I-26 along the French Broad River. One tract consists of 137 acres and the other tract consists of 1.78 acres. The tracts are located approximately 4,500' south of the existing City limits in the Biltmore Square Mall area. The two tracts together are served by both water and sewer.

When Mr. Brian Peterson asked if this satellite zoning would change any requirements that the City has to adhere to if they wanted to annex any property in between the satellite area and the existing corporate limits, City Attorney Oast said that any contiguous annexation would have to satisfy the annexation standards.

Mayor Sitnick closed the public hearing at 6:40 p.m.

Mayor Sitnick said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Tomes moved for the adoption of Ordinance No. 2553. This motion was seconded by Councilman Sellers and carried unanimously.

ORDINANCE BOOK NO. 17 - PAGE 279

IV. UNFINISHED BUSINESS:

A. RESOLUTION NO. 99-45 - RESOLUTION SUPPORTING THE TIMELY COMPLETION OF THE I-26 CONNECTOR PROJECT

Mayor Sitnick read the resolution stating that the I-26 interstate project will be completed by the year 2002 and the completion of this section of I-26 will complete a missing link in the interstate system. She said that as the economic and cultural center of Western North Carolina, Asheville needs the completion of the I-26 interstate system. The Asheville City Council requests that the North Carolina Department of Transportation reevaluate its recent decision to postpone funding of the I-26 connector in Asheville. After reevaluation of the connector project, the City Council requests that immediate funding for the I-26 connector be contemporary and coordinated with the completion and opening of Interstate 26.

Councilman Cobb said that he has never been against the I-26 connector in this project going into Ohio. When this was originally discussed there were four alternative routes. He personally feels like the one west of Asheville, by-passing Asheville, was the best choice. He hoped that City Council questioning whether where the route goes did not stop the money from the N.C. Dept. of Transportation. He said that he has notes from Raleigh that all the connectors across the entire State have been delayed two years because they ran out of money. He said that we do need the money and we need it now. We need to get the project complete. He hoped that with all of the N.C. Dept. of Transportation's expertise will select the route that will have the least impact on the quality of life of Asheville.

Mayor Sitnick said that "I would first like to go on record by saying that this is a personal statement from me and does not reflect any opinions held by other members of the Asheville City Council. I would like to first say that at no point have I ever asked the DOT or any member of the DOT to halt or delay the I-26 Connector project. It is clear to anybody who knows that the I-26 Corridor is almost complete, that we cannot be building a road to nowhere and we must accommodate whatever flow of traffic occurs on the I-26 Corridor when it comes to the Asheville area. But frankly, I must also say that I don't appreciate the fact that I have been told that because questions have been asked by myself and other members of City Council that we have halted the project by expressing concern and asking for answers that have been asked of us by our constituents. Most of the phone calls I have been getting are from members of the business and residential community thanking City Council for asking the questions we have been asking. They have been unsatisfied by the information they have received at the public hearing and at the National Guard Armory many months ago and wanted us to satisfy their concerns and, that's what we did.

"I feel, personally, that we were upholding our responsibility and accountability to the tax payer by asking these questions. Perhaps some of these questions should have been asked by the business community as well. I have received many, many phone calls from Asheville business owners and residents alike with questions that run the gamut regarding the impact of the I-26 Connector. Topics including air pollution, noise, construction dirt, the transporting of hazardous waste and nuclear materials through our City, the increase in drug trafficking when highways go through cities, the increase of accidents involving large trucks (like the accidents and truck safety issues that have been profiled in our local newspaper recently). There are questions about the increase in litter that occurs when we bring traffic through town and about where folks will live and move their businesses to. The people have also been asking why are we building this road THROUGH the City for trucks that really want to just get to the other side of the City. There are also people who are wondering why the State is spending so many millions of dollars to accommodate traffic from outside of our State when that money could be better used to pave roads and repair sidewalks and build new sidewalks and greenways and bicycle paths.

"Those are some of the questions that I have been hearing from the people who elected me to represent them and, quite frankly, I would have felt remise if I had not asked these questions. Considering the fact that we are topographically challenged here in Asheville and are in an inversion factor 78% of the time, the questions about our air quality are questions that are important to ask. The Governor and The Secretary of the Department of Environment and Natural Resources will be holding a Summit here in April on Mountain Air Quality, so clearly, there is a concern statewide about the conditions of our air here in the mountains.

"I want to make it perfectly clear that as important an issue as the roadway discussion is, I consider it equally important that a City Council, asking questions of the DOT, would essentially be punished for asking those questions by having an important project delayed. I also find it curious that a little ole City Council here in Asheville can stop the DOT dead in its tracks all the way to Raleigh. The DOT historically has had opponents and proponents to their projects and I don't know that public opposition to a project has ever really stopped them from doing the things they felt they needed to do.

"At this point, it is my hope as Mayor of the City of Asheville, that the questions we are asking will be answered, that the project is completed in a timely manner, using the best route to bring us into the 21st Century. I want to make sure that we are making a decision that will carry us two or three decades into the future This Connector will be impacting our City, our area, and our region for many, many, years to come and I hope that we do it right for the long term. Things have changed in the seven or eight years since the Committee looked at this and we need to know what those changes imply regarding roads that are going to be coming through the middle of our beautiful City."

Mayor Sitnick said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Sellers moved for the adoption of Resolution No. 99-45. This motion was seconded by Councilman Tomes and carried unanimously.

RESOLUTION BOOK NO. 25 - PAGE 174

V. NEW BUSINESS:
